Chaimens and the Bists—His reg-ular and earnest study of the Bible was one of the first and most noticeable ef-fects of his conversion. His nearest one of the first and most notices in effects of his conversion. His nearest neighbor and mest frequent visitor was old John Bonthron; whe, having once, seen better days, was admitted to an easy and privileged familiarity, in the exercise of which, one day before the memorable illness, he said to Mr. Chalmers, "I find you aye busy, air, with one thing or another; but come when I may, I never find you at your atoles for hat the Sabbath." "O, an hour or two on the Sabbath." "O, an hour or two on the Sabbath." "O, an hour or two on the Sabbath." "The difference was too striking the case had come, and Mr. Chalmers poring eagerly over the pages of the Bible. The difference was too striking the case pe notice, and with the freedom given him, which he was ready snough to use, he said, "I never come in now, sir, but I find you aye at your Bible." "All too little," was the significant was ly

The Hen, and Rev. H. W. Hilliard will deliver o commoncement sermon of the Oak Bowery Fe-ale College, on Sanday, the 15th June. [For ndence, see fourth page.]

Mr. T. B. Thorpe, of Baion Rouge, has been certed by the Literary Societies of Centenary Colors to address them at the next annual commence.

BISHOT CAPERA.—We are pleased to learn, says the Augusta (Ga.) Republic of the 13th inst, that this distinguished divine is rapidly recovering from a severe attack of illness, which has confined him for the pest two weeks, at the residence of our fallow-citizen, John H. Mann, Req. His physician blive differ, will son be able to resume his jour appearable, to altend the meeting of the St. Lenis Conference. He was on his way to that cint, when his journey was arrested by this unex-

# A New Edition of the Book of Disci-

The South Carolina Conference, at its last session, resolved unanimously that an edition of the Book of Discipline, amended by having the Ninth Section expunged, should be published for circulation within its bounds. We happy to state that the committee this purpose have succeeded without embarrassment in executing the resolve of the Conference. An expanged ment in executing the of that bearing the imprimatur of John Early, identical in all respects with the connectional edition, with the exception of the necessary alteration on the title page, and the omission of the second part—that on Slavery. This second part—that on Slavery. This section, the fruitful source of so much trouble to the Methodist Church—seting forth a doctrine to which none of us e 8. C. Conference have over snbto it by order of the last General Conforence, to have "long since become inoperative and esased by common consent to set forth a practical rule or principle," is without ceremony discarded from the book as it ought to have been long since. The reason for this is found in the fact that the misrepresentation and false position occasioned by the section, have worked damage to the best inter-ests of the Methodist Church in the Conference aforementioned; from the limbilities of which, inasmuch as the General Conference declined affording the relief sought, the South Carolina Conference, on the principle of self-preservation, has been compelled to relieve herself. The book now is a safe one; the "rule," inoperative in every way ox-cept that of working mischlef among us, has been thrown overboard; the taboo h restrained its oirculation ls offaced; and it can be taken safely into ilies of our members. The new edition is for sale at the Charleston Methodist Book Room; and the Agent, Mr. Stoy, is prepared to execute all orders with promptness. Terms the same as in the edition "by authority."

We exceedingly regret to find tho above Editorial in the Southern Christian Advocate of the 16th inst. It gives information of an important and startling fact. An Annual Conference of the Methodist Episcopal Church South, has formally discarded the "cennectional edition" of the Discipline, and published another to suit itself-and this in open defiance of the Geogral Conference. What are we coming to?

feel desirous that, if the General Conshould be expunged. Had the honer is good: to excel them is better. and responsibility of casting a vote, on the motion to "strike out," at the last session, been ours, we should have been found with the minority.

But the question was fairly discussed the South Carolina Conference was lighted and hung around richly, and the General Conference with flags—as it seemed to us—from all one hundred dollars annually? Is the cussion, and the General Conference with flags—as it seemed to us—from all one hundred dollars annually? Is the processor, to expunge the nations. The exercises of declamation, less a salary for an addition? With the second to the conference of the conferen Ninth Section. After snoh decision. from which there is no appeal, our adherence to the Discipline, as it is, reselves itself into attachment not to the section itself but to Connectional Methouism" May any Annual Conference, after fail; ing to carry a point through its representatives on the floor of the General Conference, take the matter into its own hands and do what the General Conference ought to have done? Then this going up quadrennially to General Conference, and carrying grave questions for discussion and decision there, is all'a farce: it is only for the amusement of the Delegates-traveling a little and speaking a little. If the General Conference will only do what it ought to be preachers, because they have to preach; yes, sir, regularly preach through the paper. But, yeu say, "Cannot early some of the greater mysteries of program and integrated must be a layment to preach?" On, yes, one of the greater mysteries of program are attempted to be made plain and image sixe to the opening mind. The other class of persons think there are the repair and integrated must be made plain and image sixe to the opening mind. The other class of persons think there are the repair and image sixe to the opening mind. The other class of persons think there are the repair and image sixe to the opening mind. The other class of persons think there are the repair and image sixe to the opening mind. The other class of persons think there are the motion that mean are the persons the motion that mean are the persons the presence of the presence of the persons the presence of the persons the presence of the persons the p

Christian Advocate clina Conference new occupies, in have at the singular display, or hereties, must ing changed the Book of Discipline net have had some impressive truths made only without the consent hut centrory known to them, from the "mouths of to the recent and explicit decision of the babes and sucklings." General Conference. It matters not whether in a small matter or great the change was made, the principle is the ame. The action is in direct and bold subversion of Connectional Methop-18M. It is a beginning, eminous of a disastrons ond an end, we fear, that is

not far off. NEW SERMONS -- Of course every preacher will road the article, a Sermonnually-taking a new course through it. Doubtless, it would be of signal benefit to mony pastors and flecks if some heaps of valuable manuscript sermens cenld be (accidentally) burned up.

DR. Levick Pierce-A. B. Society. late Anniversory of the American Bible, around right.

. We had oloquent and heart-stirring speakers, from California to Paris. The Protestant Christian world, it appeared to me, was represented on the platform, at least in hely feeling and love. Dr. Pierce, of Goorgia; Mr. Frelinghuysen, lyu, and Rev. Leon Pilatte, of France, vere the speakers.

Dr. Picroe, now the eldest effective member of the Goorgia Conference, was evidently much indisposed, still his odlress was characterized by that pseuliar force, argnment, interest and impressiveness which so long have mode him a conspicuous and celebrated pulpit orater of the South. He is one of the Bible Society's Agents in Georgia, and hastens eme to-day for his work ogain.

He declared it to he his henest senti-

ment that the circulation of God's word nniversally among the people wes the sure cure of the political difficulties, strifes and differences now existing in our land, and that the circulation and belief of its hely doctrines would insure more than any thing else the bappiness and perpetuity of our BLESSED UNION.

THE BANNER CARCUITS-A corres oondont, of East Alabamo, writes ?

gave last year of its efforts in behalf of Missions has waked up a lively emulatiou in the Macou Circuit. The good brothers of the Macon Circuit say we shall not earry the banner. They have already raised about \$1800, and expect to raise that amount to \$2500. I should not be surprised if they toke the banner. If they de, however, they will richly dessroe the honor. We will enleavor to do our duty, and beside that will have the pleasure of knewing that we have stimuloted them to increased diligence in good works.

Really, this is giving it up; we are serry to see it. The Enon Circuit has and applaud your skill, etc., but aronse the same zealous and indefatigable Carthem by shot after shot, kindling a burn- of the grace of God, and the support of the who led it in the var of the Mission ing fire around, that shall make the my dear Redeemer, it is my purpose, if And is it so, that our much boasted of the same zealous and indefatigable Car-As to the section in quostion, we reper felt any attachment to it, and did feel desirous that, if the General Conference in its wisdom might see fit, it ject. SECOND ROUND of Quarterly Meetings for De mopolis District, Alabama Conference.

serpent. This was the only chapel I saw that did not have an organ in the saw that did not have an organ in the gallery. In an alcove behind the pulpit, are inscriptions on unarble slabs set into the wall, in memory of John Westington at 15 p. M. and to commence at 15 p. M. and to Lower Ceach-tree Circuit......

Incidents of Foreign Travel

In taking leave of Scotland I went on heard a steamer for Liverpoel. 1 regretted to leave beautiful Scotland in July for a warmer clime. Of all coun tries, it is doubtless, the most pleasunt nings, the high state of cultivation, its peaceable and refined society and its Christian privileges. Her hardy and industrious sons evidence a salubrious

country. The steamers go erowiled with passengers from Glasgow to Liverpool, and if deck passengers uro an indication, there is more traveling among the poor than among the rich. Their ill-contrived strength, to stand the rough sea. One gantly furnished; the table is well supplied, and in the neatest style. Once never-failing article attends the Scotch steamers - alcohol, which seems a faver. ite with all classes. At ten at night hot giu slings were dronk by both sexes, prepared by each one as he or she liked. in silver cups, with speens. kept on board for the sele purpose. The Scots are quite sociable when traveling, and partienlarly to an American, by making inquiries concerning his country-concerning slanderous statements made by their own countrymen who have traveled in the State", and which are reiterated: in their newspapers-for instance, whether parents exercise authority over their children; whether the Americans e New Orleans Leves. The agents of Bankwere are not destitute of the real love of home, arising from their system of gov. ernment. My reply was, that such a question from a British subject seemed more like irony than sincerity, as threefifths of their emigrants went to the States instead of onigrating to their own colouics. And as to the first quesion, if a want of parental authority was the cause of public turbulence and

> tions, and inuiates of prisons, were priocipally foreigners from the British Isles. We passed by the pleasant little isle of Man, in the Irish Sea. It has about fifty thousand inhabitants. On the east side is Douglass, the capital. Ilow delightful these islands for summer residences! They are continually fanned hy a hrefize from the salt water, so that the extremes of heat and cold are never felt; but theu there are thousands of human heings to whom these small islands are all the world. There they live and die, and never leave their shores. Contentment is true happiness, en a small scale.

and anarchy, the instigntors of insurred

About eighteen hours' sail brings us again to Liverpool. This city appears the most familiar to me. The Starsand Stripes are floating in every dock, being nearly one-fourth of all the shipping that comes into the Mersey. What American does not feel a nation ni pride as he sees un Americau ship! as if eonscious of her superior strength, size, heauty and speed, moving majestically along, distancing all others in the world. I noticed the pride of English masters was mortitied, and usually spoke of it. This immense scaport brings people of all nations to it, who go in throngs on Water street. I saw very few Africans in England. The first I noticed was a hlind object of pity, standing in a thoroughfare, asking alms of the passers by,

who seemed scarcely in notice him. The next I saw in Edinburgh, on Sabbath, in chnrch, enscouced het ween two Scotch lasses, in the center of the house. The distance to Leudon by the traio esting meeting, resulting in the accesting needing in the oity and cloud of smoke resting over sign to our Church of seven persons, it were all behind us. Every thing has who joined on probation. With my assistance, he commenced again on Thursday, the 8th inst., and preached every day till Sunday; and this also proved a grain—but strange to see no Indian very interesting and impressive ocea-siou, from which we are encouraged to in the new-mown hay which filled the hope for gracious results. O, for a deep air with its sweet fragrance. The thick and general revival of the work of God shaded and thriving forests, occasionally

a canal winding its course along the base of hills from village to village, make a variegated laudscape, of the CHURCHES IN INDIANA—There was in Indiana make a variegated laudscape, of the 1899-thurches, and the value of church property is \$1,899,711, as appears by the narshulls returns.

The Methodist Episoopal Churches are 617, and the church property \$426,175. Number of Old. School Presbyterian Churches 118, and the church property 123,000. The Name of the N property \$133,000. The New School Presbyterians pool to London, every day. I confess have 71 Churches, and property of the value of \$107,725. The regular Baptist Churches are 265, expectation: as often as any way leading the confess of the confes expectation; as eften as any way, lowstone houses, corner-wise to with small windows, cluttered with small out-houses, and semetimes the stable is the most conspicuous house on the promises. Mest of them are the homes of tenants, consequently are barely made-comfortable by the occupants. Many of them are covered with only thatch or common straw, which lasts four er five years, and then must be newly covered. The common mass make little or ne improvement in their house hold furniture, but the same as a century oge; their coslumo corresponds. It was rather amusing to see men working in hay making, en a hot summer day, with cordurey breeches and long steek ngs buckled at the knees, and close cap drawn-nearly over the cars. But their deep-rooted habits, mingled with superstition, like the laws of the Medes and Persians, are not easily changed. The. rain enters at a remote part of thocity, which made it nearly three miles to Gity-Road, Chapel, which is just north of the city preper. This chapel was huilt under the direction of Mr. Wesley, and is fermed of brick, 70 by 80 feet. Its exterior looks time worn, but no signs of decay. It has a small -yard in froot with an iron fence. The heuse is entered by a small pertice. It has a gallery on three sides, supported by pillars in imitation of marble. In a few feet apart, in front of the gallery, a dove a carved on the facing, encircled with a screent. This was the only chapel I saw that did not have an organ in the gallery. In an alcove behind the pupit, are inscriptions on unarble slabs set

wall. There is also a large room attached to the chapel, for meetings and offi-cial purposes; and besides, a vestry, as many of the chapels have. In the same yard is the parsenage built by Mr. Wesley; on the other side of the walk is the sexton's house. Here was Mr. Wesley's private study and library. Behind the chapel is a small cometery is the center stands a monument to the renerated founder of Methedism. It is bailt of beautiful light sandstone, about 15 feet in height, of quadrangular form, terminating in a vertex, and resting on a beautiful pedestal, with an inscription a beautiful pedestal, with an inscription a beautiful pedestal, with an inscription on it; about midway of the shaft is on it; about midway of the shaft is on the passengers. The California papers express much regret at his teenll from that command. enclosed with an iron fence, and by it stands a beautiful alder, from which I stands a beautiful alder, from which I plucked a sprig, and preserved it in a book. A hard beaton path loads to the consecrated spot whore thousands annually visit. Near by is the tomb of Dr. Adam Clark, of the same material, of obleng form. A few feet farther is that of Richard Watson, and at some discountered with the consideration, and the resence of the State from its endaturation, in the catabilishment of its credit on a sound basis, and its former prosperity mainly depended his the Watson, with which the consideration, was drawn by Mr. Marchy. of Richard Watsou, and at sonio disconsideration, was drawn by Mr. Marehy, and is consideration, was drawn by Mr. Mareh loubs are all that honor the romains of these master spirits, while almost in sight are creeted equestrian bronze statne in memory of George IV and William IV, by whom the world was little benefitted. The English burial grounds. are very gloemy; the tombs usually are built of dark stone, with little or no shribbery and ne order.

low tomb, with the insertption nearly defaced and rather obsence, is all that years after the day of sale; achool-hauses, corresponds on the resting place of this man of God. Not far from this lies Dr. Isaac Watts; over him is a tomb similar to Jahn Bunyan's. Plain, comment

Billiard subtrace with a significant position of a side and an interpretation of a significant position of a side and an interpretation. The side of t

of tess value than specified on their face, a penal offence.

E. General Green thought there could be no doubt that the private coins insued in San Francisco by Molfat, Baldwia and others, were intended to decaive and mislead the peblic by their likeness to the United States coin; and were virtual counter-test, lie the been occasionally deceived by them himself; and on a recent visit to the United States found a quantity of this coin in his possession which he was obliged to pass at a loss of one dollar mevery flee dollars. The General showed a few specimens of Molfat's five dollarspieces, which he pronounced the grossest kind of ewindling. He hoped something would be done to stop the evil and panish the alfenders.

Objections were made that the law could not be carried into effect. Finally, it was referred to a

S. Marshal, are the prominent candidates for noxt divorons of California.

The Fugfive Slave Ugse.—This case, which has executed in little interest in our community, was been admerous importations are many a vices, and even though the receipta at ombouse have decreased for some weeks we have decreased for some weeks as important in the influx of foreign we have a way got gambling saloons equal liveness and laxury to the most fashionals in Paris and Loadon, as in Paris and Loadon, as in Paris and Loadon, as in Paris and Loadon, but there are a vast namy shops, and some of thoir are fitted ap large in titled, as a superficient to show the state of the Sabbatt. Six thousand disregard of the Sabbatt. Six thousand to God. There is more fain, flighting, and while I write, hondreds of haged to God. There is more fain, flighting, and while I write, hondreds of haged and that almy thus any other as annoneing a Sanday concert at Casser and the least that the proposition of the case was alway of the case was alway of the case was alway of the law, he was incapable of assenting to come. Heace, his being brought here does not come within the acts of Congress ander the provisions relating to persons secaping brought and oppressions. The evidence addaced with many atores, billiard rooms, and public to God. There is more fain, flighting, and while I write, hondreds of haged and that almy thus any other as annoneing a Sanday concert at Casser and the station, Mayor Kingsland has call his force to shut up the drinking and the station of the polece catalylish. The Mining Intelligence is of a contribution of the survey of the survey of the little interest in our community, was been dead to do the substant.

S. Marshal, are the program in the form that administion of the little heard in the closuring the disclarate of the hond of program in the force in the pole of the polece catalylish. An order to the lood of the polece eatalylish at attempt.

The Mining Intelligence is of a contrudictory character, and the intelligence is of a c

cheracter, and the intelligence as disjointed that it is difficult to arrive at a correct opinion from the is difficult to arrive at a correct opinion from the news direct from the minos. We hear of discoveries of gold in antried places, and bave accounts of them who have come in with flourishing results of their labors for months past. Other accounts are gloomy, and fepresent the prospect, in many places, as very plor. We give some extracts from the Sacramonto papers:

Sacramonto papern:

We have received news from Feather and Yuba Rivers, and the accounts are not flattering. The great quentilies of anow that have fallon have

proved disastrous in the prospects of the miners. At Onion Valloy the show was deep, and it is impossible in approach within Iwonly-five miles of the possible in approach. There was a great scarcity of provisions at Poor Man's Greek. Soventy-five men had left three in a body, travolling on foot to Onian Valley, and especting in get supplies there, and when they arrived there, found that none could be obtained.

Real Estate.—There are few transactions in real estate, except those made under the force of circamstances. Prices generally are declining, though good water lots see in deniand. Rents are on the decline gradually. They must still inriher decline to allow a prolltable business to be done at present prices for goods.

Dry Goods.—Clothing of all kinds, boots, shoes, etc. are over ahandant, and dull of sole at low prices. Linen goods are somewhat in request, while woolleins and cottons are declining.

Provisions—A decline must also be acted in these articles, consequent apon large; stocks and heavy importations, conjoined with an almodance of fresh programmes. Except produce they witgo lower than now, and indeed an improvement may be looked for.

Sugar.—Raw sugarn have declined sevender.

ter, wondors that the Government at Hagota shid

of the 5th limit.

There is a survelore in New Criesna, who wesre in Sindar Parsing sog that cost \$5.3, and jewelry worth \$200.—\$27. We have seen, in this city, around the neck of a active girl, thereby one American double sugles. (\$120)-linked lingeller suns it form a chain. On the persons of two others, we have seen from \$330xt to \$5000t wurth'id pearls and diamonds, with limit leads of dollars worth of rich bace, and yet, all work liars formed, deeming shoes and stockings unconversary to complete their costume.

Another letter, dated the 18th ult., from Mr. Riddle, agent of the American Committee in Lou-don, at the great exhibition, is published in the In-

doin, at the great exhibition, is published in the indoin, at the great exhibition, is published in the intelligencer. The writer eaps that the Americans,
though hast in the field; are foremost in the march
to completisp. With but law exceptions, the American contributors enlisted with a characteristic intional energy, in the work of preparation, and,
without regard to appearances, volunteered their
services for any and every work that the day or
ograshon has required. He adds—

White our neighbors lave juparted mechanics
and Inhorate from their workshees and farms at
horate is the otter impossimity of bring arrisans
in London, it has been necessary only to pass the
word aming our pende with archere that he add
was needed at the "Lystat Palaco," to insure at
every branch of work, and in every department of
labor, efficient and graininous superintenderms.—
In many of air manufactures, there is already
much interest taken by members of the Royal
Commission, and others who have the entree of
the building. In our barriages, for example, of
which we have a variety, there is much that or
cross enistant curiosity. The marked difference
they show to every blung of English make it the
grace of form, between of material, eleganics of
limish, freeden from node in their quickest movenient, and tasts in ornament of springs and lamps
that have been sent, and the combination they present of great strength with extreme librars
weighing in several melanices, less than one-third

CHINA.—This natice appears in the Weshington papers of the 10th.

We ere nethorised to say that the Postmaster of San Francisco, has been instructed to make up and forward mails to Honolade (Sandwich-Islands) on every suitable opportunity, by stemmers or other waster and the sailing from one port to the ather; which mails are to contain all saturate addressed to the Sandwich Islands posted at this office, and all other letters for those Islands, the postage on which is prepaid to this office.

The single (Indf-ounce) letter-rate between San Francisco and Honoladi, as established by the Hawaijan Government, is ten realts.

Until better orrangements are made, the Postmaster of San Francisco is also instructed to forward to China, by transient vessels, as opportunity may offer, any letters so addressed, the postage on which is prepaid to this affice.

Another Fatal Accuments

which is prepoid to this affice.

Another Fatal Accident with Firetams.
Mr. G. H. Higginhotham, living: near Camblen, Alm, on Theaday, the 6th final, but his life by the careless handling of fire-arms. He was standing near the edge of the piaxa of his mother's home, londing one barrel of a double-barreled gun, when the breech slipped off, the piaxa, and the hammer of the lock striking upon the step, discharged the leaded harrel, the contents of which were ledged in the right side of the unfortunate yeong uran, producing dasth in a few minutes. The deceased had an estimable character, and there are none in his neighbathood who do not mourn his sudden death. The careleneness that thus terminotes many velocible lives betrays a melancholy infatnation.

The Montgomery (Ala.) Advertiser & Fistalia.

death. The careleneness that thus terminoten many velocities between the thus terminoten many velocities lives betrays a unclaucholy infatnation.

NEW ORLEANS MARKETS.

CHRISTIAN ARVOCATE OFFICE, The amount of this iness transacted in our market this has week has been quite/inesterate, and prices for many of on leading articles of trade, have estimited a downward ten dency. This is particularly the case with totton, which is degreesed by continued infavorable advices from Ecrose For ideads, however, we refer to our remarks under the sec

idency. This is partinularly this case with totton, which is depressed by continued inflavorable solvices from Ecrone. For identic, however, we refer to not remarks under this separatis heads holden.

One of the Colombia treatment was interthed to leave Livertood for New York on the 14th hist., and her allyich with therefore be due here to a lay or two kry telegraph.

Cotton—Out inas Strictlay? review both the market with a prefix feir beainess doing though the repeated enfavorable advices by the Livertoot steemers. A rote and Combins, hast occasioned a decline in prices dealing the wisk of \$5.6% of a cent. The week now onder review ispened with a telein, quiry, and an Estanday and Mosdey some \$500 bake found purchasers, at rather firmry reter than for several day gravious. On Taceday the Frackfin's advices of \$51 advance at Liverpool; occasioned a still better feeling, and \$500 bake changed hamit, in many cases at \$6 advance. On Westeen day coming several buyers came forward, and took \$500 bake up to 3 o'clock P. M., whou operations were directed by into receipt of the Afron's new, announcing a declane lastial of an impresement at 'Liverpool, and couling more was alone that day. De Thurslay, Iralaha giving way a little, two or three lingkers purchased \$500 bakes ay rate, tow-ever, slowing about \$60 bakes up to 3 o'clock P. M., whou operations were directed by their was bot filled comain, and \$200 bakes are stell, making the week's business \$24,500 bakes, takee for England, the Candinent of Eurape, and our Essera ports. The market closed unore steadily yasteries at our quantions. The receipte at this port since by Steptember et 945,500 bales, gaglest \$70,000 to same date less typer; and at all the IJ. B. ports there have been an announced and at \$1.000 the colombia of the declaration of \$200 bakes was and all the IJ. B. ports the failure of \$200 bakes was and and and the colombia of \$200 bakes was and and markets of \$200 bakes was and all the IJ. B. ports the failure of \$200 bakes was and all mill. B. ports the

P. S. Yesterday we noticed additional sales of 170 blide of -, 7104 part frosted and high incase at 35,667, and/18 at 80 pt. B. String y — The supply of Singèr has been considerably larger and the demand early in the week being quite limited, prices fell off % 60. There has been more inquiry letterly, and the rates are firmer, but the market oloses on a silant decline from our previous faures. The agles of the week, including 300, bhds takes yeterday, eulpreas about 1400 blink That fillowing were the closing rates; for Lyferior to Common, 32,655; Periro Folly Pair, 53,655; Pringipand. Choice, 56,650 pt. 11 Wednesday we noticed since of 1800 bases brown and yellow II average Beart, at a range of 55,620 pt. 10.

Molasson — The Molasson of Mechaelbeen very doll, and the seles of the week are limited to a two innoted barreds constantly itsolicina raties. The later, transactions have been additioned to be for the week are limited to a two innoted barreds and choice re being. We have noticed asked of sheet 150 bble and 130 in the largest Chaelbeen work of the constantly into the string of the selection of the superior facility of Flour have been moderate, and alknowed a very limited inquery base prevailed, prices, have improved a little. The week's sales sum up basely 9000 bble, including 1600 takes presender, mostly at the following reasest superdue (thio \$3.85,62.83.96; Hissols and St. Look \$4.194, \$4.24; and eairs to superior facery brained of Clowing reasest superdue (thio \$3.85,62.83.96; Hissols and St. Look \$4.194, \$4.24; and eairs to superior facery brained on the seale part of the week, kad prices may to the verteen a seale of common at \$2.00 pt. bil.

Week's receipts 14.784 bble. Experts, 1790.

Gralin—The supply of Corn was heavy in the eady part of the week, kad prices up to Websendry averents but farther given way, the rabes their rubag at 416.65 for guard look.

MAILS TO THE SANDWICH ISLAMS AND DILINA.—This natice appoors in the Weshington apers of the 10th.

We are notherised to say that the Postmaster of an Francisco, has been instructed to make up and revail units to Houolale (Sandwich Islands) on revery suitable opportunity, by element or other and the same of the west instructed to make up and revail units to Houolale (Sandwich Islands) on revery suitable opportunity, by element or other as and the received of the west including four one port to the ather; which had are to contain any settlems and research at the letters. For those Values and research at the letters for those Values, and the more few arrivals of Whose and so sales to our knowledge in the more few arrivals of Whose and so sales to our knowledge in the more few arrivals of Whose and so sales to our knowledge in the more few arrivals of Whose and so sales to our knowledge in the more few arrivals of Whose and so sales to our knowledge in the more few arrivals of Whose and so sales to our knowledge in the more few arrivals of Whose and so sales to our knowledge in the more few arrivals of Whose and so sales to our knowledge in the more few arrivals of Whose and so sales to our knowledge in the more few arrivals of Whose and so sales to our knowledge in the more few arrivals of Whose and so sales to our knowledge in the more few and the test for St. Loois... Falloni. Raw in mederate lots has brought #1@180, unif Row! extra 250 or anilod. 800 hile sanken were sold by analton on Wednesday at an average of 17%0.

Hagging and Hope—Transantions in these articles have been quite limited dering the week, and we have netteed nelly small unles, mostly at 120@180 for ordinary to prime literator, and f@65% for Rope.

Guillay Hage—Prices have salvanced, though but a small beniness hus been done this week. The principal sale that we have noticed was a lot of 75,000 to bales at 36. Reme bioliten esk still tigher rates.

Coffee—There has been rathw more activity in the Coffee market, and it as sales seem op about 15,000 bars Ro, including two ender cargoes, mostly of ordinary quality it that of the littleck Squall, on Staturlay, into along yould yet that of the littleck Squall, on Staturlay, into along yould yet for forty in a to be inferior in what was especied the contract was annuled; though the same parchaser took it at the reduction. In smaller lots the rates of the week have been \$1,, 200 for ordinary, and \$1,, 200 for prime. One carga has narrived from Rio Janeiro since our last, embracing 4476 lage, and market had sale that shall be sale to the sale of the carge in a first and second hands is about 9000 bags.

Nall—Several cargoes of Liverpool Salt have arrived, but the 'only sale lith has come to on; knowledge was 2000 accha Liverpool conne, la brown sacks, at 70 w sack, From second hands the state baw's been \$5,200 for course, and \$6. @41 for sack for fine, delivered for of drayage, .

Cantelen—Sperm have continued saturantly dail at 400 day. For Star there have been \$100 bales, at an saturent reason of \$10,000 part for ordinary; mostly at 13%,200 w b.

Hay—We have mailed sales of about 1600 bales, at an saturent reason of \$10,000 part for for good be prime Morthery and Westlem.

Lime—This triesular are of no transactions in this article.

Tallow—The only sales which was level based of this week was 55 bits of the prime of the week was 55 bits and the same rate.

Land O

Freights—The finish inagkst has latterly ben accordingly dall, and though two-ships were tak an for Liverpool early in the week at 1-16g 11-32d for Cotton, reseet on the berth now willingly accept 35d. A vesteday no new engagement reported.

agramatic could be comment by thousands,

termed could be comme by thousand, the fleast treat in Georgia were there. To this horde of vorsile the daining of Mobby's Pond was an epoch. The field, left by the recoding waters in the weeds and grass, fall an easy prey to the vultures. The terrapin, unambitious of distinction mande man, planged into the dich and hurried himself into the awangs of Savannah. The duck, with heavy heart, mounted into the air, and like the memorable scene of his feativities. The affirmer of the east," bade a final farewell to this memorable scene of his feativities. The affigurer, with "melancholy steps and slow," no datur reached some land of promise where, free from danger and the world's malice; be could enjoy in humaner his mud-hele, and in winter his lightweed knots.

inted somewhat prolisly, and perhaps she levity, what Mobly's Pond sees, I to state what Mobly's Pond is: Saven solitary and along," I understook to day of water, and although not of pooket 00, I do not regret the result. The spond included cost \$50,000, and I

that he wielded the apade with mere adroitness than the sceptre, and that his schievements as a ditcher immediarably standard all his dioris as a politician.

In the open uncative of part of Mobly's pond, there are several han acres of peat, from 12 to 50 inches deep, setting on a bed of bihe clay; at first 1 had seep withings is regard to this peat land, and there is a seen in it is core. With a knife plough, almilar to the blade of a ce ulter. I cet the land both ways the blade of a ce ulter. I cet the land both ways the same furfow with a hull tongue, and barsted up is every direction equare blocks of peat. After being caposed te the stim and made cry, these wise ared and hernt. By this means the formidable roots of the cane gress were craditioned and a coat of asbes secered. In the spring, ridges were therew up, the corn planted, and up to this time. I very much question whether in all Georgia there is a better field of grain.

Several hundred acris of, the pond are appropriated to pasture. The grass in many places is breast high, and the mowers productine it equal to any specimens in New England. To me it is a panorame, to the a big word, transcendently beattitut. Unturunary, saturative to the care of the pond are appropriated on any appearance of the Boffalo prairies. When I behold the cattle irowsing on the rank grass, and cottons and corn springing from a soil which for ages generated malaria and monsters, I culcy the landscape with as much guice as ever "Archimedee did his colution of the problem of the King of Synchuse of Gardianapaltus his dinner on buill-freqs.

Independent of this, I have drained on the same promises some fifteen other ponds, all of which are productive, and one of which, embracing a lundred doilars to the acre.

Mobly's pond is no longer an eye-gore, but Piggmailion's clay metamorphosed intra a beautiful woman. It throws out its wealth from centre to circumference, yielding materials for building and ferring pasture far eathe, hay for work horse, and cover in walling on the provid

A mobia Lady Differing from a Troilope.

Lady Emmeline Stuart Wortley, who, with her daughter, made the tour of the United States last year, differs from Mrs. Troilope in her estimate of the manners of the Yankes. We have not seen fire recyclish. The wanter of the transces of the wanter of the recyclish of the manners of the Yankes. We have not seen fire recyclish. The wanter of the waste with the Christian Inquirer gives the following extract from it:

"I like the Americans more and more: either they have improved wonderfully lately, or else the critatisms on them have been cruelly easgerated. They afe particularly courieous and obliging; and seen, I think, amishiy anxions that foreigners abould carry away a favorable impression of them. As for me, lat other travellers may what they pieces of them. I am determined not to be prejudiced, but to judge of them exactly as I find them; and I shall most pertinaciously continue to praise them, if I see no good cause to after my present humble opinion, and most especially for their obliging civility and hospitable attention to "strangers, of which I have already seen everal instances.

"I have witnessed but very faw feolated cases, as yet, of the unrefined habits as usually actribed to them; and those cases decidedly were not among the higher orders to peopla; for there seems just as much difference in America as anywhere else, in some respects. The superior lease—were havo almost always arealises examiner, and a great daal of real "mill natural, as well as acquired 70 finement, and are buten heades (which perhaps will not be believed in fastidious England) extermely destinguished looking. By-the-way, the captains of the steamboats appear a remarkship gentlemanlike rate of men in general, particularly courteous in their deportment, and vory considerate and obliging to the passenger."

Lady Emmeline's own perfectly simple and unaffected manners, wea very much upon the liking and respect of those she came in contact with, and, indeed, we fany. The shell is with a reactio

when the special farmer for the appearance of the special spec

The rag galliarers of Paris, in imitation of work as an of different trades, have formed themselves into a "fraternal association." One of its articles is that every heap of rubbish found in the street should be fraternally divided amongst every streets should be fraternally divided amongst.

Tammany Hall,

For the information of such of our readers as may wish in know anmething more of the history and character of this Tammahy Society, we may see add, that it was organized in 1789, by William

Since those days, however, the influence of the society hes very much diminished. It controls the disposition of Tammeny Hall, and that we believe constitutes the chief, if not the only, element of its strength and perpetuity. We have only to add that the praceedings of the society are secret.

American Temperanoa Union. The American Temperance Union held its fifteenth conversary on the evocing of the Sthinst., at the Taberascle in New York. The annual report tained the following statistica:

"In the cities of the State of New York are 7000 "Is the cities of the State of New York are 7000 liquor shops, selling at a low computation twenty-five million dollars worth a year, aside from the treffic in towns and villages; all sending in a siegle year (1849) more than thirty-sia thousand men into the prisons, for orimes committed under the interest of intexection, and skyly-line thousand.

gie year (1839) more than thirty-sia thousand their into the prisons, for crimes committed under the fatheries of fatorication, and sixty-time thousand two hundred and sixty into the poor-hoese, made pampers by intemperance.

"In New York city ara 4425 licensed and 750 enlicensed houses, and 3806 selling on the Sahebath; and here in four and a haif yeers ending Dec. 1830, were committed 35,675 persons for drunkenness, 20,190 for intoxication end disorderly conduct, 11,347 for vagrancy, 13,396 for assault and battery, 20,202 for disordarly conduct; in eil 111,300 (for the most part victims of strong drink,) exclusive of many in the higher class not seen drank in the streets or taken to the Tombe.

"More than 60,000 journels and 200,000 Youth's Advocates have been issued from their office with these publications. Home and Foreiga Missioen, two State Legislatures and aemerous Seedey Schools have been graintionally supplied. 4000.

copies of the Haif Century Tribute to the consecutive of the Haif Century Tribute to the consecutive been distributed. A new edition of Permanace Owneymeranca Documents and several four-page trasts have been issued. Numerous sermous and lectures have been preached and delivered by the Corresponding Secretary. Collections and donations, \$1526 38. The ausiliary State Societies heve held annual meetings, teken strong and decires have been been organized in Jows; Tomperance Orders report a heeithy condition and efficient action.

"The report from foreign conatries is favorable.

State Society has been organized in 10ws; 10mperance Orders report a heaithy condition and efficicot action.

"The report from foreign coastries is favorable. In Grest Britain the consumption Is a single year is 22,963,012 gallons of home spirits, 3,044,758 of West India rim, 435,139,965 of malt heor, 2,187,500 of brandy, and 6,136,547 of wine, at a cost of sixty millions of pouceds sterili g, resulting in a frightful amount of properism, crims, and premature death, is eaciting among reflecting men alarm; and much efficient action to check the avil has been put forth in England and Scotland with great success. The Naval Lord Admiral has reduced the spirit ratios one-helf end takes it entirely from ell under 18.

"In British America the cause is very triumphant—220,000 Freach and Irich Octholics and 240,000 Protestants stand pledgad to temperance in Lower Canada, and in Upper 35,000 are carolled in the Order of Sons. At St. John 12,000.

"In Nava Scotia, tea counties are without, license, and verious efforts are making to get a prohibitory attute through the Legislature."

Appropriate resolutions were edopted, and the meeting was addressed by Rev. H. S. Carpenter, J. P. Cleveland, Providence, Mr. P. T. Baraum, Rev. J. Chalaers, Phil., aed Dr. Tyng. [Evsaing Mirror,

quent remarks which follow, were made by Judga Persons, of Philadelphia, on the 8th inst, in adof Meyhem. One got six and the other seven years solitary confinement la the peaitentiary.

ion! This of the Capitol at Washington, had been determined on. The Telegraph comments:

In regard to the plan chosen, we have and been able to fearn whether it is an "easiern axtension" or a "wing plan;" but we learn that the work is to describe of its articular in the work of the commenced immediately, which fact we are deligited to announce, as it will be gratifying news mongst every a no one, on grope in the sally resolved a man of 60, and the sall of the full importance of this great uader-taking, and that ha has not access.

Was er proad to know that the President hes realized the full importance of this great uader-taking, and that ha has not access.

That his labors will be appreciated and approved by his countrymen is our earnest desire and expectation.

We give below an extract of a letter from an American gentleman in Lordon to his friend in this city respecting the portion of the Grand Exhibition which has been contributed by our country-

American gentleman in Lordon to the friend in his pringer and stage, which he mane from the celebrated stage of the United States, which is a tense countries of the United States, which is a tense countries of the United States, which is the tensently to the United States, which is the tensently to the United States, which is the recently heen adopted) an account of what were esteemed its deerst and aristocratic tondenoises.

The institution took its game from the celebrated Indien Chief. Tammany, and nil its ceremoind nomenclature is adopted from the behits and countries. The institution took its game from the celebrated Indien Chief. Tammany, and nil its ceremoind one of the Aboligines. It has a Grand Sachem, and the the facility of the Chief. The Great Fair - American Display. - The condon Daily News of the 28th ult., has the fol-

The Great Fair — American Display.— The London Daily News of the 28tb ult., has the following:

During the two days which closed the past week both the contractors and the eathbitors hed made great exertions to complete their preparations for the advent of the Great Indestrial Show; and when the gales closed on Saturday evening the result was sufficient to remove eil doubts that the last Mey would daw are the finishing touch was given to the boilding, or the competing products of the world's ingenuity and labor were duly marsisaled and arranged for the coming trial.

The American displey, which on Thursdey was very hackward, was on Seturday all but completed. Over the centern entrance—a position which commands the main vista, are now emblaxoned the American national erms—the eegle, with the motio, in Thursdey was very hackward, was on Seturday all but completed. Over the centern entrance—a position which commands the main vista, are now emblaxoned the American national erms—the eegle, with the motio, in Thursdey was very hackward, was on Seturday and the large extent of space cleimed and allowed, proves that there was an intention on the part of thet country to contribute much more largely ta the Exhibition than they have done, end the vast difference between the purpose and the act is a maiter to be regretted, whetever may have been the cause. Since our previous visit, however, asveral edditions have been made.

The mast prominent of these is a winter sleigh, such as is used in the Northern Statas—this an elegant carriege for four passess, and so comfortable looking these emment of foreign inductry since Thursday, all or them deserving attention, and evincing their in locomotive machinery, the tast and ingesuity of the American builders is quite equal to those of their European competitors.

France.

On the 26th the committee of initiative was occupied with the casamination of M. Minot's preposition, for a Frepch exhibition, the powent of the Minotirs proposition, for a Frepch exhibition, the powent of the Min

Important Discovery in Africa.

A Thingarion savaat, M. Gaysa, who is now travelling in the interior of Western Africo, has sent a communication to the Imperial Society of Vienna, containing information of great interest. He has found among the Kommenis, a small irtho tributary to the kiagdom of Onli, in Senegambia, traces of Jacques Compagnon, a Frenci Iraveller, obarged by M. de Choissai, toward the middle of the last cantury, with a voyage of anyloration into the interior of Africa, who disappeared in 1760, and was not afterwards haard from.

Wishing to complete the discoveries which had

the interior of Africa, who disappeared in 1760, and was not afterwards heard from.

Wishing to complete the discoveries which had been made by his brother come years before, Jacques Compagnondefi Senegai toward the end of the year 1758, and after visiting all the tribes to the northward and eastward of Senegainbia, he penetrated as fat as the desert of Simboni, a very curious point for geographical science. Nothing was heard of this siter March, 1760, and all the researches of the Governar of the French post of St. Louis proved utterly fruitless.

The Kommenls are a partially civilized people. They have notions of religion which resemble Christianity, and are not entirely ignorant of the arts and sciences. They have a language, an alphabet, and the art of writing. M. Gaysa has discovered in one of their principal villages, a small atone monument, of a conic shape, covered with numerous inscriptions, in letters resembling hieroglyphic characters.

After lawing studied this curious construction, and after interrogating the oldeer inhabitants of the country, and learning the populer tradition, he became convinced that this monument is erected over the grave of Jacques Compagnon, who, being made-ceptive by the Kommanis, instructed them in the principles of all the useful aris, and died about the year 1775, lenving among them the venerated reputation of a sage and a good genius. But the conviction of M. Gaysa was turned into certainty when the chief of the tribe showed him various articles of European manufacture, which lave been landed down from father to son, and which they are unwilling to part with at any price. Among these he saw a quadrant, on which was eneraved the name of Jacques Compagnon.

M. Geysa, who is a great traveller, designs to continue his explorations in Afrien for many years. [Transieted from the Courrier du Have.

speak for himself, as he did a short time since, han address before the Agricultural Fair of Green county, N. Y.:

And now I will allow you the advantage those dreery heinlocks have been to the farmers of our mounten towns. Since I first ongaged in farming, it has been my lot to employ over filteen thousand years of other men's labor—an army of fifty thousand reason and have I employed, and I have paid those men-for their lahor alone, over two-million five hundred thousand dollars. I have cleared over two thousand acres of land, used over two intunted thousand dollars. I have cleared over two intunted and cores of land, used over two intunted thousand cores and one thousand paid over haif a million of dollars for it. Used and worn out five hundred horses and one thousand by the or out. Used two hundred thousand business of oars, one hundred and twenty thousand business of oars, one hundred thousand harrels of flour, and potatoes without oumber or measure.

I have tanaed one million two hundred and fifty sides of leather; my usual disbursen ent is over five thousand barrels of flour, and potatoes without oumber or measure.

I have tanaed one million two hundred and fifty sides of leather; my usual disbursen ent is over five thousand harrels of flour, and pour ment of labor. The preat very had a side of leather stolen, and was never made defendant is law oa account of hundred transactions, during my residence among you. The great object of my living is to be useful. Live with your neighbor, not or him.

Western Wool.—A number of speculatore

Lata from Havana and Key West. The steamship Isebel, Capt. Rollies, arrived at our part on Saterday evening from Havana and Key West, which places she laft on the 8th Inst. She brings a full estiplement of pessangers and cargo. Among the passengers we notice the name of Miss Frederika Bremer, the distinguished au-

NTRODUCTORY CLASSICS, viz:

lished in these papers with every demonstration of approval. - (Sevannah Republican.

Sutr Lina ng Elertanye. — The bark Regatta, arrived here yesterday irom indin' freighted with nine living elephants, a zebu, nr Burmese bull, sixteen enormous eerpents, including a brace of boaconstrictors of twonty-four's and sisteen feet in length, besides a wilderness of monkeys, the fretted-porcupine, and other live varmine, all consigned to Messra. P. T. Barnum and Seth B. Howes, injended fur the great Museum Caravan, to he exhibited in Newark, on the 3th. One of the most curious fentures of this Noah's Ark collection, is a cnif elephent, about nine monthe oil, and weaned from its dam, on the passage-from—Ceylon, being hutthree-feet high, and as docile and phyful as kitten. Another, is one of the native chiofs of Coylon, who eccumpanies the ehow, in charge of the elephante. This enterprise, the greatest, probably, since the days of the flood, his been conducted and brought to a successful issue, by Messra. Stebbins, June and Geo. Nuttur. The elephants were liunted and caught in their native jungles, by Messra. June and Nutter, accompanied by one hundred and sixty of the natives. Their capture wes effected by driving two hundred and fifty of them into a krazd, or rude pen, constructed in the jungle, out of which they succeeded in securing thirteen—two having died on the passage, and another being stolen from the drove. The Regetts has made her passage imme, (13 000 miles) storping at tite, Cape of Good Hope, and the Island of St. Holena, In J12 days. The elephaat hunters were three months and four days in the jungle before alony effected their object. IN, Y. Tribune.

in the jungle before they effected their object. [N. Y. Tribune.

Forkion.—The plagus has been introduced into Gence, Italy, the infection being caught from cattle hides and skins. At the lest detes there had been eleven cases and five deeths.

General Espetero is about to ratura to Spain, to head the Progressista Committee.

Turkey.—The Austrian Minister has withdrawn from Constantinople, and there is a diplimate quarrel. The Sultse hins sent to Austria a hill for meintaining and guerding the Hangarian prisoners, end he complains that the Austrians fomeeted the Bonian selection.

Statizerland.—In the Swiss cantans, discrediteble ateps have been taken to arrest refugoes from adjoining countries, who have been harbored there.

Morecco.—News of importance has been received from Morecco. It appears that the Emperor Abderrahman, not being able to raise the usual smount of tases, by reason of the general distress which prevails, has detormined to make up the deficit by appropriating the mesons of his wealthisst achiects. He has confiscated the property of the Governor of Tetnan, formerly Minister of Foreign Adfeirs, and lately deceased. Ben Abdouch, Pasha of Tetuan, and tormerly Embassador to Peris, had been sent for to Fez and arrested. Pressnity after it, was heard that his property hed been sequestrated. Much agitation was caused in Tetuan by this news.

Left Pressavers for the Coast.—It is a

LIFE PRESERVERS FOR THE COAST .- It is a Lifx Prestavere for the Coast.—It is a matter of just congratuation, that the apparains ordered by Government for tis purpose of affording assistance in preserving human life from death, on the sea coast, inselect normalise from death, on the sea coast, inselect normalise from the sea coast, incomists of metallic life and surf boate, shot, mortars, rockets, inswers, etc. Station houses containing metallic boats and cars now line the coast of Long Island, New Jersay, Florida and Texas, and those aiready in use have been instrumental in saving many lives. In one instance, when the ship Ayshire was wrecked, 201 passengers were eately transforred from the vessel to the chore, by means of a eingfact, when no open boat could have lived. Over 800 metal boats have been built. The supply of boats for the coost is apportioned as follows:

Cape Mar to Egg Harbor....... Eag Unrior to Bandy Hook..... 

ford the means of rescuing many a fellow better from a watery grave, and in securing properly from wrecks, of every description. It is humane and probleworthy, and will redound to the credit of our government. (Albany (N. Y.) Express.

THE GROWTH OF AMERICAN COMMERCE. From the documents prepared by the Treasury Department, these tables have been made up. They demonstrate the wonderful increase of our commerce, only oqualled by the development of our power in other respects:

Tonnage, 1815 1822 1829 1836 1848 1850
Registered....851,294 628,150 650,142 897.774 1,009,305 1,585,711 Entitled and \$15,583 696,545 610 651 994,328 1,149,297 1,919,143

by 1815, the foreign tunnage exceeded the inland, 60 per cant. Now the inland exceeds the foreign, 25 per cent. Since 1815, the foreign tonnage has increased 700,000 tons, while the inland has in creased 1.400,000 tons, or nouble. The aggregate, or whole increase, since 1820—a period of thirty years—has been 175 per cent., while the population years—has been 130 per cent.—showing, most con-clusively, that the grownth of our commerce ic-favier than that of the people.—be added to the people.—be added to the tonnage employed in the Northsastern Fisheries is, at two periods, as Cod Fishery
Mackerel Fishery
Wha e Fishery

The view which the above figures exhibit of tha growth and magnitude of American navigation, is without a parallel in human history.

When there are who deal in an included in a vehicle and borne to the old homestead. When there are who deal in a vehicle and borne to the old homestead. When there are who deal in a vehicle and borne to the old homestead. When there are who deal in a vehicle and borne to the old homestead. When there are who deal in a vehicle of interactions and abstruce subtleties, ever dividing out to me by one." (John 8 7."L) Here was always a kind boy. His mother work of the devision of th she klssed the sunken cheeks of her dy;
she klssed the sunken cheeks of his feathen, as he beginning to preach, split his text into hence the coavicting pewer of conscience was felt by every one of them.

Conscience is a judge, holding court and hiving jurisdiction over all moral and hiving jurisdict

Good Ban and Jame were man and wife. And lived a loving kind of life. One point, however they disputed, And each by turns his mate confuted. 'Twas Faith and Works, this knotty question, They found not easy of digestion. Jane equally Good Works defended. They are not Christians, sure, but Turks, Who build on Faith and scoff at Works," Quoth Jane; while eager Dan replied, By none but Heatheris, Faith's denied I'll lell you, wife," one day quoth Dan. A Patriarch sage, of ancient days, A man of Faith, whom all must praise; In his own country he possess'd Whate'er can make a wise man blest; His was the flick, the field, the spring, In short, a little rural king. Yet pleased, he quits his native land, By Faith in the Divine command.

Went forth, not knowing where heavent; He trusted in the promise made And, undesputing, straight obey'd. The beavenly word he did not doubt; But proved he faith by going ont?" Jane answered with some little, pride, And though my tale be somewhat longer, I trust you'll find it vasily stronger; I'll tell you, Daniel, of a man, The holiest since the world began : Who now God's favor is receiving, For prompt obeying, not believing. One only son this man possessed, In whom his righteons age was blest; And more to mark the grace of heaven, This sun by miracle was given. Had promised un illustrious line. When he! at once n voice he helps, Which sounds like thunder in his ents? God says, ' Go sacrifice thy son !! This moment, Lord, it shall be dinge."
He goes, and instantly prepares To slay this child of many prayers. Now here you see the grand expedience. Of Works, of actual, sound Obedience: This was not Faill; but art and deed; The Lord commands the child shall bleed Thus Abraham acted," Jenny cried, "Thus Abraham acted," Jenny cried,
"Thus Abraham trusted," Dan replied.
"Abraham!" quoth Jane, "Why that's my man
"No, Abraham's he I mean," says Dan,
"He stands a monument of Faith."
"No, 'tis for Works, the Scripture saith."
"The for this Faith that I defemt him." 'Tis for Obedience I commend bim."
'Thus he, thus she; both warmly feel; And lose their temper in their zeal.

Too quick each other's choice to blume. They did not see each menni the same. At length "Good wife," said honest Dan, We are talking of the self-same man.

The Works you praise, Lawn, indeed, For works deserves especial note, 'Pis'nor enough of Faith to talk:

A man of God with God must walk. Our doctrines are at least the same, The Fanh I fight for, is the root; The Works you value, are the fruit. How shall you know my creed's sincere. Unless in Works my Faith appear !

Would prove they were not genuine fruit, If Faith produce no Works, I see That Faith is not a living tree. No sepimue-life they e'er can know

How shall I know a tree's alive. Unless I see it bear and thrive I

What God hath joined, let no man part?"

For the N. O. Christian Advocate. Description of Conscience.

Bro. McTyeire-I see in your paper of the 3d inst. the following announce: ment: "Wanted, a clear description of the nature and action of Conscience, and -it the difference between that and prejusubstituted for it." Now, I can not promise a description that shall be ontirely clear and satisfactory to the minds of all. The subject has a depth, perhaps is fathomless by the mind of man been satisfactory to my own mind. I will, however, do what I can, leaving you and your readers to judge of the

.A revelation from God his been made to us upon this subject, and I shall not precend to set up opinions outside of His revelations. What I find in His word I shall publish with unwavering confidence. All beyond I shall avoid as that in simplicity and godly sincerity, not with fleshly wisdom, but by the grace

is the only rule, and the sufficient rule, both of faith and practice.

Conscience is derived from two Latin words-con, together, and scio, I know; and the Greek word always used for it in the New Testament has invariably the same meaning. I know, together with my own actious, the law by which those actions are to be judged or determined. The mind knows an act with all its motives, and also the law of God by which the moral quality of such an act, with its motives, is determined, and

According to my definition, conscience must be possessed by men in very unequal degrees. I can not agree with Dr. Chalmers, that it may exist unimpaired under an "abnegation of Theism." In science is a guido. The man thinks he is in a safe course so long as conscience that the ten thousand cottages, dotting the valleys and hill sides, among which the locomotive winds its way with lightning in the sinner. The law is spiritual, but this is a secret excuse for not reading the science and white sails. can not rise above itself so as to compresso many, even in the Church, who do not hend a spiritual law. The natural read the Scriptures! yet such is the man receiveth not the things of the fact, and should be proclaimed, to their man receiveth not the things of the Spirit of God, for they are foolishness unto him; neither can be know them, because they are spiritually discerned."

See Hebrews 9:0. The very idea of written word. Christ says when He sacrinees is that there is guilt and imperfection, but the service perfection, but the service perfect, as to the priest himself—"ceuld not make him that did the service perfect, as pertaining to the conscience." The conscience the man. It is the blood of Christ and this is the case to every unregenerate man. It is the blood of Christ and this is the case to every unregenerate man. It is the blood of Christ has every unregenerate man. It is the blood of Christ himself—"ceuld not conscience (see very unregenerate man. It is the blood of Christ has every unregenerate man. It is the blood of Christ himself—"ceuld not conscience (see very unregenerate man. It is the blood of Christ himself—"ceuld not conscience then was imperfect before, and this is the case to every unregenerate man. It is the blood of Christ himself—"ceuld not conscience then was imperfect before, and this is the case to every unregenerate man. It is the blood of Christ himself—"ceuld not conscience then was imperfect before, and this is the case to every unregenerate man. It is the blood of Christ himself—"ceuld not conscience then was imperfect before, and this is the case to every unregenerate man. It is the blood of Christ himself—"ceuld not conscience then was imperfect before, and this is the case to every unregenerate man. It is the blood of Christ himself—"ceuld not conscience the men and the way have the montation of God, "Hely men of God spake as the witten word. All subject the spring through against through the filed with a mottle, the through the motter with the demand of a will a motter that this observatory of nature I espied Glas.

Spirit is the author of the written word. All subject the spirit of Trath, is come, if the subject the spirit of Trath, is come, if the subject the spirit of Trath, is come, if the sub

4:2.)
By way of illustration, suffer me him swear, upon one occasion, I took the liberty of asking him, by way of reproof, once did, but that he scarcely ever vidence or grace, or by some mighty what it before censented should outpouring of the Spirit, that it is lighteneth every man," it must be dead and powerless for every spiritual pur-

· Conscience, however, to some extent, is probably possessed by all msn. The Romans had some idea of its force, as might be shown from their own writers, thus Cioero: "Magna vis est consciea-tie." But St. Paul is very clear and minute as to the circumstances under which it existed among the Romans. They had not the written law, but thea they had that unwritten revenued and which God has spread out pround and above all his creatures. By the law of this revelation, the Apostle shows that the idolator is condemned. Even God's "eternal power and Godhead" nre revealed by things that are made. The law of this manifested Divinity ls written upon their hearts, and it is the office of conscience to bear witness to this law-"their conscience also bearing

witness." (Rom. 2:15.)

It is worthy of remark here, that con science has nothing to do with origin ating law. It does not prescribe a rule of conduct. But looking to the rule already prescribed, and its adaptation to the circumstances and controlment of the entities, for whom it was preseribed, it bears witness to the truth and divinity of the law itself. Agnin conscience having horne witness to the truth of the law, goes hack and takes up the conduct of the individual, bearing testimony to the fact that his conduct has been in accordance with the requirements of that law. "Our rejoicing, is of God, we have had our conversation in the world." (See 2 Cor. 1: 12.)

I have thus gone through with what may be necessary to illustrate my ideas of "the nature and action of conscience," and it now remains for ms to show " th difference between that and prejudice and self will, which are sometimes substituted for it." .,

Prejudice means, to judge before hand; that is, to determine upou the merits of a case before all the facts and act, with its motives, is determined, and "judgement is filed in the court of conscience" accordingly. This may be illustrated by the case of the woman brought before Christ, and accused of the law commanded us that such should be stoned." Here is evinced their knowledge of the law. While they pressed the question on him, Christ said auto than, "The that is without sin among you, let him cast the first stone."

Accompanying circumstances are known. The difference between conscience and prejudice may be this—that conscience illustrated by the case of the woman brought for Christ, and accused of the from the tinformation. Again, prejudice may be the setting up of false rules of have been weeping before God for my own sins and the sins of my children, and I have been beseeching God to save us from that droadful world where the said auto than, "Though I did not fully comprehend the way of right. Now, these false rules seen made such a large spot, molstened by cher tears. I was in agory of grief.

What makes you dry," mother? I through God, has pulled down these strongholds of Sin and Satan, and the She replied, "What makes you dry," mother? I through God, has pulled down these strongholds of Sin and IV were born have been weeping before God for my own sins and the sins of my children, and I have been beseeching God to save us from that droadful where the world where the world where the world where the said auto than in the very act of adultory, it is decision independently, and regard the chief through God, has pulled down these strongholds of Sin and IV were born have been weeping before God for my own sins and the sins of my children, and I have been beceen weeping before God for my own sins and the sins of my children, and I have been been beseeching God to save us from that droadful where the world where the world where th accompanying circumstances are known. degree of strength. His friends antipated his recevery, but not so with harles are it is only that I may go, one, and dio happy, he would say, occurringly, he ombarked ou board a wilderness of words upon their half should be stoned. Here is evined that a voyage of ten days, lead a fiter a voyage of ten days, lead a feer a voyage of ten days, lead been sinking from the tum of the first stone is departure, and was evidently near. These are they who barter gold for lead,

to be applied, or else his decisions must prescribing the rules upon which that be wreng. How vain, then, to attempt determination is based, thus taking to be wreng. How vain, then, to attempt determination is based, thus taking to to set up a court of conscience ontside itself both legislative and judicial authority, and making its thority, by which the laws of God aro decisions dependent upon the ever vary overthrown and conscience abnegated. Suffer me, before closing this community. Suffer me, before closing this community are represented in the control of t According to my definition, conscience must be possessed by men in very une-

perfect in the sinner, every repeated net of transgression must weaken its force still more, until the "conscience becomes it force it speak not according to this word, it seared with a hot iron." (1 Timothy is because there is no light in it."

2 If conscience he a quico are should be noticed, walking the street, were it not

2. If conscience be a guide, we should By way of illustration, suffer me expect it to speak the same language to to state that I once knew a young man, all. But it has been pleaded to saneamiable in many respects, but hearing tion very different and conflicting courses of conduct. It has been plended by the persecutor and the persecuted, even at the stake. St. Paul said that, before if his conscience did not condenin him, the stake. St. Phul said that, before for such senduet: lle replied that "it his conversion," he verily thought he once did, but that he searcely ever eight to do many things contrary to thought of it now." Whether the indul- Jesus of Nazareth." Il is conscience gence in any one particular vice weakens could not repreach him while he thought the convicting power of conscience as to other vices, is a question of more difficulty; yet, when we take into the necessary of the fact that "he who offends in one point is guilty of the whole"—Paul declares himself the chief of single-control of the whole "—Paul declares himself the chief of single-control of the whole "—Paul declares himself the chief of single-control of the whole "—Paul declares himself the chief of single-control of the whole "—Paul declares himself the chief of single-control of the whole "—Paul declares himself the chief of single-control of the whole "—Paul declares himself the chief of single-control of the whole "—Paul declares himself the chief of single-control of the whole "—Paul declares himself the chief of single-control of the was doing a duty, and so he declares before the Council, suying, "I have control of the was doing a duty, and so he declares before the Council, suying, "I have control of the was doing a duty, and so he declares before the Council, suying, "I have control of the was doing a duty, and so he declares before the Council, suying, "I have control of the was doing a duty, and so he declares before the council, suying, "I have control of the was doing a duty, and so he declares before the council, suying, "I have control of the was doing a duty, and so he declares before the council, suying, "I have control of the was doing a duty, and so he declares before the council, suying, "I have control of the was doing a duty, and so he declares before the council, suying, "I have control of the was doing a duty, and so he declares before the council, suying, "I have control of the was doing a duty, and so he declares before the was doing a duty, and so he declares himself the chief of the was doing a duty, and so he declares before the was doing a duty, and so he declares before the was doing a duty, and so he declares before the was doing a duty, and so he declares before the was doing a duty, and so he declares before the was doing a duty, and so he declares before guilty of the intention to disregard the ners, for doing what he thought he ought whole of His grace may, and a part when whole of forfeited, we infer that when was the sin, if he thought that in persecuted the was the sin, if he thought that in persecuted the was the sin, if he thought that in persecution was the sin, if he thought that in persecution was the sin, if he thought that in persecution was the sin, if he thought that in persecution was the sin, if he thought that in persecution was the sin, if he thought that in persecution was the sin, if he thought that in persecution was the sin, if he thought that in persecution was the sin and the force of conscience is weakened in cuting the Church he was performing a one point, it must also be weakened at duty? I answer that sia is the violaone point, it must also be weakened at every point. To show still farther the want of force and vitality of conscience, in the sinner, I have observed that it in prear dull, stupid and sleepy upon or dinary occasions; and it is generally by some extraordinary indications of Prospective of the state of t pulled down. Conscience, then, does aroused. It has merely a derivative not speak the same language to the same force, and, apart from that light "that individual at all times. It approves of individual at all times. It approves of many things in the unconverted man, that the converted man regards as absolutely sinful. In fact, every converted man knows that conscience becomes more tender, as he grows in grace and in the knowledge of our Lord Jesus Christ, and lsss so as he becomes more careless and lukewarm. Conscience then, so far from being a guide, needs a guide for itself; and this guide it finds in the lights and influence of heavenly

Enon, Ala., May-17, 1851.

An Autidote to Infidelity.

Such were my temptations to disbelieve the Bible, during the peried of youth and early manhood, says Mr. G. that I should doubtless have been a confirmed jufidel, but for a comparatively trivial circumstance, which occurred when I was between three and four years old. I was so passionately fond of my mother that I could not boar to have her out of my sight for a momeut. My conduct in this respect was often a source of trial and mortification to her, and to other members of the family. I and to other members of the family. I Stirling. A little south of Stirling is would always vent my bad feelings on Bannockbnrn, where in 1314, the Britsuch occasions, holding on to her till my hands were unclenched.

times corrected me for so doing. She little thought that the link which bound me so indissolubly to her was a part of that mysterious chain of events which daunted General.

Was to rivet me to the throne of the Stirling is the ancient fortress of the was to rivet me to the throne of the One merning, as my mother left the

sitting-room, I rose and followed her, unperceived, to a small room at the head of the stairs, where, I subsequently dicular. It forms one of the grandest learned, it was her daily practice to reviews in the world. The benutiful tire. I quietly scated myself close by the door, determined to wait in silence till she should come forth from her se-clusion. I soon became very impatient, and I thought I would venture into the room.

I gently opened the door, and there I found my precious mother kneeling beside a chair. She had evidently weeping; I saw upon the seat of the chair quite a large spot, molstened by

GLASGOW AND THE TROSSACIIS. The reader will remember that we parted in the Necropolis, the first resort of the traveler when he arrives in Glasgow, where he has a whole view of the city at a glance, it being the highest ground within the horizon around, passenting a grand and majestic scenery, are all in contrast with the elegant buildings, numerous domes and monuments, interspersed over the wholo city. From this observatory of nature I espice Glas-gow University, and accordingly made

This venerable structure would not be noticed, walking the street, were it not far a fine stone balcony in front. It loads into three inner courts. Some of the windews are richly ornamented in in the Flemish style. Some of the windows were mere holes, having only windows were mere holes, having windows were mere holes, having windows were mere holes, having windows with holes wi four lights, seven by nine. The walls were dingy, and had more the appearance of an ancient fortress than a university. There was a strange contrast, too, within and without. A miserably wretched population were going in dense crowds on every side of the buildings, which would think the alumni, from its location. There are, however, about thirteen hundred students, with eighteen professors, comprising the departments of law, medicine, theology, and the arts. The library has sixty thousand volumes, besides the Society libraries. The Hun-tsrian Museum of Natural History is a mammoth collection of all curiosities, the indefatigable industry of one man, they pass an examination, by which he passes through the ordeal, sitting on the black stone;" by his side stands the beadle, with a sand-glass, which he turns and watches, and at the end of five minutes, eries "out."
I could not help looking with pro

found veneration on the marble status of Watt, in a sitting posture, in the University, the improver of the application of steam power to machinery. He was the master spirit of Glasgew; to him it owes all its wealth and magnificence. At the south-west corner of George Square is a gigantic bronze stntne of James Watt, and in the centre of this beautifully ornamented square is another to Sir Walter Scott, a fluted Dorie oelumn, eighty feet in height. On the south side, another to Sir John Moore, a native of Glasgow, a brave offieer of the British army: Who has not declaimed the burial of Sir John Moore when a school boy? The infirmaries asylums, and botanical gardens, must be omitted. Doubtless you are becoming tired of Glasgow hy this time.

. Let us take our exit to the Trossachs Lochs Katrine, Lomond, etc.. north from Glasgow. The best route is to go part way by the train- to Edinburgh, as far as Castlecary, and thon by stage to ish forces under Edward II were wholly defeated by the renowned Robert Bruce, King of the Scots. The battle field is still shown, and the very site of the Scottish standard, around which the

Scottish kings, and ouce commanded the pass to the Highlands. The ansaltie rock, which stands almost perpendicular. It forms one of the grandest luding to his learning and talent, and views in the world. The benutiful besought that he might not be ignorant of the way of salvation through Christ tile plain, among villages; in the dis-

greatest ambition was slaughter and ears, "What will you say, as the cornage. But what a change has come paced his room in anguish." The spirit

factures and the useful arts have sup-planted the sword and spear, and the travelor walks peacefully over these once hostile regions.

North-west from Stirling is the incient eastle of Doune, distinguished by Sir Walter Sact to the notable Rob Roy. Many wild legends are told of this mysterious freebooter, some of which are not worth the time and paper to relate, though re-hearsed with the greatest gravity by the

Eight miles from Doune is Calleuder, a benutiful little village, which is envel

oped in mountain scenery.

The Liakes would be too numerous to mention. Loch Lomond is the largest. Ben Lomond towers majestically three thousand two hundred and fifty feet above the Lake. Rob Roy was the monarch of this region. The Rock of Rob

above the top of Ben Venns to surprise his unguarded prey, while the sportive ducks were gamboling on the water surface beneath him. The wild fowls were perched upon the high projecting rocks, and looking down with compounts, in defiance of man. The wild goats

to this mountain scenery. Nature's combined forces must have united and torn in pieces some great mountain and frittered it in wild confusion, in huge broken fragments of hills, rocks and wood. Basaltie rocks are traced, though disconnected, in a north-east direction, eapping sometimes sandstone hills, sometimes interstratified with sandstone beds, and again making entire hills, sometimes connecting the igneous with aqueous bodies, as a demonstration of

aqueous bodies, as a quantity volcanic disruption.

Having published my visit to Edinburgh and vicinity, some time ago in the Southern Christian Advocate, I take my leave of Soutland. More anomalism of the Livingston, May 12.

V. L. HOPKINS.

THE DYING INFANT.

Pale, motionless and stient, lay
An infant on lis bed,
While on its face the smile of peac
A beauteous halo shed;
And on that face a mother gas'd,
With looks of wild despair,
Conscious that death's resistees he
Had fixed his signed there.

She saw alone the hastening honr When to her food carees, When to her food cares,
No more she might those ruby lips
With tenderest rapture press;
Bul saw no! In that placid smile,
The brighter vision scal'd,
Which on her derling's spirit broke,
To her yet unreveal'd.

For near the couch an angel spread,
Ilis pure ethereal wings,
Imparing to that spotless soul
Unutterable, things;
And whisper'd soft of angulah spar'd,
Of bliss immortal given,
And all its new-born senses fill'd
With dreams of opening heaven

" WHAT WILL YOU SAY, SIR ?"-When Thomas Hoopoo, a native of the South Sca Islands, had been about two years in the Cornwall Mission School, he took a journey with a friend, and spent an evening in a select company, who were nuch entertained by the questions pro-posed to him by an irreligious layyer, and his amusing answers. At length Thomas said, in substance:

"I am a poor heathen boy. It is not strauge that my hlunders in English should amuse you. But soon there will be a larger meeting than this; we shall all be there. They will ask us one question, namely, 'Do you love the Lord Jesus Christ?' Now, sir, I think I can say, yes. What will you say, sir?' He ceased. A death-like stillness pervaded the room. At length it was broken by a proposition of the lawyer, that as the evening was far anon; they strauge that my hlunders in

that, as the evening was far spent, they should have, a season of devotion, in which Thomas should lead. It was acceded to; and Thomas, in his acceptomed meck and affectionate manner addressed the throne of grace. Soon he prayed for the lawyer in person, alwith unfathomable lakes are all spread out to the eye upon one green map.

This castle was built by the Picts, and retired to their respective rooms. But there was no rest for the fatal fouds of the Scottish kings, whose fatal fouds of the Scottish kings, whose the question of Thomas rung in his care, "What will you say, are the

hind him.
God's servants, whether in high er humble expecity, are "laborers together with Him," and whatsoeyer He is engaged in cannot fail. His hand is in every work undertaken in His name.

They are not only " laborers together with him," but together with themselves. A series of causes are often necessary precedents to an effect. He that, by the order of providence, represents the cause next to the effect, may get all the credit of it with short eighted men; but in the judgment of God, the dead and fermotten one who stood at the remotest end of this series chall be equally, perhaps more, honorable; and in the retriof eternity, he that sowed and

yed will "rejoice together." this world, there is needed of gifts. All good men first to the last, are organized creat joint stock company for it. get sight of us.

Not the probability of success, nor
the hope of success, does the Christian
go upon. He has the certainty of it. How unqualifiedly does St. Paul speak of this . . Therefere, my beloved brothren, be ye steadfast, unmoveable, always abounding in the work of the Lord, for as much as ye know that your labor is not in vain in the Lord.".

To preachers especially is effered the following encouragement to diligence, hopeful diligence. It shows how near they often are to success, without knewing it. Wo received it from one who is ominent in usefulness. Ho declared that it had over been as marrow to his bones, and that much of his usefulness (for he was of a desponding nature) was ost despending reflection upon cumstance from the lips of the criginal, at an early day of his ministry. The original Dr. B yet lives, full of days and honors. He said:

When quite a youth I began to preach. My first circuit was a large nd hard oironit. I made the round most oppressive embarrassment. No gement, and this only, will good appeared . I seemed to be doing harm to the cause rather. The Church would droop under the burden of tations orowded upon me. I had started out with a firm persuasion that God had ragements of the Divine promises oalled me to preach, but now this persuasion that God had directed. Toil may be ar sussion began to fersake me. I could and thankless too, as far as the not do His work, and therefore doubted an are concerned. whether he had called me to it. I concluded I had mistaken my business, and started back heme, without even calling in the appointments.

After a day's journey, I lodged at a ferry house. During the night I overty, reproach, and the loss of life fore me. A man employed me to strike npon it with a very small hammer which Ohristian insured. But upon he put into my hands. The wages were is insured - success, Yes, good, and I undertook it. After tandant success shall ultimately ping upon it for two days, I threw up is. The Christian husbandman in job. "What," said I, " is the use of have his carvest; the Christian it? I shall never break such a rock at reach the goal and be this rate." His kind but reproving answer was, "Have I not paid you your wages every day, as agreed?" "Yes." "Did I employ you to break the rock?"
I could but roply, "No; it was only to strike upon it. I My folly was apparent and my business too. I returned with a resolution, and at the first stroke of the tiny instrument the immense mass orum-

I started back to my work, and under the first sermon presched, after reaching the abandoned ircuit, the greatest revival of religion broke out that had ever been known in that country.

CENTENARY COLLEGE -- We advise all onr readers to begin to lay their plans for being present at the commencement, advertised in another column. It becomes all who feel an interest in the College thus to show it. Not for the 1851 its pleasantest chapter. We sneak from the experience of last year.

The College is now enjoying unwented presperity. Its able Faculty will be glad of the presence, and even scrutiny, of visitors, in the examination of their classes. The graduating class of this year are young men of much promise. Their public exhibition. will be a treat, alike gratifying to their friends and sredltable to the professors. In addition to the rich bill of fare which they present, there are the addresses by Dr. Garland and Mr. Thorpe; the sermon by Dr. Winans, or his ele quent alternate, and the Baccalanreate by the President. The hospitality of the citizens of Jackson is of the most generous character.

METHADIET EPIECOPAL CHURCH, SOUTH-Dr. Lee gives the recapitulation of the Minntes of the M. E. Church, South. The following is the statistical summary :

This year. T5.500 18.504 1.407 10.01 1.601 57. There are 118 nn the superamusted list, 14 nore, than the year before.

The income of the Methodist Episcopal Church

during the same time, was 27,367 members and 411 preachers. Add these to the above, and wa bave an increase for both sections of 37,438 members and the same and bers and 455 preachers.

INCREASE OF THE METHODET EPISCOPAL CHURCH.—The Western Christian Advocate says that in 1840, the Annual Conferences now embassed in the tonds of the Methodist Episcopal Church contained 590,869 nembers. In 1850, there are reported 688,565, beling an increase of 97,696, or about 17 per cent.

"Daunk."—There is scarcely a word in the English languaga that seems so studiously avoided by every body, as the one at the head of this paragraph. We wish the Illing ware as uncommon as the word. The last synonyan that we have observed is "tight," a term, it strikes us, rather inappropriate, annea a "tight" man, in the cant use of the word, is almost always a "loose character." We give a flat of a few of the various words and phrases which have been in use, at lone time or another, to sgorify some stee, at lone time or another, to sgorify some stee, at lone time of another, to sgorify some stee, at lone time of another, to sgorify some stee, at lone time of another, to sgorify some stee, at one time of another, to sgorify some stee, at which they can be a steel of the word o

"Courtship."-T. W. Banner.

Rev. H. N. Mc Tycire-In the Banper of April 12 I see an editorial under the above caption. Having a limited knowledge of men and some things, the whele piece is rather amusing than etherwise. Some of the animadversions are a little caustic; but they are harm-We wish to review seme of the Editer's remarks with quite different feelings than what seemingly prempted him. He may richly enjoy all the self-glorification that can possibly arise from calling me. "verdant." Hewever green may he, there are not a few in E. T. Conference that are of the same mind with the verdant! Philo, as te the prepriety and pressing uccessity of not only "courting," but consummating a legal wedlock between Mr. Banner and Miss Advocate. We de verily believe, from the knowledge we have of their abilities to do much good, and their andcommand a wide influence in promoting the cause of our beleved Zien. Bre. It would seem that he is quite ignorant of the almost unanferences to sustain the T. W. Banner. may be ene exception to the "almost infermation from the preachers, their unanimous opinions are that the T. W. Banner can not be sustained in the E elusien on the part of Philo ner of the

We beg leave to differ with the Editer, that "ne paper exterior to Texas can supply the place of the Banner." due to say that if the Banner could be transperted as readily to the subscri-bers as the N.O. Christian Advectte, then indeed there would be more truth in the above remark. However, the Editor may have had in his mind the Western T. Conference; if so, we acknowledge all that is said on this sub-

of the many reasons why it would suit his Conference to patrouize the N. C. Christian Advocate; and first our mail facilities are threefeld better than from the West. This is a matter of no small importance. Whe would like to subscribe for a religious periodical, and not get to see it in three menths from the date of issne? The Editor is net responsible for this failure.

The second is that the N. O. Chris-

an Advocate has less advertisements. I noticed one of the Banners, seme time since, and counted six columns

much needed they are of little or ne much needed they are of little or ne Thirdly, the N. O. Christian Advocate gives the price current weekly. What an advantage is this to the agriculturist in Eastern Texas! eans is the great commercial emporium fer this portion of Texas.

Fourthly, it gives us more of the for-eign news. We like to knew what "the rest of mankind" are doing. What little we get in the Banner is like the nanna that was tried to be bearded up with the children of Israel-it becomes stale from age. There may be two ways leading to a given point, one a little far-ther than the other and a little more expensive; but for the sake of expediittle more cost.

I do not know from what senree the unofficial winking" came, ner by whem the question was popped," but I feel pretty well assured, if it had been official, and seme assurance given that the Editor should not less his tripod, he would not have deemed it of such a Uellege' sake, hewever, but their own, "oharacter" as te "forcelese any farther negetiation." Then indeed he would not have been se ready to have bluffed another who should be another who should be safety. to have courted a little, ner would he have been se "medest about it." As to the "pledge" of the E. T. Cenference, I am under the impression that it was only given for this year; if so, it will expire by limitation at the sitting of the next Conference. I suppose we will be legally divorced from the Banner—and please. As to the forthcoming of the bonus being "highly problematical," we would say, we are not like many in this day who marry for "filthy luore." There are higher and holier metives that prempt us to the "ceurtship." I will ay to the Editer, if I am net mistaken, he will find, by waiting a while, that he will be "humbugged" if he leeks to the E. T. Conference for a centinued suppert. of the Banner.

"That we need a paper" is readily granted; but what we need and what we want a paper; and if the Banner can not supply this want, let us blend the twe, and both Conferences can have their wants realized from NewOrlcans. As to "papers exterior to Texas," we weuld say, they are more regular in their arrivals than the western. The dear bro. speaks of his "batteries." Thank him fer helping us to the idea. "Defence" is what we want, such as a geed religious weekly cau afferd. What if he had the strongest bulwarks—heaviest artillery, all concentrated at the city of Houston, if they could not be transported across the San Jacinto and Trinity Rivers? Would we be acting with disorction, when our marching hests with discretion, when our marching hests are attacked on overy side, to wait the tardy unction of his mighty weapons of "defence" when help could be precured frem another quarter much mere speed-

"Texas looking to her own interest."
This is the very thing that Philo is trying to bring about in his preposed "ceurtship." Most of the preachers in this Conference believe it to her interest to blend the papers. True, the West-ern Conference have net such inducement se this Conference, yet, we think,

The last paragraph in his Editorial is truly amusing. Hear him: "Let every verdant Philo who is in a courting mood, oourt en his own hooks." I am still in a courting mood, netwithstanding your veto—it has not discouraged me in the least. I take encouragement, knowing more rul the second Lone day, in May, 1853.

I have many to encourage me in the enterprise. I am glad I have " kooks " to ceurt en-se if I fail with ene, another may answer a better purposo. "Bo medest about it." Bro. R. may have

found out some new mede of courting, which I have not been accustemed to I thought I was " medest" when I enly proposed a courtship en certain condi ions; and, as I conceive that part of those conditions have been complied with, I new prepese farther to make the sequaintance of the parties a little more intimate, by keeping up a freor correspondence. Thank you, bre. McTycire, for the nod of assent in your Editorial. our little matter-held still-I de not deem it a hepeless case, where ene of the parents gives a kind of silent consent, though the other may be rampant. All his het gas will evaperate, perhaps; but if not, there may be a runaway match;

knews of any new meder of courtship that have come inte vegue, and will lead me into the light, I will adept them, if they are better adapted to accomplish the thing desired; if not, I will pursue the old beaten track in which so many fertunes have been made.

Tho last sentence in his veto-" Net trouble his neighbers with such small business." I must acknowledge that it never entered my mind, by day er by night, that such little things would have se disturbed his equilibrium as to call forth almost one column in the Banner. If it is se small, why say so much about ceive it to be such small business, when the west or wee of ancounted thousands is at stake. -It is a grave matter, when we look at the amount of interest in-

We have a reading community, and a paper they will have; and if a religious weekly cannot be obtained, some trashy and light matter will be put into their hands, and brought upon their centertables, to corrupt their merals, engender hurtful propensities and thereby throw obstructions in the way of Christianizing them.
Come, brethren of the Church and

reachers of the Cenference, let us act er the good of Methedism in Eastern Texas, regardless of the official Editor. Good must be dene in every possible way to premote the happiness and, final salvatien of the people under the eare of the East Texas Conference.

In eenclusion, I would say, I am as green as ever. Yours, in leve,

nication of Rev. V. L. Hopkins eught have appeared before the last, but, by a mail freak, reached us after its snecessor

Denication of Churches. Net leng since, we learned that brether J. E. Evans, of the Geyrgia Cenference, new stationed at Macon, will not dedicate a church to the service of God, until it is clear of debt. This is a good principle to act upon in regard to the dedication of houses for religious worship. His reason is, that he cannot conscientiously, in good faith, offer up a house, in solemn dedication to God, while the world has large claims on it.

If he commence the religious service,

yet he will not make the " Dedication offer," in prayer and invocation of divine acceptance, until the last dollar has been subscribed and the pay made the the Church has in debt. if the Church be in debt. surety is given, then dees he preceed to finish the dedication services, feeling assured that God will accept, not the lame efforing, (unpaid for house) but the whole, FREE, untrammeled offering.

While in the midst of such services once, he inquired, "if the house was the negativehe paused—then said: "Brothren, I cannot go further until

this house is paid fer. hen we can plight cur faith where we had such been the uniform conrect of many of our preachers, the sheriff would have had fewer squintings at seme heuses of religious wership, while the lead There ing members, in the meantime, would have wershipped in these houses, with

much freer consciences.
Holston Christian Advocate.

### Rowland Hill and the Captain.

Once when I was returning from Ireaud, (says Rewland Hill) I found my self much anneyed by the reprobate conduct of the captain and mate, who were both sadly given to the seandalona habit of swearing. First, the captain swere at the mate—then the mate swore at the sailors—then they swore at the wind—when I called to them with a wind—when I called to them with a strong voice for fair play. "Stop! step!" said I, "if you please, gentlemen, let us have fair play; it's my turn now." "At what is your turn, pray?" said." the captain.

"At swearing," I replied. Well, they waited and waited, until their patience was exhausted, and then wauted me to make hasto and take my

I told them, however, that I had a right to take my own time, and swear at To this the captain replied with a

laugh, " l'erhaps you don't mean to take your turn ?" "Pardon mo, captain," I answered.

but I de, as soon as I can find the good of deing se." My friends, I did not hear another oath on the voyage.

DESPISE NO ONE.—The Jews would net willingly tread upon the smallest piece of paper in their way, but teck it equipment for her net to object so seri-cusly. Why is the Editor so parsimo-nious? If he can't supply us, let ano-objections.

Trample not out any there may be some work of objections. The name of Ged may be written en that soul thon treadest on; it may be a soul that Christ thought so much of as to give his precious blood for it; therefore despise it not. . Arch. Leighton.

If the good Editor this volume, There is a strong and discriminating vindication of the latter from the appendius of those who do not think so well of him as the Lord does. The Jewish History, cuntemporaneous with with a fullness of learning and illimitation whiel we believe, is no where elsa to he found.

> Wilberinree's Practical View: 1851... incalculable good.
> For sale by J. Ball.

First Tilings: A series of Lectures on the Great Fac and Morat Lessons first revealed to Mankind; by 1 Spring, D. D. Tublished by M. Dodd, Naw York; 185 Mr. Rall has laid these two volumes on our table.
By the letter-writers of New York, "First Things" hed gutten much reputation while in course of de-livery. The mechanical job is well and hand-somely done. We never saw any thing from Dodd selves, which from the pulpu have passed into book-shape; wa must say that some how or other Dr. Spring's books always fall below the expectetional created by the notices which reach us he fore they do. To read the seme page over twice, or to no inclination. His productions seem cost into n form a little too high when they reach b-o-o-k; and e Mngezine, or Review classification, would au

rtificially sublime.

In the science of "First Things," he takes the position that the wnik of Crention was accomplished literally in six deys. He maintains, also plished literally in six deys. He maintains, also, with commendable cornestness, the unity of the human race. In theology, views are advanced with which we have less sympathy. Under the head of "First Revolt," he says: "The engols, though created holy, hed no promise that they should not fell. But man is confirmed in hollness from the hour he first believes in Jesus Christ end from litst hour is in an infinitely mure safe condition than angels before their apostacy."

### The Church Suit.

By the ennidity (we must say it) of Norther this week's paper is devoted to the report of the case, as given in the New York Advertiser. Those concerned will require no apolngy for this, and we so late and full.

No Methodist can read these proceedings with-

out deep regret for the policy of the Church in ever having legislated on slavery. All this sheme end contusion comes of growing wiser than the Heed of the Chorch and more tender of conscience than the Apoatles. Paople alweys blunder in doing

than the Apoatles. Paople always blunder in doing that with which they have nothing to do.

Had the spirit of New Eegland fenaticiam prevailed in Jerusalem or Rome, tha Church would have been divided before tha Scriptures were finished. How out of taste, not to say absurd, do that propositions about re-union with the Church, North, which some "Advocates" are making, sound in connection with Mr. Loid's opaning speech? Verily, they are specimens of amiebla simplicity. These overtures heve been eredited to the New Orleans Advocate—by a very great mixtake.

1. The eapital arising from tha profits of the Book Concern was the result of the common lebors and services of all thin members of all the conference, and services of all the members of all the conference and services of all the members of all the conferences. The United States Circuit Court room wantbronged at an early hour this morning with persons desirous of hearing the argument in the controversy between the Methodist Episcopal Church, South. Among them we noticed severel clergymen of verious denominations, and the gallery was occupied by a number of ladies. Judges Nelson and Betts took their neart on the hench at ten o'clock, and the counsel for the parties noon made their appearance at the bar. Southern clergy present, Rev. Drs. Early, Pleroe, Smith; Northern clergy present, Rev. Drs. Soott, Durbin, Peck, Kenaady. The stile of the acusar is Henry K. Bascom and others vs. Georga Lans and others, and the complained is filed in equity for the purpose of enforcing a division of the funds of the Methodist Book Concern. The Hon. Reverdy Johnson, of Baltimore, a ed Danial D. Lord, Eaq., of this city, appeared for the complainant, Mr. Webster, who is also magaged on the same side, being absent. For the 'dafendant, appeared the Hon. Rufina Choate, of Massachusatis, and George Wood, Esq., of this city. Hen. Thomas Ewing was also present, he being counsel for defandants in e simples suit signains the branch Methodiat Book Concern of Cincinnati.

Daniel Lord opened the case with a brief detail of the general facts cod circumstances of the cese. The auhject of this controvery is what its decomplement.

Daniel Lord opened the case with a brief detail of the general facts cod circumstances of the cese. The auther of this controvery is what is decominated the Book Concern in the oily of New York, the funds of which amount to \$750,000. In the cerly history of the Methodiat denomination, the preas was resorted to by Mr. Wesley, for the purpose of disseninating a religious literature. The nucleus of the cetaltishingent in this country was in Philadelphia, whence it was soon after removed to New York. It become ultimately a concern of great magnitude.

In 1836, their building was hurned down, but was soon rebuilt, and the concern gradually increased in its operations until it reached its present large extent. The profits of the fund were devoted to making up u provision for superannuated praachers, the widows and orphuns of deceased ministers, etc.

The fiftee of this denomination are governed by

ted to making up u provision for superannualed praachers, the widowa and orphuns of deceased ministers, etc.

The affairs of this denomination are governed by what are called annual conferences and a geography of the conference and a geography of the geography of the conference of the geography of the there were seven. The conference consisted of all the preachars who "travelled" a particular federal in 1844 thern ware 32 or 33 annual conferences. The general system of the Methodist clergy is to dinerate from one church to another, and the conferences will be a provided for them as far as they could. Whan the conference were too poor to provide for them, a daffelency of course occurred, and it was to supply this deficiency, in purt, that the surplus funds of the Book Concern were appropriated. In 1808, the power of the General Conference become so absolute, that the more conservative members of the denomination began to fear that it would be dangerous, as it might even after the doctrines of the church, and a change was then under in its organization, providing that it should be composed of delegates, lastead of all the preschers, and a number of reatricitors were imposed. Among other things, they were restricted from diverting the surplus innder of the Book Coucern teany other things, they were restricted from diverting the surplus innder of the Book Coucern teany other things, they were restricted from diverting the surplus innder of the Book Coucern teany other things, they were restricted from diverting the surplus innder of the Book Coucern teany other things, they were restricted from diverting the surplus innder of the Book Coucern teany other things, they were restricted from diverting the appropriation.

A great question will arise in this case as to the effect of this restrictive role. It grew out of the aubject of slevery. The Methodiat denoulination is an early period took high ground on temperance, and sherry. They excluded joom membership any on who bought end sold knaman belags, for the purpose of enaburing them, and these provisions is where found to but so impragiteable that they were reacined at the next Genetic Conference, and the matter was left to the legislation of the various. States in which their members resided. About the year 1836, the agitation of ebolition hegan very seriously to disturb the methods and turch.

The hishops and the conservative clergy endangers are solded to the same relicial and decisive, and a state of things then occurred which necessarily led to a separation of this church into two ports. A minister unanel Hading had been complicated of so possessing slaves, and the Baltimore Conference auspended him, elthrugh twas impossible for him to manunit them under the laws of Maryland. He appealed to the General Conference, and that both confirmed the suspension. Another difficulty occurred in the case of Bishop Andrews and the suspension that he should suspend his episcopal functions in the head of the conference supported the suspension. Another difficulty occurred in the case of Bishop Andrews and the Rev. Mr. There things convinced the Southern members of the church that it was unprofilable for them to no an in connection with these was the conferences elected diegets to concentrate the suspension. But the Northern benefits of the control of the conference of 1844, protesting against the action taken in the cases of lishop Andrews and the Rev. Mr. There things convinced the Southern members of the church that it was unprofilable for them to no an in connection with the state of the control of the con

otheir share of the profits of the Book Concern are therefore just no orthodox os they ever were, and just an much entitled to their proportion in the fund which hes heen necumulated by the joint extentions of their fethers and husbands.

Mr. Lord then fead the complaint. After which Mr. Johnsun, (a son of the Hon. Reverdy Johnson, we believe), reed a portion of the answer, end Mr. E. L. Fancher concluded the reading of the same. The reeding of the opplication was dispensed with.

Mr. Loud here stated that Bishop Bascom having died since the bringing of the suit, he had obtained a consent from the defendants to substitute the name of the Rev. William A. Smith as one of the plaintiffs, and an order of the Court making such substitution, was accordingly made.

Mr. Lard commenced his argoment by stating that Emory's History, the Book of Discipline, the printed-iournals of the Conference prior fid 1840, and other documents, were to be introduced an evidence, by ogreement between the parties.

He then read estracis from the Book of Discipline of 1840, page 198; Dr. Emory's Hintory, under the year 1800; the Articles of Isligies; the Six Restrictive Arinna; Wesley's Letter in Dr. Coks, Mr. Francis Asbury end the bethran fin North Americe, etc., and had not finished reeding the outhoutes upon which his argument is to be founded whan wa left.

the outhorities upon which his argument is to be founded whan wa left.

BECOND DAY.

This inhortant cose was resumed at ten o'clock this morning. Mr. Lord coetinued reading extracts from the Book of Pioofs, et pages 64, 68, 73, 74, 75, and also from the Dehetes of the General Conference of 1844, pages 22, 23 and 24. He also read the laws of Meryland, prohibiting the maenmission of sleves within that State, and referred to the written opinions of Judge Key end the Hon. Mr. Merrick, on the case of the Rev. Franois A. Hardiag, which were presented to the Baltimore Conference which suspended that minister.

The Rev. Dr. Smith, of the request of Mr. Lord, read the protest of the minority of the General

read the protest of the ininority of the General Conference against the uction of the majority in relation to Bushop Androw.

Mr. Lord then read a letter from the late Bishop Bascom, the cuthor of the protest, axplaining soice portions of that document which had been misconstruct.

Mr. Wood, for the defendants, saked that they might here he permitted to read the reply to the protest, and the counsel for the complements making no objectico, it was, with the assent of the Coort, reed by the Rev. Dr. Peck.

The points upon which the complainants rely, ere as follows:

1. The capital arising from the profits of the Book Concern was the result of the common lebors

counce the General Conference of 1844 did in fact,

The General Conference of 1844 did in fact,

coolerences on grave causes touching the general efficiency of tha Church.

5. The General Confarence of 1844 did in fact, and on proper grannd, coesent to such division to take effect immediately, in the choice of the Southern Conferencea, and without any condition.

6. The General Conference of the Church South was duly and properly organized according to the plan of seperation, and is in every respect on properly a General Conference within its limits as the General Conference within its limits as the General Conference of the Church North.

7. The beneficiaries of the fued in quastion, therefore, who belong to the Southern Conferences, did not by the new organization lose any rights, nor, were they disqualified in any manner from cloiming their shere of the fund; and such claim is appropriately made, through the General Conference South, which succeeds to the place of the prior General Conference of the Whole church.

8. An account should, therefore, be ordered of the proportions of the profits of the Book Concern, according to the numbers in the minutes of 1844, and at the same ratio of the profits since. Also, the capital of the fund should be decreed to ha, divided in the same wey, end peid over to the commissioners South as shew trastees, or to proper trustees to be appointed by the Court. The profits of the past are to be subject, to directions of the General Conference South, whether the fund remain with the present trustees, or to be paid over to new trustees.

There is such a mess of documentery evidence to the rend in this case, that it will prohably occupy the greater part of the week. Ng speeches have yet been made by the course on either side, except han opening address by Mr. Lord, end as there is an in jury, there will be very little ronm-for eloquence. The occurt-room, however, continues to be crowded with spectators.

\*\*There is such a mess of documentery evidence to be counded with spectators.\*\*

\*\*There is such a mess of documentery evidence to be counded with spectators.\*\*

\*\*There is suc

THIRD DAY.

At the opening of the Cnurt this morning, Mr. Choate referred to the passagns in the Books of Proof which he should read from for the defance, and the argument for complainants was then commenced by Mr. Lord. He said:

There is a starting point in this controversy on which we ore ell agreed, and that is that, immediately prior to the separation, all the superannuated and worn-out precenters, their widows, orphans, etc., were entitled to participate in the profits of this Book Concern. It may be said that the distribution of these profits was ueder the control of the General Conference, that without an utter abundonment of its primary duty, we contend it had nothing to do with them, except to see that they were passed over to the ninual conferences, to he by them distributed according to the intent and purpose of the original establishment of this fund.

There was nn discretion in this subject in the conferences. Their duty was simply to ascertain.

There wes nn discretion in this subject in the conferences. Their duty wes simply to ascertain what persons within their limits came under the class of, benaficiaries. In this Court it is unnecessary for us to ascertain whether the estate of these beneficiaries is a fegal or an equitable one in tha profits of the Book Concern.

They certainly had a right to the profits, and the agent were merchy their truesses to the profits of the Book Concern.

They certainly had a right to the profits, and the agent were merchy their truesses to the profits, and the agent were merchy their truesses to the profits, and the agent were they not those rights still! Are they not Methodist! Have they abandoned one jot of doctrine or discipline? Are they not in communion with the Muthodist Church? The defendants say in their ranswer that the plaintiffs have all forfeited their rights in consequence of secession.

If the Court order a distribution of the profits it does not follow that the fund must be divided. It can still be employed in currying on this Book Concern, and the profits may be divided pro rota. There are he divided pro rota. There are he are the court of the profits of the profits had a find the profits of th

In the rener anged can be a floraled without disturbing the fund in any manner whatever, if the Court should find any difficulty in that respect, Mr. Lord here etted Field vs. Field, 9 Wendell 400; Millar vs. Gabla, 2 Denio 518; 10, Page, 646; Davia and Jenkins, 3. Vescy & Beames 152; Attornay Genara

tamnes, be at once out oil from ell perteipation these profits? springing from a fund which has been created in pert by their labora?

The defendants ere carrying on en Indian wa. They, apere neither man, women nor child. At must be sealped. I absolve them in my heart free any desire to do injustice, but they are driven any desire to do injustice, but they are driven any the multitude behind them.

I now propose to examine the grounds of for feiture which these defendants set up. Oas in that, even if the General Conference, did graspower for this seperatron, they had no power to do so. In the next place, they say that the power woully granted out the contingency of its possing the Annual Conferences.

Our than power of the General Conferences to anthorize a separation of the Church, I remark is the

tion of the defendant's mawer, to show that admitted the right of tha plaintiff, but took it ground that it hed been forfeited by a breach condition.

He then raviewed the position which the Maly dist Church had assumed on that subject of sleen, ever since the Conference of 1784, when Dr. Cair introduced his rules prohibiting the members of Church from buying or holding slaves.

A chose was edepted, providing that these ris should not be enforced when the laws of the Sas conflicted with them; and yet with that modification they were found to be so imprecticable did they were repealed in 1832 at han a year afterwal ferences. In 1801 a dintinot submission of washiect to the local law was made. In 1804 were required to instruct their servants, and synants to obey their mesters. In 1808, and sprint 1812, the subject of shreer was retracted by the local law. In 1815 the Genaral Conference of the local law. In 1815 the Genaral Conference resolved that no slaveholder should hold as officially in the Church, when the lews of the Sas in which he resided, permitted emaccipetics. It is 1824 all the preceders were instructed to safe upon their members the duty of teadding dislaves, to read the word of God, and giving the stime to attend public worship. In 1840 the sprint he came extreme, and the state of opicies is stime to attend public worship. In 1840 the sprint he came extreme, and the state of opicies is stime to attend public worship. In 1840 the sprint he came in the Church became irreconcilable. In show this, Mr. Lord referred to the journal of proceedings of the Westmoreland Conference of the formal of the proceedings of the Westmoreland Conference of the formal of the proceedings of the Westmoreland Conference of the proceedings of the Westmoreland Conference of the sprint. They said that if they were founded on the administry and they could not, there are not the proceedings of the Westmoreland Conference of the sprint of the spr

LETTER VI. Visit to Wesleyan Church—Wesleyan-ism in Paris-Romanism—Cost of Clergy, etc.

the Wesleyan Methodists have a schurch in this great city. Among the earliest inquiries I made, after I got here, related to its leeality. I was anxiety a single with the same religious. ious to mingle with the same religious family in which I had been trained and with whom I had identified my spiritual fortunes, years ago. So, one Sabbath morning, I sat out, under the gldance of a Frenchman, to hunt up the Wesleyan house of worship. We soon reached a very respectable building, destitute, however, of the nichitectural ornamenting, for which the Papul buroles are so remarkable. It would pass muster as a very creditable structure, in one of our small cities, but is not what is necessary to give Methodism position and influence here.

On entering the temple, I saw but Description or two Sandwich Island

little to remind me of Methodism, as it is in usage in the United States. In fact, but, for the Wesleyan Hymn Bookthat was used, I should have regarded mysolf as being in an Episcopal church.
The Episcopal sorvice was read, and the gown worn, just as the Episoopalians do in America. In addition, there was the organ, the choir, and all the olements of music manufacturing as practiced by the English church. I confess to a feeling of. disappointment at what I say: Instead of meeting that sim-plicity in the service of God, which, from some cause, I had always associated with Wesleyan customs, I was sur-prised and mortified at the stiff formaly and the preciseness with which every

thing was conducted.

The minister is a very intelligent and caltivated gentleman, and is highly estemed by his congregation. The first sabbath that I visited the church, I raited after service, until he came down from the pulpit, and then presented him, my card, telling him that I was a Wes-leyan Methodist from the United States. He handed me his, and expressed a desire to see me. Since then, I have spent some pleasant hours in his com-The Wesleyan church here numbers but few, and gives but little hope of im-

Recent angres from these islands have been so interesting that many have been curlous to read some account of them. We unlex a short description:

Sandwich Islands, an Interesting group of islands in the Pacific ocean, forming part of Polynesia, and lying in the nurthern hemisphere, between lat. 18 54-und 22 15, and between 1 on. 150 54-and 150 24 W. They are aleven in number, and were discovered by Capt. Cook, in 1778, who gave them their rame In honor of the Earl of Sandwich. They are called by the natives Hawaterine Cashylice.) Mowee, Renal, Merotai, Tubogrowa, Wondon, A to d. Nielcedmit, Oncehuna, Morotinnee, and Tubocra, all inhabited except the last two. Hawati is much the largest, being 97-miles in length by 78 in breadth, and cust ining 4,000 square miles. All the other labads imited contain but little over 2,000 square miles. The climate of these islands is salubrious, and lifters but hirle from that of the West labas in the same latitude, except that they are not subject in the violent hurriranes so prevalent at the latter, and there is more rain at the Sandwich Islands. The soil is fertile, and the vegetable productions similar to those of other paris of Polynesia. The bread fruit, varo-rot, sugar cane, ong fruits of vartious kimis, flourish lere in abundance. Sandal wood furnishes an important article of export. These islands are in general mountaineus, and the scenery highly hovel and pletureque—one of the mountains of Hewati is 16,000 feet in height.

The miscionaries say that the population is countained, the Morugeas, and inserious in the conseruction of their cances, waspons of war, etc. The samilarity of their leatures, habits, traditions, and language, to those of the natives of New Zenlind, the Morugeas, and other vislands of Polynesia, afford proof that they were originally one nation, or emigrated from the same country.

Until tecently the people of these islands were gross idolaters. The Taboo aystern first been in operation, and even to have food-cooked by the some fire. There were vario prevement or increase. The Catholic religion holds the masses, as by a spell. The grandeur of their churches—their ave:inspiring ritnal—their monetary monopoly—the support given it by Government, and the troinendous influence exerted over the people by an artful priesthood—all combine to render it next to impossible to throw off a yoko so seenrely fastened upon a superstitious population. It is trno, freedom of conenco is tolerated, yet what does it amount to? The consciences of the people are in the keeping of confessors, and they in solomu league with "the man of sin;" so that the liberty granted only serves to render the subjects of religious tyranny tranquil in their chains. the French are by cons tution fit subjects for Romish domination. They are fond of splender, devoted to fashionable gayeties, and seem to mergo the whole of life into the present hour of their existence. At church they are wonderfully religious-at the confessional they are all penitence, and at the sacrament they are sanctity impor-sonated; yot church, and confessional, and consecrated masses, are all as soon forgotton, at the theatre, opera and mas Cruz, whence she sailed on the 23d isst, we hav papers from the nity of Mexico to the 20th inst. querade. It is enough that religion was attended to at the. time appointed The Alabama brings, ea passengers, Mr. Trestour, Dr. Kovalcaki, and their party from Tehuenfor its special duties. They have no thought of obtruding its solemnities upon their festive hours and seasons of mirth. Literally do they net upon the deetrine that there "is a time for (to)all things, etc." The priests are satis fied with this periodical devotion, and the volatile Frenchman will not soon

yield his course for one less latitudi-The Catholic clorgy are all paid by the Government. Their archbishops in Paris, receive each, eight thousand dollars annually. Elsewhere in the re-public, they are paid from two to three thousand dollars. The salary of a vicar general ranges from five to eight hundred dollars, and the pricats reciove from of Havuna on the morning of the 24th instent, and turtaing up and around inside of the port, two hundred and fifty to three hundred dollars per annum. The annual cost of the Catholic clergy of France to the State, is estimated at \$7,260,000. The The above estimate as to salaries, etc. does not include perquisites. These added increase the amount very considerably. The Government holds the ohurches as State property.

In my next I will give you a brief

account of my visit to one of the prinraio Recis. The occurrence, and the assistance given to the Colon by the American scholone Ronina doubtless excited a variety of suspicions cipal, and most memorable, because of historie- associations, churches in As you have intimated that short letters are more current with the editor of the Advocate, I will close. Yours irnly, Poris 1851.

Spain,

This the general opinion that the Cabinet would obtain a large majority in the Province. It is rumored that the Queen is enciente. It is also stated that the Spainsh Government is actively negotiating with France for an adjustment of the line boundary between the two countries.

Accounts from Naples state that the claim for in demuity for damages done by various nations in rousequence of the war in Sirily, was brought to satisfactory arrengement by the mixed commissioners.

Accounts from the Cape of Goost Hops, by the Hellesport, which left on the 4th ult, and reached Plymouth on the 8th linet, structhan there had been some lighting, though nothing very serious had occurred. Some of the Cape Rilles had gone un to me Kaffire.

THE WEATHER AND THE CEOPS.-In Alo hama, the papers report the prugress of lheir oats and wheat with as much tender, regard es they show to their cotton and corn. The Greens

boro' (Aln.). Beacon, of the 24th, says:

Interesting Intelligency by Tringreph.

Section of the Orana Particevery.

The same May On-The Orana, is his specification of the Comment of

Sinco the days of the civilized nges, it has been a great feature in human action to prevent crime among mankind; and consequently any thing celevities at the commencement of the Penitentiary systems of panishment in Alahama, in the year 1842, about nite years agovither bas been ion rhundred and forsteen convicts committed for various crimes, but mostly for larcenty; sity-five of whom me natives of the different foreign combines—more than one-half are natives of larleand—twelve of them a me married and have children in the Huled States. Three hundred and have children in the Huled States. Three hundred and have children are natives of Georgia than any other one State, and lant few native Alabamians; one hundred and brity-two have a wife foud children—twenty-six have a wife had not has hire—two have children and how the living. Twenty-five convicts have two wives each, and one has hire—two have children and how wishlings. Twenty-five convicts have two hundred and twenty-six children; averaging a lattle over mine to each one—one for going into a juil and dressing a brother in fetable. Other has seven ean. There has been four women-committed since the system went into operation—one for going into a juil and dressing a brother in fetable. Other has seven ean. There has been four women-committed since the system went into operation—for his particular two dided—in 1843, four—in '46, three—in '47, alx—in '48, fuur—in '49, four—in '50, two, and two have heef since the first day of January. 1851. This is certainly a 'very small number of dentia, when it will be racollected that, as'a general thing, the most debauched men, with broken and wom out constitutions, and the hard of the convicts of the Indian have held the most of them have dided—in 1847, (so we have heer Informed by the physicism,) than during any year previous to that time. Ninety-eight have heen parloned ont hit the different Executive for the same length of time and one hundred and sixty in the Penitentiary would be athered. This disease previous of the In

and wheat with as mirch tender regard os they show to their cotton and corn. The Greensboro (Ala.) Beacon, of the 24th, says:

"For the last two weeks the wetther his been quite worm—the thermometer ranging from 80 to 80; and, as a natural consequence, colton has improved very much, though it is tell quite smell for the secon. Corn, especially he the black lands, is remerkally promising, thought is the black lands, is remerkally promising, thought is considered to the secon. Corn, especially he the black lands, is remerkally promising, thought is manifering much for each state of the sandy land, would be considerably diminished by the drought.

In Mississippi, the Figst Gibson Hereld of the 23d shys:

"We learn from various enterprising plunters of the county, that the warm wenther of the past ten days has produced a very desirable of the past ten days has produced a very desirable of the past ten days has produced a very desirable for the county, that the warm wenther of the past ten days has produced a very desirable of the past ten days has produced a very desirable for the county, that the warm wenther of the past ten days has produced a very desirable of the past ten days has produced a very desirable of the past ten days has produced a very desirable of the past ten days has produced a very desirable for the county of the past ten days has produced a very desirable for the past ten days has produced a very desirable for the past ten days has produced a very desirable for the past ten days has produced a very desirable for the past ten days has produced a very desirable of the past ten days has produced a very desirable for the past ten days has produced a very desirable for the past ten days has produced a very desirable for the past ten days has been day to the past ten days has been desirable for the p

NEW ORLEANS PRICES CURRENT.

Baowneville, on the Rio Granos. The liouston (Texa) Telegraph of the 16th inatant hendsomely sketches a sister town:

"Brownaville is ateadily improving, and is now much lerger then Houston. The rowdy, gambling population that formerly disgraced the lowns on the Rio Grande, has been aupplented by a respectable, moral population, that would do credit to the towns of the ulder States. Now churches and school-houses are going up in all directions. The trade with the Mexicans at the marchants of Matemores which he Mexicans the marchants of Matemores find in Brownsville a formidable rival. The Mexicans in the interior towns are so much attached to their nwn institutions, that they only trade at Hrownsville when they can intain grant advantages. Every-effort is made by the priests and Government officers to induce them to trade with their own inerchants. The Lovernment has also granted privilegen that enable the merchants of Matimorois to sell their goods on much more reasonable terms than they did before the war. There are three on four steamers contounly rounting in the Rio Grande, and the mavagatan is open throughout the year. The intemposation is open throughout a politic proposation in the late of the Rio Grande, have sill failed. The country is achieved the year throughout the work in the late of the Rio Grande and the respective of the Rio Grande valley."

Base Revence and Outrace between the two places, Point Isabel mey become the great emporium ut the comperts of the Rio Grande valley."

Base Revence and Outrace. The Rev. William Johnson, officieting Episcopal minister et Tirecalossa, Aia., whilst on a recent visit to

has attending physician, Dr. Paul Lee. This in-famons attack was prompted, as the Mobile Regis-ter states, by an add gradge, that had he origin ter states, by an gun grauge, that has many years aluce, when these young men ware taembers uf a school in Lowndes county, of which Mr. Johnsun was principal.

NEW ORLEANS MARKETS.

CHAIRTIAN ADVOCATA OFFICE, The past week has been a d all one for butters generally, and the transactions in Cotton have been namally limited, with a downward tendency in prices, which, however, was somewhat cheeked by the more favorable advices by the Liverpool steamer Canade. Tobseco has been moving off more freely, though at low rates. Sugar and, Molasses have evinced more steadness, as is also the case with Virain.

Our first advices from Ecompe will be due by the steamer Asia, which was to leave Liverpool for New York on the 2th inst.

Our next advices imm Ecomps will be due by the stance Asla, which was to leave Liverpool for New York on the 38th inst.

Cotton—The Cotton markit was golts steady on Saturday, the first llay of our commercial week,) and factor asked such foll rates as to conflict the basicess to about 250 hales. All night, however, the Baildon news came to hand, reporting a usual in the Liverpool surfact, and a deel far in prices of \$160 \text{ id}\$ (a) deep which ea flavorable latelificates beroght our market almost to a stand, sad on Monday barely \$80 bailes was taken, to complete fisight eagagements. On Taesday some 2500 bailes changed hands, up to acon, at a deelife of \$1.00 \text{ in our Liverpool was received by the Canada, amonacing a recovery of \$1.00 \text{ in our Liverpool was received by the Canada, amonacing a recovery of \$1.00 \text{ in our Liverpool was received by the Canada, amonacing a recovery of \$1.00 \text{ in our Liverpool was received by the Canada, amonacing a recovery of the decline, prices of wednesday and Thursday—comprising 450 hales—showed a complete recovery of the decline, prices closing at about the same figures corrent bafore the Bailto's accounts. Yesterday the Alice's better came though, but appeared to contain no orders of importance, as the sales reached hat \$900 bales, taken mainly for England. Prices ofose though, more firmly, at earn 61 jursey quoted lags week. The receipts at the provider of the same date last year; and at all the U. S., ports there have a now an increase of 28,007 bales.

See the congress of the plain, hy which we cities and unite them with links of iron. See the congress of the

We copy the following from the European Time of May 3:

Me copy the following from the European Times of May 3:

After several days of excitement, daring which the pashio carriody has been wound up to the highest pitch, the morning of Thorsday, the day fixed for the opening of the Great Exhibition of the isodostry of all nations, opened most auspiciously. On the preceding day we had rain and hell, with very cold weather, but the glorious first of May was no interrupted by scarcely neloud; and at middey, when the Queen seconded the throne, the effulgence of the sun left no other wish ungratified. As far as the mortal arrengements depended noon man, they were perfect, end I rejoice the say that the day passed off without a single accident that I have heard of. I found, upon reaching the Piccadilly, at nine o'clock in the morning, a line of charisages which received from the Exhibition to the eastern end of Long Acre, a good couple of miles; and the same thing existed west, north and south. Finding this in he the osse, I alighted and walked into higher Park, cetering the commissioners gate without the slightest inconvenience. The scene upon entering was beautiful in the extreme. Altready every asset was occupied, but a member of Parliament, who was an exhibition, contrived to make a little colerie in the Tunisian department, to which I was admitted, and I saw the whole incurrently you saw the figure pouring in until the lust moment; and at helf-past eleven-o'clock I gazed upon the wonders of the grand trensept, and heard the mighty ergan from the west end, the tones wafting their scenarios through the mass of British manufecture and productions; while at the cestarn extremity you saw the American Engle productions—long lines of beautifel women, with officers and gentlemen filling up the back greend, end in every way the eye was turned some aurpulaing attural or artificial object was so be seen, the tout ensemble was altogether most beasified. Penchally at twelvo in clock the Queen arrived; her entree heig marked by long and animated cheering. She seated herself on the

the glass bailding. Prince Albert, with the Commissioners, presented himself hefore the Queen,
aed read the report as described in the official programme. I could not hear the tones of the Queen,
when she read her reply, from the spot where I
was placed, but the fact is, any mertal voice is lost
in the vast edifice. The Archbishep of Canterbury
then delivered the prayer of inauguration, which
was followed by the Hallelqish Chorus of Handel,
under the directice of Sir Heery R. Bishop. The
effect of this was most striking, and the voice of
the ohoristers were here ie-the tillest perfection.

A procession was then farmed of a most interesting character. The state, hereids, preceding
Messrs. Parton, Fox, and Hondarson, led the way.
Then came all the officials segaged in constructing
the hailding; afterwards the foreign acting commissioners; and most singular was it to see all the
various costumes worn by hard-headed capable
men from avery quarter of the world. Then followed the Royal Commissioners, among whom I
notleed Mr. Ochdoe, dressed in a plain black cost.
Then followed the veneralie Duke of Weilington,
walking side by side with the Magnetis of Acute

commanding appearance, followed, and her Majesty's Ministers, headed by Lord John Russell.
These were loudly appleuded; and lastly, the
Queen and Princa Albert, the one leading the
Prince of Wales, and the other the Princess Royal,
clinking the procession, with the Royal Prussian
guests et, the palace, end the ledies of the housetable.

guests et, the palace, end the ledies of the household.

The procession first marched along the British
or westarn nave, and thea, recrossing the transept,
passed on to the eastern extremity, the United
States' end. At every atep naw acciamations
arosu; the mesio from the various organs salated
the procession as it passed, and thus avery person
is tha huilding was enabled to ace every individual
le the cortega. The Queen theu declared "the
Exhibition opened," and the trampets and artillery
annoueced tha fact to the countless multitedes outaid. The whole auditory arose to give a parting
charr, or series of deafening acclemations of joy,
and the ceremony terminated by the retirement of
the Qoeen, who want back to Bucking ham balace
is the state in which she had come.

The multitudes in the park were countless. I
looked through the glass window and a ace of
haman being a surrounded me on all sides. Every
body was in good humor, and all the superstitions
presentiments of mischief which had heen formed
is the imaginations of some minds, were wholly
falsuited. Never wee no great a spectacle inaugurated with so much good order and tranquility, in
the presence of perhaps half a million of human
heiogs.

tated with so much good order and tranquility, in the preaence of perhaps half a million of human beioga:

Tha Queen having last the building, the company began to circulate. Perhaps your readers at a distance will proceed with me las a rapid tour throughout the varioes departments of the Exhibities. The first objects which strike the visitor upoe entrance, either at the north or south end of the transept, ara two magnificent gates stretching across, which having passed, he finds himself in the ceetre of the haiding, amidst statuary, fountains, palis trees and rare tropical shrobs, the equestrine statues of the Queen and Prince Albert forming the most preminent features, amidst an infinite multitude of objects, each of which is displayed to the best advantage. Along the neve, both towards the cast and the west, there is a succession of gigantic statuary, in marbla, iron, bronge and xiac, the laster of a very remarkable character. Almost the first object which arrests your antention is the Kohl-luor disamond, secured in a strong caga of iron, richly gilded; and hydy's eggtyjvange, this precious jewel, which is placed on a shoul pedestal, sinks at aight down into the strong inon chest upon which the cage rests, so that it is safe and secuna sight and day. Growth flocked round this jewel to admire its sixe and brilliacoy.

Along the whole leagth of the building, in the centre of the nave, is placed a auccession of the most striking objects, releved by the statuary. There are models of hridges and towns, all of elaborate execution, and among them the models of mochinery, small chaples to exhibit specimens of stained glass, the Acis and Galatea fountains, the American statues of the Wouded I adiae and the Greek Blave, the statue of Shatspeare, and the cryatal fount in the centre of the transept, prasecting a very graceful sad striking appearance. Perhaps that whole werld has never formished such a remarkable in never domined the cryatal fount in the centre of the fransept, prasecting at this never is of stractive ob

States, you enter the great department of the Zollverein, on the morth and south sides. The collection of marchinery and manufactures, of the most varied description, presents a thousand objects of the highest interest. Russia occupies a small department on the worth; and this inscarcely complete; but, to connected for this, Austrie, also on the nerth and south sides, exhibits a variety of products which pince her in a very honormide position in the Eshibition. All the Austrien exhibitions are dressed in a simple Austrien green uniform, with coats fastened at the breast with a long class, in the large of France, which, when complete, will be very bening that, and well by of the laste and skill of that greet country. Switzerland and large of the larg

annerials, afford abundant scope for study, both-to the merchant and philosophers.

A beaufiful little square of mediaval treasures in the control of the square of mediaval treasures in the control of the south of the study ture room. You are now, on both sides the nave; fally in the British domestic latitudes. While agricultural implements occupy the whole remaining length of the extreme south, paper and printing, and machinery in mation, fill up the extreme north; the front of the south side being devoted to Birmingliam goods, furniture, Sheffield goods, woolen and mixed fabrics, fles from Irelend and printed fabrics from Menchester, London and Glasgow. The front of the north corresponding side presents a succession of departments, with carriages, come of them of the most elegant construction; minoral manufectures and merine engines, flanked on the front with paper goods, furniture, turn, leather and cotton.

We have new arrived at the west end, where crowds are seen surrounding the model of Liverpool, which is at thinspot in the neve. On the obtained of the building are statues, columns, specimens of coal, ohelieks, and a vast veriety of architectural and building processes, with a detached building whence the steam molive power is derived. I have only passed through the ground floor, and having seid a single word respecting the contents of the gallery. I may stee that there is hat one gailery, which runs the whole circuit of the building, and spacinus quadrangular courts are cut out of the gallery, down into which the spectator may look, and the chiects are so arranged as to produce the most picturesque effect imaginable.

I suffered great fatigue in going through the whole cribition, on Mondey leat; indeed, such a task is almost beyond the power of any man to accomplish in one day, and to observe the inconceivable-variety of objects which fleet your at every turn. I say that I want through the whole, the exhibition is successful to the highest point uf eny conception. Which may have been formed of it. Ever

to the Crystal Palace, with her escort and cortege, was through a line of almost innumerable spectators. Every looking place in the route wes filled. The alne carriages which formed the royal processing the contract of the royal processing the royal proce sinn were the objects of universal ouriosity. The whole world appeared to be wending towards the Perk. The Chronicle edds:

while world a ppeared to be wending towards the Perk. The Chronicle edds:

Some idea mey he formed of the immense number of vehicles which were proceeding from all parts of London to the Perk, when it is stated, from a calculation which was made by persons interested in arriving at the facts, that if the carriages had been pleced in a direct line, they would have estended over a space of nearly twenty miles. Of the vehicles which arrived et the Park gates up to 12 o'clock at moon, there were 1050 stats carriages and carriages of nohlemen, and others of the highest rank, 900 broughams, 600 posting and hack carriages, 1500 hack cerrisges and cabs, 300 clarences, and 380 vahicles of other desoriptions.

The erowd on foot was equally imposing. In quick anccession, as the morning advanced, fresh masses pourad into the surrounding aree, until every available, spot is the immediate vionity was occupied. The prassure still increasing, come mounted tha trees, occupying in the first instahea the low and sturdy branches; but new appirants to teke a higher flight, until a living pyramid was forned in every tree, capped by juvenile sight-seers, who clong with desperate resolution to the upper branches, which beat and crackled heneath their weight. The convols then stretched along towards the Serpentine, in the direction of Kensing-towards the Serpentine in the direction of Kensing-towards the Serpentine, in the be seen congregated on the northern shore of the river, and grouped along the grassy slopes that rise from the water's edge. In that great gathering of the nations, thousands upon thousands were closely wedged together, yet not a word of complaint was head; every one bore his lot patiently, and forgot ell feeliegs of parsonel inconvaniance, in eeger anticipation of the great event they had all nasambled to witness. Never, in a meeting solaly composed of Englishmen, was more good humor displayed that in this great cosmopolita bassemblage, thus affording as illustration of the rapid advance of kindly feeling amoug the nations of the world. On the aummit of the Crystal Palace the inhebitant almost of avery clime might behold the fleg of hie active lend unfurled to the hreeze, in peaceful conjunction with many a hanner against whose supremmey his countrymen had in former deya conteaded; but now no longer is there a rivalry of erms—the rivalry of arts has succeeded—the temple of Mars is closed; and the auspictous proceedings of yesterday may leed to a contest in which each action and each individual will only struggle for the well-being of their kind.

The Chronicle acya of the foreign part of the

The Chronicle acys of the foreign part of the Exhibitioe:

In the foreign nave we looked in vain for meny foreign faces. Our visitors find, no doubt, been uttracted to thet portion of the huilding which gove them a view of the ceremonial of the day. At all ivenits, we saw hot few in this pert of the addice. Hera acd there, a piquant French face coatrasted with the gentler expression of the Anglo-Sason lineaments, and a few dark eyebrowed Italiens brought a still warner complesion into the picture. There were also come Garmans, but they hore a small proportion to the aumber which must have heen present. The only pert of this nave where any foreign pationality was at all prominent, was at the extreme-end, where, under the immediate-protection of the stars and the stripes, there was nothershle muster of oer American relatives. Some of the ladies here displeyed great personal attractions, in the youngar cases anhanced by that siagular fregility of appearance remarkable in tha American girl—tha geatlemen showing somewhat largely the careworn expression of feeture which we liave learned to associete with our idea of our go-a-head friends. The unmistakeable "Yes, sir," end "No, sir," were here heard in their genuine tone of anxioue persuasiveness, and we see no reason for not arentioning the fact that the het (agains) which there seems to be a determined crusade this year) was illustrated by macy curious and quaint varieties.

The Ohronicle prints its accouct of the Exhibition is these languages—English, French and German.

tion is three languages — English, French and German.

The London papers have very lengthy accounts of the opening of the great Fair, containing the address of the Commissioners to the Queen and her Mejesty's reply. The address states, among other things, that the voluntery cash contributions to the Ferr amount to £65,000 (shout \$325,000.)

The Official Catalogue.—This long and anxiously espected publication forms a volume of 320 pages, with double columns of closely printed type, and at the ead of it there are 48 pages of a shilling.

State of the Fund.—The total amount raised by subscription in the United Kingdom is £76,679.

17s. 1d.; the sum paid into the hands of the Hoyal Commissioners being £04,641 16s. 8d., the difference between the two amounts heving here retained for defraving the local expenses of the Salar Aparthuled: City of Locdon, £26,189 18s. 9d.; Ladies, £673 18s.; Westumater, £6840 6s. 6d.; Ladies, £6841.2s. 6d.; Livelpool, (63 axhibitors.) £827 14s.; Manchesier, (192 chibitors.) £4347 10s.; Birmingham, £783 8s. 6d.; Bradiars, £1805 11s. 1d.; Edinborg, £688 12s. 5d.; Glasgow, £2065 12s.: Leads, £2030 8s. 2d.

arrived from France and other countries this morning. During the day of least 30,000 visitors we to the Exhibition, and upwards of 100,000 visite the Park.

THE WORLD'S FAIR-American Contrib ions .- There are from 10,000 to 15,000 exhibitor et the World's Fair, who exhibit short 30,000 dis-tincl articles. Mr. Greeley, in n letter to the Trib-

une, says:
Great Britain fills 136 pages of the une, says:
Great Britsin fills 136 pages of the oetalogue; her colenies end foreign possensions 48 more; Austrie 10; Belgium 8; Chinn 2; Denmerk 1; Egypt 21; Fronce and Algiers 36; Prussia and the Zoll Verein Staten 19; Baverie 2; Sexnny 5; Wurteinherg 2; Hesse, Nussen and Luxsmhourg 3; Greece 1; Hsmhurgh 1; Hollend 2; Portngel 34; Madelra 1; Pepal State 4; Russia 5; Serdicia 11; Spsin 5; Sweden end Norwny I; Switserland 5; Tanis 24; Tuscany 2; United States 84. So the United States stends lith on the list of contributing countries, renking nest efter Greet Britain hetself, Finnes, Austrie, end Prussian Germany, and far ehend of Hollend and Switzerland, which have long been held up os triumphent examples of industrial progress and thrift under free trade; end these, with ell the countries which chow more then we do, are close et land, which con country is, and the average, nere than four thousand miles off, I am confirmed in my view that the cevils in the meagrenese of our coetribution ere not well-grounded.

ploughing metch in to come off at the Agriculturel Fair at Macon, Georgis, next October, among negroes end white men indiscriminately. In ewarding the premiums, the judges will be governed by the depth and width of the furrow—elice turned by the plough of each competitor, and time

turned by the plough of each competitor, and time employed to complete his work.

The Atlenie (Ga.) Intelligencer, says that there are two or three things about this much, which it cannot approve. The things are these:

"First, it is hardly fair to turn white men and negroes into the same field, side by side, to compete for a silver cup; they ought, at least, to heve separate lields to operets in, and not be put to plungh egainst ench other for a premium. But this is not the worst feature in it; the speed of the work is oce of the things taken into consideration, while every one who ever ploughed a day in his incover truncing plough mey take the premium, and thereby indees our farmers to purchase meen, the worst runcing plough mey take the premium at the great Feir."

Tricks rapidly fair to turn white men and negroes into the same fields to operet in, and not be put to plungh excelled to operet in, and uot he put to plungh excelled to operet in, and uot he put to plungh excelled to operet in, and uot he put to plungh excelled to operet in, and uot he put to plungh excelled to operet in, and uot he put to plungh excelled to operet in the same and arraphace will reject the its learn from the Savennah News, that en Saturday the 17th inst., Henry B. Klmhrough, a young and found thereby indees our farmers to purchee meen, the worst runcing plough mey take the premium at the great Feir."

Tricks rapid the first there is a tribe were sitting in council in Coi. Hoffman to this with the satisfied with him. It there will prudence and care, and the Indiana appeare to the will prudence and arraphace will reject the Irvi by, the others will nnt.

Tricks and tricken place. Coi. Hoffman had net with him. It they one had to keep place. Coil Hoffman had net with prudence and arraphace. Coil Hoffman had net with him. It they one had to keep with him. It they one had to keep with him. It they one had to keep with him. It the with the cheep with him. It they one had to keep with him. It they one had to keep with him. It they one h

commanicated the deeth of the Rev. Dr. Erskine Macon, in New York, on the 14th, to the Boston

Macon, in New York, on the 1stn, to the Boston peners, in the following fashion:
"Rev. Dr. Eskinefason, Pastor of the Bleecker street Presbyterian Church, died this moraing."
This is something like the address on a letter received in the Loedon Postoffice, some years ince, "Sromphreydavy," which puzzled thelearned of the metropolis for some time, to discover that it was intended for Sir Humphrey Devy. A few weeks ago, a dispetch was received at

Utica, or some other prominent point in the Stete of New York; which ren thus:
"Frederick Hall referred to Daniel Webster."

Most people thought that Frederick was in a bad ey, insanned es the Greet Espoundar ie just, as well as generous. They sympathised with him, although they did not know him, but were relieved by a subsequent dispatch, which said:
"Fansull Hall referred to Daniel Webster." GREAT CATTLE TRADE. The Indiena State

that has been extensively copied—has been peb-licy and positively contradicted by the Executive Committee of the Colonization Society.

Miss Marticeau's English publisher hes can-celled an engagement with her, on account of he recent avowal of athaistical opinions.

corn starch, said to be of the best quality, are manufactured at Oswero; it is both good for the launity and for food. The produce amounts to \$120,000 a year, and the weekly quantity of corn used is 2,000 bushels. This is a far better operation than Ex-Gov. McVAY, or ALABAMA. - This ven-

erdale county, near Florence, Ala., on the 9th inst. He was in the eighty-fifth year of his age.

CHOLERA IN THE PARISH OF ARCENSION, LA We understand from the Beton Rouge Gazette of Seturday last, the 24th, that the cholera has visite the "Waterloo" place of Capt. W. J. Minor, and that several deaths among the negroes had occurred The Gazette says:

"This is no doubt one of the results of the cre-vasse which occurred at Wm. Doyle's plantation; the ground saturated with water, and every facility offerad for cetching fish, it is no wonder that the negroes endanger their lives, and fall victims of imprudence, that no watchfolness on the part of the mester can prevent."

Philadelphia, New York end Boston, for the week cading May 10, were as follows:

Philad. N. York. Boston.

GROANS OF THE ABOLITIONISTS.—A friend has placed in our hands two numbers of the Boston Commonweelth, edited by the infamous Elisar Wright. They contain very costse wood-outs—wretched cariestures—of scenes connected with the artest and departure of Sims, the fugitive slave. The first represents "Sims passing through State street, over the ground whera Crispus Attucks, a colored citizen of Boston, fell the first victim of a messacre by British troops. The second portraya "Sims shipped for Savannah, on hoerd the hrig Acoru, belonging to John H. Pearson & Cor. at the end of Long Whorf." In this last picture, in a corner, appears a Reverend gentlemae, offering up a piteous and hyportical preyer. In hoth pictures, the police and the volunteer escort are depicted in the grimmest forms and the hlackest cheracters. [Richmond Enquirer.

Houses FOR THE CABINET - Washington, May 16.—W. W. Corcoran advertises to day for proposals for the erection of eight dwelling houses of the first class. After completion, he proposes offering them to Government at actual cost, for the accommodation of members of the Cahinet, while on duty in Washington.

Is and of the Royal 16s. Sh., the difference is heving heen retion with the difference is the state of the MEXICAN INDRMNITY .- We mentioned vester

F. X. Aubrey reached independence in sine to

F.X. Anbrey reached Independence in sincred days from Sente Fe. Thate had been Indian deredations user El Pèse. One train had been tacked and some of the men killed. Acether been ceptured, the wagons destroyed, 500 fauge of corn, and all the innies taken away.

The troops in New Mexico were dyieg of an vy, produced by inaction. The Apachas bad xilted their treety, and run off beef cattle acid comitted other depredations, at Barolay's Fort, Seperate mactings had nominated Capt. A Reynolds and Major R. H. Weightmas accast detes for delegate to Congress. There was a deal of excitement and e was deal of legisleture. Gov. Calhoun has issued his proclamation of the Legisleture. A lerge meeting of entire was hold in Santa Fon the 22st wh. Rolt Brein the chair, at which individuals for the Inguistrus and they were sure of heige clasted.

There were three inches of snew in Smoth Fo. On the 29th the company passed five trend wagonn helonging to Mexicans; they are on the way to Mexica to purchase goods.

Cov. Onlinous had appointed D. V. Whiting to Acting Socretery of the Territory, in place of Hu. V. Smith, resigned.

We make the following astract from the Republican.

We make the following estract from the linablicant.

On the 4th they passed thirty lodgerof Choyen.
Indiene on thell way to Fort Mackay. Naxt laat Fort Meckay, they saw five tribes of laddisassembled there to make peace with Col. Hoffman
The tribes were the Camanches, Cheyennes, Arr
pehoes, Kiowas, end Apaches of the plains. Busides of the river ware crowded with lodges for
iesat fifteen miles. The principal chiefs of car
tribe were sitting in council in Col. Hoffman
tent, and the ceremoay of smoking the pipe
peoce had teken place. Col. Hoffman had ucte
with prudence and care, and the Indiana appeare
to he well setisfied with him. It is prohable the
tile Chyennes and Arrapahoes will reject the treat
ty, the othere will int.

amount which he took, with the exception of a few hundred dollars, efterwards refunded by his friends. The defence of Insenity was raised, and witnesses prisoner's mind had been impalred.

We understand from the Republican, that the

jury were unefile to agree up a verdict in the case, end that consequently they were discharged. The jury had been out from seven-o'clock-Saturday evening until two P. M. Sunday. NEORS MAN Shor.—An untoward siroum

stance occurred near Recoourci, in this State, en Sunday, the 18th. A negro man haloeging to Mr. Gaimouche, wes aliot by a walte mas threagh mistake. The oircomstances are thus reported in the Pointe Coupee Echo: The white, men was in secret of a runaway sleep of his area. in secret of a runawey eleve of his employer, and meeting Mr. Carmouche's negro in the road ordered him to stop, he easy the negro refused to do so, and he shot him. The negro, it appears, had a pass from his master at the time. The white men was taken before Justice Bozeman, and dia-charged on giving hail for \$500."

charged on giving hail for \$500."

The Locuere Have Come!—The event has justified Dr. Smith's prediction exactly. Yesterday morning, May 18th, the general resurrection commenced, and we learn, that field and forest are now rife with them linevery direction es far as heard from. Dr. Smith has shown us quite a considerable hos full of the large perfect imports. They are also in our own garden. Some of these early risers made their appearance in werm, confined situations several days ago; but the grand march out of Egypt commenced yesterday morning. [Beltimore Patriot; 19th linst.

'Plin Cincinnati Commercial seys gambling enried on in that city to a greater extent than ever known before. Many young men in good situa-tions are known to have lost their entire malaries at the Rondo tanie. Some of the Respens have ne-come bold, and employ runners for their establish-ments, and the merits of the players are freely disussed in the presence of police officers.

THE LATE STORM IN "THE DISTRICT."-Westington correspondent of the Baltimore Clipper thus notices the effects there of the storm, whose doings in the West are chronicled in another par f this paper : - -

of this paper:

"The storm of Saturday night and Sundey morning (17th end 18th) was terrific. Thunder, lightning, wind and rain formed its elements. The electric fluid struck the harn of William G. Stone, a mile and a helf from the city, setting it on fire, and consuming its contents, consisting of horses and other live stock, grain, farming unplements, etc. The loss is, said to be about \$3000. The lightning also strock the apothecary store of Mr. ignining also strok the apothecary store of Mr. McPharson, on the corner of H and Seventh streets, end crossed the street, to Councily's cabinet warerrouns; at the former, knocking off bricks and shingles, and coming out at the hell wire, and at the latter, damaging a spleinid rocking chair which was near the handle of the henging bell-wire. A house on the tree handle of the henging bell-wire. A house on the was strick, and shingles and bricks satts Avente was strick, and shingles and bricks scattered, and the cigek on the mantle of Mr. Thos. Suiton's residence was thrown to the floor."

The Gazette says:

"This is no doubt one of the results of the crevanse which occurred at Wm. Doyle's plantation; the ground saturated with water, aed every facility offered for cetching fish, it is no wonder that the negroes endanger their lives, and fall victims of imprudence, that no watchfolness on the part of the mester can prevent."

Warinoton'ann the." Stare and Stripes "Mr. Martin Farquhar Tupper, in his remarks at the Maryland Historical Society's anniversary, on Saturday, the 10th inst., related an interesting fact, which in his mind suggested whet should be to Americans a pleasing iden—possibly a discovery as to the origin of the Netionel Fing. On making a pilerimage to Mount Vernon, its found that the antient family coat of armé of the silication of cotes and medals in the British Museum is superior to any existing it the world. I do not pretend to e knowledge of even the alphaeter of Numismetics, es that branch of archeology which treets in coins and medals in the British Museum is superior to any existing it the world. I do not pretend to expend the world of Numismetics, es that branch of archeology which treets in coins and medals in the British Museum is superior to any existing it and proceed even the alphaeter of Numismetics, es that branch of archeology which treets in coins and medals in the British Museum is superior to any existing it and proceed even the alphaeter of any existing it and proceed even the alphaeter of Numismetics, es that branch of archeology which treets in coins and medals to elied, and yet a coinfest to looking upon the rusty head of Alexander the Greet, it the twisted nose of Ethelhert, the Saxon-King of Kent, or an authenticated piece of silver, looged perhaps in the pocket of a plebeing Roman while he heard Mark Antony hurangue, will accovery as to the world continued to transpact all its business without coined money. The ancient Experiment to coin as having been used by the Hebrews; nor in all of Homer, is it so think for how long it and no coin; there is no allusio The collection of coles and medals in the British

FEMINIME.—Some ledies have hut one use five words of their vocahulary. During the absent of a physician of unracquaintance, the other data gentleman called to see him, end reng the helithe door.—The summons was answered by a Dure servant girl, uf whom he inquired if the doctor within the wilden.—"No."

"Yes."
'Is she engaged I'
'Is she engaged I'
'The girl looked at him a moment, while a curious
'The girl looked at him a moment, while a curious
expression settled on her feetures, as she replied—
'Wity, no—she is hiready married.''
The gentlemen departed.

Life Insufance.—A case has just come under our notice that strikingly exemplifies the advantages of this practice. A bought of B e lot of ground for \$3,000, payable upon the death of B, interest payeble quarterly. A improved the lot, and it is now worth, say, \$25,000. In order, however, not to be taken unawares by the uneapcoted death of B, A insured B'a life for \$3000. Yesterday B died, and the payment of the \$3000 falls upon the insurence company, and not upon A, and the interest upon the principal ceases. A has peld \$200 a yeer as premiums of insurance for five years. [American Telegraph.

years. [Americau-Telegreph.]

Manupanturing Jewels.—M. Edemen, the director of the national purcelain manufactory of Sevres, han succeeded in producing crystalized minerals, resembling very closely those produced by mature—chiefly precious and rare cloues employed by lewelers. To ohtain this result, he has resolved in boric acid, alum, zinc, magnesia, oxydes ut iron, and chrome, and then subjecting the solution to evaporation during hires days, has obtained crystals of a mineral substance equalling in findiness and in beauty and clearness of colur the natural atones. With chrome, Mr. Edeman has made most brilliant rubles, from two to three millimetres it length, and about us, thick as a grain of corn. If rubles can be criticially made, secress, which were purued by the alchemists of old centuot be far off. [Chericston (S. C.) News.

PROPRESIONAL BREGARA.—The Mayor of Baltimbre has received a notification that a number o
paupers have recently landed in New York, and
are now on their way to the Southarn clittle
Among them are a considerable number of professound begars, principally lialinus, who comprovided with papers apparently regularly endorsed
with consular certificates, etc.

English Grammar for beginners, put up in a cheap s new, and thought by many distinguished scholnrs to be the most thoroughly beidining standard work on the English Language estant.

the Ba

cates, containing some great errors about the doctrine of faith, and by hearing the Methodist preacher, who has preached most of your city pulpits. These two ladividuals seem to consider spiritual things so entirely beyond the reacher. About half-past electrons of the carnal and appears to the carnal and appe same views advocated recently by a of the carnal and unregenerate that even the plainest and simplest teachings of the Gospel, and even its facts, are foolishness and riddles to them. 'If this is the view inculeated in the Gospel, I have strangely misapprehended its teachings. Neither of them can under-stand how it is abat evidence or argumeats connected with religion can have any weight with an nuregenerate man. consider the Bible a scaled book, until the spirit has eulightened the understanding and enabled it to perceive the relation between the testimous and the facts, the arguments and the conclusieps. I do not believe that the mind, unlided by the Spirit, can attain to saving faith. I do not believe that argaments or festimony can produce regeneration. This is the work of the Spirit. But I believe that a well balanced mind—one used to thinking—can tell when a proposition is clearly stantiated by testimony, without any assistance of the Spirit. But then we are dependent upon the Spirit for the nence which the arguments and the testimony may have upon our hearts.

The arguments and testimony cenonly; the last engages beth the understanding and the affections. The first. unlateresting historical fact, which the deeply interested. In a word, the ebief difference seems to be this—to produce evangelical faith, the Spirit shows us our need of the blessings of the Gospel, which which the Throne of Our need of the blessings of the Gospel, so then when we once feel the want, we them before : now we believe and love Suppose we should cenvince the

world that they can understand nothing about religion until the Spirit communiestes an experimental knowledge of it. That they caunot see the force of arguments or the weight of testimony. What would we gain 2 uothing more nor less than this: we will have placed them beyond our reach. Pleaching certainly can have no influence on the minds of these who believe that it is unintelligible. In award, we will have done away the necessity of preaching altogether. Paul commanded the services of the sanctuary to be performed in a language which the congregation understood; and I suppose that his reason

Lord; but unless yeu yourself are brought into fellewship with-bim, the duty will be but imperfectly discharged. have safficient weight, when inculcating Allow no, then, to ask you one quest the pure-doctrines of the Gospel, to lead their De you ever feelingly and ear-

erroneons views of the Cosput to secure a continued opposition. There, are others who cannot think deeply and closely if they would. With such, error, ingeniously defended, is not to assume the semblance of truth; just because the semblance of truth; just because the semblance the souldistry. Very ble weeping. I was literally taken by surprise; nor could I refrain from synters, and beyond time. Dr. Bethane. pathizing with my friends, who were for some minutes toe powerfully evercome-by-excess of feeling to give any explauation of the cause of it.

"I never, sir," he replied, when he

These reflections were suggested by seeing, some time last year, a communication in one of the Christian Advoor of my soul, till last Sabbath three weeks,

the compassionate love of my Saviour :

Oh, would the Lord appear, My malady to heal? He knows how long I 've languisted here, And what distress I feel.

Here, then, from day to day,
I'll wan, and hope, and try;
Can Jesuschear a sinner pray,
Yet suffer him to die! No: he is full of grace-To perish at los feet."

It was indeed a touching sight to bevince the understanding ; then the hold the husband and his wife emerging Spirit enters to impress and move the together out of the mere forms of reli heart. There is an obvious distinction gion, and, under a keen sense of guilt (though these two individuals cau't see it) between "historical" and "saving" Christ to be saved. From the first imfaith, and the distinction is about this : pressions of divide truth on their hearts. the first engages the understanding till the heur when my interrogations led to the graud discovery that they hoth had left the dark prisou-lieuse of is the simple helief of an unimportant, spiritual ignorance and alienation from unlateresting historical fact, which the individual is not concerned about. The other's conversion; dreading lest the last is the cordial and joyful belief of a other should be left to perish; but now, fact in which the individual is most under very strongly excited feelings,

are interested in and cerdially embrace the facts and doctrines which we were of the leving kindness of God our Savbefore uninterested in. We believed jour; and, as their minister, I solemnly dedicated them to his service, with their first-born, the living pledge of their mutual love. I then withdrew, musing, as the render may naturally suppose, on the singular coincidence as to time, when the same spiritual effects were produced in both, in different places, and by a very different order of means. Within the space of a few menths I had the gratification of sceing them under my pastoral charge. Mr. W. became an office-bearer of the Church; and both lived to adorn the doctrine of thod their

Defining error lead to practical errors. And when an initiate of the close and most foreithe inner simples and most foreithe i

tea. I proposed reading and family have been the happy instrument in conprayer. I saw it gave pleasure. The proposed reading and family have been the happy instrument in converting from death unto life, and of verting from death unto life, and of huilding upon the most holy faith. Well must you love them, and sweet must be the delight taken in their dear company, yet never bo unwatchful even against them never allow your heart to lean upon them so that your trust cannot be recalled, and you stand without their support. Not a few of these venerable men who surround us will assent when I say that the shafts which have drunk our heart's peace with the mest venomed bitterness have been aimed and arged by those whose spiritual infancy we have nursed and watched over with the most yearning affection. Trust none but God. for Christ Rely only-upon the Holy

S. CIROUIT COURT.—Before Judges Nels and Betts. Heary B. Bascom and others vs. G. Lams and athers.

The Cauttroom was densely orowded to

appears or not.

The documentary evidence read by Mr. Fancher, for the defence, yesterday afternoon, went to show that the travulling preachers are not the owners of this fund, but that it is held by the Church in the natarn of a obarity, and cames withia their fund for charitable uses. The travelling preachers, in distributing books, did not do so, as had been alleged, with a view to a fund for old age, nto, but were compensated for doing so, the books being furnished to them at 25 ta 33; per cent. discount. The Book Concera has been raised, not by oostributions, but by the coarse af its basiness: It was established in 1799, on a capital of \$4,000. In live years afterwards its value was \$23,000, and in foar years more, being in 1808, it was worth \$47,000, and bas continued to increase, partitive anid any to be worth \$750,000. It is not a vested right in the travelling preachers, as had been coateneded; la proof of which night be mentioned the important fact that the Annual Conferences create travulling preachers, who, in process of time or reverse of circumstances, become claimants upon the fund. Yet the Annual Coulerences have nothing to do with the Book Concern, its officers heing appointed and its affairs cantrolled by the General Conference. He also showed that the Southern Conference have been sopplied since 1844 with books un the same terras as the Canada Conference—that is, 7 per cent. lees, subject to the management of said ecclesias-tical jurisdictions of the Methodist Episcopal Church, which is subject to the use following, viz: to be appropriated "for the benefit of the travalling supermomerary, and superanumed dfull worn-out preachers, their wives, withing, and olif-

dren.

5. The said Block Concern was originally commenced by the travelling preachers, and it has been held, more especially since 1808, in connection with, and in subordination to, the judicatories of the M. E. Church, who are the managers of the others.

of the M. E. Church, who are the managers of the charity.

6. The M. E. Church, through its Annual Conferences, as such managers, cannot be deprived at their power and cuntrol over said funds, unless guilty-of-a-breach of duty, established by the decree of a court of equity.

7. The iterates are accountaided for these funds, and proceeds thereof, to the M. E. Church, and its judicatories, and am hound to pay over said income, in fulfilment of the trust under their management and direction, to the beneficiaries.

8. The beneficiaries, to wit, the travelling supernumersty, and supersantieted preachers belonging to the M. E. Church, and their families, have no extate in, or right to, the said funds, or the incometatereof, otherwise than as the same are given out to them from time to time, is the administration of the charity.

the charity.

9. Said trastees are not under the control or direction of the direction of the persons who may heve contributed to the cherity, and who, there , irrnvocably parted with the same.

The court-room was densely crowded at helf-past mise u'clock this moroing, both on the floor and in the galleties. Every iach of standiag room was connicted about ten miattes past tea, and after sbaking hands with Mr. Choate and congratulating bir un his recovery, took his seatupon the bench. Court was opened at a quarter past tea. Judge Nelson appeared on the bench is seatupon the bench. Court was opened at a quarter past tea. Judge Nelson appeared on the bench is argument.

He said that be felt extreme regret that he had been obliged so largely to avail hituself of the kinduers of the court is adjourning the case for his couveaieoce. He did not design to attempt an answer to Mr. Lord's speech, but should confast himself to a statement of the defendants' case. It is a mere question of property, and it would rathers embarrass than eplighten the court to refer to the causes of the difficulty in the church. History would attend to that audject better than it could be resulted at this her. From what had been said on behalf of the plaintiffa, it might be thought that the defendants did not stand here is a vary graceful position. Simply is justice to tham he would say, that they received the property is question as transfer of the trust.

Of the nature of that fund, of its origin and of its appropriation, he would bave eaough to say lu the ourse of this discussion. He would allow that the trust.

Of the nature of that fund, of its origin and of its appropriation, he would be eaough to say lu the ourse of this discussion. He would show that the fact of this discussion. He would show that the decuments they have offered in evidence here, and the would a general course of this discussion. He would allow that they had were defended to the course of this discussion. He would show that the law the state of the state of the state of the case of the church. There was a special agreement to the defendence of the did not decay to the court of the case of the court of the case of the court of the case of the court of the case

jurisdiction.

12. The plaintiffs are not eatified to any relief prayed for in their hill. Mr. Choate was evidently enfeebled by illness

meetion with the church prescribed by the rules of the trust.

Of the nature of that fund, of its origin and of its appropriation, he would have eaough to say lu the course of this discussion. He would show that the plaintiffs, by their own admission in the course of the documents they have offered in evidence here, are nothing but a mass of secessionists.

He averred that when the Anamal-Conference, in 18-4544 and 1845, voted of the subject of modifying the sixth restrictive rule, every uppredicted observer, had hones that the master of the South was exasperating, and they provided the subspy differences which had occurred. Mr. Choate here the conference which had occurred. Mr. Choate here in the subscient on this subject, passed in the Missouri and Arkanasa Conferences were fast giving their engagent when this make help light of settlement was interrupted by the beligging of this suit.

Whether the proceedings of the Gonteral Conference of 1844, in relation to Ilishop Andrew, where competent or make the make the leading that admit that the defendants in this case were to blame. He did not believe that the disappasherment of this church Mr. Choate was evidently enfeebled by illness, but as he warmed in the progress of singular selequence and beauty, which were applianded by the audience so far as they could venure to do without disturbing the decorum of the court. He is to be followed by flearing Wood, Eaq, on the same side, and the case will be closed for the plaining hy the Hon. Reverdy Johason, who looks remarks by well, and may be espected to add somewhat to his brilliant reputation. The clergy from the two branches of the Church North and South, who are the church

North and South, who are present, watch the pro-ceedings with inhance interest, and the Court appear fully impressed with the vast importance of their great controversy which, in the course of their judicial functions they are called upon to determine.

General Conference of the Methodist Episcopul. Clurch——He cited a passage from the second volume of

In grid of the country of the second volume of liangs' History, page 229, to sustain his view of the powers of conference, and urgued that they were restricted \$60\tilde{m}\$ dividing the church. They were prohibited from changing the articles of religion, and was it to be supposed that they were designed to have the power to dismember the Church? So much for the law of 1808. Now what has occurred since then, affecting this subject! Only threathings, the Capada case, the action of the conference of river and victor to their way of the conference of river and victor to their way of the conference of river and victor to their way of the conference of river and victor to their way.

of union without mingling together, and may dissable that connexion without schiem. The confinerion between the Canadian and the American churches was justanch a union as this, and the act of the General Conference puting an end to the treaty of cumpact clearly altiwathia to have been that it leitherste opinion. He submitted that no fair legal or historical inquirer could doubt that this viaw of the Canadia case was correct.

In regard to the proceedings of 1844, the Conference of that year was composed of delegates elected in the ordinary way, without any special reference to the division of the church. There is not a pertice of evidance that in thair praparatory studies, in their Afnanal Conferences, or in the instructions of thair constituency, they were all prepared for such a solamn and important oct. The Conference of 1848 was composed of the previous meetings. Public opinion had ripened, and their action was more deliberate, and entitled to some consideration.

Mr. Choate examined tha case of — vs. Armatrong, 7. Ben. Monroe's Rep. 507, which had been cited by Mr. Lord for the plaintiffs.

He nest proceeded to the discussion of the point that these plaintiffs, having volontailly abandoned the organisation of the Methodist Church, have forfeited their right to appropriate its profits to what in law must be lerined a charitable use. From 1796 to the present day that has been the law under which it has been conducted. The beneficiaries of that institution to appropriate its profits to what in law must be lerined a charitable use. From 1796 to the present day that has been the law under which it has been conducted. The beneficiaries is act, as these plaintiffs claim, a perfect right. It is a right which is inchosted by coming within the second consent. The right of these beneficiaries is act, as these plaintiffs claim, a perfect right. It is a right which is inchosted by coming within the second consents. The right of the peneficiaries is act, as these plaintiffs claim, a perfect right. It is a right which is

and that all the members are cottiled to come in for their share.

Title is the theory set up by them in their argument—but the whole frame of their bill, of complaint contradicts and refutes the assertion. In that they constantly treat the defendants as belonging to the old Methodist Church so manife.

This plaintiffs have established no legal or equitable right to the funds they claim. The General Conference did all that it could for them. It recommended to the Annual Conference to annul the siath restrictive rule, but they declined to accede. This Courte is not in the habit of looking to the consequences of its judgments, but it will administer the law ntrictly. Aside from his mere professional duty in this case, he might be permitted to say that there was nothing a good mas and a patriot should so much desire this dey, as a requirion of the whole Methodist Church. He had no meens of judging with accuracy of its probability.

still in the hosom of the old church in Merhodists at lil in the hosom of the old church in Maryland, in Kentucky, in Western Virgiain, in Arkanaa, and in Teaas, and their constaat desire was that this accession might yet be healed, and the glorious fabric of Methodism in the United States

Mr. Choate apoke upwards of two hours this morning, and was followed by George Wood, Eaq., who said that so much time had already been occupied is this case by the opening comest on both sides, it is stilling the evidence, that he should endeaver to condepse his argumentinto as narrow a space as possible. It was important on the threshold of discussion, to understand the present issue between these parties. The pleintiffs claim a portion of these funds relative to the proportion of those who bave gone off from this Church South.

the proportion of those who bave gone off from this Church South.

The question now is, whether that separation entitles them to receive a prorate chare in the funds of the Book Concern. It certainly is a most unfortunate controversy. It there is any subject which should be kept out of diapute and marked emplatically with the spirit of peace, it is a religious subject. The moral saffaence of such contests is bed on the rising generation, and be would tenture to say the M. E. Church will soon diacover its effects among them. But there was another unfortunate aspect peculiar to the particular controversy. The Methodist Church has been the pioneer of religion in this commtry, to that this toney almost be asid to be a national question. And at this time, when danger has arisen of a severance of the unity in this Government, it is to be regretted that the Southern members of this church, heve not waited withe little more patience for the plannitifs had taken grounds which in his judgment were entirely fellacious. They sclaim that they have a vested right, and thut ou the separation of the church, like the dissolution of a partoership, the members have a right to a pro rate above the funds.

He referred to the Mayaville oase, and said he thought he should be able to—show that decision was altingether erroneous.

These plaintiffs had no vested right. They did not possess the power of alienation. They have no right escept as they answer the description of beneficiaries. He cited a case in the 7th of Vessey's Reports, and Luka vs. Fuller, in the 9th of New Hampshire Reports. If these plaintiffs had heen tenants in compign in this fund, they would have power to disgloss of their interest, but us, one would be so absurd as to claim such a power-for them here. The fect was, Ihn law gave them no rights except as beneficiaries under the spacific limitations of a charitable use. He cited Vidal vs. Girard's Excentors, 2 Howard 195; Beal vs. Fox. 4 Georgia Rep., 401; Burns' Escentors vs. Smith, 7 Vermont Rep.; Morgan vs. Vatea, 3 Barbour's Ch. Rep., 442; the case of the Garden Street Church, 7 Paige, 78; Shotwell vs. Mott, 2 Sanfurd Ch. Rep. 46.

The question might be raised whether this law

Church, Trange, 78; Shotwell vs. Mott. 2 Sandurd Ch. Rep. 45.

The question might be raised whether this law of charitable uses had not been repealed in this State under the Rayised Statutes. That it had been in force and was still in force in all the States of the Union, even where the statute of Elisabeth was not adopted, was well settled by the Supreme Court of the United States, in the case in the 2d of Howard to which he had referred, but he was obliged in candor to admit that the doctrine had been assailed in this State by some of the doxen Supreme Courts orested under the new Constitution, and be would therefore esemina the point with the permission of the Court at greater length than would otherwise have seemed necessary.

He then read the chapter of the Revised 15 to the in relation to trusts, and argued that it the sale is the designed to abolish private true to still those only which allected real estate. Public trusts, and private trusts, and private trusts.

by the law of charinable uses. Having cited Thelluson's will case also coideneed. The court will find in this rase allowed the court which I have considered as existing I charinable uses. You have the founders who have taken up the fund, and colarged I from three; four thousand dollars, to shout seven or eight had died thousand. All have contributed to the charinable fund, some by laker, and they are all to I considered as founders of this rharity. You have

in the new place, the trustees who are brought before this court, as perties defaulants to this suit. Mr. Wood then stated the nature of the incorporation of this body, and referred to the case of Decores. Hendricken, and the opinion of Chief Jistice Ewing; also in Sheifurd on Christinhe Uses, 712; Macguer et Airin, 2d Pennsylvania Rep., 4 Julmeon's Chinicery Rep., 573, and Illustrated his views, by supposing that a hody of mechanics, mangas, for instance, in New York, should enter into a subscription of \$5 cash, to be put into the hands of trustees, that a religious society should be a charitable in the profits—should—be distributed among superannuated members, would that not be a charitable institution? He referred to 4 Johnson Reports Livingston vs.—, and 7 verniont Repuris, ic 216, 7 Hen. Morroe, Rep. 611, 618, and 621. I, therefore, submit, that the view taken on the inter side, that the beneficiaries have a right to this property, as tenanis in common, is and tenalis.

threashings, the Capada case, the action of the controlled since then, affecting this subject 1. Only threashings, the Capada case, the action of the controlled since of the

court is morning. Mr. Wood resumed his argument

ment.

Ile said that, if he had not been so much exhausted, yesterday, he should have claimed the indulgence of the court for half-ran-hunt long, and would then have completed what he had to say. He should not occupy much of their time the morning. He would proceed to atase the grounds of objection to any assumption of power, on the part of the Conference, to livide the church or his property. These funds were not the fonds of the M. E. Church, but the funds of the apecified beneficiarles. The rhurch meraly had the mannement, and the funds that go strictly to those who were pointed out by the terms of the churty. He cited the case of the Atturney General ex. Wilson, 18 Yeave 519; Shelford on Mortmain 701. He thought the Canada Methodiats were not a constituent branch of the Mathodiat Episcopal Church-of the United States, and the alliance was merely n temporary one. They were a mere appendage, and it was perfectly competent to sever the compacion at any moment, under the principles confidence in the case of Miller vs. Grebel, 2 Denio.

The case cited by the gunnel for neightfor the lightfor the case of the principles.

the connection at any moment, under the principles controlled. In the case of Miller vs. Griebel, 2. Denio.

The case cited by the number for plaintiffe, in 1 Peters 542, hall no analogy to the subject of this nontroversy. If it had been a question as to the end of power on the part of the General Canference in erecting a new Annual Conference within the limits of us jurisdiction, thuse would have been some application. But here was a case if the erection of an independent, loreign conference, as it were. Would it be claimed that the Federal Government had power to erect fornign States out of its Territories?

The only ground on which this separation and illyision of property could have been legelly ellected was by compromise, and even then the sanction of n Control Equity would be required. He vited, in this point, Shelfurd on Marimein 608; Attorney General vs. The Merchant Taibres' Company, 7 Vesey; Iliack vs. Ligan, Harper's (S. C.) Rep. 215; and Attorney General vs. Warren, in Swaneton's Reports.

division of the 8th of Jumo of that year. The second, the construction of that plan; which, as I shall maintain, is that the division of the church was made to depend exclusively on the decision of the Conference in the States where slavery objects. And that the change of the sixth restrictive article were made to depend exclusively on the decision of the Conferences, considering the church at the time, as one body. Third, that by force of the division of the church, if that division should be made by the decision of the Annual Cenferences, the property of the church is to be divided upon equitable principles between the two fragments, without regard to any change of the sisth restrictive rule. Fourth, that admitting that the General Conference hed not power to authorize the plan of separation, or if that plan, was not carried out; a state of things still easiet, which entities the planitiffs to the prayer of their, bill. These points are all perfectly simple. They require no depth of learning to determine, and no great ability to argue. And if the decision depended on these considerations alone, I should feel ao solicitude other than the ordinary considerations of counsel.

But a deeper canalety oppresses ma' when I remember the origin of this dispute. I lose sight of the dollars and cents which it involves, and for a moment. I forget the immediate inforestructor of my olients. There are questione so vitally important to the very existence of this very extinable denonination of Christiena, so material to the quiet of the public mind, and possibly to the very existence of the form of government under, which we live, that the fear the discharge of my duty will he impeded by the weight of the responsibility imposed upon me. The learn of the entire nation has been feverishly palpitating, and is still palpitating, for fear that through the very cause from which this diapute aprings, unless by the good sense and patriotism of thu proble, and ell the authorities. Sinte and static of the public mind is to be attribute What was the M. E. Church of the United States in 1844? An association of men claiming

What was the M. E. Church of the United States in 1844? An association of men claiming its origin from the organization in 1754. In 1802, the powers of the General Conferences which convened frum that time down to 1844, were delegated ond defined. The power to change must exist assonewhere by the neture of things, and it is contended for the plaintiffs it existed in the General Conference. Mr. Johnson gave an foquent account of the might of Methodism in England, and laid particuler atress upon Mr. Wesley's constant wigitance in preventing any conflict between his followers and the political institutions withis country. He showed that Wesley's power was absorted over the church, that he dalegated this critician power to the General Conferences of the Methodists, organized in this country of the colored from the Government of Great British. From 1796 down to 1808, iiot an indicator is given that the Conference was not clother with the smiter sovereign power of the At that time the dock had because was the found flat it was necessary to leave some of the shapherda at home, and it was resolved that the

reschers.

He argued the the power to create, implied the power to destroy. The General Conference of 1844, was in the full passession of sovereign power, and had judiciously exercised it, in authorising the separation of the church, when it became apportunithat the esistance of Methodism, in thirteen States of the Union, was so haverded, that its destruction was considered inceits less that the struction was considered inceits less than the second seco

racy of preachers. The laity had no voice, and of attending these useful and most they had submitted to it for many years, acting on

advants ge.

This was mentioned incidentally, of course, and seemed to be highly approved by the sudience, many of whom were undoubtedly Methodist

shortly after he commenced speaking the court-room was densely erowded. We were so deeply interested, that we regretted the nacessity of lonv-ing before he concluded.

Mr. Johnson, who liftly been compelled by illoses to discontinhe his argument shortly after wu left yesterday, resumed this morning.

Its said that if he had been successful in his reasoning yesterday, he must have suitefied the court that the General Copference of the M. E. Church was invested with a sovereign power, and riothal with all the authority of a constituent hady.

Church was invested with a sovereiga power, and riothal with all the antiburity of a constituent holy.

The proceedings of the Conference of 1844 were a quasi trial of Bishop-Andrew on a slipposed Adforce. They exercise the power of a general construction of the law of the plotter that breachers and histops might, hold slaves not only in these Sietes where alayery was tolerated, but where emancipation was actually prohibited. But the majority, who were determined upon Bishop-Andrew's degradation, maintained the adversiga without of the Conference to be absolute overevery thing not protected by one of the six festivities articles. Among all the leading men in that Conference, men if eminent learning and ability, from the North and South, men to whom the Constitution of that Conference was as familiar as the Bobe of their God, not even—a shuth was whispered of the power of the General Conference, in authorize a division of the church into two organizations.

zetions.

The cuunsel for the defendants had confounded. conformable to times, and circumstances, and countries.

He took up the assertion of Mr. Choate, that the

Canetia Conterence was connected with that of the United States by a merely temporary langue, and contential that it was erroneous. The Canadian Methodists did in fact constitute a constituent portion of the M. E. Church in the United States, just as much as any one of the States forms an integral part of the Union. The Canadia case was identical with the case at the bar.

If these Nurtileric gentlemen are emacientions in their belief that the Southern Methodists are secessionists and soldsmatics, why do they content themselves with keeping tack the money which happens to be in their possession—the miserable pittance which they formerly doled ont to the poor, worn-ont, emperanualed preachers and their wives and children? Why do they not go him the contist of the United States and claim all the meeting-houses and cemteries, and other Methodist Church proparty of wast value in the South? If they are right to their views, these properties all belong to them. But they do not do it, because they are impressed with the conviction that every legal tribundal in the country would decade against them.

The attempt was made by Mr. Armstrong and his associates in the Maywelle case, but the Kentucky Court of Appeals, than which there is no rount more respectable for learning and ability, decided against them.

Ile quoted the 18th and 19th verses of the 28th chapter of Martilew, and said that the language of God himself, speaking through the inspired penman, commanded them to preach the Gospel to all nations. It was their ruly to copform to the law of the land, and not war with the domestic institutions of the country in which they were decated. The Gospel, should be preached to the master and

ntions of the country in which they were defined to the mass he slave, as well as to freemen.

The Gospel should be preached to the master and the slave, as well as to freemen.

The agitation of slavery in the quarterly, the annual and the general conferences, the judgments in the case of Mr. Harding, and in the case of Bishop Andrew, led to a general conviction, in each of the Southern conferences, that a separation was absolutely necessary to the confery. They led that it was necessary to divide, in order to save.

These agitations had riveted the rhains of the slave. The convention which had recently revised the organic law of Maryland had been driven to the necessity of making it a part of the constitutional law of that Since, that slavery, should be perpetual. Emancipation; is forever produbted. And he mentioned, as an estraordinary fact, thet the Rev. Mr. Griffin, who had taken such a conspicuous part in the conference of 1844, in the agitation of slavery, had ministered as cheplain to this body of slaveholders during the whole of their session.

Mr. Johnson was evidently unwell this morning, and did not spoak with anch raphiliy and energy as he did yeaterdny. The field covered by the points he has taken is so vest and comprehensive, that it is exceedingly doubtful whether he will be able to conclude his argument to day. When we left, he had been speaking about three-hours. [N.Y. Com. Adv. 24th to 29th.

### Domestic Missions.

RIO GRANDE AND BROWNSVILLE - AD interesting letter, received by a minister in the city from Rev. N. A. Cravens, dated May 20, has been kindly put at our service. Bro. Cravens has emphatically and seem inclined to make a cleans of the whole of them; and need to make a cleans of them. but his zealous energy and characterist be clergymen, for the real tic strength of heart and mind will no Church can't pay a layor tie strength of heart and miud will no doubt bear him through triumphantly.

From the free and full sheet before us we realize that there is embarrassment and difficulty as well as romance in his know that they are the same that there is embarrassment least to most of on Colleges? Ye

colporteur of the A. T. Society, or S. | reason that he S. ageut, to write about have lately, ranspired under my eye. For instance, I have baptized a Mexican child, the riously the fact in reference to near parent telling me that he had no confidenee in the priest, and he wished me to meet him and his friends at my church and attend to it. My wife and equivalent to the church, and a genteel company of Mexicans with the child, ing? Methodst preachers are and dressed in white, were in waiting. Gen. Domingo and his wife presented the charge of these institutions and steel. child, and I baptized it. Now, this them, from the love they car to be would furnish material for an agent of Church, when others would aband the A. S. S. Union to write three col- them in disgust and go where there umns for the Amorican Messenger,
"Again a young Mexican of intelli-

American in his employ, to purely se farming utensils, and he has been fore than a year in our country—the last six months here—during which tipe ho has hecome acquainted with the forms of our religion, the rights of conscience, and, as I trust experimental religiou. He attends church at our place of worship, seems quite devout, and expresses great concern or his countrymen. He has the Lole, Kirwan's Letters and many her tracts, in Spanish, and collect groups of Mexicans together, and upon their election to those posts, well and talks to them. reas and talks to them."

Dear Bro .- The second quarter for the Lafourcho Colored Mission for the present year closed on the 21st inst. and in accordance with prescribed duty, I herewith transmit you a quarterly report of the same, through the medius of the N.O. Christian Advocate. We always look forward to these peri-

odical meetings, which are peculiar to our educational operations as a Char Methodism, and so essential to vitality, with much interest. By them tho Church is strengthened and encouraged, and it looks like squaring up and taking a fresh start, with an increase of spiritual capital every quarter.

teresting meetiags.
But, mest unfortunately, our sions to the people of color are lash and exempt from the advantages beuefits derivable from them, both spiritual and pecuniary point of tical yoar with one long stretch in p of four short views quarterly, This is a four weeks work and

its compass your missionary translating the meanderings of the Later and adjacent bayous, 200 miles now ly; preaches at 13 plantations—all & bath appointments except two appointments except two havo, received 43 colored bers, 10 of whom were received by a addition of a plantation on the Bin-Black, that formerly belonged to a ther work; 5 colored members have moved from the mission; leaving cole

members in all, 476.

Lam rajoleed to inform you that the has been a number of conversions the ly among the eatechumen, and, I from genuine conversions, and net age religion." Altogether, the mission in a good state, though the work is so prosperous en some of the plant cioties would compare spiritually many whose advantages are superior.

Your missionary leads the classes a catechizes the children; have admit tered the Sacrament of the Lord's 8 per three times; during the quar baptized 18 children, and married colored couples. Received during last two quarters, \$57 65. The Bayou Lafourche has been in

ed again with that most awfnl soon the cholera, and has made dreadfall ages on one plantation within the sion, the master and twenty-three black falling vietims to its tyranny in thosher

space of teu days.

The church at Thibodaux will bed icated on Sunday, September 24..
The prospect at Tigerville at pres is flattering. Pray for us.

LEWIS A. REED

Thibodaux, May 27, 1851.

COL. PRESTON'S PLANTATION, May Dear Bro. Mc Tycire-It is right asienally to tell how the cause of sions is getting along, that the Chargenerally may return thanks to God any indications of good. Unfortunately, I have been unable

get the Recerd Book belonging to the mission. If the book and Cenferen returns agree with the class paper will not be able to collect the returned by my predecessor. I can safely say that the mission is a healthy condition. We have unifor ly good meetings at all the appoinments. We have had sixteen addition

to the Church this year, and the in est seems to be increasing.

I have not succeeded very well ator appointment. It is a difficult mate to get them together. However, would be highly interesting to these we feel interested in the colored missis to hear the children ou Col. Presto plantation answer the questions in pers's Cateellism. These have had be ter opportunities than the others; am absont, they are catechised

Mrs. Thompson. Brethren, pray for the success of Gospel among the poor blacks; the have a strong claim upon our laborage our prayers.

ZACH. THOMPSON

My Dear Bro.—I see you have a vanced right boldly to a general at upon all elerical Editors, Presiderofessors and Principals of Academic

and difficulty as well as romance in his position. The Church should constantly remember him.

The Legitimists have thrown off all disgniss, and now openly declare their object to be the re-establishment of the moanrehy.

o The Dresden Conference closed without having arrived at any definite result.

Mr. Lawrence proposed that no speaker occupy

the Convention nora then fifteen minutes, or speak more than once on one motion. Carried. Mr. Forshey moved for a Committee on Plans and Projects, but several gentlemen thought the resolutions niready passed would cover that matter, end the motion was lost.

Governor Mouton curne forward at the call of

the meeting, and said ha was pleased to see that deliberative assembly, as he knew that those who were present were determined to make the rail-road. He was confident that the advantages, of road. He was consider that the advantages of the line were incalcolable, and they came there ready to be taxed, for they knsw that they were being taxed for their own advantage. Men were reluctant to agree to being heavily taxed; he was reductant to agree to nerng heavily taxed; he was reductent himself; but when he knew that he was being taxed for the edvantage of the whole community, he would not he sitate, especially when it was only by these means that works of public inportance could be accomplished. In conclusion, he alluded to the building of a railway from Wash ington in Berwick Bay, and said that if New Or-leans would not assist them in making their line, they had enflicient power in the country Parishee to make a line to Berwick Hay, which would trans-

to make o line to Berwick Hay, which would transpert their predece to the chore. Here it would not remain, for the Northern Yankees would fetch it, and make money by its cale. He sat down anidat great cheering.

Mr. King addressed the Convention, and wished to pass a series of thee resolutions, as to the division of the money to be souphed in each Pariel, but he was overruled, and at length withdress the but he was overruled, and at length withdrew the resolutions, after which the Convention adjourned

resolutions, after which the Convention adjourned antil \$15 o'clock this evening.

\*\*ROOND DAY.\*

At seven o'clock on Thursday evening, the adjourned meeting the Convention took pluce;

Maonsel White, Esq. in the Chair.

The following names were read by Mr. King, o'clock and a surpress of the Perrianent Company of the partial of the Perrianent Company of the Perri

These resolutions were put and cartest maintain.

These resolutions were put and cartest maintain.

The fout through the Parish of Terrebonne would leave the town of Homas seven miles south, that the Permanent Committee he instructed to consider the propriety of making a brunch road from the trink-line to that town.

Mr. H. H. Payne moved the adoption of the resolution, arguing that a branch counting up to Homas would be profitable, as a horse car could run upon it, and it would secure an unanumous action through the parish in favor of the line. The condition was adopted.

A general cry here took place for Col. Payne, and that gentleman came forward and briefly addressed the Convention, feeling proud that his efforts in this work had produced so apfendid a demonstration es that before him, which promised to build the line in thirm and without further tromble. He was cheered in the cenchasion of his remarks.

Mr. Lewrence addressed the Convention on a general improvement of the, Sinte ef Louisiana, and read a resolution, which was net acted upon. He was cheered.

Mr. Glendy Burke meved the fellewing resolutions:

Whereas, There are evidences throughout the Scothern States of an awaking apirit of enterprise in the concentration of railreads; and wherens New Orleans, from her position and connections, is deeply interested in the premotion of these ronds, and their concentration upon points which shall

The Payama Railroad.—The Panama Herald of the 19th ult., says:

"It is matter of congratulation with the public to learn that the progress of this important work continue, onabated, with every reasonable praspect of a openly completion. We learn that the spiles have seen driven across the river at Gainne, and that much groding has been completed and is receiping the rall, this side the river. From the station, this aide of Gorgona, and which, in fact, is only about live or six miles from this city, we fearn that the ancey ou this end of the route will saen be finished. It is the intention to remove the station on this side, in the ceurse of a few days, to Pagama."

From Oragoni Advices and papers 1e April 19th have bee received. The Oregonian, in an article-"The true policy

The Oregonian, in an article—The true poincy of Oregon,"—points out the true road to wealth, licelift and happiness, and says:

"Let Californians go to the unines, year after year, and dig the gold; let Oregonians phough and sow; harvest and liresh, and in the end Oragon with he infinitely ahead of our neighbor, in wealth, inorals, happiness, and every thing valuable in the life or the fotore."

Census of Oregon.-The Spectator makes on the census to amount to 13,333. It is estimated that there are 2000 of last year's immigration and included in the above. The real census, then, is thought to be over 15,000, and will be over 20,00

by the immigration this fall. y the immigration this fall.

Louistana.—The Pointe Coupée Eche, of the 31st ulc, has good news.

"We heer front all quarters of the Parish very flattering accounts of the crops. We have seen several fine fields of cane, and one in pirticolar, although, it had been partially covered with water anne time, appeared very lnauriant. The corn and cotton, everywhere, is diourishing, and promises well: From False River, also, the reports respecting the crops are gratifying; and we have no drught that our Parish, this year, will receive a yield from the earth which will cumpensate for the damage occasioned heretofare by the water."

The jaint worm has commenced its ravages in the wheat fields in Virginia, and destroyed, already, a great deal of the growing crops.

now well a virtuous and industrious people seed

likely to be rewarded:

The farmers are generally engaged in harvesting the wheat crop. The extent of ground planted is nut as great as usual, but the quality of the grain is better, and the quantity per acre is greater that for the last four years. This, statement will hold good in regard to nearly every county in middle and upper Georgia, and Tennessee. Should the season prove tavarable for thrashing, we are inclined to think that the quantity of wheat produced will be quite sufficient for home consumption.

The same paper has this delightful; tempting The Fruit Crop .- From every section of the

The Fruit Crop.—From every aection of the State, we receive the most encouraging occounts in regard to the prospects of the fruit growers. The peach crop will be the largest ever produced in the State. The trees in mony places are so heavily laden, that it will be necessary to shake off at least half of the crop, in order to prevent them from being crossled beneath its weight. So, too, in regard to flgs, plams, npricots, and in fact every other class of finit except apples, upon the culture of which proper attention has been hestowed. To say that the prospect is unusually fine, would be giving only a laint impression of the truth as it actually exists.

work on the English Language extant.

From Prof. A. Dimtray, Superintendent of Public Education for Louisoina.

Messrs, Paart, Woodpood & Cat:
Gentlemen—Is have received specimen copies of School Blooks issued by your house, and have payrissed all of them with real pleasure.

The English Grammar by Bullions had already inquessed me as a work in crevit sing adapted to our schools, and as such light already been, prescribed as a text hook for the public schools of the Sante of Louisiana.

Dodo's Elementary and Practical, and Enos's Intellectual Arthucules, I have examined with great cure, and are fred to any that they fully meet my ideas of what such books should be, each in its respective sphere.

With Prof. Brockleshy's treatise on Meteorology I am particularly pleased. The work, both, in the subject and the matter, is an excellent one, which mass ultimately find its way into our High Schools und Institutes.

I am, gentlemen, very respectfully, your obliged servant.

ritted; this the Book

and the details of life she has thrown What an employment! What an occuall the details of the sac and the fear is away and lost already; and the fear is pation for eternity! As a circle hath remain; those of largest worldly import; but almost all of life will be gone. And. what then & Conscious existence, with happiness or misery, and an index finger pointing forward, with no relationship to the past. Through the unfaithfalness of memory, the past is lost.

And what a great loss this to some 1—a blessing to the bad, but a loss to the goodthe case, the first step being an error, they wander farther and farther from

Aanihilation is the aamo of nothing. thyself-even thine own MIMORY! It has no representative in nature. Then where, you inquire, are the thoughts of by gone years? They are not lost. Not the smallest gossamer-like idea that ever touched the uniad is, or ever will be, lost. They are earefully stored away in the "storehouse of the mind," where things for future use are garnered away. "Forgotten" means that the picture is not now before the eye: it does not mean that the picture is lost. For oftentimes it re-appears, as it were, in all the freshaess of its original

But why is it not over before the mind? Because we live now—just in these few days-under a very eumbrous disability. These infirmlities of the flesh eleg the action and progress of life. The mind, which ought to be free, and would be hut for sig, has now to perform its evolutious through the miry obstructions of physical organization. But the tablets of the mind contain the full records of the soul; and act a sentence, act a word, can be effaced. In this world there are clouds; and so thick are they, and so constantly passing over the mind, that, for the time, they hide or observe four the cover the prince. they hide or obscure from the eye things that were fernarly known and seen. But there are no clouds in the next world, nor any fleshly impediment there, Then not one word of all the millions the mind bus inttored will be finally the mind bus intered will be finally forgotten or lost sight of. When we so much—the whole literary these impediments shall live in its own natural element, then every thought that the mind ever touched on or whispered will be as plain as the light of prominent on l—among the disciples of prominent on l—among the disciples of prominent on l—among the disciples of preciative British public. Startle than the mind ever touched on or whispered will be as plain as the light of light of prominent on l—among the disciples of preciative British public. Startle than the mind was plain as the light of light o

wishes cannot prevent the eccurrence. It must take place.

must take place.
When all the defects of memory shall be cured, then all the writing shall reappear fresh, more fresh than ever then the issue for eternity is to be made up. Aud it will be made up in one of Hennell, Carlyle, and his brother, Dr. of the cherubin will be spread over the Dante. (A fine work that translation, the evil. The sorrow and the sin are, and the cueranty of them being so great, the righteousness of their condemuation being therefore so palpable and jast, they will invoke the protection of the menatains, that they may cover and hide them. But this last effort,

While others vainly fretted around his victims, while others could around his victims, while others could traveling preachers ! themselves in their confinement, he set | not, was this-believing with a child like faith in the promises of God; believing that Christ was able to do this, and would do it in answer to the prayer

"1)! life is sweet " said a gallant youth

And the lame of a former age. There was hope in his bright and bearing eyes, And, he longed for riper years;

Our constancy to prove-

Thy surrows mine, my trials thine

And each dear face and warm embrace

Made life seem ever young.
Thus life is sweet, from early youth To weak, enfeebled age; ' Love twines with life, through care and strite, In every varied stage. And though, perohonce, the path is rough,
And dark the sky above,

In every state there's something yet, To live for and to love.

# Where Must a Revival Ragin?

The following letter was written by the levoted Bramwell to the Wesleyan superintendent preachers, above fifty years ago, but is deserving the special attention of the modern race:

Sheffield, Nov. 10, 1796. Dear Brethren-My mind has been so deeply impressed with the present state of our Conaexion, and I feel such an auxious solicitude to avert every impending evil, that I am compelled to reak through the barrier which my deference to your superior judgment would create, and faithfully yet affectionately to make this solemn appeal to

I have long been ponetrated with the liveliest sorrow at porociving an ovident decline of that burning zeal, that active porsovoranco; that vital holiness, that amenting love, which actuated the first Methodist preachers, and which enabled them victoriously to triumph over every obstacle. Having their hearts filled with a sense of the important undertawith a sense of the important underta-king, the fire buraidg in their own hearts, and swallowed up by love for souls that were bought by the Redeem.

And rich messics where the reverent knee
May bend, O bird, in faithful fervor federal, in homage pore, with prostrate heart to the The True Secret of Christian Power. hearts, and swallowed up by love for

l'ely, to set the revival in a true light, and to restore vital godliness among the tanned in sin. And yot by a labor of but a few mouths, he wrought a wonderful revolution of character, and gath cred namerous converts, as distinguished for Christian graces and purity as they had been for all uncleanness.

Now, what gave to that servant of Christ a power so strange over a people so hardened? It was no superiority of mental endowment—uo peculiar skill present agitation and division, but that a present agitation and division, but that the desired effect. Before the last Loudon Conference we had been for all uncleanness.

Have you tried to estimate its value? This is a great problem, and Christ himself has sabmitted it to you, that you may exercise your thoughts upon it for your own profit. How shall we other outward form, which causes the present agitation and division, but that mental endowment—uo peculiar skill present agitation and division, but that our ordinary modes of valuation fail us, acquired in the schools. It could have

our manner swong the people will evidence this truth. But we have seen, in has gone, simple and trusting, into the numberless instances, that if a preacher presence of its All-wise Father. Of loes not give his whole heart and action such, we know, is the kingdom of heavon. to the work, he has no power in the revival. If a preacher be truly alive to God, he may in every circuit, prevent trou, he may, in every circuit, prevent false fire intemperate zeal and earnal heise, and get be a means of preserving ther of the Religio Medici, was a phyneise, and set be a means of preserving the operation of the Spirit in awaken in the operation of the Spirit in awaken in the operation of the Spirit in awaken in the operation of the Spirit in awaken sician of as much goodness as gonius, and some of his memoranda of rules for comblet are carious and instructive:

"Upon sight of beautiful persons, to bless God in his creatures; to prey for the heavy to the property of the heavy to the property in the heavy to the property of the

to God; the next in turn destreys what God hath wrought.

We tenderly call upon every brother to read once more Wesley's Jearnals, as well as "David Braluard's, Thomas Walsh's Life, Gillies's Historical Collections, and Edwards's Evidences. Compare these with the Acts of the Apostles, and the whole wish carryresent mode of proceeding; and then determine whether we have not departed from the simulicity of the Gosnel. And

> Of the same great man's opinions, an able reviewer says:

"Sir Thomas is a firm believer in spiritual apparitions, but regards them, act as the spirits of departed men, but as devils, whose object is to seduce men-to erime, and to make them believe that the blessed spirits of departed saints are not happy. In the frequent appearance of these spectres is grave-yards, he sees the devil as an insolant champion, rejoicing ever the spoils of his victory in Adam. As to death, if the devil could work his fancy to believe he should pover die, he would not outlive that very thought. But al-though he does not fear death, he frankly confesses himself not a little ashamed of it. He feels it to be the disgrace of his nature, that death, in a single momoment, can so disfigure him that his dearest fricads will start at the sight of him. Suicide ho condemas as not only siuful, bat also as outerdly; because, although it requires courage to meet death while life is desirable, yot, when it becomes more terrible than death, it is then true valor to dare to live. Hence he considers Job more valiant than Cate or Codrus. In the same strain of metaphysical acuteuess and unique eloqueuce he speaks of the resurrection, of heaven and of hell; and finishes the first part of his book by tolling us that he fears God, and yet is not afraid of him; that his thoughts are so fixed on beaven that he has almost forgotten the idea of hell; and that he is as well per-

E. STEVENSON, Agenta Mc-Ky:: May 28, 1851.

### Presbyter and the "Pulpit."

Last week these two were noticed as opposed to our remarks of May 3d and loth, deprecating as a sore, impediment. to Southern Methodism the empleyment of so many effective preachers ont of the itinerancy. Within the last week, additional opposition has been developed in the Memphis and Holston Christian Advocates. It is from no ade of opinion that we feel still disposed to maintain our views on this subect. They were not put forth bastily; and from an abiding and deep conviction of their correctness, and the good service they would de to our beloved Church if carried ont, we must adhere to them without abatement.

Some objections have been made to the list of 79. Bro. Deems says :

". "In this number are men whose prefix is Rev. because they are licensed to preach, and they are good men and useful preachers under some circumstances, but they are not fit for the itinerancy."

New, we left a margin for errors in the list at the time of making it up, but believed then and believe now, that a revision of it, with the latest and most accurate statistics, would enlarge instead of diminish it. If there are ineffective names on it, there are enough effective names not on it to supply their places. The Naswille and Louisville Christian Advocate is most competent authority on this subject. That influential paper, of May 22, reforring to our article, which has called forth so many animadversions, thus speaks : --

"Tho exceptions made in the cases of Bro. Ralston and Bro. Auderson need not have been entered; Bro. R. has no pastoral charge, and Bro. A. is agent for the American Bible Society. There is a number of others who might be added to the list given by the New Orleans editor. A host, truly, of ministers, all doing, as we hope, a good work, but -uot-laboring -as regular ministers, having the care of souls."

Just now we think of such additional names as Rev. R. H. Lnekoy and Rev. A Poeler, in connection with Fletcher Institute, Florida Conference; also, Rov. B. Watson, and Rev. Jessee Mo-Alister, and Rev. C. P. Turrentine, of the Arkansas Conference-and more. We were nover so impressed with the extent of the evil as when it grew up under our hands.

Our friend of the Pulpit, alluding to their roturn to various circuits, stations and districts, saks:

What great accessions would there be? About four additional inherants to each Conference 1"

wealthy Metbodists, who regard these sion to the itinerant force of each Conference!

And does he count this a small accession to the itinerant force of each Conference institutions with jealousy. They see that money is not half their cost. Deliaw of the Cennection while preceding a pointments, they will tell him that the anxieties of a bishop's cabinet would often be relieved by having one suitable preacher. Put at their disposal. Some interest of the strict must have an endowment of the such part of the strict must have an endowment of the such part of the best preachers too; and the impover of more appointments are deranged. B., for want of a better, is put in a place to which he is unequal. His vacancy is filled by C, who is unequal to it. A good station or circuit preacher is converted into a poor presiding elder or a good presiding elder into a poor station or circuit preacher in converted into a poor station or circuit preacher, and this calls for other shifts and accommodations, and the calls are the state of the such that would have been for her to have the converted by the such that would in the such part of the first of this series institutions with jealousy. They see that money is not half their cost. Deltaw of the Cennection while precedent of it. Perhaps to the want of that "far, wide submit to potting. The June issue is about the tone of the transfer she follow. Sunday School, Visitors.—It is a universal pet—if such a sensible thing was a both to concluding the beautiful part of it. o St. Roche-Sisters of Charity,

M. Deur Bro-The Chnrch St. Roch — a visit to which I premised to speak of in this letter—though, not se remarkable for architectural beauty as thers, is hy far the richest in the d remarkable, too for the fash-assemblies, that throng it, and for its isterical associations. The first stone of this church was laid by Louis XIV and Queen Anne of

Austria in 1653. It was not com-pleted, lowever, until 1740. The por-tal is ad rued with two runges of celunns in rent, while the main body of Natchile the church is eruciform. Paintings and Smyth. statuary teoresenting Scripture scenes, ernament he interior of the building. These are rem the great masters and are not only beautiful but impressive beyond description. The pulpit is supported by the cyangelists, carved in oak, while the fig. re of an angel sustains the canepy. Bound the cheir is a shrine, constructed of cedary of Lebanon, and richly, ornamented with gilt hrenze mouldings. This shrine rests upon a basement of variegated marble, and contains the relies by lenging to the church. The church is approached by a flight of The church is appreached by a flight of steps, running the ordire length of the building, and famous as the theater of many thrilling events during the several revolutions. France. It was

nelled to go away for want of reem.

Jesus and the Virgin, together with Joseph, were represented in sculpture which was placed above the altar. In short time the clock pealed forth the heur of midnight. Just then the celebration of high mass began, with music and chanting at the close of which one of the priests gave a history of Christ. themselves. It is well enough, methinks; for the sake of the poor, uneulightened populace, that their spiritual advisors should coudescend occasionally Die."-Such was the language of broth to shed upon their darkened understand; \_\_\_\_, just before he left the shore ings some knowledge of Him who is the time, and launched his hark upon the world's only hopo to the While I am free at all times to ac-

purity and the sublime piety which ly before me. A number of them crowded the church of St. Reche on the night of my visit there; and as I locked upon their dark, solemn looking and unique attire, and remembered that they had a constant in the contraction of the contraction o veluntarily withdrawn from the world. renounced lts werldly pour and show. consenting to become the watching to ants of hospitals—to be ministering us gels around the couch of death, as especially when that couch was being pressed by the friendless stranger as I gazed on them, and recalled much of their kindness, which I had seen for myself, L could but give them the war horeage of my heart, and regret the such devetion was employed in the se vice of a faith so unlike that of the me

and lowly Nazarene.

They have turned from the avenue of wordly pleasure, and are seeking happiness in works of good; in cooling h fevered brow, moistening the parchel lip, or in breathing words of hone encouragement to the poverty-stricker friendless and fersaken enes who see of them aid.

To linger around the sick bed friendship, of leve and of eur kindral is the institut of mature, and is not de serving of any great praise. With the Sisters of Charity, however, there is no tie of censanguinity, no feeling of hear flow, or interest, that impels them of and that prompts them to go forth of their missions of kindness. In their sence of these, though, they may be seen, from day to day, with beads at cross suspended to their side, gon silently on their round of mercyways calm, ever ready for deeds of kin ness, ever tender and geutle and p suasive, as only weman can be yet a

It is no wonder that such excellent and self-sacrificing devetion should be sufficient shield to them, as it was during the herrors of the Revelution It is a recorded fact, that during the sanguinary scasons, when all class sanguinary seasons, when an were treated with such unsparing on the were treated with such unsealed. The elty, they remained untouched. exalted worth won reverence, even for the hrutal mob, and they were permitted to pass unharmed. Even that terress of all nations—Napeleon Bonsparis-who wasted, with his Vandal arm, the various religious orders of Frauce, and whe breke convents open and laid am neries in waste, stayed his haud wha he came to them. This was the highest evidence of the estimate placed upon them by high and low. Would the Protestantism could snummen to her il such au, instrumentality! They would many a heart, that now weeps in sorre and desolation, be made to sing fer jo

# The Resurrection of the Body.

The transformation of mertality is glery is one of these things of Gol upon them that the neb crowded to see or discorn. Though surely, if natural man and the surely of t upon them that the nob crowded to sec Marie Antoinette, as he was led to execution. During the Directery, Bonaparte cleared them of a mob by his cannon. It was upon them that a stand was made against the gandarmeric of Charles X, in 1830. In 1848, the populace again ascended these ateps to the music of the Marseilles Hymn, to deput the Palace of the Tuileries, after the flight of Louis Philippe. These oir cumstances have given to it a historical interest, se that now, in 1851, a vaster concourse fleck thitter, in celebration of that greatest of all events, the redemption of man by Jesus Christ, than to any bare grain, but it arises "clothed upon the discount of the hisbandman seweth on the bord of the seed cannot spin afresh till they have been first dissolution of man by Jesus Christ, than to any bare grain, but it arises "clothed upon the course fleck thickers the redemption of the seed cannot spin afresh till they have been first dissolution of man by Jesus Christ, than to any bare grain, but it arises "clothed upon the course fleck that the care the product of the seed cannot spin afresh till they have been first dissolution of the seed cannot spin afresh till they have been first dissolution of the seed cannot spin afresh till they have been first dissolution of the seed cannot spin afresh till they have been first dissolution of the seed cannot spin afresh till they have been first dissolution of the seed cannot spin afresh till they have been first dissolution of the seed cannot spin afresh till they have been first dissolution of the seed cannot spin afresh till they have been first dissolution of the seed cannot spin afresh till they have been first dissolution of the seed cannot spin afresh till the seed canno that greatest of all events, the redemption of man by Jesus Christ, than to any bare grain, but it arises "clothed upon other church in Paris. It is, par entity with a beautiful verdure. And "if the neares, the place for theusands to counter the place for theusands to counter the place for the same and the place of gregate on festal eccasions. High mass much more shall he clothe your more shall be clothed as a shall be clot music—vocal and instrumental. Such the compass of a year? Every twenty is the usual influx of strangers, on great four hours there is a rehearsal in nature. occasions, that hundreds are eften come of man's death and resurrection. Even eveniug, the day, with its words, dis As Christmas drew fligh, I deter-into darkness and the shadow of deal mined to be in attendance at St. Roche. All colors fade, all beauty vanishes, Accordingly, on the 24th of December, labor and motion cease, and overy at about half-past 11 o'clock P. M., I set ture, veiled in darkness, mourns ia out, and en my arrival found a great multitude already assembled. The altar was beautifully ornamented with flewers and brilliantly illuminated. The infant entombed earth, by the agency of heart npen it, shall hurst asunder the bars that sepulchral darkness in which it imprisoned; and wrise and be called ened, and its light shall come; the di spring from on high shall visit it, and destroy the covering east over all per ple," and array universal nature with I This, it struck me, was most appropriate, considering how vigitantly the priesthood are accustomed to guard the book containing the histery of Christ from the eyes of all others besides God, and think of the resurrection.

BATON ROUGE, June 13.—A serious rencontrous for this morning, between Henry Ridding a bricklayer, and Samoei Oldneld, in which spectured here this morning, between Henry Ridding a bricklayer, and Samuel Oldned, in which the latter was shot through the neck. The cause of the ttack, on the part of Ridding, as stated in

of India:

THE SHADBACH RESCUE TRIAL.—The jury in the trial of James Scott, us one of the rescogrs of the fagitive alave Shadrach, cume into coort at 10 o'clock on the night of the fat. penter of New Branswick; the Qilla by a ship moster, who has invested all his earnings for years in trade hetween Liverponl and Now Orleans. A forfeiture of the ships mins two hard-working men, inneent of any orime themselves. By the British laws, all children inder one year are not counted, and all under foortoen are treated as half passengers. Our law only omits the jufants, and all over county, had shewn him, on the Sdr inst., a culton tom, on which the holl worm had been making its.

This is n much earlier appearance of the british afattute, cnonting I we for one, of the children between one and fourteen years. -After the ship wa fairly, nt sea, twelve were found concealed on board. Were these thrown out, and the British rule adopted, the passengers would not exceed the limit. In the case of the Blanche, the Passenger Factors, who are liceused officers under outrant bond, procured a false and perjured certificate of measurement, which passed the Cuatom-louise at Liverpuol. The passengars were received in uccordance with this certificate, and the British law. In both cases, the owners were not in Liverpuol, and had no cognizance of the number on board. Nor did they benefit by the excess of the ships were chartered at n round som, and not by

> The sickness on the Blauche was owing to the passengers themselves, who absolutely refused to obey the orders of the master, and chose to fis in their filth, thus engendering the pentilence which swept off so many. The excitement in Liverpool is interne; not ugainst the innocent and suffering and the innocent and suffering the pentilene and the massenger feeters and owners, but ugainst the passenger factors, and their perjured measurer. The British authorities their perjured measurer. The British authorities have commenced prosecutions against thom, and they will be severely punished.
>
> In this country, the finos have been paid. This, of itself, is a large sum-\$9000-far intoro than any profite on the vnyage, and will be a severe punishment on the master, and owners.

the new essume. A letter to the N. Y. Tribune says:

"Foar young ladies have been peratahulating out streets all the morning, dressed in light bline de laine-skirts, long enough to reach below the knee with lull Torkish transers of the same, and next blue gniters to match. They certainly made a very next and pretty appearance, and behaved the same and pretty appearance. This change in the same independent of the same in a very modern and become is approved of, by every hody here yound blids with the count the rage, particularly among the factory girls, of whom we have some twelve or fifteen thousand."

A London paper notices exceedingly curious groups of stulled animals sethibited at the World's Fair by a terman. They consist of a series of tableans, in which the naturals either postray, a seeun from nature, or illustrate seme wall-known fable. There has a learned pundit of a fox reading a book, and lopking us wise ne's lord chancellar; there is a love soons on a safa, at which no one can tesist a smile. The village sobool, with the lastinattess holding up the rod, is capital; thore is a frog with a parasol equally laughable. Two bunting scenes, in which a bon rad a stag are brought to hay by the hölinds, are heautifully awanged.

NEW ORLEANS MARKETS.

CHRISTIAN ADVOCATE OFFICE, Jone 14, 1851. Our market has continued to wear a dull and idective appearance in nearly all its departments, and a larther slight declins has teken place in Cotton, which, lowever, is about more firmly since the recent subject from Emmpe, by the Pacific and America. Tobacco, Rugar and Molasce have been isastive, ear Bloor is lower. Pryvisions, thought is very finited request, stave assletgone that ditte change, ear centina Land, while is has taller off a little.

The neat steamer expected from Liverpool is the Ningaras which were to leave for opened while in largald feeling in the Cotton—The week opened while in largald feeling in the Cotton market, and for several deep supers had rather the advantage, the sales of Rainridey, Mondey, and Tuesday, summing up only 6500 beles, and prices closing on the letter deep at a restuotion of about \$3 th a cent on the graties below good middling. On Wetchesdy mering later strices from second in hand. It is 1800 pigs reported jest week at 60, was good middling. On the densely mering later strices from the control of the second of the control of the second of the control of the

good midding. Ou Wetneslay mercing later abrives from Europe by this e saniers I selfin and America, ware published, the loss ner minorancing et all the loss of the weeken light in property of the loss of the weeken light opposed by the loss of t

ere PV, 949 bales, against 604, 263 to sase date last year; and et all the U. B. posts there is own an increase of 353,910 bales.

arly Explorers of Contral North At the nequisition of Leasisians, little was known of the geography and products of she wast territory. In fact, the principal inducement with the American Covernment, was the possession of the Mississippi River. The rapid settlement of the West; the impossibility of carrying on the exports and imposts ever the Alleghanies, and the absolute necessity. impers ever the Aleghanies, and the absolute necessity of the free navigation of this river, operated on the democratic party, which has had the zecendancy, and led to the naurotion of a power so conferred in the Coestintion. The purchase of Louisians was undoubtedly the most imperiant measure which has ever been accomplished by the American Government. Mr. Jefferson Immerican Government, the most ingestion as spiertely recommended the sending out of an their winter quarters an the lat of November, in their winter quarters an the lat of November, in the country of the Mandana, a distance of 1609 miles. They resumed their voyage on the 7th of April, and on the 18th of Angust, reached the April, and on the 18th of August, reached the highest navigable point, a distance of 3000 miles from the mouth. Hare they procured houses, and drossed the mountains, only a distance of aixty males, and having reached one of the branches of the following River, they descended to its mouth, which was reached on the 18th of November. On the 27th of March, 1806, they set out an their yours, and reached St. Louis on the 23d of September, after a journey of 9000 miles. The additions to the graginantes! knowledge of the country with valuable. Leven and Clarks he not marked. nd give betweenty descriptions of the geology ciany of the wast regions aver which they and botany of one wast regions aver which they passed. But the face of the canntry, and the character, habits and strength of the Indian tribes, particularly agod their attention. The great length of time spent in the apwardstrip, was ewing in the use of barges, which had to be worked up stream. This aspedition exolted a lively interest, not cally in this country, but among the learned in Europe. Captain Lewis was appointed Governer of Louisiana Territory, which embraced all the country North of the present State of this name, and West of the Mississippi.

The jenual was in preparation when it was retarded by amelanchaly event. Captain Lewis, whe had it in charge whils in the Indian country, on his way to Washington, committed suicide. It was at first supposed that he had been mardered, but the evidence showed clearly that he had fallen a victim to hypochondria. The work was completed

a victim to hypochondria. The work was completed by Captain Clarks, who was appointed Governor of the North-west Territory.

A very, handsome English edition appeared

fter its publication in this country. There compare respensibly with the schlevements of Frenont, when the poverty of their means is taken into consideration. They deserve to rack high emeng the path-finders.

While Lowis and Clarke proceeded up the Mis-worth, and thence to the Perceeded up the Mis-suri, and thence to the Perceeded up the Mis-tensted to demaral Wilkinson the selection of the officer to explare the sources of the Mississippi. General Wilkinson was at the time Captain-gen-eral of the vast territory known as Louisiana. He selected Lieutegant Zebalen Pike. He had under sommand a Sergean, a Cerporal, and seventeen rivates, composing the party. He had no Subaltra Officer, and as Sargeon. It was a paltry outfor such an Important expedition. He left St. suis, Angust 9, 1805, in a keal-boat, seventy feet aly; hat there were no accounts published, not chart of this maknown river. Ha reached the

hart of this unknown river. He reached the so, as he supposed, on Fabrary 1, 1806, the way performing the fear, in the depths of the father of the perfect of the party, have equalled, only, by the party ander Colonel to the father of the perfect extended to the discovery of other sources, head waters of the river consist of a labyrinth

of the exploration of the sources of questions, ge, the Arkanasa and the Red Rissor. He st. Leuis on July 15. This region was at that I salittle known as the interior of Africa. The travellers had been French traders, who caremand these different rivers to thell sources, and published charts of them, and of the Mississippi, the were imade from direct abservation: He insidelitently ecceed the bonadary, and found himself in the Spanish Territory. This originated from his 'crossing the head waters of Red River and taking the Rin Grands for that river.' He was immediately waited on by a superior bedy af Span-ian soldierly stid escerted, nader henorable surveil-lance, down the Valley of the Rio Grande to Chi-hunhus, thence by Sen Anianie to Natchitoches, which place he reached on July 1, 1807. Hie party consisted of two Lieutenants, a Surgeon, Surgeant, two Corporals, and sixteen Privates. A comparison of his tour, with the abservations of gendessen lately from the Valley of the Ria Grande, proves that but little change has compared in the proves that but little change has congred in the condition of the country since that time. Pike and his party encountered difficulties in this expedition, for want of food, and bardships, quite equal to these which attended bis first adventure. The publication of his formal was at a most apparture time, just when the excitement of the Burr expedition

pramoted to a Captaincy in 1809, and was made Lieutenant-Colonel of the ment, which acquired so much glory in the of Tippecance, though he had not joiced the time. At the approach of the war, he Colonel, and, in 1816, was appointed Brieral. He was killed at the taking of

Arktown, by the explosion of a magazine,
He was a man of superior educatine to either
the control of the state of the stat

in eaploring the vest subterranean city which lies under Rome. He has been enabled to trace, in the Christianity is the fifth century. His drawings will be sublished, at an enormous cost, by the Twill throw great light an the period when the arts were sent over issued from the press. It will throw great light an the period when the arts were in the cheesy.

The Paris correspondent of the National Intelligencer thus writes: "The patient and thorough examination of more than alxiv councomes, present.

ing an aggregate extent of about 300 leagues, (750 miles,) that enabled him so collect a multitude ente and dates, by means of which he neless with modern art, and illuminates into of the history of Christianity. For of Christ, the Virgin Mary, the Apostles, and of great number of hely personages. In the cata-counts of St. Calixtus, upon the Appian Way, he has discovered the most ancient paintings known, which are represented the person of Christ, and bjects taken from the Old and New Testaments mintings, which go back to the first and plates in the work of M. Perret. Expiring pagan per there, and the transition is marked as

distribution of the groups, the accessories, the whole aspect, and generally whatever appertains to the mode of execution, belongs to the yel flour-tribug pagans art. Christianity furnishes the subto the mode of execution, belongs to the yet nontribing pagars art. Christianly furnishes the subject. Pagardism, the form. From sgo to age, in
proportion as Christianity gains ground, this form
is modified; new art seeks and finds new modes of
representation. It now not only furnishes the
thought; it expresses that thought in a lenguage
which is its own. Fifty-seven pletures, copied in
the catacombs of St. Agnes, on the Nomentalian
Way, and which appear to date from the second
and third conturies, represent, among other subjects, Adem and Eve, Tohias and the Angel, Herodand the Magi, the Paralytic.

'In the estagomias of St. Cyrice, on the par
Tribititing, were found, dating probably from the
third and fourth centuries, a very curious portrait

and other catscombs M. Perret bas collected eighty three sobjects illustrating the cerly days of Christianity. But, perhaps, the most interesting of all are those discovered upon the opening, under the direction of M. Perret, of the well of Platonis.

Algiers and Opelouses Railtood. The per-menent committee hald their first meeting in Naw Orleans on Friday last, and made arrangements to procurs anyveys, apply to the police jories for the levying of assessments, and prepare for such thange of legislation as may be necessary to secure

a clarter.

The Railroad from Salt Lake to California.

What Mr. Whitney and the General Government have not accomplished, an obsence religious section likely to do—i, e, open an iron passege from the Mississippi to the California valleys. The Marmons at Salt Lake propose to construct a railroad from that city to San Francisco, and such take the general with the general is the prespecity of that people that the general impression at the Wast is that they will enceed in doing it, if they undertake it. Indeed, the Chicago Trihnne intimates that they have already so mulated wealth anough to accomplish it, with community, or at any rate, that with such help as they would get fram California itself, the enter-

The Pacific Railroad - This road is now to be coremenced. The illrectors at St. Louis have issued notice to contractors for the graduation. masonry and laying of the superstructure of the first division of the road, about forty-five miles from St. Louis, westward. Proposals to be received be

The First Logmotive on an American Major Allen, the chief engineer of the Erie Railroad, made a speech in which he gives a thril-ling description of the first locomotiva trip on tha

surface of the continent in all directions. When the imagination has attained to some conception of this scene, let it seek to ge back to the time when anily one of these iroa monisters was in existence an this continent, and was moving forth, tha first of the mighty race. When was it? Where was it? And who awakened its energies and directed its movements? It was in the year 1828, on the banks of the Lackawanna, at the commencement at the railroad connecting the canal of the Delswara and Hudson Canal Otmpany with their coal mices, and he who addresses you was the only person on that locomotive. The aircumstances which led to my being alone on the engine weighthese:

AMERICAN OCEAN STEAMERS .- Botwarn Liv-

rood and New York, there are four ships, of \$000 cm each—the Arctic, Baltic, Atlantic and Pacific; two to Bremen—the Washington and Hermann, of 2000 tons each. The Havre line runs the Franklin and Humboldt, each of 2500 tons. The Chagres and Humböldt, each of 2500 tons. The Chagres line has the Ohio, Georgia, Falcon, Empire Cuy, Croscent City, El Dorado, Brother Jonatina and Philadelphia, ranging from 1000 to 3000 tons. Vandenhit's line, between the same ports, has the Northerner and Fromotheus. Mitchall's New Yurk and Savannah line runs the Alzhama and Florida; and tha New York and Charlestou line, the South erner and Markon. Between Panama and San-erner and Origin, 1700 tank a Appinwall and Law & Cu. run the Oregon, 1095 tons; Panama, 1087 tons; California, 1050 tons; Unicorn, 600 tons; Tennessee, 1300 tons; Northerner, 1200 tons; Columbia, 800 tons; Carolina, 600 tons; Sarah Bands, 1500 tons. The Collins line omploys quite six hundred men, who are paid from \$5000 per um, received by the cuptains, down to \$20 per in average of fifty-five tons of coal per diem throughout the year. The Philadelphin and Sa-

Charleston and Liverpool line are to put on two. The Union and the Wunfield Scott run from New

tation of Gen. Taylor, un the Mississippi, which must present a remarkable contrast for English readers to the atroclous reports they have been in n this country. Her ladyship called on Gen. Tayfor in Washington, and wes invited by him to visit his cotton plantation when she went South. She

his cotton plantation when she went South. She says:

"The late President's son was there, and received as with the kindest hospitality. The slaves were intespred and marshalled for us to see; cotton was picked from the few plants that had survived the late tertible overflowing of the Mississippi, and the late tertible overflowing, they were sayelf fed, confortably clothed, and kindly cared for in everyl way as, bossible, and seemed thereogleby, happy and contented. The dwelling-house we went to look it was extremely nice; it was most tassfully illecorated and an excellently furnished one; the walls were covered with prints, and it was scrippillously clean and neat.

"V——expressed a great what it see some of the amell sable fry; and a whole regiment of little robust, rotund, latek hables were forthwith paraded for her especial amusement. It was a very underly little assembly as particular the content of little, smalling, good-natured, aver and relief in the particular layer and collected teacher by

milerly litth, assemblage, savida, caused by treating fined how nice and clean they all looked. Such a congregation of little, smiling, good-natured, raven milypolles I naver saw collected together-before. One perfect duck of a child was only about three wieks old, but it comported itself quite in as orderly a manner as the rest, as if it limit been used to give parties and assemblies, and receive my quantity of company from every nation on earth affits day, or ratter hours. It was as black as a little polished image carved in polished chony, and as plump as a partitude the norming. These pitchy-colored pleanings thiffred from white children in one casential particular, for they were all gerfectly upics and without rail wide awake, but all still and smiling.

"A fier the main body had departed, a small straggler was integlict in, twhose mother, perhips, but invised additional cares upon its state to letter, and stade had been supported and oscillate, teatified its disapproduction at the presence of English visitors by a very mild squall. We saw another philals afterwards, who was very nearly white, with lovely fentures and fair har; the inpulse was a mulature, and the father, almost white.

"V—was nightly delighted with the whole icompany in little linky limps, from first to last, nursing and fonding them in high give; and it may be readily conceived that the mothers cloud by equally enchanted at having thair little darkies so appreciated; and not a little proud, showing their splendid glittering teeth almost from ear to our.

"All the alwest were evidently taken the kindest care of our Gen. Taylor's plantation. Men, women and children all appeared to adore Mr. Taylor, who seemed extremely kind to them, and affahlo with them."

A Plature for Baohalars.

If in that chair yonder, not the one your feet lie upon, hot the other beside yoo—eloser yet, were scated a sweet-faced, girl, with a pretty little foot lying out upon the hearth, a bit of lace running round the threat, and the hair parted to a chain over a forehead fair as my, by your dreame, and if you could reach an imm through that chair book, without-fear of offence, and auffer your fingers to play idly with those curis that escape down tha neck, and if you could clasp with your other hand those little white taper fingers of hers, which lie so temptingly within reach, and ao talk softly and low in tha presence of tha blaze, while the hours alip without knowledge, and the winter winds whistle uncared for—if, in short, you were no bachelor, het the husband of such a sweet image, (dream cail it; rather,) would it not be fur pleasenter than a cold single night, sitting counting the sticks, reckening the length of the blaze, and the height of the falling snow.

Burely imagination would be assert and purarif it could have see my land the length of the still would be torn from mind labor, if but another heart grow into this present soul, quickening it, warming it, offering it, bidding it ever God spaed. Her sec woold make a labo, rich as a rainbow atop of all such noisonic things as we lonely souls call trouble. Her smiles would lluminet the heckest of crowded cares, and darkness, that now sents you despondent in your solitary chair for days together, wasving bitter fancies, dreaning bitter francies, dreaning bitter francies, dreaning bitter draams, would grow light and thin, and sprend, and float away, ahased by that beloved smile. Your friend, and prove fallow, dies! Never mind. That gentle clasp of her fingers, as sha ateals behind you, telling you not to weep, for it is usuloss, is worth to a friends.

ing you not to weep, for it is usuless, is worth tea friends.
Your aister, sweet one, is deed—buried. The worms are busy with all ther fairness. How it makes you think-earth nothing but a spot to dig graves upon! It is more. She says she will be a sister; and the waving curis, as she leans upon your shoulder, touch your cheek, and your wut eye turns to meet those other eyes—God has sent his angal, surely! Your mother, also for it, she is gone! Is there any bitterness to a youth; about and homeless, like this? You are not alone \*she's like there; her tears softening yours, her grief killing yours, and you live again to assuage that kind sorrow uf hore. Then—thase children, roay, fair-haired; no, they do not disturb you with prattle how, they are yours. Toss away there un the grean sward—never mind the hyacuths, the snow drops, the videts, if so he they are libre; tha perfume of their ricalthful lips is worth all the flowers of the must be the state of the must be some of the must be the say the say the sort of the must be some of the must be some of the must be sort of the sort of t

henri is tall of it. No nead now, at once, of hurst-ing blossoms of trees taking leaf, and greenness, to turn thought kindly and thankfully; for ever bedde you here is fruit for which eya, heart and soul, are full of unknown, unspeken, because an-speakable, thank-offerings. [1k Marvel. »

A DIGNITARY ON HIS OWN HOOK.—The Lon don correspondent of the Courier and Enquirer nerrates the following incident attending the inauguration of the great Fair : :

Conspicuous among the corps diplomatique, and

which led to my being alone on the engine weightees:

"The road had been hill in the summer; the structure was of hembook timber, and the rails of target dimensions, mothed on to copy placed far apart. The induce had cracked and warped form exposure to the sum. Afternhout 500 feet of straight line, the road crossed the Leavanna Creek, on treate work about thirty-feet-high; and with a curve of 350 feet to 400 feet-radius. The impression was very general that the iron mometer would elither break down the road, or that it would leave the track at 100 curve, and plungs into the creek. My reply to such apprehension was, that it was tool into consider the probability of each occurrences; that there was no other course but to have the triad made of the strange animal, which laid it was not necessary that more than one should be involved in its fute; that I would move about the involved in its fute; that I would take the first ride alone, and that the time wand come when I should look back to this insident with great interest.

"As I placed my hand on the throlle-valve handle, I was undeeded whether I would move slowly or with a fair degree of spead; but believing that the road would prove safe, and preferring if we did go down, to go down handsonely, and without any avidence of timidity, I started with considerable valory—passed its curva neer the create a feet, and was not out or has mides, I reversed the valves, and the Chieses lampies, and the Chieses lampies, and the Chieses lampies, and the Chieses lampies of the lampies. The condition of the great real rails of whose work of the many of the condition of the great fair; and the companied of the chieses of the second of the lampies. The condition of the great fair; and the companied the Queen, in making the circumstance that a gentlemen, connected with the Moroing Rost, recognized the Queen, in making the circumstance that a gentlemen, connected with the Chieses lampies and the conject of the fair tail the condition of the great fair. The more than the circumstanc

AN EXPEDITION TO LONDON .- A correspond ent of the Cleveland Plain Dealer relates the fol lowing:

"An accomplished and desperate gang of rogoes have started from NewYork to London, for the bold purpose of trying to oarry off the world-renowned Koh-i-noor dismood, now on exhibition at the Crystal Palace. This magnificent gem is deposited within an iron cage of great strength, which, by an ingeolous contrivance sanks at might dowe into a massive iron chest, upon which it resist, and on which it is thought to be so secure, that the Royal Commissioners have never dreamed if the possibility of any uttempt being made to purloin it. I do not see how eny one could make the passession of a stolen article of this rure value from the owater, for its redemption.

"It appears that one of the gang heving had some personal dispute with the leader, suddenly and unlobserved left the steamer that conveyed the test of the parity to Engloud, a few ioinutes before it sailed and proceeded forthwith to Mr. Matsell, the Chief uf Police, to whom he communicated a description and the names of his late associates, together with the object of thoir visit to the Crystal Pelace.

"The result is, that several efficient police oili-

elace.

The result is, that several efficient police olli the result in that saveral efficient police on-cers here started off to London, to 'take care' of these chousiers d'industres, who, by the hy, are said to be well diseased, gratiemantly looking men, and some of them are highly educated. Now that the object is known, they will, of cource, fail to ac-complish it. An experienced officer told me the

An Engitsh Lady on Sauthern Stavery, other day, that a 'gentleton gambler,' or 'sporting land,' of any notoriety, is not to be seen in New York now, and that the fastionable 'hells' are all closed—bondon, of present, offering superties in account of her visit to the cotton plan; rior inducements to men of 'enterprise.'"

John H. Harden, the Murderar and Highway Robbar.

John H. Harden, the Murderar and Highway Robber.

On Fridny last, John B. Harden and Jack, (a slave,) his accomplice in the nurder of Semuel Smith, were hung at Miliny, in Sarita Rosa county. Their death in this ignominions form was resolved on by the munimous declaims of two hundred and seventy-seven citizens of Santa Rosa county. Upon invitation, these citizens assembled, and after adopting a seales of resolutions expressive of their horizon for the innay murders, robberles and other retimes runmitted by thriten in the Sintes in Georgia, Mississippi and Florbis; and of their infliction of the innbility of our lews to reach the offender, for want of testimony beyond the process of our courts, and of the Insecurity of every citizen of this country in reference to both life end property; in home or on the highway, by day and by night, while so bold, a desperada as Harden lived, they roughned that the law of self, preservation imperiously iteratabled the Immediate, execution of Harden and his accompilee in etime. It is present that during the less fourteen years, no less than sixteen mirriers have been charged upon Harden. That he has within that time married sixteen wives, all of whom are now living; and that within that larse of time he has mysterbusives capad from twelve-different prisons. Shortly before the murder of Smith, for a slight provincily, he approached (under the laft manthe of night) the alwelling of Gardner Hardy, Esq., a worthy citizen of Santa Rosa, and with, his rifle shot him as he sat at supper, the ball striking the temple corper of the right eye, glanced and passed through the right eye, glanced and passed through the right eye, glanced and passed through the sheet, carrying away the roof of his month, and electropy and the right are a many others who were associated with Harden in his schemes of the right of the remains no doubt on tho-public mind, that there are many others who were associated with Harden in his schemes of crime.

on his guilty head. The unbending rules of law designed for the protection of innocence, were him nicana of escape to so artfol a man as Harden. No holts or hars could confine him. The traveller on the highway was in constant apprehension, as well as the oitizen at his pencefol hreside, so long as it was known that Harden was in the vicinity. In short, (save the Interposition al Providence) there was no security against the attack of such a man, while he moved upon the earth:

\*\*

\*\*

Painful and unpleasant as this deed of self-protection was, never was so solemn and serious a

Painful and unpleasant as this deed of self-protection was, never was so solemn and serious a matter conducted with more calmens and deliberation. No boisterous excitement, no taonts or insults were offered to the unfortonate criminals. Thoir bodily wanis were overfully attended to free access was given for spiritual connsel and consolution. On the fatal gallows, prayers were fervently and eloquently offered app at the request of Harden. And he, unfortunate man, requested to be prhyed for, while life was in him. He repeatedly asserted that he deserved to die, and that he believed that if permitted to live, he could not reform. When this tregedy was over, the offizens quietly returned to their homes, and engaged with ealmness and serenity in their accustomed avocations, evincing by their deportment that what had been done was a stein duty, required at their hands; that nothink more than justice had been administered, in the punishment of the blackest of crimes. [Florida Democrat.

peculators who aver lived. Just think of a King aking advantage of hie euperior information

POPULATION OF THE RUSSIAN EMPIRE:-The Russian ministry have just published the censue of the Empire for the year 1846. In European Russia it contains 52,565,334 souls; in the four Western Governments of Siberia 2,153,958; in 19,000,000 belong to the Orthodox, Greek Church, 7,300,000 to the Roman Catholics, 3,500,000 are Protestants, 2,400,000 Mohammedans, 1,200,000 Jews, 1,000,000 Armenian, Gregorian and Arme-nian Catholics, 600,000 Pugans.

Americans whom the U.S. Commissioner has ap-pointed upon juries for examining goods and giving

Americans whom the U. S. Commissioner has appointed upon juries for examining goods and giving awards, are the following:

"Horeee Greeley, of NewYork, iron and general hardware; J. Webber, of Massachusetts, manofacturing machines and tools or systems of machinery, Dr. J.V. O. Smith, of Boston, civil engineering, architectured and building contrivances;
Asa Whitney, of Pepnsylvmia, naval architectors, military engineering, ordnance r.rmor and accountements; B. P. Johnson, of NewYork, and Jindge Dancan, of Virginia, egricultural and hortlentural machines and implements; Dr. George B. Loring, of Boston, musical instruments; Dr. T. Chadbourne, of New Hampshire, surgical instruments; N. Kingshuny, of Connecticut, wooden and worsted manufactures; Mr. Cunningham, of Massachusetts, loather, including saddlery, hurness, skins, 'tar, feathers and hair; H. Stevens, of Vermont, paper, sationery, printing and bookbinding; B. H. Smith, of Virginia, minerelogy and mining; L. C. Dungeon, of Louisiana, glass; Eliot Cresson, of Pennsylvonia, articles of clothing for immediate personnly of connectic use; Charles besile, of Pennsylvonia, articles of clothing for immediate personnly of connectic use; Charles besile, of Pennsylvonia, articles of clothing for immediate personnly of connectic use; Charles besile, of Pennsylvonia, articles of clothing for immediate personnly of connectic use; Charles besile, of Pennsylvonia, of Virginia, minerelogy and miners and the processes depending on their use."

The Crnsus.—The census table reveals some instructive facts. One is, that, notwithstanding the continual recruits from the South, by," the underground ruiroad" and otharwise, the number of colored persons in New England has diminished 402 since 1840. In New Hampshire, Vermontand Connecticut, there are less colored persons now than there were tharty years ago. The greatest falling-off is in John P. Hale's State, where, eince 1790, (sixty years,) the number of colored persons has diminished from 788 to 477, or about two-fiths. We think Mr. Hale is bound in account for this very construction of the state of New or within the last ten years, which Gerrit Smith & Co. are expected to account for Massachusetts und Rhode Island are the only New England States where the colored populotical has increased since 1840, vtz: Massachusetts, 105, which we suppose is to be eitribused to the eiforn of Mr. Gurison, Ahley Kelly, Wendell Phillips, etc. Tint in Rhode Island is not so easily accounted for 1 t is, however, 35 less than in 1830, which renders it probable that there was an error in the last consus. [N.Y. Jour, Com. THE CRNSUS.—The cousus table reveals som

last consus. [N.Y. Johr, Com.

DEATU AT THE TOLLET.—The Baroness de Redding, quondam governess of the Psincess Mathilde, died very suddenly lately, just before the occasion of the greut fanoy hall that was to be given by the Princess.—She was to take the character of a Spanish Duonia; her costume was designed by one in the literartists of the capital. That dross was finished and returned to her; she tried it on, observed some fuelts, took out her pen to not their dross, and is the catality of the pen to not their dross, and is the catality of the pen to her manutuamaker; "moch is wanting still; the designer will be annoyed if I present inyself before him with any feult in the excution of his idea." The pen had dropped from her haud; she laid her head quietly down on the perfuned coshion which decked her toilet table, and thus expired, the spanking beads and funtering ribbons still adorning her person, and her lips murmuring some incohereat words relating to the subject which occupied her mind at the nument.

Quick Passage From San Francisco.—The

QUICE PASSAGE FROM SAN FRANCISCO .- The brig Samuel Fronch, (of Eastport, 1 Capt. Brown, arrived at New York, on Samulny, 31st nin., in 1051 days from San Francisco, Including tive tention in the port of Albanos, Brazil.

Later from the Mountains, INDIAN HATTLE, SMALL POX, ETC. - The stesmor Alton arrived et St. Louis on the 2d, from the Missouri, with, in addition to one of the largest enrgoes that have come out of that river this session, nearly 500 packages of buffslo rohes, furs, and springs belonging to the St. Lenis Fur Contpany Several men, who, for some time, have been cm-ployed in the service of the company, were pas-

sengers.

They left the mouth of Medicine Creek on the lat of May, with four heats fully freighted. A mink. Its eargo consisted of 250 packs of robes,

culty.

During the Past winter, there was but little s on the mountains, and the present flood is, of course, produced by the heavy rains, which have

tiguous to this river.
That forthsome disease, the smell pox, made feorfol raveges among the Sionx and othe tribes, but hed, when our informanta left, almos der. In the month of January the west in exposed situations, were frexen to death, severe

whites were also aeverely frost bitten.

The Pawners and Ponkaws, two tribes that have long been et variance, hed a pitched bettle on above its mouth, about one hundred were engaged on either side. The conflict resulted in the death of two Pawners, who were both killed by a half breed who was engaged as interfretor by the opposite party. This hostile meeting occurred on the

Company were hourly expected to arrive at the mouth of Medicine Greek, at the time of the departure of this party. The cargoes of these boats With the exception noted above, the relations of the Indian tribes are of the most peaceable characthe husiness of the St. Louis Fur Company for the past season, has resulted in a very handsome yield to the onterprising proprietors, Messrs. Harvey, to the onterprising proprietors, Primeau & Co.

CHOLERA IN WESTERN STEAMERS -- A er of steambout reports have shown us, recently, that there was a tendency to the apread of this fearful malady. We regret to notice an increase of mortality enflicient to impress all cancerned an our river steamers—officers or travellers—with the greatest regard to caution. The St. Louis paper notice the arrival at the Quarantine Ground there, on the 2d Instant, of the summer Grand Turk, from New Orleans. She lind thirty-two there, on the 2d Instant, of the stummer Grand Turk, from New Orleans. She had thirty-two deaths from cholera during her trip. When she started from New Orleans she had 112 cabin and 269 deck passengers. Of the thirty-two deaths only three were cahin passengers. These were returned Californians, all of whom left considerable appears to the lands of able amounts of dust and money in the hands of the officers. The Grand Turk had been left by a number of her passeogers, who found opportunity to go no other hoats. She landed over 200 deck passengers at the Quarantine Station. Nine were

TELEGRAPHIC FIRE ALARMS. On Thursday, Mny 29, Dr. Channing gave the members of tha Clty Government of Boston, an exhibition of his "Telegraphic System of Fire Alarms."—Many of the members of tha government were present, togather with a number of scientific gentlemen of Hoston and vicinity. The exhibition was highly satisfactory. Dr. Channing went into a cleaning satisfactory. Dr. Channing went into a detailed description of the systum, and gave many interest-

lng experimente.
Professors Hosford and Bond of Cambridge, Dr.
Hays, Mr. Wightman, of Boston, and others, dddressed the audience most enthusinstically in favor
of the system. Every one appeared satisfied with the exhibition. There appears to be good ground hope that this great system will soon be adopted

SURRENDER OF THE CLEOPATRA. - This ean chartered for the contemplated invasion of the chartered for the contemplated invasion of the country in the contemplated D'Sullivan, who is at present under indictment on charge of organizing a military expedition against that island. The Cleopatra was surrendered on an affidavit of Mr. O'Sullivan, stating that ahe was to be engaged in the trade batween New Orlean's

GOLD FOUND IN MAINE-Great Excitement. Gold, as rich as that from the mines of California, ie said to have been recently found in Maine, and n a portion of the State on the borders of the considerad a wilderness. So great is the excitement created by the discovery, that raffsmen are said to have ahandened their logs, and the farmers their shovels and lines, to engage in searching for the transfer means. the precious metal.

great excitement aroung the cotton dealers, seems that n cotton factor by the name of J. Simpson has been debbling in cotton through the season, and has lost large sums. On Snturday, he JURYMEN AT THE WORLD'S FAIR.—Alsong the Robb's bank, and immediately obtained advances from shipping houses, and decamped. The checks of ocorse, were dishonored. Several of the ereditors made their arrangements, and at an early hour yesterdey morning seixed the cotton in the hand of the merchants who had made the advances Namerous interesting questions will grow out of this proceeding—the conflict of liens between the seller and the advancer, will call out all the learning and eloquence of the bar.

HEALTH OF ST. Louis.-The Republican, the 3d inst., notices that the Board of Heulth had their regular session on the previous evening, and says. "As there have been many false aed unascertain the returns from all the Wards as made Ward made reports, and at no time within many years, at this season of the year, has the city been so healthy as it cow is. The reports show no cholers—no epideraic of any kind—and the bills of mortality are, as the sextons say, lanientably

GEORGIA UNION CONVENTION -A dispatch from Macon, Juna 4, says that the Union Convention at Milledgevillo, ununlmously nominated Hon. Howell Cobi as their candidate for Governor, and re affirmed tha report and resolutions of the Georgia Convention of December last. One hundred and sixty delegates were present, and great unanimity

Mayor Kingsland, of NewYork, has bassed a proclamation against the sale of spiritness liquors on the Sabbath, and notified the Chief of Colice to enforce a strict that no keeper of a houst, potter house or aroutry, shall on Suaday sell or dispose of any sie, porter, strong or spiritous liquors, excepting to lodgers in such tiam or taverus, or i persons solutily travelling on that day, in cases allowed it law.

the public meeting held in Charleston on Monday evening, the 2d last., the following resolution wa adopted by a large majority:

Resolved, That the City Council of Charleston be requosted, when soon as they are informed that are respensively as soon as they are informed that are respensively and are sound carolina Railroad Company for crossing the Savanuali river at Augusta, to subscribe to the stock of the Memphis and Charleston Railroad Company the sum of two hundred and fifty thousand dollars.

"First in the First."—We were shown, on Facety, a time corror timeson, taken from the plantation of Dr. II. R. Jones. This, compared with the growth of the plant in forward seasons, could not be considered early; but for this season it is very enrly, and, indeed, the enricest that we have heard of. This hidosom was of the species denominated the "California corror." Let the doctor take the inetial. [Montgemery (Ala.) Atlas, 5th liest. : A REMARKABLY COMPORTABLE PLACE.—The

NewYork Mirror says : "A man requires nothing in NowYork bot plenty of money, good health, and a good conscience, to rouder his life elysish."

THEOLOGY:

This department is very large, embracing all the standard works in Theology published in this costry and in Europe, among whire may be found a following authors: Jeremy Tnykir, Wasley, Clah Henry, Hurklitt, Bunyan, Locke, Bucon, Miles Collier, Sperioc, Lardner, South, Paley, Stellhunse, Hurnett, Tillotson, Putric, Lowth, Sen Leightun, Barrow, Melville, Magce, Pierson, Chi nere, Nevins, Evans, Horne, Bloomfield, Cruda Dr. Rich, Townsend, Kitto, Hutler, Edward Swift, Lord, Rutherfurd, 12' Aubigny, Luther Catvin, etc., otc., etc.

An extensive assortinent, of all sizes, sad in are friendless and forsaken ones who of them aid.

of them aid.

To linger around the sick bed of friendship, of love and of our kindred is the instinct of nature, and is not at. serving of any great praise. With the Sisters of Charity, however, there is no tip of consanguinity, no feeling of hear-flow, or interest, that impels them and that prompts them to go forther and that prompts them to go forther and that prompts them to go forther than the statement of kindness. In the statement of kindness. their missions of kindness. In the ib sonce of these, though, they may be seen, from day to day, with beads a cross suspended to their side; goin silently on their round of meroyways calm, ever ready for deeds of him ness, ever tender and gentle and pe suasive, as only woman can be, yet no ther asking nor expecting any earth ive, reward,
are It is no wonder that such excellen

and self-sacrificing devotion should be sufficient shield to them, as it was during the horrors of the Revolution It is a recorded fact, that during those sanguinary soasous, when all elass were treated with such unsparing enwere treated with such unsparing en-clty, they remained untouched. The exulted worth won reverence, even for the brutal mob, and they were permitted to pass unharmed. Even that terrors of all nations—Napoleon Bonuparie-who wasted, with his Vandal arm, the various religious orders of France, and who broke convents open and laid nuneries in waste, stayed his hand wha he came to them. - This was the higher evidence of the estimate placed upor them by high and low. Would the Protestantism could summon to her il such an instrumentality! Then would

and to secure this control over oue's own conduct, to keep the body under, and subject the passious to reason, directed by the law of Christ, it is necessary in mest cases to make use, as an instrumentality, of what is more appro-priately called Religious Fast. This coesists in mortifying the flesh by a par-fial, or total abstituence from food for a length of time sufficient to humble under a sease of dependence. It is, there-fere, a means of grace to perfect the Christian character, and has been prac-

people. Moses, Elijah, and our Suviour cach fasted forty days. Paul and Baraabas were called to a particular work. while the Church at Antioch were engaged in fasting. It was while Cornelias was engaged in fasting and prayer, that an angel came to him and said "Cornelius, thy prayers and thino alms are come up for a memorial hefore God."

And Peter had fasted and prayed until he was "very hungry," when he fell into a trance and saw Heaven opened Pasting was prescribed in the Church rubrio, and in the eanons of the Apostles, and was universally practiced by the prinaitive Christians. There is cer-tainly sufficient authority to enforce the

Much, much has been said of a monecessity of the duty in the teachings and example of the Fathers, Apostles, and of our Saviour himself. And from the declaration in Mat. xvii. 2f, that almost inconceivable; but should not and fasting, we infer that, in some instances it is a sample of the Fathers and do they not, to some degree, ensured and the stances it is a sample of the Fathers influence and responsibility, and which might seem to justify admundver, when it is a good rule, however, when there is occasion for fault-finding, to do it privately to the erring one. This may be judgments passed by yieked men, in the individual, which will generally wicked. It is enough to fare as our the telephone of doing the last day. ther's influence and responsibility, and and fasting; we infer that, in some instances, it is essential to salvation. deavor to avoid the duties which rest he taken kindly, if the manner of doing Upoc another occasion cur Saviour de-clared that his disciples should fast after hands entirely the training of their unchristian rule, on the contrary, is to his departure from among them; and children?

to be seen of men, but with washed more observant thun others of her age. to elicit respect and admiration. We than de wrong? It is far hetter to

Church, and their testimony has been teachings. Bat where shall we find such a Methodist and Saturdary Not one in twenty observes, is any sort, our regular Fast hefore Quarterly Meeting; and most of those who do keep it, do so with a very imperfect, and some times an improper understanding of its true nature, and of the oppositions, necessary in its observement of the oppositions, necessary in its observement of the conditions, necessary in its observement of the conditions are a render it avuilable us a means and diminishes the heat of the skin.

Except abserption, which it promotes. It that parents would consider these things, that fathers would consider these things, the fathers would consider these things, the fathers would consider these things, the fathers would consider these things. when the stonnach has had sufficient time to empty itself, it forms no more farther, ask your heart it, you are less time. Other persons refuse to fast at all, lest titey, too, should attach to it some degree of merit, and come by insensible degrees to entertain the idea of earning their salvation. Thus error sees us ground between Pelagianism and Antiaomianism.

That kind of Fast which consists in the stonnach has had sufficient time to empty itself, it forms no more farther, ask your heart it, you are less excusable for it; receive all the evidence on hoth sides, decide justly, and then say if you are not even more reprehensible degrees to entertain the idea of the subdued action of the sides, decide justly, and then say if you are not even more reprehensible? This is an important matter—one which nearly concerns you and yours. Will you throw it aside as the vagary of some unknown scribbler, or will you reflect upon it as something closely connected with your peace? a temperate use of lawful things, and a life regulated by a uniform and daily retraint over appetite, is indispensably accessary to the Ohristian character; and the second the second the consists in the second the companies of the second th sound, but the power of ratiocination is greatly impaired. The temper at first becomes fretful and impatient, but finally yields to a subdued sense of insufficiency. The passions lose their nefarious character, and the world its hold upon the affections. It promotes the subsequent digestion of food, and is a valuable means of preserving health. Probably there is not one person in a

thousand, in this country, who would not gain upon the score of health, by abstaining entirely from food and drink for eighteen consecutive hours, once every week. When food is taken, after tied by the pions for this purpose, and a moderate fast, it acts as a healthful tied by the pions for this purpose, and to procure blessings and avert inepending judgments, in all ages of the world.

Being founded in a strictly philosophical relaticate the economy of our nature, it has been wisely adopted for other than religious purposes. Seldom, indeed, has any thing great or noble been accomplished without it. It was an important part of the process of training the yeuth to contend in the Olympic games; and in later times men of riper years, and of a nobler ambi-

nature, and obtain a saving interest in

the blood of Christ; and then God works in us to will and to do of his good Louisiana, June 14, 1851. To be continued.

For the N. 1). Christian Advocate "Every Day" Thoughts.

This subject was forcibly impressed the manner in which they should cheerye it. Not as the Phariupon my mind, a short time since, by known some few instances of the virtue perhaps their own swords will.

This subject was forcibly impressed themselves. This is cruel. We have them one perhaps their own swords will we are commending, which could not suffer wrong the remarks of a little girl who is not the

of the writer. We have heard our fathers tell of Methodists in their timeholy men, and piens women whose heards
were centiuually filled with the leve of
food-who fasted regularly every week.

The physiological effects of fasting
are very well understeod. It produces
sympathetic debility, which becomes
real if the fast is protracted. It reothers; hut into which scale will all strains all the functions of the body, this mighty weight he thrown? O; except absorption, which it promotes that parents would consider these things,

divine authority, it has the conditional merit of an act of obedience. It is therefore a suburdinate auxiliary agency, often necessary to be employed in working out our salvation. By practicing it we evidence the sincerity of our desires to escape the corruption of our fallen to escape the corruption of our fallen to escape the corruption of our fallen the sequently of the lips, go forth on their mission like foul fiends, to blast the reputative was in the judgment half at Jorusation and research of others. There is but then the prisoner will have become tion and peace of others. There is but lem. The prisoner will have become little hope of reforming the world in the judge, and the judge will have be-this respect, without first converting it come the prisoner. The howl of water to God; hut surely Christians, who pro- will not he found to have taken away fess to be chosen out of the world, and the guilt of an unrighteous sentence to be renewed in the spirit and temper to be renewed in the spirit and temper to their minds, should have some power in restraining the "unruly meinher," to excuse the delivery of him to cruci-

proclaim the failings of others to all but not live gut half their days,"

He was not a Jew.

3. His office. He is called in our English Bible, by Matthew, othe governor, aid by Luke, "the governor of luke," The covernor of luke," Judea." The Latin writers, following or plan, as if God had left this part in our duty out of the reach of sound judglt is not so clear what the office of procurator was, but all agree that he was derstanding of its that makes in its observation of the pulse, and its observation of grace. It is soluctimes spoken of as of grace. It is soluctimes spoken of as When the stomach has had sufficient School? Too true; but hefore you go to Syria and made one province, compared to the pulse, and diminishes the heat of the skin. When the stomach has had sufficient School? Too true; but hefore you go to Syria and made one province, compared to the pulse, and diminishes the heat of the skin. When the stomach has had sufficient school? Too true; but hefore you go to Syria and made one province, compared to the pulse, and diminishes the heat of the skin. When the stomach has had sufficient school? Too true; but hefore you go to Syria and made one province, compared to the pulse, and diminishes the heat of the skin. cessor to Valerius Gracehas, and held his affice under the emperor Tiberius.

ungovernable temper, obstinate and implacable. Ho seemed to glory is dis-playing his authority, and in wounding the feelings of those whom he ruled. He was avaricious and rapacions. He seized on the corban and devoted that sacred fund to the structure of an aque; duct. He "mingled the blood" of certain Galileans "with their sacrifices." The ears of the Roman emperor Tiborins had been filled with complaints concerning him, before the matter of our Saviour was brought before him. This will account for his adjudging our Lord to death. He knew "that it was for envy the chief priests had delivered him." Thrice did he ask the question, "Why " should I condemn him?" What evil hath he done?" Thrice did he say, " I find no fault in him." He had been warned by his wife not to condemn him. When he heard that Christ "made himself the Sen of God, he was the more afraid." Yet he con-demned him. And why? Because he hoped to allay the violence of the com-plaints made by the Jows against him to Tiberius. The Jews continually put their plea on the ground that if Pilate let Jesus go, Tiberius would have just self, a king; and so "Pilate, villing to content the people, released Barahbas unto them, and delivered Jesus to be erucified." Pilate had already brought

and presenting the during member, to excuse the delivery of him to erued and present to others the example of speaking well of others, or, at least, in holding their peace. Every one has his low short a time did Pilate triumph. imperfections, and in the conduct of the "When the wicked spring as the grass. hest there will be occasional faults, and when all the workers of iniquity do

will bring all right. 'Eeel: 5: 8, 3. "Bloody and descriful men shall themselves. This is cruel. We have swerd of an eveny take them not away,

Joseph Control of the could not sufficiently a serior of the control of the control of the could not sufficiently as the control of the control of the could not sufficiently as the could not sufficiently as the could not sufficiently as the could not sufficiently suf

uniformly in its favor:

With those who desire to be hence erwise even Salbath passes by and the est with themselves, this may cen chule the argument for its necessity. If the processity is a pray; but when did they hear him of a holy life, we should imitate the cenduct of holy men, and use the leves his children—he would make the Arostle's Croed.

There is an unitation of the leves his children—he would make the Arostle's Croed.

There is an unitation of the leves his children—he would make the Arostle's Croed.

There is an unitation of the leves his children—he would make the Arostle's Croed.

There is an unitation of the leves his children—he would make the Arostle's Croed.

There is an unitation of the leves his children in the leves his many which they did not expect, they are the many which they did not expect, they are all times in the gospils, thrice in the leves his children in the leves his many which they did not expect. The leves which they did not expect, they are all times in the leves his many in the leves his many thing occur.

The could be a could be a could be a could be a co To revive a practice which is falling into disuse in our Church, and to correct some erreneous views which have believed in regard to it, by a portion of a holy life, we should mittate the can be some of the most requisite in its observance.

They revise a practice which is falling in regard to it, by a portion of a holy life, we should mittate the conduct of holy men, and use that have helped them to some of the most important conditions requisite in its observance.

They revise a practice which is falling in the many and interest which is sufficiently be asset of the most of a holy life, we should mittate the conduct of holy men, and use the helped them to their high and favored position; and it some sections of cure country Pasting is some sections of cure country. Pasting is practiced by a portion of intermistors, and has been ridically baaished from the Church. The subject is nother preached, nor practiced by a portion of our ministors, and has been ridically interest which is falling in the conditions of the will pay the preacher, and may in committee and imperfect expring the conditions of the writer. We have heard our factor of the writer. We have heard our factor of the writer when did they hear him times in the gospiels, thrice in the lines then the conditions to pray; but when did they hear him to pray; but when did they hear him to pray; but when did they hear him times in the gospiels, thrice in the look.

If we seek the honors and rewards lift his voice in humble supplications, and to proceed the Apostle's Creed. There is an unture the conditions of a holy life, we should make to doe.

If men should go to work playing the Apostle's Creed. There is an unture the conditions of a holy life, we should not expect, they doe of a holy life, we should make the leves his children—he would at the trial of Christ. Let these things are doing a play one thing should be done rather than another.

1. It is name, Pontius, was his family name, or, as we say, his sirname. Picate was his given name, and was increased to distinguish him from other than the work of the prometing, revivals of religion is one that the work of the prometing, revivals of religion is one that the upper part of his head and his leave the upper part of his head and his hopelessly into debt.

The fiving haman bedy is a very little lighter than water. If a person stands never seem to suppose that the work of prometing, revivals of religion is one that remires study, and thought, and leave the upper part of his head and his hopelessly into debt. tended to distinguish him from other inquibers of the lamily of Pontins.

2. His country. He was by birth a Roman. His ancestors were among the old Romans, and were distinguished. He was not a Jew. nothing, because they are attempting nothing; and if they ever do awake, go headlong to work, without any system

In nowise! How broad is the door of welcome! "God," says a holy writer, his eyes, and extreme fervor in his sonl, beseeching the sinner to be saved.". He is office under the emperor Tiberius.

4. His character. lle was a man of ungrateful wanderer could stammer forth through penitential tears, the confession of his sins, the arms of mercy were around him. The prodigal thought of no more than a menial's place; the father had in readiness the best robe and the fatted calf. There is no such argument for our turning to God as his turning to-us. He has the word in the avertures of merey. He refuses none, he welcomes all; the poor, the wretched. the hlind, the uaked, the burdened, the heavy-laden; the hardened sinner, the aged sinner, the daring sinner, the dying sinner—all are invited to the conference: "Gome, now, and let us reason together." The most parched tongue that laps the streams from the smitten rock, has everlasting life. When we forgive, it costs an effort; "when God the content of the water, so that the water to the body may cause the gases to expand his strong fortress, surrounding him on the body may cause the gases to expand either than water, and the content of the water to the body may cause the gases to expand either than water, and the content of the water to the body may cause the gases to expand every side. Happy the soul that and thus rise. There is adequate reading the content of the water to the water to the body may cause the gases to expand every side. Happy the soul that and the content of the water to the body may cause the gases to expand every side. Happy the soul that and the content of the water to the body may cause the gases to expand every side. Happy the soul that and the content of the water to the body may cause the gases to expand every side. Happy the soul that and the content of the body may cause the gases to expand every side. Happy the soul that and the content of the body may cause the gases to expand every side. Happy the soul that and the content of the body may cause the gases to expand every side. Happy the soul that and the content of the body may cause the gases to expand every side. Happy the soul that and the content of the body may cause the part of the water to the body may cause the gases to expand every side. Happy the soul that the body may cause the part of the water to the body may cause the gases to expand every side. Happy the soul that the body may cause the gases to expand the strength of the body may cause the gases to expand the body may cause the body may cause the gases to expand the body may cause the gase forgive, it costs an effort: "when God forgives, it is his delight." From the hattlements of Heaven he is ealling after invitations? Have you gone, just as ture's garments, standing in your own nothingness, feeling that you are iusol: for not till several days have clapsed. vent, that von have "nothing to ner" already a bankrupt, and the debt always increasing? > DEFINITION OF A YANKEE. - As the Yankees are creating no little excitement in the commercial, political and military world, we give the definition of a genuine male Yankee, that may not be considered amiss.

A real genuino-Yankee is full of auimation, checked by moderation, guided hy determination, and supported by edugation.

He has veneration, corrected by toleration, with a love of self-approbation and emulation, and, when reduced to a state of aggravation; can assume the most profound dissimulation, for the purpose of relation, always combined, if began with as small a stock of sermons

to entitle is a lover of piety, propriety; not to convince and the temperance society.

The is a hustling, bragging, striving; work of preaching, the clergyman dithriving, swopping, jostling, hustling, vided it into two, which he preached wrestling, musical, quizzieal, astronomic morning and evening to his congrega-

Presbyterlan. why one thing is better than another, thinks.

Raising of Drowned Persons,

Why Fire Cannon or Guns to Ruise a Drouened Body to the Surface ! .... Owe no man any thing." Rom. siit. 8. This question is often repeated. There is a rational answer to he given to it. This practice is not merely ridieulous, like that of throwing a loaf of bread, or some mercury, into the water to cause a dead hody to float, and thus

is heavior than water, the cavities of the holy, as lungs, stomach, etc., being filled with air, the body, as a whole, is then lighter, and thus floats. In drowning, these cavities are filled with water, and most of the air is expelled from them, Honco the hody now becomes heavier to mock him, saying. This man began to build, and was not able to finish, Perhaps, also, there is a slight coutraction of the fleshy parts, by which the effect is aided. Certain it is, the drowned body goes to the hottom, becanse it is heavier than water.

When the water is cold, no chemical change takes place in the drowned body, or so little, that it will lipat the bottom through a winter, and not float till spring. This fact often occurs when drowning happens late in the autumn,

or in winter.

With sufficient warmth, chemical changes take place in the hody, and gases are evolved; the body swells, and becomes light enough to float. The strength of the muscles and integuments prevent the rapid enlargement of the body. Any force which shall operate on the hody, makes the parts give way und the enlargement more rapid.

'An easy force to be applied, is the firing of caunon, or heavy guns, near the water and the bedy, or directly upon the surface of the water, so that the

have pleasure in their own death. He declares, "I have none." My soul, hast thou yet closed with the Gospel's free thut the fring of same the third or thut the firing of cannou the third or you are, with all the raggedness of na- fourth day produces the desired result; when it failed on the first and second,

leaves in a sheet, and correspond to the ciled God and Rather in Heaven, you leaves, not to the pages, which a sheet unay even this night-say, "I will both contains. Take a sheet of a given size, lay me dewn in peace and sleep, for say a medium, and give it one fold, like thou, Lord, only makest me to dwell in a common newspaper, and you have a a common newspaper, and you have a wisely we judge in temporal than in a common newspaper, and you have a folio, with two leaves; give it another, and you have a quarto, (4to.) with four leaves; give it auother fold, and you have an octavo, (8vo.) or eight leaves, and so on. By another mode of folding to nothing; he will not succeed in being any thing. Waknow your well that you obtain a 12mo, 24mo, etc.; and by another again, an 18mo., 36mo., etc.

These figures and letters, though abbreviations of Letters, though abbreviations of Letters. viations of Latin words, ure ordinarily, in these days, turned into rather barbarous English by printers, publishers and booksellers, for the sake of brevity. Thus they say a twelve-mo, a twentyfour-mo, a forty; eight mo, instead of a men of the world. duodecimo, etc.

WINTEFIELD'S FIRST SERMONS, Ile

possible, with speculation.

A real Yankee, just caught, will be intention to have prepared at loast one found not delicient in the following ministry. He found himself with only He is self-denying, self-relying, always one: it provod a fruitless one; for havtrying, and into every thing prying ing lent it to a neighboring elergyman. He is a lover of piety, propriety, no- to convince him how unfit he was, as he wrestling, musical, quizzieal, astronomical, philosophical, poetical and comical sort of a character, whose manifest destinates the second of a character, whose manifest destinates a comment of the carth, with an eyo damays on the look-out for the main ohance.

The Pool Sixner—"The world, the flesh unit the devil—have drawn your away from God; and you flatter yourself that thoy will treat you very land, somely. You think yourself their guest. Behold! the heard is spread. Sit down, poor fool, to the poisoned viands! Drink eheerfully of that our of death! Sing and he more y; for you have broken out of the hand of your Saviour, and there is as little purity in hell as 'yourself could desire."

INTRODUCTION. Debts are bad things, SUBJECT. Meeting-house debts!! tst. They are quito to common.

without getting sadly into debt."

THE SENSE OF DEPENDENCE. That reliant feeling which takes hold of god by hanging upon his promises, is a sure pledge of prosperity. It has such assurances as cannot be broken. The faithfulness of Ged has come under bonds to it. The divine promises are so many bonds which God, of his infinite and adorable cundescension, has executed in its favor. These bonds are signed, scaled, witnessed, delivered and recorded. The prayer of faith is the suing out of these bonds, and with the bring. ing of such suits God himself is right well pleased. His omnipotence, in a manner, hecomes subservient to this feeling of confiding dependence; and it is certain to obtain mercies ever exceed-ing its utmost desires. He who most entirely and cordially depends on God, stands the nearest to God of any being in the universe. He stands, if we may

HUMAN NATURE .- Whoever wrote the ately upon the drowning, nor until the following had read one page of the book die?" He seems to wonder if sinners circumstances have taken place, already of the human heart to some purpose: following had read one page of the book

rentioned, and have prepared the body in the more rapidly enlarged by the inuence of the explosion. Hence it is not the firing of cannou the third or buth day produces the desired result, then it failed on the first and second, renot till several days have clapsed.

The Vo's and the Mo's.

Every reader of a newspaper in which books are noticed, frequently meets with the process and the more who set no value on such included things. Trifles they may be; but it is

PRAVER.—Praying frequently helps to praying fervently. Be assured, it is better to wander in prayer, than to wander from it.

"OF TWO EVILS CHOOSE THE LEAST." This short phrase has grown to the dignity of a maxim, but be careful how you use it: in morals it should never be quoted. Of two physical evils, you may choose the least; of two moral evils,

BATURDAY, JUNE 91, 1851.

Episcopal Notice. Dear Bro McTwire-I wish the Pre-aiding Elders in the South West Conferences to know that it is highly prebable we shall change the times of holding some of their Conferences, in order that Bishop Andrew and myself may be enabled to supply Bishep Capers' work. They would de well te close up their work, or to make arrangements to do so

as early as the interest of their charges I expect shortly to be fully informed of the state of Bishop C.'s health, and of the labor he can probably perform, if any, and also the views of Bishop Andrew in reference to Andrew in reference to a new arrangement of the work; and should it be found necessary to do so, we will shortly announce the result.

Yours truly, Aberdeen, Miss., June 13; 1851.

Upon the recommendation of the Court for a settlement of claims by tho parties themselves, the Northern Christian Advocate, (Anburn, N. Y.,) after ably, freshly, and net at second-hand. remarking that the language of the Court was "rather ominons of an unfavorable issue on the part of the North,"

"However much might be gained hy a co. promise, we knew of no one who is anthorized to take such a step. Tho Book Agents have no authority in the premises, and things must remain as they are till the next General Conferthey are till the next General Contercase, except so far as the property
which they have in possession may be
altered by course of law. We are glad
it is so, for if the property must go to
seceders, lot it go by force of law, and
not by a dishonorable compromise."

But the statement of the Ch. Advocate and Jonrnal, of June 5, is of more importance in this matter : it holds this

"It is a fact which will, no doubt, be regarded of great importance, that, un-der this recommendation, the Book Agents of New York and Cincinnati are brought to a point from which they are authorised, by the General Conferto, to effer a settlement of the ease by arbitration. In the plan for a pacific' settlement of the 'matters in dispute' between the Methodist Episcopal Church and the Methodist Episco-pal Church South, adopted at the General Conference of 1848, is found the

2. Resolved, That should the Agents ind, upon taking such legal counsol, that they have not the power to submit the case to voluntary arbitration, and should a suit at law be commonced by the Commissioners of the Methodist Episcopal Church Sonth, said Agents in hereby authorized, then and in that was, to tender to said Commissioners an adjustment of their preserved claims by a lag-1 aroutration, under the authority of the Court.

"We are advised that, under the autherity given by this resolution, the have resolved, without unnecessary delay, to offer to settle the claims of the ethodist Episcopal Church Sonth, in the mode contemplated in this resoluwe are not able to say."

Dr. Smith, in writing to the 8. C. Ad vocate, June 2, states the recommendation of the Cenrt, and adds:

"Without the least hesitation, I imthe defendants, in which I fully open the way for them to embrace, without embarrassment, the kind effer of the Court, to settle a just claim in a way much more oreditable to them, as it was evidently much mere agreeable to the Christian feelings of the Court, than by the adversary measures then in a process of fulfilment. I did not deem it at all important, in view of the plenary authority conferred on me in the management of this case, to dolay this members of the commissions—farther than to take the connsel of Dr. Early, who was at hand, and fully concurred.

I felt so entirely assured of their readiness, and indeed great anxiety, as well.

as the anxiety of the whole Southern Church, and I believe a large majority the ministers, and a very large macity of the lay membership of the burch North, to settle this contro-cy in an amicable way, that I did not sitate a moment.

"Considering the broad authority ven to the Northern Agents to settle ming to Christian men, and the pernoy of the settlement when made, being confirmed by decree of the court,) and that it will end an unseemly and harrassing controversy between the Courts of the country, I really think there is good reason to assure myself that the defendants will cheerfully avail themselves of the opportunity afforded em. I await the results of this "peace measure" with that solicitude which a sincere desire for a speedy and good understanding between the par-ties could not fail to inspire."

Thus we trust the matter will be brought to an end. We find in the Northern pipers no indisposition to quoted. Our friends South must net raise their hopes for abundant 'oash,' iu dollars and centa. Much of their share (if still they get any) of the Book Concern will be returned in the shape of old and dead stock.

HOE NOTICES.-These are crowded out for this week-will appear next.

An ardent sensibility to the imprescompanied with a generous oblivion of the little imperfections with which they are joined, is one of the surest iudica-tions of a superior character. as of a superior character.

### Foreign Correspondence.

We lay before our readers this week the first of a series of letters from the British Isle. The writer, as will be seen hy a perusal of his interesting and instructive letter, is no novice with the pen. Ho is a Wesleyan preacher, intimately conversant with Weslevan af-Tairs, of high connection with that hedy and well known to the English periodioal press Such a correspondent we have sought, with the best references, to secure, and we assure the readers and patrons of the NewOrleans Christian Advocate that he has been secured at no trifling expense. But this eash outlay has been made with the expectation that, on their part, it will be fully appreciated and promptly met by an increasing cash subscription list. Will they do it?

To keep abreast of the political and religious mevements of the age, requires that we should know what is deing en the other side of the world. There the elements of social, moral and literary progress and reform are in most activo and vigorous operation. We design, if they will co-operate with us, to keep our readers informed of these things reli-The late steamship achievements have made the Old and New Worlds near neighbors. Each feels an increasing nterest in the other's affairs, as the force of reciprocal influences and the facilities for intor-communication are inereased. The bonds of universal brotherhood are being drawn closer. A turnpiko-way is being east up between the ends of the earth," for the easy and quick passage of the messengers of Christianity. Men begin to understand each other, and then they will feel mutual sympathy and love. To bring shout this general acqusintauce, and good understanding, and universal sympathy, at home and abroad, is one of the highest duties of the press. We feel it so, and trust our readers, and our partleular friends, the traveling preachers, (agents) will concur, and help us to do this thing. Let them respond as they know how to respond.

We expect our Paris correspondent e centinue the communications which miniscences of a few first impressions of latest datos.

## The Welcome of "Transfers."

Mr. Editor-Very recently I have earned, through a minister of intelleo Conference is netorious for treating ransfers and visitors from other Conces with a disrespect amounting to the veriest centempt. Such conduct, if true, would reflect discredit, not upon God's ministers only, but would blot the good character of the merest civilian. But mark you, I do not oredit these statements for two reasons; first, it is not consistent with the spirit and callpresent at your Annual Cenfereness, and never witnessed any such spirit among you. But I will add a few que-

ries, then submit the question.

I. If it be true that God's Church is been endured, to be received coldly hy subject to impositions by intruders, these to whom they go, and to be looked vhe seek to be "at ease in Zien." that such invariably "think more highly of themselves than they ought to think; how is your Conference protected, that it should be free from such imposition? -2. If the Louisiana Conforence is subject to impositions by those who wish

to sit upon the topmast and mau the mainsail, without ascending by the proper and censistent means, may she not have been uiscopresented with regard to her ungenerous and unchristian con-

My experience is, that it is exceeding difficult to keep disappointed ambition in the way of charity, and when unre-strained by grace, it drives the poor man far far beyond the truth.

Such being the case, is it imprebable that some eager aspirant has heeu among you, who came unto you weighed dewn with self importance, and strug-gling with desire to get the first and best appointments; and failing of success, may he not have deserted his post, with head and tsil up, like a scared herse, and by a single snort threw his detestable slander upon you? If a man's brain become addled by the infincuce and feverish gnawing of disap-pointment, is it improbable that he will talk foolishness, or circulate absurdi. A closer inspection, however, dissipates ties? And while the poor sufferer is this suspicion: they are clearly unknown fleuncing and writhing in the fire and smeke of wounded pride, may not publie sympathy bo excited, and many

With these statements and queries, I will add, if you have time and inclinatien to throw any light upon the public eye, touching this thing; which I believe to be false, it will greatly relieve the feelings of many, and be very acceptable to an ... ITINERANT.

brethreu, through lack of correct infor

l'ichaburg, June 12, 1851. light," but will make his article an occasion for saying something ou the general subject he introduces.

Transfer" is a part of the Itinerant hearts filled with pity and leve they came to our reseue. They were seldiers as changing from circuit to circuit. As who had gained renown in other fields try under the working of mich and we, in the simplicity of eur hearts, believed their declaration, that they try, under the working of such a syst came to identify themselves with us, and tem, tend to proper diffusion all over the we expected them to stand by us in our land. The weak are made streng, hard campaigns, and that together we hard campaigns, and that together we would rejoice in victory. But great was where it can best be spared, and the

Episcopacy, of changing a preacher from Conference to Conference, even withent asking his censent; hut fer eb-viens reasens this pewer is seldom or crewn the first year after he came.

"Tracefer" is a very practical part of our system. How many preachers n any of the Southern Cenferences begun their itinerant career where they opposed to transfers who will come to now are? Seme have been through several. Each change was made by fellowing up a Providential opening, and perhaps was not anticipated by a year's forceast. God led them by a way they knew not of. After each transfer they may have felt identified with the interests of the Conference to which they had come, and expected to romain there. But viewing the past, they dare not say paster-for the last two weeks. Con eifie Cenferencel . . .

Transfers are easily made in our economy, are a part of its great idea, and they are beneficial in several other respeets beyond what has been mentioued.

They keep up a general interest in the work at large. The ministry pass- believe that the whole land was full of attachments. The entire connection is be mortified if we were to let their conembraced in their schemes and affee- gregations into the secret of their temtions and sympathies, and no particular tions and Districts, but even the widor They may truly say-

"No pent up Utica contracts out powers."
The whole boundloss continent is ours." Again: The interchange of membars between Annual Conferences, as legislative bodies, has a happy effect in promoting uniformity of administratieu, as well as an all pervading connectional sympathy. Old party cliquos, into which oven preachors sometimes have given such entertainment hitherto. get unfortunately knotted up; are thus After indulging a look-around, and re quietly dissolved. Abuses that would pass on unobserved by those among an American, ho will bring down his whom they originated, are readily deobservations of men and things to the teoted by a new comer. How often from such a ono do we hear such as this: "Thoy don't do things so in Tennessee ; ' or, "That is not our usage in Mississippin The result is either strict conformity of action to the precedents

should, therefore, not be obstructed. "Transfers" who are transferred indeed, to the common lot of their hrethren, to take the rough and the smooth as they rise, should be welcomed. They transfer at no small oost. . Their eld and pleasant associations are sundered for ing of the ministers of God, whose min-strangers. The standing to which those isters ye aro; and second, I have been who knew their labors and worth for

urged, or the showing of a sufficient

Perhaps in the 'Pa- converted, and there are many mourners giving overy evidence of oarnestness.

### Scolding.

This is part of an Editor's perqui sites-not to scold, but to be scolded. For the first two months of our experienco in this line, we were tempted to in from one Conference to another scales Some of our good friends and cannot form strong and hurtful local first-rate agents-the preachers-would per. They can't oven change the direcsection is helped forward or legislated tion of the paper mildly, but must storm fer at the projudice, or in total forget at the Editor a little. One good brofulness, of other sections. There is no ther, two weeks ago, wrote himself up tellieg hew soon one may be a member inte such a rage because the paper was of this or that Conference. Thus Methodist preachers break through the narmail-book, that he forgot to sign his and which is bisected by the Western row limits, not only of Circuits and Stal name. He enclosed a sum of money, but did not say to what subscribers it ones of Annual Conferences themselves, was to be credited. We compared the hand writing with various specimens in

Latoly, an agent wrote (an excellent agont he is, too,) that the names on the euvelopes of tho "Advocate" received at a certain Post-office word so badly written the subscribers had to beg them of the Post-master as a psrsonal favor. on the assurance from him (the proacher) that they were subscribers. This is indoed a sad state of things, but we are not to blame for it. If he could see the original list sent, he would think the paper had done smartly even to find its way into the neighborhood of the subserlbers. What the agent calls bad writing was not bad hut equivocal writing. It was intended to be equivocal. The mail elerk has standing instructions, in such cases, to hit the large etters in the doubtful name, if he can, and leave it to the discriminating Postmaster to make out the small ones, if

Now the way to avoid all this confusion is to write the name of the subscriber with OAREFUL DISTINCTESS; 80, likewise, his Pest-office. The paper then will go straight forward to the place and mineral wealth of the Alleghanies and the man.

We do not wish any to be slow in correcting errors. Under the best arrangements they will occur, and the sey, is prehably the largest ever seen—soener corrected the better. It is and its chemical extracts, the Anthrareally delightful to fall upon such a past cite ceal-these earthy and metallic sage as this in a business lotter. We find it in one sent by Rev. C. D. O., some time since, onelosing a handsome leys of your splendid territory—these remittance: "Bro. A. H. says he has things are of more worth to you and to paid for his paper, but never gets it. He takes it Christianly." Now that is the way to take such things. The implements, too, attract a great deal of attantion. I way some intelligent over wrong was ferthwith sot right, and we attention. I saw some intelligent, esrtrust A. H. will continue to receive the nest, sturdy looking countrymen exam-NewOffeans Christian Advocate for ining the reaping machines of Maryland with looks half of pleasure and wender, many, many years.

THE USE OF FLOWERS. . BY MARY HOWITT God might have made the earth bring forth Enough for great and small, The oak-tree and the cedar-tree, Without a Rower at all.

The ore within the mountain mine Requireth note to grow, Nor doth it need the lotus flower To make the river flow. The clouds might give abundant rain, The nightly dews might fall, And the herb that keepeth life in man Might yer have drunk them all.

Then, wherefore, wherefore were they made, All died in rainbow-light; All fashioned with supremest grace, Upspringing day and night; Springing in valleys, green and low,
And on the mountains high,
And in the silent wilderness,
Where no man passes by !

Our outward life requires them not— Then wherefore have they birth? To minister delight to man, To heautify the earth: To comfort man—to whisper hope, Whene'er his faith is dim; For whose careth for the flowers; Will much more care for him!

### London Correspondence.

It may be doubted whether a very great abundance of topics is an advan tage or disadvautage to a correspondent. Having te send my first communication at a season when matters of interestseveral of them of surpassing interestpress upon one's attention on every ide, it would seem as though I mus either leave seine of these subjects uneuched, or treat them, at least, wit disprepertionate slightness and brevity, or else make the whole letter as cart and dry as-a catalogue.

Of course the first and mest abserb

ing subject of interest is the Great Ex-hibition. Wherever you go, you see ladies and gentlemen burdened with the synepsis and the official catalogue of stance, contributes a machino for emthe Exhibition-erewded 'busses, with | bellishing books. Exhibition" inscribed upon them, in All the world now confesses that the great capitals, driving to and fre, whilst: a constant stream of eabs and carriages, during the first two-thirds of the day, they will never transfer again—this gregations have not been in the meeting is is plying westward. Every where the would be breaking loose from that Previous energy night. The meeting is Exhibition is the topic of convergation would be breaking loose from that Previous energy in the loop in the loop is the successive of the loop in the loop in the loop in the loop is the loop in the loop numbers of the Illustrated London News ari filled with excellent enginess of the choicest objects exhibited in the departments of the fine and manufactures, while the daily papers devete a large space continually to descriptions and criticisms, some of them in French and German, as well as English, of the contents of the Fairy Palace. And well, indeed, is this great Crys-

tal Conservatory of minerals, manufac-South End, you come underneath the yast and lofty transparent transept, vigorously, and living fountains playing, while the human tide is hurrying and eddying to and fro, and over all the bright May sky expands. You find yourself in a hall, ornamented and ennobled by the cheicest British sculptures. Advancing to the center, to your and which is bisected by the Main Avenue, commencing from your central standing point. To your right is the foreign half, and similarly divided by the uave, or Eastern Main Avenue, the office, and guessed our way out of at the extremity of which, and in the the difficulty—if indeed we are out of it.

The county wrote far availant hibition territory claimed by the United States. On your passage down to this space, sculptures and casts, seme the most exquisite in sentiment and work-manship, and some colossal and majestic iu a high degree—chandeliers, candelabra, bijouterie, from France, Italy and Germany-arrest your admiration at every step, whilst, if you turn aside into the rooms or compartments to tho right and left, you are notless delighted with the beautiful manufactures er rich specimens of mineral wealth which meet you there. The ornamental taste and artistic ingenuity of France, and the elegant works of Italy, the graceful embroidery of Greece, the skilled industry of the Zellverein, the mineral treasures and premising manufacturing essays of Russia—such displays as these fill the ground-space of the eastern wing until you reach the territory of the States surmounted and indiested by the Ame rican eaglo. Hero are to he secu the samples of the staple wealth, or sources of wealth, which belong to the great empire of the Western World, and which have contributed so much to make

her great. Very little is there hore of ornamental work—utility, net show, is the character of what is exhibited. But the the Rocky Mountains, as shown here in samples—the remarkably pure and rich ores of iron and plumhage—the zinq ore-one mass of which, from New Jeraud half of suspicion and keen dislike Certainly in regard to the application of mechanism to agriculture, America is, in some particulars, considerably in advance of Britain.

New York has centributed some highly finished specimons of carriages, and of cahinet work, particularly; in the lattor kind, a double grand piano. Colt's re-volvers attract a great deal of attention, particularly since the Times wrote an article about them, describing their peculiar merits, and recommending Government to treble the efficiency of thoir cavalry, and to cut short the work of war hy omploying them in South Africa against the Caffres.

I should not wonder if the display of yeur useful and ornamental woods should lead to some demand for them on this side the water. Your furs, also, especially the Victoria boas and gauntlets from South Carolina, attract, great attention. So de yeur very varieus, ingenions, and useful adaptations ef India rubber to almost every conceivable service.

The objects, however, which attract most attention of all in the American department, are undoubtedly two pieces of seulpture-the well-known Grock slave, and Stephenson's wounded Instant, gives a glowing account of the late dian. Certainly, both are first rate works of art. The Greek slave seems to he the greatost favorito, hut I must which it is located. Rev. C. F. Deems and Indian. Never was there a more felicitous, or a truer embediment of a fine conception. Se that your works of art, though few, yet contain specimens of the highest order.

the new and fine buildings the Trustees handsome classical heads than those of tribes under pasteral charge of the wisser about adding to the present edifice.

com to have been contributed; from

New Orleans I can find nothing.

Of the British pertion of the build ing I will not protend to give you any outline. In artistic mannfactures Staffordshire, both in porcelain and bronze intercourse with these where do not every way and to the uttermost, or vres, Belgium, or the Zollverein. besutiful serpentine vases, and other specimens from Cornwall, are an attractive novelty. The spleuder of the Indian jewelry and fabries is surpassing. cially the machinery of all kinds in mo tion, must be seen, heard, and minutely examined, to be properly appreciated. By-the-bye, in the machine department there are a few highly meritorious sam-ples, not British. New York, for in-

Great Exhibition is a great success, both pecuniarily and in every othe Old fashioned fears and preju WAY. dices are now silenced—aristocratic axclusiveness is charmed—and the utmost expectations of all, whether British or foreigners, are more than satisfied.

On Monday last the price of admission was lowered frem five shillings to one shilling. Every body, therefore, expected a terrible crush, and nerveus people feared the building would give way. However, it turned out, because overy body expected every bedy to he there, in fact there was scarcely any body. No day, since the opening, had there been nearly so few. On Tuesday tures, arts and implements of science, more attended, yet net nearly so many called the Pairey Palace. Entering at the as could be easily accommodated. Wed nesday the place was well filled, but hardly orowded. Yesterday the crowd was great, and very mixed. day next, the 2d of June; the cheap trains will have begun to run, and then we shall see what we shall see.

Thore are now a great many foreigners in London, especially Frenchmen. Most of these have arrived within the week. It is supposed that London holds, or will soon hold, 300,000 of the French National Guard, besides other foreigners of all descriptions-American Democrats and Continental Red Republicans, of course, included. Yet ne oue feels the slightest apprehension. Semuch for the Exhibition. Slightly as I have dealt with this topic, I have

still searcely left myself space to uotice The religious anniversaries are London's constant and ordinary attraction to all benevolent and goodly persons in the month which is just closing. These have been held, as usual, and notwithstanding theattractions and distractions of the Exhibition, have been as heartily and numerously attended as in former years. The Wesleyan Missionary Anniversary was a remarkably religious and impressive meeting. The income fer 1850-1851, however, though seme hundreds in advance of that for 1848 was some thousands below that for 1849 But the latter had heen largely augmented by special efforts. The total receipts fer the past year wore £104,ol 148 4d; the exponditures had been £113,767 3s 3d.
The Bible Society still works and ad-

vances nobly. The receipts for the year ending March 31, 1851; have been £103,330, being an increase upon the former year of nearly £12,000. The Society has issued, in the year, from its depots at heme and abroad, 1,137,617 cepies of the Scriptures. The oxcellent Lerd Ashley has succeeded Lord Boxley as President of this noble Institution. The Church Missionary Society, teo, has stepped out well the last year, the total receipts having been £112, 252 18s. 7d, an increase en last year of £7,979 11s. 9d. The Anniversary Meeting, also, was this year distin-guished by a remarkable absence of sectarian feeling and excuplification of Cathelie liberality. You are aware that the Church Missienary Society is predeminantly evangelical, whilst the Seciety for the prepagation of the Gospel—a society whose zeal and success of late years have beth been great—is pretended to touch, I have not a dominantly high-church and exclusive. The latter is closery connected with our ambitious colonial church Establishment, which has grown and consolidated during the last 30 years with wonder- haps, more powerful persuas

ful rapidity.

The third edition of the Ecclesiastial Titles Bill has been published in Psrliamont within the last fortnight. The progress of France in C It is now more to the purpose, and unere likely to be offective than before.

But owing to the unprincipled opposition tactics of the "Irish Brigade," account of the present position as tion tacties of the "Irish Brigade," account of the present position as headed by Mr. Reynolds, member for peets of British Methodism, or Dublin, and supported, alas! by the Earls of Arundel and Surrey, it has as yet made no material progress in com-

Mr. Lacy's Bill for the periodical visitation of convents and menasteries, was so inefficiently introduced and advecated by himself that it was lost on the second reading. Such a bill, hew-ever, the feeling of the country will continue to demand. The hands of our feeble Ministry are

further perplexed and weakened by tho war in Kaffraria. Majer Hogg and Mr. Owen have been sent out as com Kaffraria. Majer Hogg and missioners to set with Sir Harry Smith some say to act as a check upon his military fervor; others, to quash or forcelese any real investigation into the causes of the war. As to those causes, much difference of opinion prevails. The authorities and agents of the London Missionary Society try to make it appear that Sir Harry Smith has wronged the natives. On the other hand, the Times speaks of "Missionary agitation." The South African correspendent of the Watchman says emphat ically, that the Government has inflicted ne wrong whatever upon the natives but that political agitation among a half-reclaimed and partially Christau-ized people, who were taught to domand rights which they were not as yot fit to exerciso, has been at the bottom of th mischief. The discontent dates from rowded, even beyond the capacities of York, are remarkably fine, and more at the Cape, and originated among the above account, and add particulars Do the whole, however, the largo which I de net feel at liherty to publish space allotted to the States is undounted to the States is undounted than that

### . Special Notice." Southern Methodist Quarter

view.-As the books of this per up to the close of the 4th velam werk, have been retained at this with a view to a final adjustment arrearagos, it is therefore sarned quested of those who may be in to the concern, on account of the able publication, that such balan transmitted to us by mail, as es practicable. Should our bill warded to any of the subscribe have paid, in whele or in part, agents, they will please report facts, in all such cases.

E, STEVENBON, A Louisville, Ky., May 28, 1851.

ver."
At the last ulimed place, (Pleasant Hill,) we commenced a meeting out the 24th May, which was continued nine days—had but little ministerial ald, but it was the work of God, and He cerried It m that it was the withle result in forty-six acces-sions to the Church, and twenty-three conversions; In addition to which, maps who were before cold and indifferent to their duties have been revised, and are carriedly seeking for the old-public, and und are earn's ly seeking for the out puths; frint those who, in weakness and tears, have labored and payed for these things, have had their hearts. Switch with the product of veneral and the fulfillment of the product to those who "go forth weeping, bearing precious seed," that they shall doubtless return rejoicing, bringing their sheafs with there."

among the negroes during the last few weeks, reand soveral conversions, which joined in the work budly sangged at the mouth of the among the whites makes, during a mainth or twe River, has discharged all her freight: past, about one hundred accessions, and about onethird that number of conversions. Surely this is a great and gracious work, in view of which we. der and joy, to excluin, "The Lord both done great things for us, whereof we are glad."

even children, but they gave evidence sufficient to convince the most skeptical that they comprehend-

ed the mystery of religion; for I am happy to state that, though young, many of them were doubiless happily converted to God.

I have spoken of some of the visible results of this visitation of Carl; but who can tell the altive matum? Pupils of the Masonic Institute, from various sections of the Masonic Institute, from various sections of the pointry—different families, have been converted to God; and through the major the major through the pointry and the Postmaster General is actively engaged in perfecting the details of his department in reference theratir, and the Postmaster General is actively engaged in perfecting the details of his department in reference theratir, and the the cheap posting system may be cummenced in the most effective mensure. ved the event of this work. May there use go from the instantion at this place, heralds of the Cross who shall be instramental in enlling many, many sinters to repentance. Much praye has been offered that this regult might follow.

I have extended this commonication beyond the introded limit. A word or two in relation to this place, and the institution above referred to, and close. Pleasant Hall, which may scarcely be called a village, but the place of residence of five or six fundles, is situated near the sombern border.

These stamps will be commonication of une These stamps will be found to the monitorious of the regulations concerning the new postage stamps:

over the ground, in different stages of decay, cannot fail to attract attention.

The bark of all the apecies has a bitter taste, combined with a strong aromatic pungency. The aroma is probably owing to an essential oil. The dry bark ulso affords a little resin, and more of an extractive substance. As a medical article, Magnolia is to be considered an aromatic tonic. It has been used with success in intermittent fevers and chronic rheumatism.

Paul Jones.—Recently we mentioned the urders of our Government for bringing to America the aremains of this great equain, and the unsuccessful attempt to find them. The Lomiuu Times contains the following:

Sts—I notice from your paper of yesterday that the Americans have been insurpressed in the residence of the Paul Jones.—Recently makes the master and the Americans have been insurpressed in the following:

Sts—I notice from your paper of yesterday that the Americans have been insurpressed in the resident at Paris for the remains of the resionance.

In Alabama.—The Macon (Tuskegee, Ala.)

To the Editor of the London Times:

Sts-I notice from your paper of yesterday that the Americans have been unsuccessful in their search at Paris for the remains of the redonlantic ble Paul Jones. I think, had they examined the Strangers' Hurying Ground at Cronsadi, they would have met with more specess.

Sometime after his attempt to land here, he went to Russis, and get an appointment in the Russian-may; but, inconsequence of the remonstrances of the other offliers in the fleet, he had to resign, and was allowed a small pension by the Empress. He shortly after died, and was furried as above stated. I have often seen the stone which was erected over his grave.

Leith, May 23.

Never, says the Alta California, has an horrible rength, but all or a needen the nome in which it ginated, the American House, and a furniture re, became chyeloped in Sames. The wind, such at first bless anoderately, soon increased to force of a hurricaba... The first angites were

Prices of merchandre, which were very low before the fire, auddealy were quietnpled, and reets rese is the many praperties.

The house of Burgeyee & Co., after the fire, found \$1,300,000 as an their own chest.

The employees in the Custom-house saved all the funds that it contained, amounting to a million of dollars, by thrawing them into a well.

Among the huidings destroyed were the Custom-house, Union Relei, Parker House, Adelphi thestee the Lawrence Museum Hotel.

then house, Union Helel, Parker Heuse, Adelphi theatre, the Dramatia Museum, National Hotel, New World Hassi, City Hatel, Dalmonico Hotel, Marchanta' Enchange, the Ross building, Ameri-can Hotel, Revere House, the office of the Steam-ship Company of

me and be said that the fire in San Fraccisco was caused by the negligence of the people in the paint thep; but the owners, Mesers. Baler & Mesers, the published a card, in which they declare that there was no light in their hence which could have originated the fire. It was therefore generally believed that this fire also was caused by deepen.

time to frustrate it.

It is also atsted that, a few days before the fire, a person went to a merchant of Sax Frincisco and tell him that if he had any goods he wanted to preserve he had better send them out of the city, as, the night of the 3d of May, there would be a great fire, to celebrate the anciversary of the configuration of lest year.

The Ban Francisco Horald, with extraordinary enterprise, had re appeared. A copy of it contains that of sufferers, and the amount of their Iossen.

That must necessarily contain many errors.

That must necessarily contain many errors, and the compilation of it must have been a work of some labor.

mphic description of the secan :
To one capable for a little while of diventimodel of his sympathion, the ternado of fire with The same capable for a little while of diversing placed of the white of the sympathics, the tornado of firs which as a seeke of more beauty, grandeur, terror and sublimity, probably; than any other, every which has transpired in any national diversity of the seekers of the se

which is supply from

arrest wither and well placed confidence in the zertions of our gallent philadhropists, the firement ould have saved the city, she would now be suasd-ag like a brida in her lovelisess, instead of the

utes, they too, were wanterers in the accept, henselesa, hemselesa, henselesa, henselesa, stripped of everythlag—in bundreda of casea not saving a salt of diothes.

As the first faint hope of stopping the flames at the piace of erigin died out, the city's terrishe dimpending fate became mare and, more manifest. Yet na man'a mind enald anticipate in its fall extent the ecope and completeness of the rule. The wind, which was blowing fresh from the northwest when the first commenced, soon lactessed whirllwinds around the flaming pilea, the hosted sity loaded with smoke and cinders and flames, rushing up towards heaven, orackling end roaring like a tornado, while fresh goats and gales came whirling in from every side to fill the melting vacaum with new ministers of destruction. The view was sad, afflictive, awful. Great masses of smoke ascended and rolled away loaded with the westlind from the wards of toil and danger, bearing for above the city great flocks and sheets of hurning oinders, and forming huge clouds—touched with awary intil from houses saded sway like time, works. The hasantin bear white light to the darkness of night. Frame houses saded sway like time, works. The hasantin a few moments. Brick houses hecame batteried of fismes, and poured forth immense jets from their windows and toors.

Iron and zinc curled up like secreted leaves, and sent forth their brilllant flames of green, hitse and yellow tints, mingling with and modifying the great red tongees of fire which flashed upwards from a thourand burning houses. The hill sides were lighted as if the sun were above the enstein mountains, and their trees, shrubs, herbage and hanses, were as distinguishable in the bright light is sif it were toon. Darkness hang over a large portion of the shipping, where the broad and heavy occan of smoke lay down in impenetrable gloom. Over the twee tooks of goads, on portions of them, four or five times, and had them overtaken and featuoyed by the flames at last. The streets were canned with masses and had them overtak

Indianola.—We learn that there were ten vesselying in Matagorda Bey, bound for Atlantic port Indianole is improving, and the trade of that see that is evidently concentrating at that point. For large stores (new) were finished last month, an immediately filled with goods. Salinarch's trace.

Communication with NewOrleans.—The Journal was congrammating its friends on the evidence of lucreasing trade with NewOrleans, in the fact that a steamehip left New Orleans for Galveston every day of last week. The Journal remarks on this: are suffering saverely for want of rein.

Farther from Taxas. Harrisburgh Rail Road .- The entire survey Harrisburgh Rail Road.—The entire survey of this rond is completed to the point where it is to strike the Brazog timber, and then up the river as far as Gaston's point. The whole distance to Gaston's point is 332 miles. There are no phatructions from any cause in this distance. The engineer has done this work promptly and well. The company have engaged for this road the very hest English. The company have engaged for this road the very hest English. tha grading etc., have commenced. The comple-tion of the road will facilitate and increase the busi-

Sheriff was to provide him with a fieet hirse and arms; he was released from the jail and proceeded to the place of deposition-company with the Sheriff, and the money was disintered. The thief was then re-created, and unless he finds some other means of each pe, will doubtless go to the peniterlisty for his pains. The Western Texan doubts the propriety of the Sheriff's course in the matter."

figure, in my last, the particulars of a serious quarrel between some French and Roman soldiers; and slao same account of the measures adopted in consequence by the French General Gemean. As might have been expected from the course of that ottleer, matters have gone on increasingly bad until the government and people alike have become thoroughly disquated with the Ereich. In ordering awny, at a few hours notice, two battalions of the measure disaffected be whole Roman army, and exasperated the people. The measure was very severe to the soldiers in the manner it was carried out. They wern torn from their friends and private affairs in the city, where most of them belong, without n chance to prepare for their remark. They were marked out of the city without arms, followed hy a hattalism of French with aut arms, followed hy a hattalism of French with aut arms, followed hy a hattalism of French with aut arms, followed hy a hattalism of French with aut arms, followed hy a hattalism of French with aut arms, followed hy a hattalism of French with a the most of their destination until they were seven miles on their way. Uncourse their in greates, and had private affairs in the city, where most of them belong, without no clone, and the worst of the consequences upon the whole of the little army which it has been laboring for, two years to inspire with loysity to the Pope's cause, though with very little success.

But the instance of the proper of the proper

that he has "counted without the host."

Slave Case—An Abolition Failure.—Yesterdsy Miss Misor, a lady from Louisiana, who id company with har uacle was stapping et the New Englasd, was cited to appear he lore Judge Atkins to show cause why she restrained the liberty of Mary Bryain, a slave woman who was with her. Miss Minor did not appear, but said Mary was at liberty to go whare she pleased. The Judge declared Mary free, but she insisted on going hack to her mistress, whom she had attended from intancy. The colored peaple who lied heen active in the matter were exceedingly chagrined at this result.

At evening the New Englasd omathus conveyed Miss Minor's family and Mary Bryant to the Empire State. A crowd of negroes, some of whom had been heard to key that the slave should not leave the city, gathered shout the gaegway, end as she attempted to pass on hoerd, one of them caught her by the dress. Mr. Clark Warren, Deputy Marshal, ordered him to desist, and fearlag the "cane," he did so, and she went on hoard.

A stout negro then stepped forward and seid, "you ere an officer of the law; this is the lew of the land, but there is a law of God," "Yes," replied Clerk, "and if you don't leeve this spot, you'll feel the grace of God over your head from my cane." The advocate of "higher law" maved his hoots speedily. Mr. Misor tendariad Mr. Warren an engle for the service rendered, which, as he only dons what Cleveland officers always doprotected strangers from annoyance and insult—was very properly declased. The Empire State proceeded on her way with the wonnas, who had the god sease to prafer the guarding shin of those

and despites the inter to a considerable extent at its appearance of the control of the control

Dreadful Massacre by an Insune Man.—Last. evening a dreadful tragedy occurred in Roshury. A young man, a stranger, from Maine, colled on Dr. A. J. Cumings, complaining of feeling onwell. The doctor heing out, Mrs. Curnings aivited the stranger into the parlor, who, after seating himself, complained no a severa pain in his side. A moment efterwards Mrs. Gurnings little daughter cams into the room, when the stranger sprang up, and in n moment's time seized the unfortunate innocent, drewn rasor from his pocket, end out her abront from ear to car. Mrs. C. in a frenzy rushed forward to save her child, when the unreferer torned upon her and sevarely out her in several places.—The assassin wound up the horrible tragedy by cutting his own throat, and expired on the spat. The unfortunate girl died immediately. The mania supposed to he Ephraim G. Daggatt, en insane patient from Hope, Maine.

Sensible .- At the Women's Rights Convention now in seasion at Akran, Mrs. Swisshelm, editress of the Pitsburg Visitor, spoke as fallows:

of the Pilipbufg Visitor, spoke as fallows:

Mrs. Swisshelm took exceptions to their scope ind spirit. She thought that the convention was disposed to do too much at once. She wished they would take up in single point of reform, and carry that forward to success. Far example, let the women demand the right to vate on the question whether the dram-ship should be tolerated in the land; and constitute centres of dissipation, crime, and death. After settling the question of dramselling, they will be the better able to attack other terms of the resolutions of the resolutions. terms of the resolutions were too severe-such n tyrant, applied to the men generally, etc. Sh was for saying severe things, but not in severe lan

She also took exception to the idea of equality She also took exception to the idea of equality which was claimed for the aczes. There in a male mind, and female mind, as man is a man, and a woman a woman, and these conventions cennot make it otherwise. Man was made with great physical strength, and the women often with great physical weakness. He is the protector of woman, and there is no such thing as equality hetweae them. There is such a thing es moral, equality, and both seres should eajoy the asmo pulitical trights. But womas was made for domestic duties, and men-for-the stern lahors of the field and the ahop. Mrs. Swisshelm never before attempted to speak in public, but her speech was characteristic of her pen, and was received with roars of applauses.

Poetage on Nawspapers.—Our nitention has

Poetage on Nawspapere.—Our intention has heen celled to a clause in the new Postage Bill, warded as fallows:

"Sabstribers to all periodicals shall be required to any our comprise."

The "foregoing retes" are five, ten, fifteen or twenty cents per quarter for weekly papers, within 50 miles, 300 miles, 1000 miles, etc.

The question for solution, important alike to publishers ead subscribers, is this: Are newspapers, "periodicals?" and are they included in this provision? Such is the apparent import of the law; and there is nothing to militete ngainst this construction, in the other sections. The reason for a diacount of one-half to pre-paying aubscribers, may have been to secono certainty of poyment and consequent increase of revenue.

The provision cannot refer to magazines in distinction from newspapers, for "newspapers, pamphlets, periodicals and magazines," ere spokes of in connection in a preceding paragraph. If a newspaper is not. Our great Lexicographs: defines a periodical to he "a magazine or other publication that is published at stated or regular periodical." Is not a newspaper, dally, weekly, or toonthly, thus published? Mast not its subscribars, then, after July 1st, pey quarterly in advance, one half the rates generally.

fact. [N. Y. Journal of Commerce, June 5.

Great Formily Meeting.—Ezekiel De Camp, of
Butler county, Ohio, who has resided on the same
farm for 38 years, invited all his descendants to
dina with him on Wednesdey. The larger part of
them were present and partook of a sumptious
farmer's dinner. For want of hause room an arbor was erected in the yard adjacent to the house,
end tables prepared for the occession. The old genlleman 72 years of age, and his companion for more
than 50 years, sai at the head of the table. Then
were arranged in order 14 children, 88 grend children, 28 greet grand children, and 30 who hed, inmarried with the family—making 160; 30 were
dead or absent.

The children of the Patriarch were 17 ln numhet, viz: 12 sons and 5 daughters.—One died at 10

The children of the Patriarch were 17 in number, viz: 12 sons and 5 daughters. One died at 10 years old: the other 16 lived to he heads of femilies. Two of them have since died.

The elevan sons now living ara all industrious enterprising mechanics, viz: 5 hrioklayers 4 carpenters, 1 stone culter, 1 millwright. Nine sons are residents of Cincianati, and several of them have heen leading men in their departments for more than twenty years. Thirteen out of the fourteen children are active members of the Methodist, Baptist, or Preahylerian church. [Giecinnati Gezette.

scribing the wonders, we clip this sketch of the Veiled Vesta: "I cannot, however, quit this sculpture sinfect

realing, nowever, quit this scalinger singer without recommending a visit to the gallery in-which the Italian productions in this branch of art are exhibited. These specimens are indeed exquisite, and remind us that the Gentius of Art yet loves to linger in the 'land of the cypress and myrtle' in that beautiful country

... Where the poet's sys and the paister's hand Are most divine."

Are more and poor L. E. L. Among the geoge of marble is one, which I hinted at before as the production which would, with Hiram Powers's Thitton in Collegiate Department the prodiction which would, with Hiram Powers's Greek Ceptive, dispute the palm of pre-eminence. This lovely production is "The Veiled Vesta." It represents neyoung and exquisitely formed girl, kneeling and offering her oblation of the sacred firs. Her face's is veiled, but every feature is distinctly visible as it were through the folda which cover the face. So wonderfully as the veil-like appearance produced, that myself and others were almost inclined to believe that some 'trick of art' liad been practiced, and a film of gauze' actually hing over the features. It was not so, however; the herd marble, fuely managed, alone caused the deception? Raffael Month, of Milan, is the name of the artist of 'The Velied Vesta.'".

This problem was proposed to Dr. Wallis in the year 1662, by Col. Silas Titus; it was originally proposed to Col. Titus by Dr. John Pell, the fa-mous algebraist of that time. Dr. Wallis solved it and gave the correct answer. A teacher in Lafayette has worked it by a simpler and shorter

fayette has worked it by a simpler and shorter process.

And Arithmetical Problem.—There are three numbers, of such inagnitudes that the square of the dirst number, together with the prodect of the multiplication of the second and third numbers into each other, is equal to the number 16; and that the square of the second number; together with the product of the multiplication of the first and third aumher into each other, is equal to the number 17; end that the square of the third number, together with the product of the multiplication of the first and second numbers into each other, is equal to the number 18. It is required to find the said three numbers. The Work on the Capitol .- lon, of the Beltimore

The Work on the Capitol.—Ion, of the Beltimore Sun says;

Memorials, numerously signed, will, in a few days, be presented to the President of the United States, soliciting that the work of the enlargement of the Capitol be done by "day work," in which, under a superintendent selected for the purpose, workmen are emidoyed and paid by the day, and do the work under his supervision. The memorialists express an opinion that this is not only the fairest mode for the laborers generally, but most advantageous to the Government. By it, the mechanic receives southing which he does not earn, and the Covernment pays for nothing which it idoes not actually receive. For proof of that opinion, they respectfully refer to the various buildings dong under the contract and day work systems.

Our citizens generally are interested in the success of these applications, and I have no doubt they will receive due consideration from the Executive.

Sun says:

George Thompson, M. P.—This notorious individual was announced to deliver an address in Arch Street Hell, on Sunday, but the agent of the hell refused to permit him to use it, and a placerd on the door announcing "No meeting here to day," geve notice to a large crowd that had assembled that they would be disappointed in their expectations. The police were present in prevent disorder. An announcement was made then that a meeting would be held in Delayan Hall, Cherry street, where Thompson would spenk; but, no street, where Thompson would speak; late in Thompson came, and he and his friends have prob-ably which concluded that Philadelphinis need none of his enlightenment. [Phila Hallstin, 9th.

As specious as it may uppear, it is, editoref my of the periedical literature with prayer. When David's knees were such persons in the life may keep such persons in the learning from their hearts, they say convert when, in their hearts, they say he come a reproduct to his enemies, who hard for such members to discharge any religious duty which eests a sacrific. But there is a larger class than this in the church, who have a kept that we merey." If this prayer express the sinthey shall be finally saved; but, judging from their own experience, helieve Visit the sick; clethe the nackd; feed the constant of the property of eur church. How essentialisit, for the minister must necessarily devote him, widest circulation and greatest influsively to the specific business effectives devuling that he shall have see preaching. It at eace strikes down the local preacher feature of one system, with the precipility of the say with the set of the shall have see preaching. It at eace strikes down which, in many instances, has werked well, and which, under proper regulations, in the local preacher feature of one system, which his effice of minister and faithties, might be made every where an invaluable auxiliary in the promotion of current and greatest influsively to the specific business devices of the self-exclusively to the specific business and every minister must necessarily devote him, self-exclusively to the specific business and event of exclusively to the spe they shall be finally saved; but, judge to great and speak its esrnestness. Invaluable auxiliary in the promotion of the first the special control of the first the special control of the gospel was acither intended nor has the power to save from sia, and perfect to is ended, fall not into sin by indulging late of known duties, and in the oceanism in control of the church as the power to save from the special control of the church in the first the special control of the church as will give the great set of the church as will give the great the first the progress and success to the gospel, may, if there are peculiar qualifications respect to the church and indeed does, require attention to guired him. His journal, ever freighted the first the promotion of the Church and success to the Gospel, should ever breathe the spirit and preduce the effect of the high-to-level of known duties, and in the oceanism in glutteny. Having separated thyself progress and success to the gospel, may, if there are peculiar qualifications referently sins, be careful to avoid temptant in the promotion of the Christianity.

The maintenance of church erganization, and sneh a conduct of the dospel, should ever breathe the spirit and preduce the effect of the church as will give the great set of the cospel, should ever breathe the spirit and preduce the effect of the church as will give the great at the great the ministry, be too, should temptant the promotion of the church as will give the great at the cospel, should ever breathe the spirit and preduce the effect of the church as will give the great at the first and preduce the effect of the church as will give the great at the cospel, should ever breathe the spirit and preduce the effect of the church as will give the great at the cospel, and in the cospel that the cospel the c They go to church—to see their neighbers. They visit the sick—to secure than friendship and get a good dianer. They are guilty of ne gross irregularity of life, and violate none of the decention of life, and violate none of the decention of life, and violate none of the decention of life, and satisfy thy soul in drength, and be defined by the lord shall guide the continually, and satisfy thy soul in drength, and be diffusion of the gespel, that are necessary to give the highest efficiency to stances, above the motive of gain, delike a watered garden, and like a spring of water, whese waters fail net."

They are respectable people—members be considered respectable people—members of the church. They centribute to the support of the gespel, but they never yet sacrificed a chew of tebacco or a bottle of snuff for this purpose. They think fasting was a usage which obtained in the sacrification of life which distinguish rational piety think fasting was a usage which obtained in the sacrification of life which distinguish rational piety that the sacrification is consistent of life which distinguish rational piety that the sacrification is consistent of life which distinguish rational piety that the sacrification is consistent of life which distinguish rational piety that the sacrification is consistent of life which distinguish rational piety that the sacrification is consistent of life which distinguish rational piety that the sacrification is consistent of life which distinguish rational piety that the sacrification is consistent of the cause of Ged, and without which, yotes himself to the work from the cause of Ged, and without which, yotes himself to the work from the cause of Ged, and without which, yotes himself to the work from the cause of Ged, and without which, yotes himself to the worlds content to concentrate the cause of Ged, and without which, yotes himself to the worlds content to concentrate the cause of Ged, and without which, yotes himself to the worlds content to concentrate the cause of Ged, and without which, yotes himself to the worlds content to concentrate the cause of Ged, and without which, yotes himself to the worlds content to concentrate the cause of Ged, and without which, yotes himself to the worlds content to concentrate the cause of Ged, and without which, yotes himself to the worlds content to concentrate the cause of Ged, and without which, yotes himself to the worlds content to concentrate the cause of Ged, and without which, yotes himself to the worlds content to the cause of Ged, and without which, yotes himself to the worlds content to concentrate the cause of Ged, and without which, the cause of Ged, and without seductive employments, which so much disquality beyonce for this field of usefulness. Where is 'the laymen' that, sent abread to arouse the people to the great importance of the Bible, to inspire they don't think it is required under the thought the Christian dispensation. They are conscience; as, the extent to which it requiring a system of visible means for the give it to the world, and te collect stively engaged in the busy seenes of should be carried, the length of time it its advancement. But a slight analysis from all sources the funds for this great purpose, could wield the influence and secure to his labors that success as might the enlightened, zealens, well estabtished minister of the Gespel? And where is the layman whe, as President of any one of our Celleges, could exerearly in the merning, they have missed their coffee, and, in consequence, had head-ache all day. And yet the delisend inind and clear understanding.

Saveth the present opportunities of or any one of our Celleges, could exercise the recommending, wide-spread intheir coffee, and, in consequence, had head-ache all day. And yet the delisend inind and clear understanding. Gospel. A periodical religious literasanctified learning, or could be so in-Gospel. A periodical religious litera-ture, in the form of newspapers, maga-strumental in impressing right princizines and reviews, is equally essential ples upon the youth under his charge, in these days of extensive patronage of as the learned, hely, influential minis the press, as a counteractive of secular ter? While, therefore, it is not deuied influences, and as a means for the genethat laymen might be useful in all these

employments, it is clearly evident that

ministers are more so, and the differ-

parcel of their own peculiar work, and | faith and practice we would be compelled nocessary to the success of that work, to surrender to those differing widely, it is fair to conclude that in the econoourselves. These institutions are furserved by the ministry themselves. ther necessary to us, as being the foun-And this seems the more reasonable, as tain frem whence we are to dorive those the spirit which moves in all these in- supplies of educated ministers which, istry; and as there is nothing in them our population, will be perpetually incompatible with the exercises and wanted in increasing numbers. We privileges of the Pulpit, with the con-stant employment of the ministerial tion of the ministry, and experience functions in deing the utmest pessible proves that our own colleges are our main reliance to meet the demand of Again. These are interests which the Church for educated preachers. belong peculiarly and specially to God's However desirable it might be, thereown work, and they must be provided fore, to enipley only laymen, from these for. Is it reasonable to believe that the facts it is evident that it is better to laity, who are not called to devete them- have these institutions, even if they can selves exclusively to God's own work, only be manned and conducted by reg

The question then is, can they be class whom God has appointed to attend | conducted and made to answer their de to these interests. Cau it be supposed sign by laymen? It may be boldly afthat he has left the success of interests firmed, even in the face of the editor's

Oxford, Ga., Jone, 1851. W. J. SASNETT. 1. [To be continued ]

The Cedars of Lebanoni Ye ancients of the earth, beneath whose shade Swept the flerce baimers of earth's mightlest

When millions for a baitle were arrayed, And the sky darkened with the vulture's wings Long silence followed on the battle cries : First the house whitened, then were meen no ntore ;

The summer grasses sprang from summer skies, And dim Tradition told no tales of yoro. The works of peace succeeded those first wars, Men left the desert lents for marble walls; Then rose the towers from whence they wetched

· the stars ... And the want wonders of their kingly halls. And they are perished—those imperial towers Reed not amid the midnight stars their doom : The point and ort of all their glorious hours Lie lidden in the sands that are their tomb. And ye, ancestrel trees! are somewhat shorn

But still ye stand, stately and tempest-worn, Tu show how Nature triumpha over Time Much have ve wilnessed-hut yet more remains

Of the first strength that nierked earth's earlie

The mind's great empire is but just begun; The desert beauty of your distant plains Proclaim how much has yet been left undone. Will not your giant culumns yet hehold The world's uld age enlightened, calm and free

More glorious than the glories known of old-

The spirit's plecid rule by lend end sen. All that the past has laught is not in vain-Wisdom is garnered up from centuries gone Love. Hupe and Mind prepare a nobler reign Than ye have known, Cedars of Lebanon.

### Ghost of a Preacher.

An ominent English Methodist, in an earnest appeal to the ministry of his Church en the necessity of a revival of religion among them, in order to the exhibition of more zeal, self-denial, fer vor and holy consistency in the disebarge of their duties, remarks:

"Whatever we are when we enter upon the great work of the ministry, we ghost of a preacher, who, being dead, yet speaketh," That ghost of a preacher is very ex

They are in fact but another form of preaching, being prompted by the same metices, sustained by the same results. And this necessity is the and consecrated to the same results. According as they do, therefore, most naturally with the aims and responsibilities of the ministry, being part and parcel of their own peculiar werk, and parcel of their own peculiar werk, and responsibilities of their own peculiar werk and responsibilities of their own peculiar werk and responsibilities of the minister of religion being religions of religion being minister of religions of rel cational privileges, and educational sibility of a minister of religion being privileges compatible with their own atterly destitute of a saving interest, in which he has never experienced any preper impression; of a Saviour he bas uever known! Independently, of the terrible responsibility he thus incurs, bow heartless his employment, how devoid of interest, hew utterly toilsome! When Paul preached, he made himself terests is precisely the spirit of the mine in the improving upward character of to be felt as a living, energetic man, who was thoroughly in earnest. His whole manner showed, that under a deep couviction of impeuding danger, he was himself fleeing from the wrath to come, and as he ran, with outstretched arms and earnest voice, he warned others, and besought them to fellow him for their lives. Seme might say be was beside himself, but none weuld venture te charge him with feigning. Necessity was laid on him to preach the gospel, and wee to bim if ho did not obey it. The whole scope of his vision was filled with the great salvation, and all the emotions of his soul centered upon it.

> The greater the submission, the more the grace. If there be oue hollow in the valley lower than another, thither do the waters gather. The mere lowly do the waters gather. The mere lowely we are in our own eyes, the mere lovely we are in our own eyes, the mere lovely we are in the sight of God. When to ourselves we are despicable, to him, through Christ, we are accepted. We that is repulsive in their manner. The preachers are obserful and animating in the was coming near to the blessing when he said, "I am vile; what shall I an swer thee?"
>
> There is much to be admired in the Sunday Always. By different nations every day of the week is set apart for public worship; Sunday by the Christians, Menday by the Greeks, "Tuesday by the Greeks, "Tuesday by the Asyrians, Thursday by the Brether among the Wesleyan Methodiats, though there is sententing for public worship; Sunday by the Christians, Menday by the Greeks, "Tuesday by the Brether among the wesleyan day of the week is set apart for public worship; Sunday by the Christians, Menday by the Greeks, "Tuesday by the Brether among the preachers or laying in the same accepted. We have a complete the special section of the week is set apart for public worship; Sunday by the Christians, Menday by the Christians, Menday by the Christians, Thursday by the Brether among the preachers or laying the same accepted. nothing in them.

Dr. Buating is the star of the ConElegant—The man who employs all
his brains upon dressing words, without He is about five feet tou, with full, erect Conceited Vainly aims at every thing, and says nothing, and says nothing.

Welch Manner A man that bawls locks, and, withall, an intolerable souffcut very good things till he can bawl no taker. A smile constantly plays on his ewn hrains, right or wrong.

Peevish—One whe picks inte every body's the aghts, and thinks ne one right but himself.

It is upwards of eighty, and yet his voice is firm, vigorons in action, and his mind not the least impaired, as was sald. Few men are his equals to dispatch business. It is as-

seemed to exert as much influence as muy other minister in the Conference. He is more of the grave, and little the rise of seventy; of a larger frame, but not se corpulent as the former. Dr. Jackson carries a weight of influence. Great respect and deference is shown to But a few doors from City Road Great respect and deference is shown to Chapel is the Wesleyan Methodist Book souicrity; so much so, that the young Room, a neat and commedious building. in New York. I did not see a printing press on the premises. There did not appear to he as great a variety of publications as we have in circulation. Dr. Clark's Commentaries are not published by the Wesleyan Bock Reem. They have no form of dissipline like the Methodist Episcepal Church, South, but are governed by usages of the Church, and the minutes of the Cenference.

Not far from the Bock Reem stands the Mission House, a splendid edifice, was said ahout temperance. A minister who warmly advocates the cause of far superior to the former. Every thing is arranged in the most complete temperance, is rendered unpopular.

Order as regards their Missionary pub-

Dr. Bunting is the President. Here the students are educated three years, free of all expense, there being a definite number. They have an elegant building and spacious grounds, laid out in the mest tasteful and classic style.

One is never tired looking at the green continual use of strong drink brings on premature disease and death, and thus in Fugland eighty thousand annually find a druukard's grave. Hew is such an army of miserable wretches to be rescued from such a death, when the whole clergy are the leaders of this horrible seepe!

Livingston, June 14, 1851.

Consoling Idea of Death .- " I dongratulate you and myself," wrote John Foster to a friend, " that life is passing every Sabbath.

They have, also, another Theological School near Manchester, conducted on the same plan, but for home purposes. minary of eternity is going to rive, I His wish was to save others, and he did not repel the salutary fear of heing himself a castaway. Let every minister take him as a model, and let every one see to it that he is net preaching an unknown Snvieur.

Blessedness of a Lowly Minn.

Blessedness of a Lowly Minn.

Dr. Hannah is President. I shall never minary of eternity is going to really would to my view darken into midnight melanchily. Oh! the expectation of the living thus alway, would be indeed a prospect of over whelming despair. But thanks to that the Established Church all round them, and are the objects of envy and them are the objects of envy and them, and are the objects of envy and them are the objects of envy and the supplies of the respectation of the case hatred, for the reason that even the students are often better and more popular preachers than those of the Estable ered trauee of death into scenes of ever-lished Church. lasting delight,"

In St. Paul's letter to the Galatian phatic injunction upon "him that is taught in the word "in reference to him that teacheth." The entire text Lot him that is tought in communicate unto him that

These words were first impressed on our mind, several year ago, by hearing a sermon preserved from them. It was an interesting sermon, and, we thought an instructive one. The ras not learned; but, if possile his ingennity made up for his lack he burn: Every man has some knowledge peculiar to himself. Even pher is ignorant. Let us therefore not be backward to "communicate." A candle sends its light and heat to the sun. Each should add his mite to the fund of universal information. The on of at least one original idea from every man in it: And so on. More particularly in things spir-

tages of inducation or age, is in advance th the divine word. He is already on the subject; a good biblical for instance, or well read in this knowledge is in de-It should not be concealed, and

He compliments the Phillipians upon the style of their communications with him, when he was needy in Thessalonica; it was such as "concerned giving and receiving;" it was "sending once and egain," not good salvice, but good things that supplied his necessities. Some good sonls, among those that are "taught in the word," prefer the preacher's gloss stances, or asks them again to fraterknow, and would like to take out nize. or communications in good advice, and suggestions, kind rebukes, and not like For their benefit we have clipped the fellowing from an exchange. It really strikes us as more after the mind of the Spirit than the sermon, of ich an outline has been given. It is

in Too Good to BE LOST.—A church in the country had just engaged a good minister, who had not attended long, when, after preaching on a Sunday, the descon gave him a pull and said:
'I want to speak with you.'
After going aside, the descon said,
'Brother, I saw something about you

to day, that hurt my feelings. What was it, my dear brother?" said the minister in surprise; do tell

'It was about your arm, while you were preaching, I saw it.'

cost pattern, and I'll pay for it."

The minister thanked him kindly, and was entirely relieved

Re-Union With the North,

"Simon," s correspondent (local prescher we guess) of the Memphis Uhristian Advocate, furnishes a commution against the position of the edior on the subject of re-union with the Churth, North. It is se well tempered with senso and charity we give it at length:

pentence, against any enterprise or pro-ject, which I believed, would be produc-tive of more good, than evil, to the greatest number of people; but as I do not believe that re-union of the M. E. Church under existing circumstances would or could be. I therefore propose saying a few things.

I am not in favor of re-union of thechurch, nuder existing circumstances for various reasene, a few of which I propose briefly mentioning:

I believe it would ronew the control rersy, which has already done us so damage. I know some say it need net; true it need net, but will it not? I snswer, I have not the least doubt but twill; and now as but little is said en he subject, on either side, North or South, let us not do that which would, in all probabality, renew the centrover-sios, with more than usual zeal. Again y nuiting the two branches of the shurch; we in the South, would mest certainly, by that act close many doors against ourselvee, for it is known to all, at since the division of the church many have invited, you urged us, to preach to their servents, who prior to division would have scarcely suffered a Methodist preacher, to remain over-night, on their premises; but so soon as the church divided, North and South, the preachere in the South were invited to preach, the invitation is still extended still the voice is heard, come and preach to our people of color; but let the South unite with the North, and immediately that voice will be hushed to silence, and those doors that new stand open day and night, will then be closed then the poor negroes must be left destitute of the Glorious Gospel of Christ, for if the the Methodists do not care for the slaves, and furnish the means of Grace, I ask

I am opposed to any proposition for re-union, or even fraternization, being I don't believe that reason er religion either expects or requires it of the South; how could it be expected or required of the Senth, after she has been insulted time after time by the North? Consider the conduct of the North, owards the South. The plan of sepa ration which was adopted, by almost nnanimous vote of the General Confer ence, of 1844, in a short time was op pesed by many of the very same men in the North who had zealonsly supported the plan of separation, in their speeches and vote in the General Conference.

Again, the commissioners, who were appointed to act on the part of the North, fused when called upon by the demissioners, on the part of the South, to settle the property question. Consider f the Church North in 1848. They d our delegate, who had been apinted by the General Conference South, to fraternize with them; they scarcely treated him with common courtesy. Our beloved and vonerable Bishop Soule, attended that same Conference; he was not even asked by the Conference, to take a seat within the bar of the conference room, neither did they the conference room, neither did they ask him to preach during his stay. They scheth, ever cookers. Nevertheless, etill did more, they professed to have disamulod the plan of separation, which had been adopted by the Cenference of 1844, which was composed of delegates from the whole Church North and South; meetings, as the most efficient helps in from the whole Church North and South; but still, they stop net hore, they make a new Annual Cenference, including iu seul's salvation." May Ged keep them its bounds, two entire states, in the that the wicked one touch them not. that the wicked one teuch them not.

Sonth, Missouri and Arkansas, regardless of their contract, in 1844. They now send what they call their missionaries among us, who labor to sew seeds of discord and disunion, producing schisms and divisions in communities and eccieties indeed where ever I have known tend at the quarterly meetings, and of their forming what they call of their forming what they oall a mis-slen, they have acted as fire-brands, and political meetings, they are most zealnot as ministere of Christ. After all ous for their favorite measure, and canthis I ask does reason expect, or religion didate, and give the mest unequiveenly require, any proposition from the Scuth, for re-union, or even fraternization? I think net. I have no objections to paying attention from the North to the Scuth for fraternization. But never, ne uever let it be said, the Senth seeks Union with the North, under existing circum-

> METHODIST CAMP MEETING IN CAL-From our last California papers weelip the following. It is a notice stuck into a column filled with notices of "Turf," a "\$3000 lumb" just found, the " late murder," etc. :

Camp Meeting .- We learn that a camp meeting, under the direction of the Rev. Issae Gwen, P. E. of the Catifornia District; M. E. Church, will be held in the Sonoma Valley, about three miles from the Embarcadero, from Friday, the 2d of May, at 1150 clock A. M., to the fel-2d of May, at 1 morelock A. M., to the fellowing Tuesday, Dec Volente. The public in general and ministers of the Gospel is attendence upon balls, dancing particular of the Gospel is attendence upon balls, dancin the Gospel is attendence upon balls attendence upon balls atten

alarm and anxieus to know in what way he had hurt the dear old father's men of the Wesleyan connection, has incurred the penalty of degradation. The dearest pointed to his elbow.

There it is yot, said he.

The minister began to brash his sleeve.

Step, said the dearen, you can't mend it now; there is a hole in your coat; right ou the elbow. I am hurt to ace our minister wear such a coat. Now, I want you to go to — and choose a cost pattern, and I'll pay for it.

In the dearen of the Wesleyan connection, has incurred the penalty of degradation. The special district meeting on Monday declared that the disturbed state of the higher laws of their action.

Step, said the dearen, you can't grain the conference. The annual district meeting followed this up on Tuestant to fulfill the pledges he had given the conference not up on Tuestant you to go to — and choose a superintendent, or any place to administration of the great spiritual declension among us, is a too general disposition to attend upon danting the conference not upon the olice of superintendent, or any place to administration of the spiritual declension among us, is a too general disposition to attend upon danting parties and dancing schools. It is not represent the following:

Dr. Beaumout, one of the foremost men of the Wesleyan connection, has incurred the penalty of degradation. The high worse than this, if I never de any thing worse than this, is with many the high worse than this, if I never de any thing worse than this, if I never de any thing worse than this, if I never de any thing worse than this, if I never de any thing worse than this, if I never de any thing worse than this, if I never de any thing worse than this, if I never de any thing worse than this, if I never de any thing worse than this, if I never de any thing worse than this, if I never de any thing worse than this, if I never de any thing worse than this, if I never de any thing worse than this, if I never de any thing worse than this, if I never de any thing worse than this, if I n ter the discipline of Methodism.

For the N. O. Christian Advanta Men and Brothren, Help Us.

We often see notices of revivals, in our religious journals. We are cheered by thom, and our feelple hands are reatly strengthened when wel liear of "times of refreshing," from any portion of our beloved Mothedism, any portion of the Church of God. May God multiply His grace and favors ahundantly, and cause His face to shipe on us.

Were we to write the true picture of the state of things on our charges, we wenid, I fear, oftoner have cause to weep than to rejoice. I believe we should ef-ten give the gleomy as well as the bright slde of the picture; that we should show the desolutions as well as the onildings-up ef our Zien; that we should raiso beacens to warn, as well as ensigns to cheer; in a word, that we should state he facts, whother they cause joy or griof.

to say a few things in regard to my

1. Notwithstanding the bright and flattering prospects that attended my entrance upon this work, I sm, and have been for the last six weeks, cast down nd dejected, because, as I conceive, n dark and ominous, cloud has come over the prospect, and covered all the heav-

2. I feel the more sad, as this state of things has occurred under the most faithful administration of God's truth and under the most vigilant and porsevering discharge of pasteral duties that I could exercise. But one appointment have I failed to attend, or cause to be attended. Then I was too unwell to stand on my feet. I have not shunned to doclare, faithfully and affectionstely, "the whole counsel of God;" I have taught publicly, and "from house to house," "the truth as it is in Jesus." house," "the truth as it is in Jesus." It has been my study how, "out of the book of the laws," to collect, arrange, and adapt the truths of God's word to each, and " to give each their pertien in lue season." With the aged and young the bond and free-with the healthful sick and dying, in and cut of the pulpit I have ever pointed to "the Lamb of God, that taketh away the sin of the world." Not a day, or a wakeful hour, has the state of Zion been off of mind er heart since I have been on this of the church, will bear me witness." nave knowu no mau after the flesh." have stood n constant, and faithful, and fearless sentinel for all, especially for the Church. I liave warned against the pelitical, excitement of the times-the ancing mania that now rages in all the and: I have, whenever and whorever have seen the swerd coming, faithfully given the warning and sounded the

"For fear of feeble man, The spirit's course in me restrained." Yet. under all this fidelity to God and my brethron, I fear the prespects nre anything but cheering—that they are decidely discouraging. The follow-

nore than one in ten, that are heads of families, regularly, faithfully, and frem principlo, attend to family devetion. Most neglect it altegether, and where it such a carclessness of manner that it seems mere a mockery than the offering of "living eacrifice to God."

2. Notwithstanding I have urged, entreated, and by all the means in my power have tried to influence the mem ers to attend class, yet I find this next quarter. The excuses eften urged are so feeble and unworthy, that I am often ctings. There

tend at the quarterly meetings, and other regular appointments. At these they are great advocates for all things being done without excitement, "de-cently and in order."

4. Another most alarming symptem of religious declination is a disposition to over-ride the authority and canens of the church by individual opinion. How often is it the case that professors of religion meet the plainest teaching of the Holy Scriptures by, "I don't believe thus and thus"—by "I do a great many things worse than that "-" If I nover do mything werse than that, I will do very well," ctc. The point that I regard as most painfully alarming in this is, that a mere opinion, or a comparative sin, is pitted against the thunders of Sinai, or the fearfully sublime teachings upon the Mount, by Him "who spake as never man spake are invited to attend. edness," even hy the minister of peace, DR. BEAUMONT DEGRADED. - From justified. By this are our habits of na the Doncaster Gazette, an English paper, though drinning, or drinking socially, the wing or smoking to bacco our new leet of Christian duty, justified. "I

or woman can attend or encourage them. This is our position, definitely and pos-ltivoly. What ethers cut of the church mny de in these respects, we have no remark here to make; but when a professer of the religion of the Lord Jesus oven desires to attend these places, he law.
gives indubitable evidence that he is I wish the Book Concern bad been removed from the simplicity of the sunk a thousand feet under Mulberry gespel; " that they heed not the Apos-tle's exhortation, "Be not conformed to street, sooner than that it should have this world." Rem. 12, 2.

Those are the facts in our casefnots that have made my heart sad for menths. Not a few have requested to This has been done under circumstan oes that evinced ne want of confidence in, or respect fer, their paster; but simply and solely because they have made the reverse of Moses' choice; be cause they love this present world, and therefore "the love of the Father is not

My only object in this plain and sim le statement of our case is to elicit our behalf the prayers of the fnithful and if pessible, by this mothod to pre with God," Orsamus L. Nash." Clinton, Milis June, 1851

YANKEE NOTIONS.—These are imes very useful notions. Under Methodist Press," we propose, after he example of an interesting northern ectemporary, to let our readers know the chief topics discussed from week to week among the members of the "Advocate"

### Traveling Correspondence.

Wo take the liberty of trespassing upon a private cerrespondence to the extent of the fellowing extracts. Bro. K., if he objects to this liberty, can make himself ample amends by writing expressly for publication.

In six days after parting from you, action is remarkably impressive, being we were at Louisville; in one more we were in Cincinnati; frem Cincinnati to Buffale is one day, and from Buffalo to New York another, and a third brings

you to Baltimoro.
Our trip up the Mississippi was without interest, excepting that we met a deer swimming where the river was 1 1-2 miles wide, uner than three-feurths of his way over. At Paducah we found the cholorn, and heard that some 30 had died of it in a week. I preached on board, on Sabbath, and had a very quiet time and wakeful addience. about two hours in Louisville; Dr. Stephenson and several of the preachers, but Dr. Schon was out of his flice. Things look safe at Louisville. One of the first questions was as to the hoalth of the Advecate; of course I was happy to say that it was hearty and growing. The next was, what we thought of the South Carelinn Coning are some of the reasens I have fer this deduction:

1. I find, upon examination, that not ill-advised movement, I find that every hedy sees it in the light that it first seemed to you, as a violent, irregular, ill-advised movement; in which is abunforence movement. I find that every dant stere of treuble.

We leeked over upon Niagara, and eaw the large fleeds hurried-over a pre-cipiec of 200 feet by larger ones hehind. blost neglect it artegether, and where it is attended to, it is usually done with in the middle of the river, where the such a carclesness of manner that it water is deepest, the whole stream turns over without breaking the glassy look of the surface, nud seems at a little distance like the upper part of a great wall of beryl; nbout one-third of the way dewn, it breaks into leng, motionless snow-celumns, which pass nway into to impossible. Many never attend; the smoke and beiling of the plunging many mere, not more than once in a torrent. Niagara looks grander every time you see it. Four years ago it did net impress me so much as at this visit. greatly grieved at their recital. Alas! A religious man sees and hears God the evidence is but too streng and nnot divided by the evidence is but too streng and nnot there all around him. When the shores quivocal, that they have no heart for were lined with their primitive forests, those heart-searching meetings. There were lined with their primitive forests, meteors in the sunshine."
how awful Niagara must have seemed to I wish I could recollect the language the Indian who steed alone for the first of one of the mest brilliant illustrations aud guides, thick to its very edge, slways may be heard breathing through

eternity. We left Niagara by Lake Ontarie, a beautiful scargreen lake. What a fine hool for scamen must these Northern lakes be! They, of themselves, will always insure us a sufficient body of men for naval service.

At New York, the advice of the

Judges seems to call fer seme effort to settle the suit harmoniously (1) So notes have passed between the commissiener of the South and the agents The agents have magnanimously offered to arbitrate our right to the preperty claimed i. The very same offer they made before. I do not suppose that cur right can have increased intrinsically by recent process of law. The North, ern papers think that the remarks of the Judge indicated a decision favorable te the Sonth. But the mind of a judge, gathered from the cerners of hie meuth and his eyebrews, is surely very uncertain. From the way the brethren of the North talk, they eeem to believe that we have a showing at least. Four years ago they wore much stouter than at present. The blame of this legal centest is put upon us, in this wise:
"We could not divide without changing the Constitution (O, that Constitution what a willful thing it is!) Just as we were going to change it, and were doing it, and eur people voting se handsomely, you brought suit, and theu of course we said.— Why, if they want to force us, let them do it if they oan; and so we have been kept from changing the Constitution and giving you your nonoy; you have done it yourselves. But how could we of the South know that they that is, New England, Gen-long mon "Alone at the Rendezvous," a mezzo-esce, North-Ohie, and se many others were going to do the matter se promptly! Freemason's Assumat: Hy Rev. R.J. Stewar, K. T. and handsomely and properly ? when at E.H. Buffer k-12/1181. the same time they were asserting that the South had no meral, i. e. equitable,

Abel Stevous was elected editor of the miliarly known to freshmen as pons Christian Advocate, and his opinions thereby endorsed by the whole Church. North? They seem to be making ex-North? They seem to be making ex-cuses for not deing the thing without law, which they expect to have to do by

proved the hone it has to two parts of a Uhurch, which are, in respect of faith and all essentials to salvation, identical. The preachers have treated me, as a Southern preacher, very kindly, urging mo to preach and to stay with them; and wore it not for lawsuits and slavery, we should see, in all things, eye to eye, of dishenesty which the South brings against them. Bro. Kidder speke to me about your article, which I had not seen. I told him that it was a fair representation of the public oninion among our people. But he thinks the true state of the case ought to be presented.

I told him that it would be worth while fer eue at the North, if he could, to so explain matters as to give our people a better opinion of the intention and ac-tion of the North in the property suit. I was not convinced that the results of delay upon our part would have been what he affirmed. I doubted if ever three fourths of the Nerthern preachers would have veted us eur pro rata share, and I still doubt.

Yesterday, though invited to preach, I concluded to rest at least one Sabbuth, and hear Bro Slicer on Buptism Dr. Fuller has stirred up the Church by his incessant talk about the erdi nance. S. was streng, popular, cool reflorative. His element is debate in debate his forte is Baptism. I had n fine specimen of what ho is; I should dislike to meet him, and like much to have him en my side.

At night I heard Stookton. He is

quito gray, tall, steeping, with large, full eyes, large mouth, projecting brow, and the air of a slow, feeble man. His marked for its grace and deliberation He stands looking up with his large eyes when talking of heaven, and with his arms extended so long that it hushes the whole house. He never trips-no, not in the least-never hesitates has wonderful apulonce of speech, and com mund of most exquisito, approprinte imagory. His voice is not unlike Dr. B—8, soft; consionally he utters a word; say at the close, much as the Dector used to de loudly, and arouses the audience. But his effect is not so great as the Decter produces. His style interrupted oue; you wait for his fine passages. He does not hide himself enough, and rather impresses you with hinuself than with his subject. sombre, sentimental preacher, of faultless manner. Strnnge to say, he ie still in a forming state. It is painful to see a mau of his powers yet at sea, conteud-ing for n vision of church unity, which he can get no one to see but himself. If he had hoen centout to take the plnin. mill-horse track of John Wesley, and lahored as nny other preacher in our Church, what a man he might have boeu! I believe none would have steed so high in the pulpit,
... His text was — "Ye know the grace

of our Lord Jesus Christ, that though e was rich." etc. '

I give you a few of his sentences: (Speaking of those who leved wenlth:)
"The Lord God is absolutely ashamed of any who can be content with such a world as this, in its most luxurious cendition. \* \* \* " Again: "He whose checks were stnined with blood on Calvary, would blush still mero deeply to see his people satisfied with such a we " (In comparison with the things of heaven, to a good man;) he enumerates must go for towards put.
"Earthly interests fade from view like ting the question at rost. His weakest

time in view of its falling thunder! I ever listened to, which he gave, of the Now they have saw-mills, and taverns, notice which God takes equally of small " small things are great and groat things tion and appreach to its terrors. But are email." He then described Him as at its base Jehovah muttere heavily, and aliko interested and present in "the seft unfoldings of the silky flewer, and this great organ-pipe his power and in the smile that plays upon the meuth of au infant in its gentle dreamings, as when lighting up the spheres with elecwere filled with admiration, and made the empyrean tremble with the thunder of their praise." As he uttered the last part, and locked up and shrunk a little, as though he saw tho playing fires, the whele house held their breath, as if they saw it themselves:

> Monday, June 18, 1851. Literary Notices.

Harper's New York and Erle Ballroad Gulde Book
Has been on our table for two weeks. We hope none of our readers have, on account of our neg-lecting to notice, started to the North without it; if so, may they find it on the way. It is a dumb cice rone, pointing out by name and occasional snatches of history, the places and scenery through which the traveler passes on this famous ruifrond—the longest owned by one company and under one management in the world. The numerous woodcuts are executed with singular smoothness and dis farms, duiries and cheese cocks, to the Panorama of the Mississippi River! Pity it is, we have no Guide Book as might be written on this, Nature's grand rante, into the hands of a traveler as he sleps on board a steamboat, at the New Orleans Levee, to ascend the longest navigable river in the world, For sale by J. Ball. -llogan and Thompson's Huminated Bible; We have received Nos. 7 and 8 of this elegant

and substantial publication. The chromatic engravings, in oil colors, from original designs by Devereux, are surpassingly elegapt. "Moses or Mount Pisgah" is alone worth the price of the 7th number. For sale by J. Ball. Sartain, for July : f.

This is a companion for the initiated through all the degrace of Masonry, from appendices bip 10. the higher laws of their action:

5. Another indication of the great spiritual declension among us, is a too general disposition to attend upon dancing parties and dancing schools. It is conference representative? To be not my intention to go out of the church in my opposition to these dissipations. Pulladelphia and Delaware, but how and elever people that attend these parties and schools; but no Christium main stitutional right thing; especially when the degrees of Masonry, from uppendices his degrees of Masonry, from u

and references to the old Temple service abound All mystery to us. We dont see how muy one cut according to this Manual, he a good Freemason, and, lu his social religious, a had man. He cannot calous for the honor of God's Church over 'all, so eties. Salvation is of it. In its fellowshipeen the most perfect coment humanity is capal of. But out of it we see much to be commended in those social compacts which pledge men to mu ual good offices, and tend that degree for helow the Church, it is true) to fraternize our selfish race Now, Whallier this book guides right or wron brough the mazes and "dark sayings" Onler, the Flaternity must judge-not knowing we enunet say. It is for sale at Ball's.

REPORT TO THE LOUISIANA STATE MEDICAL SO of his report to the Löuisiana State Medica socioty on the Meteorology and Vital Statistics and Hygiene of the State of and Hygiene of the State of Louisiana. Dr. Bar ion has devoted much labor and study to this n insportant subject, and his work ought to be in the hands of every head of a family in the city. If has prepared several tables of mertality, which indicate a marked improvement, both as to the fre quency of the yellow fever epidemics, and as to the requency of the yellow fever epidemics, and as to the milder lype of the disease. He says that the fact which he has collected bear him out in the assertion, that with the completion of our physical im provements yellow fever will have disappeared from among its? The appendix consists of lable showing the value of life in Louisiann and athe countries, furnished by H. G. Heartt, Actuary the Louisiana Mutual Life Insurance Office.

### Methodist Press.

Tho Richmond Christian Advocate contains No. 1, of communications from Rev. P. Deub, on the powers of the Genoral Conference in the fermation of Annual Conferences, and fixing and changing their boundaries. Original and Suprome jurisdiction is claimed. The oditor says: .

"The powers of the General Conference, the authority of its decisions, and the duty of submission to them, are uattors, it is mournful to say it, that seem not to be held in very high reverence by some. It is not to stir the spirit of discord, but to shame it; not to revive party animosities, but allay thom, that we invite attention to a series of articles on the Powers of the General Cou-ference commenced in this number of the Advocate. They have the merits of brevity and clearliess, and are amply sustained by authority.

The Christian Advecate and Journal centnins a long account of the late Now York East Conference, st which Drs. Bangs and Olin were re-called frem General Conference Exile. Their election te the General Conference of 1852 is understood to iudicate a strong re-action in abelitionism.

"During the session, the Rev. Laban Clark delivered a "half century" dis-course—he having completed fifty years in the effective ranks of the itinerancy. The venerable Dr. Bangs took an active part in the business of the Conference and really manifested more energy than we have seen him display for the last seven or eight years. He has now en-tered upon the fiftieth year of his itineranoy, and the Conference voted a request that he should prepare a "hal century sermon," to be delivered at its next session, should his life be spared."

The Buffalo Christian Advocate of 12th inst., gives this intelligence:

Bishop Humline left on Monday for the Maine Conferences. We are glad to state that his health is impreving. · Rev. B. T. Creuch writes nn able ar tiele in the N. and L. Christinn Advo cate, agaiust a called session of the Gen eral Conference : such good reasons as nrgument of seven, is the item of expense

hus estimated: "Church funds especially nre | cur Lord' monoy,' and a Genoral Conferenco costs meney, ns well as time. An average of ferty-five dollars to each delegate is not an extravagant estimate nnd this will give us the sum of four thousand five hundred dollars, to be cellected from the church to boar the expenses of the delegates."

In the Southern Christian Advocate, wo have the latest information of Bishep Caper's health. In a note to the editor of tho 16th, he writes :

"I am not able te perferm the least service whatever, beyond prayer with my family, and in view of the past, can premise nething for the future. If God will, I shall work; and if he will it rather, I shall still be of no service till Zion's Herald contains n long and

nteresting biographical netice of interesting biographical notice of and the peals of the choir, would be a state of the choir, would be set floatings and fainter would the set floatings and fainter would be set floatings. his experience, in which many agree:

"In the autumn of 1807, I heard a travelling preacher from Needham cir-cuit preach; my mind was deeply im-pressed; my impressions were deepened. The next day while at my business, the meeting of the previous evening came up in my mind; and something like the llewing thoughts we suggested to mo; It is time for you in good carnest to set out in the Christian cause, for you have got to proach the Gospel. My heart rose up in opposition; I preach like that itinerant I heard last night, and have to travel about, without a home or a pros-pect or anything but trials in this world? No, I will never be a Methodist preacher. My roligious foelings were gene almost in au instant, and I was loft hard and carcless. Jan. 1808, a revival com-menced in the charge where I attended My young friends who composed tho choir all professed religion, and I was left hard and cold. "O what mental suffering I endured; yet it pleased a mer oiful Ged te show mercy, even to me the mest unworthy. But my evidence was uct as clear as before—it was but faint hope, but I indulged it. My evidence increased, my way hecamo pleasant, and for menths my peaco was like a river. The Western Christian Advocate no tices the fact-

not, on removal from place to place, present their certificates of member-

be assigned. The principal ene is doubtless a measure of religioue indifference or lethargy; yet this may be aided by of tenungy, yet this may be alued by faucied or real negligence on the part of the ministry or membership in the place where a new location is sought, "To cure this evil it is suggested that

masmuch as ofter the present month the pestage on a letter te any part of the United States, except Oregen and California, will be but three cents, it should be made the duty of the paster giving the cortificate to address a lotter to the paster in the station or circuit whither the person is removing, giving bim information of the fact, so that he may be prepared to give the necessary the arriving member te the courtesies of the Church. We lese many members by inattention to strangers; and we should be happy if some plau could be adepted wherehy this evil could be re-

The leader of the Memphis Christian Advocate, is an argument against the views we have ndvanced on the withdrawal of so many effective preachers from the itinerancy to professorships, agencies, &c.

### European Correspondence. LETTER VIII.

Church St, Roche-Papal Superstition-Music. " Mu Dear Bro. In my last commu-

nication, I gave you an account of my visit to the Church St. Roche, to witness he celebration of our Savieur's birth. On the merning of the 25th Decemb her, at 11 o'clock, I repaired to the church again, to witness the centinued ceremenies of the occasion. When I get there, I found the priests chanting, to n densely crowded house. Msny of the ccremenies were in manifestation of a superstition that would have done eredit to the darkness of the middle nges. Ou lecking around, I was no little surprised at the fact that such mummeries could be believed in in. city, aud among a community, so distinguished for intelligence, ns are Paris and its scientific men. Strango was it to me, that men of attainments should habitnally unito in worshipping the work of human hands, and

with apparent sincerity and veneration I have been credibly informed, that upon some occasions the Bishop of Paris exhibits (pretends to,) the orewn of thorns that lacerated the hrow of our Savieur, tegether with one of the nails by which he was transfixed to the cross the reed that was placed in his hand; a few dreps of his blood, and some of the milk of the Virgin Mary-all of which

are guaranteed to be genuine.

At the end of High Mass, the hely orcad was placed in n litter, encircled oy candles four feet in height, and thus, with the ends of the litter resting on the shoulders of several youths dressed n pspal regalia, it was carried through every part of the house. It was then broken in pieces, and distributed. Some were unwilling to let the merrow provide for itself, but carefully wrapped up

several pieces for future use.

Most of the service of that morning presented but little that could impres an American Protestant favorably to ward Romish usage and worship. Of the music, hewover, I have no language that will convey any thing like a knew-ledge of it. I have listened, since we parted, to the wild warblings of M'lle Lind. I have heard Sontag, Lahlache, arcia, Levasseur, and other celebritis in the musical world, but never did l drink in strains so grand and overpowering as pealed through the leng cont dors, and died awny amid the distant vnults and gnileries of that consecrate pile. There were two organs, said to

oe equal to any in the world. These were accompanied by every strument that could contribute to soft breathing, or the sublime swell d music. This, it would seem, had been sufficient to have taken captive ever nature at all impressible; but when tell you that in addition there was 1 cheir of mere than a hundred of the first voices in Psris, and, I may say, in the world, all blending harmoniously, and swelling the volume of melody, you mi be able to oonoeive, perhaps, the effect it produced on me: As I looked over that vant assemblage, so still and silen and whose upturned faces were better in deliciens tears, drawn from the for tains of their souls; I was impresse with the wonderful power of music, and thought it not strange that the belove disciple, in his attempts that the bolow disciple, in his attempts to unfold to the heavenliness of Henven, should he spoken of the music of its harpen resembling the "sound of many water and great thunderings."

Sementines the swell of the organized

the human voices, and the low cade of the organs, be berne to the en-plaintive, sad, heart-breaking, and almost hushed-causing the entranced muli tudes to bend ferward, as if in an tempt to retain the echo of the sound and then rising, and deepening, and tending, and swelling, until chancel uaive and altar seemed to kindle in rapture, and until the foundations the mighty pile trembled under thunder-tones that crowded every

ouit of sound in that vast building.

I am, as you know, passionately for the following of music—

"Music? Oh, how soft and sweet!
Language fails beneath thy spell;
When should feeling ever speak,
When should feeling ever speak,
Never do I expoot to hear such the such speak of song prain, until I stand with the standard with the gush of song ngain, until I stand with the choir that ue man can number. Then I shall driuk in the notes of the new son and th 'new seng," whose cheral swell will f the " Lemb that was slain." In my next, I will introduce to you notice the Church Madeline, if yet at not weary with churches.

Yours, most sincerely, w. T. W. Paris, 1851.

We want a few more hard-working men in this little field. Oh, for men that love to work in the ministry. I fear we have not these laberious, solf-sperificing spirits. these laberious, solf-snerificing spirits, that prompted our fathers to drive through wind and storm, to suffer per-setting out and tending an immease orchard of secution, and be ovil spoken of, that they peach trees. He has made arrangements for the secution, and be ovil spoken of, that they might "win souls to Christ," and extend his kingdom to the onds of the earth.

Yours, in Christ Jesus, P. P. SMITH. June 9, 1851, 20

Misquotation,-The expression, "He who runs may read," is frequently quoted as a Scripturo phrase. The true quotation is found in Habakkuk ii. 2: Write the vision, and make it plain upon tables, that he may run that rondcth it." Here, plainly, the incaning is, that every one rending the vision should be alarmed by it, and should fly from the impending calimity; and although this involves the notion of logibility and elenrness, that notion is the secondary, and not the primary one, as those persons make it who misquoto it in tho manner stated above.

Every household showeth traces Bacred to departed love;
And each band of kindred faces listh ou absent one above. Not a heart but hath some corn

Darkened by the cypress shade Where affection sites mourner, By the waste that death both mad Not au eye but frequent tutneth Upward to the jeweled sky,

To some fleating gem, that burneth Polished elabs and granite sol May haroir deeds enroll; . From the seel, where fondly lieger Shadows of the levely flown; Where so exerilegious finger...

Marble werds alone can never Immortality impart;

Deeply sculptured on the heart. " Let no impioas Te Deum Celebrate the spirit's praise-Nor the chireled mausoleam With its lapidary lays.

Love shall claim the haly duty, Wetching with ber angel tread Tinging with immurtal beauty All the relics of the dead.

Vacandiarian In Californ The late configurations in San Francisco and other cities of California, have doubtless gives the most ample assertance to the people of that State that either the most atriagent laws and regulations to detect and pints houndiarism anish be enforced, or the Yellott, Lands must be areashed except by the most vigorous end suched efforts of all good chiman. If the Californians fail to make these of Person or relas is enforcing the penalties which they aim to inflict, they may have much wherewith to give themselves censure, should they ever have to contemplete the ruins of another configuration.

The subplied article is of exceeding Interest, income the it points very plainly to the peculiar accessibility of California to the visits of incendisfree, and all viliairs of deep dys!

"Incomirries and its Agente—The Remedy.—It appears now beyond doubt that the recent conflavariant, by this htthousands have been lost in this city, was the work of an incendisry. It is stated of good authority, likewise, that the thieves and vagabonds throughout the State have sworn to be averaged on this good of the cities for the summary, trastment they and their follows heve, from time to find, lately experienced at their lands. There is not most on the proper of the courts into a attitude quite unusual is American society, have taken the law into their own hands, and put, down the bold and faring criminals who had exhau ted their patience by repeated murders and outrages. In and hence their bitter animosity towards nociety in reneral in California. The attempt to burn this sty was made at a tire when they knew from the versaling wind it must be successful. It did suc-necised -doubless even beyond the oxpectation of the projectors. Two nights after, Stockton was red and the whole business portion of the

By the arrival at San Francisco of the U. S. revenue entire brig Lawrence, the Alte California has news from the Sandwich Islands to April 12th. The Freech excitement had subsided. The Alta Calafornia says it learns on good culturity that the Haweiian Government has decided to apply to he Government of the United States for annexation, and that an officer of our national government

trusted with the mission.

entrusted with the mission.

A letter to the Alta Coliforais, dated Honolula, April 11th, saya:

The American-sloop-of-war Vandslis, Ceptain Gardner, sailed for Pansme on the 3d. She made a meeb loager stay in hatbor than had been origin-sily intended, hewing been specielly requested by the Government to walt upon the French corvettr, the Seriense, at all events until there should appear some chance after a miceble termination to the difficulties with France. The Serieuse sailed on the 30th ultrand the Vandslia followed hard spourceasing a great sensation among the Honolulu-

enities with France. The Serieuse sailed on the 30th ultrand the Yandhia followed hard apony creating a great sensation among the Innodulus of the Manager of the Serieuse and the Yandhia followed hard apony treated by surprise. Of course it was taken for granted that some great mystery was couched beneath, and it was at once assumed that he was the bearer of a formal cession of the country to the United States. I believe, myself, that there is nothing in it beyond a desire to see old frieads and to benefit his digestion by a change of air.

Yat there can be na doubt that the question of offering the protectorate of the Sandwich Islands to Uncle Sem has been seriously canvassed among newbers of the cablect, and that two, at ell events, among the aumber, have been for a long time working the oracle to that end. This, of now-y-would not at all have auteed the Views of the Freach Commissioner, and the game consequently became one of extreme tincety between the contending parties, the missionary members of the cabinet calculating what measure of oppression by France would justify than in throwing thenselves into the arms of America, and epparently rather anxions that it should be matted out; while M. Perrin, on the other hand, seems to have been feeling his way, trying bow far he could ventor a to arge French leterests without a liferiding a reasocable excess to the processionists.

From Panama

Oar dates are to the 3d inst.
On the 31st ult a row occurred in Panama which to se time threatened to be serious. It resulted a the death of a Sootchman named Robert Doff,

in the death of a Scotchman named Rebert Doff, who was cut to pieces by the netives.

The origin of the affair seems to have been the furnily conduct of some drunken men, who commenced the destruction of the furnily conduct of some drunken men, who commenced the destruction of the furnily conduct of some drunken men, who commenced the destruction of the furnily conduct of some drunken men, who commenced the destruction of the furnily conduct of some drunken men, who commenced the destruction of the furnily native shoemaker, who unfortunately made his oppearance with a kalfa le bis hand. This was taken in high dedgeon by the excited crowd, and in a moment, the shoemaker's shop was entered, its coatents pitohed into the street, and a truck broken opea la which was a bag containing money. This was elso acattered in the atreets. In the mean time tha alarm was sounded that the Americans were ettasking the natives, who immediately flaw to arms, and the matter assomed quite a serious aspect. Fortunately Gov. Dias was soon to a the ground with a file of soldiers, who, togethar with the assistance of Col. Amy, succeeded in restoring the party of the contents of the Providence Journel gives the following account of a soldier who is reported to have died recently in the Hotel des Invalides, Variety of the advanced age of 127 years. cundition.

Amung the distinguished arrivals in Panama, from the United States, is the Hon. Rodman M. Price, Member of Congress from New Jersey. Mr. Price is on his way to Calibrate.

Mr. Harry Tracy, for some time the agent of Law's line of steamers, and since the union of that with the Pacific meil line, died recently in Panama. The English residents in a Panama celebrated the birthday of Queen Victoria in a becoming manner. Dr. E. A. Theller has retired from the editorial chalrul tha Paname Echo, and is succeeded by Mr. C. Theller Wilson.

The Tehuontepec Treaty .- in speaking of the rejection of the Tehuantepee Treaty by the Mex-can Senate, and the amendment of the Garay Grant, of which we recently received news from Mexico, the Springfield Republican thus briefly receiptulates the history of the Garay Grant; In.1842, Jose de Garay saked the Mexican Government for a right of way acries the Isthmus of Tehuantepec, for the establishment of interoceanic cocomunication. Santa Anna, then Prealdrut, granted the request, giving certain privileges and requiring certain conditions. Soon after this, waste lands were placed in Garay's possession by the Government, in accordance with the concea-Grant, of which we recently received news fro

the Government, in accordance with its conceasions, and are extension of a year granted for the commencement of the work. Every thing to this stons, and air extension of a year granted for the commencement of the work. Every thing to this point was in good fault and without flaw. The difficulties with the United States then unreferred with the commencement of the work, and on this 5th day of November, 1846, a decree was issued by Gen. Salas, then Director, confirming to Garay every previous act of legulation upon the subject. This last decree of Gen. Salas the Mexican Sentate now declare null and vold, although, in the megoliation for a reary with our Government, at the close of the Mexican war, the Council of Ministers definitely recognized the existence of the arant, and made it a ground for telusing to the United States a similar right of way.

We see that a party of surveyors have just returned to Naw Orleans, having surveyed a route hot a railroad across the Jahnans at Tehnanteper. The lands connected with the grant they say me the finest in the world. They think the Tehnanteper route is the route, and the one which will supersed all others. If this be so, the Mexican Senate may as well cave in first as last, for the route of the surveyor in grant they appear on the route which will supersed all others. If this be so, the Mexican Senate may as well cave in first as last, for the route which we have the results of their care in the surveyor in first as last, for the route which we have the results of their care in the surveyor in first as last, for the route which we have the results and there.

The Condition of the English faborer

Wlian we have read Patliamentary reports, of the condition of the inbuting classes of England, we here been disposed to look on modern civilizaion as a curse to the great majesity. A moment reflection, however, teaches that this is an najust masses will be improved in their physical, and

elevated in their motal condition.

Within the issi twenty-five years there has been a decided improvement. From an atticle in the inany interesting facta, full of hope and encourage-ment. S. Wheat, which for the first ten years of the century averaged S3s. 6d. a quaiter, for the last ten has been 50s. 4d. Coffee in 1800 was worth 200s a cwt; it now sells at 117s. Teä has fallen from 5s. a lp. to 3s. 6d. Sugar from 80s. to 41s. s cwt. Calien, which in 1814 cost 28s. a piece, now sells

The increase in the consumption of strices of luxury has been in the sema proportion. The average consumption of soffee has liarn, from one sumed and a teath per poond per head, in 1800, to two pounds and a quester in 1849. Sugar from 15 pooeds, in 1821, to 21 pounds in 1849. At the same time there has been a corresponding rise in the price of labor. For instance, the wages of a carpenter, in 1807, were 18s. n week; in 1846 they were 29s. 3d.; bricklayers frum 18s. to 26s. 9d. learns that Maj. Ross Byers wes shot, at Locklint. The wages of compositors agent to have been the London-parties were engaged in a friendly conversation. Byers was killed. Further particulars are not given. carpenter, in 1807, were 154, n week ; in 1846 they

Bat one necessary of life—soap—ie now texed.

If the working man confines himself to bread and meet and vegetables; to water, milk and butter, and gives up colfee, tea and sugar, tobacco and alcohol, he mey pass through life without paying a penny of tax. On the coatrary, however, the lapenny of tax. On the coartary, nowers, the laboring-men pey a voluntary tax of the most odious kind. They pey tribute to the victions appetites. For rum, gin and whisky, they pay annually the modest sum of £20,810,208; beer and porter, £25,383,185; tohacco and snuff, £7,218,615—total, £53,411,615—equivalent, in dollars, to \$205, 000,000. The amount thus more than wested-every year, would in a short time pay off the national debt itself, the great borden on the people. The nterest is now kept down by the revenues, If fift millions a year could be diverted from the tippling shops, it would in twenty years wipe off this ter-rible debt. But there is an encouraging diminuion in the usa of spirituaus liquors, as appears from

the following table: Coasumption of Wine per head, It is a little remerkable, that while there is

fininution in England and Ireland, there has been a greet increase in Scotland. The licenses for the sala of beer have fallan from 45,717, in 1838, to 38,200 in 1849.

Surely these stetistics may well be

Surely these stellates may well be coordered as fornishing aebstential proof that the laboring millions of England are edvancing, in the scale of humanity lativities instances, where limited classes are ediffering, to be sure exist. But they form an exception, and not the general rale. Let it be borne in mind that two hundred and fifty millions of dollars are annually expended by the inhorers of England in spirits, malt-liquors and tobacco. This is tha worst tyranny which exists—thia is fornishing the scale of the scale

The Oldest Soldler on Reaord.

In person, he was short and well built. He was born in Poland, March 1, 1731, and him been seventy pears in arrive military service—having, at the age of 14, cut-red as une of the body-guard of Stani-laus. At a inter period, he culigded in the service of the French Republic, and served in the service of the French Republic, and served in the service of the French Republic, and served in the service of the French Republic, and served in the service of the French Republic, and served in the service of the fortunes in the Subsequently, he fullowed the fortunes in the Subsequently, he fullowed the fortunes of the was in the Expylian, German, Peninsular and Resistan campagns, and attended his master in his balshment at Elba.

His first military experience was in the eavelry service, and afterwards in infantry. His tank was that of corporal. He has been in thirty-time general battles, and was five times wounded. Since 1814, he has resided in Paris, and has always been an object of attention and respect, for his wounded career. The late King invariably ralled upunhim, when visiting at the Luxamoning, and all classes united in bestowing usun him proofs of respectful admiration. At the 116th antiversary of his birth, the deep receding tha visit here described, a deputation of classes in the vicinity of the paluce called on him, bringing presents of various kinds. He was 120 years and 2 months old at the time of his death, and probably no man havever lived so adventurous, as few survive so long a period of life. In the active duties of the cample apent the allotted "three-scores years ond ten," and for the past thirty-seven years he has regularly attended to the neural sounce of garrison duty.

More Failures.—Several failores have lately

More Failures .- Several failures have lately

More Failures. — Several lailores have lately taken place among the New Eagland nanufacturers. The Boston Traveler says:

"Wo lears that the tirm of B. Sexton & Co., Warehouse Point, Coancelicot, have been compelled transpend payment, owing to their losses in manufacturing. They were largely eogaged in the manufacture of fancy cassimeres, and it is stated their liabilities amount to \$200,000."

they expect to have additional by the 1st of October next. They are now printing from eighty-five to aincety thousand pards per week."

The New York Post of Saturday evening says:

"The regord heavy fluctuations in Reading, Penn, Stock, have occasioned the failure of Mr. C. T. Carpenier, a member of the Board of Brokers, who was a large operator in this stock, and very heavy losses have been sustained by other purities.

"Wa alluded yesterday to the failure of a large operator in grain. The house alluded to had bought largely for future delivery, and some of the contracts becoming due at a time wheo the mer-

nought targely for future delivery, and some of the contracts becoming due at a time when the merket had fallen aix cants per bushed below the stipnlated price to be paid, he was unabla to meet his sugargments. There are some very heavy time bargains in grain outstanding, which will mature in this and that two following months, which can not fail to involve specolators in very heavy losses."

Rapidity of Steam. - Wa saw yesterday Rapidity of Steam.— Wa saw Yestelday a check drawn at the Back of Chester County, You Mey 7, oa the Falton Beak of this city, which had been seat to London, thenca to Frankfart on the Maine; thence to London, and back to this city for collection. It was hought by the Amarics, and received here just thirty-live days after it was draw in Pennsylvania. [N. Y. Jour. Com.

The troops for New Mexico. A short time ago the inclampholy intelligence was received, that the the cluders had appeared and was doing severe the rindera had appeared and the rinder that he work in Col. Summer's troops on their yay to New Mexico. The following from the Sh. Lonis Intelligencer is had enough, but robs us of nearly all our fears for the future success of Col. Summer's

all out fears for the future success of Col. Summer, command:

"The command of troops under Col. Summer, which left Fort Leevanworth recently, for Mexico, we are grantfied to beern, have not suffered to that exient from cholera that we had been led to believe. Mr. Wolffe, a passenger down on the Saranck on Saturday, informs us he left the command at Council Grove un the Ioh hust, and up to that time offly twenty five or thirty of the troops had died, and that Dr. Kennedy was the only afficer whose cost heat termunated fatally. Mr. Wolffe attributes the sickness mainly to the impurience of the soldlers in eating incluse berles and drinking too freely of impure water. Should after the cholera broke out, a panic seized the whole command, and some sixty are presented. When Mr. Wulffe fittem, the panic was over and the troops marching as main.

"Maj. Clinton's command, deaffied for the Arkanisas, was mat by Mr. Wolffe fifty miles out from Fort Leavenworth—all, well."

Dividend. - The Georgia Central Rnilroe Company has decisied a semi-annual dividend of our plir cent... payable on the 16th fnat. Medical Diplomas have been granted in England

Medical Diplomas have been granted in England to eight native medical students, who acquired their knowledge at the train interioral College in Hommay. The occurrence in chiefly noticeable from its being the first of the kind. The young man belang in the Hindoo, Portuguese and Parses races, and thair acquirements are very highly toded by the Government examiners.

Pacific Railroad .- The Directors of this gigan tic scheme held a meeting at St. Louis on the 18th instant, end located the first division of the road. They passed a resolution that not exceeding thirty per cent, of the capital atock of the company shall be called in env one year during the construction of the road. The Directors are to break ground on

Interesting Pitcher Presentation. - On evening of Saturday, 16th, Thomas Ritchie, whose memory will live with the Richmond Enquirer, but whose latest editorial position was in the Washington Union, was presented with a measive washington Union, was presented with a messive silver pitcher, costing more than two hudered dol-lars, by the employeed in the letter named newspa-per establishment. It is engraven as a "testimony-of respect" from "his friends in the Union offica, who have hed the best opportunity to teat his vir-Ritchie's residence. The presented at Mr. Ritchie's residence. The presentation was witnessed by apwards of leixty persons, the President of the United States, Mr. Crittenden, and others being among the jovited guests.

Steam between France and England .- Wo read in the Havre paper: "The Rhine steamer has just made her first voyage from London to Havre in sixty and a half hours, which is the quickest passage that has ever been made between these two ports. The Kliffine is built entirely of iron ske measures 500 tons, and her epgines are collesite measures out tons, and ner eprimes are conce-tively of 200 horse power. The internal arrange-ments, which are intended to accommodate one hundred passengers, are perfect, both as regards comfort end elegance, particularly the ladies cabin, which is placed in the centre of the vessel, and, consequently, less affected by the motion of the vessel, and has all the appearance of an elegant

Bishop Ives .- The Raleigh (N. C.) Register, In speaking of the late Episcopal Cenvention in that

R. J. Hiss. G. W. Mordecai, Hon. R. Hines, etc.
A satisfactory arrangement of all difficulties was
finally perfected and unanimously agreed to, under
circumsances of impressive solemoity. The Convention adjourned on Monday night last.

cannot make a silk porse of a sow's ear, is almost falsified by a juggler named Bosco, in London, who will stand in an isolated position before his and dience, holding a Guinea pig io his hend, which he orushes by degrees, the pig and his equali growing beautifully lass, until nothing remains hut a silk purse filled with guineas. Where the pig goes to, and how the guineas appear in its place, while the conjurer stands in a tight dress, and with no visible connaction with any thing but the floor, is the wondar.

(Penn.) Telegraph contains the following letter frnm Horshamville, Montgomery county :

fram Horshainville, Montgoinery county:

"I hasten to inform thee, for the henefit, informany readers of thy paper, that Elwood M. Walton, aldest son of Lewis Walton, of Mooreland township, Montgoinery county, aged hear five years, was atting hip elocast on the back of his right ear, on Seventh day last. Ha was standing in the bouse, acar the door, when it fiew in and stung bim, which alarmed his parents very much, having previously understood that their sting was usually faial.

"However, they at once chught a chicken, cut it in two, and applied half of it while yet kicking to the puncture of wound; in balf an hour took it off and applied the other half, and let that tenain on about en hour, it giving him relief. This was

off and applied the other hall, and let that remain on about on hour, it giving, him relief. This was then also taken off, and in five minutes after the child went into spasans, and was in such agony that it required two persons to hold him.

"His ear turned to a dark color—red streeks ruaniag hown his hreast and round his eye. The half of a chicken was again put on, and in ten minutes after he began to feel relief, and his a alort time he was nerfectly calm. It required, however.

minutes aller he began to reer reliet, and in a hier time he was perfectly calm. It required, however, the third chicken to remove all the poison, the trist coming oil very green, and each aucceeding half less green bruil the last, which wes nearly, or entitlely, free from any dissoloration. The child is now (the second day after it was stuag) playing as usual.

"Wo lears that the tirm of B. Sexton & Co., Warehouse Point, Coancelicot, have been coinced to be been point. Trace an anti-reputilean society, which must be a transformation of the society of the 10th is stated their liabilities amount to \$200,000."

On the other head some of the manufacturers are extending their business. The Lowell Courier fays:

"The Hemilton Print Works are at present extending: their means, by an addition to their dyellows the beautiful of an inch in width and thirteen inches long bearing in gold lettlers on time side the word Societa, and on the other Militaire. This ribably deemly, and on the other Militaire. This ribably deemly, and on the other Militaire. This ribably deemly, and on the other white and other white a A French Royalist Club -The Paris Ev

erature tells the following stury of a Col. Wheatley, It may be fild, but if is good:

The Colonel, during a short sejonen in Vickeburg, met. there some fin-thooded Southeners, with a spirit as fiery as his own. They quarreled—a challenge was passed end accepted, and the next rising sun was to winess one, if, not both, of their dead bodies, dreuched in blood, to wash out wounded honor. During the night, the Colonel said, ha heard a boat roming up his river, and it struck him, as ha heard the boat puffing and blowing, that "prudence was the better part of valor." So he took his trunk inpon his shoulder, and stepped, in the dead of the night, very quiety out of the hotel. As he neared, the boat, whom should he see but his aniagonist, at the hoat before him, just going aboard! He returned as he hed gone on, end was on the ground next mirring, with his second, waiting, with disappointed wrath, for his aniagonist, and published him as an absconding coundred. (Prachance pater)

The Christian Statesmon.—We are pleased to see that Messra, R. R. Gorley and IP. R. Gorsiloe, of Washington rity, contemplate jubiliating a weekly newspaper, bearing the ebove trile, to be detoited to "sound morality in politics; to the most of the States; to the cause of African colourization and revillation; and to all topics of a high and general interest to their country. The first number will be issued early in Aguat, and the price will be issued early in Aguat, and the price will be two dollars per annua. [Baltimore tumber will be issued early in Augustice will be two doltars per annua.

The Health of Lafourche never was better in both town and country, says the Thibodaux Mi-

The Wenthar and the Crops. In Louisium, From the Bafon Ronge Clases of the 21 ste we heard that

showers, which have done much to give the angar came a fine appearance. The corn, which had pue-viously sufficied, has also been much benefited, hot we lear that the yield will fall far short of the tensinable expectations of the planters." In Georgia.-The Mecon Journal and Messac

ger of the 18th, says:

"The drought which continued for acverative kins at last terminated. From all of the surnanding counties we heer of gehial showers. In some sections they have and fine seasons, while in some sections they have but fine seasons, while in others, there are still complaints that the mins have mut yet been sofficient. The weather is propidate liowever, and we have strong hopes that the lalipys of the husbandman may be abundantly bleased. The early coin and onto have been materially injured. The gardens generally have been dealtroyed, whila the cotton crop has suffered to some extent, but there is yet ample time-for its recovery, provided we have even an ordinary season."

but there is yet ample time-for the recovery, provided we have even an ordinary season."

The Crops.—The rains on the 8th and 9th had, brought up a good deal. of the cotton that was planted in overflowed lands immediately after the water left them, and that has remained in the ground ever slace. It hooks well, but it is, of course, doubtful whether it will make any thing. More than half of the collon crop of the parish, was planted late, and should the worms appear early, the most of it will not make seed; wille, on the other hand, if the season proves favorable and see have believe fall; it may get any our well.—The part of the conton crop that was planted early, ilough it is not large, is pretty good, and will yell a fair crop, barring the thousand and one vicinal undea that it is held to.—The sugar crops have large proved a great deal since the barn, but they are not as good, generally spenking, as they were at this time last year. The crop is poor. [Red River Republican, 21st inst.]

The next' Presidential Election .- A late num-

ber of L'Echo d'Itelie saya;

"The nawspapers from Europe pringnosticate great troubles at the approach of 1852, on account of the election of the second President of the French Republic. Some foresee a civil wer among the different political parties; some a revolutioe and terrible shaughter by the Red Republicans, that social democratic ideas para triumps, and out and terrible slaughter by the Red Republicans, that social democratic ideas may triumph; and not a few are affaild of a general European war, in which reither the independance of the people; or deapotism, man triumph all over Europe.

"In the United States, on the contrary, evary thing, goes on in the greatest calm and in perfect tracquility. The different political parties are radining their candidates for the Presidency; and no disorder, no revolution, no bloodshed, is to be feared for our great nation end free people. What a difference!"

Bricks?—Important Inventions.—Letters from England inform an that a new mode of brick-making is threatening to entirely supersede the ulder methods. Bricks are now madu-hollow, which secures the buildings frum dempness, and, besides being much larger and lighter, buth money and labor are saved in laying them? It is only becessary for our industrious and intelligent country nen to get an idea of any machine calculated to save labor and thoney, to at once be prepared to adopt it:

save labor and duoney, to at once be prepared to adopt it.

While on this subject we must not omit to mention that a certain Dr. Sammels, of Allentowin, Parkas invented a machine to work-lay-steam, which will turn off 1200 well-made bricks per lour from unwrought clay. This matter is certainly-well-worth booking into, when the present rags for improvement has raised bricks to an unprecedented price. If this little notice shall prove the means of calling the attention of any of our brick-makers to there new liventhus, we shall be gratified. [Washton Telegraph.

respective spliers.

With Prof. Brockleshy's treatise on Meteorology I am pericularly plansed. The work, both in the subject and the matter, is an excellent one, which must ultimately find its way into our High Schools and Institutes.

I am, gentlemen, very respectfully, your obliged servant,

ALEX, DIMITRY,

Sup't of Public Education, State of La.

Baton Rouge, April 21, 1851. Interesting to Song Writers. - Among the premiums offered at the great Central Southarn Agricultural Fair, to be held in Mecon, Ga., on tha 29th, 30th and 31at of October next, is the "Best Agricultural Song, (to be sung during the Fair by an emateor club, in Macor end composed to some of the popular airs of the day, a silver pitcher, worth \$20.76. The anng most be sent, post-paid, to B. E. Sties, Esq., Chairman Examining Committee, Macon, Gn.

To Preserve Hams Through Summer .- Make To Freerry Hams Through Summer.—Make a number of common cotton lags a little lorger than your linms; after the linms are well smoked, place then in the lags; then get the very best awee made lag, but it with a conting hox or knife, will your hambs press it well around the liams in the bags, tie your bags with good arthigs; put on it can they set to along their are not large them. bags, his your pags with good and bang them up of the year to show their age, and bang them up in your garret, or some dry place, and my word for it, if you let them hang for live years, they will be it, if you let them hang for live years, they will be the day you not them up. I have the true them hang for the years, they winds beliefer than on the day you put them up. I have kept them for aeven years. This method cous hut hille, as the bag will last for years. The only loss is the hay, and that life rathe will eat if given to them in the winter. The awealing of the hams will be taken up by the hay, and it will also impart a very fine flavor to the meat. [Genesee-Furmer.

M. P. Canvaes .- It is pruposed to give Macready, the distinguished tragedim and comedian, a sect in the House of Commons for the Tower Hemlets, r place of George Thompson, the nholitionist.

Great Tunker Meeting. The general conference of the Tunkers is now in session near New Hope, Augusta county, Va. The Stauatou Spec-

tippe, Augusta county, va. The Sauston Spectitor says:

"It is composed of preachers from every part of the United States, where the sect prevnils. We were at the meeting on Sonday, and are satisfied from personal observation, that it was the largest assemblage of people ever drawn together in this part of the country. Various estimates of the number present were meds by persons familiar crowds, ranging from five to ten thou-

cature known to the Tunker church, and is held once a year. We believe tais is the first time it has been held in Virglais for many years. "The Tunkers, as a class, constitute a portion of our very best citizens. They are industriona, thrifty, honest, frugal and kind-hearted in the has issued special instructions to the East Indi

Squadrou to procure and send, or bring home, rare plants and seeds, particularly of the angar-cane and tea-plant, adapted to our climate end soil, and useful for domestic purposes. The increasing dif-ficulty experienced for the last two or three years in keeping good seed-cones for plants; has induced many of the planters to try the introduction of new varieties. The Camilla Costume .- By this title it is 'pro posed to designate the new female costume; the

term "Bloomer" being far too local and inex-pressive. Camilla was one of the messeogers o A Delicious Abundance .- A schooner carrie

into New York in one freight list, last week, twenty-five hundred dozens of Pine Apples. The supply of thei-fruit in New York city has never efore been so ubundant as now. The Gardiner Transcript avers that the story

tha Maine gold minee is a complete hear. Two Yankees have established a public house at the "Mines," and heve made a profitable business, by selling bread, beef and tum to the diggers. The show began Prose, which is near to the scouerion, says, that gold is found in rmall quantities; but that the excitement is gut up by speculators und is not warranted by the facts in the case. The Night Blooming Ceres.—On Seturiay evening last one of the best specimens of this heautiful cacus, belonging to Mrs. Beale Corner of Brought on and Bull streets,) blossomed. It commenced

opening at 71 o'clock, and its heatily had passed mway at rubhinght. Eight distinct blossoms came forthat ourse, each forming something like a desponse of a light straw rolor, while a brilliant setting of petals at the bottom. Each individual part uithe flower resembled a brilliant rock's feather of considerable length. A friend who was present ennes in the roughtsion, from that he saw, that it must be about time for a Ceres in his possession to bloom. He went to his house, and found that his ractio had unfolded its beauties in silence, with no one hear to view its peerless but transclent splender. [Savaninski Republican lifth. To Steamship Owners .- The Hahama Legisla ture has passed an act uffering for the term of five

sterling to any person or company that will run a steemer from those Islands to New York, Philadelphia, or Baltimore, for one year from date. On Dit - The Pammany Society in New York s about to lead forward then, John E. Wool of that State, to the demogratio party, with the prope recommendations for the Presidency

Gen. Caleb Costing, form grly Minister to China, has been elected Mayor of Newhuryport, Mass.

men would answer all their purpeses the sphere of the numister, and which, therefore it would seem they could most effectually subserve.

In giving the religious aspect to the leges demonstrates the importance, of this view in determining the superior palifications of ministers over laymen as officers in our institutions of learning. He who rightly values the imfarence which those occupying these have of an ednented Christian in a least of an ednented Christian in an ease of the Church, frem which others are excluded by their circumstances, but the power of the Holy Ghost I.

As any one echipath them inder they have dene, you with all joy and peace in believing and is ead, is a most weighty qualification ung men and young ladies the subare destined to wield in behalf of God's time time witness the instrumentality plties have in these glorious results, the y exert in giving them stability, maity and adaptation to futuro usefuls, they would see that in these institions there is so much of what belongs othe peculiar work of the ministry, hat as well for them as the world at arge the preachers' effice, in all depart-

ats, is imperatively demanded. The sterial may be fewer, but when conidered in their relatious to the world d to usefulness, of such higher value, in when viewed in the aspect of preach-caleas, devoted exclusively to the one took of preaching, it may be doubted the ministers employed as officers institutions could have a more imporat field of action."

als, and a mere untiring active deve ion to the means of usefulness which aisters are supposed to have that are orthy of consideration in determining comparative qualifications of officers schools designed to impart sunctified

These institutions, too, in being served y ministers, whose effice commands the midence of the Church, and who, from connection with the itineraut ranks, ad a frequent mingling on terms of dy of ministers, have in a populiar greee their sympathy and personal gards, are brought more prominently tward before the great mass of the faurch, and experiencing more largely eir atteation and respect, are more itensively patronized, and more fully

For the management of the educa-ional interests of the Church, therearties st. bre, we cannot rely upon laymen, and he question of the employment of reachers in thom, is only another form the question of their existence. But the main argument of the editor,

impass the objects of their establish-

the withdrawal of so large is number valuable men from the active itine ant ranks, and the censequent, loss of much effective strength from the reg-ar field of the ministry. An impriry colleges, schools and agencies, nine egular members of the Conference. But who are they? Out of the nine, here are but four effectivo men. And of there was net n college er school or it. lar work, either as superannunted, suork of preaching to-day. But what exthough "we believe uot, yet He abideth this respectin Georgia, it is reason falthful."

Oh! my brother, let us go up and seem on the land of the land of the land of the land. in this respectin Georgin, it is reason— falthful."

The to suppose exists in like degree Oh! my brother, let us go up and sewhere; and if so, then more than possess the land—no longer be content with the meager enjoyments of one with the meager enjoyments of one with the meager enjoyments of one with the state. the Church in mny other capacity: is not true, therefore, that all the

Est, is so much abstracted from the regulated.]

Start if laymen equil be obtained in green early and the editor's reinfact. These associated unmers to man our Institutions, they could not render thom what feel that there is a unreceived? Do you not know that there is a unreceived with the zealous and the capable, they because they cannot they should left, because they cannot the regular itincaple they should left, because they cannot the feelings.

The great purposes which our schools of learning are intended to fulfill, and therefore indequate to the mere taborious duties of the regular itincaple, the cannot seek the feelings.

The great purposes which our schools of learning are intended to fulfill, and therefore indequate to the mere taborious duties of the regular itincaple, some themselves so religions, so iutimately connected with the objects of the ministry, and in the recultive schools and the editor's position is calculated to private the connected with the objects of the ministry, and in the recultive schools are the carnot of the strength, and connected with the objects of the ministry, and in the recultive schools are related to the schools and therefore of minister? But the editor's position is calculated to private the connected with the objects of the ministry, and in the remainder of the schools and therefore indeputate to the schools and therefore indeputate to the mere than the connected with the objects of the ministry, and in the remainder of the schools are allowed in the connected with the objects of the ministry, and in the remainder of the schools are allowed in the connection of the schools are allowed in the connected with the objects of the ministry and the effect of the schools are allowed in the connected with the objects of the ministry and the effect of th

the peculiar relations they sustain, better their olines of minister? Did more plain, more simple, binding or reater adapting them to the prometion of spiritual interests; they are evidently the most highly qualified for the eccularly of these Institutions. If these law of these Institutions. If these law of these purely secular then lay sively, and preaches zealously and laborate the minister? Did more plain, more simple, binding or reater due to the power or willingness of your Saviour, have a spiritual interests, they are evidently ample, whose name is included in the power or willingness of your Saviour, have a spiritual interests, they are evidently and who, as agent of the power or willingness of your Saviour, have a spiritual interests, and who, as agent of the power or willingness of your Saviour, have a spiritual interests, they are evidently and who, as agent of the power or willingness of your Saviour, have a spiritual interests, they are evidently ample, whose name is included in the power or willingness of your Saviour, have a spiritual interests, and who, as agent of the power or willingness of your Saviour, have a spiritual interests, and who, as agent of the power or willingness of your Saviour, have a spiritual interests, and who, as agent of the power or willingness of your Saviour, have a spiritual interests and the power or willingness of your Saviour, have a spiritual interests and the power or willingness of your Saviour, and the power or willingness of your Saviour, and the power or will interest and the power or willingness of your Saviour, and the power or willingness of your Saviour and the power of the power or willingness of your Saviour and the power or will provide th ests were purely secular, then lay sively, and preaches zealously and labo the gift," riously over vasieus pertions of Georgia sdvantage ever laymen. The promi-nent part which they might act in original influence in behalf of religion and nore useful. The history of our col-eges demonstrates the importance of Church should not be deceived on this

that superior fitness to effectuate the schools of the Church, in the happy influence they have exerted thus far the officers of these Institutions. If upon the interests of Christianity, is a Church could witness the revivals of striking evidence of the correctness of eligion that frequently take place at these appointments. When, in looking ese Institutions, the character of the over the various Conferences, we see the number and influence of those who have ets of them, and the influence they gone out from these Institutions, as ministers of the Gespel, and are now ime time witness the instrumentality of the Lord—whon we consider the chich the preachers composing the faclaymen sent forth, scattered over all re with which these fruits are guard. these lands, each subserving, in his own by them, and the happy, influence sphere, the most valuable purposes of cy exert in giving them stability, malinve met all the wide and various edncational demands of the Church, and the prosperity which in all respects have crowned-them-in-all-periods of their history, despite, seemingly, of many obstacles, it would be to shut our eyes to the express teachings of God, and all the indications of his Providence, to

deny that the course of the Church, in the employment of preachers in these institutions, is not in harmony with the

It is not centended, in any of the views here expressed, that the itinerancy is not hy eminence the great field of the ministry, which is to be relinquished at only as the sential interests imperatively demand Hence it is inferred and urgedlst. That there be no more colleges

or schools or presses or agencies than the interest of the work absolutely demands, that the less to the itineracy, by the withdrawal of the men to occupy, them, may be as small as possible. 2d. That superannuated or infirm

men, who are incompetent to the work of the regular ministry, as far as practicable, consistently with a due regard tetherhood nad equality with the great to qualifications, be appointed to these 3d. That prenchers who may be em-

ployed in these interests avail themselves of all opportunities, beth at home and nbroad, cousistcut with the claims of their special work, to excreise their ministerial functions, and to contribute, by the ministry of the word, to the spread of the Gospel. Oxford, Ga., June, 1851. W. J. SABNETT.

## For the N. O. Christlan Advocat "Every Day" Thoughts.

"O, wretched min that I am I who shall deliver me from the bedy of this death?" How many of God's children, while reflecting on their short-comiugs and back-slidings, while considering the considering the will nature which dwolls within them, bringing them into captivity, have used the words of St. Paul, and thus because the falso impression which the bole position of the editors is calculated and back-slidings, while considering the will have been and back-slidings, while considering the bringing them into captivity, have used the words of St. Paul, and thus because the words tole position of the editor is calculated to preduce. The editor puts down ever find evil present with us, and never colleges and conference, us employed this side the Jerdan of death, taste that perfect love which caststh out all fear? Believe me, there is help—ours is an all-sufficient Redoemer, and He has said,

Open thy mouth wide, and I will filt car such the such are of them would be out of the regnand with the Apostle, and say, "I thank God, through Joses Christ, our Lord?" Can you not read ernumerary, or local. They are men the words, "there is, therefore, now no blose health and circumstances will not condemnation to their which are in condemnation to the condemnatio ork, and it is because of that fact that whose blood cleanseth from all single and ork of them, are not in the God hath called us unto holiness, and

in arrayed before us by the editor, are serves God in part—rest not in the state of singuing and repenting, but come out both Church; if any efficient service, bothly, olaim the promises of the Satisfactory. boldly, olnim the promisos of the Saviour and perfect holiness in the fear of

increases which answer all their purposes; prousty over various persons of decigns which and Alabama, in assuming his present ourselves "to be dead indeed unto sin," when they agree better with the text in the eye of taste. The readers of the relation, become lost to the efficiency of and "perfect in Christ Josus," whether than the Bishops' Bible, viz: Tyndar's, lengthsh Bible, and future generations the ministry? Did Dr. Geo. F. Pierce, we are truly delivered from the power corrections. Whiteheave, Whiteheave, Whiteheave, and which, of darkness, and our lives "hid with the eye of taste. The readers of the corrections of the ministry? Did Dr. Geo. F. Pierce, we are truly delivered from the power corrections. Christ in God ?" We do net ask you traveled extensively over the State, at- to take either our word or experience as Meetings, and preaching effectively in all quarters, of the work representing give nuto you the spirit of wisdom, all quarters would necessarily have infinite wire interests of the Church, and wielding, from the extent of his range, and what the riches of the glory of His inheritance in the Saints, and preaching effectively in all quarters, of the work representing give nuto you the spirit of wisdom, that ye may knew what is the hepe of His calling, and what the riches of the glory of His inheritance in the Saints, and preaching effectively in all quarters, of the work representing the religions influence with the work representing the religion and the spirit of wisdom, and what is the spirit of wisdom, and the religion and the mating religions revivals, and in provimaining religious revivais, and in provi-ling for and securing the various means been denied him, surrender his ministo-rance, would render them greatly rial functions and usefulness in becom-will of God, reckou yourself "dead untesin, but alive unto God, through Jesus Christ our Lerd;" trust in Him; only

> It is the wildest, sweetest spot bir all this lovely earth; The spirit voices in that glade,

list ancilly for me hath made. The vines and ancient oaks not deal, That mind our cottage grow-The very some that sheltered us In days of long ago; Glad voices come in every breeze That mormors through the vines and tree And the dingle of the river,

That glules before the door, Brings back the merry, mellow notes, I loved so well of yore.

When round a happy mother's kneu.
We gathered, children glad and free. But many a change bath came since then A change o'er heart and hearth, And we, like leaves in the automn time, Ameentiered o'er the earth; The living of our hone-hold band,

Our beauteous, brown-eyed brothers, Sweetly they are sleeping, Down where our dear old stately onks Vigils are keeping; Then marvel not those oaks seem ilear And angel voices there we benr.

When finled first the Howers that Upon our brothers' breast,
Another step grew felat and weak,
Another step grew felat and weak,
Another sought for rest;
And when the last farewell was spoken.
The link that bound our land was bloken.
H. F. M. B. When failed first the flowers that bloomed

A great work and one of immens importance to present and future generations, has just been brought to a close under the auspices of the Board of Man agers of the American Bible Society. In the year 1847, the Committee on Versions was charged with the duty of collating the editions of the English Bible published by the American Soeicty, with those issued in Great Brit-.Three years and a half have been employed by this Committee in this work, meeting as a whole, or by sub-committee once a week, and some times oftener, and spending several hours together at each session, in examining the work of the collator, who submitted tho results of his comparison for the judg ment of the Committee. The gentle men composing the Committee are-

Gardner Spring, Edward Robinson, Thomas Cock, Thos. E. Vermilye, Samu-I H. Turner, John M Clintock, Richard S. Storr, Jr.,

representing seven different donomiuations of Christians, and embedying great learning, industry and judgment. The snb-Committee consisted of Drs. Robinson and Vermilye. The labor of this body of men, pursued with so much diligence and self-denial, through so great n length of time, having heen completed, their report has been submitted to the Board and adopted, and last week-Dr. Robinson communicated some of the results to the New York Histor

The Committee first give n history of the English translation Wickliffo's 1380, Tyndal's 1526, Cranmer's 1539, the Genovan 1560, the Bishop's Biblo

were those mainly in use in England; the former authorized to be publicly read in the churches, and the latter mostly used in private families.

The immediate occasion of the pres ont translation, was the celebrated of the break forth and dry thou that the King, Jan. 12th, 1604. On the second day Dr. Reynolds, the leader of the Purituns, proposed to the King, thut there should be a new translation of the Puritums, proposed to the King, that there should be a new translation of the Biblo, because of the imperfections of the former vorsions. The King entertained the proposal, with the understanding that the new version should last of all be ratified by his royal anthority, and so the whole Church bo

"6. No marginal notes at all to he In giving the religious aspect to the traveled extensively over the State, at to take either enr word or experience as affixed, but only fer the explanation of these schools, and tending every year a number of Camp testimeny in the ense—take your Bible, the Hebrew or Greek words which cannot, without some circumfocution, so briefly and fitly be expressed in the text. "7. Such quotations of places to be marginally set down, as shall serve for the lit references of one Scripture to portant service. auother.

enother.

S. Every particular man of each company to take this same chapter of chapters, and having translated or amended them severally by himself where he thinks geed, all to meet together, to confer what they have dene,

send it to the rest, to be considered of

nniversity? were appointed to be aver-sers of the translations; and these, with the others, prohably made the mim-ber of fifty-four mentioned in the King's letter of July 22d, 1604.

After, the work was actually commouced, more than three years, or, as the original Preface has it, "twice seven times seventy-two days and mere," were spent by the several companies in completing the first dranght of the new version. When thus far finished, three copies of the wholo Bible were sent to London; one from Cambridge, ene from Oxford, and one from Westminster. From the companies in the several places, two persons were now selected from each place, six in all, who met in London to review the whole work, and prepare one copy from the three, to be committed to the press. Their labers extended through three quarters of a year. "Last of all, Bilson, Bishop of Winchester, and Pr. Myles Smith, af terwards Bishop of Gloucester, again

The English Bible, as left by the translators, has come down to us unaltered in respect to its text; except in the changes of orthography which the whole English lauguage has undergone, to which the version has naturally and properly been conformed; and exceptng, also, the slight variations and discropancies which in so leng an interval must necessarily arise, by reason of haman imperfection, in the preparation and printing of so many millions of

The Committee then give the dates of various editions and revisions, down to the most complete work of the kind, by Dr. Blancy, at Oxford, in 1767, which has been regarded; ever sinco its publication, as the stundard copy, to which all subsequent issues in England have been conformed. In these various collations some curious errors are pointnature-the most of them being merely errors of the press.

There exists, for instance, the " Vin egnr Edition," se called, printed at Oxford in 1717, in two volumes, folio "in which the word "vinegar" is put for "vineyard" in Luko xiii: 7.

Iu like manner, in soveral editions between 1538 and 1685, in Acts vi: 3, where the appointment of seven deneous is spoken of, the reading is chauged sometimes been charged upon the Independents, as intentional on their part; dependents, as intentional on their part; ing or mouning was heard from her half-but as it first appeared in the Cum-opened lips. Yet, when called by name, bridge odition in 1638, and is not neted she would open her eyes, and seemed to At the accession of King James I, in when it is found in the copies of Cam1603, the two versions last named, the hridge, London and Edinburgh, this Bishops' Bible and the Geneva Bible, dation; and the error, probably, was merely one of the press. In one American edition, in Gal. iv

In one American edition, in Gal. iv: they distressed us all.

27, the verse is thus printed: "For it is written, Rejoice, then barren that bear-ear, I said, Mary Ann, do tell me what resentative of American, as this annimal

In a future paper we intend to exhibit examples of the variations discovered, to chan the nature of the werk accomplished, and the abundant ground there is for gratification that this learned and indicious Committee have devoted so much time and strength to this im-N. Y. Observer.

AFTER OSIATIL. . . BY JOHN H. BRYANT. Why should we cling to those that die? Why fondly mark and haunt the place Where a dear brother's nahea lie, Amid the relies of his rare?

As if the spirit sent from tind Still dwelt within the mouldering clay? Years as they pass small scatter wide That dist by narrow walls confined, Where er the ocean sends his tide,

Why weep above the enclosing sod,

Or earth is swept by winnowing wind These trees, the marvests on these plains, The air we breathe, the dust we tread, The tide of life that fills these veins, Are portions of the buried dead. Hath (rod, then, doomed, when life is o'er,
The soul to slumber in the tomb,
While yet the form, the limbs it was,
Are on the

The mind, far feaching into space, Ganges the bulk of distant sphere Finds out each planet's course and place, And measures nil their days and years. But who beyond that bourne bath gazed, At which que stal senses fail, Into the spirit world, or raised wixt life and death the parting voil?

The despest search of buman thought, The limbest stretch of human eye, No tidings from the soul have brought

Beyond the moment when we die.

With trembling loope I wait the change,
When thought and sight; unclogged by an
Through God's vast universe shall range,
And take the world of spirits in: Ours be, mean while, the cheerful creed,

That leaves the spirit free to roam,
By mount and river, wood and mead,
Till tear the kind voice shall call it home.

debar myself of the privilege of attending balls? Onr minister says dancing is wrong. If the Rev. Mr. our paster, I think I would venture to be pious, for he allows this inneent amnsement." It was in vain that I tried, says the physician, "to couvince her of this delusion, and solennly reminded her of the difference between a life of amusement and a life of prayer. She listened respectfully, and not withont a tear, but still cling to her favor-

ite annsement." Ere long the physician was sumed out, yet it is more remarkable to observe that none of them are of a serious and to her bed side. He found her dangerously ill with typhus fever. He serve that none of them are of a serious teld him she was too weak then to converse with him, yet she requested an interested in his prayors. .

After au absence of several hours, he returned, and found her on the brink of disselution. We quote the physician's words for the remainder of the story:

"The patient had fallen into a state of stupor, so fearfully ominous of the fatal termination of the typhus fever. The tongue and lips were covered with from "whom we may appoint," to "whem a dark, tenacions for, the spesch was ye may appoint." This variation has scarcely intelligible, and the eyes were partially elesed. A sert of low murmur again until the time of the restoration, recognize those around her. She continued in this condition for several honrs, during which period she occacharge would seem to be without foun- sionally uttered the most heart-tonching and nucertilly groans I ever heard from a mortal being. They they distressed us all. They distressed me-

an hundred; "so printed instead of husband."

The Committee resolved to compare the best American Bible with recent copies of the four best British editions. London, Oxford and Edinhurgh; and fixing on me a look that made invery variation in punctuation, in orthography, in onpital letters or in text the following the fort of the gift can be enjoyed. Out of the first and is therefore an omplete the first, all comforts are but like a function of vigilance. She never begins the never begins of vigilance. Earnestness in Ministers.

at midsummer, 1604. Among these, are no alternations affecting the sense the character of the translation, and the manner of proceeding.

"I. The ordinary Bible read in the Church, commonly called The Uishops' Bible, to be followed, and as little alternations to be used when theysagree better with the text in the eye of the translations to be used than the Bishops' 1811. thou preach of heaven and hell in such a careless, sleepy manner? Dost thou believe what then sayest? Art then in carnest, or in jest? How canst then ell people that sin is such a thing, and that so much unsery is upon them, and doctrines held by the followers of Jesus, before them, and be no more affected "Having made strict inquiries concernwith it? Shouldst thou not weep ever such a people, and should not thy tears interrupt thy words? Shouldst then not cry aloud, and show them their transgressions, and entreat and beseech them, as for life and death?" Truly; them, as for life and death?" Truly, this is the peal that conscience doth ring in my ears, and yet my drowsy soul will not be awakened. O, what a thing is a senseless, hardened heart! O Lord, save us from the plague of infidelity and beautidness ourselves, or olse how teach concerning prayer," called upon shall we be fit instruments of saving teach concorning prayer," called upon others' from it? O, do that on our own the God of Heaven and Jesus, and was souls which Thon wouldst use us to do quite well the next day! Dr. Bond on the souls of others

wasen me, with the rest of His seryants that have been thus sinfully negligent! I confess, to my shame, that I
seldem hear the bell toll for one that is
dead, but conscioned asketh were the seldem has been seldem as the bell toll for one that is The God of merey pardon me and dead, hut conscience asketh me," What hast thon done for the saving of that soul, before it left the body?" There is one more gone to judgment: what didst then to prepare him for that judgment? And yet I have been slothful and bnekward to help them that survive.

### Decay of Character, The ret begins in men's characters,

the tokens of corruption and decay, the character is all gone within, just as in an apple yeu will often find a thin layer or coating, goed all round externally, when all below is a mass of rotreviewed the whele work, and prefixed arguments to the several beeks;" by which "arguments" are probably intended the contents of the chapters, etc. Dr. Smith also wrote the Preface. The translation thus laboriously and faithfully prepared, was first printed and published in A. D. 1611, in folio, and in the old black letter.

Amusement and Prayer.

Amusement and Prayer.

Mary Ann was a beautiful girl, eighten are like those among the Jews whom on Saviour compared to whited sepnlence of an estimated and published in A. D. 1611, in folio, and in the old black letter.

These characters among men are like those among the Jews whom on Saviour compared to whited sepnlence of an estimated and probable and succession of an estimated and published in A. D. 1611, in folio, and in the old black letter.

These characters among men are like those among the Jews whom on Saviour compared to whited sepnlence of an estimated and probable and succession of an estimated and succession of an estimated and probable and succession of an estimated and succession and succes tenness. These characters among men young friends were becoming pious, she was urged by her family physician to dedicate the youl to Christ.

"Hew can I think," said she, "of becoming pions, when, in daing so I also." "Hew can I think," said she, "of becoming pions, when, in doing so, I shall surprisals by the passions; sins of life; debar myself of the privilege of attendal which may be mended if there be only seundness at the core. The rot. may be ent out, for often it is but a speck; as from an apple that is decaying outside, and yet the fruit be fit for use. There is a great difference between rottenness at the core and rottenness on the surface; between disease at the heart and disease on the skin; between | tions. a moral scrofula on the vitals and scrofula on the extremities. The one may be outgrown or onred, and there shall remain only a sear; the other never. In the ene case the habit of the system mny he permanently reformed, until the constitution is renewed; In the other case the mest that is ever effected is to suppress and cheek the disease, but like a cancer in the bono, it is never thor onghly extirpated or eured. If the farmer trembles to find the rot invading his potato field, hew should the minister or the father fear nt giving sigus-of the rot in any member of his flock or family! And how carefully should he use the prophylactic ef. prayer, Scripture, and a religious education upon the ral plants he is wishing to train for tho Paradiso of God !

# Good in Everything,

A writer in a London paper of July, 1776, quoted in the Tribune, speaking of what he calls "the American standnrd, finving a sunke with thirteen rat-tles, and the fourteenth budding," thins expatiates upon the amiable qualities of the inttlesnake. Such a benevolent philosopher would find "good in every

is not true, therefore, that all the listerial force employed in our schools search the Scriptures, study the glorious and other incidence of God. BATURDAY JULY 5, 1881.

" Many Members"-Prof. Sasnett Our opponents will give us the credit of doing justly and fairly by them. We have nothing to gain by a contrary course. The cause of truth and right cannot be served by concealment and one-sidedness. For that numerous (nnfortunately too numerous) class of preach ers so much peeded in the itinerancy, but at present employed out of it, we

re-esert profound sentiments of ret, admiration and affection. If we did not entertain so high an opinion of their worth and effectiveness as prouch era of the Cospel, we should be content to let them remain whore they are. Prof. Sassnett, in the able article concladed this week, makes out a better apology for their position than we could do; and as we have attacked them, (so it is charged,) it is meet that, in our columns, they should have been defended.

But why say that we have donounced. attacked, sought to create a prejudice, and make distinctions unkind and hurtto this class of preachers? We kindly demur to this style of brother B, and the opposing press. Surely, we may be allowed to discuss the mere policy that obtains so generally and arrardly among us, without being charged with unfriendliness to those have been disposed of as editors ors and agents, under the work-

forbid that wo should. arring against religious education, per at. Nor is it doubted that Methodist preachers of learning and experionce are qualified, by eminence, for the offices of teacher If there were enough and to spare, w would like to see them very distributed through society, and presiding over all departments of enterprise pades and ploughs, and every such thing made of gold and silver; but as these mitals are scarce, and their quantity limited by the God of Nature, it is expedient that they be kept in the our results are scarce, and their quantity limited by the God of Nature, it is expedient that they be kept in the our results are scarce. And their quantity limited by the God of Nature, it is now item, that on Sunday night, as Rev. Mr. Gendzerouski (a Roman Catheren) If "the Lord of the harvost' sent forth more called and ordained hers than were imperatively needed as pastors, they would not go a begging for places or uses. On account of superior zeal and love for sonls. and more untiring and active devotion to the means of usefulness," they would make just sheriffs, conscientious legislators, God-fearing judges, honest merthey would doubtless often find opporwould doubtless often find opportunity of doing "much of what belongs to the peculiar work of the ministry. But what shift can the Church make for getting the "peculiar work of the ministry" done, when many of her ablest sters are only doing "much of what ign" to it? Preachers may do the Laymen, and do it well-this is d. But laymen cannot, dare not do the " peculiar work" of pre At a time when many of her best pership and unconverted world are Increasing upon hor, the Church claims full work of those that remain effective.

Something more is required than occasional contact with the "peculiar work of the ministry," such as coming in creasing upon hor, the Church claims the ministry," such as coming in sight of the pulpit once a week, or giving to electure upon natural philosophy a slightly religious turn; yes, something more—even this, that they give them-selves wholly" to these things.

lege, which, we believe, were as extenlive in their range among the students, and as permanent in their happy effects, since. So much for facts. We shall take up this matter again,

THE BEATITUDES .- In keeping with his caracter, when Jesus opened his mouth, it was to BLESS. The oxordinm of the sermon upon the Mount consist-ed of several distinct, great beatitudes. His heart was full of grace, and these first thoughts and first expressions were natural. How happy that soul to whose share, my one of these bestitudes, as they are called, falls! as to "be comforted." or to "inherit the earth," or to be "filled" with righteousness, or to "obtain mercy," or to "see God." But ich toward God."

### Tolerating the Heretics.

It is amusing to witness the impatient bearing of Papists in this city, within sight and hearing of Protostant account of such a Sahlath School as we parged out of the community by the our churches. When will the members pen, he gets nearer the end of the provital energy of Protestant principles. the "Jonrnal Officiel du Consoil de la 3me Mnnicipalite Public par, J. C. Prendergast." We rejoice that this Will not the life results of the Teacher French Catholic, with those revorend a fathers," whose organ he doubtless is, can only poke his fun, and not a faggot, minister ?.

" Religious Recival .- There has been, during he week, a 'protracted meeting,' or religious re-vival, going on in the Methodist Church, corner abroad long after 'the wee sma' hours ayout the twal,' and cannot pride ourself, at any time, on regular-habits or proper hours. When we pace the guardians of the night, are wraptin shunber—and the axiom, and state that no position is as notey as the church. On Wednesday hight, we were tempted from off the Leves by sounds not quite as musical, and much more volominous, than those of Jenny Lind. They proceeded from the Methodish Church, around which a crowd was collected. We inquired the cause, or If any difficulty had occurred, and were informed that nothing was the matter at all, unless the excitement occa-sioned by the heat of the weather and religious

Perhaps this meeting is proving troublesome to the priests, as net a few of their people will go there, and some have and been converted.

We are reminded, in connection with this matter, of some recont developmonts of

THE UNITY OF " MOTHER CHURCH! in this Third Municipality. The lately installed Archbishop Blanc finds it difficult to lead or drive some of his flook thore. They have become infcotod with liberal principles. Pity it is that Pins IX foannot conclude such a Concordat with our Government at Washington as has lately been ratified at Madrid, with Isabel II. A fair specimen of " Mother Church's" unity can never be witnessed and responsibility. And we should also beyond the limits of her secular power. like to see knives and forks, and spoons! The heasted followship of her members. The boasted followship of hor members, like that of the fellows and spokes of a

> olic clergyman,) was going to bed, ho was shot at through the window of his chamber. The following report of the proceedings of the Third District Court. on Monday last, in a case in which he is defendant, will throw some light on the matter with those whose notions of Papist morality have been acquired from history. Unfortunate assassin ! Why did you miss your aim? This last sin, had you succeeded, would perhaps have obtained absolution for all the sins of your past life. For a less hoinous and as service than yours, the doors of heaven have been unlocked to many a faithful one. What a misfortune to Archbishop Blano, that he has to take this poor priest through regular process of law-judge and jury! The Inquisi tion would make short work with him. Third District Court-Judge Kennedy-Antoin

Blane vs. Antonio Gendeerouski. This case is one of singular interest, and has excited a great deal of own by honorable it appears from the record that the soil was in

sitiuted by the Archhistop, by process of seques-tration, claiming possession and ownership of the Catholic Trinity Church, in St. Ferdinand street,

cies. The defendant gave bond, under leave of the court, with good eurety for the release of the sequestration, and obtained an order of court for each release. The Sheriff returned this bond to court, showing the proceedings as we here give

Concerning the second inference or proposition with which the Professor's article concludes, there is no disagreement between us.

Professor S. alludes to our indobted, and the professor's alludes to our indobted, and the professor's and the contemplated religious services by him were not interrupted.

On the Monday after, the 16th of Yune, a call was made, which runor ascribed to be fron the activity, in perbaps every period of its history, a majority were taken from the itinerant ranks." The allusion is unfortunate for our good brother's argument. We never knew that college more ably officered than when a Methodist layman was its President, and every Chair but one (Prof. Sim's) of a large faculty, was filled with. Methodist laymen. More: during this state of things, revivals of religion occurred in the cell-lege, which, we believe, were as exten-Ity of the Archbishap.

Tue testimony of this lawyer was, that the

paster was agitated, that the found some difficulty io writing the renunciation in French, and so the io writing the renunciation in French, and so the lawyer wrote the paper for him, and there, in the same room where he had been so assailed, assaulted and menaced—there, surrounded by the men who had so assaulted him, he signed he paper.

On the evening of this day, the lawyer called at the house of the pastor, in order to obtain a more full renunciation, but in this he falled; the pastor was ill and in anguish of mind, avoided the lawyer, retired to a grass plot in the rear of his church, where he had immelf down and wept. It seems to be considered from his despondency, for Mr. Much heatings that on the same evening, in his company, he sought the Archbishop, and holdly declared to him that the renondation he had signed was a builtry, for it had been entoried by menner, and he sakell to have it back. This was refused; the gaper was taken to the Sheriff, and under it the Sheriff acted as if, no bond for release had been given, and the keeps under the sequestration was again installed. Then the pastor sook the release held, from day to day, has been heloted the court during rule hours, and which, on Monday, was fully argued by Mr. Upon for the Archbishop.

late Commencement of Lagrango Coloh, how rich is his portion in whom two, tege, the honorary degree of D. D. was three, and of these beatitudes meet! conferred on Rev. J. B. McFerrin, of Truly, there is such a thing as being Nashville, Tenn., and Rov. R. H. Rivers, of Jackson, La.

## The Bible Class.

In a lotter of the foreign correspondont of the W. C. Advoents, we find an of the Church wake up to this imporpastimo, but an occupation, stoadily fel, and L. Ch. Advocato: lowed and thoroughly prepared for? herein referred to, compare favorably with many a "called and ordained" "I have availed mysolf of overy op-

portunity of visiting the Sabhath schools, and am gratified at the interest that I

see manifested. The best school I visited is that of the Baptist Church with which Mr. Nool is connected. It has been in a highly prosperous state for a number of years anterior to Mr. Nocl's relation to the Church. The numbers, the order and character of instruction, make it pre-eminent. The Rible class is vory large, and has been prosperous for liteen years—the result of the pa-tient labors of one faithful man. As it is remarkable for a Bible class to have a lengthy course with as-indeed, I may say that most of them fail-I felt a cu riosity to knew by what means this had been sustained so long. The teacher is a man middle aged, and well acquainted with the general history and dectrines of the Scriptures, and, withal, apt to it one loading object to prepare for his lessons thoroughly, and faithfully to emtheir people will go there, and some navo ploy all his faculties for the good of heen to the altar (not of the Virgin.) ploy all his faculties for the good of those who united with the class. The result has been the conversion of quite a number of valuable young men, who are now in respectable and useful sta-tions in life. It is very desirable to tions in life. It is very desirable to have good Bible classes connected with our churches, because there are many converts who have had no previous ro ligious training, and they are execed-ingly ignorant of the chain of Scriptuhistory, as well as its dectrines, and can not be expected to remain very stale, unless these are inculcated.

## As It Used To Be.

f all such wore directed to the Biblo

class, with as much earnestness as to our

regular classes, many more would be saved than at present."

In looking over that rich repository of Mothodist history, the Magazino, we fell by random upon the Report of the Committee on Education in General Conference of 1826 After recomnending the establishment of Classical Seminaries ander Annual Conference patronage, it goes on to direct hew a supply of teachors should be got. Far, vory far different from what obtains at present is this recommondation. Without professing an overweening attachnent to old times and usages, we do nevertheless wish for a return of things te about what was centemplated in this report, 'It shows pretty clearly the viows the Mothedist Church then enterentorprizes:

"Onr-Church-contains-multifudes of young men, not called to the ministry, who are qualified to teach, and many of these, as well as some of our local eachers of schools, it is believed there

attention to that part of Bro. Hofer's. roport, calling for aid in building a neat. commodious Church in New Orleans, for the Germans. They are numerous here a poor, but thrifty people. Onco nnder way fairly, they will maintain thomselves well. But they need help in the start. Foreigners as they are. and used to splendid churches, they must be attracted somowhat by the ontside looks of the building. They can hardly realize our little Missionary stations to be churches-respectable churches. About \$10,000, with what thoy have, would "set up" our Gorman, command immense congregations of their countrymen, and de more towards scription. ovangelizing thom in twelve menths. than under the present meager accommodations they can do in as many years. Will not some rich, benevolent Christian-lay down that sum of monoy? Many can do it, by united contributions. To this worthy object, of pressing necessity and promising rich results, we would like to open a column in the "Advocate" for publishing contributions. Who will start it with \$1000, \$500, or \$100?

digions catalogue he has been unfold-

" Little Evils .- As we are officially required to be absent from our pos connected with the business of Uhurch, for some weeks, the series, of. 'Little Evils' will necessarily be suspended, at least until our return. Whother we shall resume their discussion thon or not, will depend upon cir-cumstances. Some think, doubtless, that they have gone far enough to he suspended."

The Christian Advecato and Journal contains a cheoring communication from we hope in mechanical execution, not the vonorable Dr. Bangs, on the state in the least, inferior to any of these of the Church, (M. E. Church, North and South.) One who has known so ally made." well "the days that are past," may well afford to compare these days with these. An extraot:

" I presume to say, that in no one year since 1843, has there been such an ing athering of souls into the fold of Christ, and such a reviving among God's ministers and people, of the sanctifying influences of the Holy Spirit, as during the past twelve months. This is evident from the reports published in the Western Christian Advocate, Ziou's Herald, the Northorn and the Pittsburg Christian Advocates, as well as in the Southern Advocates. These all have come loaded with the most cheering intelligence from week to wook, of the awakening and conversion of souls; and some announce that the work of sanotification is going forward with encouraging success.
"With these facts before us, not to

acknowledge the goodness of God in those instances of his loving kindness, appears to me to be a sin-the sin of ingratitude. While, therefore, those who delight-if, indeed, they have any delight at all in any thing, except it bo in fault-finding in whining over the deselations of the Church, and in pertraying the deformities of her exterior organization, let us who see the hand of Ged stretched out to de us geed, and admire the exuberance of his grace in Christ Jesus, so manifestly displayed to the wandering some of men, praise Him for those astonishing acts of his match-less love to his believing people, while we evince our gratitude by going forward in the "werk of faith, love, and the patience of hope."

The Pittsburgh Christian Advocate thus speaks on the subject of arbitrating the suit:

Any settlement that might be ami eably arranged, would prohably command the approbation of nine-tenths of the Methodists on both sides of the line, and would chiefly be disagreeable to those who wish evil to both."

In reply to the query of a correspondent, "What are the advantages of intained about carrying on educational fant baptism?" the editor of the Northern Advocate answers:

" It is not easy to state fully the advantages arising from the performance of any Christian duty. This is espe whom would be more useful in such em-ployment than they can be in any other. servances. The symbelical or figurative ebaracter of such services, indicates preachers, were made sonsible of the obsourity. Rites of this kind are instigood they might do our Chnroh, even as tuted as a help te porception. Hence we are as little able would be no difficulty in supplying nuwords schools of our country with

The Toxas W. Banner re-appears. after an absence of two months, in an improved sheet. Extract from the leading oditorial:

"It will be gratifying to the friends of the Banner to loarn that some gen-tlemen in this city have generously as sumed its pecuniary responsibilities for one year, if net for more, with the confident hope of the zealous and perseve Christian Advocate and Journal, the ring co-operation of the ministry and inembership of the Texas and East Texas Conferences."

Bishop Paine writes to the R. C. Adoente ::

"From several letters which I have eccived from respected brethren of the N. C. Conference, as well as from cerain anonymous communications which have appeared in your paper, I learn that the plan by which I proposed to arrange the difficulties between the North and South Curolina Conferences at their late sessions, is not likely to give satisfaction."

## Domestic Missions.

ARCOLA MISSION ALA CONFERENCE To the Rev. W. M. Wightman, D. D., Arsislar

Pressurer of the M. E. Church, South.

\*Dear Brother—We herein present you our second Quarterly Report of the Arcela Mission. During the last year, we have received ten probationers, drepped twe, and expelled two monibers. We have twelve appointments and three meeting houses en the Mission. There are two hundred and twenty-one members and prebationers, and two hundred and forty-sevon under catechetical in-

struction.

The Mission, we think, is in a good condition at this time, and we hope to improve it yet more and mere. There are thousands of slaves in this portion of our Cenference that are destitute of the Gespel of Christ. The Missionary on this Mission is willing and able to to as much more preaching as he now lees; but there are few of the planters who are willing to give their negroes This confines almost all of our time to Sunday preaching: There are, however twe of our patrons whom we serve in the week; the others on Sunday. We hope the time will soon come, when we will have an opportunity of preaching Christ, and Him crucified, to all the destitute slaves of this wealthy section

And, Mr. Editor, we cannot conceive hew so many of our good citizens can chicot to their servuuts hearing the Gospol in the week. If they would but good degree; en the epportunities they afferd their slaves, they certainly would every one that bolioveth, whether he be master or slave, bend or free.

The prospect is very good for this master or slave, bend or free. The pres We can say much for these planters. Missien.

they feed and clothe their slaves so as that part of the city. There is a large to make them counfortable; yet these bedy of Lutherans, with a commodious, good church, right in sight of our little bedy fixed burnering, swearing, stealing, and committed the second country. There is a large our exponentions from that circuit are bedy of Lutherans, with a commodious, good church, right in sight of our little meeting is also to be a Missienary meeting; and there will be a logacy received. ting adultory, are common practices among them. These evils should be repreved, if possible. The lash and the orisen have been resorted to in vain, in mest of instances. If the Bible be true, the Gosnel will effect a reformatien, if one can be effected.

effect. They are yet in thoir sins, and into the windows of our little chapel. so are some of their musters and everand glorious work, ull, all whe have ever et further true, some who have made a profession of the religion of Jesus Rev. Rishon has wronged them, in ap-Christ, and have run well for a time, have denied the faith. And shall we make this a plea of laying down the weapens of our warfare, and giving up the field? No: we are not of them that are of a foarful heart. Our Divino accumulated an immonse fortune in a to go into all the world, and preach the foro tender our service to as many as we are able to serve; and we hope and pray that the time is not far distant priests and bishops, and if they cannet when we will have an opportunity of got their rights, to domolish the church proclaiming the Gospol to every slave and raze it to the ground. who cannot now hear the words of Eternal Life: W. less bliss or wee. Who is sufficient to his duties here: The word guilt of house it was late before I commenced to this duties here; to his duties here: The word guilt of house it was late before I commenced to the work for four years; speak, even, on these things?

charge against him. but independently appointments to the blacks, and a fow

I think this is one of the finest open ings for Missionary work that I have seen. Most of the plantors are not only willing, but auxlous to have their ser vants preached to. Men that are not members of any church, will turn out their servants in the week for preaching Oh, that God may bless them and their servants. Pray for us. Yours, ote.

Greenwood, Ln., June 24, 1851. DAVTON MISSION-ALA, CONFERENCE.

To the Rev. W. M. Wightman, D. D., Assistant Treasurer of the Missionary Society of the M. E. Church, South.

Dear Bro.—It becomes my duty to

send you my second Roport for this Mission. I have received, since my last report, on probation, twenty-one; in full connexion, eleven; baptized cloven able to erect better buildings for divise professed religion, as near as I could asprofessed religion, as near as I could as our labors. O, that the God of Discortain—one expelled—nine dropped—sions would stir up the Church at large one could married one hundred and to do grotter things for the glorions sixteen children under regular catcohot—cause of the Rodoemer's kingdom. ical instruction-all the Church oatetoresting to hear the simple story of their conviction and conversion, and then hear some of them thank God that the preacher to teach us poor servants ing-to-hear how forvently-they-pray for their owners and their teacher.

The children are advancing in some places rapidly. Some of them can answer all the questions in Bishep Caper's Catechism, and almost all the Command-

All, as far as I can ascertain, both patrons and overseers, are still plessed with the thing in progress, and we have their hearty co-operation; and though our field is still small, having but soven appointments, which we serve every other Sabbath, we have now before us the last quartor. Five others have requested to come into the Mission-so you see the fields are white to the har vest. May the God of Missions be with us, and give us favor with master and servant. Pray for us and our work. Your Brother in Christ. H. J. HUNTER.

Marengo, Ala., Juno 12, 1851.

To the Rev. E. W. Selion, D. D., Secretary of Missionary Society of the M. E. Church, Society

Dear Brother in Christ-I now wish to make my second report of the German Missions in Now Orleans. The Lord has spared the lives of

yeur Missionaries thus far, as also the ives of our families, and our healths. Ne doubt you are anxious to hear what your German Missienaries are doing in the Crescent City. This your anxiety I will try to relieve with this present report.

The first Mission is still in a good

condition up to this date. Though in the number of members we had to sustain a heavy loss during the last three menths; no less than 35 have removed with certificates up the river; 4 we had to cut off frem the Society, on account of disorderly and unohristian behaviour; time to hear proaching in the week, one has died with chelera, triumphant in the faith of our Lord Jesus Christ. Thus you see that we have lost about 40 from our ranks. The little army new censists of 40 members, who, I trust, are all valiant soldiers of Jesus Christ. During the summer season we do not expect much increase, but with the be ginning of fall and winter, we hope to recruit again. The Sabbath School connected with this Mission is in a prosporous condition.

The Second Mission is also in a pros pering state. Bre. Paulé is laboring with much zeal and faithfulness. Wo bad a little revival there during the menth et April; abent eight were converted, and several joined the Seciety. It numbers now about 38 mombers, and welcome and support the Gespel, which has a growing and flenrishing Sabbath The little Society is firmly

So far as we are acquainted with them, we shall yet have a glorieus harvest in squares farther eff, a large German Roman Catholio Church, with a large con-

gregation At the time of eur revival, the Dovil got right mad, or rather his sorvants; and as they could not break up eur It is true, we have preached to some meetings, a party of them instigated a of them for a considerable time to ne set of frish and Gorman boys to throw seers. And shall we abandon the work a few dollars worth of window glass. because all do not report and helieve the Gospel? If this had been a sufficient cause for desisting from this great and glorious work all all who have over break them. They however soon got ever confirms the epinion I have held preached before us could have brought treed of our patience and left off their for years—that our people will give naughty work, so that at present we are great Apostle of the Gontiles could have avoided the afflictions and persecutions which he suffered, if this had where; he therefore carried the war could be account. And it is been taken into the account. And it is spirit right among the Roman Catholic not to lay the blame at the door of the congregation. The people say that the preacher. More anon. Yours, truly, Master has given the great commission few years, but as soon as he saw the to go into all the world, and preach the storm approaching, he gathered up his Gospel to every creature. We there gain, left the flock and put for other parts. The congregation is now so curaged that they threaten to drive off

> Thus you see that the Holy Mother Church cannot always govern her children so easy as her priests protond to. Bless the Lord, if we have war without

tears before the but in the strength of Israel's God, to shall at last prevail.

Carrollton an a Datay etto are at pres. ent in a promising condition; there are Sabbath Schools, in both places, which seem to be prospering. Our local-hrothren are assisting us faithfully in

filling the appointments every Sunday, I doubt not for a moment that, were we able to build good houses of worship we able to bind oned houses of worship at all the points where we now preach, we could collect large congregations.

Our present meeting houses are small and inconvenient, especially for a southern-climate, where, during the greater ern-climate, where, during the greater part of the year, the weather is very warm. Being narrowed and straitened down thus, we can only depend to the few, in comparison with the hundreds and thousands that surround us that de not look at the fine building and

adults and six children About fifteen worship, we shall suffer much loss in our labors. O, that the God of Mig-

Allow me in conclusion, to corre chised, and there is a visible improvement in the membership. They seem lished in the first number of the New to be growing in grace. It is truly in Orleans Christian Advocate; there it says: " The Societies of these Missions their conviction and conversion, and then hear some of thom thank God that he ever put it into Massa's boart to invite Those Missions were burdened with a church debt, from their commencement, the way to heaven. It is truly touch but with perseverance, it has been paid down to \$300; and this we hope to be able to pay off in the course of ex-months. We did not wish to contract any now debts, whilst the old one stared us in the face, but after we have purged out the old leaven, we are very anxious o begin to build, at least one good ommodiens church.

O, if I could only interest the whole Chnreh, South, for the Gorman cause in New Orleans! were I able to portray with a masterly hand the moral and the spiritual destitution of my countrymed in this city, no doubt but that the whole Church would hasten to the rescue. It is true, she has spont her money, year after year, to sustain missionaries here, but the work is only commoneed; much, very much is to be done yet, in order to carry on the work more effectually.

We as your Missionaries, count no

our lives too dear to effer them up willingly and cheorfully. We are willing to sacrifice ourselves and our all in the glorious work of saving souls. We foar nething, so that wo may finish our ocurse with joy and win the crown of glory. We humbly ask the prayers of those that levo Zion.

Jenn M. Hoffer,

New Orleans, June 25.

Missionary.

### Missionary Meetings. My Dear Bro. Mc Tucire-Some time

has clapsed since I last wrote to you, in reference to the prespects of the Mis-sionary cause in the Montgomery Disrict; and as several important movements have been made in that time, I now proceed to furnish them for publication, that ethers may be proveked to an increase of zeal, and the friends of this cause may take encouragement. In the first place, I learn that the Tuskogee Circuit has now in eash acd good subscriptions, twenty-five hundred lollars, and we count on five hundred mere at the Camp Meetings, when they come on. The Lafayette Circuit is at werk, with their stundard fixed at \$2000 -the Crawford Circuit, with a colored Mission in its bounds, strikes for one or two thousand, and will come nester the last named sum than the first. The Mentgemery Circuit, with four appointments aud a small membership, agrees to raiso four hundred dollars, aud I have in hand now an individual denation, from one who is not a member of any church.) of one hundred dollars which will make up the amount of five hundred for the circuit. The Haynesville Circuit, with only one hundred and fifty white members, agreed to raise five hun dred dollars; but last Sunday wo held a Missionary meeting, at a country spect is vory good for this ohurch on that circuit, without previous noting the least that notice, and raised more than three hundred dollars, as an experiment; so that show than we do. There is also, a few from the bounds of the same circuit of four hundred dellars.

I am now on my way to the last quarterly meeting of the second round, and when that is held, I can come vory near telling what will be the sum total reported at Conference from the District I have said nothing about the stations, hecause I take it fer granted they will not fall below their duty. I know the men who fill them, and will vouch for

in Christ, O. Montgomery, Ala., June 25, 1851. O. R. BLUE

" IT'S ONLY ME."-A lady had two childron—both girls. The older was a fair child, the yeunger a beauty, and the mother's pot. Her whole love centered in it. The elder was neglected, while "Sweet," (the pet name of the yeunger) received every attention that affection could bestew. One day, after a sovere illness the mether was citating in the illness, the mother was sitting in the parlor, when she heard a childish foot step on the stairs, and her thoughts were instantly with the favorite.

"Is that you, Sweet?" she inquired.

"No, mamma," was the sad, touching reply, "it isn't Sweet; it's only mo."
The inother's heart smete her; and
from that hour "ouly me" was restored
to an equal place in her affections.

Death of a Good Man. - Rev. Daniel Mclillos Some of the appointments were to hut mighty through God to the pulling living as there had been no preacher down of strong holds. In this city among our market between the street City Missionery of the appointed to this work for four years;

Discovery in Egypt.—A most interesting discovery has been roade in Egypt. It is known that there exists in Mount Zabarah, situated an an island in the Red Sea, a mine of emeralds, which was formerly worked by the packas of Egypt, but abandoned in the last years of the reign of Meliennet Ah. An English company have solicited and recently obtained authority to resume the working at this mine, which is believed to be still rich with precious stones: Mr. Allan, Sic. againgt of the company, while directing cooke in portents account to the precious at the most remote antiquity. Upon traces of an accient gallery, which must evidently be referred to the most remote antiquity. Upon removing the rubbish, thay found tools and ancient neutralish, end a stone upon which is engreved a hieroglyphio inscription, now partially defoced. This circumstance proves the truth of the opinion expressed by Belizan, on the airgingth of other indications, that this mine was worked in ancient times.

The anima Bureau, by making routeau, foot fine united and shells, without the sanction of the Secretary of War.

2. Wilfful, disabedience of the order to the secretary of War, which are just the most removal and are in the supplied of the order to the supplied to the most removal and ancient neutralish, and a stone upon which is engreved a hieroglyphio inscription, now partially defoced. This circumstance proves the truth of the opinion are pressed by Belizan, on the airgingth of other indications, that this mine was worked in a ancient times.

The arithment of Regulation 182 of the Ordenname Bureau, by making routeau, by making rout

times.

The nature and farin of the implements discovered, and the configuration of the gallery, the plan of which has been readily traced, prove most conclusively that the encient Egyptians were skilful clusively that the encient Egyptians were skilful engineers. It seems from examination of the stone which has been discovered, that the first labors in the unine of Zabarah were commenced in the reign of Sesostris the Greet, or Ramsos Sesastris, who, according to the most generally received opinion, lived about the year 16:0) before Christ, and who is celebrated by his immense conquests, as well as by the sungmerable monuments with which his covered Egypt. The NewYork Senate was warmly engeged on as the Eric Canal bill on the Eit ultre. the first of the line, and will sall from New York on the 14th of July, direct for San Juun, from whence passengers will be transported by the river and lake, in a new lron stenmer, to within twelve miles of the Pacific, and from thance on a good roed to San Junn del Sur, whera the ocean stemmer Pacific will be in readings to transport them t California. It is confidently expected that the trip from New York to California by this rente will be from six to eight days sharter than by the Istinaus,

Culifornia Daud Letters .- In Washington City, on Monday morning, 23d ult, about one hundred thousand dead letters were received at the General Post Office from Snu Francisco. They have been there accumulating ever since that office was established. The Postmaster General embeavered to get Congress on to modify the law as to authorize their being opened at San Francisco. The modification, however, was not reached -so all the dead letters are thus transmitted to head-quarters.

New York Mortality .- The weakly report the City laspector, down to June 22, gives 363 desthr. Of these 212 were children under tea years of age. Porty-two deaths, were caused by maumpilon, and twenty by typhus fever, which t appears is rapidly estending over some section of the city. This report presents an increase of twenty-two deaths over that of the week previous.

Woulth of South Carolina -The entire tareble capital is \$143,164,946, of which slaves at three hundred dollars each constitute \$109,345,508... The State jandor 1850 was \$329,907 80, and of this the alevarpaid 6204,111 60.

Saturday lint, bas a cheering article on the pros-

prets of this road. We copy this much to show public feeling:

"Siece the meeting of the Railroad Convention in New Orleans, our citizens are more ununinous, in their helief that the railroad enterprise will succeed. For u time, many entertained doubts of its expediency, but that, time has passed away, and the public are now almost unanimous on this subject. The proposal for taxing the entire people of the Parish, of course, has to be submitted to a test, but we entertain no doubts that it will stand the test successfully. If carried out, it will evidently redound to the interest, and pecuniary welfare of the Parish at large.

So lar, every thing pertaining to the road has progressed hundsomely and hurminously. The hopes of the most ardent and zeulous in the cause, have been input signally and happily realized, while the prospects for what remains to be done, are-every day becoming brighter.

Attack on a Mail Carrier.—The Planters Base public feeling :

Attack on a Mail Carreer .- The Planters Ban aer, of Saturday last, says, that as the Mail-carrier from Opelousas wes on his downward trip, a few nights previously, he was hailed by a mass agar Graed Cotean, who commanded him to stop and made a thrust at him with a cane knife. The mediately the mail carrier fired at the highwaymen, who decamped. It is not known whether he was wounded or not.

From Havana.-Lettere from that town dated June 22, received in Charleston, S. C., hy the teamsitip Isabel, say that the city continued quite enithy, eithough the rainy season had cornine med The crops of tabacca were arriving very fest. The article was of good quality, and very pleatiful, but the price rather high.

The Army Uniform - A great revolution has been ordered in the draw of the army. Among the miscellaneous, is one ordering "the hair to be worn short, or what is usually termed cropped; the whilekers not to extend below the lower tip of the ear, and a line thence with the curve of the mouth; moustaches will not be wora, excapt by avalry regiments, by officers or men, on any pre-The code consists of 218 articles, providing for

Pacific Railroad Celebration .- The Directors of the Pacific Railroad Company held a masting at St. Louis on the 24th ult., to make arrangements for the celebration of the important event (on the 4th inst.) of breaking the ground of the first Hail-road in Missouri, Edward Bates is to deliver the address on the occasion—and a brilliant performance is expected. Tha Governor, Lieutenant Governor, some members of Coogress and other dignitarie

ure expected to be present. Stabbing in Clinton, La. - On the evening of the 24th ult., just us darkness had set in, a man named West, a mooper by trade, was stabled in the breast by a Spanierd named Benit, in the town of Clinton; in this State. Feare were entertained that the wound would prove mortal, end the principal and accessory were lodged in the perish jail to await trial next November.

" A Few More Left."-Smith, the origina razor-strop man, having furnished avery man la opened a large funcy-store in New York, where he is offering warrented brass clocks for one dollar aed a thousand and one useful Yanken notions a equally low prices.

New Orleans and Jackson Railroad .- A meet rig wan held in Aberdeen, Mississippi, on the 4th
Juce, to consider the practicability of a railread to
Jackson, to esancet at that point with the New
Orleona and Jackson Railroad. There seemed to have been considerable enthusiasm. A committee was appointed to prepare an address to the people of New Orleans, Jeckson and Vicksburg, uniting their co-peration, and recommending energetic oction. Chancellor Cocke was appointed to represent Aberdeen in the convention to be held in Jackson on the first Monday of this mouth.

The Props on Florida .- The Floridian and Jour-The Crops or Florida.—The Floridian and Jourand of the 21st inst. says:

There has been a giod deal of rain, but we here
of some sections where none less yet fallen. It is
to be lioped that the corn crops, which were an a
had and precations state; will be improved by such
weather, and that even yet our enantry will make
a full supply. The cotton, we hear, is rather apotted. In some placea, though a little hackward, it
is doing well; while in a here, the prespect is
gloomy. There are some large plantations with
hundreds of urres not yet up—the grass copper haying cut down the earl or planting, as as to render
entire re-plaining teressary. On the whole, our
planters are moch discouraged by the present
showing of their fields.

Nu Sugar from Texas - A writer in the State Gazette, in speaking of the prospects for a sugar enquin the lower part of the State; saya:

oran in the lower part of the State, saya:

"Since the first of Jannary, last, I have visited all the sugar plantations in the low country, and you will be surprised to learn that planters with 300 acres in case, in many hestances will not make seed for another crop."

# NEW ORLEANS MARKETS.

OFFICE OF THE CHARTIAE ADVOCATE,

OFFICE OF THE CREITTIES ADVOCATE, Friday, Intr. 4, 1854.

Dur general market has not presented an achive suppearance idoring the last five days—though for one or two articles of domestic produce there has been a fair demand. Gotton for one or two days net with a good log dry at the priess quoted in our him weekly report, but the Article name had the effect to unsertle the number. The more reliable of the disputches, containing the Africa's accounts, state the advances upon the few and middling qualities at lad, while they report no actual without one for the higher grades. The cowar, inviewer, is countered very favorable. Tobacco with us has continued all and decopping. Figur has improved in police of most descriptions, and Core has generally sold at tail raise for prime qualities. Bason has also shown an unproving tendency.

The next steamer dus froto Ecrops is the fultio, of Colline's American Line, which was to have left Liverpool on the 25th off, for the W York.

Cotton—There has been a continued difficulty in negotiating Hilfs of Eashauge, which, has head a time seng effect upon piloss is our Cotton marker. Hance, not within tanding the inversible accounts by the Europs; the rates here required without improvement. On Saturday the lequity was very moderate, and they have see reached only some 1500 bales. On Masday more buyers come forward, and 2500 bales were taken; and on Towards there was a much burse legality, whoto resulted in cabes of visus to the recept of the Africa's account, about 1600 bales lead been soul, but as fautors were accounting by the favorable accounting the favorables and they are affected by the favorable accounting the favorables and they are affected by the favorable accounting the favorables and they are affected by the favorable and the production and the favorable and the production of the favorables and the subsequently. Y setsody the favorable for the favorables and the subsequently, and all all the United States' ports there is our increase of 280,785 bales. We still quest 1 a

Intes, or Tauhtes, (called Indifferently by both name.)—From the latter name, the name of the pryvilice af Thehnso or Texas is derived. The Intes live about twenty five miles west of Natchitoches, on a small river, a branch of the Sablne, called the Mutchez; they are, like all their neighbors, diminishing; but have now sighty men. Their ancesturs, for a long time, lived where they now do. Their language is the same as that of the Caddoes, with whom they are in great amity. These Indians have a good character, live on excellent land, and raise corn to sell.

NABERGERES.—Live on the west side of the

TANKAWAYS, Or TANKS, as the French call them, have no land, nor-claim the occlusive right to any; nor have any, particular place of abode, but are always moving, alternately occupying the country-watered by the Trinity, Brasea and Colorado, towards Santa Fe. Resemble, in their dress, the Cances and Histian; but all in one horde or tibe. Their number of more is about 200; are good hunter; kill buffele and deer with the bow; have the best breed of horses; are alternately friends and cuemies of the Spaniards. An old truder lately informed me that he had received 5000 deer-skins from them in one year, exclusive of sallow, rugs tongues. They plant nothing, but live upon wild iruis and fissh; are strong, athlatic people, and axcellent horsemes.

bim (my laformaut), with a thousend dollars, for the purpose of recovering his daughter. He in the cellately dispatched a confidential trader, then in its employ, with the one thousand dollars in mersuands, who repaired to the nation, found her, the purclassed, har ransom, but, to his great aurries, she rafused to return with him to her father, and seet by bim the following messags: "Dut the adiata had disfigured her face, by tattooing it, according to their fanoy and ideas of becausy, and young man of them had taken her for hin wife, by whom site believed herself pregnant; that she had become reconciled to their moda of life, and was well treated by har husband; and—that—she ebould be more unhappy by returning to her father, under these alreams are the trader by a present of three hundred dollern anore, for his trouble and fidelity, end his daughter in now living with her Indian husband in the nation, by whom she has three children.

of three hundred dollers more, for his trouble and fidelity, end his daughter in now living with her Indian hunband in the nation, by whom she has three children.

Natourrooutes, formerly lived where the town of Natehitoches is now situated, which took its name from them. An elderly French gentleman stelly informed me, her remembered whea they were 600 men strong. I believe it is now ninety-eight yeers since the French first established themselves at Natehitoches; ever since, these Indianshave been their stendy apd leithful friends. After the massacres of the French inhabitants of Netchez, by the Natchex Indians, in 1728, those Indianshave been their stendy apd leithful friends. After the massacres of the French, alter being reinforced, and came op Red River, and camped about air miles below the town of Natchtoches, near the river, by the wide of a small dake of clear water, and erected a moved of considerable size, where it now remnins. Monsiear St. Dennie, a French Caaadian, was a brave man. St. Dennie, with a few French side in the Big-foot; were fond of him, for ha was a brave man. St. Dennie, with a few French sodders and what milltin be could muster, joined by the Natohitoches Indians, attacked the Natches and what milltin be could muster, joined by the Natohitoches Indians, attacked the Natches to tally defeated by St. Dennie, and what of them were not killed to battle were driven into the lake, where the last of them perished, and the Natchez Lake. There are now remaining of the Natchitoches but twelve men and nineleen womea, who live in a village about twenty-five miles, by lend, above the town which hears their name, trear a lake called by the French Lac de Muire. Their brighted have the came rights to it from Government that other inhebitants in the neighborhood lave. They are gradually wasting away; the small pox has been their greet destroyer; they still preserve their Indien dress and habits; raise corn, and those vegetablencommon in their neighborhood.

Bolusoas, are emigrants from near Penascols

and those vegetablencommon in their neighborhood.
Boldwoas, are emigrants from near Pensacola; they came to Red River about forty-two yeers ago, with some French formilles, who left that country about the time Prenacola was taken possession of by the English. They were then a considerably aumerous tribe, and have generally embraced the Roman Catholic religion, and were very bighly esteemed by the French. They settled first at Avoyelles; they noved higher up to Rapide Bayon, about forty miles from Natchitecies, where they now live, and are reduced to about thirty in must ber, Their netive language in peculiar to hemselves, but meak Mobilian, which is apoken by all the Indians from the cast side of the Mississippi-They are hopen, haraless and friendly people.

APALACHIES, are likewise emigrants from West Florids, itom off the river whose name they hear; cause over no lied River about the same time the Butuccas did, and have since lived on the river, above Bayon, Rapide. No nation has been

languages, and Mobilian; most of them French, and nome of them English. There is another party of them; whose village is on a small creek in Opeloisus district, about thirty miles northwest form the Church of Opeloisus; they consist of about furly men; they have lived at the same place ever since they came from Findia; are said to be increasing a little in numbers for a few years past; they raise corn, have horses; hogs and cattle, and are harmless, quiet people.

Canonarraa, era aimost the same people as the Alnamas, but came over only un years ago; first

are harmless, quiet people.

Canonatta, en aimost the same people as the Alahamas, but pime over only ten yenrs ago! first lived on Hayou Chico, in. Opelouses district; but, four years ago, moved to the river Sabine, estited themselves on the east bank, where they now live, in nearly a south direction from Netchitoches, and distant about alghty miles. They call their number of men one hundred nad elxty, but say, if they were allogethor, they would amount to two hundred; several families of them live in detached settlement. They are good numers, and game is plenty about where they are.

A few years agn, a small party of them were litre, consisting of fifteen persons, men, women, and ebildren, who were on their reiern from a bear hundred and eighteen, but this year an uncommon number of bears have come down; one man alone, on. Sabina, during the summer, and fall-huntley, thiled four beadred deer; sold bis skins at forty dollars, a headred. The bears, this year, are not so flat as common; they usefully yield from eight to twelve gallons of oil, which eever sells for lesse than, a doller a gallon, and the skin a dollar more; no great quantity of the meat: is eaved; whet the hunters don't use when out, they generally give to their dogs. The Conclustus are friendly with ell other Indians, and speak well of dieir neighbors, the Carankouss, who, they say, liva about eighty miles south of their, on the hey, which, I believe, is the nearest polat to the sea from Netebitoches. A few families of the Chociaw have lately settled near them, from Bayou, Bouf. The Conclustus apeck Creek, 'which is their native language, and Chociaw; and several of them, English, and ane stem dear them, and the skin a dollar more; in order to a parile called Cooko praire, about forty miles southwest of Natchitoches. These people are likewise emigrants from West Florida, about forty yeers ago; their village is about fifty miles southwest of the Conclustus; are sall to be increasing a-little la number; quiet, peeceable not friendly people; their o

crassing a little in number; quiet, peeceable and friendly people; their own language differs from any other, hut speak Mobilian.

ATTATATA.—This word, I em informed; when translated into English, means man-enter, but it is no more applicable to them than eny other Indians. The district they liva in lecalled after them; their village is about twenty miles westward of the Attakapas Church, towards Quelqueshoe; their number of men's about fifty; but either Ranicas and Humes, who have married in their nation, and live with them, make them altogether about eighty; they are peaceable and friendly to every body; labor occasionally for the white inhabitants; raise their own corn; have cattle and lives; their language and the Carankouas is the seme; they were et, or near, where they now live, when that part of the country was first discovered by the French.

OPELOUARS.—It is said the word Appaionse, in the indian language, means black-head, or black-head, by their name; their village is about fifteen miles west from the Opelouass Church; lave about forty men; their native language differs som all others; understand Attakapas,—and speak French plant corn; have entra and bogs.

Tunto as.—These people formerly lived on the Bayout Libnica, above Point Caupée, on the Mississippi, east side; live now at Avoyelles; do not, at present, exceed tweaty five men; their native language is peculiar to themselves, but speak Mobilian; are employed occasionally by the inhebitants as boatmen, etc.; in amity with all other people, and gradually diminishing in numbers.

Pascaoollas.—Live in a emuli village on Red River, about sixty miles below Netchitochen; are emigrants from Pascagoula River, in West Florida; twenty-five mea only of them remeining; speak Mobilian, hut have a language peculiar to themselves; in a second of the country years are remedired to about twenty-five men; their village is within one mile of the Pascagoulas, on the opposite side; but bave lately sold their lands, and have, or are about moving to Bayou Rapide, on Re

water. The Bayou Bout falls into the Chaffell, and discharges through Opelousas and Attakapas, lato Vermilion Bay.

Wastita.—When the Franch first ceme into the Mississippi, thin nation lived on an island to the southwest of NewOrleans, called Barataria, and were the first tribe of Indiens they became acquainted with, and were always friends; they afterwards lived on Bayou La Fourche; and from being a considerable netton, ere, now reduced to five persone only, two men and threa women, who are scattered in French families; have been many years, astinct as a nection, and their language lost. Choorawe.—There are a considerable number of the aatlon on the west eide of the Mississippi, who have not been like of the Mississippi, who have not been like of the Mississippi, and have liked there for several years, and made corn; and like wise on Beyou Chicoc, in the northern part of the district of Opelousas, thera is another village of them, of aluat fifty men, who have been there for about nine years, and say they have the Governor of Louislana's permission to settle thera. Benidee these, there ore rambiling lunning parties of them to be met with all over lower Louislana. They are at war with the Ceddoquies, and liked by neither red nor white people.

Aakansaa.—Liva on the Arkansas river, south side, in three villages, about twelve miles above the post or station. The name of the first village is Taylor of the country on that river, to all which they are at war with the Ceages, but friends with all other people, white end, red, far the originel proprietors of the country on that river Cadron with

Deguerrectype Portroits.—Mr. Beard, of King William street, has recently added another to many improvements he has accorded in making in the Dagnerrectype process. The latest improvement counsists of a mode of enemaling thas liver plata, by means of which it in and liable to be tarnaished, add it may even be washed like as oil painting, without sustaining ony tinjury. The advivantes does not stop hete, however, for under this improved process the colors acquire o brilliancy and depth of two hillests washed by the specimen now exhibited in Mr. Beard's gailery will be recumen now exhibited in Mr. Beard's gailery will be a reamparison with the best tabiletties. He had been now exhibited in the process the colors acquire of of the specimen now exhibited in Mr. Beard's gailers with the specimen of the Sabbath. It occurred in a speech make on a capital trial:

"It was a nutried Description of the Sabbath.—Mr. Robinerion of the Sabbat

Pouting House.—In many gentlemen's housen in France, there is an apartment, of ac octagonal forth, twelve or fifteen feet across, and thirty-six or forty-live feet round, and the eight sides, on well as the celling above, are of the most polished glass mitrors; so that when o men stands ic the centre of the room, he were timiself in every direction; multiplied in a row of selfs, as far as the eye can can extend. The humor of it is, that when the lady of the house is out of temper, when the is angry or whee she weeps without a cause, she may be locked up in this chember to pout, and see is every direction, how beautiful she is.

cure its of want af taste in the construction of edificen, publicand private. A writer in the National Intelligencer expresses our views on the subject so

Intelligencer expresses our views on the subject so apily, that we transfer his incubrations to our columns with great pleasure:

My principal object in writing was simply to attract the attention of the community to the want of urchitectural heauty, both asterior and interior, in the construction of private dwellings. In van may that coursey erect huildings requiring architectural proportions, to beautify and adom the city, if private dwellings continue to be mere looks of brick and mortar; like the Honse of Pansa, the vity will appear a combination of magnificence and meanness. To errange materials in architectural urder and proportions embrace no mora time or expense than putting the semu meterials in an uncount form, disagreenble to the eya and contary to good tasto. Let us look around us and see if we cannot, like the Pompeilans, find near ne tha materiel for orignal limitatione. The late Dr. Thornton established an order which he called the Columbinn, the shaft in the pillar was the cornstalk, the head a half open ear; these pillins can be seen in two pleace in this city—in the Capitol and os the corner of some of the Pinent Office cases. The light and airy eppearance of these columns peculiarly adapt them to inflernal orinmental architecture. He also used the tobacco flower as an ornament instead of the lotus. Thase can also he seen in the mmall rotunda in the Capitol, near the pheaulful flowers than ara produced on the American tulip tree, the laurel, and the wild jasmine, could be selected for ornamental architecture; the lobecto leef would give as bold o display above the column as the ancient thistle; as ornament instead of the lotus. These can also he seen in the small escalery, woodland-lakes, wild indian legends, would furnish subjects enough for the citoracter-of oil the rooms in the hours, from the keullery to the saloon. We would not then have our tastes shocked and sepres palned by red brick bours and lawyers and meanness of yeld which invey been recently mede shipnents of yeld which invey bee

Exports and Imports of Specie. — The large shipments of gold which inve been recently mede at New York, end the probability that they will continue for some time to come, have excited some attection is our monetary, circles, and have attracted the attection of gootlemes coaseoted with our Beake;

5,833,477—\$24,076,638

Excess of receipts, over shipments to this time. \$7,071,811

To this excess must be edded the larga amoust brought into the country by emigrants within the same period, which we should think could not be less than seven or cight-millions more — so that if this estimate be correct, we still have a surplus of imparts of gold, over our exports, of some fifteen nillione of delice. The letest latelligence from Cahifornia leeds us to appose that thera will be a lerge increase of our receipts during the preneat year-from—thet—State; and under these circumstances we can eee no reason for any apprehensioe, year-trom-thet. State; and under these circumstances we can eee no reason for any apprehensioe, as to a diminution of the amount of the precious metals in this country, or any probable necessity for our Baaks to curtoll their discount lines; for several monits to coma. We look, therefore, for the continuence of an eeey money market during the eunmer, and feel some pleasure in the idea that our businesse men cen break away for a month or six weeks from their daily toils, and eeek anne or six weeks from their daily tolls, and esch some reel in rural shedes during the heat of the session without heving their minds herassed about their bills peyable, or their discounts at Beak. [Phile Bulletin, 21st.]

Bulletiu, 21st.

The American Institute of Homospethy hee just closed its annual session in this city. Many distinguished physiciens from different parts of the United States were in attendance, and the curative effect of medicines upon the human system wes most ably and thoroughly discussed. Fourteen physiciens, all of whom were gredneten of the different medical schools of this country, offined the uneverse for memberaling of this thody. On Wedoe sday 'evening, Dr. Swezey, of Springfield, Mass, 'delivered e most able and interesting address at the Temple, in this city, before a large and respectable andience. The meeting adjourned to meat in the city of Baldmore oo the third Wedoesday in May, 1862. [New Haveo Palladium.

Social Intercourse in China.—The Hong Kong

Social Intercourse in China .- The Hong Kong Registor aaaounces, with much gratification, tha the Chiaese resideats la that city have begun to ellow their ladiento enjoy sociel latercourse with the wives end daughters of the barbarians:

We have learned that on Tuesday last several English ladies were introduced at the realdence of Howqua, to the ladies of his establishment, and than on Friday in return visit was made by the Chinese ladies. This is tha first time that any Chinese ledies have been within the foreign dwellings and, from all-accounts, they were highly delighted with the welcome greeting they met, and after much seeind chit-chat took their leave, promising at an early date to retiev an intercourse from which they derived so much pleasure.

the New York Courier, alluding to the feerful mortality in that city, says: "I would call your attention to the statistics obtained from the City Inspector's anunel reports, which show that the rate of mortality has increesed since the year 1850 ?

cained t
General Echleique, the tinw President, receive
the Executive authority on the 20th of April. The
occasion was signalized by two events of very diferent cheracter—the opening of the railroad for
Calleo to Lima, and the breaking ent of a real
of Arguing. It appears that a conferent cheractor—the opening of the railroad from Calleo to Lima, and the breaking cut of a revolt in the city of Arequipa. It appears the a company of the Triends of General Echinique were assembled togetheren the 20th of April, celebrating the Inenguration of the new President, which took place the same day in Lima. In the heat of their onthusiasm, they hung eat a banner, inseribed "Viva Jose Rufio Echinique!"and saluted it with obsert. This was distasteful to the population, a majority of whom were friends of Vivanco, the defeated condidate. They collected in groups, and began to cry out, "Down with this home? I'll One of the opposite party, a Col. Lopez, ordered out a troop of eavaity, and attempted to disperse them. This brought on a collision—Batricades were thrown up, a general fight commesced, and each party hegan a plunder of the include the disperse them. The Prefect of the city attempted to quell the disturbance, but without effect. The people fired on the town of San Francisco and the harracks of the soldlers; the belie were rung in all the observed, more the city. Some of the prominant inhabitants then exerted themselves to restore peace. A dequiation was sent to the Prefect, who amered the city of the prominant inhabitants then exerted themselves to restore peace. A dequiation was sent to the Prefect, who amered the city of the prominant inhabitants then exerted themselves to restore peace. A dequiation was sent to the Prefect, who amered wounded, the colders being the greatest sufferers. At the latest date, the 28th of April, there was still some excitement among the citizens, and it was still as the city of the prefect of the city of the prefect of the city of the prefect of the city of the prominant inhabitants then exerted them to one of the prominant inhabitants then exerted themselves to restore peace. A deputation was sent to the Prefect on the 19th insteader of the truncation of the prefect of the city of the

learn from the St. Louis Intelligencer), a man named Nichols killed acother aemed Thompson

named Niohols killed acother aemed Thompson, five miles best of Oquawka, under the following peinful oircumstances:

Nichols, with a party, all residents of Oquawka, started to the woods in search of a peather.

Thompson, living is a coucity near by, was out alone on the same raission. While strolling through the woods, about five miles from town; Niohols caw, a busb abaka, aed without thought, fired his gun iato it. Not dreaming of the injury done, and supposing the bush was merely shaken by the wind, the party did not stop. The dey following I hompson's lifelese body, with a hullet hole through the neck, was found concealed behind the branches of the ideolical hush iato which Nichols hed imprudently, but no doubt isaccently. Inred his gun. From appearances Thompson died elmost without a cruggle.

Manufacturing, Integrate The Bester Aller.

Manufacturing Interests.—The Bottoe Atlas, of Saturday, states that the following neraed compenies have ascertained their losses daring the past season to be the sums put against their respective coames—making an aggregate loss of \$246,000 by six mills only, out of the many how in operation throughout the country:

\*\*Risk\*\*

From Venezuela.—Reports were gazerally content et Caraccae about the S1st ult, that ao expedition wes organizag in the United States for the avasion of Venezuela. The President, Monega wen seems to be a helicver is the story-having akee-such messores as will prevent the landing coldiers of eny sort on the coast.

Another coaspiracy to overthrow the gazerance.

sakes such messoires as will prevent the landing of soldiers of eny sort on the coast.

Another coaspiracy to overthrow the government had hee a discovered, but whet its objects were, or whet kind of system it was proposed to establish in plece of the Monagas administratioe, does not very clearly appear.

A Sr. Lucio Pulido has receatly beec appointed Minister from Veacuela acar this Government. (New York Esprese, 21.

A Breast plote for Soldiera.—In Peris a new kind of culrass for the use of the army is shortly to be tried. This cuirass is of vulcasized India rubber, about half als inch thick. This thickness, it is clated, is more than sufficient to resist the action of a ball projected from any kind of fire-arm. All the experiments tried have proved actively successful. The force of the ball is complotely broken by the clasticity of the India rubber, and it falls on the ground at the feet of the person against whom It was sent.

Rove

O.,

The field is the world .- Mat. 13: 38. The world, in both the literal and

Before this century closes, our example will doubtless work as great wenders in Asia and in the Pacific Isles, as it hath already wrought among the masses

in placing a free nation on this continent. Observe these steps.

California was, less than four years

its miacral treasures.

la 1493, one year after the discovery of this continent, the Pope granted the whole of North America to the crown of Spain. At that day, Spain was not the Spain of 1851. She was in the zenith of her power and glory, when she received from her spiritual Lord that immense demain. Nor was she a laggard, in her efforts to "enter in and possess the land.". Withiu fifty years, she fitted out four different expoditions for sottliag the country and establishing Popish Missions, the last of which was led by the renowned De Soto, one of the early Gevernors of Cuba. All these enterprises proved disastrons. these enterprises proved disastrons; and all subsequent attempts by the Spanish Government to rondor her imperial demain in North America a prome better thing for us."

While these efforts were in progress, and for fifty years afterwards—that is to say, for an entire century after Spain was endued with so noble a gift—no of fort was made to occupy that extensive the northwest coast, and the migration thousands.

Soon after the year 1600, however, onr forefathers hegan to settle along the Atlantic coast; and at the same time, ths French commenced colonizing Can-ada. Thus, the little band of Pretestauts, mest of them flying from persecution in the sountries east of the Atlantio, were hemmed in, north aud south in the asylum they sought in this Western land. Their antagonists, on either hand, although belonging to different aations, were of the same one faithboth alike subject to their one spiritual

Soversign, the Popo of Rome.

The French, founding Quebec and
Montreal, extended their sway westward
along the Northern Lakes. In twenty or thirty years after tho landing of our fathers at Jamestown and Plymouth Reck, the foss of their pence had ponetrated as far Wost as the southern shere of Lake Superior. "Not a river was entered," says an eminent historian. "not a cape was turned, but a Jesuit led the way." Lighting upon the sources of the Mississippi River, they explored that mighty stream, and took possession of the whole country down to its outlot at the Gulf—and all this, within threefourths of a century from the time that the little bands of omigrants, on the waters of James River and Massachusetts Bay, began their " work of faith,

ber of love." Thus, iu two cepturies after North America was given away in bulk to Spain, the Pope, from his throne at the Vatican, looked forth upon his devoted subjects on this centinent—the Spanish along the entire South, in Florida and all the fegion southward; the French, along the whole western valloy, and thence eastward to Nova Scotia—entirely girdling the Protestant band, as

far as the sea would permit. Thus it was, less than a century ago. In 1755, a bleody contest was raging on the head waters of the Ohio, between the two parties our fathers on the one side, and the allies of Rome ou tho other—each contending for the proprie-tership of the countries watered by that heautiful stream.

It was not until the year 1763 that the sceptre hegan to depart from our antagonists. They it was that they

\*For an souple elaboratian of the views glanced at under this head, see an article headed. "The United States as they Ara and as they Were," coatained in the American Messenger for March, 1851, and accompanied by a cerographic map or the original domain. The Messenger is published monthly, in English and German, at 114 St. Charles street, New Orleans. Ha circulation is said to be about 175,000 copies.

guished, as we trust, for ever.

Hitherto, the "stately steppings" of Jehovah have been seen in all our national career. He hath plantsd, in the of Europe.

In view of these approaching events, hew amazing are the steps whereby God, in his Providence, hath moved forward the center a moral surremacy over all the other powers of the earth.

the other powers of the earth.

2d. Consider our wonderful history.
On this point we wish merely to reage, held hy an imheelle and ignorant mind you of one remarkable fact; and moe of men, who had occupied it for three hundred years, without knowing It is this: that God, in his All-Wise Providence, and in great kindness to us, us a nation of benefactors to mankind, hath uniformly kept in reserve his more than royal gifts, until we were prepared

Another instance: Louisiana, eu-bracing the territories from the Missis sippi River west to the Pacific, with its perial domain in North America a pro-vince and appendage of Popedem, bave alke failed—"God having provided steam navigation for its development. Accordingly, it came into our possession in the infancy of that powerful agent.

> > [To be cantinued.]

A SIMILE. A wearied bird, on wounded wing, Came seeking of its nest,

But, with life's last remaining spring, Her little charge she prest.

Not such the hope, inspired his song
Who carolled for her all day long.

'Twas their first brand—the very first That claimed the mother's core. Twos their first brood—their loves had nursed The foul hope, that in air Upon a full and fledged wing, That little brood would sonr and sing.

Drooping o'er that dead mother—see The sire—his madd'aing scream— Half, wild despair—half, minstrelsy Lo! there! the lightning's flame Hath caught that fine old forest oak, And it bath-fallen-boneath the stroke

A heap of ashes—darkly gray— Of dead leaves strowed nraund— Haw burned buughs, and acorns—they Might all in part be foodd, But not a vestige could be seen Of all, that living, once had been

Tells this no tale af sufferlag But one? Doth it not tell
How human hearts in Lave's first spring.
Hath found a parallel?
Ay, many hearts—even mine—laid bare.
Wauld only show Love's ashes thera.

only that portion of it allotted to us And—

And

ATHEISM. BY MRS. t. II. SIGSORNEY. 'The fool hath said in his hoart there is no God." " Nn God Pho God ! " the simple flower That on the wild is found, Shrinks nuit drinks its oun of dew

And trembles at the sound; Nn God ! " natonighed echo cries From nut her envern honr, And every wandering bird that flies, Reproves the Athaist's lore. The solemn forest lifts its head, The Almighty to proclaim;

The brooklet in its crystal arm, Dath lenp to praise his nama; High sweeps the deep and vengeful sen. \* Along its hillawy track,
And red Vesuvius apes its mouth.
To hurl the falsehood back. The polm-tree with its princely crest-

The cocon's leafy slinde—
The bread-fruit bending to his load, In you far island glade—
The winged seeds borne by the winds. The roving sparrows feed-The melon on the flesert sands-Confute the scarner's creed. No God ! " with judignation high

The fervent sun is stirred, ... And the pale moon turns paler still, At such an impious word": And from their burning thrones, the stars Look down with angry syr,
That thus n warm of dust should mock ETERNAL MAJESTY!

The Wretched Father.

impassionate mannor conesivable, the Where on earth, with all his wealth, can within overy State and Territory of the that wrotched father new find happiness? He has thoughtlessly made his sons pass through the fire to our American Moloch, and the secreted and blasted victims will, in all probability, tormont his vision, and wring his heart' with anguish while ho lives, to go heforo him to dishonored graves, drugging him with his load of sorrows after them.

Their Light did not Shine.

But I have known her these two years, and she uever once mentioned the subject in my presence." So said a lady to mind the words of Jesus to his distian: And what was the reason? painful convictions. At this period, in compliance with most urgent and serious importunities, I prepared a number of putting it upon a candlestick, it had been hid under a bushel. How many pleasant and profitable heurs would those two years have afforded, had these individuals spoken often to each other of God's mercies. How much more Protestant Mais and Prospects of the brightly would have also much more protestant desired. brightly would have glowed the fiame of acquired to resist the adversary.

Their light did not shine. What op-

say to you how dreadful are the evils prevailing in our Church. You have ably exposed many of these in your various charges, addresses, and other publications against anti-protestant declined and provided that the ovils prevailent among us are not merely incidental, but

the ministry, I discovered these evils then in their embryo state; and my studies were almost one continual strug-gle against them. The whole ceurse of my ministry has been a similar warfare.

Every iutelligent, pieus man in our

Every intelligent, plous man in our collurel, must how seed, think, with a considerations became more outgittened and ovilized, of concioned believe the last few yoars before in form my accustomed path. I must be said, their taste in unatters of dross and shells, hop prized gems and form the Sacramental system, is simply High-Churchmanship developed, and that a very short one, to Romo. It was very usurral, however, that one like my formation, but that she cannot be rot any other, should believe the best possible of her, and be relocated to see the said of a printing death, and that a very short one, to Romo. It was very usurral, however, that one like my formed. I must therefore reform from, and who had nover, been a member of any other, should believe the best possible of her, and be relocated to see the said of spiritual death, and of our death of the constitution of the said of spiritual death, and of constitution of the sealth, and of our death of constitution of the sealth, and the sealth of the said of spiritual death, and of our death of the sealth, and the sealth that what is called Puscylsm, or the Sacramental system, is simply High-Churchmanship, developed, and that the very server until death of the support of any other, should believe the best possible of her, and be relocated to see the sealth of the support of any other, should believe the best possible of her, and be relocated to the collection, the sealth of the support of any other, should believe the best possible of her, and be relocated to the collection of the support of any other, should believe the best possible of her, and be relocated to the collection of the support of any other, should believe the best possible of her, and be probably the support of the s the northwest coast, and the migration of our people to our own remote sea coast which lies between Florida and Canada. Net 'one European family, it is said, could be found on all that shore, previous to the year 1600. An entire century was suffered to pass, without developing the agricultural and mineral riches of that great field; while the Spanish armics, in search of cold in the southern perticus of the continent, were slaughtering the Indiaes by tens of the continent, were slaughtering the Indiaes by tens of the continent, were thousands.

The Wretched Father.

The Wretched Father.

Not long since, a wealthy merchant of Boston poursd into the car of a valued friend, his bitter complaints of the continent, and mineral roll the strong of the world. Hence, in our present lifstime, we have seen the railroad system brought to its oxisting state of perfection; and, most wonderful of all, the elegraph thousands.

The Wretched Father.

Not long since, a wealthy merchant of Boston poursd into the car of a valued friend, his bitter complaints of the continent, morely a misfortune—great indeed—stilly, though in still, merely a misfortune, into which still, merely a misfortune, into which still, merely a misfortune great heavines and serven due to his two and only sens. "My life is rondored perfectly miserable by their reckless dissipation and shameless profligacy," said he. The friend inverse of the continent, were send through the inverse of perfection; and, most word of the continent, were supplied to oversize my ministry in connection with the Protestant Episcopal Church.

Your brother and necessary results of the system.

I hoped and believed that they were desired to suffer the one misfortune, into which still, merely a misfortune, into which still, merely a misfortune, into which still, merely a misfortune great heaviness and serven of those of the system.

I hoped and believed that they were misfortune, into which still, merely a misfortune great heaviness and serven of those of the system.

I hoped and believ ple of the Lord Jesus,) puts into our by these of my own household, I feel gelical truth and piety would flually tri-hands a layer, by which power can be that I can bear any thing from others."

The friend laid his hand kindly upon fundamental change in our coclosiastical

manship as a poisonous exetic.

With these views, and in this frame ty, or the Moderator of the General wretched man exclaimed, "At my onen Assembly of our Church, oan, from his desk in Washington, or New York, or tion is the most bitter drop in the Louisville, or wherever his residence draught I am compelled to drain."

With these views, and in this frame of mind, I labored nearly ever since my entrance into the ministry, in the variation is the most bitter drop in the compelled to drain."

Our positions in which it pleased Divine Providence to place mo. Occasionally, Providence to place mo. Occasionally, indeed, doubts would cross my mind, whether the evils under which our Church suffered might not be more deeply scated than the friends of evaugolical religion among us supposed. Why-if this were not the case-why have anti-evangelical principles and practices so vastly prependerated in the Episcopal Church? Why have there heen in her history such frequent manifestations of popish principles and practices? Such thoughts would now and

"A professor of roligion, say you? then occur to me.

But I have known her those two years. It was not, however, till by the republication of the Oxford Tracts in this country, and hy the controversy growwho was herself a professor. It brought | ing out of these, I was led to a yet more careful and therough study of the errors ciples, "Let your light shine.". Here now daily heceming mere and more rife were two professed followers of Christ, among us, I found my doubts gathering neighbors for two years, and conversing strength, and ripeniag into clear and often with each other without discover- well-defined, and, to use, indescribably

charged with rashness, or a want of due consideration. I am greatly averse to changes, parhaps too much so. No which pleased their taste. As nations consideration. I am greatly averse to changes, parhaps too much so. No mere inconvenience, no considerations of expediency alone have over driven Church, must now see, I think, with the Bible in his hands, and the history of our Chnrch for the last few years before him, that what is called Puscyism, or the Sacramental system, is simply High-Chnrchmanship developed, and that Grant the former it is high start and the sacramental control of the former it is high start and the sacramental control of the sacramental system, is simply High-Chnrchmanship developed, and that

Cincinnati, May 26, 1851.

I Wish I Was Rich. This is poverty's universal sentiment the poor man's constant thought; and yet hew orroneous is its philosophy, and how false its hope! There is no wish of the human heart whose object is farther. from the tho truth of promise, than that which seeks for happiness in the wealth of this world. Thousands, in the day of eternity, who, reckless of a higher and nobler destiny, swept through their earthly pilgrimage in the "golden chariot" of the "pride of life and the lusts of the flesh," will forever mourn the unhappy fate which assigned them to be the heirs of worldly wealth; while thousands also, who pass their journey of this lifs in serrow and in want, having no hope hut God in the world, will shout for joy then, and bless the happy day that separated, in poverty, their affections from the earth, and fixed them upon a better country; that left them untrainmeled by the cares or comforts of wealth, and free to "lay up their treasures in heaven." Jeans says, Blessed be yo poer, for yours is the kingdom of God." For "God has chosen the poor of this world, rich in faith and heirs of the kingdom." Reador, are you rieh? Remember that God

has relieved from purgatory, from its establishment in 1721, to November, 1826 : \*\*

which is not corruptible, even the ernament of a meek and quiet spirit, which is in the sight of God of great price." Upon hearing the text, I was apprehen-sive that we should have a tirade against

patiently, and for the mest part silently, to boar the repreaches which lit brought upon me. And, what is still hearing rash and indisoriminate denunmore painful, I have not hesitated to ciation of particular parts and articles propriety, intelligence and genius, or a the Church. These, however, and all more paintul, I have not hesitated to chapter of times to tamper with errors like them; risk the celdness and alienation of of dress, in which there was nothing his children, an interview would compensate for a long journey. Governor they will consume it if not expelled this trial. Such has been my of the newness of the fashion, appearance to the consumer of the consumer of the salice and alienation of of dress, in which there was nothing friends when I thought fidelity to Christ immoral, although it might, on account required this trial. Such has been my of the newness of the fashion, appearance to the consumer of th fither more deveted to the welfare of his children, an interview would compensate for a long journey. General Every one will judge of this testinony mentioned the Learned Blacksmith Burrit' as an example to the youth of the State: and I am sure the heys and the State: and I am sure the heys and the state the state the state that the state that the state that the state the state that the state that the state the state that the state tha sinful in a dress out after a new fashion; yst discreet ladies follow the rule of not being the first to come out in a new lications against anti-protestant dectrines and practices among us. Neither that they naturally and necessarily grow grotesque and seems ridiculous, will, by grotesque and seems ridiculous, will, by eustom, beceme agreeable.

our country. But they existed loug before, and the way was so prepared, that with comparatively little effort, they speedily obtained their present mastery ever us.

Soon after I became a candidate for the ministry, I discovered these evils then in their embryo state; and my studies were almost one on their embryo state; and my studies were almost one on the subject of female dress without speaking giving offence — yea, without speaking giving offence — yea, without speaking them off; and convinced, after years of his own weakness, he seldem touches the subject became more culiglitened and civilized, he said, their taste in unatters of dress

ing with the hands, they exhausted in religious emotions now acquired a wonsons possessed of wealth and ample resonroes. There is no telling how much wealth a fine lady may wear upon her porson at one time. Very lately, in the city of New York, at the sale of easteru shawls, one lot went as high as five hundred dellars aplece, and nothing is more commen than handkerchiefs which cost fifty dollars aplece. Now however right words that burn. common than handkerchiefs which cost fifty dollars aplece. Now, however rich the wearers of such articles, they never have any thing of value to east into the treasury of the Lerd. The blessing of the poor widow who cast in her whole living, will never come upon them. But I am adding to the excellent discursed the such a horse of the power, glory and fullness of our paster. He did however make treest an apprehension of the purity of

without crnament. He said his text recommended as adorning, not of the body, but of the mind; not plaited hair and gold and costly apparel, but an ornament far more precious, though not showy. It was the hidden mun of the heart. This he compared to the mind; and the highest state is the highest state in the large state in the large state is the large state. The large is the large state in the large state is the large state in the large state is the large state. The large is the large state is the large state in the large state is the large state. wald only show Love's ashes likes.

I have conteuded for the Evangelical cause during my whole ministry, as my localth and eigenstances would allew, and by every lawful means in my power.

I have never shrunk back from any decrease of the corruptible, even the cause of the corruptible over the cause of the corruptible over the cause of the corruptible over the cause of the cause of the corruptible over the cause of the corruptible over the cause of the cause of the corruptible over the cause of the

Full Redemptions Tolescope

The glorious doctrine of full redemptien in the blood of the Lamb, is not only clearly taught in the blossed scriptures, but preven in numerons instances by experience. And it is this experimen-tal knewledge of a full salvation that we wish to live ourselves, and nrge others

We know as well as we can know any thing, that many excellent members and ministers of the gospel, enjoy not the hlessings of complete or full redemption, and they are in some dsgree conscious of it themselves, and in view of their responsibilities, they often resolve to live up to their high privilege, but in a good

degree fail.

To us it seems clear, that after the Christian life is communed, and commenced in good faith with the blessings of God, at some time subsequent, a consciousness will be felt of the want of a complete renevation of the heart, and a new baptism of the Holy Ghost, pre-ocded by an intelligent, calm, unreserved consecration of all to God, and to the work of God.

Dear brathron and sisters, have you not felt the want of such a consecration, saactification and baptism?

Among many examples that might be adduced, we will present a sketch of the experience of Rev. Wilbir Fisk, long since glorified. He was a man of the finest talent—had received a classical education, and had commonced the study of law. Providentially, he was aroused from his state of spiritual death, and after severe mental coaffict and suffering, he gave up his worldly presents.

dress these funds which ought to have derful intensity and elevation. One who gene to the treasury of the Lord; so was present at the time, says: 'His lanthat when the application is made for contributions to objects the most important, there was nothing left; or the donation was small and unworthy of persons possessed of wealth and ample response to those of angels. The next morning

living, will never come upon them. But I am adding to the excellent discoursed of our pastor. He did, however, make some calculation of the good which might be accomplished by the money expended in expensive dress.

A third argument was derived from the evil of the oxample, and a fourth from the evil it cherished in the mind of the person. Pride was pointed out as the principle of the evil, and this was also increased by the indulgence. And he might have added, that it was a silly vanity which led persons to think of attracting admiration by fine elethes and brilliant jewels. Some weak and ignorant persoas might indeed be filled with admiration at the fluory, but wise and virtuous peeple would despise the extravagance.

But the proscher informed his fair hearers that he would not have them without ornament. He said his text recommended as aderning, not of the

# Christian Advocate

NEW ORLEANS: BATURDAY, JULY 18, 1851.

### "Forgive Me This Wrong."

For what should St. Paul, the bold, faithful, earnest preacher, ask the parden of the Corinthian Church? The exon quoted above, from his second them, implies that he had poronged them some way. Yes, he had ed them, as he frankly confesses, in not accepting his support from them while preaching to them. He had thus made them "inferier to the other shurches," neither older ner ahler. He was maintained by these at a distance while the matter of accounts so, is wrong daboring for shis stingy peopls. Shame and works wrong in many ways. It is upon them! They were the first body of Christians, onlightened and rieb, held up to the world as so destitute of a conse of genorosity, self-respect or duty, as to that he is "worthy of his hire." be willing to have a free Gospel.

Further: They had been, by this indulgence, doomed not only to shame but error. He had put them on the fler him, in this charge, would have the courage to ask his hread !

Again St. Paul had wronged them ing, according to that equitable rule he himself had laid down—" He that sowoth sparingly shall also reap sparingly." Was not all this wronging a Chnroh? Wall might he ask forgiveness, and offer many explanations, not to say apologies, for his gratuitous services. Surely, inand barrenness as a church, are no small Watchman we find the following

Might not many sensitive, modest. high-minded, but auffering preachers of this day, likowise ask forgiveness of the churches they have served? In disclaiming cupidity, and seeking to sootho covetous hearers by the declaration; "Wo seek not yours, but you," they often waive the rights of the ministry to an extent hurtful both to preachers and people. The former are completely disabled even from seeking seuls, and the latter are confirmed in low and narrow views, not only of the altar of God, but of their obligations to lay offerings upon it. Perhaps soms oan afford not to be "burdensome;" hut let them beware how they waive this right, for the preacher that follows may be poor, and have a helpless family, and he cannot afford to do without all that God has claimed for

We know a preacher in a Southern Conference who is universally popular on all the orrouits and stations he gets appointed to. Why? Not for his presching ability, or pastoral fidelity— but because he is cheap. He, with his small family, tries hard to put the bretbren to as little cost and trouble as pos-sible. As for the matter of living, hs brethren thus "eased" make out the quarterage, praise the oheap proacher, and ask for him back again. Another preacher, who is not willing to degrade himself, his office and his family, follows in his footsteps. He is willing and able to serve the churches for his part, hut plaims of them for their part a decent, disciplinary allowance. Ho is itinerant onough to move his home once a year, but not once every week or month. The stewards shake their heads, the members complain; they have not a learned Methodism. "Brother A., on former preacher, did thus and thus: h didn't cost us half so much." And th inference is, " Are you and your famil any better than he? Why not put u with the same measure ?"

Who does not see that such a one as Bro. A. wrongs, deeply wrongs overy charge he serves: yea, more, he wrongs tribution of the Pittsburgh Conference every preacher, too. Suroly, there is last year, to the onuse of Missions, is disposition enough in the Church to-

Not long ago, wo had some conversation with a presiding Elder of the Missiscippi Conference on this subject, and thing like this: "All my preachers will put a fallible Church "between Christ it is among the people. Now, what we year—what has never happened in the by discovered that the Church] in that other purposes, is system, principle and other purposes. district before." We should like to be position does the sinner no good? under such presiding elders as this brother, and perhaps he may yet suhmit testant Episcopal Church, to officiate in this views to the readers of the "Advo-cate." He regards it as his duty to see that the preachers in his district do a good part by the Church, and likowise that the Church do a good part by the Church and likowise that the Church do a good part by the preachers They must preach faithfully, and be paid punotually. His business, as the Discipline lays it down, is spiritual, temporal and financial.

To le s' deligate thing for the prosther

preacher were balanced, by his remitting liste, we hope, to be worn and honored to the Society (a rich Society) nearly a long time. \$200. , The P. Elder called attention premptly and rather severely to the item "remitted by paster." He insisted that a more business character mnst be given to these transactions. The claim of the paster was a just claim, an allowed claim; he had dene his year's work, and if the Church the 3d inst. : conidn't pay now what was due, on account of their negligence in falling be hindhand with the collections, they should hold themselves bound to pay is hereafter, and as seen as possible.

It is evident that to let n Churob fall inte these low and loese netiens of ohligation, and into the hahit of falling behindhand every year, and dismissing no charity to the people, but an injury to them and an injustice to every la borer of whom the Master has said

### British-Methodism

It seems our brethren, the Wesleyans on the other shore, are baving their charity list, and perhaps, hy waiving his troubles-war within, strife, schism. Or bebt to be burdensome to them, to the rather, their treubles are about over extent of his support, had left them ig and now they are ascertaining the exnorant of their obligations to the min- tent of their damage. It is surely an istry. First impressions on this subject important, movement; we san hut take are lasting. If encb a ministry as an interest in it, if wo do not take sides. Paul's cost them nething, who, following | One American Mothodist paper thinks the demands of the Referenre should have been yielded to, semewhat; others see so much of that radicalism in the by depriving them of fullness of hless, agitation, which has troubled us on this side the Atlantic, that their sympathics are all with the main body.

The chief agitator, is at present an interesting, character, though not an amiable one, as described by a Confer-ENCE MAN. He is taken off at full length hy our London Correspondent. feriority of position, a deep-seated and and what he says of him will be read hurtful prejudice against just claims with lively interest. In the London

"There are two things which Wesley-an Methodism san never yield—(1) that there be in our shurches a separate er-der of men, dedicated to the work and office of the ministry, upon whom Christ is believed to have devolved a special and singular responsibility in relation to souls, and who must thorefore pessess a dance;" when this is preperly donc-special and singular authority; and (2) and overy man called to preach can de that the Conference and its representative courts and committees must have power to maintain unity, equity, and harmony, in the Body, by correcting and overruling, when necessary, the desisions of the local courts.

" Now these two things are precisely what the revolutionary party are deter-mined to upset. If these are yielded, you give up. Wesleyan Methodlsm."

### For the N. O. Christian Advocate. Episcopai Visitations.

The members of the Conferences com posing the middls and western divisions of "the plan of Episcopal Visitation," were apprized hy my late Card, that an arrangement was in contemplation to anpply the work of Bishop Capors, 50 on probation. Strike off six breth his ill health disqualify him to meet his sngagements. I am now happy to inform them that I have just learned by letter frem Dr. Wightman, that his hoalth has so improved that he and his friends "oherish the hope that he may be able to attend some, if not all, his Conferences in their regular conrse." And it is therefore suggested that, "unwill take it from place to place, like a der the present aspects of the case, it Yankee schoolmaster boarding around, would be promature to make any ar-Of course, then, his appointments will remain unchanged. But should he find himself disappointed as to the restoration of his strength, and inform me, in time, of his desire to exchange work with mo, I will exchange; and if he should be unable to take my work, Bishop Soulo has authorized me to expect that he will undertake it, and I will endeavor

to fill Bisop Capers' appointments.

apon the Rev. J. B. McFerrin, of Nash-

In last week's paper, Roy. O. R. Blue expressed the emphatic conviction from

"That our people will give when the subject is properly brought before them and earnestly pressed. And whorever there is a lean collection, accept in some very rare eases, I scruple not to lay the lame nt the door of the preacher."

Rev. P. P. Smlth seems to be led to the same opinion, hy his operations in Florida Conference. In a communica-tion to the S. C. Advocato, he says "I have just closed my round of Mis

sionary collections on the Bainhridge circuit, Fla. Conference, and new desire to say a few words upon the subject of our regular missionary collections. And first of all, I think they should be taken up ln overy seciety, rich and poor, hy a regular appointment made for the purposo, a regular missionary sermon proached on the occasion, laying the whole missionary field hefore all the people, in n plain, practical, scripturul way, and urging the necessity and duty of all to give semething: from the wid ew's twe mites' to the 'rich man's ahunthis—a good collection can he made. The calculation with some is that from some circuits or stations there will be large collections, and the people are ablo to give, and there the preacher is 'notorious for begging,' and always succeeds. Now the truth is, all our prenchers could make good collections if they would try in the proper way; but the policy of hut too many preachers is, to make a desperate effort at two or three popular places on the circuit, while the mass of the common people are never applied to. Now I propose to give a few statistics on the subject in reference to my plan on my circuit. When I entered on the Bainbridge circuit, I found about 125 membera in full connection, and about 50 on probation. Strike off six breth der nre poor people—many of them very poor. I made an appointment at every place to take up a missionary collection with a promise to preach a missionary sermon, which I tried to do in a plain, practical way, nrging all to, give something, and to give from principle, and not from impulse alone, for no effort was and subscription what they were willing to give. The greater part I received in eash, and the result is as follows: Hendry's Mill \$4 50, Spence's 2 00, Fish Pond 5 50, Blowing Cnve 6 75, Tried Crook 21 80, Pumphay's 3 10, Curry's 10 60, Bainbridge 37 05, Coon Bottom 7 75, Hackeltrap 7 31, Chestor's 15 77, colored people at Bainbridge 3 55—total \$124 68. Of this amount one man gavo ten dollars, four men gave five dolara each, four men gave two dollars bnlnnce was given in oach, and the amounts from that down to five cents.

thing, will probably raise the amount to one hundred and fifty dollars. And now I challenge mny circuit or station in the Florida Conference, to hoat this collection, according to numhers, and we will say nothing of wealth. Bain bridge circuit may have been buried, hut it will, it must have -nay, it has had, a resurrection in missionary contribu-tions. When I told one brother how much had been collected, said he 'I wish you may get that much quarterage this year. Said I, never fear, for I got more than that amount at the first quar-

## Revivai Intelligence.

Bro McTyeire I promised, whon we parted last week, to write you, if any thing of interest occur. And as a revi-val of God's work is always interesting, I take great pleasure in saying that we have enjoyed a sessen of refreshing in the Church at this place, since last Friday evening. This is my second quarterly visitation to Covington; and with the sid of Bro. French, the preacher in chargo of the station, our meeting has been protracted to this time, with an accession of sixteen whites and three colored. Some six or soven have been happily converted, and the Church greatly revived. We have service appeinted for te-night. To-morrow morning I must lenve this interesting werk in the hands of God, and the faithful pastor and membership of the Church. God prespor the work, to him be all the glory. Yours in Christ;

H. J. HARRIS, P. E. July 3d, 1851. P. S.—Since the above was written our meeting bas been going en, and the Lord has blessed us with the outporing of his Hely spirit. We have had twenty four accessions to the Church, and twenty cenversions. The Lord has been with us this year nt Covington. Since Conference, fifty have connected themserves with the Church in this place, and may the Lord prosper the good work is the prayer of the PASTOR. July 5th, 1851.

Dear Bro. Mc Tyeire-Wo have just closed an interesting meeting at Marien, at which there were more than twelve conversions among the whites, and sovernl among the blacks. Fourteen whitea were received on probation. Our Church ia growing in numbers, and, I may add in favor with God and the people.

Yours, affectionately, E. J. Hamill. Marion, Ala., July I, 1851.

It appears from the fellowing extrnot from a husiness lettor, that Methodist preachors smong the havous of Leuisiana, occasionally leave the horse and saddle in following up their work:

"The subscriber I send you lives some twenty miles from my work.
One of our local preachers has nn nppointment at his place; and Bro. Kin-near and I were induced to go out with him last wock, to attend a two days' meeting there. We went in a row-boat, two negroes pulling, and the visible ro-sult of our lahers there was this subsoriber obtained, feur souls converted, one backalider reclaimed, a collection of \$8 70 Missienary money, and the organization of a scoiety of feurteen members. But I didnt intend to write about those matters when I hegan, so

I'll atop right here for the present.
Truly yours, P. M. Goodwyn. Franklin, La., July 1et, 1851.

SABBATH SCHOOL CELEBRATION IN

Mr. Editor-The Sabbath School under the superintendence of the members and friends of the M. E. Church in Algiers, has been in successful operation for about aleven years. Those connected with the Sabbath School enterprise in the above in so praiseworthy an undertaking. Much good has already been achieved by the moral end relimsde to raise stoam, above principle power. I then took my paper and wont to every one myself, and received in each to every one myself, and received in each the zeelous advocates of Christianity connected with the high and boly claims of our great salvedon, have enlisted in this the best of causes, ara ornements to society, a blessing to the school, patterns of play, and brilliant lights before a wheked and gamaying world.

The tenth anniversary of the above School was

celebrated in the M. E. Church, in Algiers, on Friday, the 4th of July, with the usual interest which has ever distinguished their celebrations. After the School had assembled, with the friends of the cause, the opening exercises were performed hy Rev. James D. Parker, preacher in charge of each, thirty-five persons gave one dollar the Naw Orleans Circuit, with a short but Impressive address suited to the occasion; and after he had resumed bia seat, Mr. Edward Notice was raquested to read the Declaration of Independence; at the conclusion of which, the whole assembly joined in singing a hyuna of praise, and prayer was offered.

The remaining exercises were conducted by Mr. Jaroes F. Fowler, Superintendent of the School. The students, who had previously prepared themselvas for this occasion, as they work collect upon by their worthy Superintendent, came forward respectively, and honorably acquitted themrecitations and singing of those composing the School, were attended with apparent interest, and conspired to kindle emotions in the bosnme of all present which we believe will not soon be

: After the abova exercises ware over, the friends, erc., of the School furnished a choice collation, in which ell present participated.

Algiers, La., July, 1851.

## For the N. O. Christian Advocate Singular. Vory few European emigrants are

found going to South America or Mexico, while myriads are flocking to our shores. Yet both a majority of those emigrants, and these countries, are theroughly Catholie. Now, one would suppese that a Catholic population would prefer a country and community where their religion had nudisturbed possession. Hew ia this to he accounted fer? Why, simply that these people, Popists as they are prefer the freedom, light and energy of a Protestant country Their feelings were truly expressed b a lady in Mobile, who said that sho be lieved in the Catholie religion and Church, hut would not have it become

conscientious Christian does not go in c and the sectarian religionist does not To find pasture, seems to me to signify! (what is perfectly accordant) that such a ene is not, like the merely conscientious, at a less for pasture, withcut finding it, or understanding the want: ner like the sectarian, dependent upon place and person fer being fed; hut he finds pasture for himself, and finds it, mere or less, every where:

Finds tongues in trees, books in the running brooks, ooks, ... us in stones, and good in every thing." But in whom was this every vorified, but in n Catholio Christian ?

London Correspondence. LETTER 11.

On going last wock to the Branch Post-office to pest you some newspapers, i found that I had been misinformed as to the time of sending off the New Orlenus mails. I very much fear that in censequence of this, both the newspapers posted last week, and my letter of the week hefere, would he too inte for the mails. As, hewever, I was only a few minutes bohind time, I have still seme hope that my proquets may not have been detained.

I informed you at the close of my last lotter, that frem the returns of the Districts presented to the May District Committees, it appeared that this year British Methodism would have to lament the loss of many thousand memhers. From the Wntchman sent you last week, you will see that the number lost is now ascertained to amount to 55,000. This is on British Methodism. Should Ireland and the Missionary field also exhibit a decrease, the total result will he a much hoavier loss, not only actually, but comparatively, than Methodism has eyer known.

You will he naxious to know tho causes of this state of things. Of course refer here to the historical causes merely; the spiritual causes which have propared for suob a sad result, and lod the Almighty, in his Providence, thus to affliot us, are beyond the accurate analysis of the human intellect, and lie out of the province of your correspondont to oataloguo or desoribo. Historically, then, and instrumentally, the prosent condition of things is casily traceable to its eauses. To the envy and subtility of one man, attracting to hlmself the companionship and aid of kindred spirits, is all this evil owing Mr. Everett, assisted by Messrs. Dunn. Griffith and Bromley, has originated and organized a faction in Methodism, which has resulted in this grent division. JAMES EVERETT

is a man of originally obscure condition. hut of considerable talents and great intensity of feeling and purpose. He is known as the author of some medieore poems, and of several elever biographies. He has much humer, and has many of the qualities of a heon com-He is very remnrkable for his fund of curious anoodotes and quaint

sayinga.
During the life of Dr. Adam Clarke, he paid great court to that eminent divine—who, by the way, possessed a very singular affinity and taste fer queer, and in some respects questionable, cempanions—and was much patrenized by him in return—and his benhemmic and powers of amusement made him a favorite in many circles, though I never heard any where, or nt any time that acter and intelligence, for my thing his conversation or deportment was par- plense or take that reflected injuriou ticularly edifying or ministerial. Everott entered into the ministry in 1806, and is now about 66 years of ago, a remarkably hale, fresh man of his

yeara, with a deep-set, cunning eye, and a saroastic, humorous mouth. year 1821, in consequence of an affection of his throat. Mr. Everett hecame, in onr phrase, a "supernumorary." Out of consideration for his ease, the Conference allowed him, by a sort of private transparent integrity and disinterests. arrangement, to occupy an extra post, ness innoag his brethren. You may no unefficial assistant to Mr. Bunting, trace in this paper the springing under ns unefficial assistant to Mr. Bunting, who had just been appointed, against his own earnest entreaty and protest, to succeed Mr. Benson in the office of Wesleyan editor. Mr. Everett, however, it is said, had marked out that important office as his own, and could not have to be Mr. Bunting's essistant all statements and the said that Mr. Everett was the author of the statements. brock to he Mr. Bunting's assistant, al- sketches, yet he kept his own secret, though the latter having nlrendy virtu- he over has done in all his sly dark nlly filled the effice for a year or two ings,) and in 1840 published, still another during Mr. Bensen's decline in health ymously, the "Centenary Takings," Nor lowed to be at once the ablost and safest divine, and the clearest and profoundest. This volume was gravely condemned. expesitor of Wesleyan economy in the the Newcastle Conference of 1840, Connexion, was plainly a much fitter heing directly calculated, by the spirit person for the post than Mr. Everett, of satire and personal criticism which whose intellect was never profound, and pervades it, and hy its light and irres Conference, we hope he will be continued | whose compositions, at this period, were, | rent use of Scripture quotaticas, to prothough not destitute of talent, yet exceedingly imperfect and juvenile. Be irroligious captionsness, and to dimit this as it may, Mr. Everett reliquished ish their veneration for the sanctities the subordinate post in a few months, Scripture and of religion. Of course and from this time forward appears to the character of Dr. Bunting, as put have cenecived a dislike and jealousy of Dr. Bunting, shown, however until his Mr. Everett understood business and expulsion, only in private whispers and his market too well to touch it. But nnonymous papers. Up till a compara-tively recent period, Mr. Everett, on Conference at large declared against particular occasions, and when broughts into contact with Dr. Bunting, has been that great man's oulogist and flatteror. On leaving London, or shortly ufter, second edition, ho came out in his tree. Mr. Everett commenced husiness at colors. Here he throws away all

much intorest.

"Another work is in preparation by the writings of Roy. James Caughoy, including a number of his sermons, preached in his extensive revivals.

This werk has heen called for, and will soon he published."

Should as a plant.

He preface, the man whom, in the unit, he paints as great and admits to be noble. The spirit, tene and lum of the phrase of the Fly Sheets, are tracely ble in this preface. No one can fail to leave it. Yet it was plain to every bedy, for some years prior to 1833, that his voice and strength wore fully restored, and indeed, his aervices on the Sabhath, scensus averni. heth nt Manchester, and especially, as an occasional preacher, in other circuits, together with the lahorious occupation of his weeks in business, study, and va-"We incline to the opinion that the rious intercourse with society, were fully nionymous satires in verse on Dr. Bun equal in demand of strougth and energy and his lending friends, especially and voice, to any thing that could be Dr. Alder, printed privately and sent le required of him as a stationed minister imany of the ministers; anonymous in full work on an ordinary circuit. manuscript letters sent here and there in full work on an ordinary circuit. So strong at length did the feeling on

to feel that he must cither give u business, er hls ministerial status; lis namo mnst disappear from the board in Market street, Manchesler frem the minutes of Conference. Everett made his cheice according wound up his affairs, gave up busine nud at the London Cenference of 18 was appointed to labor in the News tle on Tyne Circuit. Your readers please to hear in mind that what brothren disapproved in Mr. Evere position was his socularization, localin tion, and aversion to the hardships a self-donial required by the life of a itinorant minister among British We

To have these traits of his charge expessed, and to he forced hack agi reluctantly, into our itinerant work were things that sorely rankled in him mind for long years after. Hence the can ensily anderstand how he would have disposed to retert upon others, und pecially upon the principal instrument of his mortification, the charges to al his own course had so palpably laid his epon. Dr. Bunting, I should add, took as hecame his official position, a principle of the principle of pal sharo in this transaction.

Having been thus brought hack in our work, Mr. Everett continued in fer eight years, traveling in some of hest circuits of our Connexion, [e.g. Newoastle on Tyne, and York. In the year 1842, ho again sat down at You where he has resided till the prese time. His former history, hower could not be altegether forgetten, more than once, since 1842, has it be asked in Conference, whether or n lames Everett was a second time to resumo his work.

And certninly it would he no a matter to reconcile his hoast, uttered Exeter Hall, in September, 1849, having traveled some "twenty-cir thousand miles, during the last the years of his supernumerator te hless the people with his sermon, his netual lubers, since his expulsion itinerating the country, day after di sud addressing crowded houses, nig after night, with but little intermission for many months together, with a complaint of unmoreifulness in that \*Indeed, this very moment he egularly and frequently appointed

the secession plans.

In the year 1831, I believe, or the abouts, Mr. Everett published, and mously, Nes. 1 and 2 ef the "Wesley Tukings," iu which ho gave exceedings clever sketches of Dr. (then Mr.) Butter ing, and of the late Richard Water s te the talent, nud, en the whole, minute and life-like fidelity of these and ink portraits, there cannot be The character of Water epinions. was all eulogy, cloquent and glowing That of Bunting was mere discriming ting, but still highly culegistic. But are most valuable to all who are inte ested in Methodism. They were with ten befere the nuthor's reluctant a compulsory return to itinerant lab and therefore befere the period of hi exacerbated bitterness against Doctor Bunting. Besides, they were, as dauthor has himself informed us, pr lished as ! feelers," and te prepare way for n work hrought out seme ye after, and outitled the ! Centenary kings;" hence it was needful to w what would please and sell, and end desire fer more. Dr. Bunting was far too high esteem, at this time, smo upon his character. the Picayune of ye-terduy. Judge Larue, not for the first time, takes a proper stand, and spenks out plently egainst Violators of the order, peace and righteomess of the land. If there is law let us see it, feel it. One party has peld the deeth pensity—why should the others go unpunished? Dr. Webster has heen mule an example to the country, the world—he one way of crime; why not Dr. Hant in this! Not Dr. Hr only, but all engaged in it.

On the opening of the Picard of the deere of the Apostolical Roman Catholic faith; Therefore, In consideration of the second article of the deeree of the 25th April, 1851, the Council adjudges imprisonment for six months to the country, all on the country, the world—he one way of crime; why not Dr. Hant in this! Not Dr. Hr only, but all engaged in it.

Reil River is getting so sentere of water that the

On the opening of the First District Court this

On the opening of the First District Court this morning, a visible depression seemed to weigh upon the initids of all present, as if a great public estensity had occurred, and men talked to one onother, in subdused voices, of the first duel of yesterday, as of an event deeply to be deplored.

When the grand jury were assembled, Judge Larue sidelessed themeas follows:

Gentlemen of the Grand Jury—It is a wise provision of our law that none ure so humble that it does not recognise their rights, and none too elevated to be essently from its operation. When the law has been violated, it is my duty as a judge, and yours an jurors, to inquire into that violation. We cannot shut our every arreet. We cannot shut our eyemo what we see spread before us in the daily papers....

My cannot also wink we kear on every expectant and in every rate to whit we kear on every expect and in every rate to whit we kear on every expect and in every rate to whit we kear on every expect and in every rate to whit we kear on every expect and in every rate to the daily appear, in the Passish of Orienta, and however respectable the greatement at Portland, Me., recently, in consequence of the seizure by the City Matatel of twenty casks of liquor, valued at \$1500, belonging to S. H. Lawyer. Lawyer resisted the officer, but first enforcement at the new liquor law, ever high their position in soelety, however emisent even position in soelety, however emisent even position in soelety, however emisent even position in soelety, however emisent were proposed in it, however, much we may respect them, however, much we may represent the position in the first enforcement at the new liquor law.

The contributions to the Washington National Monainent during the mouth of Juna, amounted to shrink from it. It is well known, from general representations the position of the matter, and I will not shrink from it. It is well known, from general representations to the well known from general representations to the well known, from general representations to the well known, from general representations to the well known, from general representations to the well known from general representations to the well known from general representations to represent the position in the public press, that a fatal duel took place representation to the first contributions to the well-during the public press, that a fatal duel took place representation to the first contributions to the washing the public press, that a fatal duel took place representati

State Treasurer—J. M. Bart.
Survayor General—Walker Herron.
Cougress—E. J. C. Kewen, B. F. Moore.— The resolutions of the Whig State and Con grensicoal Convention, hold in San Franciaco of May 26, we give to-day :

May 26, we give to-day:

Resolved, That we are opposed to the sale or leave of the mineral lauda of California, but are in favor of the same being held by the Ganeral Government, tor the benefit of tha minara, to ha worked by them, Iree from any tax or toll what-

Resolved, That in the adjustment of disputed tand titles in this State, we are in ferror of the same being referred to the decision of commissioners under authority of the General Government, with the right of appeal from such decision, by any party interested, to the proper United States Courts.

any resty interested, to the proper United States Courts.

Resolved, That the dictates of good policy and the simple demandard justice require, at the hands of the General Government, the easily extension of the pre-emption lawa, over the public domain not embraced within the mineral lands of this State, the easily as hall accure to actual settlers a donation of such laws as shall accure to actual settlers a donation of such hand of a family, and also to provide grants of the public lands, not exceeding 160 acres, to each head of a family, and also to provide grants of the public lands to he made to such persons as have settled upon private lands within this State, and made valuable improvements upon them in good faith, supposing the same to be a part of such public domain.

Resolved, That we are in favor of the General Government granting to this State, for the purposes of education, and works of internal improvement, a quantity of public lands, at least equisting the grants heretofore made, or hereafter to be made, to the quost favored States of the Union in this respect.

Resolved. That we are in favor of liberal approximations and contains the property of the

made, to the monetarion this respect.

Resolved, That we are in favor of liberal appro-Resolved, That we are in favor of liberal appro-

printions by the General Government for works of a public character, especially the improvements of our rivers and barbons. is and balbois. of such proper measures by the General Govern-ment as shall most speedily tead to foster and aid the construction of a railroad connecting this State with the Measurement Vallace

the construction of a railroad connecting this State with the Mississippi Valley.

Rasolved, That the establishment of steam communication between this State, the Sandwich Islands and China, is of the utmost importance, and it tend greatly to the advancement of the commercial and political condition of the whole Union, and especially of California; therefore, we approve of the adoption of a liberal policy by the General Government in nid such an enterprise.

Resolved, That the tailure of Congrasa-to onske provisions for a Mint in California, has been greatly detrimental to the interests of the people of the State, and our present condition and wants organity demand that early and ampin appropriations be made for that object.

made for that object.

Resolved, That we have a just and equitable claim on the General Government for such moneys as were collected by her officers as revenue on imports in this State, prior to our admission into the Uoion. Resolved, That, it is the duty of the General

Government to assume the indebtedness of this State, necessarily contracted in the protection and defence of her citizens from Indian warfare.

Resolved. That we will ever maintain the doe ex-ecution and suppremacy of the lawse and that the people may not be subjected to onerous and oppres-sive taxation, we are in favor of the strictest con-enny in the administration of the State and General Government.

Resolved, That the recent compromise measures Resolved, That the recent compromise measures, adopted by Comptess receive our cordial approbation, and in defence of the Constitution and the Union we will ever be found faithful and true.

The San Francisco Morning Post, of May 30,

The San Francisco Norning Post, of May 30, has the following:

"Through the politeness of the Hon. Thomas Brites King, Collector of Customs of this Port, we were shown the vault in the rew custom-house, fromerly because as the bounded, fronting in Portsefrontic spores) in which the tressure to his charge is deposited. It has been should underethat gentleman's special direction; and is a well and securely constructed that we give a lattle-description of it. The loopdation is that of brick had in cement, from the cellar up to the first floor, on which resis flag aloness one foot thick, and securely bounded to the security that we are the centre of the security holds together; a wall of brick had cement thee feet thick to built, forming un arch total with the say given frame-work trayersing the edge, and over head. There is not the slightest dampness recognities in the value of the supposes the couplined by uny instrument in the hadd of any person, however skiffel. It is so are creatible that in reac of the the books rould be agained therein without any delay whitever, and out the whole, is most ascendible to the construction of

Reports from the distorbed districts in the
Kwang-lung and Kwang-si provinces were atill

of all alsenning nature. We find nothing of inof all alsrming nature. We find nothing terest in the files received.

Late from New South Whies.

Late from New South-Whies.

Wa have files of the Lancaster Examiner and Cornwall Chronicle as late as March 8th.

There is a feud in the Australian Church in relation to the dootrins of Baptismal Regeneration.

Three men were exacuted, on the 18th February at Cornwall, two for highway robbery and one for stabbing with intent to kill.

The Lancaster Examiner discourses in severe and caustic terms on the brutality, of the Governor, Sir William Denison, towards Mr. McManus, one of the Irish State Prisoners. That gentleman had without any cause heen compelled to work in tha chain gang, and exposed to other indignities which at langth induced hrain fever, and his life was aeriously endangered.

Chill.

was aeriously endangered.

Chill.

It is our duty, before we take leave of our transationality readers for another mouth, to acquaint the in will the principal events which have taken fines since our hast report, though they have taken fines are our control of but little importance. After the entire autorission of the troops concerned in the late disturbances, reports were duly secelved, frum almost every province in the Republic, staring that not only no disturbance had taken place, but that the militia, at the first rumor of the Santiago riot, had immediately volunteered their services for the preservation of peace, and this immediate of the compared had no ramifications in other parts of the compared had no ramifications in other parts of the compared had no ramifications in other parts of the compared on the 8th instant en route to Canada and the compared on the 8th instant en route to for Santiago, and has repeatedly expressed highself

vention shall be convoked. 9th Tha independence of the judicial authority shall be respected. 10th Official appointments are confirments. 11th The political opinions of all citizens shall be respected. 12th The Ministera of Sfate shall be responsible for the acts of their administration.

By another decree, the Convention has been convoked for the 16th Joly. Another has also been issued, relative to the encodation of the laws of elections. The number of députies ia to be 53.

Poru.

The proceedings of the new government up to the present appear (avorable for the maintenance of peace and order. Screen important reforms, suggested in the President's Message, have been taken—into-consideration in Congress; amongst others, the laws relating to elections, nunicipal government and various measures connected with internal affairs generally.

Later from Santa, Fe. - The St. Louis Union of the 30th has dates from Sonta Fe up to the 30th May. Several thousand Apaches, together with their celebrated chief, Chacun, were in the neighorhood of San Miguel, engaged in making pottery. The Camanches were shortly-ro-hold a grand-cum cil, at which a large number of tribes were to be present, and it was feared that some hostile scheme

was under contemplation.

Considerable excitement had grown out of the rejection of H. N. Smith as Secretary of the Teritory. A meeting of the citizens of Santa Fe was held at the court house, on May 3d, at which resultations were adopted, declaring the rejection of that gentleman by the Senate an outrage on the feetugs and interests of the people of New Mexico

and usunnating him to a seat in the Senate of the Territory. Mr. Smith had been elected to this post. Chacon, together with some of the principal braves and squaws of the Camanches, had paid a visit to Gov Calboon, at the Palace in Santa Fe. They had brought with them a white boy who had

to the Legislature in all the districts.

A Quaker Welling.

Macred in this city yearerly, at the Guzker Meetins honor, on Fifth treet, Mr. Henry Shipley, of this city, to Miss Hannas O. Faylor, at Newport.

house on Piffe tired, Mr. Henry Himley, of this city, to Mise Hamosa D. Feylor, at Newport.

A large company assembled at the mostentations church of the Society of Friends, yesterday at cleven o'clock, to withese so unmand an observence as a Quaker wedding. As the apirt moved is to be present, we propose to give a description of the ceremony. It was a regular monthly meeting at the Friends, a small though highly tespected society, worshiping regularly at the home above monitioned. When we arrived, the church was acarly filled with young builes who had been attracted their by curiosity, their gay diesses contrasting atrongly with the sober drab af the three or four rows of Quaker lathes, becapying seats on the diposite side of the home, and fromting the main audience. The broad-brians slipped quietly into the seats in the men's division of the home, and commenced their silent communion with their spirits and the spirits of the unseen world. After a half hour s profound silence, there was some appearance of uncarious among the spectators. We were amusculat a whispered conversation between a gondry girl and her more knowing city companion.

"What do these women' wear such avail tooks ing housies fur? They book like shalf home's profound the work and avail tooks ing housies fur? They book like shalf home's most, hall cond-scuttle?"

"The Quakers have no pulpits."

tioned. The Quakers have no pulpits." "They have no minister."
"They have no minister."
"Who preaches, then?"
"All of them, or any of them, just he they hap-

pen to reel.

Why don't the meeting hegin 1.05

"Thish aip—the incetting has been began this inif linur "Why unbody has said a word, and thuse one "Why inbody has said a word, and those often opposite have got their lists on."

"Never mind, somehosly will speak soon, provided the spirit moves their; and they always wear their lasts in clurrch."

"O. I. know—they are waiting for the bride

and groom,"
"No, indeed; they have been here half an linus "No, indeed; they have been here half an linus "No, indeed; they have been here half an linus "No, indeed; they have been nore muran mura, dan't you see them, sitting directly opposite; that handsome young man with gold spees, and the lady beside him, dressed in plata white satur."

"I want to kinow if that's them; they don't look Quakerish a bit. I should like to know who's

going to marry thom? "Annual like to know win going to marry thom?" Nobody—they'll marry thomselves."

'Marry themselves! Well, why in the wordan't they begin? What are they waiting for the world with the state of the state.

"Marry themselves! Well, why in the world ion 'they begin? What are they waiting for?"

Another halfly was passed in soloma silunce, at the end of which it time the bride and bridegroom rose, facing the andience, the bridegroom pronouncing the following words:

"I, in the presence of God, and of this assembly, take this woman to be my wedded wife, proasing, will divine assistance, to be the ter faithful and loving bushand, as long its we both shall live."

The bride, then, in a voice somewhat faltering, repeated astimilar declaration, and both sat down. Two young men of the society then placed before them a small dable containing a huge parchment seroll, which they opened, and in presence of the assembly they first and any groom affixed their signatures. An elder of the chunch then read the document aloud to the audience. It set forth that the parties had at a regular monthly meeting, preceding signified their intention of marringe, that the sucelly fluid approved of the same, and that the sucelly fluid approved of the same, and thus, by their injurt declarations and signatures they had arrived at a "full accomplishment of their meetings." He then stated that all the Friends were invited to sign as witnesses after the close of the meeting. After a few minutes inote of silence the newly married couple anddenly-rose and left the church, and were fallowed by the whole congregation. The antience was well pleased will the circemony, which we think was the most sensible we yet saw.

\*\*Cholera.—Aletter dated at Proceton, Ky, June 19, gives a fearful account of the rwages of the cholera at that place. Within the last forty-nich

19, gives a tearful account of the ravages of the cholera at that place. Within the last forty-eigh coolers at that place. Within the hast forty-eight chuntagethere had been ren new ones. All that could get out of town had gone, and there are but four or five families in town, not rough to take care of the alck. One of the physicians died on the 18th, and three other physicians had broke and the town & a picture of desolation. BALTIMORE FEMALE COLLEGE

To hearts who have laid their treasures tow

Oh! the whispers of living love may change,

And its pleasant voices grow coldly strange :

But the grave is true to our early trust,

For the golden harp-strings cannol rust!

Let us turn, now, from divisions in Methodism to divisions elsewhere. I must say something about

THE BISHOP OF EXETER AND THE HIGH-CHURCH MOVEMENT the Rev. Messrs. Shore and Gorham, and of his recent contumacious conduct in reference to the decision of the Privy tico. us u elever, political pamphleteer, especially on the question of the Cath-olic Class. First he wrote against these, and then suddenly turned round stand, 'at whatever hazard,' such are his

principles, was wrapped up in self-righteous delusion. Dr. Philpotts finding him in this condition on his visit, and that conversation with the dying lord only offended him; without making any salutary impressiou upon him, wrote im a long, beautiful, carnest, pathetic letter, full of evangelical truth and aplow such a letter could at any time have been written by him who is now the proud and wrong headed Henry of xeter. But so it was. It is right this one redeeming fact should be known of him. Yet how sad the thought that the effect of ecclesiastical elevation has been, so far as we can judge, the utter suppression of that in the Bishop which was once so powerful for good. No greater contrast is it easily possible to magine, than between the evungelical humility and simplicity which inspired the letter to the dying lordly prince, and the high-church rigor and pride, and intenso dislike to whatever savors of evangelicul doctrine, which have, fer

and actings of the Anglican prelate.

Some years ago, the Bishop prosecuted Mr. Shore, because having once been a clergyman of the Church of England, he had dared to secede from the ecclesiastical subordination and unilaw, that the Bishop was able to secure the condemnation and imprisonment of Mr. Shore. For a man, constituted by the shore impressed upon the indelible character impressed upon him at his crdination, unchangeably and publicly to protest against the approaching assombly.

At the same time that Henry of Exof England to secodo Iron that comminion, and preach independently, was an offence against the ecclosiastical or woonting of high-church agitation, other states of defeat which had been brought last der of that Church, from whose pale it was utterly unlawful and impossible that he should, by any declaration or notification, or by any process whatever, sop-arate himself. That ecclesiastical law now, however, overruled by act of Parliamont. Soarcely had the Bishop Gorham, whom, upón regular presentation to u living by the crown, ho refused to institute, on the ground, the sole

ground of his not believing and teaching baptismal regoneration. By the

decisions of two ecclesiastical courts, the Bishop was sastained in this refusal.

But upon Mr. Gorham's finally appealing the animal meeting of the Naturalia has just been published. Of the discounties, held last week, the Rev. G. A. Denison, a Pusëyite bishop was defeated, and required to the Rev. G. A. Denison, a Pusëyite the Rev. G. A. Denison the Rev. G Bishop was defeated, and required to institute Mr. Gorham. This, however, lie still refused to do, and Mr. Gorham accordingly was instituted over the head of the Bishop, by his Grace of Canterbury. Since that period the obstinate prelate has been in an extremity of wrath. He has taken no pains to cent his entire cent has overruled him, and of feat was only secured by dint of very accordingly was instituted over the head of the Bishop who has overruled him, and of feat was only secured by dint of very according to the specification in favor decreased a motion in favor those go back through the specification in favor delegation in favor delegation in favor design referred invitation to the ministers of foreign referred churches, and other inconventation in favor delegation in favor bishop who has overruled him, and of feat was only secured by dint of very is carried into effect, it may not the Privy Council, which decided against diligent canvassing and effective organist multikely be adopted; the third, which him. Two months ago he published an ization on the part of his opponents.

the sense of the Church itself, declaring that a cardinal article of its ereed—the

attack upon the prelates of the Church He remembers that the Archhishops of Canterbury and York were consentiont and even eager parties to the decision' which has so deeply wounded him. In the person of the Archhishop he resents an authority intelerable be cause higher than his own. Therefore does he inveigh against the vast power of the Primate of all England, whom he designates the second spiritual Chief on them. They recommend the conof Christendom-alterius orbis Papa. The extremity of his indignation is surpassing the owns himself liable to reasonable blame, for not having objected to the presence of such assos-sors as tho two Archbishops in the Judicial Committee; and pleads that he then shrauk from proclaiming his 'entire want of coulidence in the soundness Though the proceedings of this tur- of Christian belief of the two highest functionaries of our Church. Announce bulent prelate, who reminds us so strongly—and more and more, as his years advance—of the haughty spiritual potential potential in the haughty spiritual in the haughty spiritual in the haughty spiritual in the haughty spiritua vance—of the haughty spiritual poten-tates—the Hildebrands and AlBeekets nion with his metropolitan—his lordship of former ages, have not, of course, ex- admits in effect that, for making such a cited as much interest on your side of the water as on this, yet your readers must have heard something, at least, of would himself, by so renouncing comhis tyrannical and persecuting proceed munion with him, 'have deserved to be higs during the last few years ugainst the Rey. Messrs. Shore and Gorham, This is rightly to be termed 'a challengo,' and ho immediately and boldly proceeds to test his Archbishop's sound-Council on the Gorham ease, and the ness of doctrine by examining an old authority of his ecclesiastical superior, charge of the Primate's, recently referthe Archbishop of Canterbury. Doctor | red to by him, but addressed to his eler-Philpetts, who is now a very aged man, gy in 1841, when he was Bishop of Chesverging towards 80, first came into nooverflowing with heretical statements,"

in their favor. For this political conversion he was rewarded, by Sir Robert called (that falso peace, which is nothing Peel, with the Bishoprio of Exeter.
The only truly pious and noble thing that is known of him, ecourred before but, cortainty of the destruction of my but, cortainty of the destruction of my us from all quarters, as on them that

In the same pastoral, he makes arrangements and issues directions as to the calling of a diocesan Synod, a strange thing in the English Church, but which, if convened as a matter of private arrangement, and a merely vol be not illegal. The Synod is to consist of "the Bishop, his full chapter, his Archdeagons, his Chaplaius, the Deans rural, and about sixty other Presbyters; that is, two to be chosen by the Presbyters of every of the thirty donnories out of their own numbers." The Synod is thus to be representative of the eight hundred elergy of the discose of Exeter. The purpose for which the Synod is suiumoued, is to consider points of doctrine, disciplino and practice. Baptisfirmed, lay-agency to be promoted in due subordination, und under earoful discipline and oversight, questions of church-ceremonial and ecolesiastical etiyoars past, characterized all the writings and actings of the Augliean prelate.

The Synod is to meet on, the 25th of June, and will probably continue for three days. No subject is to be intro-duced, except with the consent of the Bishop, nor any resolution to be passed, against his veto, the Synod heing, as the ty of that Church, und to minister as an Independent elergyman. Strangeto eil of the Bishop.". The list of particular subjects to be considered was published in the papers nearly a fertnight

ers of the same party are labering with | week by the Teviot. Sir Harry Smith scarcely less zeal in the same cause. A largo section of the clergy are dotor-ly, but has harassed and defeated the minod to get the entire spiritual direc-tion of the National Schools, which are reinforcements taken out by the Singasupported partly hy private subscriptors and the Sir Rehert Peel will, no tions; and partly by government aid, doubt, enable him to act systematically into their own hands Of course, as and extensively on the offensive. From volved in a new controversy with Mr. every thing mental is also to some ex-Gorham, whom, upon regular presentation, and overy thing mental in an Sir Harry has really acted, in his gov- can say? tone of instruction given in these some degree of haste und imprudence, schools. This, in many instances, and But, on the whole, nothing has come to

him. Two months ago he published an address to his elergy, as a substitute for the usual oral charge at his triennial visitation. The summary of one-part of this address, which I subjoin, is taken from the London Watchmaa:

"At once he enters on the subject of the Privy Council's decision on the Gorham case. He argues first against the constitution of the tribunal, and then over-rides its decision by an appeal from the court of the ribunal charge of the Church to the Anglican Church in this kingdom is the courted to the Anglican Church in this kingdom is the courte of the one recommended, is via the Cape of Good Hope, and though longer than the observation of London, in the charge of the one recommended, is via the Cape of Good Hope, and though longer than the of Good Hope, and though longer than the observation of Contents of Cood Hope, and though longer than the observation of Contents of Cood Hope, and though longer than the observation of Contents of Cood Hope, and though longer than the observation of Contents of the observation of Contents of the observation of London, in duced many to oppose Mr. Denison, on the present eccasion, who are yet with him in principle and purpose. It is doubtful whether there was a majority in the meeting actually opposed to the spirit of the resolution they rejected.

You will: I day osay, have actioned by well as for Great Britain. Certain it the Angle of the Church is the Angle on the present constitution of the observation on the Gorham the present constitution of the observation on the Gorham the present constitution of the present cecasion, when are yet with the observation on the court of the observation of the observation of the present constitution of the present cecasion, when are yet with the observation of the

zation and legislation. The six bishops presiding over the province of Austraconstitution and organization of the churches under their care into a colo- falling off. Over this the protectionists on them. They recommend the conparticular Synods for each discese, of clergymen to new or vacant Sees. They propose to admit the laity to a concur- which at present is descrited by visit rent jurisdiction with the elergy over all who flee from the summer malaria. the temporal alfairs of the Church, and to give them a veto upon any organic

hange in the ceclesiastical constitution that may have been earried in the Provincial Synod. In order that the laity may exercise these rights, the Bishops propose that there should be diocesan and provincial lay representativo assomexcluding from, church privileges. Presbyters are to be tried by the diocesan Synods, bishops by the Assembly of the Bishops of the Province. They strongly, affirm the doctrine of "baptis-mal regeneration," and conceive themselves; us a voluntary charch, released from all obligation to perform religions services for dissenters. These are the most remarkable features of this very in soveral points to the polity of Methodism, you will not have failed to noto. Greatly has this movement heen ap-

country. Greatly does the same party

tinue, it is impossible to say. The present Government, not in any direction, or on any point, strong, is particularly feeble in reference to this measure the Pope, by his spiritual pretensions, and especially by a recent Bull relating to this kingdom, interferes essentially and injuriously with the just rights, and even with the necessary temporal jurisdiction and dominion of the Quecu. Therefore a repressive and prohibitory bill is required. But, then, it is plain that this argument applies no less to has produced a profound sensation— Ireland and the colonies than to Great but, on the whole, seems more to have Britaiu, since her Mujesty's temperal created suspicion of rashness among senower and jurisdiction must be, und are. lio same for all her dominions. Above all must this hold in regard to-Ireland. ruled by the self-same Parliament and luws as Great Britain. Yot iu Ircland and in the colonies generally, the very same pretensions and acts of the Pope, which, when applied to England, hav ereated-and justly created-such a detormined resistance, have for some time been not only allowed, but really sano tioned. To be consistent, then, government must either do nothing in regard to England, or make confession of error, and undo much that has been done clsewhore. They are not prepared to. tako either of these courses. Honce this weakness and disadvantage. What hetween the "Irish Brigado" on the oue haud, and stauneh and consistent Protestant conservatives on the other, Ministers have a hard time of it.

Tho news from the Cape brought by the Sir Robert Pool, which arrived has not only maintained his ground fully, but has harassod and defeated the Olanutz to consult and arrange. Rusimportant sonso, spiritual, such a pro- erument of the colony, and his doalings vision as this would secure to the clorgy especially with legislation and the conan-all-pervading centrol of the kind and stitution of the legislative bodies, with

the Anglican Church in this kingdom is that unless free trade is reciprocated aro thus active and zealous, the colouial to us by other countries, and especially that a cardinal article of its ereed—the acknowledgment of one baptism for the remission of sins?—has been repudiated by the Judicial Committee.

"But Dr. Phillpatis soon directs his upon voluntary support, has compelled complain loudly of your coasting nuvi-them to recognize the functions of the gation laws, by which British ship own-laity in connexion with church organic ors are excluded from making trading voyages from New York to California lia, met in Sydney, in October last, and for us to reekon a voyage from Britain drew out a scheme for the independent to Canada or back a coasting voyage. Our latest revenue returns show some

> chuckle: 4 From Romo we learn that his Holiness has issued a commission to an exvening of a Synod for the province, and traordinary congregation of six Carili-Australasia; the fermer, or general Sy-nod, to have the recommendation of to have erept into their administration. Arrests are very frequent in the city which at present is deserted by visitors

> > Sardiuia, it would seem, still bears up cording to the latest intelligence, there was no likelihood of a reconciliation he ing effected between the two courts.

In Portugal, Saldanha endeavors to secure himself in power, by restoring to influence and privilego the grandees and notables of the old Don Miguelite royus the ecclesiastical diocesan and provincial Synods. They retain church discipline entirely in the hands of the parish clergy and the bisheps, with whom alone is the right of admitting to, or excluding from, church privileges. being the popular hatred of the Cabrals

remarkable scheme, the analogy of which had consented, by that instrument, to ger does not seem to be yet at an end. that is known of him, eccurred before his clevation to the mitre, while he was a dignified clergyman in Durham. Ho was seamoned to uttend the late eelectrated Earl of Eldon, on his deathbed. The Earl had been a godless; profane man, yet in virtue of his ceclesiastical man, yet in virtue of his State and Church representation of the struggle of the representation of the struggle of the same party lament over the defeat of Mr. Denison, and the envents and monasteries to have served the envents and inonasteries to have served the envents and of high social position—when they serve past. True they can not very nounce out; but they have great power, a certain Episoopal pulpits, by the ministry of such men as Merle the representation at the profanation at the D'Aubigne: nucliaval darkness and degradation to the Ecclesiastical Titles Bill is still he formally and authoritatively rein committee. How much longer the stored! Now, however, the scene again painful process of parturition will conclude the changes and brightons. Scared by the that our days are numbered. We are the provocation of the Concordat were to be allowed to continue, a pronunciamento would be the result in Spain. The reason is plain. It is alleged that the Spanish Government have susponded the odious and degrading measure. Let us hope that it will never be actu-

Iu Frauoc, the popularity of the Pre sident appears still to lucrease. His speech at Dijon, of the nature of a bold us. political manifesto, and directed against the Republican party in the Chamberber, material politicians, and to bave aggravated the enmity of his opponents, than to have stimulated the zoal of his friends: The sense of the country, however, is undeubtedly, on the whole, in his favor, and in favor of a revision of the constitution, for which petitions continue to be numerously presented. Ou the other hand, in the Chamber, the opposition to the revision becomes more consolidated and more formidable, and it seems to be quite certain that the ne-Chamber, has split the supporters of the revision into irreconcilable schisms, and proved that their seeming agreement was so vague and general as to be worth less. Whether the President will holdly appeal from the Chamber to the nation, is the problem of the hour in France, Against the probable consequonues of somo new revolution in Franco, or some new offensive movement of French policy, it is said that the Northern monarchs lately met at sia and Franco are the opposite poles of the European continent, round which the uegative and positive forces of mod eru policy respectively gather. How soon or how these threatening masses

You will see that in this letter I have found no room to refer to the Great Ex hibition, though well-worthy, in various aspects, and especially because of its pacificatory and oatholicizing influences, solve writing the above. I have seen that, on the very same ground, the Bishop has just refused in the constraint of the Bishop has just refused in the constraint of the Bishop has just refused in the constraint of the most porticious, at the Thomas Church, Exeter.

Solve writing the above, I have seen that, on the whole, nothing has come to light to discredit the general view which of being made the subject of particular gave in my last.

Thomas Church, Exeter.

THE TEMPLE OF BEAUTY BY PETER PLANE BEED.

I have found out the Temple of Beauty-Thave seen where fair Innocented well Where Virine holds conthiol's duty O'ct the presions enclosed in her celts; And nought can compare with that palace Where beamiful lanocence dwells.

I have found out this truth by a token-A token that beams from thine eye, The thoughts that come forth in a sigh-Aml no language was ever yet sp ken, That with that soft language can vie.

My Kate is the Temple of Heautyhs idel, her virue divine— And I'll sacrifice love, as a daty) At the shane of the loved une of mine Tis the sweetest of all my life's pleasures

She's as fair as the flowers that blossom In the reignsof the rosy May queen— That bloom on the heautiful hosom Of the May in her mantle of green; That embroider, with resente gemy, "Her vesture of velveted green.

And this is the reason that flowers Do filter, their fragrance through air, From the depths of the dow-bedecked-bowers; 'l is to performe the bright and the fair, To cheer up the honey-me on hones

- Like the language the flowers have spoken. And remembrance rein tins as a loken Of bliss that for ever shall b And the love-tive shall never be broken Tual binds my beloved to me.

And the flowers may wither and die, All sorrow and asdness I'll banish, And bask in the smile of her eye, For life's svenrisome walks she will brighten With the life and the light of her eye.

Though the summer may suddenly vanish,

[John of the Lord." You, my friends, have By special Providences, for three eenturies past, he hath prepared the ground in which you are now planted. What more could be have done, than be bath

Christ the Lord employs moans and instruments-activo, intelligent, zealons, burning agents-warm hearts, fired with Lovo Divino-for effecting his great and good designs.

As-followers of Christ, yo are neither Amoricaus nor Europeans. In Christ, there is neither Africa nor India, "nei-ther Greek nor Jow," "Christ, is all; and in all."

The last welve mouths ors, in times long past, those ferais of sound doctrine whereby they were trained for the work of founding restore to Popery all her ancient do minion. Religion and education, in all the Union, both at the South and the men of all races. Those fathers spake many languages; but amid all the persecutions they bore, it was one precious faith they held, and one Lord Christ they served, whether among French Hugher than that which is only speculative.

The attainment of a historical faith, which is a still higher degree of saving faith than that which is only speculative.

The attainment of this historical faith montese Waldenses, or Germans or Hol-landers. depends solely upon an honest and fair investigation of God's word, and not so

> son of an American, but endeared by kindred blood to four great nations of the old world—the Scotch, the Swedish, the Irish and the Euglish let me exhort and beseech you to ferget, on this soil, all national distinctions. This I beg, for Christ's sake and for the sake of your children-the future generations, who I hope and pray may be the Lord's—nurtured and trained here for his uso, prepared for going back, as apostles of liberty, law, religion and light, to the land of their fathers, whereever that be, to spread the free Gospel of Christ among them that now "sit in darkness and in the shadow of death." Amen

THE LITTLE BOY THAT DIED. I am ale ne in my chamber now. And the midnight hour is near; the faggo,'s crack and the clock's dull tick, Are the only sounds I hear. And over my soul in his solitude, Sweet forlines of sadues glale;

For my heart and my eyes are full whe n I think Of the little boy that dled. I went one night to my father's house-Went hame to the decremes all, And softly I opened the garden gate, And softly the door of the hall.

My mother came cut to meet her son She kissed me, and then she lighed, And her head fell on my neck, and she wept For the little hoy that died. I shall miss him when the flowers come In the garden where he played; 

I shall see his toys and his emply chair, And the home he used to ride; And they will speak, with a sitent speech, Of the lit le hoy that died. I sholl see his little sheer again,

With her pleymates about the door;
And Pil watch the onlines at their sporis, As I never did before; And If, In the group, I see a child Thet's dimpled and laughing-eyed,

191 look to see If, it may not be

The little boy that died. We shall all go home to our Father's house, To our Father's house in the skles, here the hope of our would shall have no blight

The little boy that died.

Trade of the Praires. The Kansas Publi Ledger, of the 14th, in an erticle on this subject,

seys:

"The trade and travel is immense, and more than doubles annuelly. More than one thousand loaded wagons will leave this rows the present year, and once. (for a wonder) there is a town not overstocked with goods and supplies."

For the N. C. Christian Advocate.

There has been se much said and written upon the subject of faith, that; it would be very difficult fer me, or indeed for any uno to offer a new idea upon the subject. But then as it seems in he extremely difficult, especially for the unregenerate mind to comprehend

feur-of Goil. Imbue them with reverence for that Holy Volume which, in their native land, many of them have must be proof of the existence of that object; and, 3d, there must be capacity been taught to despise, even by the spi It will not require a logician to see that ritual guides set over them by their own in the absence of either object, testimogovernments, to rule them with a rod of iron. The more you on thus henrill would be whelly impossible. Jesus these needy oneasts, the more acceptaubject of the Christian faith. The operations of God's spirit upon the heart of man, and the revealed word of God, aro the great proofs of the divino existenco of Josus Christ. The objects and the evidences of saving faith being wholly divine, and the heart of man being altogether deprayed; it has been armind and the soul, as well as of the body; and our efforts should be world, will in their range.

The field is the world." The whole is the title searced to pacity to comprehend divine subjects.

But we are, one of these who believe that it is searced to possible at esrth is to be d filled with the knowledge of the Lord." You my friends, have

Ist and 9th J

That the coul of man is citirely depruved is not donied; but, then, that it is possessed of a recipient principle or power, is a mere truism; and more could be have done, than he bath dono for America, and especially for the proper improvement of this union? And think you that he who owns the field is indifferent as to the character of the plants growing hencath his all-seeing eyo? Will Christ the Lerd take it complacently, when he have into your heart for wheat, but finds tares?

Good seed comes not by miraole, the level of this light, we shall discount in the great Eternal day. necount in the great Eternal day. Should there be doubt of the existence of a God, the very doubt itself proves, a degree of faith. Now, we say that he who oheys this light to the best of his ability, according to the opportunity af-forded him, will be led on, (although it-may be by almost imperceptible de-grees.) until he shall be able to exercise faith that will nuite his soul to God, whether ho be an inhabitant of somo heathen land, or of Christendom. But as we in this country all have access to the revealed word of God, if men would yield to the premptings of their own hopes and fears, which are always apalagons to that word, they would search the scriptures, and soon arrive at the attainment of a historical falth, which pon my will or disposition to be lieve; for faith nets upon evideuce, (historical,) and this may take place with or without my will or disposition, previded the evidence be clear and for-cible. Having come, by an honest and fair investigation, to a firm belief in the truth of the Holy Scriptures, it only remains for us to render obodience to the Divino procepts therein contained, and we shall arrive to the attainment of that higher degree of faith which brings the soul into heavenly union with God. But, alas for us, how many hundreds and thousands of us believe the Holy Scriptures to be Divine, but still refuse obedience to their sacred precepts.
We hold the truth, but we hold it in

unrighteousness. The great cause why so many persons who believe the Word of God to he true, live without the comforts of vital piety, is to be found in their own obstinate and wilful disobedi-

ence to what they themselves believe to be right.

This rebellion grows out of a secret unbelief, not of the truth of the Scripflow from the exercise of an humble, ohedient faith. They think that Christiaus are ullstaken when they speak so tians are inistaken when they speak so cathusiastically of the peace and coinfort which they enjoy by the exercise of faith in Obrist. They minterpret the Scriptures, as many of the Jews dispand continue to do, with regard to the oming of the Messlah. If such persous would only doternine, unfeignedly, by humble prayer, and in the use of all the means which he has appointed, they would soon be initiated into the glorious invistory of a faith that works by love, and purifies the heart-a faith associated with joy and pence in believing -a faith accompanied by an humble trust, which takes God at his word; and bolieves that all things shall work to bolieves that all things shall work to gether for good to them that love God. Such is the faith which displayed its practical operations in the lives of Abraham, Isaao, Jacob, and all the holy Patriarchs and Prophets. This is the faith of humble reliance, by the power of which kingdoms have been sudded, tho lamo have been made to walk the hliad to see, and the dumb to speak. By the power of this faith, the violence of, fire has been quenched, armies have been put to flight, and the sun and moon made to stand still; and by the exercise of faith, the martyrs should in the fire; Ay, and the dead have been raised up.
We have no hesisation in giving it as our opinion, that if Christiaus were on-

gaged in the exercise of faith as they

changed into a morsl Paradise. God, increase our faith. We take the position that man is a moral being. This may be established by arguments the fitness of things, and the relation which he sustains to time and eternity But we have higher anthority than this. God's wor l; and that word everywhere shows that the turning hingo of our con demnation is our want of faith in Christ demnation is onr want of faith in Christ.

Hence we believe, most unequive cally.

that God, in his goodness, has placed

faith, saving faith, within the ken of
every rational, intelligent being. Hence
the necessity of discharging those duties which God requires, that we may
and encourage of all the means and
helps which God has promised to those
who obey him. If man be a meral acwho obey him. If man be a meral, accountable being, then it is true that he veroises faith, or lives in sin upon his own free choice. Hence the awful declaration of the Saviour, "Ho that he lieveth not shall be damned.

NEW ORLEANS:

BATURDAY, JULY 19, 1851.

CALIFORNIA MISSION.—Bishop Paine is pushing forward the interests of this Mission field with characteristic onergy. Rov. Wm. R. Gober, P. Elder of Vidalia. Diatriet, La. Conference, Rov. ence, and Rov. John F. Blythe, have done. been designated as Missionaries to Caldeparture for Chagres on the steamer that loaves on the 28th instant. Some hopes are entertained that Rev. B. T. Cronch, Jr., of the Ky. Conference, may themselves out of. be added to this corps. The friends of this interesting Mission will be rejoiced California post. We shall soon have the Pacific Conference.

For the information of all interested. we will state, on the authority of the agents, that the steamships leave hero on the 28th and 13th of each month. The Falcon leaves here on the 28th inst.

## Ahead of Providence.

Not long ago we had the pleasure of reading a letter from a venerable servant of Christ, and a bishop of His Church, in which was this advice: Wait, my brother, for the openings of God. Alas, what shall we do if we get conference legislation, and at this Conis a volume without lids or leaves—a volume in a sentence.

To be led by the hand of God, to he vilego of mortals. Under his counsel, our portion is chosen and our way beginning." How management of it himself.

usually fall out of the plan of Provi- prominent in this movement. dence. Some fall behind it. They are timid and fearful souls, never knowing their time-till it is past. No indications of Providence are unmistakable enough for them. The door is wide open, but for lack of faith or energy they will not enter; and by and by, when the opportunity is gone, these slow of belief and slew of action souls begin to gather what was their duty, and how great blessings they have missed. Now they understand, but too late, what the

time, in even greater than those who are fearful and unbelieving, slow and timid. These are they who get ahead of Providoes all things well, but not fast enough blessing mature too tardily-they are ever hastening the process, and thus cutting themselves off from their rich its season nutritious, turns to bitterness sample, a sermon of Ebenezor Ersking, and poison. They are strangers to the policy of a "masterly inactivity," and that strength which consists, on suitable occasions, in "standing still."

David, to whem this omen was given,

with which he waited on God for fulfil: itual influences. A single sermon often ing those purposes concerning himself ing those purposes concerning himself Doctrinal preaching was the most common and acceptable. In Erskine's ser 148,890, and the product was 148,890, and the product was 1411, has been so burnt an almost to he worthless, and mon and acceptable. In Erskine's ser 147 hogalicidis of 1000 pounts each, and men there is nothing of imagination, no 600,000, called a formula to make known to him. For men and acceptable in the single destinate of water, The corn in many places. Circuit especially. As we ventured to predict at the announcement of these men there is nothing of imagination, no 600,000, called a formula to make the destinate of water, The corn in many places. Circuit especially. As we ventured to predict at the announcement of these men there is nothing of imagination, no 600,000, called a formula to make the matter of water, The corn in many places. Circuit especially. As we ventured to predict at the announcement of these men there is nothing of imagination, no 600,000, called a formula to make the matter of water, The corn in many places. Circuit especially. As we ventured to predict at the announcement of these many years after his anointing by Sam?

Well done for the results have become the results have been so the results hav many years after his anointing by Same men there is nothing of imagination no attempt at ornament, but, a simple rehearsal of evangelical truth, in the Often he might have rid himself of plainest and most intelligible phraseol-

might and should be, that the howling anointed." The Lord seemed to have some purpose in letting him live. He could make David king without his making himself a murderer. He did not need the devil to serve this turil. The way was a preparing-David for incontestible, drawn from his physical and mental organization, together with the people and the people for him. To come to the throne by a shorter way than what the Lord was bringing him The word of God every where declares by, would be to miss of it entirely, or to that man is an accountable being. Ac reach it in disasters that would make it countability involves rule that rule, as a bad eminence, a sad promotion. As it relates to man in Christendom, is for Saul, even when in his power, he let lrim go, saying, "The Lord shall smite him; or his day shall come to dio; or he shall descend into battle and perish. And thus God would bring about his own will, without making a breach of his law necessary.

Ahead of Providence! To such an one the schemes of the Almighty's benificence are totally disarranged. He cannot make the natural and meral hastened success, but at the same time they have embittered it, and the way that seemed short, though unallewable winds about in endless perplexities Nothing has been gained. The administration of justice, mercy and truth, is stoadily working agninst him, and it is hard work and constant to counteract those very causes which otherwise had

been timely aids. Ahead of Providence! This is the condition of these who, drawn away hy By late communications, we learn that desire, have acted with doubting consciences, and instead of asking counsel of God heforehand, have left Him only Joseph S. Malono, St. Louis Confer- at liberty to approve of what they have

This is the condition of those who ifornia. It is expected that they will hasted to he rich; who, in want, could be in this city next week, to take their not wait calmly for succour frem above. By helping themselves, they have prevented heaven's better portion, and got into embarrassments they cannot help

This is their condition who covoted case or honor, and have pushed themat such an effective reinforcement of the selves forward, regardless of the numerons moral impediments in the way. Things do not work well. They have succeeded improperly. Without the explicit approbation of God, they have reached a position which they cannot maintain in honor wishout his blessing.

Tiety of opinion among them as to its But we need more laborers in this

Since Antinomianism is dying away; evangellenl deneminations who will deny eing ignorant of their privilege as members of the body of Christ, they either suppose that regeneration is the sanctification enferced in the New Testament,

lege.
The advecates of the doctrine on the ther hand, considering this a dangerous error, and auxious to draw the disinction between regeneration and saneis, that objectors begin to think of "an-other Gospel" Persons acquainted with the doctrine of sanctification, can very readily understand these phrases; hut these who are not familiar with, and who, by education, are prejudiced against it, are more apt to reject the destrine entirely, than to analyse the terms with which it is clothed. It is often repeated from regeneration.

In what particular is it distinct? Is t separate or distinct with respect to the meritorious cause, the blood of Uhrist, or the efficient agent, 'the Holy Shost, or the condition of the gift mith, or the ultimate object; the eternal happiness of the subject? . No. In

these particulars it does not differ from it. Wherein, then, consists the distinctness? Why, in quantity only; and it seems to mo that that difference, although great, is not sufficient to justify the above and similar language. Does than oach advancing step in its own degree differs from it? No. Then let us iscard lauguage which is calculated to nislead, and employ the plain and simple representations of Scripture or if we will use such phrases, let us qualify and explain our own explanations.

That sanctification is a higher state figrace than mere regeneration, the Scriptures abundantly prove, in such | two days' meeting the week after, in the passages as the following: "Let us go same circuit, God awakened many, conounte perfection?" that sanctification has verted some, and several were added to Wehster, D. D., of Baltimore, and the step is a higher degree of grace than re generation, and each step has it's accom panying witness, and is as much entitled to the phrase, "a distinct work," as as to the state of grace, is in the amount of grace testified to.

If there is any other difference, is ought to be pointed out; if there is not t ought to he confessed, that misappre-

It would be absurd to speak of differ ent degrees of regeneration; but we may consistently speak of the degrees of grace possessed by the regenerate.

There is such a thing as heing almost a been an seventarer. Ally slock in trade has been an seventarer. Christian, and heing "not far from the kingdom of God," and yet stopping short of the mark. But there is no in Christ did not bear the same relation to the perfect stature of a man in Opposite the house which I make my home have used terms calculated to hetray us

into error.
The difference, then between a regencrate and a sanctified state, is as the Sanctification gives employment, vigor and intensity to these affections.

there are very few persons in any of the net willing to take this for a sufficient

old, and adopted in the new Covenants, and learning be diverced?" and "Is pulpin, and the lamentation was bad and deep requires heliness of heart and life, but uot a sanctified press essential, in this We were too exhausted to carry on the battle thus age, to the advancement of the Church ?". Would he have us believe we have ne hely laymen, who have sufficient intelligence te attend to these things? Does or they trust to other means hesides he not presume too much upon the igthat appointed by God to accomplish in norance and want of picty, among our them this holiness, and to bring them slavener. I hope you will not let him into possession of this inestimable priving off so lightly. You have the Fight side of this question, and the Church will

bear you out in it. And now, Bro. M., if you will persuade four of the seventy-nine to come and unite with our Conference, either ification, with more zeal than judge editors, presidents or agents, we will act of God, accompanied by a distinct within the hounds of our Conference to within the conference to fill their places, who will not be sent to the spirit.

Dear Bro. McTycire—I take time only to give you a hrief sketch of the work of God on this laborious District. Seven circuits compose the District, and I suppose (net having made a close calculation.) that I travel about 800 miles in going round it once. There was a great stumbling block in our way at the commencement of the year; and other difficulties we have had to contend with, particularly with high water in the early part of the season. But notwithstanding all our difficulties, God has not fergetten to be gracious to us. At the second Quarterly Meeting for Nacogdoches Circuit, the Lord graciously revived his work in the Church. Our Quarterly Conference closed with a general burst of joy-God was with us. At the second Quarterly Meeting for Marion Circuit, twolve were added to the Church, and God was glorified in his awakening and converting power.

At the second Quarterly Meeting for Beaumont. Circuit, six were converted and added to the Church.

At the third Quarterly Meeting for Marion Circuit, the people of God wero blessed, and a few were added. At a

At the third Quarterly Meeting for Nacogdoches Circuit, (a four days' meeting,) ten or eleven were added to the Church, and we closed with eleven mourners at the altar. It was a time sanctification is. The only difference of great refreshing and rejoicing to the people of God. At all our meetings God has blessed us, but I have not time to givo defails. Pray for, us in Texas.

Yours in Christ, O. FISHER.

by arbitration, accme to be lessening. The following editorial, from the Christian Advocate and Jonrual, looks slip-

ception or twe; have poured out torrents of abuse upon the 'Northern Church,' on the assumed ground that she has the Holy Ghost inanifested itself, in a mighty sha- along-pretended that she did not want to keep the money, and yet she is now Be inconsistent as to keep it; when she has a fair opportunity of giving it up./

"This is all simply ridiculous." When-

ever any action has been had in the General Conference upon the subject, the expression has simply implied a willinguess to settle the claim of the South upon equitable and constitutional grounds. This is all. We know of no reason for supposing that the Agents or Commissioners, or any other considera-ble number of Methodists, wish to disturb great constitutional principles in favor of the Southern claim. Nothing has yet occurred to remove the constitutional difficulty in the way of dividing the funds, and it would be folly to wish to'do it while these difficulties remain. The advice of the Court has net done it, and could not do it, notwithstanding all the Southern men say to the contra-

ry. The Court might scenre the agents ngainst the danger of a civil prosecution for misapplication of funds, but could never give them authority to guentrary to the laws of the Church, and the expressed will of the General Conference. The advice of the Court gives no authority at all, although it seemed to the agents to open the way tog the offer of an arbitration, as authorized by the last General Conference."

Zion's Herald thus remarks on the

"We suppose, then, that the arbitra-

tien will have respect to the question whether any portion of the property can he given to the South, and not merely what portion may he given it as a compromise.

# European Correspondence.

The Church Madeline, etc. My Dear Brof I promised, in the

conclusion of my last, to say something in this letter of the Church Madeline, the most splendid church in France. It was commenced in 1764. The work was suspended, however, in 1798, by the revolution. Nothing was done from that time, until the close of the Prussian campaign. At that period, Napoleon made an appropriation for its com-Temple of Glory. As such, it was to be in commemoration of the achievements of the French arms. He designed, also, to have the names of all those who fell in the service of France, engraved ou its columns. His subsequent reverses of fortune, however, de-Teated this, with many other of his gi-gantic schemes. It was reserved for Louis Philippe, under the promptings of that policy which led him to turn his attention to the unfinished designs of Napoleon, to complete it.

It stands on an elevated platform nrally suppose the joy of the pardoned templating with pleasure the converted and supported by Faith, and Hopo, and Charity, who are scated. Two children posited in the hurying ground at Marion, but he are in the retinue also, who seem to be contemplating the blissful abode of Paradisc. In the angle, is an angel, welt coming a blessod spirit, and pointing with joyful significance to the place ro-

served for the good.
Ou the left hand of the Saviour stands the Angel of Vengeance, ropelling the wicked, who are represented as approaching, with an evident disposition to thwart the good that is heing accomplished. There may be soon Hatred with distorted features; Sensuality, half denuded, and accompanied by the obieot of her guilty passion; Avarlee, represented by Age still clinging to useless troasures; and a Demon, harling into would prefer religion to every other blussing, for it the ahyss of wee a lost spirit. This makes life, a discipling of goodness, creates new completes the group. Lt is said to be the largest scriptural pediment in oxis-

It would fill volumes to describe mi- beauty and dividity. (Sir Humphrey Davy nutely the iutornal workmanship of this ohurch. The pavement is of variegated. marblo. The ceiling is decorated with beantiful paintings, illustrative of porwill be bu the other toide, and "too much rain," not say it is right to call such a movo- sonages and seenes sacrod and historio beer for others to guzzle. 

In one place may be seen the Saviour surrounded by the apostles and evan-gelisis. A little farther ou, and one beholds Mary Magdalene, in the attibeholds leary bragatione, in the atti-tion of penitence; three beautiful an-gels supporting the cloud, on which she kneels, exhibiting a serall, with the words "she loved much," inseribed on it. Go on, and you will see Henry LV the convert to Catholicism; Lonis XIII, presenting his crewn to the Virthird session, with seventy-five students. So far it has dourished beyond the exhibit Richelien, who assists in the cerenony.—There, too, is seen Napoleon, receiving the imperial frown, from the hands of Pius VII; and so it is throughout the interior of the Church. crowded with paintings, from the most celebrated artists of the past and pro-sent. There are six chapels inside the building; separated by marble bilus-trades, and in each of these chapels is ference. There is every reason to ex a marble statue of some patren Saint The organ is in the vestibule, and isorregular Episcopal labors."

The prospect for an amicable and speedy settlement of the Uffarch snit, blo steps, is thought to be unrivalled in Scriptural decorations.

These architectural splenders are bayond doubt wonderful auxiliaries to the Papal religion. The mind of the beholder is awed into a reverent feeling us he beholds, on every side, such symbols and impressive representations of a faith venerable for its antiquity on the assumed ground that she has and although the memory may simmen hold on to funds which helong to the from the past much that is revolting. Church, South, and that she has all and much that makes the blood rus cold, connected with the history of that faith, yet it is difficult to resist the silent influence exerted upon the so this elequent oratory of the poucil and

chisel. Yours, most sincerely, " w. T. W. Paris, 1851.

Fourth of July was celebrated in Washing ion and a large concor e untire population and a large concourse a. The various divisions of the processing full that the American Telegraph remerks

nterminal could, of count, he willnesser of the multium. It am ancient rice o the fraiemity west fully observed in the fraiemity west fully observed in the Barrier of Columbia, was brief, oc or more than twenty in mitten; but it was a supplied to the purpose, associating the of Italian with the important event of

military aptitudes end provess of the race, and demonstrated the wisdom which hes presided over its organization and govarnment.

Wittle the gradual and slow enlargement of these military arms has been regulated by jaalous watchfilness over the public treasure, there has, nevertheless, been fracily given, all that was needed to perfect that quality; and each effords the nucleus of any enlergement that the public exigenace may damand from the millions of have henris and strong arms upon the land and water. The navy let ha active and aggressive element of unitonel defence; and, let lone from our own sea coast, must display its power in the reas end channels of the enemy. To do this it need not be large; and it can never be large enough to defend, by its passence at home, all our ports end harhors. But, in the obsence of the nury, what can the harve hearts and strong arms of the ermy and milital de against lite anemies line of butto ships and steamers felling without notice upon our coast! What will gasrd oar cities from tribute, our merchant vessels and our nevy yards from configaration I. Here, sain, we see a wise forecast in the system of defensive measuras which, appecially since the close of the war with Great Britain, has been steadily followed by nor government. While the perils from which our great establishments had just excepted, were yet fresh in recollection, a system of fortifications was begun; which now, though not quite complete, fence in our important point suited impassable strength. More allowed the strong and earness at the strong and of the first day of the reventy will of the United States of America, being the 4th day of July, 181 the observement of the "egisterion

at on have regularly been supported in the State government and in the general government—all this, whils laws national and State, of such a character have been passed, and inve bean so wisely sufministered that I may stand up here to day and declare, as I now do, in the face of all the intelligent of the ega, that from the period which has elapsed from the day that Washington laid the foundation of this capitol to the praent time, there is an about no country upon earth in which life, liberty and property have been more amply and steadily secured, or more freely enjoyed than in these foundation of facts, and there foundation of facts, as classified or proved, and assert that these, our republican institutions, have not answered the trace and of government, beyond all precedent in human history. There is yet another view. There is a spirit in him, and the breath of the Aimighty bath givan him understanding. Then only, is he tending towards his ewy destiay, while he seeks for knowledge or virtue, for the will of his Maker, and for jest coccapions of his ewn doty. Of ell important of sil, be first asked and first answered, in what coesary on the habitable globe, of greet axtent and larga popolation, are than means of knowledge the most generally diffused and enjoyed among the people? This question admits of one had cely one answer. It is here—it here, in these United States—it is among the dascendents of those who actitled at Yorktewe—of those who were pigrims on the shore of Plymouth; and of those other races of men, who, in subsequent time, have become feined in this great Americae femily. Let one fact, incapable of doult or dispute, satisfy every mind on this point. The population of the winds of the continent of Europe and apreed it out before you. Take your acale and your dividers and ley diffused the particular that his his account of the practical materials. But there is subsequent than the limits of evid—anther the practical materials and habits require of the hortherhood of man, in a subsequent than the

continued to the continued of the contin that a greater portion of the people of the United States ettend public worship, deaently clad, well behaved, and well acated, than of any other country of the civilired world: Edifices of religion are seen every where. Their aggregate cost would amount to on immense amo of money. They are, in the general, kept in good repair, and confecented to the purposes of public worship. In these edifferent he people regularly assemble on the Sabhath day, which is accredly, act apart for rest, by all classes, from secolar rangloyment and for religious meditation and worship, to listen to the reading of the holy acciptures and discourses from pions ministers of the several discourses from pions and colleges, of churches and henevolent institutions, is onn of the most remarkable characteristics of the American peopla, cot less strikingly exhibited in discourse were fieled, near the ling chiles of the pioneers, are to be seen rising together the church and the school-house. So has it been from the briginning, and God grant that thus it may continue.

On the shore, show hole modificate tower,

Va (6th).

Yet faith's pare hrms, becould its shelter rade, Breather out as sweetly to the langled wood. As where the rays through that no order out. On mar be shaft and teasellated Boo. Who does not admit that this uni amileled grow

Breaths on a sweet in the langled wood.

As where the ray a mouth having over jour.

On main be start and tesselsated floor.

Who locarnot admit that this ung antileral growth of providence, of the union of those States under a general constitution which guarantles to each State a republican form of government, and he erjoyment of life, liberty, and the pursuit of happiness, frea from civil tyranny or ecclesiastical domination. To bring home this deate the present occasion, who does not feel that where President Washington laid his hand on the foundation of the first capitol building, he performed a great work of perpetuntion of the Union and the Constitution!

Who does not feel that this seat of the general government, healthful in his situstion, cantral in his position, near to the mountains from whence gush aprings of wond-ful virtue, teeming with nature's richest products, and yet not far from the bays and the great astuntles of the saa, as-lly accessible and generally-greeable in-cilimate and association, does not give attength to the union of these States; that this city, bearing an immorial name, with its broad streets and avenues, its public rquares and magnificent edifices of the genaral government, erected for the purpose of carrying on within them the important husiness of the seweral dapartments for the reception of wonderful and curious Inventions, the preservation of the record of American learning and genius, of extensive collections of the products of union and public schools, whife all the children of the city, without distinction, are provided with the means of abstraining a good education—where there are achdemies and colleges, profession is chooled in the product of the colleges, and principled with the means of our country, with her produced with the means of our country, with her produced with the means of our country, with her produced with a more as end diffusion of knowledge among men." With each secceeding year new filtered to good of the firmity gemented using franke produced to conth

ortifications was begun; which now, though not onits complete, fences in our important points with impassable strength. More also were thousand cannon assessment works, arranged with all the advantages and appliances that the art affined, be turned to conceit of the sea coast, and be served by the sea whose hearths they shelter. Happy for us that a less, since sheep are means of security that the sea, since sheep are means of security that the sea whose hearths they shelter. Happy for us that a less, since sheep are means of security that the sea who will be a strength of maritime warfars, by making distant expeditions cany and speedy, have made them more probable, and at the same time more difficult to anticipate and provide against. The cost of fortifying all the important point on our whole. Adantic and Gulf of Mexico frontier will not exceed the amount expended on the fortifications of Parls. In this consection one most important facility in the defence of the country is not to be overlooked. It is the almost instantaneous rapidity with which the colders of the army and navy and any number of the milital corps may now be brought to any point where a hostile attack may be made or threatened. All this extension of territory embraced within the United States, increase of the population, commerce and mannactures; development of its resources by cands and railroads, and rapidity of intercommunication by lunumerable stramboatures are complished without overthrow of, or denger to the public property; or of the navy, any further than to assure the navigator that, in whatsoever sea he shill rail, its ship, he is protected by the attar and surjess of the army and indeed, without any permanent hall rails its ship, he is protected by the state and deripes of his country. All this without the shedding of a droper block-for transon or rebellion—all this while systems of popular representation have regularly been supported in the State. simple garnoute, and anty ancended to reach a tortice height then any similar arrouture on the surface of the whole certh. Let the voive offering of his greteful. countrymen he freely contributed to certy ligher and still higher this monument. May I say on another occasion, "Let it rise! let it rise! le

And now, fellow chizens, it this vision were a reality—if Washington were now actually among us—and if he could draw around him the slades of the great public men of his own days—patrios end warrigs, oators and stetesmen—and were to educes us in their presence, would he not say to us—"ye men of this genaration, I rejoice and think God forbeling shie to see thet our inhors and tulis, and seerifice's, were not in valu. You are prosperous—you are happy—you are grateful. The fire of liberty burns brightly and stendilly in your hearts, while duly and the law testrain it from bursting forth in wild and destructive confingration. Cherish liberty as you love it—cherish its securities as you wish to preserve it. Maintain the constitution which we labored so painfully to establish, and whilei has taen to you such e source of incellimable blessings. Preserve the union of the States, occeoned as it was by our prayers, nur tens and our blood. Be true to God, your country and your duty. So shall the whole Eastern world follow the maning sun to contemplate you es a nation; so shall all succeeding generations honcer you as they honor us; only a shall that Almighty Power which so graciously protected no, only which now protectnyou, shower its everluating blessings upon you and your posterity."

Prasident Fillmorel It is your sinaularly good fortune to perform on act such es that which the ecilest of your predecessore performed fity-eight years ago. You stend where he stood. You lay your hand on the corner stone of a building dasigned greatly to extend that whose corner stone he laid. Chinged, changed is overy thing around. The same eun, indeed, shone upon his liesd which now shines upon yours. The same broad river rolled it kis feet and bathed his last resting place, than own ords at yours. Hut the site of this city was then mainly an open field. Streets and avenament of the great and united people. Sir, may the consequences of the duty which you perform a surpiclouly to-day, equal those which individual to the present day, and

Cotton Transformed into Flax. The foreign journala have teemed with the process for turning flax in o cotton. The Peris correspondent of the New York Journal of Commarca thus aunounce

New York Journal of Commerce this amnounces the reverse of that process:

"At the mement we are celabrating the transformation of flax into cotion, it is announced, not less authentically, that cotton is transformed into flax. The action of the journit of flower states that ha lay seen a stuff made of cotton exclusively, which has all the appearance and external qualities of hierarcioth. A young manufacturer of Alouling devoted to it recuty years of sacrifices and labor. The result requires too exits reducing the firmer as it is washed. It may be afforded at the price of callou of the same width."

to governous to the state of th

The Howling Darvishes of the East,

Perhaps same account of the orgics of the Howing Dervinhes, or now prantlead in Tarkey—thate being a little surgary in their fansitice—antios—may be interesting to the renders of the Journal. This order are raisly and truly the descandants of the fire worshipers of antiquity—the Haalits, four handed of whose priests were sisin by Elijah the prophet, near the town of Kyphar, nhount two miles to the North of the convent on Monnt Carmel. Whan Mohammedanism hagen in sprend, under the Irresistinka Influence of Damascus blades, these mad fellows gindually incorporated snough of the new doortina with their own hlondy rites to be spared, and in those latter days the priests of Baal end their dayout disciplas embrace the meat orthodox, senctified Musanimeno the Enex. At Sentsrl, where one mosqua is located on the East side of the Heavy of the Cart of the Cart. At Sentsrl, where one mosqua is located on the East side of the Heavy of the Cart of the C

wes large, and made one's flesh crew late n. little to look et it. On the line midway between the floor and gallerica were twenty-three larga tamborins, eleven smell drums, and eight pair of metal cymbels.

For a considerabla tima they were in a kind of cestatio prayer, wagging their heads atther way, with closed eyes and outspread hands, while the priest kept ep n demi-majoel racitativa articuletion. By end by they simultaneounly spraag to their foet, formed a cirole, plasing their arms over acchother's shoulders, and performing soma thing nalogous to, edsace, stemping to tha time of a monotonous chant, end moving roend and roand in a circle. A low hum, and dissimilier to tha drane of e bagpipe, es heard in Scotland, ne octave below the toce of the lender, produced a striking effect, even upon myself. By degress they wermed up, end as the feror begen to approach, garment efter garmant was datached, and some were wild as maniaca in their gesticuleitons. Next the cirole broke and lines were formed. Tha singing became more impassioned, and there, thay stood, bowing end swaying, without moving their feet, precisely es the danoing girls of Upper Egypt catstrain their petrons. Finally, two estout fellows, stripped-to the skin, ell bat their drewers, marched to the priest, who put late their hends two wooden halls each, projecting from which were poniards tan inches long, sharp and bright. They flourished them in ell directions, bowed, whirled ebout the balls, nearly the ordinary size of nina-pin balls, with such oeraless activity, that I cadeavored to get behind e pillar, lest one of tham should fly from their grasp in my direction.

At the moment when the whole essembly of worshipers ware wought to the highast berable point of szeitement, amid the din of the tamborins, drums, onymhals, ohenta, and internitient howls—which letter were low, solamn and uncarthly—aaa of them greys he held it perpendicularly—the balls being frea at the other.

At this atege of the exhibition mirceled the ponderous old priest, and kept t

practised by lins sect, as being too shominably both in the act and tendency. The least I behald are only occasionel. An American missionary, who has resided here many yeers, told me he had never yet witnessed the scenen here detailed.

On the following day I sew the whirling dervisies perform at Pera. The mosque was an octagon, with a gellery for concealing females, yet giving them a cleance to look on all ebout and balow them. An orchestra contained n poor flute player, a drum, and something producing a noise, but not likely to be missicken for hermony. The srea of the mosque being oleredy the elect bretheren, weering high conice felt caps, dressed in short cloth jackets, heavy full skirts and herefooted, formed a circle. Alternets prayers, chants, hums, and bowings, prepered the dervishes for their gymnastic exocusies, which were nonunaneed with a certain terrible explosion of discofdent sounds from ell the instruments of once. Paying their obeisance to the priest, who was in a green hebit, squatting—on—soft—sheepskin with the wool on, the twenty-one begen to turn round slowly on ne exis, while they gradually progressed onwardly round the room, keeping the circle mathematically exact. By little and little the fujor was developed, and they whirled with rapidity. It was a representation, to my mind, of the solar system in ministure. While caoh revolved on a centre, all were going round the room. They had a aleepy expression, as though in a vertige, and that is the stege of which they feel the inselves subsorbed or expanded, I know not publich, into communion with the divine essance. [Boston Medical Journel.]

lates the following story of Secretary Corwin. Its humor is cheracteristic:

To a friend of ours who sew him the other day and Lebanon, he geve a most emusing, and we doubt doot too, truthful, account of the condition of of things ie the Treesury Department when he entered upon the duties of Secretary. The cierks, he estimates, were sick, on en averege, about helf the time—but it struck him as somewhat remerkeble, that, nuch as they were sick, none of them died. The fact was epperent et a glence that they did very little work for the public, end the inference wea irresistible that something must be done for them. Accordingly, the Secretary turned physician, and begen to prescribe for the invalids. He issued an order thet all clerks who were ebsect from their dosks e-certain number of days, say-two, an account of sick ness, a should submit to e proporticeate deduction from their raspective seleries; end that all who were ebsect longer, say two, eas, account of sick ness, a short the longer, say one week, would be required either to disor resign!

The prescriptice worked like a cherm, and in a short time there was not a sick olark in tha whole in Department. A healthier set of men then they are now, Mr. Corwin daclares cannot he found any where.

REPORTED FRAUD ON GOVERNMENT. The following is the opinion of the Board on delms ngainst Mexico, in the case of Dr. George A. Gardiner: Total . 0428,750

BOARO OF COMMISSIONERS ON CLAIMS ASAINST MEXICO, After A 12, 1880.

The claim of Georgo A. Gardiner, for loss of property consequent on his expulsion from the Night of Sen Luis Potost, in Mexico, in October, 1946.

Stars of Neu Luis Poiosi, in Mexico, in October, 1846.

It abpears from the ovidence in this ones, that the cilimant was side propiletor of certain silver mines in the State of San Luis, in Mexico, and frum the year 1844 up to the period of his expulsion, on the 24th day of October, 1846, he had, at in great outliny of capital, brought his operations in milling to a state of prasperity which bade fair to yield him a handsome profit upon the capital invasted by him in raid mines. While thus angaged in the presention of his lawful hansas, in which had worked inmolected from the carty part of the year 1814, the Executive of the State of San Luis published in decrea on the 21st of October, 1846, that all American clitrens then in this State about 40 the carms within the period of three days, or close his while to the State of San Luis of the inveding aimy of the limits of the State, and forced to ramain in the State, would give intalligence to the army of the country. In pursuance of this price of the United States, and forced in departs by a body of Mexican trops, who, after expelling the claimant and pillading its property, set fire to and destroyed his bindidings, thus stripping him of all his property. By the treaty of 1831, article 26, between the United State, and forcal in departs by a body of Mexican trops, who, after expelling its claimant and pillading in the prepart of the united state, and forcal in departs by a body of Mexican trops, who, after the military and property existed that, in the very of 1831, article 26, between the Online that, in the very of 1831, article 26, between the Online that, in the very of 1831, article 26, between the Online that, in the very of 1831, article 26, between the Committen of the Com

From the National Intelligencer, Joly 3.

We received yesterday from the Inte Secretary he Boerd of Commissioners for the examica-n of cleims upon Mexico, the following letter: Washington, Joly 2, 185t.

Messrs, Editors—Your editorial of the morains, to reference to certain claims awarded by the late Board of Commissions on claims against Messon, apparently occurred thates Board. If sead was your lateolon, it goes rost ossytend rour opion for a white, at loss to oil rog have an opportunity of examiling the syldence in the case, when have an odoubt that, if torgery has be a perperated, you will acknowledge that any lory in the coloury or any other, with the some widens, and the late of the coloury of the coloury of the coloury of the colours of the late Hoard. WABILINGTON, Joly 2, 1851.

Four Days Later from Europe: ARRIVAL OF THE BALTIC.

The errivel of the North America at Gelway which will be looked for on Thursdey next, is atill e greed topic of excitement in Ireland, end preparations of ell kinds ère meking in connection with the avent. Every nerve is being strained to insure a repid communication of her eews to London, so as to establish the udventages of the route. [How hitter will be their disappointment! Com. Adv.]

was the decrease being absorbed for the convergence of the property of the convergence of

Cardinals how completely they are subservient in the power of France. He has signified to the Roman Minister of War, Prince Orsini, his intention to uccupy several positions in tin city now hit the neougation of the Roman terops, including the Roman head-quartars at this Punza della Pilotta, and the whole of the Convent of Santi Aposuli. The fortress of Civita Castellena is also required in begiven up exclusively to the French thole, it heing understood that thet will be their first position against the Anistrians in lutian territory. The entire control of the Roman police is also hinted at as a probable demand at nu distant day on the part of Gen. Gencent.

The municipality of Rome has had to pay 500,000 Trench for the support of the Franch soldiers, new lintineks and verious contingencies.

The United States aleamor Mississippi, Commodoro Morgan, had left Naples for the East, and was understood to be placed entirely in the service of Gen. Kussuth, shouth the Sablime Porte he disposed to liberate him.

Canaua of Great Britain. POPULATION OF REGLAND AND WALRS,

This shows an incredse of nearly 50 par cent.

The Liverpool Mercury, confineating on the returns, says:

"The progressive declina of the rate of iscorense in orders. Britain is generally considered as an almost inevitable result of the circumscription of our soil. Had it not bean for the vast stream of emigration sat in motion-by a system of food legislation which was nilke a curse and a diagrace to the county, the population of the empire would now count at light a curse and a diagrace to the county. The total emigration from Great Britain and Irelend, from 1841 to 1850, amounts to 1,684,892 for the twenty-six years previous to 1841, it amounted to 901,126; thus we have a graed total of 2,586,018 persons, forced to leave Eagland by partial and unjust laws.

New York, Jay 8, 1851.

Arrival of the Empire City and Georgia—More Gold.—The steamer Empire City arrived here today, bringing Chagres dutes to the 26th June. Sha has no leter advices from Californin than those hrought by the Prometheus. She brings 375 passengers, and one millibn and n haif of gold on freight and in the hands of passengers.

The first locomotive on the Penema Railroad started from Navy Bey on the 24th. The work is progressing rapidly.

started from Navy Bey on the 24th. Tha work is progressing rapidly.

The Empira City left the steamer Falcon at Chagres, waiting the arrival of the Oregon.

A military ragiment was momentarily expected from Panama.

The latimua is healthy. Robberles, however, and other outrages, are of irequent occurrence.

The detes from Kingston are to the 29th. Bushness was dull, end pricas generally declining, especially breadstuffs. Provisions, fish and coffee are scarres.

scarce.
The stemmer Georgia, from New Oricana i Havana, arrived at New York this uvening. The advicee from Cuba are unimportant.

BALTIMORE FEMALE COLLEGE. wo years since, and in but the twenty-first rof her age, she was visited by that insidious, fitted destroyer, consumption, from which time gradually declined until her decease. The Meryland, end enjoying a liberal patronege, nffirds every facility for the acquisition of a though the first notice was with her rough and accomplished Education. The huild the converse weeks of her life. lngs are pleasantly located, with study end recitation rooms, and every modern convenience for the accommodation of a large number of boarding and tion rooms, and every modern convenience for the dey scholars.

Chroniele, that Dr. Merle D'Aubigne is Thoir stuple is scandalous gossip, bold The great exhibition is still the great all lu Londen. The number of visitors goes en te increase and within the last fortnight has several times reached the extraordinary total of more than the extraordinary total of more than the extraordinary total of more than the control of the lust of lust one of such a luminary total of more than less of such a luminary total of more than lust one of the lust of the lust of lust one of such a luminary total of more than lust one of such a luminary total of more than lust one of such a luminary total of more than lust one of such a luminary total of more than lust one of such a luminary total of more than lust one of such a luminary total of more than lust one of such a luminary total of more than lust one of such a luminary to suffer the lust of the lust of the lust of such a luminary to such in the lust of the lust of such a luminary explanation. It was impossible that ment publications as these, professing to enumer the suffered to go on year after year with the lust of the lust o such a case that if a l'opish priest had intensity el other forces, then woe and certly in complicated and continually must be the mere rapid accumulation, must be the continually of continually of the continually pulpit. The latter, as he informs us, the credit—whatever might have been is regarded already by the Church of length of the universal of the universal church, and "has only to subscribe to church of the universal church," and "has only to subscribe to church of the universal church," and "has only to subscribe to consequence which immediately the 20th and the latter as he informs us, the credit—whatever might have been his errors of indement or ceasionally of temper—of sincerity and disinterest.

strikes even the casual thinker as likely the 36th canon to he competent to per to flew from the Great Exhibition is the form in our church all the functions of ence felt it to be their duty to pass a greater prebahility of peace heing main-tained among the untions. Eloquently did Elihu Burritt dwell upon this point ordination, are but intrusive and sacri-ly in Dr. Bunting, and their entire disat the meeting of the Peace Seciety some weeks ago. "Is not that an age of peace such as the world never saw before in which such a gathering as the present could take place? What mirapresent could be a considered to remonstrate with the Bishop of Leondon on those matters; the could be a considered to remonstrate with the Bishop of Leondon on those matters; the could be a considered to remonstrate with the Bishop of Leondon on those matters; the could be a considered to remonstrate with the Bishop of Leondon on those matters; the could be a considered to remonstrate with the Bishop of Leondon on those matters; the considered to remonstrate with the Bishop of Leondon on those matters; the constraint of the constraint les of art and science have been needed organ of the Tractarian party, had abriag the nations so near together? suggested that, as a fautor of such irwhat facility of intercommunication?— the Bishop of London ought to be "sns. what entireness of commercial and in pended for twelve mouths from his been present, and all who thought proternational confidence?—what treasures power of ordination." Où the following per, in order that they might have the are collected from all the ends of the Sunday, accordingly, these Episcopal earth in this crystal conservatory under chapets, were closed; and the congregathe sele peaceful custody of one naticu? the Kings have seut hither their crasons and choice treasures—Queens thoir wardrohe jewels—Merchant Princes the Pusteur officiated.

enapos were closed; and the congregation signature. Investually hearty and the congregation with the Rev. Geo. Osborne, an able and oxceedingly independent Minister, this self-purgatory movement on the part of the Conference, was

THE DISHOP OF EXETER. Various important lay-meetings have tains, of distant tribes and isles remote, have freely and fearlessly, in jey and manly pride, sent scross the far waters their choicest samples of native art and hundred out of the eight hundred elergy are said to have declined to take any have learned to esteem and trust will, part in reference to the Synod. The creleng learned to leve. Surely they after-dinner speech, in the course of his triennial visitation. He scems to have heen very much annoyed by the layopposition. The famous Syned cem-

hibition. Some of the mest popular dissenting ministers in London, as well as several distinguished foreign elergymen, have officiated in that immenso building to crewded audiences. At the sems time, some members of the Church eff. England were anxious that they should se far as the regulations of their church would allow, do their part towards welcoming eminent uninistors of foreign Protestant churches. Accordingly, the Foreign Aid Society under

Pretestant communities, offering thom years, it will he seen has heen only 12.13 per cent, heing less than any forsent century. On the continent, most matters re-

main in statu quo. The unaccountable encute at Hamburg, which seems to have had little, if any, political signifieance, has been the most remnrkable

The Frankfort Diet proceeds, under the guardianship of military force and in the darkest secresy, iu its work-offorging fetters for Germany, to the order of Northern Princes. In Prussia, no less than Austria, the reaction of despotism is triumphant.

WESLEYAN AFFAIRS. I have givou you a sketch of Mr. Everett's course down to the period of the documents which were sent by post, without name of author, printer, or publishor, to great numbers of the preachers, and not a few of the Laity, at intervals during several years, it is impossible for-me to speak as they deserve. The rau-Fereign Aid Society. So far, well: at least, though many might dislike, none openly objected. But, no sooner were we're equal, and no christian, no gen-

the extraordinary total of more than 57,000 in one day. Even yet however, uene except a few of the very crome de la creme of the old fashioued Torios, can doubt, that the Congress at Londen ef arts, artists, and artizans, manufactures—this display of all kinds of science, ingenuity and industry—aad of the world's wealth in every furm—before purchasers and producers of every class and of every the same of the world industry—the conditions of the world's wealth in the congress of every class and of every the same time they were sent to be considered. The world industry—aad of the world's wealth in the congress of every class and of every the same time they were sent to the same time they were sent to have a same time they are sent to have a same time they are sent to have a same time they are same time. ducers of every class and of every clime—must give such a stimulus and add such intelligence to competition, at the same time that it creates or greatly extensifies desire and demand—as shall eventually communicate impulse and energy to the whole life of ths world—national and international—intellectual integrated and international—intellectual integrated and integrated and international—intellectual integrated and integra and material,—and if religious life only keep page in its increase of energy and diffusion with the ether ferms and nowers of the world's activity, the total result will be gloriously good. It is this we must look to. If the power of religion diminish in propertion to the intensity of other forces, then we and illegality and seandalousness of allewing such persons as D'Aubigne, when come forth, and accuse them more fully face to face, if they had ought against other hense of wership, in any elapel, or them. Dr. Bunting, especially, in a nember of the world's activity, the total acr. Episcopal control. He even points out how much worse the "offence is in pleity and manly grief and greatness—religion diminish in propertion to the intensity of other forces, then we and

Conference; —Dr. Beaumout and one or two more dissenting. This resolution, se passed, was printed and circulated among the Ministers not present at the Cenference, as well as these who had opportunity of expressly adopting it by their signature. Eventually nearly all mainly duc. This was in 1847. Two years more

passed away, but the Conference had only irritated, net punished—it could not directly punish, having ne clue to the offenders. More 'Fly Sheets' and reprints of the early numbers, had been issued during these two years, and more extensively eirculated than ever. It hecame imperatively necessary in 1849, to do semething decisive-for the peison of these sheets, and the sin of such con-

iagly, the Foreign Aid Society, under Bishops of Londou and Oxford, and dotes and allusions they contained. It the sanction of the Archbishop of Can. Sir R. Inglis, toek part in its proterbury and Bishop of London, ad ecedings.

dressed a circular of invitation to The census returns for the British his case and amhition, or who had places tack, and the very propensities which had been his disgrace—love of location and bodily ease, and unministerial secularizatiou-are the staple charges which the writer brings against the ohjeets of his dislike.

WHY THIS LONGING? 1

BY CHARLES MACKEY. Why this longing, clay-ciad spirit?
Why this fluttering of thy wings?
Why this striving to discover?
Hidden and transcembent things?
Be contented in the prison.
Thy captivity shall cease—
Taste the good that similes before thee;
Restless spirit, he at peace.

With the roar of wintry forests,
With the thinder's crash and roll,
With the thinder's crash and roll,
With the rush of starring water,
Thou wouldst ask them mightly questions
In a language of their own,
University leading to murals,
Value of their own,

Thon wouldst fathorii Life and Being,
Thon wouldst see through Birth and Death,
Thou wouldst solve the elernal riddle—
Than a speck, a ray, a breath,
Thou wouldst look at stars and systems,
As it thou couldst understand
All the larmonies of Nature,
Struck by an Almighty hond.

With thy feeble logic, tracing
If pward from effect to cause,
Thou art foiled by Nature's barriers,
And the limits of her laws. \*\*

And the limits of her laws. \*\*
Be at these, thou struggling spirit!
Great Eternity demen.
The unfolding of its secreta.
In the circle of thine eyes.

Be contented with the freedom—
Dawning is not perfect day;
There are further thought of clay.
Swaddled in the roles of clay.
Rest in hope that if the circle
Grow not wider here in Time,
God's Eternity shall give thee.
Priver of vision more sublines.

Clogged and bedded in the darkin ss,
Little germ, abide thing hour,
Thou'll expand in-proper season,
Into blossoni, into flower.
Humble faith alone becomes thee
laghe gluoms where thou art lain;
Bright is the appointed future,
Wait—thou shall not wait in vain.

Watt-thou shall not want in vain.
Cease thy arrangling, feeble spirit!
Fret hot at thy, prison bars:
Never shall thy mortal pinions
Make the circuit of the stars.
Here on Earth are duties for thee,
Suited to thine earthly scape;
Seek them, thou immortal Spirit—
God is with thee—work in hope.

For the N. O. Christian Advocate Report of the Committee on the

The Committee of Examination of the Centenary Institute, report : That they found the school to have been blessed during the session with good health, which furnishes the more oceasion for grateful acknowledgment,

Sumerfield Institute.

heavily upon other parts of the country. The Board of Instruction has sustained great loss in the death of Rov. Joseph J. Lane, A. M., one of their most competent and faithful Teachers. His place, however, was soon supplied, and they have moved on without em-

barrassment, The course of study adopted by the institution, is extensive and judiciously arranged, as is shown by its published eatalogue. The examination proved

tute, in bestowing upon them its honworthy hands, and that its friends may reasonably indulge the hope that they will hereafter make the strongest vindi cation of the claims of the school, and afford to its guardians occasion of triumph in pointing to them and saying

"these are my jewels."

The Music Department is supplied with the most able and efficient instructieu, and the pupils gave most satisfactory testimony of their attainment by their various performances. The Com-mittee feel assured that those to whom the charge of this Department is committed, will most successfully maintain its claim to superior oxecllonee in this

hranch of education.

The examination of the French Class was satisfactory, and gave evidence of thorough scholarship.
The exercises of the Commencement

were interesting and impressive. The compositions of the graduating class wore characterized by a style of thought and expression which entitled thom to Door!"—Such was the response of a high degree of morit. Finally, the John Randelph, once on a time, when Committee take pleasure in recommendwaited upon by a lady acquaintance ing the Centenary Institute, as alto-who was all zeal in ameliorating the gether worthy of the confidence of the

A Cincium tus would leave his plough in the half-fi nished furrow, and go at his country's call. The father of our liberties, when bris tling bayonets and bitter menacings dem anded it, was roady anew to gird on his regimentals. Now, if

Tusvaloosa, July 8, 1851.

Hopelal and happy with spring and the bee.
Indolent! indolent! are ye not indolent?
Thrails of the earth and its insages weary.
Tothing like guinnes, where the darkness idleary;
Toiling and spinning to heap up your gold—Stifting the heavenward breath in devotion—Crushing the leashness of every cunotion—Hearts like the dead, that are pulseless and cold.

Indolent! indolent! ari thou, not indolent? Thoo who art living unloving and lonely,
Wrapped in a pall that will cover that only,
Shronded in selfishness, pitcous ghost?
Sad eyes behold thee, and angels are weeping
O'er thy forsaken and desolate sleeping;
Art thou not indoleat? Art thou unt lost?

For the N. O. Christian Adve Ancient Egypt under the Pharaohs,

Egypt, its History, Monument Chronology, &c., are hecoming subjects of great interest to the Historian, Phiabsence of the sorrewing wife and bereft children.

Our publications are read in Bremen and Shangai, in Coustantinople and Calcutta, in Liverpool, in proud London, and sunny Lisbon. What has God wrought within a few years 1—and the wrought within a few years 1—and the measure of usefulness among us, next to the liverpool in proud London, and Sir Gardner Wilkinson, and Sir Gardner Wilkinson, and Sir Gardner Wilkinson,

the help of the Hely Spirit, has been an all Englishmen.

Dr. Young and Champollion have the honor of having first indicated the right method of deciphering hyereglyph-ical language. More recently, Dr. Richard Lepsius and the Chevalier Pinnsin two of Europe's most distinguished Savans, have directed their attention to this subject; and the European public have so much confidence in their scholarship and iutegrity, that the results of their labors will go far towards fixing public opinion on many of the questions

Mr. Gliddon, sometime Amorican Consul in Egypt, a sciolist in attain-monts, an infidel in sentiment, and a third rate muan in intsloet, was the first to awaken American attention to this upon my father, and requested permis-

results of the investigations of various sehelars who had written on the subject, to the elucidation of parts of the jeet, to the elucidation of parts of the Bihle, in a work ontitled "Egypt and the Books of Moses," which is both interesting and instructive.

Bro. Mc Tyrire: —1 have watched, with intense anxiety, the effect produced by a series of articles which have appeared in your sunny sheet, touching a subject of vital interest—the alarming increase of transfers from the ranks of the "tineracy proper to the chairs of our Literary Institutious. The teudency to easo and emolument, on the part of our ministry, is unuistated by in the asceudant. That many apologies present themselves, is equally apparent; but they amounit in the end, to the apology of the dyspeptic, whose morbid appotite is the only apology for the extravagant length of his indulgences.

We are not the stalwart menour "and the conius of Christianity some and the absence of that they might be runified and the conius of the wing of mercy? God does not forsake his people. Sanctified ministers, who serve Him with a single cye, are not left to themselves. The tendency to easo and emolument, on the part of our ministry, is unuistated in all their plans, and their every harvest of promise highest of where connected with corrosponding highest of the dyspeptic, whose morbid appotite is the only apology for the extravagant length of his indulgences.

We are not the stalwart menour "the conius of Christianity some exclaim," when these principles shall be settled, and the Gonius of Christianity some exclaim, and Egyptian writing, whether pietorial, symbolical, or phonetic, with their combinations, shall be interpreted correctly the very of the unifieds in the chrysalis state, would have us believe that all is settled, and does net forsake his people. The Old Family Bible.

REMARABLE INCIDENT .- On the banks of the Wabash, the effects of a poo widow, who had been left comparatively destitute at the death of her husband, had been seized by a Sheriff for debt, and were being sold at auction; and among other things an old Family Bi-hle was put up for sale. She begged the constable to spare this momento of her dear and honored parents, but he was inexprable. The read begged was inexorable. The good book was about going for a few shillings, when the widow suddenly snatched it, and declaring she would have some relic of those she loved, cut the thread that held the brown linen cover, with the intent of retaining it. The covers fell into her hands, and with them two flat pieces of dirty paper. Surprised at the circumstance, she examined them, and what was her joy and delight to find that each called for 500 pounds on the Bank of England. On the back of one, in her mother's handwriting, were the takes you, seek 'your Bible." And on the other, in her father's hand: "Your Father's ears are never deaf." The sale was immediately stopped, and the family Bible given to the faithful owner. [S. S. Treasury.

Circulation of the Bible.

Dr. Adams, in his article in the Chrisof great interest to the Historian, Philosopher and Christiau. The most scholarly attainments and patient research are being employed in interpreting its records, deciphering its hyeroglyphies, and resolving its problems in history and civilization. This interest effect, was organized, as ever existed in ing blessing.

There is heider a more directly religious purposes are religious protein and a more properly and purpose a raising out of a religious poportunity and duty—fine sheets and include that, nowithstanding with it is eligible to the height of the principal dissenting ministers have made by the principal dissenting ministers are shed the constant food one proved that the constant of the Before it is all the profit of the principal dissenting ministers have and the constant of the series in bond of or proving sablash. However, and a which have been more or less proming with the sense of furthern on the world of the series in bond of or proving Stablash. However, and a subtise to the world of the series in bond of the the height of the principal dissenting ministers have and for important form of the world of the principal dissenting ministers were on grounds which I have been more or less proming the way for a schibition, and a more properly and purpose a raising out of a religious poportunity and duty—is the place of the principal will be helicived that, nowithstanding will be helicived that in the constant of the principal will be helicived that in the constant of the subtract of the stable of the first design the head of the first design of the first design of the flux of the flux of the first design of the flux of th circulation, in more than one hundred and sixty languages, and this in addi-tion to all which has been accomplished by private enterprise. A power press striking off fifteen hundred copies of the New Testament in a single day, is no trifling thing in this world of ours. The report of the British and Foreign Bible Society contains an amount of in formation as to the languages and dia-lects of the earth not easily to be ob-tained from any other source. Piny years ago the Word of God was translated into languages spoken by about two hundred millions. To-day the same holy book may be read by more than six hundred millions of the earth's pop-ulation. Ia not this result of associaulation. In not this result of asso tod charity of great importance? Has it no bearing on the intellect, the liber-ty, the life; the progress, and the pros-pects of the world?"

Dr. Adam Clarke. A WORD FITLY SPOKEN.—A stranger who was itinerating as a teacher, called teresting and instructive.

Dr. Hawks, of Brooklyn, has recent.

In the dosign of Kensick's work is, to give a comprehensive viow of the cers and Artists, Interpreters and Critical and the methods are sufficient to the comprehensive of the comprehensive viow of the cers and Artists, Interpreters and Critical and instructive.

Some directions, and, laying his hand upon my head, observed,—"this lad upon my head, some directions, and, laying

BATURDAY, JULY 98, 1881. Songs of Zion.

Last Sunday ofternoon, we were seat ed as usualain that appendage to our pattoral charge, known as the "Celered Chapel." Several hundred full veices

Will you go? will you go?

This sight of so many happy faces

and the sound of so many well tuned voices, together with the sentiment of al exercises, produced a deep and esing impression. We could have hed always to retain those foolings. The thought occurred-Why can't the white people have such singing? We are too stiff and straitlaced in our ship, with nothing but leng, common, and short metres. No ohorusee now ne lively and popular tunes. Where are the stirring song, the Fathers used to sing, and those good old Camp Meeting ballads? Alas, those Divines who compiled "our excellent Hymn Book," men of better taste than jndgment—they have thrown some of the hest music the world ever hoard, to the negroes. We are left to hum ourselves to sleep, and must go to the negro ag to hear what is commonly styl Methodist singing.

For any hard thoughts that then and re arose, we beg pardon of the comless of our Hymn Book especially the principal one, Dr. Summers For, Monday morning, on entering onr m, there lay the desidratumga of Zien," with the respects of Dr. Barly, the publisher, edited by Dr.

The copy furnished us is neatly prinsed and bound, pp. 378: 503 songe. There is a great variety of metres, and now we hope real, Methodist singing will come into fashion again.

Of course, none of the hymns of the int Hymn Book are to be found ken. though we find a few that were in sor. The editor rather apols for the " Miscellany." We think he will find that the Miscellany will be more highly prized by the Church, than ser two thirds of the book. It contains the popular element that was so much necessd in our hymn literature. Of the other kind we have enough, ithout the present supplement.

For the benefit of those who would know somewhat more of the "Songs of Zioh," before seeing a copy, we notice

On page 48 we have-"The value of free grace cries; -Recape to the mountains."

The section of Penitence begins with that beautiful and appropriate hymn of Newton on the Prodigal son-Afflictions, though they seem severe, la mercy of 't are sent :

and forced him to repent." Under the head, Death and Eternity, we have three consecutive hymns on

"This world is all a feeting show, For man's illusion given."
That hymn of, Hunter, which has se often been sung at Conferences with thrilling effect, is here-"He died at his post." Who will net welcome it? Also the "Old Family Bible."

Mrs. Dana's name appears several

"Oh, sing to me of Heaven, When I am called to die!" "Shed not a lear o'er rour friend's early his:
When I am gone-when I am gone."
These are some of her sweet contri-

butions to the volume. Here we have-Must Simon bear the cross alone, And all the world go free f

No, there's a cross for every one, And there's a cross for me." 'I'm a pilgrim and I'm a stranger

I can tarry, I can tarry het a night." The dying words of Bishop M'Kendree," All's Well," have been wrought into a hymn, the music of which has cheered many a happy sonl, departing. We are glad that it has a place, at length, in this collection-

"What's this that steals upon my frame! Is it death—is it death ?"

was rather an exciting one. The case of Rev. N. Childs, Jr., local Preacher, of Rev. N. Uhilds, Jr., local Preacher, Princips to the mountains, for the purpose of reore available defence, by the use of natural obstacles. Conference, city of St. Louis, whose de-

As to missionary matters, the collection at the anniversary, our informant says, was large over \$500; that throughont the Conference was rather small. Conference meets next year at Lexing-The following are a few of the prin

cipal appointments: Louis District, W. Brewning, r. 4th St., J. Beyle, Centenary, J. Berryinan, Asbury, N. Brown, Mound; T. T. Ashby, Wsl'y Chp'l, G. W. Lovs,

W. H. Lewis. Lexington. - - F. A. Morris. We are pleased to learn that after the tedions labors of the eession, Bishop Soule was in excellent health.

Subscribers .- A few of those first n the list, have not yet paid up. They will recollect that the terms upon which this subscription rests, according to the specimen number, are \$2 '00 in advance, or \$3.00 at the end of six months. Very seon the Agent will claim of them the latter sum. We hope they will save their oxtra dollar by remitting us the original subscription.

We make acknowledgments to those prethren, the Agents, who have thus far been active in promoting the patronageef. the paper. Wo-hope the favorable pportunity they will have for doing this in the large Summer and Fall oongregatione, at Camp Meetings and Protracted Meetings, will be improved.

The Guardians of this Institute, which in some of its departments lacks

Tracted Meetings, will be improved.

We extract the following from the correspondence of the Delta:

"July 18.—The mail arrived yesterday with dates to the 13th from Poerto Principy; the Government were making priests there for affording nki and comfort to the rebels, and among other ratters rested are two young ladies, for having sent a quantity of first to the Hospital Commissary, and one of them a soanet to relover. These have been confined in a Number, potent are so frequent that the commanders fear to take their men too near the etemp. No attack has been made upon them, and the news from the East is most cheering. Official accounts tell us that Baracco less pronounced, and the news from the East is most cheering. Official accounts tell us that Baracco less pronounced at a genileman showed me a letter from Trinoind, received last night, which assured him that the preparations were nearly completed, and that the commanders fear to take their men too near the commanders

which in some of its departments lacks enly the name of a College, are not to blame for censtraining Dr. Mitchell to emain at its head. Whorever he is both the literary and religious character of Methodism enjoy the highest representation. We knew Dr. M. first in 1837, as Principal of Cokesberg Scheel, South Carolina Conference. By the way, it falls in with our polities to. say here, that the high and responsible position he there held, with the same honer as now, in connection with Church ednostion, is at present filled with satisfaction and ability, by a son of Bishop Capers a layman.

in the despote government of this beautiful Island apon the popular theory that Republicanism must advance, Democracy must prevail, and what ever opposes them, in spirit or in fact, must yield. We have a better theory; one that points more surely tu a saccessful revolution there. Every government that is so organized as to shut out a pure gospel must fall. Such is the present government of Cuba. The kingdom of Christ cannot be restrained. The earthly kingdom dooms itself that does not give free ingress and earnes to it. All that the present revolutionists aim at in this watch-ed, bound and taxed Island—by man curead, by na-ture blessed—may not be realized; but there must be brought about there, and that soon, a state of be brought about there, and that soon, a state of things more compatible with the extension of the kingdom of Christ—greater freedom of speech and action, higher social privileges, and a freer circuistion of intelligence: changes that, with their inevitable consequents, will amount to a very important revolution.

Our city was startled on Toesday with the news that there had been a suppressful authors to Culton.

that there had been a successful outbreak la Guba; that the patriots had organized, and were co-

of Coha:
It would seem, at least, that there are some galiset and chivafrous spirits among the Cuban Cre.

olas; some who are impatient of the baughty and ference talks one way but acts another. Freckless rule of a distant mether country, crocity I really think that they are in a bad fix.

No doubt Dr. Lee takes a correct view of them. As I am with friends, and wants and just claims of the spleadid dependency of them. As I am with friends, and came to visit them, not to fight them, I can which she so long has dawn for her owe susteoance aed eerichmeet.

The following letter is from a correspondent of

Eds. Crescent—1 enter upon the discharge of new duties and the formation of new talations, with intelligence, I thick, bearing augury of good to an oppressed people, and which will be received by your readers with heart-careest sympathy and HAVANA, July 18, 1861.

On the 4th of July, a declaration was made by the people of Puerto Principe, that they were weary of misruic and tyrandy, and that they would no The book can be ordered from Mr.

sheep 40 cents, with the usual discount sheep 40 cents, with the usual discount to preachers.

By Louis Comperence.—From the Berlin State of the land and the lith instant, after a session of sixteen days, Bishop Boule presiding with all the vigor of his best years. There was a full attend ance of the Preachers. The session was rather an exciting one. The oase

of freedom bursting from their lips.
The patriots, after organizing, retired from Puerte

o masses there; and with the predications now before us, within sixty slays the largest portion of the Island of Cuba will have absolved all, ties, ob-

igations and relatious with the maternal land. The arcounts given in the government supers of the day, are weak attempts to gloze over facts which are learing from their hearts and intude every vestige of hore, in order to tranquilize or press the chullitlou of similer semilment and ion in this community. Here, there will be no utherek, but the city will yield to the cause by the force of public opinion, without a struggle, when the proper time nrilves—the work is being

General Concha has nerve, and will do all tha may be becoming in a brave soldier, to preserve in fact the fealty-mid integrity of the island; but the game is already beyond the reach of his power to chack—hayned the reach of the aword—and with soon be dictated for him, if him half is true that comes whispering with every breath from the East. To give details at this moment, with accuracy, necessity verbal, and all correspondence with the infected districts is cut off, except where the reserve due time all the features will be portrayed for the knowledge and 'appreciation of those who sympa-thize in this struggle for the common cause of lutman rights. There is no Lopez—ao Yankees—no Filibusiers, save of their own getting—no Poles or Hungarians... It is all right—an enunction from the intelligence of the people opening to the sun ht. The movement is like the strength of the defence, and rejoicing lu its display.

The steamer's time does nilt permit me to dwel longer upon n theme full of interest, although so undefined by needful details.

With much respect, your obd't sy't, J. M.

S.-The mails to-day confirm the information drilling and making ready for the fight. Twenty wounded, on the 5th, at Guanam Aquin. God speed

I send you a sketch of the ground—tracing of the const.not of consequence—but relative positions are

of the Picayune r of the Picayune:

Since the first news of the outhreak, our advices are very meagre, and entirely Sanial, so you sent judge how much they can be raised upon. These represent the senty is quiet; but at the same also occurred a proaueciamento. The point where the patriots have concentrated is in the mountains of Nejaza, between Puerto Principe and Las Tunas, which lies more toward Santiago. Their number is variously estimated between three hundred and one thousand men, and the country round Principe and Newton, is saft to be almost entirely deserted by the young men, who, it is supposed. and Neuvitae, is said to be almost entirely described by the young men; who, it is supposed, are going in by by-patits to the revolutionists. Judging from circumtuances, the affair is taking a very serious aspect. A portion of a regiment, as much as they dere spare, have this morning been taken up to windward, probably to Neuvitas, hy steamer, and I have been told that Gen. Lymerich has been superceded in the command there. This is the old Spanish fashion when litings go hadly; the want of, success is attributed to the General. I have seen a letter from a ceptain of one of the regiments at Principe, to his friend here, which states like the is ordered out to reinforce the party in from the insurents, and that it is said that

twice yesterday and the Sabbath before, and am engaged to do the same next Sunday. I felt very woll on yesterday night and this morning, and suppose that, so far, preaching does me no harm. The fact is, the Baltimore Conference preachers have many to please who are inclined. Southward, and a Southern preacher in the pulpit answers admiracamped in the fishesses of the monetaies; that the disaffected soldiery were described from the column of the disaffected soldiery were described from the ren, though they do vote against them, and do not countenance slaveholding. I am from the far South, they say, not ly to preve that they themselves are I am from the far South, they say, not from the border. I speak very plainly, and tell them that the Baltimore Conenly say somewhat and speak when the eubject is introduced by others; but it is hard to see people so wrong, and yet so well satisfied that they are without blame. The eelf-conceit of the Baltimore Conference has dono the whole damage. They thought that, holding the balance of power, they could side with New England, and lead the South. Ever sines; they have talked about helding old Methodist ground—"Old Baltimere stands just where she always South as a prodigal son, and vainly

graphs might serve you for variety. Be and success as a Teacher. The exam very careful what you hand the printer ination of the several classes was highly

long before 12, the grounds about the Capitol were filled with persons expecting the procession, the laying the cornsr-stone, and the oration. I patiently endured the sun for two heurs, in company with a Mississippi acquaintance, and we managed to get directly under the desk where Mr. Webster stood. After the President had laid the cornerstone of the intended addition, he and his Cabinet took their scats on the platform, and the Grand Penjandrum of the Masons gave us a sound, commou-place. patrictio, preparatory flourish, containng the words "glorious return," "im perishable," "immortal," "'76," American Eagle," etc., which whet us up censiderably for the second course. Mr. Webster was introduced, dressed in blue dress coat, buttened up as in winter, dark pantaloons, light-colored vest and eravat, and holding in his right hand a white fur hat. Before him, on the desk, was his speech, written out, evidently, in full, which he frequently, in course of speaking, took up and read, speaking addressed the nudicince. To day the much more from MG. that extempore graduating exercises some off. The He is portly, though appearing all of sixty-five in his person, which one can see has been reduced from wear and tear of life. His head weighs pounds, his hair is dark, and his features full ef heavy expression. He moves his oye dress to the graduates, as usual, was with as much meaning as he shakes his head, but, when at rest, his eyes look dull, and as if only for occasional use. Once or twice he looked out through them upon us as a torch through the windows of a eastle. He hae a shake. and a nod and a way with his mouth and brows, equal to two hundred lan-guages. All his action and manner are deliberate, thoughtfully slow, -so in the beginning, and all the way through; he gives the ear very little to do, but keeps te-eye-and-mind-busy. Towards th end of a sentence, he very commonly owers his voice, even where the meaning is fullest, yet without habitual eadenee. His voice is a bass, and, in repenting

he threw his whole weight into the sentiment, but uttered with very delicate intonatiou the next two lines.

"Simple and freil, our lowly temples throw-

He spoke for two hours. His speech i one of his best, and was doubtless for the ear of England as well as that of his own countrymen. It is agraud exhibit to the European world of what we now are, by one whose word goes far with foreign statesmen, jurists and politicians. The philosophy of the speech is the remarkable prophecies of Bishope Berkeley and St. Asaph of the destiny of the U. States, made before the Declaration of Independence, and their remarkable fulfilment. Some of his assertions will no doubt astound European readers, and well is it that they are backed with his eomparative statisties of what w were in '93 and what we are in '51 Such, for instance, as this: " What has Germany done-learned Germany, fuller What has Italy done ?-- what have they done who dwell on the spot, where Cieero and Justinian lived? not the power of self-government which a common town meeting, with us, poshave gone from our town meetings to

answered: in what country of the inhabitable globe, of great extent and large population, are the means of knowledg ost generally diffused and enjoyed amoug the people? It is here; it is here in these United States; it is among the descendants of those who settled at James-town; of those who were pilgrims on the Southern Methodist Missionary special of these others. races of men, who, in subsequent times, puniates, and who have too much genehave become joined in this great Amerieau family.'

John Bull will make two swallows at that, if he gets it down at all. Messieur Parlez-voue will assure the eivilized world, "that is non possible."

The Latin quotation at the end of the speech is by no means the least happy of city as will cash our Missionary-drafts the marry happy things which he said, You-know I always was a great admirer of every thing from this great man. My admiration has suffered no abatement from hearing him. I felt proud of my country, and of Daniel Webster, my eountryman, and prouder after I heard him than I was before.

As I intend visiting Washington again

shortly, I will defer speaking of other things that are there of interest. We have a good church there-a very good building; 'o'we \$2,000 ou'it ..

Yours, Baltimore, July 15:

For the N. O. Christian Advocate.

SUMMERFIELD INSTITUTE-ALA. CON. MR. Eniron,-The annual examina ion of the pupils of the Centenary Inetitute, commenced on the 11th inetant and closed to day. The number of visitors from abroad may not have beening old Methodist ground—"Old Baltimere stands just where she always did,"—and take a parental view of the South see a parental view South as a prodigal son, and vainly saw. This Institution as you are aware, imagine that the North will not dare to is the first born of the Alabama Cou do anything likely to offend Old Balti- ference within its bounds, and ie theremore, and such like vain conceit. They fore a great favorite with the friends of are dectined to see themselves presently the Church and Education, both in the in the most ridiculous attitude that sensible boings ever found themselves—

of Prof. Lane, the past year, was deepequally abandoned by North and South to their own eelf-consequence.

I was rather surprised to mental to the cohool for he was a see the "Traveling Cerrespondence," sehelar of some attainments, and a Teacher of rare abilities and euccese. His dutiee devolved upon Prof. Dean, the letters arrived, some of the parasecond only to Bro. Lane in popularity of thie. I enclose you's corrected copy or editable se a whole, and in many inof Wobster's oration on the Fourth. Of stances peculiarly so—particularly these course I could not have been within two of the graduating class. This was the hours ride of Washington, and not hear largest ever graduated by the institu-Conference, city of St. Louis, whose declaims and memorial area of the great or at the civil suits now pending concerning the civil suits now pending concerning appellant be disposed of. For the N. O. Christian Advocats. Drafts on the Missionary Society. Dear Bro. McTycire : - I presumo you are aware that our itineraut work in this country is, to a considerable ex tent, supported by the Missienary So eicty. As we are so inconveniently situated in reference to the location of the Parent Society, our drafts are generally disposed of to merchants trading at New Orleans. But we are hrought under considerable emharrassment from the shaving of our drafts by some of sesses. Yes, I say those persons who your merchants, or brokers. . I sold a draft of \$128 75-100 to a friend of dig gold in California are more fit to make mine, who remitted it to his commis a Republican Government than any body sion merchants in New Orleans, who mine, who remitted it to his commistions, therefore, let this, the most important of all, be first asked, and first years ago, I sold drafts to merchants in Höuston at one-half of one per cent!
This was all they demanded, saying that their merchants in New Orleanscharged that amount for collecting. Now, from and of those other Society; who know that sile NEVER RErous and philanthropic magnanimity te shave the Lord's paper!—yea, that would rather throw into his treasury by handfulls than to take out of it a half-dime. My object in writing this notice is to request you to give information, through the Advocate, of such houses in your on the best terms, so that when we tell a purchaser here that the draft will bring the eash in New Orleans, we shall not fear a contradiction, and that we may not be compelled to sell them at a sacrifice; as these poor preachers need all their allowance. Many of the poople

of this country are poor new-comers, and are struggling for a living for them-selves and their families; and this year, the elements have fearfully warred against them. In the Spring, the heavy, eeld and long-continued raine put them back, and now the drought has cut off be unusually hard in this country. But hard times generally fall heavier upon met, and, if paid in kind, it is out of the poorest of the kind. The blind, tho sick, the lame, will do fer Him! And the poor preacher must net complain! If he does, he is a mercenary fellow, and they want no more of him. Thore are seme noblo exceptione to this rule, but etill it ie a rule; would that it were the exception, and not the rule. But, under the preaction of this rule, I say again, the preactiers suffer, and need all their little allowance; and if your merchants will help us out in our Miseionary drafts, it will be a little relief.

Your brother in Christ, ORICENTII FISHER.

MELROSE, Nacogdoches Co., Texas, 
July 10, 1851.

We would like to make Bro. F. nd the numerous Missionaries he speaks for, a comfortable anewer, but we cannot. Kentucky moucy is generally one per cent. discount in New Orleane: add to this something, say one half per cent. fer cellsoting, and we tasked Christians, and even Christian (vidual who was the human instrument) have the shaving to which the Lord's Minleters that chew their cud or quid, paper is subjected here and hereabouts. The paper is subjected here and hereabouts.

distance will hardly stir themselves for our accommodation.

When one or one and one-half per cent, is taken off the face of all drafts drawn on the Treasury in favor of the

As to the " houses" which will accommodate the Missienaries—the brokers given if challenged. That Minister on Canal or Camp streets will do it. on Canal or Camp streets will do it.
They are all good at a shaving operation. We must submit to it. The Southern portion of the connexion has hitherto claimed very little, and peoplo out. I felt ashamed—I was grieved. I saw that waves they make the work that waves they make the waves they make the waves they wave are sure, in these medest days to get no saw that more than ene of the good sign more than they elaim. . .

Domestic Missions. AUBURN ALA. MISSIONARY-COLLECTIONS,

BRO. M .. - I took np my missionary collection last Sunday after preaching a missionary seamon, and received in eash and subscriptions upwards of 426 dellars. This you will deuhtless say is good, when you take into consideration that it is the second missionary cellection taken up this year in Auburn. You remember what handsome things were dene at Conference in January, But we expect by the help of the Lord te try and do something more. It appears to me that, \$500 will be easily, raised. Our Female Missionary Board plever brethren who were necessary absent at our meeting, have not yet given. When this balance is brought in we shall expect the \$500. Our folks have been very liberal, for besides the two missionary collections alluded to, you know they have in course of creetien, cautiful church, which will cost between ivo and six thousand dollars. : We are now worshipping in the basement which s nicely finished. The room above is expected to be completed soon. C. D. OLIVER.

For the N. O. Christian Advocat Richmond and Madison Colored Mission.

Dear Bro. McTyeire:—Having been providentially hindered by a protracted illness from February 1th, I have just finished my first round en my work. I have been able to get here, however, in time to see that "the work is a greatwork, the workmen but few, and seattered one far from another.

The importance of this work is daily increased by a growing interest in the people for the spiritual good of their slaves. But it is lamentable that their confidence in our efficiency has been much weakened by a slumeful neglect, on the part of some who have been sem unto them, to "minister in holy things."

On hearing that a Prosiding Elder of starling integrity and tried fidelity, had been sent them, hope revived, and many of the people were encouraged to anticipate batter things. . They said. We hear that he will he punctual and we want " But when they were in. from this te another mission in Califoraia, the slow-rising tide of good feeling and confidence began at once to recede What shall we say to these things? THOS. J. LACY.

July 11th, 1851.

Honestly used, for once.-During the exciting debates in the English Parliament, on passing a law for an annual search into the state and condition of nuancries, a member declared that they were either prisons or brothels. The declera-tion raised quite a storm, but was persisted in. It seems, from the following extract from the Picay one's Cuben correspondence, that in Puesto Principe the use of a nunnery is understood:

cipe the use of a nunnery is undersited:

July 18.—The Government were meking arrests for affirding "aid and comfort to the rebels," and, among other parties arrested, are two young leddes, for inaving sent a quantity of lint to the hospital commissary, and one of them a sooneist to her lover. These have been confised to a number yor tem, where they are said to be very refractory, and in sing continually—

"Ne, two," be a non.

No, two, to sa non.

For I'm no fond of freedon.

E'er to be a non.

Can a Consciencious Man do it?

Мп. Епітоп,—

During the years '49 and '50, I wrote a series of numbers on the evils of the use of Tohacco, in which I said all that I wish to say on the subject generally. What I said was fear-lessly said, and nothing that I said has their hopes, so that timee are likely to heen abused, and denounced in ne means. been contradicted. The writer hae ured terms by Doctorate, W. S. Teeumseh, M. D., and others, but the Editor the traveling preachers than upon any others. The Lord's claim (He heing being very merciful) is the last to be pondents had writton their articles, to euppress my rejeinder, and rid his paper of thie Tobacco-subject altogether. Your readers need have no fear that this question in ite genuine aspect, is to get in your valuable journal, at least by any thing that I may write. My course is determined on. I shall arrange my mass of facte and materials, as soon as get leisure, and write a hook, yes, a tolerable large book, in which the eubject of Tobacco chewing, smoking and snufing, will be especially concidered, especially in reference to Christians, more especially in reference to Christian Ministers.
I wish, however, to call attention to

one of the long list of evils that ofdinarily attend the use of Tobacco, viz: THE CHEWING OF TOBACCO IN THE HOUCE

rily attend the use of Tobacco, viz:

HE CHEWING OF TOBACCO IN THE HOUSE
OF GOD!

Some of your city readers may think

Some of your city readers may think

The dictinction may be obsary made between the faith which saves, and the faith which wrought miracles; and it appears to have been cufficiently well understoed in Apostolic times that

Arkansas, Leuisiana, Mississippi, and quid after quid in their months, and olsewhere. Unless we claim for our grind away on it, distilling at every solves these facilities, our brethren at a quid, a quantity of the filthy juice, and unceremeniously spit it on the floer, hench, pulpit, wall, er whatever elss that may be in the way of their ejecting powers, without thought or regard to consequences. 'Can a consciencious man

Net a great while since I visited a neighboring charge, and on the Sahhath the P E requested me to administer the Holy Sacrament. The consecration service and the communion of the Ministers over, I invited the brethren te the Altar to receive the life-speaking symbols of the bread of life. Soing several sisters making difficulty in kneeling, I examined for the cause—I saw it—I blush—I feel indignant while I record it. There was I dare not exaggerate such a quantity of tobacce juico deposited there, as to cever the fleor for at least two foet in length by six inches in breadth, and was literally such a puddle, as would have ruined the raised. Our Female Missionary Board dress, of these who were compelled have not yet reported, and some of our much to their discomfort to so bow as to avoid the abominable desceration. I know not who dene this. The congregation was strange to me; but still I asked, and yet ask; can a consciencious man do this?

Once more, and finally, I state it as an undeniable fact that our churches in all this country are shamefully ahused, and soiled-are, in respect to using tobacco, treated with unqualified disrespeet. I knew mere than a score of churches, that it would be worth less to bay the material and fleer them anew, than it would be to clean the old-in many instances they are comparatively new-floor from the unustural defilement of tchaceo juice. Is this right? Can a consciencious man lend himself to such undignified desecration? MELANCTHON.

Mississippi Conference.

We would point the attention of our correspondent to the following item of information, if he has not yet seen t. |En.

Hundred dollars Premium Tract .-One hundred dollars have been offered, through the American Tract Society, for the best tract against the use of tobacco. Time for competitors until the first of November.

> For the N. O. Christian Advocate, "The Faith of Miracles."

Mr. EDITOR,-Perhaps a psrusal of the following exposition, by Mr. Watsen, of a part of Matt. xvii, 20, may be faithful; such a Presiding Elder is what prefitable to some who have not read it,

> "A grain of Mustard seed—which, as before said, is the smallest of seeds grewing into a tree, and therefore, among the Jews, furnished a common preverb to express a small quantity of any thing. This faith is usually called hy Divines "the faith of miracles;" and is said to be a supernatural persuasion given to a man, that God will effect some particular supernatural work by him, in that very moment. In the present age, so far remeved from those times when those supernatural gifts were imparted, the suhjsot is necessarily obscure, and was perhaps left with out further explanation because of the intended temporary duration of miraculeus, pewers. That a faith without charity might exist which should remove mountains, that is, effect things really impossible to mere human power, and which therefore commanded an adequate of the Divine energy to produce the result. We learn from St. Panl, who appears to have had thus text in his thoughts from his reference to the removing of "mountains." But this faith, though it might not be saving to the individual, differed from saving faith only as it was directed to a diffsr-ent object. Faith, in both cases, does not mean mere credence given te some truth preposed; hut trust er reliance. Faith is saving when it is the trust of a heart broken and contrite on account of sin, in the great atonement, which is the only object of saving faith; so the faith hy which miracles were wrought hy tne Disciples of Chriet, was alee trust or reliance, but its object was the name or power of Christ, and this undoubtedly some psrsone appear to have possessed who had not the faith which placed them in a state of ealvation. majority of those who wore edued with miraculous pewere were uo doubt pious persons, but they were bestowed upon persons, but they were bestowed upon some who, though not wholly without incipient signs of grace, never gave themselves up fully to the sanctifying influence of Christ'e religion; and they remained with othere after much spiritual declension, as not being necessarily connected with the state of the heart, or that faith, the acting of which; being directed to Christ as the Savier, draw life and salvation from him. It is thus that the distinction may be olsarly

generally throughout Kentucky. The Louisville Journel publishes the following letter from a highly respectable source:

Lynomaggo, Va., Juos 3).

Gentlemen: We have refreined for the lost three weeks from commenting on the elect of the excessive dry weather on a very extensive region of the tobacco growing country of Virginio, not believing the gloomy accounts given us by planters from various counties in this. State, and also in North Caroline. We thought it most prudefit not to advise our friends of it until, we were certein that such a state of things really existed, not wishing to attempt to create an artificial excitement in the tobacco inraket based upon a sandy foundation. The writer has just resurned from the country, and, in all vanidor, cau say he never witnessed at this season of the year so gloomy a prospect for tobacco. If seasonable weether would set in how it would avoid the planters nothing, the planta being burnt up in the bads. Several planters with whom the writer conversed, informed him that they had abundoned all idee of planting tobaccound put their tobacca find in cora. Therefore, with all the lights, before us, we are forced to the conclusion that the growing crop of tobacco in this State must inevitably be a short one.

The following, under the telegrephic head, in the

The following, under the telegrephic head, in the Baltimoro pepers, more then confirms the above:

From all parts of the State we have accounts of From all parts of the State we have accounts of severe drought which hax ceriously injured the growing lobseco, and the crop must be extremely short. In consequence of this suppropriate prect, tobacco has "advanced bere within a week or ten deys past, fully one dollar per cwt.

Sugari.—The-Plaquenine (La.) Sentinel of the

Sugar.—The raquentine (La.) Sentinet of the 18th has the following to We are pained to say that the prevailing drought is placing the crops of this parish is a melancholy condition. We are assured by on oid planter that unless he has rain in a few days, bis cane crop

The cotton crop in Alabama is thus noticed by the Greensboro' Beacon of the 19th:

the Greensboro Beacon of the 19th:

"Cotton, for lan or 12 days past, hus been shedding its leaves and forms—whilet on the thin and thirsty lands it has grown but fittle for the less two or three weeks. The cottor is now in a most critical condition, lor, should the drooght continue mook longer, the most serious injury to this crop must be the consequence, whilst much rain would also be highly injurious.

P. S.—Since the foregoing was in type, we have had here ton thresty right, a good rain, accompanied, showever, by a very heavy wind, which has no doubt done considerable injury to the con."

Hoody Affray.—At Memphis, on the 20th inst., W. B. Bryley and Y. J. Oilver, both respectable chizens, had a personal collision, during the course of which the latter gave the former a serious wound will a kuife.

The Grand July is continuing the Gardner in vestigation in Washington City.

Indians and White Marauders.-The Indian have been troublexome in the Southern section of the State. A company of white nien, under Cept. Irving, ere reported to have committed many ulreges upon the inhabitants of Los Angeles Val The citizens volunteered and went in pur suit. But the last account received is, that the Indians of a certain Mission had destroyed Capt. Irving and his eleven men. ...

There is much difficulty in El Darado county, with the Indians. On Jane 9th, 130 armed men from Georgetown, left Placerville to drive the In-Trom Georgetown, tent Pincervine to univa me in-disins from their strong position on a high and rocky hill ten miles beyond Johnson's Ranch. Other companies have also marched from Plucer-ville and Dismond Springs, to get in concert with the Georgetown company, so that the whole num-her of men ander arms ngainst the Indians in El Dorado county, is near three hundred, all of whom ere under the command of Col. Rugers.

Dr. Wozencroft, Indian Commissioners accom namied by Capi. Sittler, had left with a view t prevent a battle with the Indians, and to negotiate Drowned,-Five men were drowned in San

Drowned.—Five men were drowned in San Pablo Bay on the 23th of May. Their-mames and furmer residences were as follows: Dr. Reuben Knes, of St. Louis; Juhn Allen, of Burington, Vermant; James F. Graham, of Narth Carolina, nephew of Hon. Wm. Graham, Secretary of the Navy; a McDawis, of Majue, and an Indian hoy. Mobs and Mob Law.—In consequence of the fraguent attempts at incendiarism, a Committee of

frequeet attempts at incendiarism, a Committee of Vigilance was organized in San Francisco. Shortly efter its organization, it resolved that their, bur-glary, etc. should be punished with death. A man was detected in stealing e small safe—cought— tried, and sentenced to be hung immediately. The police attempted to prevent the execution of mob aw. Armed men prevented their interference, and the man, a Sydney convict, was hung, at midaight, in the Plaza, in the midst of thousands of spectators. The affair created immense exoite

A mob at Sagramento attempted to take five lorse thieves out of jail to hang them, but were prevented by the police.

From the Isthmus.—We learn from the Panema Star thal on the Star at the Armina Radillo, two of the men convicted of having committed the recent murders an the Chagres river, paid the penalty at-

murders an the Chagres river, paid the penalty al-lixed to their crime by the laws of the country, by being shot in front of the City Hall.

The railroad, it is suid, will be ac far completed in six weeks or two manths, that meaniers may land thair passengers al Navy Bay, whence they will be taken ten miles by railroad to Gatem, a point on the river, when they can take, boats or steamark up to Gorgons or Cruces. steamars up to Gorgona or Cruces.

ried out by them, and to co-operate in the constituents. A Speck of Wir.—Under this, heading the Houston Telegraph has this interesting statement. Several persons who have lately visited the towns of Senta Rosa,—Morelos and the Presidio for the purpose of recapturing runaway alaves, lave returned, and report that the tognive slaves are therefored by the Mexicana, and in some instances force has been asset to prevent our citizenes for ra-capturing these slaves. This has so canapared mony of the aetitlers at the west, that they are determined to raise a force sufficient to overpower all opposition, and re-capture their slaves at all kazerds. At the last accounts, a large party of armed Texans had sascembled near Presidio, and threatened to attack the town in the fogitive slaves for the gritten and the state of the convention of the convention.

Singular and Terrible Act ident.—We learn from the Residio (P.) Aller the principles of the fortives who escaped from one plentation in Arkansas. The owner of them has made many elforts to induce them to return to Arkansas, but in They-boast that they are ma late soon try, and permitted to enjoy equal-privileges with the Mexicans. We have been informed that about two hundred fogitives from Texas crossed at one of the principle ferries on the Ric Grande, during the last two years. It is evident that these things will not long be tolerated by our citizens, and unless some measures are adopted by the Government to prevent the mischief, the citizens will easily be solved to the principle ferries on the Ric Grande, during the last two years. It is evident that these things will not long be tolerated by our citizens, and unless some measures are adopted by the Government to prevent the mischief, the citizens will easily be a surface of the principle ferries on the Ric Grande, during the last two years. It is evident that these things will not long be tolerated by our citizens, and unless some measures are adopted by the Government to prevent the mischief, the citizens will be mi armed and equipped, will soon be misrched icto Santa Reac it assists to the second of the second of a llourand men should follow them, should they neet with opposition from the Maxicaa authorities. Qur information is derived from such respectable sources; that we think there can be little doubt that difficulties are brewing on our western frontier, that may prove tar more serious than those relating to the Cuban invesion. It gray be well for the thoverbrient (of look wall to this subject, and take timely precautions to prevent another rupture with Mexico.

Son Antonio and Gulf Railroad.—The San Antonio and Gulf Railroad or The San Antonio and Gulf Railroad.—The San Antonio and Gulf Railroad project continues to be discussed with nuch carnestness by the people of San Antonio. The Ledger speaks in senguina terms of the prospects in view, and seems to entertain no doubt but the necessery amount, to insure a commencement of the work, will account to tained.

\*\*Negro Murders.\*\*—On the 6th inst., at the plantation of Dr. Peoples, in Austin, La., Mr. Askew (overseer) was on the point of whipping a negro girl, when he was killed by the girl's father. The citizens of the neighborhood seized the suggro and hang him. On the 11th inst., Mr. Buker and his wife were killed by a runaway negro, who was attempting to make his escope after being arrested. Hundreds of the citizens of Austia were out in purant of the negro, who had fied.

A Speck of Wirr.—Under this, heading the Houston Telegraph has this interesting statement:

"Severel persons who have lately vicited the towns of Senia Ross., Morelos and the Presidio for the purpose of recapturing runaway slaves, fare harbored by the Mexicans, agad in some instances force has been used to prevent our citizene from ra-capturing these slaves. This has so exast power all opposition, and re-capture their always at all hazords. At the last accounts, a large party of armed Texas had savembled each and the preside of the convention of the

Flood in the Juniata. - A letter from Columbia,

The both in the Juniata.—A letter from Columbia, I'a., of the 17th, gives this intelligence—
"We have word here to day of a very distatrons flood, on the Juniata rivinion of the canal, above Lewiston, which it is feared has done much damage to the work on the stream. It is reported that this region was visited with something like a water spont about 3 o'clock yesterday morning. Several of the bridges on the Ponnsylvania Rathroad liave been carried away, cutting off all communication by railroad. The cental for several miles is submerged; the extent of injury to this work ranged be known until the water subsudes."

heard to express themselves, to wipe race to the regiment which had been Saturday and Sunday nights by the apprehension of some af their com-atiray, in which a policeman and a ni W. Inter, warehnuseman, were both siured. Lequing from the public bous mades for an affray, in which a policeman and a nimilian, Mr. W. Tates, warehnuseman, were both
seriesally lajured. Issuing from the public bouse
into the attests, where were a considerable aum,
her of other needlars, belonging to the aume regiment, some of them approached Duggan, '19, who
was at the time on duty in Dale street, and unfastcaning their cross-belts, made a desperate lattack
with these upon the poor fellow.

After dangerously beating Duggan, they proneeded in a body up Dale street, and Shaw's Crow,
attacking every policeman with whom they came
in centure! Word wis passed to the Rose-hill polies station, where a number of officers were in
waiting, and these being joined by others dismatched from the central statues, and commanded
Laspacter-Towerrom, speedilly came to the

straggling parties, although the coaffict was kept up with desperate resistance, as each fresh band was attacked.

Captures of more than thirty of the moldiers were effected by the aid of all the reinforcements of police, which, under the personal direction of Mr. Genmissioner Dowling, were aventualde brought to the acens of the rost. At length a lymand was made at Everton barracks, for assistance from the nefficers of the regiment, who promptly dispatched neveral picquets, of 30 men, to aid in qualing the disturbance. Notwithstanding this, however, many of the rost within the barracks, houring what had occurred, acaled the wall, and presented to the rescue of their comrades, about 25 of whem had by this time been lodged in Rose-hill Bridetvell, previous to their being con veyed to the more accure prince of the berough.

Watching the absence of the picquets, who had been engaged in clearing the streets, the acattered soldiers again assembled at Rose-hill, just as the wan in which their comrades were placed was being driven off, and a resewed coeffict ensued, in which the soldiers were many their side arms with horrible improcations, just as three picquets were rocalled and ended the affray. The van was then large bedy of police at double-quick time, and the priseness were ultimately lodged in the main juil at the town:

he, praying on the instant temoval at the regi-it from Lierphod.

Haight, Force and Valocity of Wavas

Few whn have hot "gone down upon the sen in ships," or witnessed the fury of a storm on a rockbound coast, can realize the magnitude end power of the waves of the ocean. By a stretch of the limagiestion, assetical writers sometimes speak of the awars aranning "ununitains high." but exaggerated as is the sistement, it is doubtful whether these who take it in a literal sense do not really antertein a more just idea of the actsal power of the waves than these who more pholosophically measure their height by feet and inclies, and form a corresponding idea of their force.

We have recently had a melancholy instance of the force of the awars in the destruction of a structure which some of oar best engineers considered impregnate to the assalts of the elements. This event has given an interest to the investigations which have been mede as to the height and force—the awars. We find upon comparing various authorities, that there is a difference or optimies, that incre is a difference or optimies in relation to these subjects. It was the commonly received opicion among scientific men several years inces, that no wave rises over ten feet above—the ordinary level of the water, which, with a similar depression, would give a height af twenty feet from the bottom of the hollow to the creat of the wave. Humboldt, is his Cosmos, estimetes the height of tha waves at twenty five feet.

It is not until quite receasily, however, that any careful investigation of the, phenomena of waves has been lentitled. Or. Scoresby, in a paper read before the British Association at Ediaburg, has throwe much light upon this interesting inquiry. His researches were conducted during two Atlantio voyages, in a steamship, under circumstances very favorable for observation. By he round thirty-six feet awersge elevation from ridge to hollow, and even of thirty feet. They were, however, of an extent on the ridge.

When waves meet with an obstruction, their leight, is a considered to the keylow of the said at the target and the own the rock, the feet hov wn have already alleded, carefully estimated the velocity of the waves, and found it to but at the rate of 32.67 English statute miles per hour. He estimated 559 fent as the probable mean distance of the waves, or the width passed over between crest and crest. It is a common error to suppose that the water advances with the wave. It is the form only, which advances, the water rising and falling is the same place, except when it reaches a beach, when it becomes mally progressive, from the fact that it cannot slak directly, down, and therefore falls over forward.

when it becomes rally progressiva, from the fact that it cannot slak directly down, and therefore falls over forward.

These atstements in ralation to the height end velocity of waves, harn perhaps prepared our readers to estimate with some degree of correctness, their force. When was see a column of water, at least thirty feet in height, advancing with the speed of a railroad train, we can readily imagine that its force is almost irresistible. We have already mentioned the investigations of Mr. Stevenson. His observations on the force of the waves, made by him with reference to the construction of marine works, are of much interest and importance. These observations were made by means of the marine dynômeter. He found that during a westerly gain on the 29th March, 1845, a force of threst tons per square foot was exerted, at the Skerry-vore lighthouse, in the Atlautic oceau. In the German ocean, at the Bell Kock lighthouse, the greatest result registered was 3013 pounds, or about one and a half tons per square foot. These results are astonishing, and it is no wonder that in the encouver with such a force, the largest ships am but toys, and wood and iron almost as fragile as glass. Nothing but stone can be expected to resist such a force, and that most be as firmly fastened as the ledges on which the waves spend their fury.

Mexican Claims.— Letters and dispatches

Mexican Claims. - Letters and dispatches from Washington siste that the Mexican govera-ment will shortly prefer a demand npon the United States for over \$15,000,000, for the non-fnifilment of the treaty of San Louis Potosi, which has resulted in axtensive Indian depredations on the frontiera.

The clause under which this demand is n eads thus in the Treaty of Guadsloupe Hidalgo: "It is solemaly agreed that all such incursious shall be forcibly restrained by the Government of the United States, whenever this may be accossary; and that whenever that cannot be prevented, they shall be punished by the said Government, and the same way, and with equal difference and energy, as if the same incursions ware meditated, or committed within its own territory, against its own cittees."

Mr. Webster's Oration .- The Latin quotation Mr. Webster's Oration.—The Latin quotation from Cicero's recoud philippic against Mark Autony, which occurs near the closur of Mr. Webster's great speech at Washington, is singularly heppy, not only in the use made there of it, but in its original connector as applicable to the distinguished speaker. Wn auger a translation, profixing a sentence which occurs previously in the same paragraph. The portion quoted by Mr. Webster is printed in Italier.

graph. The portion quoted by Mr. Webster is pinned in Italier

"As for me, I will make this public declaration: I detended tha State in my youth, and will not abandon it in my old age. Two things only I wish for: the first is, that I may leave the Rioman people free: and a greater blessing than this the immutal Gods around issued as the has deserved of his country." (N. Y. Journal of Commerce.

l'enerable Personoges .- The Springfield Post says that there are hving in the town of Lunenburg, in Mais, at the present time; forty-right persons who were living when the Declaration of Independence was made. Several of them are over ninety years old. The antira population of the town is but 1300.

The Weather and the Crops.

In Tennessee.—The Memphie Eagle of the 5th desponds thus:

"Wa have just returned from a visit to the interior, and during our nhaence have heard more compleint in regard to all the growing crops tlam it has ever been our fortene to listen to before. The drooth has now lasted more than two months, in all the surrounding counties of North Mississippi, West Tennesses and Arkansss. In every direction, as far as we could hear from, the corn crop is to a manner eiterly cut off, and the cotton crop has been an much injured an to preclude the possibility of more then two-thirds of an everge crop; if it does not rain within the week, more than half a crop cannat he inside, We were assured in all hands that the prospect for both crops, at this season, was never known to be so gloomy before Appreheesions of femine next yen;—et leest among the stock—are every where freely expressed.

privation and distress mice ensue smong our plant-ers, and through them he visited upon every other cless in the country."

We have recent information from gentlemen

thoroughly por tup in reference to cotton and corn in the districts named by the Eagle, that the cotton looks remarkebly well, and is full of prom-ise. The corn fields generally here suffered much ruined es some eccounts heve described it.

In Louisiona.-The Providence Republican of

"The cotton crops generally look well, and it i thought good crops will be mede this seeson. The Bleck River region of Louisiana is doing well, The Southern Advocate of the 17th seys:

"We received, by the hands of Judge Telioferro, of few deys ago, a wide open holl of cotton, of fine white, long staple, pulled in Mr. Jacob Garrett's field on Black River, on the 10th inst., and sent us

"We did not leern whether there was much In Mississippi,-The Cleiborne (Grand Gulf)

Gazette, of the 16th, says:

"The first full blown holl af cotton thel we have seen ar heard of in this county, this sesson; was brought into our office yesterday. It was from the plantation of Mr. Charles Hamilton. In this vi-

plantation of Mr. Charles Hamilten. In this vi-cinity the prospects of a good cotton crop are prom-leing.—The corn crop in this county will turn out rather slim. The shower of rain on the 4th, and the oce a week or two previous, proved of great henefit to this crop, and prevected an almost total-failure of the crop, especially of that planted in dry 17th thus notices the crops, and, quaintly and dubiously, the weather:

biously, the weather:

'Corn is, in some perts of the country, ruined beyond redemption. In some parts of Autauga act two bushels to the acre will-be-made. This is a gloomy prospect for the planters. Cotton in this country presents good prospects.

"The weather is in mint-julep order."

.. The Home and Grove of the Author of the Decla rotion of Independence.—A correspondent of the Uniontown Democrat, who has recently visited Monticello, the residence of Jefferson, thus de-

erilee it:
"The interior of the house is just as Jefferso "The interior of the house is just as Jefferson left it, except the furniture, which is all gone, save some paintings, mirrors, etc." This house, both outside and inside, bears all the avidences of neglect and decay, but it still retains all its felr proportions, and its veaerable outline, growing grayaed moses by time and neglect, perhaps adds, rather than otherwise, to its appearence, particularly to a stranger. And the venerable aspen trees growing account, throw a kind of melancholy over avery thing, that seems to be the property of the state of the seems to be the property of the woods, to the grayn of lilm who planted them—to the humblest grave in appearance that ever held the sinks of luman greatness. I made a sketch over it.
"I enclose you a little flower from a branch of vines said to liava benn planted by Jefferson himself, beneath the window of the room in which he died. Thuy have spread all over the side of the house."

Great Britain and the United States .- The Lon ion Athenuem, in a notice of the last census of the United States, says: "The population of the United States is about three million more than that of Great Brhain. In 1900 it will exceed that of England, France, Spain, Portugal, Denmark, Swelen and Switzerland combined."

Accident on the River .- While the scho Bobert Spedden was ascending the river, late on Friday aight, a young man aamed Wm. S. Terry, a passanger from Vera Crux, fell overboard and was drowned. He was returning from California, and had informed a friend on the Robert Spedden that his parents lived in Charlottesville, Va. Hie beggage was nxamined, but authing valuelle was found, except two gold, watches. He had stated that he had done well in Oalifornia, aed the proba-

Expense of West Point Acodemy -It eppears by the report of the Board of Visitors on the finan-cial condition of the Military Academy, at West Point, that not regarding auther the interest or the Point for lands, buildings and permanent improvements, and considering that the officers, if not em-ployed here, might be usefully employed elsewhere In the service of Government, the annual expensa of the institution is set down at \$162,012 86, making the annual cost to the Government for each

naking the annual cost to the Government for each cadet \$650 86.

New York Public Schools.—The annual report of the Board of Education of the city and county of New York for the year 1850-51 shows that the average of attendance upon the schools has in-creased II per cent, during the last twelve months, while the whole number on the register has multi-plied only at the rate of about 5 per cent. The whole number of schools within the jurisdiction of the Board during the year anding 30th of April, 1851, was 207, among which ware 17 schools for colored children, and the whole number of children taught was 107,363. The cost per scholar for 240 days' instruction is set down at \$6.86.

Abolitionist Arrested .- Adam Crooks, the noto rious abolition lecturer from Ohio, was arrested in Montgonery county, N. C., on Sunday, June 15, and lodged in the county jall at Troy, to ewait his trial, for an offence against the laws of the Stete.

It is to be hoped that the law will be able to inflict operators from making similer inroads into Southers

Tha ica trade of Boston is greater and morn profitable, perhaps, than is generally supposed, and the statistics show that it is increasing. The ship-ments from the above named port, during the last month amounted to 8965 tons, and the total for the season thus fer; reaches 58,484 tons. The aggregate exportation for the same period last year was 10,101, and that in 1849 was 42,156 tons.

A Race Around Cope Horn .- The clipper built ships Challenge and Telegraph were to leave New York on the morning of the 12th instant, on a sailing match around Cape Horn. The Mirror says:

"They will sail at sunrise; sed cheice parties of sporting mariners will breakfast on board, and accompany them in a steamer some distance out, provided any steamer can keep pace with theat. The freight hills of the Challenge amount to \$60,000; and the ceptain is to have a boeus of \$10,000 if hn puts her into San Francisco in ninety days! The Cinallenge cost \$120,000; the Telegraph ahout \$70,000. They are hoth perfect beauties." ing niatch around Cape Horn. The Mirror says

Connon Burst .- In Stamford, Ct., on the night Cornor Burst.—In Stamford, Ct., on the night of the 4th, some persons loaded an old twelve-pounder amenon to the muzzle, and fired it off with a slow match. It burst, and use piece of the metal weighing thrity pounds, was inrown.500 yards, through the roof of a house and the side of a water task, flooding, the 'house with water; another '.''uek," of nearly one hundred pounds weight, was thrown 250 yards, and through the roof of a hedroom does of scattles become servery missing a man is bed. Mr. R. Gage was sitting within siz feet of the gua at the time of the explosion, and strange to sey, in the midst of the storm of iron he was untouched.

Philosophical.—The Philosophical.—The Philosophical that "one-half the trouble and difficulty of this life is the fact that people do not know the importance of always attending to their own business, and estimate too highly the necessity of minding that of other people.

The population of Switserland, according pensas just taken, is 2,425,000, being balf a milw the number of ichahitants in the State

Taming Wild Horses.

The following is extracted.

In the Amazon:

Many wild horsen are still caught et Cajueiro.

Oee day a party of eight or ten of the natives, mounted on well disciplined steeds, and headed by the Englishman, went out of the campos for this purpose. Perched smid the brenches of a tell tree, a had an estensive view of the grassy plain, and was able distinctly to observe all the movements of the engestrians.

was able distinctly to observe all the movements of the equipment of the equipment of the end of a smell grove, when suddenly a troop of forty or fifty of the wild creatures emerged from behind it, and hounded sway with estonishing velocity over the mesdow. A spirited chase was now commenced by the mountain netives, who strained their swift eminals in their greetest capselty; never did I witness a more intensely exciting spectacis than the nne which was now before me. The manes and tells of the horees were flying widly in the eir, while a mass of hoofs were rising and felling with a repidity which showed how tightly straing were the nuscles of the animals.

were rising and felling with a repidity which showed how tightly strang were the nuscles of the animals.

To my nurprise the Englishman kept the lead, and was obviously gaining upon the quick fiosted fuglities. Coming in with them, he selzed his lasso, and began to awing it eround his head, gandically enlarging the circles by permitting the smooth rope to ellp gently through his fingers.

By a sudden motion, at the rame instant plunging the salte into his charger, in order to increase his speed, "if possible, he dashed quickly farward, end furled his lasso with merring skill around the neck of the foremost horse. The head were now thrown into a panic, and wheeling eround in their course, they were completely surrounded by their pursuers. Several were lassoed by the untives, and the remainder kept together by two or three of the horsemen, who were continually circling around them; not one esceped, end ere an hour had elepsed, they were dilven safely into one of the pens at Cajneiro, rieighting bundly, and their motibs covered with creemy finam. The heat horse being selected from the herd, and properly secured, the other were again turned at large.

The mode adopted by the natives, of breaking them, cannot be styled by any other term then that of birrberous; yet it less efficachoue that the poor arimals are rendered perfectly docule and manageable in the course of two or three days.

One afterneon an opportunity was afforded me of witnessing the operation. In the lergest enclosure froudly stood one of the majestic animals, picking up the certs with his hoofe, and shaking the lieavy mane on his finely curved neck, while its bright eyes glassed. Jesterfly around him, and his leud laughing volce ringing wildly in the quiet air, seemed to be ealling on his far-off companions for relief.

The first yet was assead for fifthy around him, and his leud laughing volce ringing wildly in the quiet air, seemed to be ealling on his far-off companions for relief.

strength one way, while those who had hold of the halter exerted themselves 'vehemently in the coutrary direction. The object evidently was to effect partial strangulation, in order, thet they might weaken and temporarily overcome the wonderful power of the spirited creature.

Violent were the plunges of the captive steed, eshan sought in vain, by superhuman naretions, to free himself from the grasp of his cruel tormeators, who stood like heartless demons around him. His terrifio leeps only served to drew the cord tighter and tighter about his neck; his hreathing became nore and morn difficult, and might have heen heard at the distance of a furlong. His heart heat as if it would burst from his heaving hosom, and his veina stood out in ridges along his quivering fiesh. At last, overwhelmed with the intensity of his agony, and powerless with suffocation, he fell, and for an instant lay without sense or motion upon the ground. The noose was immediately loosed about his neck, and shortly returning consciouances began to light his glazed eyes—the fresh air swellad his aostrila, and his tremendous othest rose and full like the billows of the sea. At the expiration of fifteen minuta he was one of on his feet, but how different from her magnificent animal who had stood is the fative pride and digaity, pawing that sandy soil an hour beform! Weake-nav'dy belte to stand—his head drooping, and his eyes without a ray, he looked like a miserable spectre of his former self—like a monerch dragged from his throan, who has beee scoffed at by those whom he had before despised, and forced to be a wretched and miserable slave.

The precention of the horse was now by no means concluded. As soon as he land-recovered somewhat from his exhaustion, he was mounted hy a neked Indian, who was rewarded for his termerity hy being thrown to a considerable listance over the head of the animal. The native, however, was but little hurt, and in a few moments again resumed-his dangerous seat. This time, he kept his places, not without the remembra

Idioly to my mind the remember of the contain.

The animal was now held tightly by a long rope, and forced to run round and round in a circle. Wherevar-he-finggedy-or-manifestad the slightest obstracty, a native, with a leavily knotted cord swinging around his head, would give him a terrible hlow on his flanks, the pain of which was almost sufficient to drive him to mainness. Gradually he became more and mora passive, and 3t the end of another hour was quite-tractable. Narrow Escape of Niagora .- Thos. A. Logar

Narrow Escape of Niagora.—Thos, A. Logan n estimeble young lawyer of Cincinneti, son of he comediae, had a narrow escepe for his life a cw days ego, at Niagara Falls. A young lady—a stranger to him—had ventured too fer out on a projecting rock over the rapids above the cataract; he became giddy, and screamed for help. Young Logan, who happeaed to he standing on the bank, flew to her rescue, and succeeded in getting her safely on shore, but lost his own balance and fell into the boiling surge. The young lady fainted, and the men on the bank were noo much paralyzed to offer assistance. Luckity for Logan, the water to offer assistance. Luckity for Logan, the water ogy for his course, but cannot justify it. gyration sected a hear in a over the from his perilous position. Had he fellen a foot further out beyoed the edge of the whirlpool, no human aid could have prevented him from being' carried over the frightful cataract. [Cin. Com.

Bloomers in o Shower .- The editor of the Bonto Setunday Evening Gazette has seen a lady arrayad in the new costume, cetted in a shower, and thus described free people of the property tupleasant predicament:

"The Turkish trowsers lost their graceful contour, and flepped aiound the pedeaths of the wearer like a wet banner round a flag staff, while the tunic was deprived of its stiffness. The fair Bloomer was in a most awkward position, and reminded us of a seriously indisposed hen, who had been caught come way from her roost in a thunder storm." seturday Evening Gazette has seen a lady arraynd

From Mexico.

The British Minister in Mexiso had notified the Mexican Government that immediate satisfaction must be given to the British creditors. The French and Spanish Ministers immediately followed the lead of Mr. Doyle, the British Minister. The communication of these important declarations to the Chamber of Deputies had creeted much exdiement in that body. M. Macedo, the Mexican Minister of Foreign Affairs, heightened the ex-eitement hy stating in the Chambers that the Brilish Minister had told him that if he did not get ieformation for the next packet to his Government that the principal of the debt due to British creditors had been paid, it was likely that the Britsh Government would take decisive measures to right the grievance.

The revolt in Chiapas, according to an official

account in the Monstor Republicano, is at an end. The disaffected wern few in aumber. The Governor summoned them to disperse, and as they re of this revolt is said to he the restoration to power of Geu. Senta Anna. There is said to have been a revolt at Tabasco, Yucatan, also, with the same

object.

It was rumored in the City of Mexico that Mr. Wahater's reply to the annunciation of the repeal of the Garay Grant had been received. Of course, great excitement followed. The report was, that Mr. Webster had aimply announced that if the rights of American citizens in Tehuantepec had esn disregarded, thern was a casus belli: Webster (shout the couteats of which there was so anuch anxiety,) related solely to the refusal by the Mexican Government to ratify the treaty. This note, the Trait d'Union says, is as strong as possible, and gives the Mexican Government a good of what sort of document they may expect from the American Secretary when he leerns that the Mexican lagislature has annulled the decree,

conficulog and extending the Garey Grant. The Americae party, under Major Barnard, who he American Consul, agricut the orders communiested to them to suspend operations on the Isthmus. Louisiano Politics .- The democrats of East Feliciana have made the following nominations to For State Senator, John McVna; for Representatives, G. W. Mundsy and J. Warren Cole; for Sheriff, G. W. Mundsy and J. Warren Cole; for Sheriff,

John W. Hayes; for Assessor, Jos. Draudy; for

Hoston Common, and that when the grass is high,

is a fair illustration of the country between Victoria and for Coroner, John W. Keel.

The Progress of Oregon -The Boston Praveles on a letter dated at Columbia River, on the 22d of May, from which we make the following ex-

has a letter dated at Columbia River, in the 22d of May, from which we make the following extracts:

"Toregon is fast becoming a State; its increase is as repid es is consistent with durability. The census taken last fall shows the population to have been 13,000, and allowing 2000 for that portion of the late emigration not included in the above, we have 15,000. By advices from the frentier, and the constant influx front California, we may eafely calculate upon an increase and 10,000 during the present yeer. Thus you see the time is not for die Union for edmission. And a valuable acquisition was shall be knocking at the door of the Union for edmission. And a valuable acquisition was shall prove. Oregon is not only unsurpassed as an agricultural region, but she is rich in minerais. Vust beds of coat, of an excellent quality, have been discovered on the Cowlitz ond in Puget's Sound. Iron ore is abundant on the Columbia, and guld, plattua, copper, lend, plumbago, subplur, and sult, are among thuse, already found in this luttlittle known Territory. Her lithis idea are clothed with glegutic timber, and her valleys need only the ploughshare and the seed to make them rich with golden crops.

"The commerce of Oregon is rapidly increasing; already three lines of ocean steamers connect us with our more Southern neighbors, and sall vessols are fast multiplying. The overland emigration of the present year will be enabled to avoid a very difficult-part of their journey iny a line of steambouts that will ply above and helow tite Cascedes, being connected by a rairum around the Fells. This will obviate the necessity of climbing the precipious and barren road that winds erbund Mount Hood.

"The Land Bill passed at the last session Congress is far from being setisficiory. The clause which makes it necessery to reside upon the lend for four successive yearsacts very unfairly upon the merchants, mechanics, nariners, teachers, etc. who, from the nature of their calling, are obliged to live in varing set that in fact time land-in-o

Newark Advertiser, writing from Turin, seys;
"On epproaching the environs, one is rendy to inquire if it is a city of priests—so many long black robes are seen training in the dust, and so meny three-cornered hats hobbing in every discotion; a question, that will not surprise the reader, when he learns thet in the little kingdom of Sardinia there are over sixty thousand priests, including the monke. Many of these are attached to institutions for the education of indigent youth, and receive salsries from the Government; others ere professors in the various colleges, and the remainder are required for the daily-masses of the churohes, of which there ere a hundred and ton in Turin alone, besides several monasteries. We do not know the number of monks atteched to these, but they are numerous, and patrol the streets at all lhours, with their uncovered, shaven heads, bare feet, coarse brown robes, fastened at the waist by the rough cord used as their scourge of peuleoce, and the cross and rosary dangling at the side. Long processions of nurs, too, in their cloider costumes, and sisters of Oharity, headed by the indy superior carrying the cross, may be encountered almost eny dey by the stranger natering Turin, some one of these various religious orders being always out on duty, barying the dead, or performing some other sacred rite; so that it is not difficult to realize at once one's proximity to Roman Catholio dominions."

The Talcott Court Martial.—The Weshington

The Talcott Court Murtial.-The Weshington Union of the 13th contains a full repert of the charges and specifications on which Brevet Briga lier Georgo Teloott, Colonel of the Ordnanoc, wa arraigned before a General Court Mattial at Washington, D. C., on 23d June last, together with the indings and sentence of the Court Martial, approval thereof by the President, etc.
The Court, of which Gen. Twiggs was President

dent, found the accused guilty of every charge pre ferred against him. We copy the conclusion trou the Union. There will be found in it a sound adnonition to all officials, which President Fillmore has used the present opportunity to offer to them. SENTENCE.

And the Court does seatence him, Brevet Brigadier George Talcott, Colonel of the Orduance department, "to be dismissed the service."

11. In cooformity with the 65th of the rules and articles of war, the proceedings of the General Court Martial in the foregoing case have been transmitted to the President of the United States.

The following is the decision thereon:

Exacativa Mansion, Jaty 8.

The foregoing proceedings of the Court Martial for the trial of Brevet Brigadier General George

for the trial of Brevet Brigadier General George
Talcott having, heea laid hefore me, and heving
heen by me duly examined and considered, I hereby confirm the same. MILLARO FILLMORE,

III. Brevet Brigadier General George Talcott
accordingly ceases to be an officer of the army from
this date.

Rev. B. H. NADAL, A. M., Biblical Literature.
Rev. B. R. WAUGH, A. M., Mathematics and
Natural Science.

S. II. PRATT, M. D., Assistant in do. do.

A. Miss GEORGIANA A. HULSE, French Laifguage.

head of his corps furnishes undoubtedly some apology for his course, but cannot justify it. The President deems it proper, perticulerly, to express his disapprobation of all private correspondence oc officiel business. Such a practice not only prevents the preservation of a distinct and intelligible record of any transection, so indispensable in a government where public agents are liable to be frequently changed, but is incompatible with the admitted accountability of every officer employed in the disbursement of public moneys.

IV. The General Court Martial, of which Bre vet Mejor General Twiggs is President, is dis solved. By contraind of the Presidents R. Jones, Adjutant General.

A Western jury, holding an inquest over a man who died in prison, returned the following queer verdict: "The way of the transgressor is bard, and he died from natural causes."

There is a ourious ordeal in India, which the action of fear upon the salivary glands. If a wrong is committed, the suspected persons are got together, and each is required to keep a quantity rice in his mouth for a certain time, and their put it out again ; and, with the greatest certainty, he man who has done the deed puts it out almost dry, in consequence of the fear of his mind keep ing back the natural flow of saliva.

"A Brooklyn paper tells a story of a Mr. Rohin son, of Flatbush, L. 1., who has two dogs, the one a small apanial and the other a large half-breed deer-hound. The small dog was playing with R.'s child near a cistern, when the child fell, head foremost, into the water; the agonized mother, who vitnessed the occurrence, saw the spaniel run to the kennel of the bound, who instently ran to the spot, and, before the mother could reach the child, the noble animal had placed it in safety. Instinct might have induced the small dog to attempt a resane; but evidently knowing his inability to do so what prevented him from trying, and caused him quick as thought, to fetch the stronger ? Furming in Texas .- Mr. H. C. Pratt, the artist

who, with his son, is attached to the Mexican Boundary Commission, writes to his wife in Boston, from San Antonio, Texas, that "Farining is a dif-

ferent thing here from what it is in the North; here you can huy a thousand acres of land, which is in beautiful grass, emostle as a floor, get two yoke of oxen for forty to sixty dollars a yoke, and a plough; begin to plough in November; plant one hundred acres of corn in Fehruary; get all the world does in Avil and the work done in April, and in September harvest is and get one dollar a bushel for it; the amount with he five thousand dollars at least; this will pay for the land and all other expenses for the first year stone in it, can be bought here, any where, for a dollar to a dollar and a quarter per hushel. Cattle, for which you never need cut a pound of hay, can be hought from three to five dollars a plece No one need work at all during the hot mouths The Americae party, under Major Barnard, who empined at Barrio, have raade a protest, through lands. You can-come from New York lo Galves the American Consul, against the orders countrunt ton for thirty dollars by vessel, and, ofter you land can take a wegon and oxen, ur mules, and go where you please. There is a road uny whem you wish to got you can traverse the country in alice any direction with wegons, without any road, just and San Antonio,1

Central College at McGrawville, New York, in which whitee and hlacks, and all other colors, naise and female, are admitted as students together, and "cesoclate en terms of the most intimate companionship and equality." An appropriation in behalf of the institution was proposed at the late session of the New York Legislature, which actually found favor in the Senate, but was defeated in the Assembly. The Express says that it does not believe that the white people of that State, any where, except in the very wers abolition hothods, ere willing to be taxed to corry en tion hot hods, ere willing to be taxed to carry e this amalgamation. ...

Property in the Crystol-Publice.—Horace Greeley ays: "If a fire\_should consume the Crystal Pal ace, the inevitable loss must exceed one hundred smillions of dollars, evon supposing that a few of the most preclums articles should be snetched from awift destruction. Ten minutes, without wind, or five with it, would suffice to wrap the whole im pari of the value of the building and content

Singular and Melanchaly Accident -Mrs. tholomew, of Herlem, Ill., was instantly killed by lightning on Friday night, of last week, while sleeping in the same bed with her husband and child.

A Profitable Newspaper .- It le reported thet the New York Tribune newspaper will divide this year \$80,000 clear profit, about \$24,000 each to Greeley & MeElrath, end the rest to seven ussociates in eilltorship and booking.

The Tribune is unquestionably one of the ablest

most ultra and reckless journels in the country. We know of no worse firebrand, none quicker to rouse sectional feeling into a flame, and incite to neasures whileh must endanger if not destroy the Unlion.

Steom in Boton Rouge -The Baton Rouge Gazette is congratulating the sugar-planters in that vicinity, that the necessity to send away from home for steam engines will not exist hereafter, as Messra Hill & Headerson, of the Baton Rouge Foundry have nearly prepared for action a steam engine, the already completed parts of which are said, by comnetent judges, to equal any thing imported from NewYork, NewOrleans, or Cincinnati, It filty towns in Louisiana could-furnish-us-with similar lutelligonce, it would be the most gratifying thing tal feele its importance, and that feeling is quick-

Dismissed from the Novy .- It is stated that Capt. Finzier, of the revenue service, now sectioned in California, has been dismissed by the President, for tyrannicel conduct and violation of the act of Con-gress abolishing flogging.

Sad Accident and Deoth .- Al Cleveland, July 10, the hack belonging to the Farmers' Hotel was driven down to the landing, neer the pier; for orien named Berry, his wife and two children, who came is on a propeller. The driver left the hack, with the above persons in it, to look after the beggage. While he was absent the horses and heck went ip to the river, and the wife and two children were drowned. Several persoes have been drowned within the last few months in a similar manner. Hessian Flag .- There is nowe in Alexandria

Va., the first fleg taken during the Revolution, hy Gen. Weshington, from the Hessians, et Trenton. It is composed of silk, beautifully embroidered in needlework; the crown eppears prominent, and the date, 1775, on the front. Also, the identicel flag surrendered at the hattle of Yorktown. It was the flag of the 7th Regiment, end now bears this in-scription: "The surreeder of Lord Cornwallis being the crowning glory of the complete success of the American arms." The flag is of rich silk, well perforated with bullet holes. Gen. Washington's body guard flag is also there—silk, with the

one.

At times, and then hast tempted me;
At times, and I have been to thee
Benayer and behayed! When I am sail, thy lear-drops fall; When gay, the glow that mantles all Thy face, hi syjapathy, Declares how nice the links that time The ontward form and hidden snind

to our humavity. Rul years have changed thee! Lines of care Are on thy face which were not there When we to being spring; And though thou art so alieted naw, Time graves no wrinkles on my thow; t feel I still am young! And when we part, as part we must, Think 'st thou t shall forget The love I bore thee while on burth.

No: 1 hhall love thee yet! Ant wheresoe'er thinn ashes be, By meibil, or stream, or lake, or sea, My thoughts shall linger of:;

the duty of supporting the ministry of the word. I am not unaware that the first mention of this subject will startle many, and nwaken a thousand reffection on the delicacy, not to say the invidensness of the attempt. But—as I hope to give the most satisfactory proof that divine anthority binds this duty on the delicacy and the ministers of the satisfactory proof that divine anthority binds this duty on the satisfactory proof the delicacy. The satisfactory proof the delicacy and cateth not of the fruit thereshold the supported by the satisfactory proof the delicacy and cateth not of the fruit thereshold the supported by the satisfactory proof the delicacy and cateth not of the fruit there.

tives, which some affect to entertain against the uninisters of religion; I respect their fears, I sympathize with the Apostle, it were better for us to the Apostle, it were better for us to the Apostle, it were better for us to the temple? and they who wait at the attar are partakers of the altar? Even so both the Lord ordained, that they are to die, than that any man that we so both the Lord ordained, that they ministry and the gospel with an evil eye; whom it is therefore uccessary to melt down by heaping coals of fire on melt down by heaping coals of fire on should make void our glorying, that we preach the Gospel, "not for filthy lnere, but of a ready mind, and seek not yours but you."

This leads me to show—

I would, however, remind such hear-ers, that the words I have chosen for ers, that the words I have chosen for ministers of religion, is enjoined by my text are extracted from a passage, is which the same apostle who are the Gespel. a which the same apostle who was se demands the recompeuse due to pastoslightest suspicion that he might injure and the ueblest feelings of the heart.

est inspirations of religion, will welcome ths consideration of this subject, I am satisfied, hecause I know that they grieve for the inadequate attention paid te that which so deeply affects the interests of the church, while these who would gladly lose sight of the grand tion and instruction in righteensucks and urge to that obedience which Heaven demands, for its houor and their

discharge that task with unsparing fidel-

sense, and a reflection on your Christian priceiples, to waste your time in efforts to display the prepriety of inculcating that which God has commanded, and of resolving that neglect on this point shall be corn. Deth God take care for oxen? resolving that he gleet on this point shall represent the right to say, "we have kept back nothing that was profitable to you, nor shuuned to declare the whole course of God."

For our sakes, no doubt, it was written that he that pleweth should plow in hope; and he that thrasheth in hope should be partaker of his hope. If we course of God."

If any shrink from this subject, not have sown unto you spiritual things, is on their own account, but for the sake of others, lest the discussion should carnel thing? If others be partakers prove injurious to religion, by giving of this power over you, are not we racolor to the suspicion of mercenary me, ther? Nevertheless we have not used

2. The same duty, of supporting the

Here, also, as in all other things, that life itself, to the honor of the Gospel, proper to discontinue it, from the time leathers, or ill-affected towards that demands the recompense due to paste that he was anointed by the Holy Spi- Gospel, in which you glory and exult. ral toils, without once betraying the rit, to preach the Gespel of the kingdom. As he came not "to be minis the religion of Jesus, by pressing a dutered unto, but to minister, and to give the working with his own the which bears the impress of divine his life a ransom for many, we might anthority, and commends itself alike to have expected that he would rather give read most distinctly, of the contributions where the state of the contributions where the state of the contributions was a support to the contributions and the state of the contributions was a support to the contributions where the state of the contributions was a support to the contributions where the state of the contributions was a support to the contributions where the state of the contributions was a support to the contributions where the state of the contributions was a support to the contribution of the contributions was a support to the contributions where the state of the contributions was a support to the contribution of the contributions was a support to the contribution of the contributions was a support to the contribution of the contribution the coclest decision of the judgment, than receive; and to him who wrought tions made to his support by the discimiracles to meet the exigencies of the ples of Christ. One beautiful acknow starving thousands who nttended his ledgement of their liherality may well that was necessary for him and his attendant band. He chose, however, to cast himself on the liberality of his hearers, to live upon the contributions of those whom he was serving; fer, in addition to the entertainment he re Christian duty, or blot it from the code ceived, wherever he went, preaching the you, an eder of a sweet smell, a sacrifer of Scripture and the Christian's breast, Gespel, "certain women, who followed, lice acceptable, well pleasing to God; of Scripture and the Christian's breast, Gespel, "eertain women, who followed, are the very persons for whose "correction uninistered to him of their substance."

we are compelled to unfold the dnly, and as a part of the same plan, when he seat forth the Apostles for a short excursien, while he was with them, that those nowly fledged eaglets might try served, he was assisted by churches at Oa the coolest consideration, therefore, I feel myself entitled to all Christian freedom in discussing this subject, the whole world having the everlasting the discussing this subject, the whole world having the everlasting be exalted, because I have preached to you the Gospel of God Ircely? I robtian freedom in discussing this subject, the whole world having the everlasting net forgetting that, as I am often called Gospel to preach to every nation under to address young ministers on their dnty to the churches, and can uppeal to be give them this energe, As them to do you service. All was present with you and wanted, I was present with you and wanted, I was salem, had no existence. All was volcing that the property of the church at Jerusalise largest that the property of the church at Jerusalise largest that the property of the church at Jerusalise largest later that the property of the church at Jerusalise largest later that the property of the church at Jerusalise largest later that the property of the church at Jerusalise largest later than the property of the church at Jerusalise la cleanse the lepers, raise the dead, cast chargeable to no man; for that which ity showing all that the churches have out devils; treely ye have received, a right to expect from us, I may be in freely give. Provide neither gold, nor eam from Macedonia supplied." If the to the Holy Ghost, and to keep back dulged with equal boldness, while I call upon Christians to yield an adequate scrip for your journey, ueither two support to those who "watch for your journey, ueither two coats, neither shees, nor yet staves; for social as they that must give an account."

I request, then, your candid attention to—

I. The divine appointment, that the Church of Christ should support its ministers.

To a Christian nudicace, scarcely any content of the series in your purses, ner your journey, ueither two coats, ner yet staves; for your journey, ueither two coats, neither shees, nor yet staves; for the workman is werthy of his meat. And it whatsoever city or town ye shall enter, inquire who in it is werthy; and there abide till ye go thence. And when yo come into an house, salute it. And if the house be werthy, let your peace return to you.

To a Christian nudicace, scarcely any content of the series of the laud? Whilst it remained, was it not time own? It is was sold, was it not in thine own? The opposition to this work, doubtless the churches of Macedonia their superior honer, in supporting the Apostiles of Christ!

The divine appointment, that the Church of Christ should support its ministers.

To a Christian nudicace, scarcely any content in the content in the persons sensibility, how must they have encount the work must they have encount. And into the work, doubtless the churches of Macedonia their superior honer, in supporting the Apostiles of Christ!

The divine appointment, that the Church of Christ should support its and it is been the churches of Minimal And in the persons lay, it is the dictate of what may be the churches of Minimal And in the house be were the churches of Minimal And there are the church of the series of the laud? Whilst tremanaed, was it not thine own?

The opposition to this was written, had after it was sold, was it not in thine own?

The opposition to this vas it is the the church of Minimal And there is any general reference.

The opposition to the level of the beauties of the church of the carli

by the appointment of others, and not hymy own choice, to unfold and cuferce from the general principles of a dispensely my own choice, to unfold and cuferce from the general principles of a dispensely with the affairs of this life, that he the duty of supporting the ministry of sation, whose peculiar rites are no longer may please him who hath-chosen-him-to-

this rule. But this very objection admits that the rule is, that ministers declared the Lord ordained should be the general practice? Because there. were some, among the lirst churches,

welfare, as would stop the mouth of an infidel, and compel the bitterest foe to admit we were their disjuterested frieud?

But after all, it was only at certain intervals, and in particular places, that Paul labored, working with his own I am full, having received of Epaphroditus the things which were sent frem lice acceptable, well pleasing to God; but my God shall supply all your need necording to his riches in glory by Christ

Even in Corinth, where the Apostle received nothing from the church he

God eighined that the ministers of religion should be supported by the centribution of the people.

It desproises the call off the carbined which the legal rites unfolded evangels.

It devolves on into my dear hearers, by the appointment of others, and not by the appointment of others, and not be my own choice, to unfold and enferce of the my own choice, to unfold and enferce of the my own choice, to unfold and enferce of the my own choice, to unfold and enferce of the my own choice, to unfold and enferce of the my own choice, to unfold and enferce of the my own choice, to unfold and enferce of the my own choice, to unfold and enferce of the my own choice, to unfold and enferce of the my own choice to unfold and enferce of the my own choice to unfold and enferce of the my own choice to unfold and enferce of the my own choice to unfold and enferce of the my own choice to unfold and enferce of the my own choice to unfold and enferce of the my own choice to unfold and enferce of the my own choice to unfold and enferce of the my own choice to unfold and enferce of the my own choice to unfold and enferce of the my own choice to unfold and enferce of the my own choice to unfold and enferce of the my own choice to unfold and enferce of the my own choice to unfold and enferce of the my own choice the ministers.

The the word." (Acts 6, ii—iv.)

In those letters to the ministers, the word." (Acts 6, ii—iv.)

In those letters to the ministers, the word of the word. "(Acts 6, ii—iv.)

In those letters to the ministers, the word of the word of the word." (Acts 6, ii—iv.)

In those letters to the ministers, the word of the word." (Acts 6, ii—iv.)

In those letters to the ministers, the word of the w themselves, do not deny the propriety of providing for those who give them-selves to the labors of the ministry, but they actually perform this duty with exemplary liberality and lave, wherever it is required. They restrict it, indeed, to the time that the ministers are actually engaged in traveling and preachhope to give the most satisfactory proof that divine authority binds this duty on the conscience, I presume that you feel it would be an affront to your good twenty of? For it is written in the rule is, that ministers should be supported by the people of their charge; How straage, then, is the perversion which makes the exception their rule, and the rule an exception it nullawful to use previous study; they. And for what reason did Paul make himself an exception to that which he declared the Lerd ordained should be the general practice? Because there

dressing the assemblies convened. who being ill-affected to his person, his mainistry and doetrine, would gladly have seized any opportunity to charge supercedes previous study, and yet make supercedes previous study, and yet make the supercedes previous study and yet ma For such societies as profess not to him with sinister motives. He determined, therefore, to cut off all occasion, that from them who desire occasion, that the mischief be counteracted by the wherein they glory, they may be found even as we." (2 Cor. xi. 12.) Who, therefore, can require their minister to prove their rule, as coverageness or instance. prove their rnia, as covetousness or injustice is already their sin aud shame. Let us new consider-

11. The mode which should be adopted to attain this instituted end.

In many instances, men could wish that God had interposed more specificmelt down by heaping coals of fire on their heads; to vauquish, by such a course of voluntary matural or of the course of the course of voluntary matural or of the course course of voluntary martyrdou for their teutive observer it will appear a striking characteristic of the Christian religiou. that it rules by grand general, principles, while the Jewish dispensation abounds-in-minute regulations. Line exquisitely alive to every thing that might commit the houer of the Gospel, inculcates the duty of supporting the ministry, on an infant church, who is the Legislator, has made himself the model of virtne. He who wrought, as it is probable, at the trade of a carpenter, to support himself, and whem he might naturally be afraid of probable as the support himself, and the family in which he was bern, previously to his coming forth to the public of a religion, whose truth to support of a religion, whose truth the support of a religion, whose truth and was contained to the Jewish dispensation ples, while the Jewish dispensation ples, while the Jewish dispensation among the locations. Line this reason, our missionaries among the locations are obliged, at first, or an among the location among the locations are obliged, at first, or an extensive support themselves, or must be assisted trient unstated settled unstated to the Jewish dispensation ples, while the Jewish dispensation ples, while the Jewish dispensation among the locations. Line the support themselves, or must be assisted trient unstated settled unstated set prejudicing against that religion which they had so recently embraced. Yet we shall seen see with what fraukness and decision he would sacrifice every and decision he would sacrifice every shall be showever it might have sheeked the pride the support of a religion, whose truth and value, they have yet to learn. But shall we deal thus with the churches of under governors and tutors, but have sheeked the pride that religion which is expressed in the support of a religion, whose truth and value, they have yet to learn. But shall we deal thus with the churches of under governors and tutors, but have sheeked the pride the support of a religion, whose truth and value, they have yet to learn. But shall we deal thus with the churches of under governors and tutors, but have they have yet to learn. But shall we deal thus with the churches of under governors and tutors, but have they have yet to learn. But shall we deal thus with the churches of under governors and tutors, but have they have yet to learn. But shall we deal thus with the churches of under governors and tutors, but have they have yet to learn. But shall we deal thus with the churches of under governors and tutors, but have sheeked the pride they have yet to learn. But now that we are no more miners, shall we deal thus with the churches of under governors and tutors, but have they have yet to learn. right, or interest of his own, or even of the earnal mind: yet he deemed it that we should treat yen; brethrou, as joy all the privileges of adoption, the exchanged, from the minute to the grand, and we are left, as men endued with spiritual wisdem, delicate consciences and generous affectious, to follow out the general principles of the Gespel-to-all-their-legitimate extent-

'As that paramount authority, which to the ancient religion, has not said one word of the precise sum, or peculiar mode by which ministers are to be supperted in the churches of Christ, it is manifest that we are left to free-will offerings-the sacrifice of the heart. iudeed, this becomes a religion which tonches the heart in the tender est place, by saying," Ye knew the grace of our Lord Jesus Christ, who, though he was rich, for our sakes because poor, that we, through his poverty, might be made rich!" That every thing was originally voluntary, in the Church of Christ, the New Testament proves; and that it must have been so for three hundred years, all may know, from this consupposed law of a community of goods, in the jalaucy of the Church, at Jeruuntary. For Poter says to Ananias, able work. There are several incidents "Why hath Satan filled thy hoart to lie of great interest connected with this recity give. Provide neither gold, nor estiver, nor brass in your purses, nor serip for your jouraey, ueither two diverges and literature of the price of the laud? Whilst Providential agency; but as they involve it remained, was if not there own? and personal domestic matters, prindence de-

THE MINIATURE. This Limner's work, ah thow it fails La tell what then art now-And all thy nader heavy veils Hencute that j your brow. For it less made that drow of snow So free from thought and care, ... That Life's empious do lun show li sportive action there. h gives thee only-llope's bright eyes,
And hair of Youne's gay bue,
And spreads along the cheek such dyes As nre young Heanty's dos. It teaches thy suft fips to smile

As though that sinde had both In sealing where there is known a oguile-No bageful breath of enrile. Aut uh! within those lips seems hid - A voice that well-might speak. And tell of tive, as Psyche's did, When pressed to Cupid's cheek. The rose above thy temp'e bount,

Amid its leaves of green, la lhoie an embl-m; apily found; Of whee thy life had beet. Yes, Nature's gift-Art's plastic hund,

But did she now before them stand, ... They'd find her lovelier there. They now might see how Time has given Those eyes a mellowed light: Benignani, as in orbs kind Heaven Has sent to gladden Night.

And low that cheek, where conscious glows The sense of duties filled, Is leveller far than when the rose Its blushes there distilled. Or, could they open her pure breast;

And lay its pulses bare; By husband, children, kindred blest, Who its fund thrubbing share; Or seize the welcome words that fall Like Music's magic sound;"
Echoing Affection's plaintire call,
And soothing Grief when found;

'That bind my steps to home: Or feel the bliss her pen conveys, Whome'er abroad troam; A chaplet my would be her-crown, Whose very flower it lears Would, all that for each beauty flowing Some moral grace appears.

Could they but trace the wlaning ways

No limner's skill-no painter's art-But there is ONE who sees the heart. And wreath s such flowers for her.

For the N. O. Christian Advocate. Bro. McTyeire: Every communica tion through a public inedium, having a tendency to cust light on the great subject of religious conquest, and the advancement of practical piety, is certainly | Protestant, many of whom may conceiv read and divested with interest by the

good and virtuous.

And inasmuch as I but rarely disturb And inasmielt as I but rarely disturb fancy. But the reality, with all its fear-the sanctum of an editor with my scrawls, ful might, may be revealed when the you will grant me space in the Advocate for saying several things connected with sides of a burning volcano, while the the main subject of this notice—a revival of religion - and if too prelix, just within are gradually blasting and desceast the veil of charity over the fault, lating the lair, heritage we new enjoy. and I will promise never ngain to tax to Our insidious enemies not only fawn agony, the patience of your readers.

duration, have just been closed in Mo an exhibition of their true character. rean church, the results of which have been glorious. An unusual degree of solemnity characterized the services throughout, impressing the community with the lact, that these strange things were not the sudden ebullitions of excited minds, but the result of some mysterious ngeney—they knew not what.

Taking all the circumstances in con-

ucetion, from its incipiency to the conclusion of the meeting, it was a remark-

honer of the sacrifice of the whole.

It is assorted, and with considerable church, rarely ensump the impress of the faithful—Papists—should be taken their approbation on any thing that tends from the ground, and thrown far away their approbation of pure morals in the And it the noise of worthy, let your peace eme. upon' it; but if it's be not peace eme. upon' it; but if it's be not peace eme. upon' it; but if it's be not peace eme. upon' it; but if it's be not peace eme. upon' it; but if it's be not peace eme. upon' it; but if it's be not peace eme. upon' it; but if it's but if it's be not peace eme. upon' it; but if it's be not peace eme. upon' it; but if it's is other words, that it is but common justice.

- The Pope apes the very thunders of

correct mornls — the only true directory, to heaven —and in all charity we only ask for it a candid reading. Capholicism, on the contrary, proposes the conquest of the world, - not avowedly, but in practice—by a street binding of men's consciences; shutting up every avenue of land l The one, prosperous and happy; light and science, and even at the present moment, aye, at our very doors, Heaven's vicegeront, and his suborditrying to about every principle of our republican institutions, which in their subjects, only when they desire to judgment, is in the least degree, subversive of their economy, the whole madisement of their Church; and we now view the Popel as God's vicegerent, and the Priests as his petty agents, ignorantly suspend their salvation on words dosed out from the precious lips of a poor man.

It ever operates like the cast wind, What then, is the source of this la-

mentable ignorance among the Catholle laity? Te this principle we have before adverted. 'Is not the moral tone of a glery, the trapping of its court, have community always elevated in proportion been always the silly objects of the Rons the Bible is circulated and read? Does man Church, while the great mass of has the Bible is circulated and rend?—Does it require the acumen of a critical logical for the dullness of moral perception; the general prevalence of an exemplification of the general prevalence of that spirit of dillusive benevolence which forms such prominent item in the religion of the Bible? A mere tyro in moral ethies can but confirms the of repeated charge of a spirit of latelerance as a spirit of latelerance. to them, is a sealed book; and no effort will be spared to prevent its diffusion among their people, or even among Protestants, especially when they (the Cutholies,) have any connection with our public selfcols. His not the poisonous leaven ulready begun to spread in this city! Who are the agents in the prohibition of the Bible as a text book in our instinnnawer this. The secret is,—the Bible a spirit of Intolerance so prevalent the Bible as a text book in our institu- could see her in her naked deformity the Bible as a text book in our institu-tions of learning? It assert as my opin-ion that the conductors of the system we are deprecating, are the grand agents in all such measures; and I thank God that I am not in the dominions of his Itoli-ness, the Pope of Rome, or else-fuggots and flame might be my inheritance for daring to express such opinion. Do we see Cutholics manifesting much interest in the moral and mental culture of those in the moral and mental culture of those their glory eclipsed by such connection l children within the precincts of their own Ecclesiastical control their own offspring? No, their energies and sympathies are all enlisted in behalf of Protestant children ! Turn your eye to the erowds of miserable, ragged mendicants from two to fifteen years of age, who infest our streets, and say if in this there is not a startling evidence of the truth of the above assertion. A consideration of such seenes, and such agencies among ns, should excite the energies of every such exposition of facts to be mere "scure crows," the creatures of our owin

but even menaco; and nothing but the series of meetings, of six weeks strong arm of a giant Republic averts The system is now what it has ever been; but its inquisitorial fires, which have queuebed the life blood of a host of martyrs, are yet smouldering only because of their suppression by the liberty-of conscience and freedom of the press, which always predominate in a land of religious light. As an exempli-fication of the above, lock at the porsecution of John Wickliffee, and his folewers, during the reign of Beniface

IX., for a mere expression of sentiment.
Although they were not permitted to wreak their vengeance on him by putwreak their vengeance on him by pir-ting him to the rack, which was pro-vented, is all prebability, by his sudden decease; yet thirty years after his death, the infallible—Gennell-of Constance, at-which the Pope-presided, passed an or-der that the hedy and bouse of John Wickliffe, if they might be known from the faithful—Papists—should be taken

heaven; and such are the imitative qualities of his sub-agents, that they are equally as destructive as their great original. Leok at the amazing contrast hetween Pretestant and Catholic Ire-

chindry of which is moved by secret see Ireland, one of the fairest countries wires—the Priesthood, thinking, and act on the globe—a country over which God ing for the mass, who being taught to had scattered plenty—reduced to pov-

surcharged with effinyia, giving rise to blasting, barrenness and descintion wherever it goes. The truth is, pepish they were like stars that strayed from their homes, and losing their way, fell sin and popery; but even there their native light could not be obscured. On the centrary, the darker the around them, the more beautiful and brilliant did their lights appear. The recent developments of discontent at

of things in time to come. It seems, also, that the revival has becu a severe probe to the vulgar scribbler of the Orleanian, whose little sheet teemed with some-wire of the Billingagate order, because of an absence of certain commedities which never infest his cranium. He doubtless floats in perfect content, when breathing an at-mesphere tainted with the spirit of ma-levelence—all animals live best and breathe with more freedom in their own

the doings of bishop and priest in this

part of the city, and the jollings to which the physical proportions of one of the latter order was subjected, etc.,

are certainly indicative of a better state

ou the whole, notwithstanding the counteracting tides, we bad a sweet and prosperous time. The Ohurch is greatly strengthened, her borders enlarged, and all the instituted means of grace punctually regarded. I trust that God, will bless the Church, and extend her influence until the last traces of Catholic intolerance, siu and superstition shall enly he among "the things that were." Amen F. S. PETWAY.
New Orleans, Moreau charge, July, 1851.

A Goon Example.-A writer in an exchange paper, writing from Eugland, says "There is one thing that I see in England, every where in places of wor-ship, that I long to see adopted in this country. I allude to a deep, quiot, sol-omn compesure all ever the congrega-tion at the close of the sorvice, when, the henediction is attered. It lasts for

The Montgomery District seems likely as overglowed. he appears to me at the greatest advanta tege. Here I know of uo exception to him can think of no superior. Tho most rambling, tedious speaker, gets his patient hearing; he keeps desultory discussion steadily drifting in the right direction, winds his way smoothly out of parliamentary tauglements, and makes decisions with such promptness and reasonableness, that the defeated person never feels like appealing from them. It is utterly impossible to tell which side he leans to by the way he listens. It is also impossible to judge from the vehemouse, the violent earnestness of the speaker, what sort of Chairman he makes. I am persuaded that it would have been no mistake had he long ago been called by the Church to a position where these eminent qualifications would have found an ample and appropriate sphere.

But I must return to the Gospel entertainments of our Sabbath day. At 4 P. M., our veuerable brother Clinton carnestly addressed his fellow travelers to Eternity on the "fish story," as he termed it, (Jonah.) Like the man, it was an affair of plain, unvarpished, home truth, not altogether destitute of quaintness. Brother C. preached somewhere about 1820, and later in Eastern Alabama. His memory is still fresh and on Rev. Charles Collins, President of precious with those who knew him then. On a visit to those parts last winter, the following, concerning him, was fold me Hon. W. L. Sharkie, of Mississippi, for truth: In a circuit of five or six and Hon. Solomon W. Downs, of La. ment among a set of rich, stingy people. The so-called church was little priate response. He alluded in a happy and senatorial styls, to his former consulty sheltered under it, if not in it learning to an appoint the senatorial styls, to his former consulty sheltered under it, if not in it learning the senatorial styls, to his former consulty sheltered under it, if not in it learning the senatorial styls, to his former consulty sheltered under it, if not in it learning the senatorial styls, to his former consulty sheltered under it, if not in it learning the senatorial styls, to his former consulty sheltered under it, if not in it learning the senatorial styls, to his former consulty sheltered under it, if not in it learning the senatorial style, or sheltered under it. ally sheltered under it, if not in it, leaving, of course, a good deal of that small live stock peculiar to them. Bro. C. miserable, floa-y place as this is."

Christian Advocate know now, for himself, of his acceptaneo with God. Thus passed the Sab- nounces the failure of the proposition bath, I hope not unprofitably to any one to arbitrate the church preperty case.

Mouday was occupied principally in trustee, meetings, during which the report of the Committee, appointed jointly by the College and the State to examine the classes, was received. I herewith send it to you; it may be published next week, if you have not space for it this, The report is well drawn up, specific and discriminating I su glad of it. This business sheafd not be slurred over, and in this case has not been. If professors are faithful, it is unjust to notice their year's labor in

Uhristian Advocate and Journal an-

"Dr. Smith has finally declined arbitraing the question at Issue. The ground he takes is, that if the agents will concede the claim of the South, then the Commissioners will submit to arbitration the question of the amount and mode of payment. This the Agents. cannot agree to, for the plain reason that they have no right to cencede the equity of the claim. The General Con rence has given them no snell power If they had power to make such a concession, there would probably be nething to arbitrate, for the parties would doubt ess soon agree between themselves, as to the subordinate questions of amount and mon, if the main point, indeed all the point new at issue, were settled."

Back to Cresar let it go. There we shall have what is our own, we hope. Strange that such an essential difference as now appears between the Commissioners, on bethe sides, was not discovered when arbitration was first talked of.

Support of THE MINISTRY. - On first page, we begin to publish a sermon for the times. It was preached more than thirty years ago, by a Wesleyan preachsr, and soon after republished in this mistako, tho word Members has been printed instead of Ministers, in tho heading of the articlo.

THE CALIFORNIA MISSIONARIES .- Bros Malone and Goher sailed for Chagres at 8 o'clock Monday morning last, on them God-speed.

The dogree of D. D. was lately conferred on Roy. A. A. Lipscomb, of preachers in the Methodist Protestant

Julia Westwood. We are happy to learn that MisseTowler has been elected to a place in the ladies' faculty of Summorfield Instituto. As Julia Westwood, the chaste and beautiful productions of her pen are familiar to the readors of the Ladies' Companion.

## The Montgomery District. The Montgomery District of this

noble people, it has shot so far ahead of any other portion of the Church in the not elerical, but natural: neither of that. Here is the pledge of the Alabama Conference, that it has be-Alabama Conference, that it has become a spectacle not only to the rest of the Conference, but to the whole Southern Methodist Church: Yes, the papers of the Northern Church are quoting their example as marking a new ora in benevolent effort. In the action of the different circuits upon this disof the different circuits upon this district, the broadest views of the capabilities of Christians seem likely to he realized. Some have thought for years, alized. Some have thought for years, that Christians might contribute four fold to bonevolent objects, and still not less, that felt at its close as if the benerectness of this opinion. In the mean time, how does the rest of the Confer-ence stand in reference to this district? Brady and Mrs. Ferguson are eminent-From present appearance, this district ly accomplished in that science, which will raise as much Missionary money as has contributed so much pleasure to our all the other eight! though no wealthier than some of the others. This will be known when the redeemed of earth to them a humiliating fact, if it occurs—shall join in that "new song," suug by one that it will be difficult to explain to the celestial orchestra. ## Correspondence-Summerfield.

Although we have published two com nunications already on the Centenary Institute, we cannot omit some extracts interesting occasioa :

My Dear Editor-This is, in many respects, the age of letter-writing-aml. it was, for aught I know, to give snitable enconragement to this manin, that the august rulers of our country determined on the reduction of postage—a very wise law, as editors, and some Methodist preachers, cen testify.

The situation of the Institute is

a most delightful and pleasant one, combining beauty and utility-loveliness and healthiness. There are two departments-male and female-the buildings for which are some three hundred yards apart, and sufficiently commodiens for all reasonable purposes. The village of Summerfield is characterized by intelligence, virtue, picty and hospitality. The people seem equally removed from pride and vulgarity, preserving a simplicity of manner, attended by an unaffected refinement, which cannot fail to leave a good impression country. It will do for this generation on such young persons as may be thrown to ponder, and we now present it to in association with them. I know of walk amongst the tombs. Graveyards them. Read it—every line of it. By no society in the midst of which I would are rarely forgotten in the provisions of sooner have a son or daughter placed, during their academic course, than that school houses and charitable institutions found in Summerfield.

In company with Mossrs. Kennedy, Palmer and Reid, of Greensborough, 1 reached Summerfield, on, Saturday evoning of the examination. Crowds were pouring in, from every part of the State, at 8 o'clook Monday morning last, on so that the villago presented quite a Falcon, Capt. Rogers. Many friends city appearance. Groups of glad-lookaccompanied them to the wharf, and bade ing boys, and bevies of beautiful girls, them God-speed. sunset, upon their evoning promenade, while here and there was an Alabama Conference Itinorant, who had made his way up to our literary Olympus, to wit-Mentgomory, Ala, by the University of ness the contest of young gentlemen Alabama. Mr. L. is one of the first and ladies for academic distinction. While on the subject of preachers, I would just say, that there were forty-one in attendance, and right well, too, did they enjoy the festival.

THE SABBATH

dawned beautifully upon as. At ulne in the morning the regular Commencement Olass Meeting—a new feature you say, perhaps, of Commencement coeasions—was led by that man of great heart and genial nature, Rov. Joshua Heard, of Montgomery.

At half after ten au immense assem blage were waiting in the Female Institute buildings the incoming of the preacher. It was an audience of rare The Montgomery District of this Conference occupies a singularly prominent and important position at this good and great man might desire to address. Through the zeal and activity of its P. Elder, and the concurrence of its noble people, it has shot so far ahead of had been invited to preach the Commeneement sermon, took his appropriate

the fow very best sermons I over heard . The services of four and eight o'clock P. M. were largely attended, and interdiction of God had rested upon it.

THE CONCEARS of Monday and Tuosday nights were

THE EXAMINATION

COMMENCEMENT DAY, that last and great day of the feast, was one of the days, the memory of which will do to recall in the future. At nine o'eloek a. M., a procession, composed of the Board of Trustees, Faculty and pupils, and numbering some two hundred and twenty-five persons, was formed at Fomale Academy. Fourteen young la-dies had passed the ordeal, and were there to reesive the first dogree in English Literature. It was an interesting spectacle, and fancy was busy with the uture, as I looked upon them in their hopofulness and promise.

The reading of compositions came on next, varied by vocal and instrumental music. The valedictory was read by Miss Martha Bryan, of Mobile. I had known her when she was but a child, with a fragile form, and a pale, meck brow. It was hard for me to realize that she who stood before that multitude, giving utterauco to sentiments that brought tears to hundreds of oyes

never to be forgotten by that group of young ladies, to whom it was delivered.

The anniversary address, by Professor Hardy, of La Grango College, closed the excroises of the day. It was emi-nently practical and franght with many passages of the highest eloquonoe. Say to your patrons to send in their daughters the first of October. My sheet is full. Good byo. T. M. P. full. Good byo.

being the first American Quakers who have eve visited that country for the purpose of preliching Torrections.

Mr. Editor-I have eften been told hat I did not write a plain legible a severe drouth. July 28. The editor was absent when the articles of J. H. went to press. Hence several mistakes occurred in the paper.

### Shreveport Correspondence.

corporations and societies. Churches, are not unfrequently the last objects of their attention; but the dead must this subject to defend themselves. I have a resting place, and the living think there is hope that seber reflection we are bearing "one and farther thought investigated we are bearing "one or the living can manage to do mith the world and farther thought investigated we are bearing "one or the living can manage to do mith the world and farther thought investigated the second manage to do mith the world and farther thought investigated the second manage to do mith the second manage to do can manage to do without religion, and without knowledge; it may dispense with preachers and pedagogues; but death will have a local habitation, and claim his tithes. Illiberality may condemn the moral and literary institutions of society to perpetual and hope less dwarfage, and prejudice and penury may drive the standing advocates of both from the atmosphere of bigutry and selfishness, but death always claims and receives a freebold and a home. Among other circumstances common to towns, Shreveport has its cemetery. . It is a wild and quiet place, just in the outer suburbs, embracing the summit and slopes of a hill which rises by itself, and constitutes a beautiful and am ple burying mound.

The first thought that strikes the mind of a stranger, is the incredible number of graves, which already cover an exten-sive area of ground. The cemeter, has beeu open hat four or five years, and the total population of our town does not exceed three thousand. The unusually largo number of burials is readily ac counted for hy reference to the im mense emigration which annually passes through here. The mertality amongst the emigrants is very great, and this spot is the resting place of bundreds who terminated their pilgrimage unexpeetedly, and now sleep without monu-ment or headstone to tell where their ashes repose. After weary and protracted journeyings, they at leugth stood upon the threshold of the Texan land. Here, like Moses upon Neho; they obtained a distant view of the Cauaan of their hopes, but by some inserutable Providenco, they were not permit ted to enter upon its possession. There they lie! many of them the victims of the cholera of '49 and '50, parents and children, masters and servants together. The diversity of condition which obtains among the living, is visible in the circumstances of the dead; and in their weight with good men, is proven either case this difference is rather and by the fact that many such have been parent than real. Here and there are vaults, neatly enclosed, around which evergreons and flowers have been plant-Upon some, a simple slab bears he names, and common place obituaries of those who lie beneath. Upon others, obelisks of imported marble have been raised, which look with pantomimic contempt upon the humbler resting places

around them. This is an oxact counterpart of life and things here have an intrinsic, as well as a specious value. The resurrection estimate of the tomb caunot b determined by the marble which cu bers it, nor by the garnishments that are thrown around it. The value of the tomb oan only be ascertained in the history of its tenaut; that alone determines whether he has part in the first resurrection, or whether, by a just pre-tension, he is marked for the second.

Interesting reminiscences are called up by the epitaphs of some who have been interred in this consecrated place. That of Miss C. L, who was killed in the chapel, and reached thence to the July, last year, by the shooting of a Fomale Academy. Fourteen young larocket, at an exhibition of fireworks, oannot fail to exoite the sympathy, and awaken the regret of those who pause to inspect the enclosure that taste and devotion have placed around her ashes. Youthful, accomplished and pious, her sun went down while it was yet day. Hither at set of sun, or in the dowy bour of morn, tearful pilgrims sometimes hie, bringing the choicest cullings of fields and bowers to decorate the narrow house of the untimely dead. Too took house of the untimely dead. Too who was a member of my Church, and of their devotion, and right gent took doubt. Her

but we must soon be gathered to former:

This section of the State is suffering yet been injured, but the continuance was her God. She had been secust of dry weather for a few weeks more planting interests.

The anniversary of our National Independence was appropriately celebra-Honor and the Sons of Temperano the Methodist Church, where addresses the sixth trouble and not forsake you turned out, rank and file, marched to were delivered, and snitable odes were sung. The whole proceedings, in this connection, were altogether gratifying has been my fortune to hear." There to the friends of liberty and total abare several smaller errors, which I will stinence. An oration and barbeene were gotten up in the evening, where the severeign people were feasted with natriotic thoughts, and other good No religious news. Morals and politics are passive.

### For the N. O. Christian Advounte. The Privileged Class.

Bro. McTycire-Your articles rolative to the "retired list" seem to be doing their work to some extent. I see you have stirred up sundry correspondents for. your own and other papers; and so far as the writers names have transpired, they all seem to be now, or to Shreveport Correspondence.

Mr. Editor—Woodsman has emerged from the forest, and now proposes to dently do not think their position so brought these afflictions upon her walk amongst the tombs. Graveyards needs no defonce. Dr. Channing, I causes of her distress and had given think, says, that as long as a man apolo- a word of comfort, we knelt together

> sure that a discussion of the subject will do no harm. As usual in controversies, the true point is lost sight of, and falso issues brought forward: The question is not. Whether education is important to-the Church and World-or whether the Church has long so viewed it-or whether, in the present condition of things, some of the ministry must not engage him. Hew many precions jowels in teaching. But it is, whether there covered henceth tattered clothes a are not, in the present state of the Church, too many ministers withdrawn many whem the gay and proud of a from their proper work, and engaged in teaching and editing. Let this simple question be discussed. And who is prepared to take the negative? Will it be said that laymon cant be had in suffi- hills. Eternity will soon sweep a cient numbers to fill our Institutions? the distinctions of earth, and the I think they can. Will it be said that they eant sustain these Institutions? This is assuming too much, by fur. The influence of many men now in our Institutions would be fully as effective, if they were on districts, circuits or sta-

> tions much in this question for many of us to be able to discuss it dispassionately and impartially. One of the dread evils of Hinerancy is the frequent removals to which it subjects a minister's family. By securing a good situation in some permanent school, this evil is avoided and the good man finds his wife so well pleased with the arrangement, that he tries hard to see it in the best light, ing or editing, it is more pleasant than the journeying, changes and trials of the itinerant. It keeps him with his family constantly. Again, in most in-stances the pay of the teacher or editor is hetter, and more suro than that of most Itinerants; and disinterested as we are, this fact has its influence. That these and other considerations have induced to join Annual Conferences by, the offer from such position, who would never have taken such a step for "the work's" sake. Brethren, it is not that shift is 125 feet. The pedests is 21 feet. we love education less that we write, thus, but because we love the Church and souls more. There are other considerations which might be brought to in brough wide from 1900 sizes view, but their mention would touch a

that "the time of his departure was at hard." On Salurday following, the 10th, the day of our second Quarterly Conference, I saw him for the firs tima after his attach. . He was very low and sufferel much, and appeared as one " finishing his course." At his request I administered to him the holy sarrament, and found him fully realgned to the will of God, willing to live or die, as God should determine best.

This was the last day, the closing scene of our dear Sister T. Her grief at the prospect of the death of one that had an long journeyed with her in the trying seemes of life-that had been her re fage in so many storms, was very severe, and more than her heart could bear. About 12 P. M. sh was smidenly seized with a spasm, or apoplexy, and recessed at once to labor and in live.

Brother T. lingered until Tuesday following His sont was firmly staid on God, his everlasting strength. Often did he give the fullest evidence that God was with him, and comforted him as he "", walked through the valley and slandow of death." He was literally "strong in fuith giving glory ! God." About Ho'clock r. ar; on Tuesday, May 14, "Refell acleep in Jesus."

Now, side by side, the dandland and the wife reat in peace. Their many and severa thials are over-their port of rest is gained their crown won, They are numbered with the blessed dead denbdes are with God, realing from all the ORBAMUE L. NABIL.

confirms, while it corrects ond extends, the accounts brought by the Cherokee at New York?

My Dear Friend—Notwithstanding you may have heard of the miovement of Principe, on the 4th of July, which was very bappily conducted, and of thot to follow in Tunas, Holgmin, Bayamo, Trinidal, Baracoa, Gaamutas, Gorianjiy, Prinir del Rio, I send you the following. The patriots from Principe are in the mountains of Gascorro, whence they sallied forth and destroyed the whole command of Brig. Gen. Conti, while he was crossing the river Najaxa. The patriots captured Gen. C. and killed ahout 400 of hits men, while 50 were drowned. The movement at Tunas has been camplete, olso that it Holgnin, both printa-ure in-the power-of the liberators, oud they have formed a provisional government.

How very ridienlous it is that by the last mail the Governor did nat advise the public one word of this, but on the constany state, that this quite. An official statement appears in the Gacein, as received here by last night's small, giving on account in which the "Liberators, commanded by Don Joaquim Aginera, had net the Government troops, and that the Liberator lost live from eleven hurse, and some animunitien—and Providence has so ordained it that we have not fost one main." This speaks clear enough what is pussing, and is suppressed by the Government in order to keep down our people, and keep them in ignorance of no real state of allairs. We know, well amongh that the Spanish stroops did not lose in this action twenty-one men and had cowardly fled, and that only three of the patriots were killed and five wounded. This is the truth.

The Captain Geaeral has received news from the Government—The Delta of yesterduy every instant.

Cuban Excitement—The Delta of yesterduy every instant.

instant.

Cuban Excitement.—The Delta of yesterday ever-ning published dispatches to the effect that the news of the Cuban Revolution had created im-mence exchemical in NewYork and Cinemanti, and that from the latter armed hodies of sympathiters were preparing to move.

A gentleman paid his attention to a lady, who was inclined in favor of o Mr. Psatters her partiality being very evident, the former took occasion to ask, incorrect in the former took occasion to ask, incorrect in the former pay, moss, show far have you got in your Psatter?" The lady archly replied, "As far as 'hlessed is the man."

Bees vr. Snakes .- The N. Y. Evening Post re

Best v., Snakes.—The N.Y. Evening Post records the following:

"Aswarm of bees bived in the hole of an old tree on the mountain at Westliebt, Ct., from which, so on after, an immense innular of black snakes, of all a zes, were seen to emerge and spread themselves along the limbs of the trees. The neighbors assembled in crawds and shot some of the serpents, many of them moustring liver air feet in length."

France .- Mr. George Snmuer, in a letter from Paris to o friend in Providence, eavs: "You asks about France. Pray be assured all is going on well; there will be no revision—no re-election of Louis Napoleon. The Republic will stand—the constitution will be to persent Two good candi-dates will be brought forward before next May, and retrogrades and pragesasses will lry their for-

lired et him, bat without effect. The incendiary escaped.

There was evidently on arranged plan to set fire in and consume the city. Long before the fire trached in that vicinity, a man was discovered attempting to set fire to the Pacific street wharf. He was orrested, and it is understood was banded over to the Vigilance Committee. The portion of Morvin & Hitchcock's building, occupied by Lania Killein as a segar store, was fired in the rear by some this cream, who broke one of the paace of glasse in the stash of the door leading to the yard, and set life to the curtain of the window. The mark of the match ignited for the outrons is windered by this, that there is in this oily an organized-hand eworn to destroy it—every thing connected with this fire has certainly shown it.

visible on the door. More thon ever we are convinced by this, that there is in this city an organized hand eworn to destroy it—every thing content of the drought fram various sections of our district, are truly distressing—in many places there will not be as much corn made as was made in 1815. Such is the case, too, is the acign the catablish regulations governing their claims. The result of this convention is in the highest darree antifactory. The resolutions are extromely liberal in their tenor, and the cordial spirit of minimal considiation exinced at the Convention, augurs well for the tranquality of the inines in that region, and the security of the mining interests. Until their understanding was had, there fauld have been no stability in mining operations.

and the same of the princes

was burned to death in endeavoring to save his store-room.

Geo. Hobbard, a native of Scotland, about forty years of oge, who had been confised to his bed in a mane in Jockson street for eight days past, expired while being removed to the Plazd.

It is understood that the Committee of Vigilance have node a large shubber of arreats, on charges of incendiariam and theft committeed daring the lire. Three were tried and honorably acquitted. Others are still fromed, and held in custody for future exomination.

The Colorado Roft -The Matagorda, Tribut of the 7th met amforms ins that Caparin Ward is builty engaged in removing the ration the Cobra do rivet : and that he is making as raind progress considering the limited number of hands at his dis posal, as could reasonably be expected.

Constitute and Inland Novigation .- Col. 11 1. Kinney has entered noto a contract with Mr. Bel den; of Saluria, to deepen the channel clear distance of some one hundred and finy miles There are several shed reets and lists, simking in all, probably, a distance of ten pr. twelveringles that will have to be dredge to though there is now a channel sufficient for small boats and shoops to run. The contract requires a permanent cl of four and a half feet all the way. This numertant improvement is undertaken by Col. Kunney entirely at his own expense, and its completion wil giva good inland steandourt navigation more than half the whole distance from Galveston to Corons Christi. The balance of the distance between here and Maiagorda, only requires about fifteen miles of easy and cheap canal, to complete the whole inland navigation from Galveston to Corpus

tha rangers, has had another encounter with a parof Indians near the Nueces river. The Captain had upwards of thirty men, and the Indians but ten; but owing to the nature of the ground, he could not get sufficiently trear them to do much execution. One Indiao was wounded, but none killed. All the saddles, camp equippage, 11th, lances, shields, etc., were taken by Capt. W. The mone were taken. Among the camp equippage was found a leather pouch, containing many letters and some newspapers, the principal part of which matied to Corpus Christi - there was also one sin and one summer coat, with a bullet hole through the right breast. These are no doubt articles ta-

Key West. It was a suit between two persons who were equal owners of a vessel. The Court was applied to by one of the parties for its aid in the jurnidiction of the Coart to entertain the sail, and offered security for the mile retarn of the years I the vessel to be sold and the proceeds to be divided.

The following points were held by the Court is

be the law goveroing in such case . " I. That the Court has the power to order a sub-of a vessel in case of disagreement between equal

of a vessel in case of disagreement between equal part owners.

2. That a contract between equal part owners for the employment of a vessel held by them, will not prevent one of them from having her said on his applying to the Court and stating his wish not own longer with the other land. and applying to the Churt and stating his wish unito own longer with the other; the remedy of the
latter, being by action for a breach of the contract.

3,7 bat it is not necessary-to obtain an order of
sale—an equal part owner should show that on ascount of the conduct of the other, the vessel wohld,
lie usemployed, or could not be engaged in any
adventure, and that it is not necessary to show any
misconduct of the other owner.

adventure, and that it is not necessary to show any misconduct of the other owner.

4. That where a suit is commenced by a sinusmous of the respondent, which should have been commenced by an attachment of property, the attachment may take at any time, even after the

decrees.

5. Where a sale of a vessel is prayed by an equal part namer, the Court will not deliver her to either party open stepulation to abide the event of

an appeal.

6. An appeal perfected will not stay the proceedings, where a sale is prayed by an equal part owner, but five evest must be soon outwithstanding, and the proceeds brought toto Coarl to above the result of the appeal.

Late from Rio-High-hard Oitrage by it English Commander .- By the arrival of the bath reole, Captata Le Broa, at Ballimege, from Rid the 11th ult., we have a confirmation of the alleged

outrage upon an American party.

The steam towheat Sarah was seized by the commander of the British steamer Cormorant, on suspicious of having supplied a schoolier, said to be engaged in the slave frade, and having towerd the Sarah two mides outside the haubor, blew her night the towhoat was owned by Messia Hobba & Alvaringe, American ship-chandlers ar Rio, who were despity mornfade at the high-randed outrage of the British commander.

Messia, Hobba & Alvaringe represented the matter of the American Minoser, and gasarted his Excellency that their towhoat was engaged in no avocation but what was strictly legal and in accordance with the maritime laws of the country. The American aloop-of-war Dale. Commander Pearson, lad in the harbor, alordings the United States Minister ample, power, to arrise the file. States Minister simple power to arrest the f'or morant's crew, and blow that vessel up but in de-cordance with his established coolness and great judgment, he submitted the matter to the Federal Government, where, doubtless, reparation and apology will be declared.

Some idea, however inadequate, of the

character of the Fly Sheets may be gathered from Mr. Eckett's description of them; and the fact of Mr. Eckett having himself secoded from Conference Methodism in the year 1835, and having leng stood at the head of "The Associa tion Methodists," will vouch for the ab seace of any bias in his testimony in favor of the heads of the original body. Mr. Eckett, then, says that in these papers the executive of Methodism, under the designation of "the clique, are represented as being trickstors, drones, einecurists, locaters, lords, selfish and sincourists, locaters, lords, selfish and men in 1849 grew up the agitation of tyrannical. They are directly charged the following years. These three imwith the mismanagement and mal appropriation of the funds of the Connection." He however, is constrained to bear witness that no evidence of any value is brought forward to substantiate such odious charges, and that he-himself regards "Dr. Buating, and the other leading men of the Conference Connection," as "Christian men," and has "as high an opinion of their Christian character and of that of the Conference ministers generally as of the ministers of other evangelical communities." Ho further adds that "ss the Conference believed that soms of its own members were concerned ia circulating those charges, it was only reasonable, if it regarded the charges as calumnious and injurious to the characters of brethren held in high repute by them, and injurious to the interests of the Connection, that it should use strong messnres to find out the authors of the "Fly-Shoots." Ho particularly justifies he use of plain and direct interrogation in such a case, and affirms that in his owa community a similar method of proceeding might probably have been depted in similar oircumstances.

accusations and insinuations were circu-lated in regard to the most eminent and still and yet more diligently eirculated, if any in particular were suspected as ulhors or abottore of such slandere, it became the manifest duty of the community to ask simply and plainly of such whether they had any, and what, if any, connection with these slanders. If they were ianocently suspected, this metho would afford them an opportunity of declaring and confirming their innocence; if justly, it was right their guilt should ily-unfaithfulness—this is tho basest and most unhappy of all treasons. Thie must if possible be discovered, if knowu and felt to oxist. - Tho Wesleyan miu isters profess to be united in family und fraternal compact for the holiest of common purposee. The sanctity of their bond, and the surpassing importance of their charge would add, in their case, special emphasis to the necessity for de-teeting, and, if possible, putting an end to mutual suspicion and ecorot injury. Hence, in this case, the plain, eimple, manly, Christian course was to summous and interrogate the suspected parties in relation to their connection with the "Fly-Sheets." By such a proceedure the mility alone could suffer, while the the point of the po manly, Christian course was to summou rights of innocence and the claime of matical at the ngitation meetings, and muthal confidence would be vindicated. in the weakly organ, of the expelled. whols spirit and pervading methods of Weslsyan Methodiem, in overy part of which mntual interrogation is the basis. The higote of congregationalism, whose

whele spirit and pervading methods of Wesleyan Methodiem, in overy part of which mutual interrogation is tho basic and guarantee of mutual confidence. The ministore examined were five besides Mr. Everett. Meesrs. Everett, Dunn, Griffith, and Bromley were everally interrogated by the Conference of 45, of which the pious and venerable Thomas Jackson, theological professor at Richmund Institution, and author of the lives of Goodwin, Watson, and O. Wesley, was the president, as to their traveledge of the authorshlp of the "Fly-Sheets." They all refused to give any answer. Mr. Bromley, however, privately declared hie infoconce of all connecticus with them, and before the committee on his case, promised for the future to abstain from agitation in his olicult as to his peculiar ecolesiastical view. This pledge, it should be underted to Lasp. The pledge, it should be underted to Lasp. The pledge, it should be underted to Lasp. The other three containing the co

work of the process o Dunn and Mr. Griffith, as well as Mr. in reference to a movement such as the Bromley, had been previously more than a gitation has been and is a movement once the subject of judicial laquiry and the original sin of which has been so censure on the part of the counexional exasperated and aggravated by actual courts. Mr. Everett had been too close transgression, and which seems to be censure on the part of the counexional exasperated and aggravated by actual.

Ar. Everett had been too close transgression, and which seems to be one to discount to wary to afford material for a formal accusation and trial. Had the entirely out of the question: That westley are complimented himself for his meeting I am invited to attend, and yen some to support to support at support is placed to be examinated by actual.

Wesleyan Conference possessed the meeting I am invited to attend, and yen support is placed to be or can be of the discount of the past of his meeting I am invited to attend, and yen support is placed to be or can be of the discount of the past of his meeting I am invited to attend and yen or complimented himself for his meeting I am invited to attend and yen or complimented himself for his meeting I am invited to attend and yen or complimented himself for his past of the support is placed to be or can be of the duty in ministers of the material to be examinated by actual.

When again the charms they may derive from novel and surprice of the meeting I am invited to attend and part of the control o power to subpoena witnesses to attend and give evidence of the whole truth, fortnight afterwards, the Conference as-

> From the expulsion of these three the following years. These three immediately became indefatigable and able travelers and orators. Mr. Bromley returned to his circuit, Bath, pledged to "abstain from agitation," and "peaceably" to fulfil his duties; but not a month had clapsed before he had compared to condicate any plant his data. meaced to sow discord and play his old game in private, and not three months before he appeared on the platform of a large public meeting as the friend and partisan of the expelled. Then followed a series of most disingennous and injutile Church property, for the benefit of rious letters in the public prints—issued poor parishes and half-starved elergy. contemporaneously with the visit of the men. On Friday next, Sir B. Hall is President to Bath, to hold a constitutional meeting for explanation and mintional meeting for explanation and mutual assurance. As a matter of course, and only too late, Mr. Bremley was brought to trial for these proceedings. Upon this he reject of the tribunal, and refused to take here in Whereupon he was necessarily such ad till Conference, and by Conference was finally put away. Since that thing he has been one of the most malignant, if not the most effective of our agitators. Thus years of blind and easy forbearance with

50-'51 there have been four

long before.

Hannahs, the Newtons, the Fowlers, the Arthurs, the Ratteuburgs, the Barretts | the House of Commons. of our connectiou—men whose reputa-tion would have been pronounced to be tion would have been pronounced to be beyond the reach of envy and malice-have been, no less than the Buntings and Benbaus of our permanent executive, the objects of their calumny, shall not, he removed. Mr. Paxten, its tive, the objects has been too miserahle, nor any spiritual wickedness too gross, to be attributed to them. Per it to perminent account. He would sonal calumny and invective alone would have it—he always in his own mind not, however, have been sufficient basis projected that it should be—retained be discovered. Domestic treason—fam sonal calumny and invective alone would upou which to reet the operations of a continuous and effective agitation. Ac cordingly, popular rights, after a time, began to be the cry—and Everett, the caustic satirist of "lay rule," and Dunn, the most rigid of ministerial torics in the whole connexion, condescended to lead an agitation on behalf of the "righte of the people." The essential church-rights of all private Christians. universal suffrago in spiritual commus uities, the absurdity and intolerable uesin the weakly organ, of the expelled In fact thie plan is comformable to the These were the popular topics which

shall receive, some account of it. A there can be no doubt that Mr. Everett's sembles at Newcastle, and in the intealso, they will form an important subjeot iu my correspondence:

D'AUBIGNE. The Metropolitan Church Reform Association has addressed a letter of explanation, apology and sympathy to Dr. Merle D'Aubigue in reference to his late treatment by the High-Church

preserving the fairy fabric, and turning for ornament and use as a grand conservatory, cuclosing twenty acres of grass-plot and walks, where every temperature except that of the frigid zone should be found, and the untural productions of every elime.

. JR ELAND. According to the census just completed, the entire increase of population in the British Isles, during the last decennium, has been 600,000, the lose up on Iroland having been about 1,500,000 Emigration and famino have told fearfully on Ireland, the population of which is not at this moment greater than it was thirty or forty years ugo. Meautime, the United States absorb the greater proportion of the emigrant population of these islands, and seem as if they were prepared to absorb more and mere indefinitely.

I say justice, for so the Scriptures speak, and I most strenuously deny that

aims. For who ever supposed that when any one had lahored for them all day it who watched over his property, and course of conspiracy and dark dealing rim the preparatory committee will rational man set down to the score of would have been laid open and barred meet. As I shall be present at these ahus what he gave to the instructor who taught him music or French?
"Nor will that Christian, who employ

au unbiased understanding on the sub jeel, assign the contribution to the ministry to any other class of expense than the payment of just debts-recompense

given for services performed. The question arises, what sum is ne eessary to answer the ends of justice? To determine this we must compare the services of ministers with those of others who benefit society by their tulents and their toils. Mental services are adjudged qualities of our nature, and are more difficult to be procured than mere muscular force. If, then, the recompense others, whose intellect bonefits their

demand the loftiest talent. They are in erdernever satisfied without such powers in the pulpit as would, in uny other place, of the church. justice?

quire that, if a man is placed in a certain rank in society, ho should be enabled to support himself and hie family in such a way as will permit him to mingle with persons of that rank, without exciting, in their uniuds or his own, reflections on his poverty? Yet there are some persons who would be shocked at the appearance of degradation in their minister or his family, while the slightest reflection him to spare their feelings of his own.

Is this justice?
If others think it the duty of good husbands and fathers to provide for their ter, who is equally subject to mortality, be a husband and a father as tender and faithful as any of his flock? Most read ily I admit that this care for a temporal futurity is often carried to guilty extreiues, trom which a minister should staud afar off The same duty, however, lies upon his hoarers. Covetousness and worldly care are sins in them as well as in him. And, if there is any degree in which it is lawful for a Christiau to provide for those who are dear to him, in the event of his death, in that degree it is lawful for a minister. Yet, how few are the preachers of the Gospel who can, from the income of their ministry, provide both for their family while they live and for the widow and orphan they may leave at death! That our income ceases at our death is well known ; and with him that had a claim in equity for himself, and the wife of his becom, and the children of his caro? Is this justice? who will call them to answer for their at too early an aga, and with too scanty. Christians declare, with equal truth sin when paster and people shall be provious preparation. They show howard warmth, thut the ministry se de- judged at his bar. and warmth, that the ministry so de-mands the whole man that no employ-I am not ignorant of the wretched fuent will less admit of a divided hoart; they are quick-sighted to perceive when a minister gives but a moiety of his powere to their odification, and yet they leave him to be distracted by all the solicitudes attendant on a straightened

powere to their odification, and yet they leave him to be distracted by all the solicitudes attendant on a straightened income. Ie this justice?

A minister's salary is often an inadoquate that, unless he could work miraleles to multiply the losves and the fishes, they will not hold out; if ho is not a man of criminal insensibility to the claims of justice, he must be distracted with solicitude to devise the wuys and means to meet his creditors; or ho must employ the larger part of his time in secular labor for his support. His hearters have been better under the oreatures of claims of instance in the price of increasing your own danger in the price of increasing your own danger in the two danger in the stating that nothing could be more attained to the claims of the security from the snakes of wealth, at the price of increasing your own danger in the snakes of wealth, at the price of increasing your own danger in the snakes of wealth, at the price of increasing your own stating the very last disease in aucieut languages, since they have been under the claeses in aucieut languages, since they have been under the management of Prefeeor Holcombe, they take pleasure in stating that nothing could be more attained to the snakes of wealth, at the price of increasing your own sull by adding to your own soul by adding to your that they unward from him? And have you sincerely risen to that they unward wealth all that you withhold from him? And have you sincerely risen to that elaeses in aucieut languages, since they have been that under the order was the profecor Holcombe, they take pleasure the disease in aucieut languages, since they have been under the claese in aucieut languages, and the claeses in aucieut languages, since they have been that you would be they been that unthing claese in aucieut languages, since they have been that they been that you would be attained to the claeses in aucieut languages, laye been that unthing the prefecor Holcombe, they take pleasure the laye been that unthing claese in aucieut lan

charities, because he paid the steward provided for by you, and that it should and these demand money. But I-have who watched over his property, and he your duty only to provide for them unhappily known a line mind, athirst so scautily as to make it impossible fer for information, who would have poured them to do more than pay the debis: forth the treasures he might have ac-

to hospitality," that they may entertain | would have farnished, and which a genthe strangers, who will often apply to crous people would have afforded, and the paster as to a common public triend? doomed to chastise their covotousness Have not they, therefore, mistaken their duty who think they make up the minister's support hy inviting him often to their table? Can they have studied (To be continued.) that Bible that commands a minister to have a hospitable table of his own?' In consistency with this injunction, Paul To the Board of Trustees and Vistheir toils. Meutal services ure adjudged teaches Timothy by what principles a worthy of a higher recompense than their choice and treatment of a bishop they demand the exercise of the higher hy saying, "let the elders that rune was he counted worthy of double honor, especially they who labor in word and doctrine. For the Scripture saith, thou given to physiciaus; counsellors, and shalt not muzzle the mouth of the ox that treadeth out the corn; and the lafellow-men, be the standard, I ask horer is worthy of his reward." A nig-

3. To promote the highest Interests

a fortune by the habits of reflection, in-dustry, fringality, and integrity, which this life, that he may please him that . The Senior Class was oxamined in highly trusted of the brethren, it became highly trusted of the brethren, it became the dissord have been worthy of the origin adulty to demand the authors of such securisations, and insinuations to stand forth like men, if they had aught to say against any; and, that upon their omissions to do, the secret slanders being so to do, the secret slanders being so to do, the secret slanders being so to do, the secret slanders being showed that the most intention to ferce his way into the house and take his secure. Mr. S. talked boblly in the hus life, that he may please min that the senior class was examined in the dissord have been worthy of the origin for them second dissord have been worthy of the origin to determine for the hus life, that he may please in that the senior class was examined in the senior class was examined to the discord have been way in the senior class was examined in the senior class was exami isters should be supported free from | nud interest around what is usually so worldly labors, in order that you might dry aud uninteresting.

In the department of Moral Science, attention, and their utmost elasticity of mind. And when there are several hundreds of persons cellected in one omy aud Moral Philosophy. The in-Christian seciety, it is manifestly to their highest interest to determine to maintain their minister entirely free from all temporal cares and pursuits, eieucy of the students will compare fathat they may enjoy the fall benefit of vorably with that of the oldest institutions in this course. The course is might convince them that they had never that they may enjoy the fall benefit of vorably with that of the oldest institucourributed that which should enable his tune, his talcuts his thoughts, his tions in the country. The course in heart. But when the support they this department appears to the Com-allow is so scanty that he cannot live mittee to be more full than they have without adding to his income the profits ever observed before, and consists of of some secular employment; or when, these studies which have a practical widows and orphaus, should not a minis. in attempting to avoid that which he tearns upon the etudents' career in ter. who is conally subject to nortality, fears will eat out the heart of the min. life. In the department of Mathematical states and or the states are the states and or the states are the stat fears will cat out the heart of the minister, he is so entangled with the difficulies, this clase was examined in Astronoties of making his pittanee hold out, and my, and exhibited proof of strict discities of making his pittance hold out, and keeping the well from the door, that he is haunted with anxious cares, they cannot possibly receive the full heuelit of his labors, but are robbed of the pleasure and the profit they might have derived from the unobstructed spring of his mind, and the generous flow of his soul. In worldly professions men are canabled to rise superior to this pressure by the direct hope that professional exertiens will extricate them from pecuniary embarrassmente. But wo to the the pastor and the flock where the fires of the pulpit are of thut unhallowed kind that are kindled by the mercenary desire. of the pulpit are of that unhallowed kind that are kindled by the mercenary desire of earning a system of the committee. desire of earning a morsel of bread. The church, therefore, is left without should they be east upon the charity of remedy; and it the evil arise from want the churches who have been identified of inclination, rather than ability to sup-

> apologies that are sometimes urged. It is dangerous for a minister to he rich!
>
> And is it use for the hearers too? And are you not afraid of increasing the haz-

it comes under the head of charity, or erty nor rioting in wealth

> For the N. O. Christian Advant The Higher Law.

In an article under this head the Saturday Evening Post, of the 21st ult.,

has the following: "Governor Hubbard, of Maine, ln hls vass overy measure of government, and by argument, by invoctive, by ridiculate render it odlous, if he can, to the power who may modify or ahrogate it at their pleasure. But when he goes one step further, and claims the right to determine for himself whether he will obey the law, or resist its execution, he claims that which no government can concede and exist."

Upon this correct and sound republican sentimont the Post makes a severe erlticism, in which opinions are advanced differing nothing from the most fanatical estimates held concerning the "higher law" by the ultra abolitionists of New England. Any person who will sorutinize the article of the Pest will become satisfied that the conductors of that press either approve the principles held by the nullifiers of the fugitive slave liw, or that this editorial was thrown Post, to consider the propriety of fostering a print which, with the ability, has the disposition to prejudice the interests of the Southern people by giving countenanch and encouragement to the existing hostility to the peace measures of the lost Converses.

the late Congress—to a spirit of mess which finds no terminus in the struction of Southern interest, but which extends to the total subversion of all social order. The Post sneeringly inquires wh

opinion that "every man must deter-inly for himself." This genuine spirit of insubordination to all government is referred, by the Pest to the right of "private judgment." I would respect-fully ask what necessary connection ex-ists between the right of private judg-ment and violent resistance, or, as the Post recommends, "active disobadience" to the law of the land. Governer Hub-berd not only admits the right of pribard not only admits the right of private judgment, but goes the whole republican limit of action proper in such a case. The opposition may freely canvass, and by all the means over resorted to, short of brute force, they may indu demauded. What mere than this eou be elaimed by any whn regard the vali of civil order? It comprehends all the over has been conceded by the most li

cerning obedience to the "powers be." They ask "shall we obey me In regard to this class, it is proper to say that their inetructors labored under peculiar dicadvantages from the fact that some of the class entered College at too early an age, and with too scanty provious preparation. They show, however, marks of strict and thorough teaching, and great praise belongs to the Professors of Mathematics and Ancient Languages of this account.

As this is the first time the Committee have had cocasion to examine the classes in aucieut languages, since they have been under the management of Prefescor Holcombe, they take pleasure in stating that uothing could be more eatisfactory than the evidence the classor shall we resist even "unto striving against the fisgrant is

> tiens to resist it at the pounty imprisonment and doath." respondence with Christla with well cutablished print

no disposition to prevoke discussion with the Post, or any of its kindred higher law" advocates. Much less see posed to see the people of the South Leir money for the dissemination ch sentiments. If the negro, Fred. Deuglass, or the Rev. Mr. Parker, of Boston, had published such an article as is this of the Post, no Sonthern man thought or cared any cause such phrensied fanal the South; but the Saturday Evening Poet has a wide circulation through all the Southern States, and with its hightetensions to decent morality, it thought to deserve its exten-tation. Yes, if I do not ever-the spirit of the Scathern peor law" article will meet c, and may lose the Pos outhern patronage as it could to gain by it from the North.

a Sonthern people have been libe-a fault in the newspaper patron-extended to the North, but it cannot be supposed that such a policy will be maintained towards declared enemics-July 18, 1851. North Louisiana.

\* NEW ORLEANS:

SATURDAY, AUGUST 9, 1851.

ortant to Methodist Literature.

We learn from our exchanges that J. T. Pook has resigned the Presisey of Dickinson College, Pa, Dr. G. F. Pierce has resigned that of Emory College, Ga., and Dr. W. H. Ellison that of the Weeleyan Female College, in Macon, Ga. Dr. Peck, in his letter signation, after stating that "his ses and usefulness" required the age, adds :

"I have been fourteen years diverted from what I have always believed to he my appropriate sphere of labor."

College alone in this frank confes-Twice seven years is a good long me for our great preachers to be out of their appropriate sphere of labor. Is it any wonder that while so many are so diverted from direct work in the seld, it should be overgrown with weeds and sadly broken dewn in its hedges. n years | Space enough for the to record these things: g up of many ohurches with pastoral labor, and for the wreok of many shes without it. While the Coleges over which these roverend gentlesen have presided with so much honor need net suffer by the change, we trust hat the itinerancy will be largely re-en-Their connection with Methedist literature will not thereby bo dissolved. We take it that Methodist literature is, par eminence, pulpit literature, camp meeting literature, circuit sching literature, quarterly conferliterature, revival literature.

# Camp Moetings.

The season of the year is now here en the comely tents of Israel are d out, at which many have exsimed." How beautiful ("

There are many people who say, "The days of Camp Meetings are gone; they have served their use in Methodism, V-bave done. great good for us, but their day ast Yes, and many people will may the same of Methodism itself. Put well, or better than any other. hodism in the above sentence in their oft repeated declarations. We hold still to both of them. Their mison is not yet accomplished.

Doubtless Camp Meetings have beer reatly abused. They have been, ln e instances, converted into religious sic-nice. A gay, thoughtless crowd werrun the solemn occasion, rather casting and reveling, than singing and praying. For this besetment those are m most to blame whe complain most the tent-holders. They spread out he honey that attracts these swarming sects of pride and vanity. Their enments are not simply wholesome, at luxurious. Their tables keep np a active competition with the pulpit, d the tempting comforts of their teuts the plain appointments of the shed are the Gospel is preached. It may nister to vanity to keep open doors popular resort, to ont-do their eighbora in this kind of disbut they lack moral conrage; by lack self-donial. In the end, an cated by them they are unable to bear. It soon becomes so expensive to tent, that they feel like declining it. da. It is undoubtedly a true picture, se the contemplated Camp

his reason the early history ands is generally their heat ry. Assemmodationa are comparrade and minviting : the public d is not divorted from secred serea. But soon the fac tent and ele-at factures are made, and then every ve than the centre. Nothing ar prescher will draw out a conon. Lostering crowds skirt the n plain in the way they de it, entiously adhered to, will effect much. A

few leading characters setting their faces against all fashlenable dissipation lounging about tent-doors in preaching hours, strolling in Idle companies over the ground-will put an end to it. Theu Camp Meetings will at once return to their primitive simplicity and power.

Perhaps another objection grows cut of the naduo collection of preachers sometimes present: se that they are in each others way. The P. Elder, in Camp Meetings to cost too much to ter they are the cheapest means of grace

from them, Prepare yourselves for them, brothren, and be sure, in this outward preparation, to include a copy of the "Sengs of Zion." The religious association of these precious meetings is worth too much to our Church to be abandoned. They are the only vestige

of field meaching that now remains among us as a people. In them a fine opportunity is offered for the display of ome of the peculiarly aggressive qualities of Gospel Methedism: a glorious field for its full, free, untrammeled, powerful action. It is the point of closest pentact with the great, mixed multitude; the plain where the cavalry strength of our Church may operate to greatest advantage. The powers of darkuess have suffered many memerable defeats there, and lost a hundred battles where they have gained a victory.

We trust that the Camp Meetings of the present fall, throughout the South and Southwest, may be more numerous than usual, and their success in saving souls abundant. " Happy shall we be

How TO ORTAIN SUBSCRIUERS - Rev. . Bayley writes in the R. U. Advocate of last week :

" Not a Bad Idea .- I think that the prohability of chtaining a favor is ineressed when we seek it from one who has just partaken of a good dinner. I took the liberty again to ask for his name, and succeeded."

Now we hope some of our enterprising friends will try this, and send us in, forthwith, a large number of sub-

## Circulation in Arkansas; Bro: McTyeire-We of Southern Ar-

kansas have heard of the Orleans Christian Advocate, and many of our Methodists are very desirous of having an opportunity of getting it. It was thought at our Conference that a branch of cur Advocate family, located at New Ofleans, would suit the feelings and in- Rev. Mr. Foster, of the Alabama Couterests of a portion of our people as I am ofton asked the question, why we do not place of Camp Meetings, and it will have the Orleans paper circulated here?

I am often asked, also, what are the diread their thoughts exactly, and express mensions, price, ote., and I am of opiuion, if you will send your paper to me have heard, but few have equalled it.

The above proved in the control of this sermen I have heard, but few have equalled it. of its kind that has been received from our friends in Arkansas. We reply to Bro. McC., that our desire and purpose is to get the N. O. Advocate into the hauds of every member of his Conference; but the difficulty of ascertaining post-offices is almost insufferable, iu a majority of oases. Will the Presiding Elders be so kind as to forward us a list of all preachers in their districts not in receipt of the Orleans Advocate? Will any of the preachers do it? We shall be much obliged to thom. Our circulation, we are glad to say, is enlarging in that Conference, but we wish it to grow faster.

> ANOTHER TESTIMONY .- A correspon dent of the New York Ohserver, probably a Presbyterian minister, is giving an account of a recent trip from St. Louis to the East, via Detroit. While at the latter point, he makes the following statement in regard to the fugitive and that many of them are far worse off than when they were slaves:

"The whole of that part of Canada discent to Detroit seems to be infested with fugitive slaves. From all I could learn, they are a thriftless and discontented class, and not a few of them in actual auffering, and most of them worsted by their exchange from "slavery" to "freedom."

NEW COTTON .- R. M. Ellis & Co. ecceived on Tuesday, hy the Fusilier, a Texas packet, a bale of new octton, grown on the plantation of A. Fitzpatrick, Gonzales county, Texas. The cettou was baled 22d July

For the N. O., Chapting Allvoor The Macon (MI.) Institute.

Attached to it are "small sets of literary degrees on such young ladies as may be found "worthy and well qualified." work elsewhere is neglected. It is pessible for gold to be too dear, and for sophical, astronomical—and many other list, as subscribers, every Methodist in school appurtenances, which greatly fathe Church. But in their true characillustration."

In the winter of 1849-'50, the pupils of their kind; and when cheapest, hest brgan the formation of a library, which highly great. And for aught I know Give up Camp Meetings? We will has incressed to a respectable size. but not say never; but we do say, not yet, which is not perfected. Any centribution, therefore, made by the friends of Every yesr, when properly conducted, literature, would meet with a mest we hear of great and blessed results grateful appreciation by the faculty and you some interesting revival intelligence students. The

HOARD OF INSTRUCTION

cousists of W. R. Peiudexter, as principal, a gentleman of fine schelarship, and wedded to his profession, and the ladies, well qualified for the departments filled by them. There is also a German prefessor-of vocal and instrumental music associated with the school The

COURSE OF STUDY is arranged into three departments juvenile, middle and senior. In the first there are two grades, two in the second, or middle, while the third, or course of instruction, as the studies speeified in the annual catalogue apprepri-

ated to each grade, is mest happily

adapted to the culture of the mind, and

the development of thought.

It divides all science into metaphysi cal and physical. The first includes in tellectual philosophy, ethics and theel-ogy. The second embraces natural phiosophy, chemistry and natural history. Natural history is divided into hotany zoology and mineralogy. Mr. Poindex ter's plan is to mingle mathematics with not only every department, but every grado and class in the three general de partments, and in this respect affords a most thorough training to the pupils.

COLLEGIATE HONORS,

which the Board of Trustees are authorized, by their charter, to bestew, are not secured by a pupil spending a spe cific number of years in the Institution.
It is a reward attained only by merit recollect that after having frequently by a thorough and satisfactory know tried in vain to persuade a worthy brother to hecome a subscriber, I thought of this, and went to dice with him.

Just after leaving the table, observing a pleasant smile on his countenance, I histories of Languages, and M. A., Mistress of Languages, and M. A., Mistress of Arts. Mistress of Languages; and M. A. Mistress of Arts, The

DUILDING of the Institute, when completed, which will be the case in a few months-say against the opening of the next sessionwill consist of a two-story edifice, in the form of an E, measuring one hundred and twenty feet in front, with two wings sixty feet long, and having in all twenty four rooms. There will be room oneugh for the accommodation of from two to three hundred pupils; while the building itself will present a mest imposing appearance.

THE COMMENCEMENT SERVE on Sabbath morning, was preached by

ference. His subject was the Superiority and absorbing nature of a knowledge of Christ. Mr. Foster, although a young man, promises extensive useful-ness to the Church. Of this sermon I The above extract is not the only one | tees a copy for publication, so that your readers will perhaps have your own opinion of it before long.

.- THE ANNIVERSARY ADDRESS was delivered by Rov. Dr. Neely, of Columbus, Miss, on The True Philosophy of Life. The reverend gontleman gave; in the first place, a view of the nature of life, and then proceeded to present the leading ends for which life given. It is to be heped that his carnest appeals to the young, for a wise improvement of their being, and for a neble consecration of it to God, and to the cause of humanity, will not soon be

The exercises closed last night, (Tuesday, July 29,) with a

COLLOQUY, by some twenty or more of the young ladics, in which was represented a Wo man's Rights Convention. The meeting was regularly organized, the various evils of the weaker sex were flippantly discussed, a number of resolutions of-fered and adepted, amid real femiuine uproariousness, and, finally, an adjournment of the Convention until next July. It was a fine earicature upon certain Northern female aspirants for the brecehes, and afforded a rare entertainment to an immeuse audience. I hope you will attend their next Couvention, and promise you, if you do, the enjeyment of a hearty laugh.

My paper is nearly out. I will conby saying to your aders who havo daughters to educate, that the Macon Female Collegiate Institute has no superior in the circle of my knowledge. July, 1851. T. M. P.

# For the N. O. Ohristian Adversate Texas Correspondence.

Mr. Editor-I have recently traveled from Houston, Toxas, to Sheeveport, La., as well as through some of the counties on either side of the route. I have met frequently on my journey your be encountered and endured, and even excellent Journal. We have two relivery tribulation follows ou; but the pro-

editor of one of our relinals I presume you are de and on figure 1 filled to the accomplished so let it fly.

Edward F. Thwing, P. C. talented Rev. C. Richardson, A. for the last three days, in attending the College. I am glad to find that you are obtaining a considerable circulation in Texas, as well as in the adjoining Parishes of Louisiana. I trust the time is not far distant when every Meth list, as subscribers, every Methodist in Louisiana and Texas, whose names are en the class books, and who do net now receive any religious paper, the accession to your number would be astonish the properties of delinquents among other deneminations might be as great. Ought these things so to be?

from "Prairiedom ;" but I regret that I have nene such at command. It is pleasing, however, to state the various evangelical denominations in Texas abpear to be laboring with a good degree of harmony and leve. I trust the influences of Christianity are steadily, though slawly gaining a hold upon the public mind. A good deal of interest is manifested on the subject of common inches! school education. Perhaps more has already been dene in the Sunday Schoel cause, iu Texas, within the last five years, than in any of the other Southwestern States. The whole counsecond, or initiate, while the third, of senior department, is divided into five try, frem the Sabine to the Rio Grande high classes. This division of the inclusive, has been dotted over with Sunday Schools-soure organized, thre' the ageucy of the A. S. S. Union; and seme by ministers of various denominations.

The Bible cause is prespering. efficient agents of the American Bible Seciety are successfully laboring in the State. The Missienaries in the Valley of the Rio Grande are succeeding well The electioneering campaign is pass ing off quietly-but little excitement exists in regard to politics. Our crops have suffered much from rain. General health provails throughout the country dant. Yours, truly,

Elysion Fields, July 20, 1851.

# For the N. O. Christlan Advocate.

Mr. Editor-The subject upon which desire to address the Church, (I mean that perlion within the bounds of th Georgia, Alabama, Tennessee, Memphis and Mississippi Annual Conferences,) is the great deficiency of preachers in the East Texas Conference. Perhaos no Conference is so destitute of Ituliant help as the East Texas. Until within a few years we have been able to supply, to some extent, mest of the older settled portions of East Texas; but for the last three years such has been the countless number of emigrants frem the above mentioned Conferences, (I mean Methodists as well as others,) that we cauuet supply the people any longer. They have formed uew counties, new neighborhoods, cleared out new roads, and invited the preacher; but he replies, "My field is already teo large for me." Now I think we have claims on Now I think we have claims on the older Conferences that cannot be the older Conferences that cannot be resisted. Locking ever the list of structure of Gethic order in this city, preachers stationed the last Conference, called the Chapel of St. Mark, on St. I find thirty seven preachers to be the Mark's day, vulgarly the sixteenth of number and strength of the East Texas July. The Bishop was neither high I find thirty-seven preachers to be the Conference. What a field, white already unto the harvest, lies out before this handful of men? If they were not the mest sacrificing and laborious iu the world, I ask what would become of the sheep scattered over this large pas-ture? We want help. Come over and help us. To this subject I call the special attention of the Presiding Elders upon districts in the above named 'Conferences. Brethren, you travel over a large tract of country, and see a great many men, and have a good chance to send us help. Cannot caeli Presiding Elder, for the year 1851, send us oue

preacher, if ne more? I meau, per-suade them to come to East Toxas Conference. I have not the appointments of the preachers fer the Geergia Cenference, but I know they have a host, aud think they can spare some. The Tennessee Couference, for the last confereuce year, stations 131; Memphis 107, Alabama 118, Mississippi 68. Now, out of this host of Sampsons, cannot we get some men who knew how te tie fox's tails tegether, se as to burn up

the enemies corn? New, if each P. E. will put his shouldor to the wheel during this year, they can do much towards helping us. I will make a direct appeal to the P. Elders in the Mississippi Conference, as I am well acquainted with them. What

you have any men you want to spare, wo do not want them-that is, if you de uot-want them, we do not want them. Again, if you have men you have difficulty with every Conference, we do not want them; if you can spare men who cannot stand Missionary fare, we do not want them. We want men full of faith and the Holy Ghest—a good man and true, if he is not so talented. Send him

Rusk county, Texes, July 10.

and on probation. This is good news,

Bultimore, July 20, 1851.

East Tenus Conf. , July 8, 1851.

# Traveling Correspondence,

My Dear Friend-The Washington My Dear Friend-Menument, in Washington city, is advancing slewly, but constantly. A work flat in the days of Archimedes would have excited a kingdom and required a theusand men, eccupies some twenty hands and a steam engine. The ongine dues the heisting and the sawing the polishing, while the men do the blocking and setting; and between tho two, the work moves on as quietly as in building a meeting-house. ment is a hellew square marble shaft, of beautiful proportions for the intended height, five hundred feet; it is some fifty feet high at present. The thick ness of the walls is from twelve to fifteen feet. It is upon the inner face of the walls that the various stones are latd which States and societies and individuals have contributed; so that the outer face is smeeth and white, and an unbreken polished surface. Ne ene can question the practicability of raising it to the immense height centemplated,

ger part of it is built and eccupied. It and Stuart's, in Laudordalo county is of red sandstone. The forther translation and Stuart's are sulphur.; is of red sandstone. The effort was to Ligeu's and Baily's are seline. All of unke no two parts alike. It is an ir these are regarded as highly valuable, regular pile of Grecian, Roman, Gothic, Moerish and Saracenic; and ne plus at present, more popular favor than the ultra architecture. All architecture sulphur. Many remarkable coases of ultra architecture. All architecture that costs more than it comes te is a painful architecture, at least to an American. The Institute has been a long time getting ready to do something worthy of the ueble intentions of its founder. By the present arrangement, that noble gift te the United State is confined mainly to the city of Washington. The lecture room is capable of holding not over five hundred persons! Sup-The fecture room is capable of nothing not ever five hundred persons! Suppose that the income of the Smithsonian fund were used as prizes for essays on self well done for if he can got a blanscience, literary productions, for discoveries of stated desiderata—in w word, employed as the Duke of Bridgewater bequeathed some few theusand guineas, and thereby gave the world the celebra sacred to Asculapius, or his reputed and thereby gave the world the celebrated Bridgewater Trestises. Such a disposition of the meney would be felt every where; and the Institute would be followery where; and the Institute would be a source of public congratulation, if it shall prove be the centre of the scientific and lite true that Telesphorus has also au altar

The Patent Office no deubt holds n thonsand notions mere than when I last assigns him. visited it, in 46; but I saw no change They are putting up a beautiful murble wing to the building.

I found in the office of the Interior a.

Methodist preacher, an eld school-boy acquaintance. Poer fellow! bad health has driven him to these desks for a liveliheed. I grieved to see se pelished a shaft no longer available to the Church. By-the by, I saw one or two hearty

lecking men there; whe were traveling Methodist preachers.

The Baltimore Conference has a good place in Washington, somewhere among tho departments, for laying away snugly such craft as may be more er less damaged; I think she has there at least feur who retain health eneugh to vote in Conference. Some forty Methodist preadfers, local and itineraut, are there

I lieard part of a discourse from Bishop Whittingham, of Maryland dieeese, upon the eccasion of the censecra-tion of a little, rough, jail-looking stone structure of Gathia order in this city ner low, I remember, some ten years siuce, when they were electing a Bishop. Some said he was high church; others preved that he was any thing else. He is high enough by this time. He fliugs such awful sanetity all about his office, and the priestheod generally, and about ordinances, attitudes and edifices, and keeps up such an ado about "the fathers," and the Church, and has se much service, morning prayers and evening prayers, and preaches in such "tract like, mysterious, doublé-and twisted, nen committal, evangelical straius, that plain men, whe have felt the ordinary evidences of Christianity, and have had experimental knewledge of God, are quite overwhelmed, and wonder where n the world this thing has been all the time, that they never heard of it before, unless among Catholics.

His text was, "Aud I saw uo temple

theroiu." A state of thiogs that is to be. "Ne templo;" how strange that a glorious condition yet to be experienced, a state of heaven, should be assumed as already the condition of the Church! The absurdity of this view proves, the Bishop argued, that more temples are necessary. Ho that worships Ged in a church has one chance more, some mere elaim," aud has "one more assurance" that Ged will hear him, than he has am well acquainted with them. What say you, Bros. Drake, Harris, Lane, Wiggins, Walton, Campbell and Pearce, to sending us help?

One werd, just here, in relation to One werd, just here, in relation to the sending the best of the sending the best of the sending the best of the sending the send whe werships elsewhere or out of deers. tiuguish and classify them, and more much ado about the order of architectho number of those is small, who are ture, for I believe that they require that; too, to be of the true succession. By-the-by, the whole world, this way, is gone crazy about "the Gothic." Every thing is Gothic—kitchens, chickencops and dog-kenuels. You cant take a walk out in the garden without heing assailed with the revived barbarism it is, hew great seever may be the pro-And such Gethic as it is! Such vast vocation. It becomes every pious and designs, and such poor parts—white pute and stucoo, for oak and granite— like a toy-lien—head and many granite— whose who have gone before us the most

I dined the other day with one of the under gracious rovival influence. In Bishop's young curates. He did not the pleased to find that the coal the early part of the year much had to account me worthy, in his prosence, to

the work still going on. I think about say he does not often offer better fare

oft home with my family for this place ntending to leave them here until my cturn from South Alabama. We have hroo springs—two sulphur, one chaly-conte—owned by Mr. Murdock, and boate—owned by Mr. Murdock, and visited extensively through the summer months. The sulphur waters have been carefully analyzed, and are regarded as very beneficial to porsons afflicted with dyspepsia, serofula, etc., or laboring un-der general debility. The houses are comfortable, the fare sufficiently good. You will not object to a word or two concerning the mineral springs of this section. In the counties of Franklin

and Lauderdale, there cannot be less than one hundred mineral springs—the most of them having iron as the chief ingredient; but many of them contain- driven ontirely from his old he ng sulphur and various salts. Of the stopped, going down and returning chalybeate springs, I regard the one sit-uated three miles from La Grange, and known as Frost's spring, as valuable in its modicinal effects as any I am ac-quainted with this is, however, visitd by only th to the immense height contemplated, nor the strength and durability of the structure, after seeing the work and the material.

The Smithsonian Institute, that is the building is unminished, but the larger part of it is build and seeing and Stuart's, in Lauderdale county, the school fund, without chestians and Stuart's, in Lauderdale county, the school fund, without chestians and stuart's, in Lauderdale county, the school fund, without chestians and stuart's, in Lauderdale county, the school fund, without chestians and stuart's, in Lauderdale county, and stuart's, and stuart's, in Lauderdale county, and stuart's, and stuart's at these watering places, and finds as many convalescent worshippers as rumor

Tuesday, July 8 - I left the Springs for Summerfield, passing through Russclville, Tuscalcesa and Marien, and reaching Col. Baker's, in the neighborhood of the Institute, Saturday evening I remainer out days at Summerfield, witnesting the examinations, oncerts; a coner public exhibitions of this excellent Institution, and anding truly a home in the kind, aminufer and losophy of Preverbs, by an American. Baker

Thursday Morning, 17th Bidding farewell-to the friends whose home I had shared, and whose kindness I shall never forget, I returned to this place, which I reached on the evening of the 22d. 1 desire now to put on record some account of what I saw and heard

The road I traveled is well supplied with stones, hills, gullies, and about as Surli writers as Drs. Parsons, Longstreet, Lonely as a hermit could desire. I allude here, of course, to the read through a specimen of their gold and purpla. As acress the country, and a pertion of it being deserted by these masters of roads awaiss h, a large circulation. and bridges, the county commissioners.

It is well calculated to try a buggy's wheels and the rider's patience.

Pottraiture and Pencillings of Mrs. L.A. L. D. L. D.

. The dry weather and politics were the chief subjects of conversation and boxed muslin, it will be sold at \$1. It but interest on the road. The want of rain is great and extensive—the corn crop especially is suffering, and I do not sup-pose that more than half the usual quantity will be gathered in many places. The drouth is most sovero from Tusoaloosa northwards, fer fifty miles. There no crep will be gathered in somo places; and se severe is the dreuth, that the forest trees have died, fully eue half, presenting a most gloomy and desolate appearance, and exciting sad reflections in the mind of the thought- and inclancinly interest to our readers in ful, lonely traveler. Corn is already and vicinity, from their local atiusions. scarce from the short crops of the last
Six is Annual Report of the Michonary Society
M. E. Church, South: 1851. bushel during the past winter and spring, and the present summer. It willanot be surprising if corn shall bear a much higher price the next winter, should it be possible to obtain it at all.

The political oanvass of this State is producing intense excitement, and for the first time in the history of the State the value of the Union is made a political question. Secessionists and Resistance men and Union men, of various shades and parties, are so comingled, that a locker-on finds it difficult to disnot trying to cut and trim their sails to the popular breeze. The sentiment of Union is deep scated in the minds and eus precipice-dangerous, I say, for so What so poor as "poor precious legacy ever transmitted to a people, and we should not sacrifice it without great and sufficient oauso.

# Obitnary Notice.

WM. GARRETT in no more. He died July 26, a faw mlautes ufter one e'clock, in great peace. He embraced religion at Plagah Camp Ground, with "Bloomera" on Sunday, two weeks since Some two hundred ladies were out in the new county, Tennessee, hr the year 1818. He ers was imirucied on the subject of salvation, through faith, by the venerable Philip Bluce, and The L. Douglass, for whom he eyer entertained censes have been issued by the County Clerk of Cincinnati, Ohio, during the year ending the first highest regard. He there attached himself to the M. E. Charch, and soon after was appointed a ward, which relation he austained more then hirly years, Heserved the Church first in Frankult, North Alabama, and then in Cadde Circuit, Loublana. At the former place the wriar of this brief oblinary became acquainted willing the deceased, near twonty-two years eince. He then was the active ateward of the circuit, to eighteen months; yet olioost every vesnel that comes from England is loaded with railroad iron. om the preachers looked for ald and counsel and to whom the other siewards lonked as the ma beary out the finances of the charge, provide a me for the minister, and attend the District river. It stands about as large as an ordinary warda' meeting. Once in a conversation ween Rev. Win. McMahan and Rev. James Mc rin, each of whom had preceded on the dia ties, they were lieard to say that as a sieward had never known the equal of Mr. Garrett. hathe fall of 1838, Brother Garrett emigrated rior of Louisiane, has now almost entirely disappeared. The only place where it is said to linge bia country. The following spring, Father Ste-biascountry. The following spring, Father Ste-phenous, the Mhalouavy, arrived at his house The soul of the deceased was full of joy. The two actions in the neighborhood were notified his some was opened for preaching, and so continued unit more ample accommodation was procured. As in former years, our lamented friend stood pre-sentient as a friend of the Church. As travelin Interdicting Foreign, Papers.—In Venezuela a decree has been issued by the Esceutiva Power and published is the official organ of the State, prohibiting the introduction into the country of all foreign newspapers or publications which are found intermediding in the additional state. nisions, many of us can hear witness to his ideass. To the slok in his neighborhood he was miling in his attention, to his friends kind, and to scripturely hospitable.

The loss to his family is irreparable, He ha eft a wife and nine, children, sis of whom are small; but they are left in pecuniary comforts. Halong tried friend, Ray. John C. Burruss, was Peacens when he was converted, was with him du-ling his sickness, whom he requested to preach his Mechanic's Institute in Baltimore, fell down with a tremendoue crash in the street, on the ovening o foneral sermon, and selected the text, 2 Timothy, th chapter, 6th, 7th and 8th verses. He praised God much daring his illness, fell asleep in Jesus and weat to his toward. The funeral aernion-wa presched yesterdey to a large concourse of friends presents yeneracy to a large content in appre-and neighbors, with long since learned in appre-clate bias. So lived and so died, our highly esteemed and much beloved Wm. Garrett. Y, on the 28th ult., five or, as notorious counter felters were caught, and \$12,000 or \$14,000 of their

ralaing of another capedition.

The Aloc.—This plant, which grows in abandance on the poorest solls in Florida, and attains an immenre size, has lately been discovered to be useful for manufacturing purposes. The St. Augustine Ancient City says: "A beautiful apaciment of a fishing-ling has been made from the fibres of the so-called century plant, which abounds here." It has the smoothness and lustre of silk, and great a prength, and is well adapted for cordage of every description." The subject of introducing its cultivation for cordage is well worth attention, Congress gives this right in express terms to the members of the Cougress until the first Monday in

have been subscribed, and the money paid down promptly. No doubt need be enterthioed for n toment as to the certainty of its speedy and sucessful completion.

The transportation of leaggage across the lethmus in rendered quite anfe and comparatively easy, and the charges reasonably moderate, by the nomerous houses engaged in that live of business.

The entire business interests of Panama have never been in u more thriving condition, except in times of extruordinary infles of travelers, than at

present.

Retern of the Chagres Party.—Senor Colume, and Colonel F. Amay, who went in search of the robbers of the Prest Blanco, of some they thou sand dollars, heve returned to the city after an ineffectual attempt to overtake them. They proceed-ad to Chagres, where they learned that Foster and Simpson had inade their escape by getting a pansage on heard the steamer Falron, which unfortu-nately lind sailed just before they errived. Of the the third man, Dupez, they heard nothing.

Sad Accident. - Frank Gardiner and James McBride, supposed to be from New Orleans, were drowned in the Chegren River on the 19th of July.

Mr. Garoner has left a wire and child in New Orleans, and had begue for some time a resident of California. They were passengers on the Felcon on the late trip to Chagree.

Chill.

The yield of the copper, gold and silver mines of Chill, is yearly increasing—her credit is at an excellent stand, Chillian 6 per cent. stock being at 104 or four per cent. premium in London, and the prosent government is roughly diminishing the for ign debt with which the stete has been encumbered since 1822. In commenting upon the recent electioneering campaign for President, who was to have been elected on the 25th of June, and to have been installed on the 18th of September, the anni-versary of their Declaration of Independance, the Mercantila Reporter (Valparaiso,) describes their system of government as follows:

Mercantila Reporter (Valparaiso,) describes their system of government as follows:

The President is assisted by four Ministers, who in conjunction with himself proposes, measures apparte ining to their different departments. The Legislative body comies of the Ulambers of Departies in proportion of one to every 20,000 Inhalitants; and the upper house or Camara de Sanadones, amounting to twenty in nurober, elected for nine years, one-third of their number being resolucted at the and of every three years. The Prosident is elected every five years and can only be reslected once.

Provious to the general elevium of members for the lower house, (Camara de Representantes,) the registry of voters takes place, before qualification committees named by the respective councils.

To become a voter, it is required, to be a chizen of unimpeached cheracter; to be twenty-five years of age if single; or twenty-nne if married, and to be able to see any second to the province of Sautlago and Valparaiso is 2000—or 10 feel setate to the amount of \$1000, or of an income ariging from capital invested in trade or some industrial pursuit, the emount of which for the Province of Sautlago and Valparaiso is 2000—or 10 feel in receipt of an annual income of not less than \$200 from trada or other industrial pursuits.

A foraigner attains the rights of a chizen after six years residence in the country, four years if married, and three years if married to a lana. Such is the constitution which, with all the fault hald to its charge, has given this happing to the province of the total pursuits.

Visitors to the World's Fair.—As nearly ar oan visitors to the World's Fair.—As nearly ar oan

Visitors to the World's Fair .- As nearly as oan he ascartained, not less than 5600 passengers have left Boaton, Philadelphia and New York since the 5th of Februery last, in packets and ateam vasaels, a larga proportion of whom are visitors to the London exhibition. About 4400 went is aleanabips and 1200 in packet ships. " 3

AURITAL OF THE STEAMSHIP CHEROKER. The steamer Chernker, Henry Windle, master,

The Cubana, on the other hand, from their pos

To the Spanish Army. Soldiers!—The moment has orrived when this precious (preciosa) part of the country which you inhabit has grinen to break at once the chains which bind it. Our brothers at Peerto Principe have preceded on in the noble enterprise of liberating the country, and a brilliant result crowned their first efforts. The Government finds first in nidesperain position, in want of resources, without sympathy, without confidence in liself, since many by your brethren at Puerto Principe have enlisted in the ranks of the patriote, nod fearing the next arrival of the valiant and powerful General Narciae Liopez.

atival of the valiant and powerful General Narciso Lopez.

Under these circumstances its defeat is certain, its destrection sere. If you take sides with this senguinary and corrupt Government, which without mercy hea torn you from your home in the flower of your youth, and brought you to Cibba to oppress your brothers, you will receive the same reward as those who, is its defence were sacrificed throughout the whole continent of America; if you escape from a death, almost certain, mercy and desperation will be your recumpense.

We, if you can to our ranks and contribute to the liberation of Cubb, will receive you as friends, as brothers, will treat you as freemen, and will reward you with interest for your services. Each solder from mong, you, who mey enlist on our

ward you with interest for your services: Eachsolder from mining you, who may enlist on our,
side, shall reveive a gratiny if twelve onneed of
gold end a portion (mac caballeria) of lund, as a lon
as the country, free from tyrants, shall recover by
tranquelity, and during the compaign he shall reooive the pay of five reales per day.

Soldiers! Choose between the two parties; in,
our ranks you will be free citigens, fighting in the
rause of humanity and progress. On the opp site
side you will be treated like beasts, willout consideration for your dignity as men. If after all youremain obstitute, and persist in your adhesion to
a Government which oppresses and degrades you,
if its justification promises seduce you in the field, we
will await you without fear or hesitation; het we
will await you without fear or hesitation; het we
will expect to shed our last drop of blood in defence of the holy cause of independence and the
Uherty of Cura.

NEW ORLEANS MARKETS OFFICE OF THE CHRISTIAN ADVOCATE, Belardey, Angust 9, 1851.

This past weak have been a period of exitience duliness in nearly all departments of business in out city, and the market has presented quits a desauted appearance during a great portion of the tisse. Segas, and Corn are the only articles which have met with sven-a modereta demand, and they have been active for one of two days only. Prices have, however, been firm for nearly every description of Western produces, Combeling the pilantipel saception, and several articles have advanced. Singer has good up light to with, and Tohacon has herosal full prices. Cotton has been further depressed

being the principed sacception, and saveral articles here and vanced. \*Buser has gand up 1819 \*Ko \*B\*, and Tobacco has brought fall prices. Cotton has been further depressed by onfavorable nines of the Liverpool merkat. We have received the accounts of the seement Niegare, Attentia and Europe, since our last weekly review, the first on Batudday, the second on Munday, and the last of Tuesday, each steamer uncessively reporting a further decline for most qualities, the quotation for first Ordens given the the Europa's accounts being 5½d. The next steamer due from Liverpool is the Africa, of Canard's Lune. Bis comes direct to New York, and her ecceunts may be expected hurs on Wedansday. The weather has been warm, with frequent salo during the week. The health of the city has been uninterrupted. The river is about three best three inches below high weets must. Cotton —The America's listers were recoved on Seinday morning, and the Nisaarn's eccounts (by isleareph) eppeared of the same times, the foreour esobracing Liverpool datas of this lath end the letter of the Bh Jody, end both containing further antevoreby naws of the Cotton mather. With an adult nortest followed, with a farther depression in the rates, the sales humming up barely 750 bales. On Missaka, factors were free sollers and e large business were done, fully 200 beles changing fishule at feelle prices. The demand was a than to dwith the day, lowevers, and or Theaday, Wednesday and Thurday togsther, only about 800 halas were sold, prices being viry brevalue, and adoiations nomited, though the nounter contact decline followed the receipt of the Europa's accounts. Yesterdey there was a limited decorated decline followed the tracety to the Europa's accounts.

should Automator Tree.—This remarkable mechanism, says the Herald, (England,) af a heathorn tree in full hloom, faithfully af a heathorn tree in full hloom, faithfully and of femi-perished bark on the

that the crop in this section will be The receet unperalleled dry weather has the forms to drop off.

The office Coupée Eche says: "After a week of exceedingly warm weather, the thermometer standing some times as high as 1000, we have been bleased with a delightful fall of rain, and there is avery appearance of its contianing for some time. Outlie we have been henefitted to a much greater degree; as it is, however, it will be of much service, particelarly to the case."

For the last three or four days (says the Minden Hersid) the weather has exhibited the appearance of Indian Summer, but we ere at a loss to know whether it is, smoke or dust.

From the Southern Sentinel we learn that in the Parish of Iberville some refreshing rains have fallee

From the Southern Sentinel we learn that in the Parish of Iberville some refreshing rains have fallee within the last ten days, hat the crops are still anfering lumensely from drought.

Texas.—The Texas Republicae, published in Marshel county, remarks that for fifteen years a drought so long contiened and so disastrons has not been known. On very few plantations will there be even a fair crop, while no neerly all interesting and there searcely any thing will be made. Many plentars will not make corn enough for bread; and if the drought continues a few days longer, the cotton crops will be simust entirely destroyed. It is alfeady so far injured that searcely a fourth of the nanst yield will be realized.

In Northern Texas it is feared the corn crop will fell fer short of the general average, on seconnt of the lack of rain. The cotton crop continues highly promising.

the lack of rein. The cotton crop continues inguly promising.

The Ceddo Genetic seye: "On the 26th we met with Dr. J. H. Conningham, of Cleihorne Parish, who has just reterned from a trip into Texes es fer as Orockett, and he informs us that he did not see a single plantation on which, in his opinion, 300 lin. of cotfon will he made to the acre. The corn crop is always a rotal fallure. Texas Itams,

Gubernatorial Honors Declined.—Mr. Pease has retired from the canvass for the office of Governors. Governor Bell will probably gaie most from his withdrawal. From present appearance, the contest is between Gov. Bell ead Col. Greer.

Withdrown.—Indge Roberts has withdrawn from the Coegressional canvess, in the eastern district of the State.

\*\*Resignation of Judge Webb.\*\*—The State Gazette of the 9th instant says: "The Hon. James Webh has tendered his resignation as Secretary of State, which hes heen eccepted by the Governor."

River Improvement. —A contract has heen mede with Mr. Wolf to been out the Angelian river, at an expense of twenty dollars per mide.

\*\*General Houston.\*\*—The Western Texan has hoisted the name of General Houston at the head of its columne for President.

hoisted the name of General Houston at the head of its columne for President.

Survey of the Brazos.—A party have started from San Antonio, to make a survey of the Brazos river. They commence operations shove the falls, and continue to the month.

Crops.—In De Witt county, the control is understanding the sense.

orops.—In De Witt county, the cotton is undergoing greet damage every where; and the general impression is, that the crop, is that neighborhood will be entirely cut off.

The Bonham Advertiser says that the words of Fannin county are "looking with the largest and most hountiful on crop ever hervested" in that county. The wheat orop of that region, which had just heen gathered, is also represented as being the commonly and averaging as wenty nounds to

neo just neen gathered, is also represented as being uncommonly good; averaging seventy pounds to the hushel.

Early Cotton.—On the 23d of July, the first bale of cotton was sent to Lavacca.

Prospects along the Rio Grands.—The farmers in that vicinity say they never had more fieldering prospects of a fina orop.

Anti-Duelling Henry A. Wice made a motion in the Virginin Reform Convention, a few days since, to strike out the anti-duelling clouse of the Constitution. It was rejected by a vote of year 31, nays 65.

Dogs vs. Horses.—The Germans who investigate the streets of New York for old hones, and anything else heavier than rags, have introduced the use of a breed of dogs, of great size and strength, to drag their band-carts.

to drag their band-carts.

Another Fugicive Slave Case in Philadelphia.
Daniel Hawkins, a fugitive slave, was arrested in Philadelphia on the 21st uit, and, afteren effort made by the abolitionists to release him, was identified and delivered to his master. The Philadelphia papers state that the excitement which prevailed upoe the first attempt to cerry the law ieto execution, has entirely subsided.

Sale of Virginia Bonds.—Messrs. Salden, With-ars & Co. lieve effected a negotiation for the sale of \$2,500,000 of the coupon honds of that State at \$104. These bonds have fifteen years to run, and were issued for the execution of the internal im-provements in Virginia. They draw six per cent.

Fatol Sickness at a College.—In Philadelphia, on July 25, two of the Girard Oollege orphanis, camed Gracff and Azendorff, had died et that institutioe, of dysentary, and about twenty others were down with the same complaint. The lady of President Aliea was also very ill. The directers of the College have, as far as possible, dispersed the hoys by permitting their reletives to take them into the country for a few weeks.

Into the country for a few weeks.

A Mystery Solved—Not long since a Portsmouth (Ohio) paper stated that a barrel of purk hed been found, but slightly injured, in the old bed of the Scioto river, where the water had not run is twenty years. The Chilloothe Gazette now says that a Mr. Thomas James, of that city, lias identified the barrel as being part of a cargo of pork which, in 1804, he was teking down from Chilicotha to the mouth of the Scioto, for the purpose of plecing it on board the hird Dominique, bulk and owned by Dudley Woodhridge and the celebrated Hermes Blennerhassett. In passing down the Scioto, one of the boats slove just above old Alexandria, and thirty hereis wore lost.

Three Students Drowned.—The Charinneti Gazette Students Drowned.—The Charinneti Gazette. Three Students Drowned .- The Cinci

tie states that three students of St. Kavler Col.

zette states that three students of St. Kavler Col. legs were drowned last week, while bathing in the Little Miami River. Their names were Authony MoMaan, aged 17; — Klimpetra, aged about 15; and — Vanhorner. Two of them were residents of Cincinnuti, and one from Louisiana.

Union Parich, La.—From the Farmerville Inquirer of July 25, wa learn that the drought in all thet section of couetry, excepting a few small localities, has been approximented. The core is literally purned up, and the cotton smell, yellow and airendy hiossoming to the rope of the piant. The prospect is truly gloomy. Mauy plaaters will hardly make more cotton then will soffice to huy their provisions. Rain now will only partially restore the cotton—only late corn can be benefitted by it. We understand that in Jackson the crops are equally bail.

New Currency.—The Chilian Government are callieg in all their currency to coin a new one, same as that in the United States—times and half dimes, quarter dollar, half dollar, dollars, (both silver and gold.) quarter aggles, half eagles; whole eagles, two eeglow and onnoes.

An Important Fact.—A Detroit paper says, that there are in that State (Mich.) 1,000,000 of sheep, and that the capital invested in them and in the land on which they are kapt, amounts to five millions five hundred thousand dollars.

English Notional Debt The co

re reduction of the national debt have given no co that the sum of £731,545 %2. 7d., heing one fourh part of the surplus of £2,926,181 2s. 4d., is applied towards the payment of the national obt.

so named by Cook:

On erriving at a reef or knoll, the boat was selected by its painter to a projecting brench, and the digra proceeded to dive from it in all directions; and, as they brought up the shells, so they throw them into the shallow water on the knoll, until the bitells became scarce, or they became tired and wanted to pail to denother station. Shell, she of varous descriptions are attached to and wedged in the coral brenches, opparently having grown with their growth: On eatill calm day, you may see to the bottom of ten or twolve fathoms, and the shell-fish of the bottom of ten or twolve fathoms, and the shell-fish of the bottom of ten or twolve fathoms, and the shell-fish when feeding reflect that in the most brillient and beautiful hee; and fish of every concelvable fourn and color may be seen aporting in the inter stices af the coral branches.

It is a curlous sight to watch the divers; with scarcely a movement they will hart to the health of the coral branches.

It is a curlous sight to watch the divers; with scarcely a movement of the arm will propel thems borizontally through the water, and this a depth of seven or eight felloms. I timed so by the watch; end the loogest period I knew to them to keep beneath the water was a mand a quarrent end there were cely two which complished this feet. One of them, from his skill, was alled the feet. One of them, from his skill, was nicknamed by his companions the 'O (atone). Rather less them a minute was the duration. In fine weether they can see the a when, if the water is deep, they dive et an for them; and, as the chells adhere firmly core by strong beerds, it requires no little for detach them. I was astonelled on one occasi witnessing a diver, ofter one or two ineffectual tempts to tear away a large oyster, slak hie legenesting and very, ofter one or two ineffectual tempts to tear away a large oyster, slak hie legenesting and very, ofter one or two ineffectual tempts to tear away a large oyster, slak hie legenesting and very, ofter one or two ineffect

and the beech are most frequently attacked by endemic, particularly the former, of which a bers are dead end dying, without any app catise. A year ego, when on a visit in the particularly of Livingston and St. Helena, we leard in the former of Livingston and St. Helena, we leard in the former of Livingston and St. Helena, we leard in the former of Livingston and St. Helena, we leard in the complaint among the wood-cuttern near that is their best timber was dying off, end they ferred particularly to the fatelity among the coaks. From this feet, we infar that the reath these trees are not occased by drought, but some endemical cause, see yet unknown, but with these trees are not occased by drought, but some endemical cause, see yet unknown, but with the for to extinguish one branch of the fundly forest monerclis.

Great Call for Postage Stamps.—Sevents hundred dollers worth of postage stamps were standaring husiness hours in Beston, in one day: it too, mider the rule that no isclusioned can purcht more then three dollars worth et e-time. The duction of postage has, even et this early perigiven ample evidence that correspondence heab and will be meterially increased.

Railroad Enterprise of Noshville.—The

Railroad Enterprise of Nonville.—The and Allormen of Neshville have vared a subtion of \$50,000 stock in the Noshville and Chinnooga Railroad Company as stock in the Wittenstein and Alabama road, whish is to be immediately and Alabama road, which is to be immediately and Alabama road, which is to be immediately a surveyed, put noder contract, and hostened entire series in a family and the Tennessee river, thence hy the Alabama river, and thence, by uninterrupted navigation with the Mobile bay. When this line of improvement shall be completed, it is estimated that Noshville will be ploced within fifty-two hours of New Orleans.

Death of Mr. Donaldson, of Mobile — Mr. James wat circulated round the table, Jadge Paine gave, as a toast, "the King." Some of the whigs were about to refuse to drink it. 'But Mr. Adams whispered to them to comply, saying, "Wa shell have sin opportunity to return the compliment. At length, when John Adams, was desired to: give a toast, he gave "the Davil." As the het was about to recent the supposed Indignity, his wife calmed lite, and turned the laugh upon Mr. Adams by immediately saying, "My dear, as the gentleman hes seen fit to drink to be fload, let us hy no means refuse, in the turn, to drink to his."

Death of Mr. Donaldson, of Mobile.—Mr. I ama J. Donaldson, who was she t by Andrews on the 27th of Morch law, died on Thursday has, at the residence of his father, Co.l. H. A. Donaldson, in Summerville, near Mohle. He saying a diong, and his infletings law heen terrible. Andrews, it will be teach creted, shot him on suspicion of attempting the virtue of his wife. Andrews and his wife have heen in custody since on the charge of murder, he as principel and she as necessory. BALTIMORE FEMALE COLLEGE. Gen. Scott .- Four States, so fer, have nomina tedr in State conventions, tils distinguisged man as the whig candidate for the Presidency, in 1852.

There States are Pennsylvania, Other States are Pennsylvania, Other States are Pennsylvania, Other States are Pennsylvania, Other States are Pennsylvania. These States are Pennylvanin, Ohio; Michigan, and Iediana. In addition to these, it is stated that avery whig press in Maine favors his nomination. The while press in most other Eastern, Northern, and Aliddle States, seem to ecquiese, if they do not approve of the movement in his favor. In opposition to Scutt's nomination may be classed almost the entire while press of the sinvaholding States.

Myeterious.—The workmen who are eagaged in digging out the foundation of a bonse, near the corner of Feyette and Second etreets, Georgetown, D. C., have discovered the remains of four inian children, two of them deposited in candle boxes, one in a stoce jar, and one in an Iron pot. will commence on the first MONDAY in October next, and continue ten months. The institution eligible for a thorough cuurea of in The Weather-Violent Storms-Injuries to tal, moral and physical. The insti-nished with globes; chemical, phil-

The Weather-Violent Storms-Injuries to Cotton.—On Thursdey evesing, says the Concordin Ietelligeneer, a furious-thwader storm arose in our vicinty, heralded by inniceose columns of dust that filled the atmosphere, turning dey into a night-like gloominees. The wied wes powerful, ninost like a tornedo, ead some hail came down with the torrents of rain that deluged the certh. Considerable damage was done to dwellings, out-houses, sheds, shops and stables, in Netohes. One of the oblumeeys of the Macelon House was blown down, breeking a lerge section of the roof over the dadies apartmeet. As much as the rain was needed in all this regioe, its violeot character has tracked its conrae in dovastation over the cotton fields, heating down the stems and houghs of the pleet, end covering the ground with the holls that had commenced falling by the drought. A few deys since a storm of precisely the character of this, and marked with like raveges, prevailed in the vicinity of Whittakers, in the lower part of Ooncordia parish.

A Good Idea—The Partition Tumbler.—A new astronomical epparatus: the planes are ognut, end of the richest tone. The ogain, and of the richest tone. N. B. Perrylls and grandlers with how

Whittakers, in the lower part of Ooncordia parlah.

A Good Idea—The Partition Tumbler.—A new drinking glass has been introduced in Engiand, which is used for effervescing draughts. By the ordinary method, the gas generated is so repidly disengaged, as to cause frequently a considerable waste. The partition tumbler obviates this inconvenience. In one compartment is placed the solid, and in the other the carbonated alkall, which are then seperately dissolved. On raising the tumbler to the mouth, the two mixtures meet over the purtition, which is lower then the edge of the glass, and effervescence immediately ensues. This cas be supended at will, by placing the tumbler upright, so that the whole, or part of the dreught, cas be taken as required.

\*\*Resp. Metal.—Dr. Bergenwage has invoked.

A New Metal.—Dr. Bergemace, la inskleg some experiments with the Woolheite and Enkodie from the zirkom-syonite le Brevig, le Norway, has apparated a anhatance which, hoth in its oxidixed atste, as well as in its compoueds, differ from all the known simple hodies. He has deoled that it is a metellic substance, and has given it tha name af docarlum, after the Tautonie god Donar, the Northern Thor.

Stung to Death.—A short time since a very fine horse, the property of Col. A. Noble of Collect, it a., came to his death in a most singular manner. He was tied by the Colonol near to e hes stand, for the purpose of gracing. In this position he was left for an hour or more, and it is presumed that hy switching his reli to keep off the flee he gave of fence to the bees, who attacked him in countless numbers. When discovered he was therefore your orded with them; in his caps and agentile especially they hung in large clusters. The noor animal was

VOEUME I. NUMBER 28.

A SERMON obligation of the Church to Support ils Ministers.

"He we have some onto your spirit at things, but a great net we shall request things?" [1 Con. ii: 11 Consider 400, my friends, that the burch of God is bound to have minds. great measure depends on yourselves lonce-heard a person speak of the use-

we are told, a minister cannot bring an action to recover his salary; since their law determines that it is a pastor's basi-ness to teach base charge to be honest, and if he had done his duty there would be or support

stach for much simportance to the opin of such a combination of the Apostlo and ion of the world, for our grand concern the Scraph that he is continually falling should be to know what is Christ's exgrant the truth. And are we not as sured that an Apostle, under infallible inspiration, was delighted with the genrosity of a certain church towards him, ecanso it reslounded to their high adsatage before the Throne of Heaven: deldesire not a gift, but fruit, that may shound to your account; but I have reeived that from you which is an odor of a sweet smell—a sacrifice well pleasing to my God. My God shall supply in glory by desus Christ "
And is that which is given to his er-

ants n grateful odor to thuir Lord? And must we not wish that 'Heaven may smell such perfumes from you ! Who can refrain from tears when he thinks of those from whom Christ never reeives these odors, but is insulted with the nauseous stench of their covetonsness and injustice? Alas, that He should have to look down, and blush to know that these persons are called by the sacred name of Him who impover-ished himself to make us forever rich!

in the moral like that which prevails in the physical world! For the Saviour their persons, and solicitude for their sonls, which give to his thoughts all the knew that the God who says, " Icongregation to hear strains like those which Paul addressed to the Philippian

To the last consideration that may show us the extent to which ministers should be supported I now advance.

4. What may best promote the conversion of the world. . The church should consider, itself placed in the earth as a golden candlestick, to hold out the light of Divine dart forth in every direction, till the whole earth shall believe on Him whom the Father hath sent. No elime, no elass, no character, should be excluded from our benevolence. A minister. therefore, should be enabled to gain adunable to grain access to persons of wealth, who have souls to be saved or lost, as well, as others, how can we be a gninea to a case of distress. In fact, the men of the world, both rich and poor, do expect a minister to give, and they will very wuch esteem or despise him. covetons. Of our doctrines they know bat-little they judge of them by our practice. Nor is it a secret that they think our conversion has only been an exchange of one sin for another; the generous vices of the rake for the meaner

show a generous spirit by having a libe world he should set his heart, and for this he should a devise liberal things. Poverty, however, shrivels the soul, uir less Divine Gram counteracts its effect And what right have we to expect that God will work miracles of grace to prevent the consequences of our covetonsness? Let. then, your ministers find access to every class of society ; be men of general science and literature, who can mingle in conversation on every subject, to turn it to good account; and by the stimulus of their own good example, teach the world the love of God

and man have but one more beaut of discourse the large but one more beautiful discourse the large but on the large but of the large but of the large but on the large but of the large but on the large but of the large but of the large but of the large but of the large but on the large but on the large but of the to call for your patient attention. Per-

mit me theu to show— 1V. The agents by which this work

must be accomplished.
So important is the affair of finance in the church of Christ that he has institured an other to secure a dan attention to the oligoot ... But us those officers mast make an appeal to the whole body, I now attempt to show how the due sup-

port of unitisters may be sicured by the

t The Stewards It has been usually observed that that of the Lord, and that of the poor. and the minister's table. The two former are of high importance; and I should be happy to give stimulus and encourage ters who enjoy a good report of them that are without. This, hewever, in that are without. made on your patience, compel me to turn immediately to that part of the steward's I once heard a person speak at the less immediately to that part of the steward's lithest of a minister thus: If he were doing much good to that people, they doing much good to that people, they doing much good to that people, they do not speak it is said the bold the office searcely ever think: Lat tould give him a better cust. I bold the office searcely ever think: Just with of this remark, it is said, the I know there are others who bear it up-Americans act: for in the United States. on their hearts continually, and in their ellorts to procure their minister a suit. ablo income endure emisiderable labor.
advicty, and pains That ardent zeal which you so much admire; at which you often rekindle your own languishing if he had done his duty there would no occasion to bring his suit. If you tree, that indefatigable labor at which you often woulder as more than mortal. The result of the exalted, lefty views which the man has formed of his own ministry Hechas conceived to himself

> isfy themselves satisfy no one else." . In the same manner a good steward with a large and generous heart, will often think of the handsome manner in which a whole people ought to support that one man who is so incessantly la-boring for their good. He spurns at the thought of elogging the wings of an angel, or pressing down to earth one who would bear others with him in his flight to Theaven."

below his own mark. For they who sat

For "out of the abundance of the Il your need, according to his riches heart the mouth will speak," and he who has just views himself will aim to in spire them in the minds of others. This is particularly the steward's duty with regard to a minister's income. It is for want of this that a minister is poor: for if any one, on hearing the miserable pittance that some churches give, should exclaim against them "covetous wrotches, I should not wonder, but I should not consent. For I would say, look at their subscriptions to other objects; they give to the missionary society almost as much us they raise for their minister; they add to this liberal contributions to the Bat, here again we wessee a reaction Bible and Truct societies, to Sabbath schools, hospitals, and dispensaries, till self—generous and kind—rewards this spirit in the flock by kindling in the breast of the paster that is like him contributions to their minister's support: Nay, they even subscribe to other ministers of the paster that is the first of the paster that is the paster that is the first of the paster that is the paster that the paster that is the paster that the paster that the paster that the paster that t their charities double or treble their isters if they do not support their own. If to do this the person should reply the more shame for them! Do they not beauties of the Bow of Heaven, and to robbery for burnt-offering," and bids bis voice all the sweetness of angelic tones. But how can this be expected must blow upon their charities, taken by a people whose negenerous treatment renders it difficult for their minister to men would upon the alms of him who de much more than forgive their wick should keep back the wages of his labor-einess. It is reserved for a liberal ers, and then say, but look upon my diaritable subscriptions:

But, leaving these strange layes, and of human knowledge and of rational conjugate is to answer him who should injure after the cause of this contradiction of the constant of the contradiction of th But, leaving those strange facts, my tion between you and yourselves. How of regret and recognition of his virtues is it, we are asked, that the same, men by those who survive and are blessed by is it, we are asked, that the same, men are at once coverous and liberat; generating some to those whom they never saw and might to the many whom nature has an easily solve the mystery. It is the can easily solve the mystery. It is the can easily solve the mystery. It is the can easily solve the mystery and liberate the country with education as the can easily solve the mystery. It is the can easily solve the mystery and liberate the country with education as the can easily solve the mystery. It is the can easily solve the mystery and two profess to the can easily solve the mystery. It is the can easily solve the mystery and the can easily solve the mystery and the can easily solve the mystery. It is the can easily solve the mystery and two profess to the can easily solve the mystery. It is the can easily solve the mystery and to their intrinsic fessional brettren, and to their enumers of the same than minute of the many labors. A very small minute of the solve of the so the difficulty it professes to remove. It soon to be surrendered. We may learn life, the Physical Geography and the mean, then, that ministers plead every a useful lossou of how much may be acted the professes but their own. Their complished in the time that is usually regret to say that the former is left in zealous nelvocacy has displayed the claims of the Missionary, Bible, and Tract Societies, and called forth the liboral zeal of Christians, till all these excellent inadittance into every rank of society—stitutious are furnished with funds: but time, and the grandeur of their own the Physical Geography was comthey cannot will not plead for them destiny beyond the reach of a poor man nor so selves. What, exclaims some generous depressed us to be beneath the notice of stranger, and is there no one else to the rich : but should stand in that harp preach for them? Shall they be suffered wide and populous valley, none can be early us the year, 1837, during which p, mediocrity that will permit him to to pine in poverty becauses they are more appropriately selected for this less avear the writor had the good fortune to lay his brunds on both extremes. I plead modest, and devoted to the interests of son than its Historian and Geographer, be intimately associated in studies and not for great wealth; of the revenues others? No, replies the initial stew of the studies are more appropriately selected for this less avear the writor had the good fortune to son than its Historian and Geographer. So intimately associated in studies and others? No, replies the initial stew of the writor had the good fortune to son than its Historian and Geographer. of Durham we are in no danger. His ard, I will plead their cause; they shall not suffer for their excellence. As they Stauuton, Virginia, on the 5th day of pared for the press; and he was then place every other good cause in all its tights till men feel and meet their claims, I will show their claims on our generous said to do our utmost for the salvation sapport, and wipe away the infamy that hangs on us us long as it can be said, the advocate of all is left himself amrewar led, because there is no one to advo-

cate his cause.
- I urge this with a warmth to which no-words of mine can give an adequate expression; because I know that every Bring depends on the spirit of the stewards. One narrow-minded man among them will often prevent all the rest, and the whole people, from doing their duty letters, in after life, is a flattering testi-tions, population, settlements and investigations of soil, climate, productive whole people, from doing their duty toward their minister. I know of no monial of the character of the academy, dustry of the valley, that he could not them will often prevent all thurest, and

not complain. What then, most a min-ister's delicacy always be tried by being not his charge to think it their duty to consider whether ho has not reason to diately upon the practice of the profescomplain, and if they are conscious that, sion which he had commenced some time which they feel to be his due?

Abscinence is as oney as moderation is—
The distressing circumstances attending source of the most refined pleasars amounted to a scutence of soparation, and that the death of some of them, together with whorever it is properly applied.

Singularly information is after a mutual agreement to separate, affected the sequence of soparation, and the induced. The distressing circumstances attending source of the most refined pleasars amounted to a scutence of soparation, and as such was considered; and that

pestilence of 1523 visited Natchez in the form of the yellow fever. The refugees took shelter in Washington, which is only six miles distant, in great numbers and soon the fever appeared among adelphia, of American parents, and they them. He had unific appointed among were married in that city in 1831, being in father's practice, to acquaint himself with the disease. Again, in 1825, soon Episcopal Church in America. Mr. after his graduation a still-more destructional formula was then appointed rector of the Charles of the charge of the c choose to attend it. In the years 1838 and 1839, when

Natchez was again ravaged by yollow fever. Dr. Monetjo resumed its investigation, and published a small volume entitled, "Observations on the Tellow Fevers of Natchez and the South-West from 1818 to 1839. In these essays he deduces the doctrine, from his lives tigation of the facts, that the epidemic atmesphere is portable, and may gener ate an epidemic in a new place under favorable circumstances. It was nuder the influence of those views, so foroibly never had an epidemic yellow fever in Natelicz since 1839, while all the vil-lages, above and below, small and great, have been several times severely scour-

During the whole of Dr. Monette's professional life he endeavored to keep pace with and add his share to the lights or solence. He was an occursional contributor to the various medical periodic cals of the country, chiefly of the West and South and his essays were uni formly marked by a severe and searching criticism, and by a profusion of information on the subjects he attempted to treat; much of that information being derived from his own observation and experience. The professional merits.ef, these papers we leave to his pro-

Class-meetings were originally a vo tinued to live in the religious houses. Class-meetings were originally a volume Romes to which they respectively untary association of congenial spirit belonged. But at that period Lord in the Unirch, for the purpose of spirit England as his private chaplain, and many of our preachers and writers, at the lady also came to. England, where "treating our members, who do not lov she became, and we believe now is the class meeting, as lacksliders, worldly Superioress of a cummunity of religious minded, and unfit for church member women, under the title of "Congrega- ship-calling them "stumbling blocks tion of the Holy Child Jesus," at Hast- and saying from the pulpit and in th ings, in Sussex, having brought with her parlor, that "the Church would be bet from Rome rules for the government of ter without them than with thum," and ever, and at some time in the year 1815 driven from us thousands, with families Mr Connelly quitted Lord Shrewsbury. relations; influences, prayers, and wealth

With my little kaewledge of Metho but many important matters in the case, dism, it does not appear to the especially in the questions relating to elissemeetings ever have been internal domicile, were not raised. The Hean by attended by our people—and while of the Arches rejected this allegation altogether as an insufficient defence.

Mrs. Connelly, then carried the case they need the Laboratory of the Laboratory of the Laboratory of the laboratory and hondrests in the first connection.

and as such was considered; and that cannot be induced. If these statements That social disposition, to which allu

der their consideration, and also the deriverse of the parties, at the time the transaction took place at Bomess the case will then be referred again for resource, the hope of glory, and "Providence their guide," Religon everything, it is the call of Ged, and we must go." With God in their case will then be referred again for resource their guide," Religon everything, it secondary matters nothing," they went forth like the Patriarch of old-sometimes only stones for nillows, but heaven was open and propitious above titen, and angels watched with and ministered

> our Church regulations are so perfect as to forbid innorations, should time, ciremostances, and the religious proclivities of our time, should all say that changes often been said "our strength and security are in our class-meetings." Such, in my opinion, is not the fact. My belief s that experimental roligion in the heart and life of our preachers and people is the foundation stene, the pillars of sup-port, and the key-stone of strength to our teingle of ordinances-and all other

things but us armaments to it.
I believe it would be good policy for our preachers to meet the classes as often as possible; and my experience is that they may do it as often as they please: exhert, in kind terms, our people to attend them as often as they can; but not to make non-attendance at class a sufficient cause for expulsion. Let the rule, like several others in the disoipline, be a "sliding" one; fer, te ex-pel a member from Church is very near equal to giving him over to Satan.

cle may look a little " radioal," or " red republican," and call down wrath upon my head; he it so. Tide and time are onward; and the sharply pressing of class-meetings in the country has, and will ever work evil, and not good. In towns and cities they are practicablein the country they are not, and cannot so be made. I. S. Hugnes.

Caragleu, August 4, 1851.

Things of Memory. Occasionally among the groups leeted before the tavern door of N., in the town of R; might be seen a young man of middle stature, dark eyes, brown beair, and a florid complexion. His dis-position was social—leading him to seek ompany, and company of a gay and lively character. Others were fend of is society, especially such as he admired.—His conversational powers must-bave been of nu ordinary kind, from what those most familiar with him say Luever, mysell, had an oppermuity of conversing long, or often with him This appeared to happen so, for we often passed and spoke to each other. Signetime he would aftend upon the services of the sanctuary. Still, he was onewhat a stranger-a stranger, yet, Not a stranger. He was regarded as a man of brilliant parts. Some called him a genius and su he was; for, who lost a genius could make the canvas glow with such beautiful pictures, Mr. M' was a painter; and when we say painter, we would be understood as implying a linished artist in that profession: He was not equal to a Rubens, a Vandyke, or a Michael Angolo—he wan-ted age and experience; but that order of sont—that restless ambition to exocl -that devotion to the pencil-that leve of the grand and glorious in hathre, the whole people, from doing their days toward, their minister. I know, of no way by which that man can escape the condemnation of Chirist-for robbing the minister, not only of what he himself; not only of what he himse the old country, with its dilapidated cities, its moss grown towers and broken temples; yet, the painter can find as much here among our woodland scenery, of mountains, of cataracts, river and talent, as he can find in the former. On this globe there is but one Niagara, and to belongs to America. Nothing that the old world can loast, can equal it for

grandeur and benuty.
Young M, was delighted with his home, and here expected to spend his life. Devoted to his calling, and admired by friends, he seemed destined to tenebrithe goal of a nable distinction :

bitt, idns '.

has been made, proved a snare to him, and blasted his prospects. Those who were attracted around him and enjoyed his second, brought with them the wine cup and tode him taste. He yielded, from thence he began a career which ed in darkness and disaster. Once he intended to dash away the poison from his lips and to assume that proud to which his talents entitled the mastery over his growing appetite his welfare, could but hail with joy his He undertook so throw off ipated pack that pursued him, himself to a temperance asso. Feeling that he was once more he determined to visit his old to determined to visit his old the and family, which were far away the Alestic. He often thought of some in the midst of his youthederings, for she was a religious, g mother, and no doubt had ted to impress his youthful mind took holy truths. He crossed the said found his way to the materials and found his way to the materials. witers and found his way to the maternal roof, but it was not to receive the welcome and blessing of a mother. She was dead and laid away in the grave. What a disappointment! What a blow to his remaitive heart? He stood appelled at his less, feeling that she who loved him motations that she who loved him motations the heart of the stood appelled at his less, feeling that she who loved him motations the stood appelled at his less, feeling that she who lived him or the grave of the departed with him over the grave of the departed one. After remaining a short while, he to return home. He asked his might live with him, and receive him with him, and receive him. They yielded to his solicimehed the pleasant town where he resided. The ties of the old world have plied. It was not so hard for a straning in some out been broken, and rural and striking objects of the new beginning to engage their thoughts, they fell once mere to enjoy life. Towards evening tide they wenld, with sisterly affection, ramble abroad to hear the forest songsters, and to gather beantiful flowers. Sometimes, perhaps, they would may this one—this exquisite ene—we will take to brother and bid him give it a place in that levely picture he is painting. Or, sometimes, perhaps, they would stop to gaze upon some gorgeons display of nature, where hills, trees, and would exclaim. Oh i that brother was that he might drink in the inspiraimagine they peased the hours of even-ing. They were happy, and who but are glad that they were so. Who would glad that shey were so. Who would have dished their onp of pleasure, or blackened the bright sky above them. It was the hour for rambling, and the sistem were ready with bonnets and gloves. With bouyant steps and hearts they wind their way—all nature looked as west as ever, but suddenly they will the sound of distress; they haston to the upot, and who lies before them?

Their beather, their poor brother drunk!! drunk!!! drunk!!! Then sounded the runk !!! drunk !!! Then sounded the mell of departed happiness. Their arthly support in this land of strangers ay at their feet. They weep and gain the bay felt that for them there was peace. With hearts pained is veil, they determined to return native, land, and seek comfort home scenes and friends. Actly they departed. The young appeal not in his downward. Decasionally, he grasped the decased and astonished his adpencil and easel and astonished his aders. He ventured upon an extensivo nistorical picture, but his trembling and refused to do its accustomed work, to the night. While all was still to the night. While all was still to and they might be hearding blasphemies. By and by he their company, passes into

> For the N. O. Christian Advocat-Camden, Arkansas.

Dear Bro. McTyeire.-Onr Third Quarterly Meeting, for Camden, (Ark. Conference) commenced on the night of the 18th of July, and was protracted until the 30th; and resulted in the conversion of 32 or 33 souls, and 36 acces sions to the Church; and the member ship much revived. On the 20th July Rev. H. C. Thweatt, of Washington Arkansas, preached the Dedicatory Scr mon of our new Church, which was fin-ished a few days before.

Yours in Christ, August 1, 1851. WILLIAM MOORES:

RESIGNATION OF DR. BUNTING .- OT Wednesday last the Wesleyan Missionary Committee adopted a resolution agreeing to respectfully accept the re-signation of its Senior Secretary, the Rev. Dr. Bunting, which he had tendered at a previous meeting. For two or three years past the venerable Doc-tor has so far felt the pressure of age that he has asked the Committee to relieve him from his duties; but he has always hitherto yielded to their earnest tion that he should contiane t the post he had so loug honored lacely, however, the state of his health has been such as to induce him to place mation before the Committee in terms which allowed them no further ice. Accordingly, they have, with great reinctance, consented that he should lay down the responsibilities which he has sustained from the time that the great Head of the Church removed from us his great predecessor, Mr. Wat-· London Watchman.

A Poetical Superstition. - Among the persants of Burgundy mothers are accustomed to pray for their children under the clustering flowers of the haw-thorn tree, from the fanciful idea that their prayers will ascend sweeter and more acceptable to Heaven when perfamed with the fragrance of flowers.

NEW ORLEANS:

SATURDAY, AUGUST 16, 1851.

Protestants and Papists in New ' Orleans.

Our city has been long regarded, a nome and abroad, as the seat of Pepery in the Southern States, if not the United States. It was originally settled by Papists-was long held under the government of Papal power, and its teeming opplation has been continually replet ched, for more than a hundred years, by fresh importations of priests, and unns, and "faithful children" from the old Papal countries. A little more than a quarter of a century ago, the Papists controlled everything in the moral and social habitudes of the Crescent City. Their's were the churches and the consciences of the people. Protestants were few and feeble, struggling for, but hardly claiming an existence. The city seemed irreclaimable from the castinal corruptions and social vices

of Rome. But the leaven of those good and laborious servants of God, who then and here called upon his name, has been true to its Scriptural character-it has greatly spread. From the meen and dingy conventicles, Protestants began to worship in more commodions church-like houses. The number of these multiger, passing through or settling in the city, to find a Protestant congregation. These congregations enlarged. A spirit of enterprise, liherty of thought and discussion, liheral educational movements, and sound municipal legislation, indicated the presence of Protestants. Papul institutions have fallen into disgust and neglect with many of those who have been born and baptized the victims of their error. Onr older citizens oxclaim, What a change! Travellers who have returned after being sometime absent oxclaim, What a change | True,

mnoh-very much remnins to be deno in reforming the moral character of New Orleans. It is a very wloked city; but what has been done, has been effect ted in the direct ratio of the in Pretestant infinence. The Sabbath day is not so descorated as it used to be. whon men went from mass and confession-emboldened by the unblushing example of the priests-to gambling tables, cock-fighting, masquerades, and all kinds of revelry. There are less wagens running on that holy day now;

oss mustering of companies about the streets, and more stores closed : lewdness and concabinage are not so shame less and frequent. It is painful, how-ever, to contemplate the improvement that is called for in these respects be-

fore many moral reproaches that now cleave to us are removed.

We heard a temperance locturer some time sgo-state that if all the grogshops and coffehenses of New Orleans. were strung together, they would make and he left it to hang unfinished in the straight line three miles long. For studio. He sought his old companions doing the reform werk called for here, we are not to look to Papists. Protestants, individually and collectively, must hring their influence to bear upon the evil. We have been eredibly informed, goes further—stumbles into the room of hy a Son of Temperance, that so cor-afriend. A physician is called in with dially does a famous "Father" in the hate. He comes, but it is too late; he finds his patient dying. He dies, uttoring with his last breath an oath. So fell the young and gifted M. if the fraternity be present in regalia. Some time ago our informant attended a funeral at which this "Father" offiuatil the "Sons," who were present.

ciated. He refused to do his all important priestly job for the dead man's soul doffed their character as such. They stuffed their regalia into their coat pockets and hats, till he concluded his service and left, when they resumed them, and accompanied their comrade

to the gravo.

Notwithstanding, even to n passing obsorver, there has been a great change in the comparative influence and numbors of Protestants and Papists in the city, we still believed the Papists vastly, almost hopelessly in the numerical majority. We were almost afraid to come to the count. During the past week, however, a reverend friend has been hold enough to do this work for us. We rely on his statisties, for he has gathered them up very laboriously and carefully. He has included, under New Orleans, the churches and members of its vioinity, also - Lafayette, Algiers and-Carrollton.

The following is his list : | Pre-byterians | Communicants | Chapels | 1000 | Methodists | 916 | 15hir s |

Whole number of Protestante. Our informant inquired at head-quarters for the numerical force of the Cntholies. The Archbishop first fixed the number at 65,000. But upou a closer definition of a real consistent confessing Catholic, (what Protestants call a com municant) he gave the number 9000.

And thus may he stated the comparative numerical strength of Protestants and Papists in New Orleans-the latter 9000 worship in seventeen chapels, and the former 5282 worship in twenty-

eight chapels. To beth these may be dulgo in commendation where it is due. Christian Advocate eight chapels. To both those may be added 2500 Jews centributing to the synagogue. It is doubtful in which scale their influence may be counted.

This is encouraging. We sincerely hope the Profestants of New Orleans will fight againt their commou-eacuty and not each other. They have a bet ter work to do than contending and and proselytiag among themselves. Already they have done much; let them, united in a spirt of true Catholicity, go on to de more.

Let all read the Sermon on first age-Stewards epocially. Next week neludes it.

LOUISIANA UNIVERSITY A Catalogue f officers and students has been handed us by Dr. Kohlmeyer. The catalegue contains 31 pages, and is embellished by good engravings of the University nuildings, on Common street, and the Charity Hospital. The Law and Medical Departments are officered with great ability, and well patrouized. The Collegiato Department, we are pleased to see, is now fully erganized, and also ably officered. All candidates for the Freshman and Sephomore classes will undergo an examination for admission on the first Monday of November next. The University presents rare advantages for collegiate and professional ed

neation. We are proud of the State for its ample educational provisions from the University down to the Common School. The following shows the Collegiate Faculty:

President—Hon. Theodore II. McCaleb, LL. D. Professor of Political Economy—J. D. B. Dellow Professor of Chemistry and Mineralogy—J Professor of Chemistry and Inneratogy—J. awrence Smith.
Professor of Geology—Richard H. Chiltoh.
Professor ul Mathematics and Natural Philosoy—Claudins W. Sears.
Professor of the Greek and Latin Languages and

Professor of the Greek and Lain Languages and iderature—Wim C. Duncan, A. M.
Professor of the French Language and Litera-ure—M. March Roux.
Professor of the Hebrew and other Oriental anguages and Literaturs—Hermann Kohlmeyer.

CENTENARY COLLEGE. - We have mitted to notify the public that the Friendty of this College, with a single exception, remains unchanged—a fact gratifying indeed to its friends and pat rons. The regular Collegiate year bogins on the first Mouday of October. It is appeared that the now College building will be completed for occupation by that time. May the attendance of the coming year, and its success, he even more abundant than the eno lately

Prosident and Professor of Mental and Mural Science—Rev. Richard H. Rivers, A. M., D. D. Professor of Mathematics, Natural Philosophy and Astronomy—Rev. John C. Miller, A. M. Professor of Natural Science—Dan't Martindale.

Trincipal, of Proparatory Department—Rev. A.

G. Miller, A. M.

Tutor in Apolent Languages—W. L. Nogent.

REV. J. S. BLYTHE, Missionary to California, sailed on the 13th inst, on the Cherokoc, for Chagres. Dr. Boring, and those who labor with him, will be made glad by the coming of such help. Mr. B. is a young man-this is the fifth or sixth year of his ministry. He is

## North Alabama Correspondence.

Mr. Editor-Tuscaloosa is, I doubt not, a very pleasant town, the main streets being wide, and heautifully adorned with trees. I had, however, but little opportunity of obsorving its beautics or its deformities, as I spent oaly two nights in the place-one going down, and another on my return. I was entertained at the Indian Queen, a very good house, except the mosquitoes. THE GRAVE OF A'BROTHER AND FRIEND.

Arriving late in the evening, and eaving carly in the morning, I had time only to visit twice, at suurisc, the place-most attractive and most profitsole to me-tho place where the ashes of loved ones sleep. Two of the dearest friends I ever had lie in the Tuscaloosa grave-yard. One, an elder brother, died whilst he was pastor in the Methodist Church in the town, and in the 36th year of his age. This was thirteen years ago, Sept. 21, 1838. When first stood over the slsb iascribed with his name, I found myself an older man than he was at the time of his death Here was a lesson of humility; for he had done some good in the world Here was a lesson of prudonce; for time is flying, and death has taken one hetter and more useful than myself. read with interest and profit, until it was impressed on my memory, the following expressive and not very elegant insoription on his tombstone:

"He met death with the resignation of the Christian, declaring that his only trust was in the atonement, and that the promised Comforter was with him. In God's own lands he left the hreath

"In Ged's own tands to sett the near Than Gol's own spirit gave," He was the noblest read to death; And his the sweetest grave." Of the other friend, Prof. Sims, the holar, the gentleman, the faithful riend, the purest and best I have known and lost, I could find no memorial." grave is among those of the undistinuished dead Peace to his sleeping shos-peace to his pure and lofty spirit I have sourcely known one so pure, so true. But I must not dwell with the dead, as I wish to say something of the

A CANDID OPINION ON SUMMERFIELD. INSTITUTE.

I was permitted to attend the examimnoh reputation for puffing, or flatter- parents in the noble duty of providing resears in some churches, while in others is perhaps I do not sufficiently in the means of subsistence and comfort tire family of each is taken into the count.

You must suffer me to say, however, that no botter Institution eau be found in the South, (nor in the North, so far as I kaow,) that the Centenary Insti-tute at Summerfield, Alabama. Let, me say to the public that here is one listi, tution, embraciag hoth a female and niale department, in which there is no hum/nuggery—the great curse of educa-tien at this time, especially of female schools. I detest the system of fraud and imposition practiced -so efton on parents in respect te public examinations and reports of schools, as if it was a small matter to trifle with the precious interests of the infinite mind. The business of teaching is made the means of hoodwinking wealthy parents to draw the money from their pockets te pay for nothing, or worse than nothing. Such schools are designed to cheat the parent out of his money and his common sense, and the child out of his time and his miud, more valuable than gold. If there is any vestige of this system at this Institute, I was not able te discern it The teachers try to do their work well and faithfully, and I think they come as uear the accomplishment of this purpose as any other teachers. I give it, therefore, as a fixed fact, in my judgment, the Centenary Institute is not a humbug, but au undoubted, indubitable, veritably existing school, claiming to be some-thing and claiming nothing unjust. To say that it is no humbug, is saying much for it in these days. I have said that, and I will say more—that parents can send their sons and daughters to no better place than this Institute. Let them

> Fourteen young ladies graduated : Miss Lucy A. Rhodes, Marengo eo.; Miss Martha A. Watkins, Greene eo. Miss Juliet F. Weolsoy, Summerfield Miss J. A. DuBois, Greene county; Miss E. M. Godfrey, Sumter co.; Miss Lucy F. Yeung, Dallns county; Miss Catharine M. Mims, Prattville;

t this and believe it, for it is true.

Miss Mary L. Baker, Dallas county Miss Mary A. Clement, Greene co. Miss Marg. C. Bonham, Wileox co. Miss E. A. Malone, Columbus, Miss. Miss Marie J. Cooper, Mobile; Miss Mildred W. Eve, Augusta, Ga., Miss Martha A. Bryan, Mobile.

This was the mest intellectual and interesting class of young ladies I have seen in any Institution; but it is not my line to write about the girls.

The Alabama Conference should be

prond of its pet, (it is such, I believe, and desorves te be so,) and since it has snooseded so well so far, it may be prudent to let well enough alono." I carnestly wish that the friends of the Institute and of the Church may stand rmly around this cherished seat of learning, and make its success a hun-dred fold greater than in any former period.

Franklin Springs, North Ala., July 28, '51.

Items of Travel--- Recognition.

Mr. Editor-I have just returned lachatta, Parish of Natohitoches, which trip required nearly three weeks for its accomplishment, allowing only three days stay at the point where my business called me.
To one who had for weeks together

uninterruptedly enjoyed the stimulating air, refreshing breeze, cooling shades, and delightful bath of the sea shore, the contrast must be experienced to he fully realized;—to be crowded into a small boat with a multitude of passengers, who came crowding to it, with the hope that so light a craft as the J. L. Webb would the worthy offering which the Memphis be able to pass the Falls, with little or

I was surprised to find the penciling of the high water on the trees on Red River from three to six leet from the ground, even on the front bank. By far the groater portion of country I ox-anined along the river presents an in-elined plane, being from ten to fifteen of treasure, but the treasure of treasures feet lewer, Irom a half to one mile from the river, than it is immediately on the bank; consequently, nothing but a conguaranty against an overflow.

The sparseness of the population long the river renders it wholly improbable that such a levce will be greeted or a number of years to come. This is deoply to be regrotted as it is certainly the most productive soil for coru and

cotton I ever saw.

There has been a very distressing drought in all the Red River country. I saw large plantations, in which cotton usually grows from six to eight feet high, and in no field would it avorage more than from three to three nud a half feet in height. Some crops which I glanced at from the harricane-deck of the boat, us wo passod, I did not think would have averaged more than two feet

in height.

If I had, in the three hundred miles I traveled up it, a fair specimen of the whole crop on the river, I have no hositation in coming to the conclusion that the cotton erop will fall one-third shortof what would have been made but for the drought Accounts from the uplands of both the cotton and corn crops

wore truly distressing.

I became very much interested in a gentleman of your state, a Mr. S., a woulthy sngar planter, of Bayon L.

I made his acquaintance on the boat, and travolled with him- to Donaldson- another, weighing shopt twenty pounds, am ville. As well as I recollect the facts cashy handled by any person. The means of that I gathered from divers desultory inthat I gathered from divers desultory interviews, Mr. S. is a native of Tennosseo. His parents romoved when he was quite young to Indiana, and aftorwards to Arkansas, and thence to Red Rivor county, Texas, where they now reside, learu that he still lies here, and that his surrounded by all their ohlldren and grand-children, save Mr. S. and his family. They and their children eround them are all members of the Methodist. Episoopal Church South, and one danghter the wife of a minister of the same

ing, and about forty years of age: He Hamilton College, made the following statement has a wife and seven children. Twenty of the number of persons attached to the various years ago, when his parents are not persons attached to the various ehurch. has a wife and seven children. Twenty years ago, when his parents were poor, nations of the Institute during Mouday and striggling under all the embarrass-and Tnesday, and it is with pleasure I ments of an early settlement in a new oun state that I was highly gratified at country, S. was in deep and constant the result. I do not think that I have sympathy with his toiling and careworn

for themselves and the younger members

of the family.

At this time he became convinced of two facts; the family were at length able to do without him, and, secondly, that the ends of his ambition could never he reached in that county. Hence, he courageensly formed the high resolve to throw himself a stranger into a world of strangers, to carve out his own fortune, to shape his own course, and relying ou his own resources, to fix his own destiny, in which we see the sublimity and daring of true moral courage.

Mr. S. fixed his mark high for a youth

in his circumstances. He determined whon he had acquired fortune, taken his position in society with an educated and accomplished family of his own about him, then, and not till then, he would see the dear ones he had left behind

Now, at the end of twenty long years since he had left his father's house, met him returning to his home on Bayen li \_\_\_\_ after an absence of two months on a visit to his parents and relatives In the twenty years he had fully reached the end of his ambition, and that, too, without the fortuitous aid of wealth by narriage As an itinerant Methodist preacher I entered into and appreciated that part of the story that found him once inore with his denr old father and mother, and exchanging misty glances from the brimful eyes of affectionate brothers and sisters, as the cordial, eagor grasp of heartily shaken hands attended the first mutual, joyous recognition. Mr. S. spent the night with married sister in the vicinity of his parents, and to provent surprise, took the precaution to notify them of his presence at his sister's, and of his pur-posed visit to them and the other memors of the family at their ewn house

the next day.

But lo I the man of forty is so changed from the yeuth of twenty that even his mother does not recollect him. In staturo, complexion, foature, and voice, he is so changed that his mother utterly fails to find a feature in the stranger before her that can be tortured inte a resemblance of her long-lamented, but

affectionately remembered, William!
From this difficulty Mr. S. soon re leased his mother, by assuring her that he was her own sou William, and adding to these assurances the narrative of the early sottlement, and troubles they encountered when he was but a boy at their new home in Indiana. As he proressed to the point in the story when it became necessary (though his assist-ance was wanted at home very much) to hire him out as an'ox driver to Mr his mother, whose face had twitched and shaken with emotion as the narrative proceeded, first felt the full force of the act that it was her own dear, William whe stood befere her, and with the shrivelled muscles of her face agitated and glowing with oxcitement, acknowledged with boundless, irrepressible de-light, with uplifted hands and streaming eyes, in breken sontences, and chokiug with emotion, at the ten of her voice-It is-it is-I know it is-my sonmy own, my dear son. William!" And for three days thereafter the story of the early history of the family

went on between-Mr. S. and-his mother; and as the proofs multiplied of his iden-tity, the delighted mother's joy grew fuller and more full until, in some sort, they nll, both parents and children, were repaid for the pleasures foregone, and privations imposed by this loug, sad oparation. In some instances the issues of banks,

after all the skillful and curious, contrivances and devices employed by the engraver to insure their identity, are not recognized when presented at their Conference makes to the California ne dotention, until the neat little steamer counters; and seven other and spurious issues are imposed upon them; but I thank God that the currency of the hearth stone, the family circle, the homestead, having to pass a mother's scrutiay and a father's test, is a widely tion and ready tongue of slandor have different affair-hard to counterfeit-

> within and of itself. . . . It was a pleasing and delightful re-

dection that forced itself upon the wine tinuous levce in front would afford a of the writer while listening to this affeoting narrative. If a solitary wanderer of earth, after a lapse of twenty-years, shall bring with his return to the family circle so much indefinable joy. what must be the high and holy rapture that shall characterize the Heavenly World when Adam and his youngest World when Adam and his youngest a man.

son—when all the various families of The other three ministers who spoke Earth, who believe in Christ, shall have restored to them their long-lost relatives and friends; for "Earth and Soa shall give up their Dead," "all that are in their graves shall come forth," and "we shall know even as also we are known. Bilori, East Shove, Aug. 6, 1851. E. R. P.

Frugality is necessary even to complete the plea ure of expense; for it may be generally remarked of those who squander what they know their for-are is not sufficient to allow), that in their most avial expense, there always breaks one some proof joyial expense there always breaks one come proof discontent and imparience; they either scatter with a wild despendence and affected lavishness, as criotically brave the gallows when they cannot estupe it, and enteror in one, with a peer's house, it, and enteror at once to spend billy and to save meanly; having neither firmness to denly their passions, nor courage to graffly them, they minimum at their own enjoyments, and poison the bowl of plansaria by reflection in he cost.

sylvanian says that Adams & Co. received by the last arrival of the Pacific, two of these muchines for extinguishing fire. They are about the size of an ordinary coal scaule, made of sheef iron-co-posed of a number of (yludrical cases within one vapor, although mill-combinetive, yet mor ami-respiratory, which is poured upon the first. The real course of the first being extragnished is not by creating n new atmosphere, but the Pennsylvanian believes by reducing the temperature of the flame behaves by reducing the temperature of the frame to a point of which it cannot can; this is accom-plished by a chemical combination of substances within the machine, which are brought to contact when wanted by agents of a simple spring, which, predos the Valov, and the is increased in the frame through the spout of the machine by the per-son holding its. Each machine will give 1200 onblofeet of gas.

London Correspondence.

LETTE'R VI. The important meeting, preliminary te the assembling of the Conference, o

which I spoke in my last letter, as to be

held in Manchester, is over. It occupied Wednesday and Thursday of last week. The number of lay-gentlemen invited was very large, not less, probably than seven hundred-the mimher pres cut must, I suppose, have equalled three hundred. The ministers present were comparatively few, not more than a third of the laymen. All shades of opinion compatible with substantial loyalty to Methodism were represented at meeting-indeed some were there whose views would tend to revolutionize Me thodism-and the greatest freedom of communication prevailed throughout. Only three ministers spoke, besides the President, who opened the meeting with "luminous and masterly-at the same time that it was a very moderate-adlress. Indeed men of candid, compreliensive intellect, and accustomed to view subjects' philosophically, are always temperate in their opinious and lan-guage. Such men cannot be partizans, or rush into extremes. And such a man s he whose term of Presidential office, amongst us, is about to expire next week. As he is not likely to come so prominently upon the Wesleyan stage ngain—at least fer some years—let me give a little picture of him.

DR. DEECHAM

Is a man of rather portly person, and rather stiff address. But his person and address form, by themcives a very delusive index of acter. This will be more truly divined by a steady and penetrating look at his physiognomy. A face remarkably fair and smooth, with a transparent ruddiness, often heightened by a ready blush, which tells of early hours and temperate habits-timid and shy, but kindly and thoughtful hazel eyes, small features, on a largish head; a mouth rather stiff and precise, whon set, but very simple and bland in its quiet smile; a genera bashfulness of attitude and expression not te bo particularly described. These traits of the outer, may serve to revea some characteristics of the inner man of one who possesses as much candid good sense, and as simple and devontly Christain a character as nny one I ever knew, and I have the good fortune to know the President well. Dr. Beech nm's defect of manner is a somewhat solemn formality, and of temper, too great timidity, which preveuts him from sufficiently depending at all times upon his own admirable judgment. Of heart and Christian conduct, I know not what lefect he has; I have not been able to iscover any. As a speaker, his timidity is much against him, frequently causing painful hesitation and slowness in delivery. But his matter is always excel-lent, and not unfrequently, when the coagregation is simple and carnest, and the theme ene of practical and general Christian interest, he becomes a mest richly instructive and deeply impressive expounder of truth. As a Missionary pose, untiring assiduity, and philosophi pal mastery of every question and sub-icot which it has been his duty to discuss. The great and statesmanlike ability of the memorials he has had to address to government en various eccasions, in retion to subjects connected with the

administration of our colonies, has been universally recognised. When elected to the Presidency last year, the only fear in the minds of any, was as to hi possessing resolution and energy sufficient for the momentous crisis of affairs then present. He has proved himself, position and to the emergency; and ha conducted the affairs of the connection with a united disorction and firmness above all praise. Even the onick invenheen able to devise little mischie against him. Such, then, was the Chalrman of the

Manchester meeting, and his opening address—in which he defined what in Methodism were, and must be fixed principles, the very limbs and vertebra of the system, and what parts of one present plans and arrangements might Now, this is evidently not to be permit he susceptible of alteration without in tel. Parliament cannot tolerate a risk fringement upon the essential definition and principles of Methodism-was what might have been expected from such

John Scott, a man supereminent l'er moderation, combined with firmness. and for practical wisdom. Dr. llannah, our much beloved and vory ablo Theological Tutor at the Didsbury Institu-tion or College, (as you would say) for influence, the Anglican Church would tion or College, (as you would say) for the training of candidates for the minthe training of candidates for the ministry, and the venerable Dr. Bunting, arrogant and intelerant sect, based upon who is really greater, more simple, dig-nified and Christianlike, and, therefore, is an eannot afford thus to exalt a system whose strength is now almost spont, but more reverenced and beloved in his failing old age, than in the of days his nuighty youth and munhood.

How many lay gentlemen spoke I can only conjecture; lint I should think

between thirty and forty: the ministers having made up their minds to give them the fullest opportunity for the conflict on the part of the Low-Omeroconnection of their seatiments on all against the Pusovite party, which could be against the Pusovite party of the conflict on the part of the Low-Omeroconnection of the conflict on the part of the Low-Omeroconnection of the conflict on the part of the Low-Omeroconnection of the conflict on the part of the Low-Omeroconnection of the conflict on the part of the Low-Omeroconnection of the conflict on the part of the Low-Omeroconnection of the conflict on the part of the conflict on the conflict on the part of the conflict on the conflic points. It appeared from this moeting that,

with the exception of two or three, all the laymon present were most cordially resolved to maintain intact the fundamental principles of Methodism. Nearly nll of them put their names to an excel-loutly drawn up declaration prepared hy themselves and signed among themselves, altogother apart from the minis-ters, in which they professed their firm resolution to hold by these principles and heartily to support their ministers in so doing. This put them at once directly at issue with the party of the

ness of some changes in certain miner provisions of Methodism. No oue, however, had any definite plan to propose. A great number of crude hints and suggestions were thrown out so many ns te perplex and hewilder the me resolute reformer there. But nothing hetter was found, after all, than to remit everything in conlideaco, and without any attempt at formal suggestions, to the Conference. You shall hear, therefore, of these matters again, when Conference

takes them up.

I doubt not that the total result of this meeting will be a ! heavy blow and great discouragement "to the self-styled Reformers, and a great confirmation to our constitutional Methodism. What a matter for thankfulness is it, that we have a body of laymen to assist ia our councils, at once so wise, so liberal, and

so 'deveted. On. Wednesday last, the ordinary mixed committees, before whom all the financial and mixed husiness of the connection is annually brought, that they may report thereupon to the Coafer-ence, began to sit at New Castle on the Tyne, where the Conference is to be held this year. These committees real. y manage, and have for many years managed, everything in Mothodism, but the purely spiritual affairs, and the sta-tioning of the preachers. The Station-ing Committee—composed of ministe-rial representatives from the various districts - commenced its sittings on this day week, the day after the closing of the Manchester meeting, and finished its first draught of the stations on Wed.

nosday night. The particulars both of the Mancheser meeting, and of the connectional committees and the Conference sessione, are, or will be, reported in the Watch man."

REVIVAL OF CONVOCATION. On the evening of the day on which posted my last communication, Lord .

Redesdale brought before the House of

Lords n proposition for the revival of convocation, which was opposed by the Primate and the Ministry, and lost conclusively. This is a part of the High-Church movement in this country, and accords with the almost simultaneous efforts of Bishop Philpotts at home, and of the colonial bishops in various dioceses abroad, to revive diocesan ay nodical action. Were the Church of England dependent upon voluatary support, and discennected with the State, it would of course he either inpertinence or oppression to interfere spiritual purposos. But, being the creature and the pensionary of the State, she cannot he allowed to exercise fans tions apart from State centrel: Nor. can it be replied to this that a right's only asked for, which was previously anjoyed, and which constitutionally belougs to the Church. This is not the fact; and to speak of the revival or retoration of convocation-although in referring to Lord Redesdale's motion, for the sake of compendiousness and to save time, T. adepted the phrase from Lerd Redesdale and his party—is in fact to empley an altogether delusive form of expression. The Church con-vecations of Cantorbury and York were recommended in former ages, merely that they might vote their own subsidis for the use of the crown, not at all that they might legislate for the Church. Or the permanent settlement of the man uer and amount of church taxation by the Parliament the proper function of the convecations was gone, and they fell into insignificance; on thus attempting in the time of Atterbury, and in the ently part of the last century, to reliev this insignificance, by troublesome interference with the State, on ecclesistico-political grounds, their meeting ere substantially disallowed, and the have since only meet annually, pro for ma, just that they might immediately be adjourned. The attempt is now in der the old name to create a now thing an ecclesiastical Parliament; in fact, ministering and controlling directly and iadepondently, ecclesiastical reveaus excercising supreme and unshared anthority in matters of church order

trative body, possessed really of antise al authority, and of nanual revenue amounting to something like £5,000,000 The country chunot telerate this seek -hesides the President—were the Roy ohn Scott, a man supereminent for oderation, combined with firmness, plain that, under the guidance of the party which at present promises the and burthoned by national subservient which is mildly called semi-Poper. And it is clear that either this would the result of calling together a coavod tion under present circumstances 15 influences; or at any rate that, if the result should be averted, it could only be by a continuous and most strenged conflict on the part of the Low Church not do more than prevent action—laing to no practical result, but prodose on every hand bitteraess of spirit.

As a national church the Church

and disciple, making or altering at their pleasure the cannons, rites, and doots

nal standards of the National Church

Now, this is evidently not to be permit

and coordinate legislative and adminit

England must be tolerant of consider ble diversity of opinion—high characteristics and low church, saoramentarian Calvinist, old orthodex and model evengolical—must be included with its pale. Something like this is a proticul necessity in all church establish ments, producing a tolerance of destriction laxity, and a connivance at case diversities of faith, even in those by the contraction of the contrac directly at issue with the party of the expelled ministry, represented by the Wesleyan Times, who have declared their resolution to be satisfied with nothing less than the "revolution or annihilation of Methodism."

At the same time it was preved that the formentation of these troubled attention which they had lored to be given to all the particulars of Methodism, together with the enlarged experience allorded by the two years of agitation, had demonstrated the tesirable.

agement of the church revenues thus possessed by many parties not directly and practically included within the pale and had church, and not sympathizing with any or, at least, very many of them with any or, at least, very many or them opposed in each of the parties with which that church is divided.

Churches. LEW's BILL. Un Thursday week the bill for the admission of Jews into Parliament was again thrown out by the Lords, as it has spain thrown out by the Lords, as it has been in two preceding sessions—this time by a majority of Si. The next evening Mr. Alderman Salomons went into these Commons to take his seat, as he hind pledged himself to do on his decelion but; conditing the words "on the true finith of a Christian," in the true finith of a Christian," in the eath of alignration, was not admitted as his seat. He attempted indeed to lake it, as he did also on Monday evening, when his case was again under die usion, but he was ordered on each easion, but he was ordered on each casion, but he was ordered on each casion to withdraw, and on his not doing so, removed by the officer of the House. He is said to be very anxious to be prosecuted by the Crown, or by the House, for breach of privilege; but

doing so, removed by the Grown, or by the Brosecuted by the Grown, or by the House. He is said to be very anxious to be prosecuted by the Grown, or by the House for hreach of privilege; but in this he is not to be gratified. The House on Menday night, in consequence of Mr. Salomon's refusal to withdraw on the Speaker's request, passed a resolution, similar to the one adopted least year in the case of Baron-Retbschild, year in the case of Baron-Retbschild, declaring the Alderhan incapable of taking his seat, on the ground of bis not having duly taken the oaths. It was this resolution, passed by a large majority, on which the Speaker gave the final order for Mr. Salotuon's withdrawnl, and on his refusal to withdrawn, for his removal by the proper officer on Monday

| Company | Alleman H. (It is stated in the Watch in the and the woman, 'W You, malam,'' said Alleunaa H. (Will sign your own bonds and then go where you please.'' Mr. K. is in quod. removal hy the proper officer on Monday

On Tuesday hight the second reading of the Ecclesinstical Titles Bill passed the Lords by an overwhelming majority—265 to 38. Surely His Holiness will new be less confident of the speedy "recouciliation" of England than he has beeu.

In France the debate on the revision of the Constitution -a debate conducted with remarkable ability and calmnesshas terminated in the refusal of the has terminated in the return of the proposed revision by a minority large enough, according to the law, to prevent its adoption. The majority in favor of its adoption. The majority in favor of the proposed revision of 724. prohibit the re-election of Louis Napo-

their decision after three months further consideration, be compelled to violate-the Constitution to procerve order—to enset a revolution to prevent anarchy. The effect of the recent division, brought about hy the obstitute of the Rod Ropublican party, was anticipated and powerfully rainted out by the philosophical Tocqueville, in his admirable report ou the revision, and the recommendition of the mujority of that committee was, in conformity with the arguments and conclusions of that report, to detern coclesis mine upon a legal and total revision of the Censtitution—perilous as that tuust be—as demonstrably and decidedly the y, pro for loss of two evils—one of which was incomediated the committee, therefore and the committee therefore and the commit committee, therefore, and the result of the discussion are at variance.

"In Portugal Saldanha still rules, but cannot precure a stable cabinet.

In Austria, and generally throughout Germany, despotism still strengthens itself, while it imposes a dead silence upon all its opponents In Rome bad government hecomes

worso; and French soldiers at ouce despice and uphold it. Assassinations continue. The French appear to mainthemselves in Italy principally to check Austria, while Itis Holiness plays the old Papal game of endeavoring to secure his own immunity or advantage from the neutual jealousies and rival interests of opposing pewers. Lomburdy has ratified a degrading concordat with Rome, by which she yields slavishly to the most excessive of ultramontane pretensions.

Obituarn Notices. DIED-Nehr Fayette Court House, June 15 h 4851, Miss LAVINIA MURRAY, in the 19th year of het age.

It has selfant fellers for my lot to make the ne-

unintended of graces in my or to tanke the ne-qualitance of graces ministly and estimated april that was the subject of this unines; in her and dendeath, a happy hundy has been deferived of one of its heightest programments, and a whole commoney covered with the mantle of mourning, She was a dui ful daughter, an alf crimate kind sister, and a warm-hearted friend. If any one might be suid to be naturally good, none per-

haps is unorseds erving of that character. Very lew possessed more viranes and fewer faults. better terms, an account of the everity with which they have been treated by the Yon Dieman's Lund authorities.

It appears by the fifth general report on the illating cerminal and private lunation and units the trind, just presented to Fultament, that there are in that roantry 15,000 persons affected, to a greater or less degree, with lunacy.

There is a great decrease of crime in the South of Ireland. At the Emmi essigns the only serious eras was that of Mr.-William Blood Smith, J. P., of Castlefergon, against whom bils were found at the first select of the comprisive with two matter persons, to marder his mother.

A girl of preposessing appearance, aged 19 years, proud of her linvirunt black bair, wore it long and flowing, was following ter occupation hast week in one of the Belfast sploning mills. Her half hecame entangled in the marchinery, she was drawn upond one-half her scalp turn clear off.

Tha aggregate tensan-right meeting at the Boyne, on Monday, appears to have mat all the wishes of his-promoters. The meeting was held on an eminence overlooking the river, and within a short distance of the obelisk commonousing the familian of within a short distance of the obelisk commonousing the familian in their cheers for the openion object they had then river, and within a short for less of the promoters. The meeting was held on an eminence overlooking the river, and within a short distance of the obelisk commonousing the familian in their cheers for the openion object they had then in view.

The Great Light Case.—After another trial, of the rawal eight slay duration, the case of "Wynne or, the Marigha of Wenneath," was on Trussay hongit to an abortive conclusion. The jury were illustrated without agreeming to a vertice, but it was inderstood that they were unanimous so far as the finding for the plantiff. The amount of the compensation, however, was the summiling block is it, it was reported, were for giving a farthiog, and than other six were in favor of very moderate dunages.

Eacumbered Estates.—Last week

tour in Europe.

Discovery of an Auctiont Schoolonian Idol.—The Gennan papers state that about three weeks ago, as some thousemen were dredging in the river Zbruck, which separates Gallician from Russian

A Some hostiffer were dredging in the river a Zbrucz, which separates Gallician from Russian Podolia, they came on a collossal statue in none, which they succeeded in bringing safe to land. The beight is about 18 fact, and the figure bas four heads, covered with curly hair, and without beard. It was recognized himmediately to be the representer ation of Syantovit, one of the principal gods of the old Scisvoulan race. It is supposed to have lain in the water for at least ten centuries, and is in axcellent preservation, nothing being, wanting extended the second from the left. This divisity had a celebrated temple at Arkona, in, the isle of Rusen, where luman victims were sometimes of fered up. This templa, ramarkable for the weslih it contained, was dastroyad in 1168 by Waldamar I, King of Demosativ Thin statue, which is the by Coant Potekl, on whose ground it was found to the University of Cracow.

Comparative Population of Cities .- There are als 

Cheinnatt, 16,198
New Orleans, 112,000
Sis citles: England has but 5, Scotland 2, Iretaid-3, France 3, Austria 2, Spain 2, of a population above use hundred thousand.

New Motive Power.—The Cincinnsti Enquirer says. "Mr. Sahran, of this city has lavanted as cause a pow which he has expended say fears of labor, which is destined to coperiode all others. The motive power is cashoric acid gas, and the expense of ranning the largest class of steamboat from this point to Naw Orleans and back, will not expeed \$100; with the engine acid in the the cost for fuel is from \$1200 to \$1800. Mr. Salman will soom be prepared to make a public exhibition of his longists."

John Runyan and his Judges. England, gives the believing account of to suthor of Pilgrim's Progress, when thought below Sir Matthew Hale and Justice Twisilen. The enlogium passed by Lord Campbell upon "the mobiest of allegories," shows a true heart and an appreciate judgment in the Chief Justice of Eng-

entogium passed by Lord Campoett open the moblest of allegories," shows a true heart and an appreciate judgment in the Chief Justice of England. He is speaking of Sir Matthaw Hale:

"His demeanor in the case of John Binyan, the muther of "The Pigrim's Pingress," shows him jaying respect both to the rules of line and to the dictates of himmality. This wonderful min—who, though bred in theor, showed a genins little inferior in thig to Datoe—lawing leen illegally convicted by the centro of quarter selectors, was lying in prison under his senience, by the good of B-dford. Some after the restoration of Charles H, the young enshulast had been arrested while he was prenching at a meeting in a private house, and refinding to enter into an engagement that he would preach no more, had been liddeted as 'n person who devil, shily and permiciously obstained from coming to church to hear divine service, and a common up holder of unlawful meetings and conventeles; to the great dismisaire and distraction of the good subjects of this realm." At his arrangument, he said, 'Show me the rlace in the Emistics where the Common Prayor Book is written, or one test of Scripture that commanis me to real it, and I will me it. But yet, now therefore the Heaven th

"Arbittary as the investigation of this sen-ciple in any status that would support this sen-tence, yet funyari was imprisoned under it, as he reduced to give furety that his would absain from spreaching. Efizabeth, his wife, actuated by his invasuated spirit, applied to the House of Lordsfor

stice.

Vitrified Socketed Tubes.—A new medium of conducting water, gas, steam, eil on all other liuds, has recently come into notice in New York, which seems dastined to soperscile all othera in use, not excepting iroo and lead. Thesa pipes or tubes ere two feet in length, and of various diameters, ranging from two inches to thirty-six, with rime or sockete of equal lbickness, being moulded upon wooden blocks, thue avoiding the possibility of weak parts or imperfections. They ere then highly gluxed or vitriflad outside and within, in a streight line from end to end, so as to prevent obstruction by fife accumulation of oil, and easily cleanaed by the constant flush of water. These pipes are intended to be laid horixontally, and fastesed together in the sockets by Bonnan cement, which very soon becomes firm and hard. There are also eingle and double junctions and bends for branch sewerage, and traps to the contract of the sockets of the contract of the superiority of these pipes consists in the incorruptible majerial of which they are composed, fendering them impervious to a prevent atransit, and contract of the pipes of the pipes of the independent of the pipes of

neorruptible majerial of which they are composed endering them impervious to acids or corrosive gents, lest or rust, while their great strength er ngents, heat or rust, while their great strength enables them to resist the action of frost and heavy traffic crossing them, when laid within a few inches of the surface. Their cost is less than one-third of iron pipes, and leas than one-aixth of they of lead, and, in view of their ebeapness, strength, durability and easa of repair, we do not hasitate to pronnunce them superior to naything of the kind we beve seen, and deatined to come rato very general use. We may edd tha faot that we are informed they have been exclusively adopted by the corporutions of London, Liverpool, Birmingham, Carlisle, and other principal towns, as the means of ununicipal sewerias. They have already attracted notice in this city, and beavy contracts heve been made for public and private sewerage in this and naighboring cities. [N. Y. Coarier.]

The Iron of Lake Superior .- The fullowing ex ract from the Luke Superior Journal is interast-ing, as showing the vast extent of iron in the mountains of Lake Superior. The writer says:

ing, es showing the vast extent of iron in the mountains of Lake Saperior. The writer says:

"The iron first showed itself, as we approached, in loose boulders and masses, scattered along the foot of the ridge, which, controry to my expectations, was mostly covered with heavy, timber. We show came to one of the quarries, where a miner was at work throwing into pieces the iron rocks. The soil and timber ore removed from the iron for "acveral hundred feet along the ridge. This opening into the iron is several hundred feet below the summit of the ridge, and shout one hundred feet above the level gruind. It presents a wait or dronger, by the most regular fractures being perpendicular. Out of the side of this ledge, masses of every size, from a pound to many tons in weight, are thrown down by means of a crowbar or by blesting, and the precess are broken up with a sledge hammer, so as to be conveniently handled.

As it comes out of the quarry it is hright and benutiful, breaking like cast iron, and seeme quite as pure and more compact. A ton of bloom iron is easily made out of one and a half tons of the ore. For from twelve and a half to weaty-five eents per ton, it can be quarried and braken up ready far the furnace.

Above and belnw, for at least four hundred feet.

The Convention of Virginia, which line been atting at Redimond during the last eight months, have at length ogreed upon the form of a new Constitution for that State, and brought the session to a close. The Constitution has yet to be submitted to a vote of the people, but of its accoplance by them no doubt appears to be entermined. The final-vote upon it in the Convention, on Thorsday evenling, on the question of its engressment, which was submitted as a test question, was 75 for engressment, and 33 sgalast it. It was afterwards adopted without discussion: The Richmond Times epitomizes some of the most important provisious of the naw Constitution; as followe:

Nearly all State and Commy officers are to be viewed by the people, including the Governor and Leant Governor, the Judges of the Superme, partner, and Grount Courts, and the Justices of the Pence. Commonwealth's "Attorneys, Clerks and Schools."

leent, Governor, the Judges of the Supreme, Derice, and Crouit Courts, and the Justices of the Pence. Commonwealth's 'Attorneys, Clerks and Sheotis.

The Legislature is to be apportioned, the House of Delegares on the suffrage basis with a Western majority of fourteen, and the Senue with an Eastern majority of four, which arrangement is to continue until ta65, when the Legislature may agree upon a new apportionnest, or submit the question of hasis to the people.

Taxes are to be ad vidorem, except that slaves mater twelve years of age are excupied. White males twenty-one years old are to pay a capitation tax equal to the tax on \$400 worth of hand. Slaves over twelve years of age are not to pay more than the tax on \$300 wouth of hand. And licences, incomes, and salacies may be taxed of the discretion of the Legislature.

Seven per result of the activing fleht of the State, and of every fource debt, is to be submitted to the voers qualified under it, on the fourth. Thursday in Oather, the returns made to the Governor, and if he proclaims it ratified, the Legislature, there we constitution is to be submitted to the voers qualified under it, on the fourth. Thursday in Oather, the returns made to the Governor, and if he proclaims it ratified, the Legislature, their elegated is tybe superceded by the new Legislature, which will be elected on the second Monday in December, and will meet on the second Monday in December, and will meet on the second Monday in December, and will meet on the second Monday in January, and thereafter the sessions will be been all.

ennial.

From this smootary recapitulation it will be per-

Natural Bridge in Alabama. - Prof. Tuomy ind air associate hove lately been truversing the State of Alubams, investigating its geological chi octer. Their ettention has been attrected to the many natural wounders in the more mountainsue

State of Alubams, investigating its geological coping rector. Their ettention has been attrected to the many natural worders in the more mountainaus regions, the most enaspicuous among who is the Natural Rudge, which they describe as atyalisg the celebrated one in Virginia:

It is situated in Walkei' county, about a mile from the road, and an the property obeyman by the name of Weat, but yet would well repny a traveler by the heavily of the accnery, for deviation in the coal measures, the only rock which in Alabama eshibits the truly wild and robantic granden of nature. Before reaching it our imaginations had been considerably eleval of hy the description given by our guide, hat mot withstanding, when the reality broke upon us in 16s full magnificence, we found that our expectations fell very in short of the truth. This grand structure of the Great Architect spans about one husdred and twenty feet, while its height is about seventy. A smaller bridge connects it with the hull beyond.

The symmetry of the main arch, will make it almost indestructible, though of course its regularity has only been produced by the undermining and breaking down of the rock, which, at some by gone time existed below it. The eleavage marks of the musicity sund stone of which it is formed, course at every in the more minute construction in resomble an artificial bridge, as these lines make is appear as if built with regularly would blocks. Beneath it are many pieces of broken and partially water-worn rock; materials as it were, left by the bridge uself. A liftle spring tricking from hetween these husden masses make in frequent resort of the deep regularity would blocks, Beneath it are many pieces of broken and partially water-worn rock; materials as it were, left by the bridge uself. A liftle spring tricking from hetween these husden masses make in frequent resort of the deep, which abound in that part of the country, and whose numerous foot-prints on the soft soil, the decay of the property of the partial of the partial of the print o

The captaio of the steamer St. Ange, intely ar piece of a tree which wan o most perfect specimen of ligneous petrifoction. It was part of a remarka-ble looking solitary cedar, which had for ten years past atood upon a hleak and elevated point, ebout fifty miles below the mouth of the Yellow Stone, While coming down, this last trip, he saw that his old acqueintance had fallen. Carlosity led him to the epot, which was about half a mile from the river, and perhapa 700 feet obove its level, when he found, to his surprise, that the whole tree was in the most perfect state of patrifaction. Judging from the shortness of the interval since he had see it, standing; it must have becoin that condition while standing effect os it had grown! The trunk was about thirty six inches in diameter. Dr Evans, a passenger, found near the same spot the shoulder blade of a mastodon, measuring nearly three and a hulf feet acrosn—also some enormous foot bones of the same affimul, fossil'shells, und th head of a sneke. Some heautiful specimens of the rocks found an Cannen Ball-river, whose mano is derived from them, were also brought down by the same boat. They are perfectly sperical, and with ont a very closu inspection, would pass for real cunnon bulls any where. They ere of sixes ranging from that of a common toy marble to the bolk of a hulf bushal measure. They are seen in measuraless abundance, projecting from the face-steep benks between which the river runs.

A Melancholy Sight. - Dr. Reid, a traveler brough the highlands of Perir, found letely in the descri of Atacama, the dried remeins of an assemblage of human beings, five or six hundred by number, men, women and children, seated in a semi-circle as when alive, and staring http. the hurning wasts before them. They had not been life had not departed beh re they thus sat around; has hope was gone; the Spomst lovader was at hand, and, no escape being lett, they had come hither to die. They still ait immoveable is that dreaty desert; dried like mitmidies by the elfect of the hot air, they still keep their position, sisting up as in solema council, while over that dread Arcopagus silence, broods everlastingly.

Arsenic in Cundles .- To detect aree ic in can illes, there a piece of gold coin or a gold collar or sleeve burton, and suspend it over the firme of a candle; (one or two inches above,) taking care met ing thus suspended for a few minutes, cool and rule the prece, and the sublimated arsenic will be found will be amalgamated with it, and exhibit a white matallic lustre like inferior silver plate. It is well known that arsenle is used very extensively in the manufactura of all or most of the various sorts of hard composition candles, whatever name they may assume. The community ought to have some protection significant this mode of disseminating

following incident as having occurred at the recencedebration of the Maysville and Lexington Rail

the work of breaking ground. On this demand, the innuence mass of sone sentrouding the spot instantly gave way, and four beautiful and elegant ladies, conducted by the President of the day, approached the interesting spot, and one after unother, vigorously, but gracefully, excavated each a spadeful of the earth and threw it into the barrbw to be whitefied osidu. Such a roar of joy and delight as followed this beautiful exploit, has been seldon leads and nine obsers were spontageously given heard; and nine oheers were spontoneously given to the fair inborers on the Mayaville and Lexington Railroad."

Improvement in Gasometers.—The New York instrument to note the connumption of gas, just introduced into use in that city

"The apparatus consists of two me "The apparatus consists of two metallic cylinders, connected by a pipe, with a reservoir above to supply writer and thus keep the gas at a certain height in the metres, thus equalizing the pressure and quantity of the gas, the metre regulating itself its supply one burner or lifty. The gas cutera alternately into one cylinder and the other, enfering one white it is discharging from the secund; thus works, other cylinders which are inside of the mein metre, and regulating a very simple register by which the consumer can tell ut a glame the precise emmut of gas he is consuming." Wasfare Against American Fishermen .-

Warfare Against American Fishermen.—Arrangements have been entered into at Toronto for the more effactual pratection of the fishery grounds of the British Provinces from the intrusions of American fishermen. Canade has agreed to place a steamer, and Nova Scolia two small vessels, in the Golf of St. Linwrence, to enforce the terms of the Fishery Convention of 1818 to their full extent, while New Brunewick is to place a small vessel in the Bay of Fundy, for the like purpose. The Americans have latherto lished, it is said, where ever they chose. ever they chose,

Discovery of a Gold Mine in Africa .- A very valuable gold mine, writes a Malta correspondent on the 2d in-tant, has, were ding to news just to ceived at this islamb, been discovered at a poin equi distant, or nearly set, between Tunis and Al giem. The French and the Bey of Tunis equelly chim it, and some very sharp leiters on the subject have justed. Unless matters can be adjusted, a serious disturbance may probably result.

Adventure with a Lynx .- This Rochester Dano erat relates the following adventure of whittle gir

in Canada: These uninitels, it is said, are becoming un These animals, it is said, are becoming naturer one in some parts of Canada, and are very foro ricus. A few days since, a little gill, on yehrs of oge, while engage I'm cuding trettles a quarter of a miles from home, in the township of Ora, saw an animal suppraching her which che supposed to he a dog; hat she afterwards donover of the tit was a wild unimal, and she ran to escape from it. The lawed har to get my unit of the word har to get my unit of the part of the same of the store of the stor

Rain Without Clouds .- At Norristown, New Rain Without Clords:—At Noristown, New Jersey, this phenomenon lately occurred. Oo the north and northwest horizon, says the editor of the Norristown Gazette, dark clonds were resting, frum which fightuling issued at repeated intervals. These clouds did not rise from the horizon more than 30 degrees. Over head it was perfectly clear, and the stars shone forth with remarkable brightness. In this state of the besvens the ratio communenced falling quite snartly, increasing in volunie as it fell, and lasting some four of the initiates.

Newspapers. There are fifty:two nawajiaper forty-five in South Carolina; ninety-four in Virginia, afty-three in Googla, and nina in Florida.

Baltimore and Ohio Railroad .- The Wheeling

Baltimore and Ohio Raitroad.—The Wheeling Gazette of Saturday says:

"The work on the big timuel of 2100 feet, under Mr. Petrhane, is progressing rapidly and with a characteristic system and foresight. Mr. P. has gone to the timnet with n 20 feat criting, and has already sunk one shift to the depth of 160 feet. This is an immone work, and must take him unif rha fall of 1852 to complete it, at which time all this sections on the line west of that, will be faither ell. It is enough that the Baltimore and Ohie Railrond is progressing fast as possible to the city and in seventeen mentis will be opened for travel."

Insurance in Canada. Li has recently hee decided by the Control of Queen is Beach, in Cana un; that insurance companies organized in the Uni-ted States cannot legally extend their operation into the British Provinces, nor-main ain a sui-against parties an premion notes; nor ceu partie enforce phyrical from such companies on their pol-

BRITISH PERIODICAL LITERATURE "LEONARD PUUTT & CO.'S LIST OF

The Landon Quarterly Review, The Edinburgh Raview, The North British Review, The Westminster Review, and Plackwood's Eduburgh Magnzine.

The wide-spread fame of these splended Period ais renders it needless to say much in dieir praise, As literary organs they stand far in advance of any works of a similar stamp now published; while the political complexion of anch is marked by a dignity; caudor, and forhearnose, not often found in works

candor, and formerinose, no well the three great of a party character. They embrace the views of the three great parties in England—Tory, Whig, and Liberal. "Blackwood" and the "London Quarterly" are Fory; the "Ecinburgh Review" Whig; and the "Westminster Review" Liberal, The "North British Review? owes its establishment to the last great ecclesizationl-meyement in Scotland, and is not ultra in its views on any one of the grand de pattments of human knowledge. It was ariginally edited by Dr. Chalmers, and naw, since his deeth s conducted by his soucin law, Dr. Hannn, asso clated with Sir David Brewster. Its literary character is of the very highest order. The "West minster," though reprinted under that title only, I published in England under the title of the "For eign Quarterly and Westminster," it being in fact a union of the two Reviews formerly published end reprinted under separate titles. It has, therefore the adventage by this rombination of inviting in on work the hest features of hoth as heretofore issued The above periodicals are reprinted in New York nimediately on their orgival by the British stemmer in a heautiful clear type, un fine white pnp-r, and are faithful copies of the originals—"Bleckwood's Magazing " being an exact fac-simile of the Edu

burgh edition.

Early Copies.—Our late arrangement with the British publishers of Blackwood secures to us early shaets of that work, by which we are enabled to pince the entire number in the hands of subscribe before any portion of it can be reprinted in any the American Journals.

Many of them, who cannot be considered rich men, but may rather be called shall reap also bountfully. Every man considered rich men, but may rather be called shall reap also bountfully. twenty or thirty pounds, to pay a just. Many of them, who cannot be consid-debt. But nothing has contributed cred rich men, but may rather be called poor, yet contribute with a spirit that according as he purposeth in his heart so let him give, not grudgingly, er of go to associations and missionary meet afford, because they know that these useful objects would without them; human afford, because they know that these grace abound towards yeu, that ye all elaborate and masterly manner, and, when published, will be found, we think, may abound to every good work. He persons stay at home, not merely to gain that maistereth seed to the sower, both the works ever given that maistereth seed to the sower, both to the works ever given that maistereth seed to the sower, both to the works ever given that maistereth seed to the sower, both to the works ever given that maistereth seed to the sower, both the works ever given that the solutions are treated in a most elaborate and masterly manner, and, when published, will be found, we think a most elaborate and masterly manner, and, when published, will be found, we think a most elaborate and masterly manner, and, when published will be found, we think a most elaborate and masterly manner, and, when published will be found, we think a most elaborate and masterly manner. O Thon, whose omnipotence can act it is eften their duty to do, but somecomplish, what to us is impossible, and to enter the king dam, make them, to whom thou hast committed ten talents; faithful over many things; and inspire, in their hearts, the language of thy servant. sum. If you judge by these signs, you may conclude the minister to be righ when it is not his property, but his liberality which is thus proved.

. But a second reply demands notice.

If it should be true, and a minister should he riels, what can that have to do Logan House Logan House I shall behold thy face in dighteousness, I shall be satisfied when I wake in thy likeness."

There are, however, many who would not be placed among the rich, but are persons of very comfortable incomes; whose expenditure is several hundreds a year, who get their own praise at the marvellonsly cheap rate of giving one guines every year to support a minister in the should be true, and a minister should be rich, what can that have to do with your payment of your just debts? If you enter the shop of a tradesman, you never inquire after his private property before you pay your hills. When a medical mnnishes given you be time and talents, you would not think of refusing to reward them because he was a marvellons and the rich, but are persons of very comfortable incomes; and a minister should be true, and a minister should be rich, but are proved the proved the

And by what rule of righteousness is Were I to speak as a man, I should a minister to be the only person whose tempt on their beggarly beaevolence. happens to be rich? When Christ says the spiritual "laborer is worthy of his reward," he does not add except he and deep commiscration : regret for the | should be rich ; and why should you add this exception? But you say he does not need to receive it. To which I reply, but you need to give it. De your duty, and let him judge for himself concerning his But you think that if dance, he ought to give away as much as his salary would produce: him give it away. But do not assume to yourself the right to give it for him. thought that they give to a minister really give it away to the poor? Are CO. Cothing, but no seventh part of what they pay to n maid sorvant; and perhaps they keep the deal of these. It is not, in the part of the cost of a lieve because he is rich? The very permitted that they have been used to the poor persons whom he is to relieve because he is rich? The very permitted that they have been used to the poor persons whom he is to relieve because he is rich? sons who perhaps are, after all, richer

than himself. But supposing him to he abie to labor without receiving his full recompense, to whom should he give that udvantage? This I do not forget. But you say that from the Gospel you receive more entrusted him with property, who has said, "he that resheth the poor, and he that giveth to the rich," are alike guilty very other person who cujoys the sound in his. sight. No: if I spend my life in his sight. No: if I spend my life and labors for nothing, it must be to henefit a people who cannot repay thom, not for these who will not. And he is not werthy of the name and office of a Christian minister, who would not esteem it a high privilege to be able thus to preach to a flock who would not other a late traveler in the East, will afford could to repay their minister, though he should give it back nationg them a houdred fold.

"One evening, while strolling along the sea shore, I saw such an extraordi

tors, in grent numbers, who are by far-the largest subscribers to the cause of religion among all those to whom they wrapped around the hody, from the preach. Somo, perhaps, who subscribe waist downward. His skin was retreach, pounds a year think their mini-ister under obligations to them; but seared with a hot iron. His head was they never reflect that this very minis- uncevered, and his hair, which was preor her own expenses, that sho may, hy be due management of it, gradually pounds every year, for it cests him as much out of his private means to live withered shoulders. His oyes, with the heart will the habit of frugal earo. The among them, that they may onjoy the exception of the balls, were a dull, mur-word of life. Instead of living by his ky red, and he kept them fixed on the do with her obligation to the money should be not tench as and devoting the interests of his ground, as if it were painful for him to labors, and devoting the interests of his ground, as if it were painful for him to little proporty to provide for his family look up, which I found to be the case. It when he is dead, he is obliged to spend hot only his interest, but O<sub>1</sub> shame and he was so frightfully thin that he seemed to the devoting the interests of his ground, as if it were painful for him to look up, which I found to be the case. It was a frightfully thin that he seemed to the devoting the interests of his ground, as if it were painful for him to look up, which I found to be the case.

and general and local metcorology; the natural productions of the earth, mineral\* and vegetable, forest trees, shrubs, medical plants and waters; agriculture, and its variety of products, local and general, and the mode of culture of the several great staple productions; the native inhabitants of the valley, their manners, oustoms, and the antiquities that mark the foetsteps of the earlier races of men; the animals peculiar to each portion of the valley, and the effects of civilization upon the native races of men and animals; the conquest, settlement and advance of States to their present condition of prosperity, and enlightenment; these and analogous subjects are treated in a most elaborate and masterly manner, and,

Dr. Monette has left another manuscript work in an imperfect form, which was probably shandened, or postpone for some more cenvenient period.

It is deveted to the physical history of the human race. It was among his earlier labors, and has, we believe not received much attention since 1831. One accompaniment of this work wouldbe a valuable contribution to graphy, if published. It was a set of maps, with all the countries and all the islands of the seas, painted in the exact color of the nativo inhabitants, at the earliest history. It was prepared to aid him in the discussion of the effect of climate on color, and not for publication, but would, we suggest, bo very useful as a school book.

These are the leading, but by no means the only scientific and literary labors of Dr. Monette. He occasionpower. The current events of the day portant to Methodism at present. Could were, as a eritie, not unebserved, nud

ties were incessant, and were never Methodism once possessed. Mr. Editroided or neglected. No man more cheerfully discharged the duties of a bids a complaining, fault-finding dispo citizon and member of society. Class Meetings.

Mr. Editor-1-read with pleasure, and I hope with prolit, a communication ally wrote anonymous articles, humor- by Pref. W. J. Sasnett, of Emory Colous or satirical. His criticisms were lege, en the "Theory of Methodist frequent, and sometimes very severe. Class Meetings," published in the April Ilis claborate review of Flint's Valley number of the Scuthern Quarterly Reof the Mississippi is an example of his view. There are few topics more imwe succeed in stirring up preachers and the polities of the times oceasionally people to a preper appreciation of Class touchod.

His secular, social and religious dutarn of that power and influence which tor, I am no "croaker"-the Bible for

If we will attend to the history of Methodism, we will find that the days of its power were characterized by a diligent attendance on this means of grace; and whenever, there has been cerresponding decline in attendance at

This shows how well true piety con sists with Mothodist Class Meetings. Among Methodists they are insepara-ble. We are naturally led to sappose thourishing condition, in Jackson, Lou-that the Class promotes piety. But I isiana. At his hospitable board, the did not purpose to write about the ad-I tinerant always found a welcome and a vantages to be derived from Class Meet ings, but about the correctness of making attendance at the Classea test of membership.

I may prebably write something that will not coincide with the opinions of same of my brethren; if so, be assured eye" in this particular.

The faithful pastor, carrying out the rules of the Church, often finds himself reproof administered, as the ease might hindered by the lax administration of require, Without these auxiliary meetfor the next General Conference to the aggressive spirit of Christianity, aboilsh the rule altogether, than to saw It finds men where settled pasters tion the rule, and yet admit of its in would never find them; it is just adaptfringement, without the delinquent bee ed to the people of the United States.

I will not call any of my brethren august, 1851.

to ? Or is it only in the Church of barely to live, are saving fortunes for minor or the paper? Young men, and of the church of paper? Young men, and the content of the minor or the paper? Young men, and the content of the minor or the paper? Young men, and the content of the minor or the paper? Young men, and the content of the minor or the paper? Young men, and the content of the content of

firm the fooble knees" of God's children. If they were the children of Ged, religion, and the things of religion. lay nearest their hoarts—"out of the abundance of the heart the month speaketh." So generally at least those conversations were religious. For the sake of effectiveness and convenience, prindence would have suggested that they meet togother for these conversations, for "they spake often one to another." So, then, we have something like a Class Meeting in Malachi. At least a meeting designed to subserve the same purposes.

What the prophet says they did, the New Testauent Saints are commanded to Let "Genfess your faults one to another, and pray one for another;" "watch ever each other in love." are Divine commandments. These we attsmpt to comply with in the class reom. It is our duty to "bear ene another's burden, and so fulfill the law of Christ." These burdens we are made acquainted with in the class room. Thus posted up, we are prepared to obey the injune

ard, catch-as catch-can manner, or shall we do it systematically? For convonieuce and ellectivoness, system is best; and system will prove a class meeting.
The Class, Prof. Sasnett argues, is supplementary to the itineraut plan, without whieli that plan cannot fulfill the flock is committed to them. But they must govern confermably to the laws of God. If the Lord has given n detailed plan to be followed by the pastors in the exercise of their office, then it is their duty to follow such detailed plan; but if he has established such an office, and committed it to individuals chosen by himself, requiring thom diligently to exercise it or suffer his displeasure, and yet has not pointed out the precise manner in which it is to he exercised, as he has not—in that case he has left it to the wisdom and prudence of such officers to exercise it in such manuer as to them seems best, provided, nlways, that they do nothing contrary to the lotter and spirit of the Gospel. If, thou, the pastors adopt a plan entirely consistent with the Seriptures, to regulate such pastoral govern

excision from the Church?

Tho Mothodist Church has established a polity entirely consistent with the Scriptures. The itinerant plan seems to have a postolic precedent, and to make up for the difference of parts. to make up for the deficiency of pastoral versign that must necessarily result from the oxtended fields of labor committed to the pastor, Class Meetings were established where all the members were established where all the members their pastor concerning their spiritual cendition and confort, exhortation and reproof administered, as the case might abler purposes than the gratification of sensual appetites. Without austerity, fall of humor, and keenly alivo to day, renders himself obnoxious to the social and domestic eujoyment, he lived charge of tyranny. It would be better to be the hest. It is just adapted to a pattern worthy of all imitation is himself objective. coming liable to Church action for neglecting his duty.

Meters. Editors—When last I had the pleasure of addressing you, I was in the city of Austin, the Texan Gapital. Since that time I have been

hook form, as the work 1 refer to is now in press.

The next town I passed through was LaGrange, which is about thirly-live miles below Bastrop, also on the Celorados. It is not as large, nor does it uppoar to be improving as faste as Bastrop. Thence to Rutterville, where there is a Methodist college; there to "Roomd Tap," which is a German town, in a German settlement, and is improving. From Round Top to Hrenbann; which is the capital of Washington county, said to be one of the wealthiest counties in Texas. Beenbau is a pretty and very considerable lown, and is improving. From Brenham 1 went to Independence; iedependence is a very pleusant little inwn. The Bap-From Brentom 1 went to ladependence; lede-pendence is a very pleusant little inwn. The Bap-rists-have a male sad female college here; which appear to be doing a line business and flourishing. From Independence I proceeded to Washington on the Brazes; it is a pretty and flourishing town. The Brazes River and bottom remind me very much of Red fliver; they are very much alike in

much of Red Itiver; they are very much alike in many respects.

I passed on from Washington to Old Jackson-ville, which is very much dilapidated and nearly deserted. The town appears to be moving to Chapel Hill is a neal fulle town, with quite a handsone situation. From Chapel Hill to Bellaville, the capital of Austin country. Belleville has a commanding and heactful site. From Bellaville to San Phillippee, on the Brazos, across te Wharlon, on the Colorado, than the Colorado to this city, where I strivet yesterday evening. This is quite a pleanant little city; sald to he very healthy, us it has the full henefit of the san breeze. It is within a mile, or a mile and a half, from the Colorado river, and is supported mostly by the planters How shall we obey these command-ments? Shall we de it-after a haphaz-

within a mile, or a mile and a half, from the Colorado river, and is supported mostly by the planters in Old Caney, Peach Crees, etc.

In traveling in this portion of Texas, nue sees a great deat of country, or land, for the amount of travel. In many, and in fact in most, places, nne can see for unlea all around him. I notice a great many flowers here, such as I never saw before; also many, very many, in company with the praissupplementary to the itineraut plan, without which that plan cannot fulfill the design of the Christian ministry. The argument is conclusive. We have either te give up the itinerancy, or maintain the laws of the Church respecting Class Meetings, or else exercise the pastoral office very inefficiently. Which shall we do? We dare not lay We dare not lay edges of these eracks begins to crumble off and fall aside the ministerial office—" a dispen-into the cracks, nutil they are filled up, forming a sation of the Gospel has been commit-kind of hollow. Perhaps the following susaness. ted to us" "Woe te us if we preach another crack will come in the aame place, and se not the Gospel." We dare not curtail on for years, until the ground is one constant uct the labors and daties of our office. Minthe labors and daties of our effice. Ministers are pastors of the flock, and as such the government and oversight of the flock in convenient of the flock in the flower in the flock in the chously, without any appearance of regularity; hot where the ground is rolling they appear like waves, or rails, at enequal distances apart, hul always up and down the slant. It is called by some, "wavy" hand. It is sometimes of a sandy nature, and not so good as the regular, "hog wallow." The rich-est land has the largest cracks. In going to sen, it oing from aca, it serves as a good tapering or fin-shing off touch. It often makes persons sick, as if they were on the ocean. I incan persons in a stage or carriage, of course. The elections are all ever in Texas, has very few of the candidates for the higher offices know their sloom yet. There were nasiderable disturbances at many points.

considerable disturbances at many points.

Dorn crops on the Sau Aatonio river are generally goad. But little cotton is made, and what little I did see on that river, had the "army worm" in it. Corn crops are very good on the St. Marks river and upper Chandaloupes. In some places upthere, they have not suffered a day for rain. Oern crops are pretty good, on the Chandaloupe as far down as Courales, but all below there, not more than half crops will be saved, owing to the drouth it st. and last but not least, the tramendous storm. that swept over that regina in June. There are some pretty fair cotton fields about Seguin and Gonzales, but nearly all below is cut short by the

Methodism Providential.

At the interesting Wesleyan Meet ing, of which our London correspon-

dont's last letter gave an account—a meeting called to consider what minor changes might be made in the system of Methodism without impairing its identity and vitality-the President, Dr. Beecham, delivered an excellent opening speech, an extract of which we tive from the "Watchman." Some of his statements find striking exemplication in the history of Connectional Methodism in America. Let those who love independency have it. The Connectional Principle is one with which we must stand or fall. But to the

Are we prepared to give up our be-loved Connectional Principle, or to maintain it in its present form as to great and essential principles? I think we are not prepared to attempt such revelutionary changes. There are many reasons which should make us pause before we laid rude hands use pen such a system. What is Methodism? It is not a thing of our creation, to do what the please with. If it were—if it had been contained to the property of the system. been a contrivance of our own-if it had been formed as many societies have ship rest upon us; and it has descended

to us, not for our benefit merely, but in trust for snoceeding generations.

I said the system is not of our own creation. I will advance another statement—I will say it is not a man-system There is a wide difference between Methodism and other ecclesiastical eystems. Almost all other ecclesiastical ave been fermed and constituted according to some preconceived theory or platform laid down by their founders. Was it with Msthodism? Nothing of the kind. No idea of originating a he had no theory to guide him; he committed himself to the direction of the Great Head of the Church, to an all-wise and gracious Providence; and the different' features of Methodism arcs as the work spread, and received the Divine sanction. So that our system has received, what I would call, a that the Visitor will not be sent to them after the wear is expired for which they no other system, have we not rejeiced Other systems have much more of human contrivance; but our system is providential, and we bind it

o our hearts on that account. I think, before we attempt to lay any thing like a rude hand (I will repeat the expression) upon this system, we should consider the signal benefits God has conferred by its instrumentality.
What has the Great Head of the Church not wrought by the instrumentality of Methodism? What was the state of Christiauity in this country when Methodism aroac? It is confessed by historians of all parties that, at that time, the Church of Eugland and the Dissenting Churches were snnk iuto lethargy; that a profound slumber rested on them. Methedism struck the spark of life into these churches. The note which Methodism struck awoke the Established and Dissenting Churches to life and activity. This is confessed on all hands. Look again at the direct benefit in our own days; at the amount of good effected in the conversion of immortal souls in this country; at the myriads, the untold myriads, who have been saved from sin and death, and ad-mitted to the Church trinmphant above by its instrumentality, and the myriads now living whom it has saved and blessed. Look at the good which has been

mentality in distant countries. And righteous law," on which the cloquent what has it done for ourselves? Do we speaker took pression to express his not owe our spiritual all to it? 'llas it net been the means of converting our souls to God? Are we not trophies of Divine grace through its instrumentality? ... Are not our religious enjoyments, and eur future prospects derived, instrumentally, from this system? And has it not been a blessing to our fami-lies? If we see these nearest to our hearts walking in the fear of the Lord; and in the comfort of the Holy Ghest, do we not ascribe all that to our beloved system? Locking then at the wondrous good which God has effected by it, may we not ask whether any other ecclesias-tical system has been so specially blessed and owned of God? And can there be

in a system which he has thus blessed I think before we interfere with such a system we should look around and regard the subject in the light of experience. Why, these changes which are recommended by the leading agitators who have effected so much mischief in our body—the changes which they re-commend—have been tried; the principles which they advocate are at work elsewhere, and we may see what is their

efficacy.

I have no intention to reflect upon other religious bodies. I honor those men who, differing from us, choose to retirs; and if they do so conscientiously and prayerfully, they have my best wishes. But have these systems, so exactly formed, as it is contended, in accordance with New Testament principles so adapted to satisfy the public mind, and meet the wants of the age and which started with so much eclathave they proved as efficient as was anticipated; and did the old body sink into dooay? What does history reply?

Lee not any that they do not occupy a respectable position, but what has been their success? It has been limited; while, on the other hand, the old system has gone on under the sanction of Heaven, brightoning and extending more splendor and and efficiency. Such considerations as these may well make us pause. They should lead us to hositate before we lay hands upon such a system lest we mar a Divinely-constituted piece

The proachers and people Louisiana and Mississippi Conferences will please mark the godly provocation extended to them in the Missionary eause by East Alabama. And why should not every Conference in the South-West be stimulated by this noble example, and endeavor to be nothing behind! The comon of Protracted and Consider it : If the missionary spirit over it, what an immense missionary more runy in these revivals, but am in haste.

The Trials of Faith

[Continued ] The reader who remembers the former article on this subject, will recollect that it advocated the steadfast condition and privileged assurance of the true be

There is a phrase used in connection with this view of faith which, aside from its critical objections, conveys a very false ond of a career, persoverance ends, it In t Tim. 1, 10, there are presented cannot be called final, or any thing else, to us the cases of Hymeueus and Alexal I have just received a letter from the called mal, or any thing else, it ous the cases of Hymnel-Rev. L. P. Lively, of Van Buren, informing me of the death of Rev. J. East forming me of the death of Rev. J. East of the case of Hymnel and a good conscience. The case of Hymnel and a good conscience of the death of Rev. J. East of the case of Hymnel and Hymnel when it has altogether ceased. It is ander, a who made shipwreck of faith verance; but final perseverance conveys

perseverance of faith heretofore treated of, and which, on close examination, will be found only its counterfeit. This doc-trine in the main, and undisguisedly BRITISH CONFERENCE - From the expressed is, that he who has once been London Watchman of 31st nit we a true believer has obtained such favor with God, that whatever may be his sub sequent delinquencies, God, in view of his early religious character, will infal during the year. A vacancy of thirteen in the "legal hundred" was filled. The opening exercises, as described, were opening exercises, as described, were that the true believer will steadfastly explicit doctrine of Scripture is, that

doctrine held as we have stated it, is object of traffic. found in Ezek. 33, 12 and 13 Therebered, but for his iniquity, he hath committed, he shall die for it." Such a dectime disclaims all grounds of merit. For if God should so bear in mind, the former faith and righteousness of nn of restoring him to a state from which would recognize merit as n quality of faith, and that merit, too, being of so strong a nature as to insure a license The for subsequent transgression with impunity l

II. We come now to the second pro position laid down in the former article: Faith as a morn! principle, subject to trial, is liable to defection during its moral conflicts. The constant emberts tions, promises and threats addressed to our faith, manifestly imply its defecti-bility—else means are used with no end ple of unbelief" as the Israelites.

to our faith, with an obvious view to of faith. They harmonize, too, with its provent its failing. But if this cannot hundlify and self-renunciation, for ble to fail—the Scriptures are guilty of unshaken and unclouded trust in God, the folly of employing usoless means.

We are to have a Camp fection. It must be admitted that table principlo. True, it need not mutate, but then neither can it be necessarily Infallible; for none but the Divine be nevertheless secured by the employ ment of certain means, that is by the presentation of certain motives, it follibly productive of moral results, the mornl ngeut is made to transgress through God's neglect to furnish him with the motives which would insure his obedience. In direct opposition, how ever, to the conclusion involved, God says that he had done every thing he could do for the culture of his mornl vineyard; and yet when he looked for the precious and healthy fruit of moral results, he found naught but a wild and worthless viutnge-so that moral means the most efficient do not infallibly, so-

onre a moral end. With this reasoning in answer to the hypothesis framed to meet the difficul-ties surrounding the doctrine of the indefectibility of faith, let us connect those Scriptural statements which not only imply the defectibility of our faith, but likewise declare its actual and utter cessation in certain instances.

"I have prayed for thee," says Christ to Peter, "that thy faith Iail uot." The prayer of Christ is here the means employed could these have been more powerful?-the prevention of l'etor's defection in full the end in view. Does not this prayer imply the defectibility of Peter's faith? A faith strong enough to have grasped, at one time, the Mcssiah's Divinity? But more than this— his faith did fail. This must be admitted, else a man may simultaneously deny Jesus openly, and have a genuine faith in him secretly. But belief in the heart is inseparable from confession with the mouth, as Paul affirms. Peter's faith, then, did fail. After Christ'had so warned him, and prayed for him, whether shall we say his faith failed from its own natural defectibility as a ing report was submitted.

f spiritual faith; that is at the point of conviction; he repented, vecting bit-terly; he did not build upon the foun-dation of his old faith, which was all gene, but began the work of conversion ntirely anew, like any other sinner.

In the Epistle to the Remans, we are informed that the excision of the dews was in consequence of their unbeliefthe privileges they had enjoyed being and pernicious idea of the assurances of consequent upon their former faith; as to sustain the Church in her faith. I allude to the phrase, "Final perseverance of believers." It is not not be careful, less they seem the sad fate of the Jews. He exhorts lishment of Missionery stations Scriptural phrase; moreover, it is a decided solecism. When we reach the into a state of unbelief.

In t Tim. 1, 19, there are presented

In 1 Tim. 1, 5 and 6, we are told that the end of the commandment is char-However, under the term is couched ity, out of a pure heart and of a good doctrine very much like that of the conscience, and of faith unfeigned, from which some having sperved, have turned aside unto vain jaugliug."

"But it is happened unto them ac cording to the true proverb. The dog is turned to his youit again, and the sow that was washed to her wallowing in the mire." These individuals had, a forsaken the right way," the way of faith. By faith they had got into the

that the true believer will steadfastly explicit doctrine of Scripture is, that in spirit and manner. Dr. Hannah was elected President; Rev. J. Farrar, Sectoral President; Rev. J. Farrar, Sectoral President; The financial affairs of the strong proof in the promises. Evidence in the sectoral property of the promises. Evidence in the sectoral property is that the case of Peter, who designed to the sectoral property is that the case of Peter, who designed to the sectoral property is the sectoral property is the sectoral property is the sectoral property in the sectoral property in the sectoral property is the sectoral property in the sectoral property in the sectoral property is the sectora lapses, as in the case of Peter, who de-nied the Sou of God; and of Simon last view of the doctrine.

The short and explicit answer to the mied the Sou of God; and of Simon, who desired to make the Holy Ghost an

Thus we have seen that on the one fore, O thou son of man, say unto the hand the true believer can never fall children of thy people, the righteous-ness of the righteous shall not deliver force of the severest moral conflict, and him in the day of his transgression; as on the other hand, the true believe Meeting (near Woodville, Mi.) which for the wickedness of the wicked, he may cease to believe and experience all shall the righteous be able to live for his apostacy. On the one hand, having his righteousness in the day that he sin faith in God, he has no cause to doubt noth. When I say to the rightcous he of his final triumph over all his spiritual shall surely live; if he trust to his own foes; on the other hand, he is admonsighteousness, and commit iniquity, all his righteousness shall not be remembered. Itef, "to be not high minded, hut fear," mitted, he shall die for it." Such a dee-laration as this is in beautiful consis-iudefeasible title to the heavenly inhertency with the nature of that faith which, while it ronders its subject a fit subject for Divine pardon, at the same he has no claim to the immunities attached to that character.

Now where is the inconsistency be-

tween these two demonstrably scriptural individual as to make these the ground propositions? It is true one bids man fear and the other to fear not. But the fear he had volunturily fallen, he certainly which he is exhorted to cherish as a free agent, is widely different from that fear which he is encouraged to repress us a bsliever. As a believer in God, he is advised not to fear amid all his trials. for God, is his "suu and shield," and though he pass through the valley and shadow of death, he will fear no evil. But ns a probationer, whose faith is freely initialed and freely sustained and subjected to severe moral stills, he is warned to fear, lest a promise being

These two forms of sucred mouition accord well with the voluntary nature possibly take-place-if-fnith is not lia- while they exhort to the exercise of anthey testify against all self-reliance. So far as God is concerned, we need mot and considered whether it worked well, or whether it worked well, or whether it worked or lay it saide. But this is not on position. Methodism is not a thing of our own creation; it has descended to us from our fathers. We hold it as a great deposit; the obligations of trustees thip rest upon us; and it has descended the progress of the many of them, under whose expectation; it has descended to us from our fathers. We hold it as a lections will take place in this recognition. Let us expect any of them, under whose of quarterly meeting. Our Presiding the colored being in the very fact that the end is infallibly secured from the very fact that the of under the winter, much depends on yourself and the colored people belonging to M winter, much depends on yourself and the very fact that the end is infallibly secured from the very fact that the end is infallibly of quarterly meeting. Our Presiding the colored people belonging to M works hard, and prays much—and the works hard, and prays much—and the works hard, and prays much—and the works hard, and prays much descended than by these means, and therefore faith in itself considered, the diministry generally. You may do the colored people belonging to M works hard, and prays much—and the winter, much depends on yourself and the very fact that the end is infallibly winter, much depends on yourself and the very fact that the end is infallibly winter, much depends on yourself and the very fact that the end is infallibly winter, much depends on yourself and the winter, much depends on yourself and the colored people belonging to M works hard, and prays much—and the winter, much depends on yourself and the colored people belonging to M works hard, and prays much—and the winter, much depends on yourself and the color of the Ministry generally. You may do the color of the Ministry generally with the olive in Mississippi, learly works hard, and the color of the Ministry generally. You may do the color of the Ministry generally works hard onrselves are concerned it is our duty to fear and watch, that our faith in au evil hour of self-sufficiency fail not like presumptuous Peter's He trusted in his own infallibility and not, in God's. attributes are infallible. If, theu, faith and the result was deep shame and be of its own unture, although not of mortification. Afterwards, when he had necessity, mutable, and its immutability learned to distrust himself and trust in God, he faced with boldness the greatest temptations. Believing then, in the fallibility of man, and the infalibility of lows that those motives are naturally irresistible, and infallibly productive of their designed results. Now look at their designed results. Now look at Ged striving to watch against the former, the impious conclusion involved in this monious although sesmingly discrepant statement. Moral motives being infalprinciples, which will insure our steadfastness in the faith and our final tri-

umph in the conflict of the moral life. To teach man his fallibility, and thus excite to perpetual vigilance, is the happy means to sceure his allegiance to God. To deludo him with exclusive views of God's faithfulness, as independent of conditions, is the most effectual means to lead him on blindly to the precipice of ruin. It is no discouragement, to admonish him of the fearful coutingencies that surround his present estate; for thus is he led to loso confidence in solf, and nourish that trust in God which alone can lift up his heart. Lot not thon the assurance of faith lead him to overlook the liabilities of moral freedom; nor let the contingencies of his present estate, lead him to withdraw his unshaken confidence in God. At every point of the boliever's experience, there seems to be a Scylla and Charybdis; happy-he, who calmly stoors-through the safe and narrow passage, between, Columbus, Ark. J. E. C.

Missionary Matters.

Mr. Editor-At the third Quarterly Conference, held for Tuskegee Circuit, at New Hope Church, commencing on the 24th ultimo, there was a committee appointed to take into considera-tion the subject of Missions; and enquire what means, if any, should be adopted to perpetuate and increase the they call sight. The clear suggestion they call sight. The clear suggestion they call sight they call sight the suggestion they call sight the suggestion they call they call sight the suggestion they call they c prevalence of the Missionary spirit of a passage of Scripture, their bold now so happily pervading our beloved immeginations early shange into a price. now so happily pervading our beloved immeginations easily shange into a voice this new volume or this direction new bounds of this Circuit; speaking to them. Thus, I suppose, that the local property of the which speaking to them. aud, after due deliberation, the follow-

Domestic Missions.

For stor N O. Christian Advocat. Bro. McTyeire .- The Lord has been very good to us on this mission. I'have received thirty-four members this year; and about half that number have experienced a change of heart I look fer many more accessions and conversions sending out their prayers and in before the close of the year.

We have had no great excitement at any time during the year,—the work has been slow, but I think, sure. The negroes are apt to have n great deal of excitement without any very streuwous efforts on the part of the preacher to produce it. Many of them have erroicous views of religion, and we can employ ourselves more profitably in removing these, and teaching them what religion really is, than in producing great excitements among them. Under strong religious excitoments they are very liable to the error, which, indeed, the whites are not wholly free from, of gan to the "September" loosing sight of the nature of religion, minal of the M. R. Church, South: and placing it more in feeling, than in the M. R. Church, Boula:

and placing it more in feeling, than in principle. Many of them indulge in breathing for plain sheep of coarly gill. Who, in the many of the many of them indulge in speaking from plain sheep of coarly gill. Who, in the many of t of their religious experience. They will talk of "travelling over hills and monntains and through the wilderness," this is! nent in appearance, large letter, and the last they find him or and the last they find him or and the last they find him or and talk the second at last they find him or and talk the second at last they find him or and talk the second at last they find him or and talk the second at last they find him or and talk the second at last they find him or and talk the second at last they find the second at last they fin him and a talk with him face to face. V. Suhmers on Hollness They often say that they have seen the Saviour, and will tell you the very words he spoke to them, which is generally some passage of Scripture, or what they think is Scripture. These expressions inducemany to suppose their prefessions hypocritical. I am very far from this pinion, with respect to very many of them, for in their lives they "adorn the doctrines of God our Saviour."

their immaginations bolder than the 1. 11 dl. most, if not all of their extravagancies may be accounted for. Many of them moral principle, or from God's neglect to employ adequate means to prevent, its failure?

"But Peter was ultimately restored."
Certainly; that faith may fail does not argue that it may not be renewed. But let it be remembered that Peter's faith, scriptious for the benefit of the same, but the purpose of bringing prominently before the people the subject of Missons, and taking, collectious and subject of Missons, and taking collectious and subject of Missons and subject of Missons, and taking collectious and subject of Missons, and taking collectious and subject of Missons and subject of Mis let it be remembered that Peter's faith, soriptious for the benefit of the same, buckra (white man) brought me from the ublime fruit of Christmanny with the process of its restoration, com- has resulted in the most signal success, dat meger country, if had been stay bacco and slow nor in his most if

The Women of New England .- We trust, says

The Women of Area England.—We trust, anya the National Intelligencer, that the statements in the following consummeration from the Saci Tudy. Democrat, of the condition of the fair ex in New England is untell true:

Some one sends us the following, with the request that it be published in our columns. It represents the candidated the New Begland wife and mayber as one of unmitigated, appared to it. The picture is drawn in airmig colors, and we hope it is not often true in file; yet it may serve the wasken stream to a cane which certainly admits of some alleviating, and demants at least a surpastly:

New England Women:—There is a great deal of sympathy at the present day, in these Northers of the black alave at the South; but in the greater size than the New England wife and mother in the middle classes. I here for her any cessation from cecliaved labor till abs-sinds it in the grave? Like the fabled Stephus, her labors are inceasant, but, nulke, they are multifarloas. Oh; if we self-styled "lords of erection" had on Signeenth part of-woman wark to do, we shaeld give up in despair, lang before poor Darby did, and think the labors of the coult and the same are as many more shead. She can never need to the comparison. He had but twake, for which, when finished, he was defined; but a face of the coult are also the could receive sympalty or accouragement from him as a face as many more shead. She can never need the middle classes in the could receive sympalty or accouragement from him as a face as many more shead. She can never need to make the proper of Darby did, seed think the labors of the could receive sympalty or accouragement from him as a face as many more shead. She can never need to make the proper of Darby did, seed think the labors of the could receive sympalty or accouragement from him as a face as many more shead, she could receive sympalty or accouragement from him as a face of the f

Fourth of July in Rome .- A letter from Rom Italy, states, that la answer to a aptice sa carefully

Italy, states, that Ia asswer to a sotice as carefully draws by a set be give offence to the "powers that is," a party of gentlemen met at the Hotel Loadrey, July 4, 1851. After discassing an extended discassing an extended discassing as the set of the British Agriculturist, in reviewing Professor Johneion's.' Notes on North America," says:

"The exteat to which omigration is now going from Grent Britain is, ladeed, such as ought to exclusive the serious alarm. In this year 1849 the numbers in the partiamentary returns were close upon 400, 000. We have seen the returns for 1850; but we believe that the increase during that year was at looss twelve per coint, and thin year it will be still more. We are quite prepared to hear test, doring the present year, 500,000 Individuals will have left the British Islands, which is equal to about two years' increase of the population; so that, at this rate, every four years the population will have diminished by nearly one million. The Irist newspapers are already recanding with apprehensions as to the consequence of this whideshie year time of expatriation. The writer-concludes that Great Hintain authers greatly, not only from the loss of hunds requessary for agreenthinal labor, but also from hose of capital—the latter being computed at £10,000,000 u year, taken out of the pountry by emigrants. tombe, anay we driak the wine ownerves."

wings aver our glorious country; but may ahe aut
be plecked, like the Roman oee of yore."

By H. B. Baldwin, of Baltimore—"The Ladies
of the United States."

By H. B. Baldwin, of Baltimore—' Tha Ladies of the United States."

A Ressimistence in French Politics.—There is a curious fact, which it may be well to remember in ease of a coup of control of Gen. Magnan to the command of the army of Paris—a command which, in the case of a coup of cto, would he of the most importance. When Priece Louis Nepoleon landed at Baulogae in 1810, with a view to proclaiming himself Emparer, General Magnan happead to be stationed there. The commandant, M. Menoman, was in the caseleuse of the Priace, and through him owntree were made to General Magnan, arm, affering him one, hindred thewasand frances bould be deposited for his use la the bands of any backet or actury when he might select. These facts were swora to by Gea, Magnae, is a deposition published in the Moniteur of Oct. I, 1840, and he added that "the radamous propositioe was rejected with scores." Either the magnanthuity of Louis Napoleon is greater than he has credit for, or the General has been found more compliant in that designs of a Prime in power then to the wishes of a Prime in power then to the wishes of a Prime in power then to the wishes of a Prime in power than to the wishes of a Prime in power than to the wishes of a Prime in power than to the wishes of a Prime in power than to the wishes of a Prime in power than to the wishes of a Prime in power than the large as a full his bands, let

and immediately there was an encare. With the point of the line of the lend and neck, sixy two in the filling house, it is the was placed with the national idea, and immediately there was an encare. With the competers of Julien, he jumped upon the platform, research a cane, and using it, for a basion, resonance of the team of good old air, "and this performant dashed through it, executing the siparking but difficult variations with a force and elegance that again enchained the payel presence, and elicited the eleers and vivas af the whole ascernially. London-Correspondence of the N. Y. Spirit of the Times.

Emigration to the United States.—The North British Agriculturist, in reviewing Professor Johnson's "Notes on North Arkerica," says:

"The extraction which on gravity is a seen and elegant of the teach and the professor Johnson's "Notes on North Arkerica," says:

"The extraction which of the weaking children in the force and elegant of the teach of th

wernen were washing chithes in the hot sitn in the sec spile, but I saw no trace of masculine industry (other than what I have described, and the place contains, 7000 inhabitants." Walking on the Water.-We learn from the

Pulking on the Water.—We learn from the Paris correspondent at the Philadelphia Halletin that, u few Sandays since, this experiment was tried on the Scine, in the presence of a large annuler of spectators, with perfect success. What the invention consists in is not stated, hat six men, provided with the new boots, welked up and down on the river, smeking cigers, wheeling at the word of command, and performing a variety of diverting macacures.—The experiment was quite successful, and the happy inventor expects to make his fortune by selling his boots to fishermen, steam parket passengers, and travelers on our Western waters. alers.

\*\*Spirits Disguised."—Liquors in large quen-

The Arob and his Scrpenis. A Paria correstitios ere still sent to the State of Maine, but the erdent is so well disguined that it deflea even the yax eyes of the Committee of Vigilance. The

ynx eyes of the Commisse of vigitance. The Boston Timen snys:

"We knaw of one hause in this city where a gaantity of 'Dark Cuard' (hraady) was pamped into a tea gallon keg—the keg' then packed with shavings in e flour barrej—the barrej heuded up, end marked 'glass; this side up, with core.' It weat through safely, and was tluty demoured."

Muscdote of, Danton.—After the execution of Louis XVI, England, Spain and Austria sent home the French Ministers resident at their respective country. Royalty was sutraged in the death of Louis, and the crowned heads of Europe-must look wel to their own throats. War by the allied poivers was declared. In this momentus crisis the gigantic Danton, rose in the Convention, assembled at Paris, to make a Constitution and eateblish a Republic, end uttered himself in this puggart style: "The coalesced Kings litreaten na—we throw at their feet, as gage of war, the head of a King?"

Macaulay and Pean—We nee it stated that Mr. Macaulay has abandoned the serious charges against the cheracter of Wm. Peue, which excited such satonishment among the readers at his History of Eagland. A man of less fame than tho popular essayist, would have been ruined by a sincilar fame montage against Pean has been fully proved by his latest hiographer, Dizon, as well as hy others.

Second Survey Theology of Systems.

Saratoga Springs .- The discovery of Saratoga Saratoga Springs.—The discovery of Saratoga Springs was made only fifty-aine years sinen, though it is probable that the Indigns knew of their virtues. John Taylor Gillnan some time Governor of New Hampshore, but then a member of Congress, while shouting in the neighborhood, in the summer of 1792, found the effervesceat water gushing from the cliff of a rock, and the spring almost immediately afterwards became famous.

Telegroph in Nova Scotia .- Workmen are naw

Pictou to the Straits of Canso, Nova Scotin: A Pictou paper says:

"It is expected that the line will be completed to the Straits of Canso in about a fortnight from this trace. The carrying of it across the Strait is likely to be a formiosoir indertaging. If will require a mast on the Cape Breton side 32 legs in height, and on this side, at Cape Porcusine, the wirs will be put on a post of the ordinary height, the land belay so mach more obstated thus on the other side. The distance across is about half a mile. It will require some six or eight weeks to complete the work, and it is expected to cost from £600 to £800."

2 500 to £800."

Mob Law in Tustinger, A'a, on Angust 13, a man by the onine of McCoy, charged with being under the town pump, watered, and then elevated upon u rail, marched, to the lunes of tin-pany, town to the charge of the distance from the town pump.

ARRIVAL OF STEAMER ARCTIC.

New Yoak, Angest II, 1831.

The royal multiple mark Arctic arrived this morning, bringing 36 possengers, and I exepted does the 30 half. Specific prepared to very heavy math-acst and south west gales during the passage. The Africa arrived at Lawfrood on the evening of the 26th, and the Haltie on the 29th ult.

The Liquor Traffic—On Saunday last, being the day in while the Mayor's sixty-day proclamution expired, the several liquor dealers in this city, great, and small, including hotel keepers, apotheresties, and all others who had to any extent previously participated in its sale, voluntarily abandantly the traffic; and now, on this seventh day of August, in the year of grace, 1851, not a single glass of intoxinesting, liquor of any kind is sold, an can be offinined for love or namey, or for any purposa whatever, in the city of Augusta! So, at all ovents, we are informed, and verily believe. [Augusta & Gould of State of St

> BRITISH PERIODICAL LITERATURE. LEONARD SCOTT & CO.'S LIST OF REPUBLICATIONS.

The London Quarterly Rowiew,
The Edinburgh Review,
The North British Review,
The Westminster Review, and
Wackwood's Elinburgh Magazine.

The wide-spread fome of these splemlid Period cals renders it needless to say much in their praise. As literary organs they stand far in advance of an works of a similar stump now published; whila th political complexion of each is marked by a dignity cander, and forbenrance, not often found in works of a party character. They embrace the views of the three grea

Tory the "Edinburgh Review" Whig; and the "Westminster Review" Liberal. Tha "North British Review" owes its establishment to the last great ecclesiastical movement in Scotland, and h mit altra in its views on any one of the grand dendingthy Dr. Cleubers, such news since his death is conducted by his son in-law, Dr. Hanna, asso-cinted with Sir David Hrewater. This literary charwier is of the very highest order. The "West minster," though reprinted under that title only. ublished in England under the tirle of the "Fo eigh Quarterly and Westminster," it heitig in fact a unian of the two Reviews formerly published and e-printed under separate titles. It has, therefore the advantage by this combination of notting in one work the best fentures of both as heretofore issued.

The above periodicals are reprinted in New Yark immediately on their arrival ny the British stenmers in a beautiful clear type, on fine white paper, and are faithful capies of the originals—" Blackwood's Magazine" being an exact fac-simile of the Edin. Early Copies. Our line arrangement with the

British publishers of Blackwood secures to us early sheets of that work, by which we are enabled to place the entire number in the handa of arbscriber o fure any portion of it can be reprinted in any of the American Journals.
TEAMS:

## "Helling Ears,"

A prediction may be found in Paul's at all. Hence. I. repeat, when the design of Methodism is abandoned, let its sign of Methodism is abandoned, let its concay and, existence cease. Organic dure signal doctrine, but after their own lasters are greatly discouraged by their rambling propensities, they persist in their course, to the design of Methodism is abandoned, let its dure signal doctrine, but after their own lasters are greatly discouraged by their rambling propensities, they persist in their course, to the design of Methodism is abandoned, let its dure signal doctrine, but after their own lasters are greatly discouraged by their rambling propensities, they persist in their course, to the design of Methodism is abandoned, let its dure signal doctrine, but after their own lasters are greatly discouraged by their rambling propensities, they persist in their course, to the design of Methodism is abandoned, let its dure signal doctrine, but after their own lasters are greatly discouraged by their rambling propensities, they persist in their course, to the design of Methodism is abandoned, let its dure signal doctrine. The last their own lasters are greatly discouraged by their rambling propensities, they persist in their course, to the design of Methodism is abandoned, let its discouraged by their rambling propensities, and the let of October next. Methodisar may be destroyed, but can lusts will heap to themselves teachers. struction of the societies to which they Methodisar may be destroyed, but can having itehing ears. This indicates, we suppose that the time-would come sold fine of class meetings; they will find the class meetings; they will find it in the class meetings; they will find it in the class meetings; they will find it in the class meetings. The committee, whose daty it was to it then and report on the recent examination of the Macon female Collegment of the Macon female Colle That it cannot be enforced, is sine story of the Cross, and the unadorned

Those only who enjoy the life of God. Now, we will not say that this is the Those only who enjoy the life of God. Precise time that was predicted by the it exerts a disastrous inflaence on our light Chest in the above words; but, or those having the form and seeking Holy Chost in the above words; but, the power, are alone fit to remain in the from the observations of many years, we have Church Will such leave rather than attend class? Never. And those who will leave the Church for this cause are of no service or honor to it. But they have "wealth" and position, says Bro II. Ah, here is the secret of all the difficulties of the Methodist Discipline difficulties of the Methodist Discipline. ment which the usages of society and We wish to retain persons in the Church the monitions of conscience will not itching cars must be tickled with a ser-We wish to retain persons in the Church who are unfit to remain, because we wish the benefit of their purses or positions, or for the sake of numbers is we far we shall loose eastes with the "Ribers and Pharisees." For my part, had rather have the prayers and piety of one poor, but truly godly man in their place, than have them all—with their harred of class meetings. Neither Bro Hughes for myself will live to see the far we so far changed, that it will not tend to the knowledge and love of God," and in ear-fally composing the angle of the succession of the sanctuary into so much for profit as subout the difficulty of preparting so many sermous, we quoted the direction in our benefit text. It appears also from the sometimes exhort without taking a text. His reply was characteristic of the ministers. The preacher may be of questionable piety; to say the least of the day, when Christianity and the pride and corruption of human nature will have so far changed, that it will not tend to the knowledge and love of God," and in ear-fally composing line way, for this purpose, almost entirely

being an ender at scattle by such pillars and sometimes sorely wounded in his corrosity. And when you approach the beauth of the feelings by men who ought to stand by their decis of other churches, is admitted.

But they are not Methodists for other reasons than this Residues are all of the stand by their feevent and effectual prayers. And sometimes it happens that a minister's labors are slighted, and it is said by their feevent and effectual prayers. And sometimes it happens that a minister's labors are slighted, and it is said by their feevent and effectual prayers. And when you approach the service with careless indifference, or with reasons than this Residues are all of the duties of lies of stand by their feevent and effectual prayers. And sometimes to the service with careless indifference, or with reasons than this Residues are slighted, and it is said by

tring chloreement of the unequaned discipline, producing a spiritual Church; and mar their peace to the expense of many of our liber peace to the expense of many of our liber, and of Brother Hughes too, for the liber peace to proper by his word, merely because it is not spoken in words and phrases to suit their fancy, and with looks and gestions to suit their fancy, and with looks and gestions to suit their hasting in this strain, but I really feel to state. While these wise men are struggle to reach the points. I amplyed humbled that we can get our consent to sitting in the chair of criticism, and

their porty and zeal to a level with the inflaences to hinder, it certainly can in Many act us thought that ther poly and zeal to a level with the mass of the professors around her, her mission is done. And when those upon the administration of her discipline and the maintenance of her purity and salvation of our Church. We be depends, consent to and adopt this declared. I pray God she may cease to exist as an organic development of Christical and our content regulation. Brother Hughes's the large our regulation. Brother Hughes's the large of the presence to address them. sa an organic development of Christinaity. No providential endersement or infination from God varrants its existence another hour. Neither the possible of this very instance of this special of the plant of the social and domestic enjoy. But there is a deficit of which, the social and domestic enjoy. But there is a definite the maintenance of which, the social and domestic enjoy. But there is a definite and simple remedy for all the objects and temporal interests of myriads have been scarling as a complished by characters—to create select retreats and frigol proprieties are to be observed.

State a cauten as ours will inevitably become a lower than the distinct of this when the preachers rises to address them when the preachers rise to address them when the preachers rises to address them when the preachers rise to address them when the preachers rise to address them when the preachers rises to address them when the deficit of many if the have either natural or meaning the late sittings of the Board Trustees, they determined to fake the maintenant of meaning to the end in the when the matter and may if the have either natural or meaning the have either natural or meaning the late sittings of the Board Trustees, they determined to fake the many many aday. The concentration of the whole remained to fake the maintenant of meaning to the have either natural or meaning to the have it in the additive ordering them they are the either natural or meaning to the have either natural or meaning to the have either natural or meaning to the late of the whole runter of meaning to the have it in the distillation. To many it is the earlier, which who is the maintenance of this school and runter the manutenance of this school and runterly medicate the will preach the maintenance of this school and runterly medicate them the pre

teachers. Its mission is to the masses iness to bring those who have neglected time of this will discuss among our is mork; to save them. ### Things of Memory.

When I took charge of the station in Jack I make range of the station in bination of the most effective official people who were members of the Charch functions. Its incumbent is a traveling people who were members of the Charch—several of these, had been brought in during, a revival which shad preceded me; mining these was a youth of near twenty, son of a widow lady. The was possessed of an anniable and social distriction; a disposition calculated to draw around him prove friend, where draw around him many frieinls whose attachment would be ardent and permanent. After being in my work a few sounding the evangelical trumpet, alvoweeks I began to discover that this cating the great interest of the age, and young man was being brought too much under the inflitence of his companions. and that they were likely to prove a snare to his religion. They were hang-ing around-him and keeping him from the prayer and class meetings of his Church. Fearing lest in would be led Church. Fearing lest he would be led and botal preachers, and exhorters, on astray and apostatize. I visited him, to his district; to give thom counsel recaution him against worldly inflaences, and to urge him to faithfulness in the discharge of religious duties. What faults, and adjust their differences. Assure sure in the discharge of religious duties. What faults, and adjust their differences. Assured by a man of capacity and energy may find here an civilable field of their church book. I remonstrated with fulness; his district may be a line of the church book. him on choosing such a course, and battle, whose whole movement is at his urged him not to take it; I requested command. How many recruits may be him to give me his reasons for desiring to be dropped. He remarked, that there was a dancing school in town there was a dancing school in town on the youthful evangelists under his which he expected to attend, and, for guidance? how cheer them in the hour How deeply grieved was my heart, when the made this announcement. I saw his danger, and currented him to abandon the thought; I set bolore him the consequences which would follow if her sequences which would follow if he por-

to know his decision. When I inquired and the very evident close and arduous profitable use they had made of their which only a pastor knows, when he attention bestowed upon their stadies time. I went home and took up the church book and found his name, paused, and wrote opposite to it, "dropped." dancing school went on, and many of the young people attended; among terested in the amusement; and soon an examination where the pupils, partotilike, recited portions of the text-book as they had committed to memory expressly for the occasion: There was well sustained, notwithstanding her in disposition a part of the time, and the proficiency of her pupils proved beyond a doubt her ability as a highly accomdisposition a part of the time, and the some came to the altar and professed to plished teacher.

On Commencement Day the audience were a few in the same locality who cujoyed the pleasure of hearing an able, dignified and cloquent address from the selves in an attitude of resistance, and

him several days, anxious to afford him

the liberality and hospitality of the velopment of the moral powers, were exèrcises well calculated to impress the audience with the thoroughness of their training, and to convince them how procitable such must-be in their ordinary, recitations. We were no little gratified at the examination of the class on moral and police, with Mr. Poindexter, that this study should be pursued at a very early age, that chilled and religious community, and hospitality of the community.

In conclusion we would remark that for its opportunities no school in the class, there is a God remark that the examination of the class on moral and police, within our philosophy. We believe, with Mr. Poindexter, that this study should be pursued at a very early age, that chilled and religious community, exercited the moral relations.

The liberality and hospitality of the community.

In conclusion we would remark that for its opportunities no school in the convince the individual said to me, was shooked to the little apparent progress, what evidence he had of ultimate success. "As here is a God who will fulfill his promises." This faith had not grasped a shadow. This received; it ventured to talk of Josus and his great salvation, and to point to the little apparent progress, what evidence he had of ultimate success. "As here is a God who will fulfill his promises." This proached him kindly, and was kindly received; it ventured to talk of Josus and his great salvation, and to point to the little apparent progress, what evidence he had of ultimate success. "As here is a God who will fulfill his promises." This faith had not grasped a shadow. This received; it ventured to talk of Josus and his great salvation, and to point the class of a sound religious community, exempted to the little apparent progress, what evidence he had of ultimate success. "As here is a God who will fulfill his promises." This faith had not grasped a shadow. This received; it ventured to talk of Josus and his great salvation, and to place. Missionary Alsocate.

A Batal Mo belt and sendered strike by such pullers achieved. That some who might have been set the present and sometimes sorely womisted in his sender certain circumstances, make prominent and pious mem for other churches, is admitted.

But they are not Methodists for other churches have really, any discipled, examinations, or tests that require their members of the study and whole up this hands by their members of the me

sively insulated from each other, individualized in their spirit. The Pre-siding Elder is still a lick of relation. ship between them. He belongs to them all throughout his district, and his keep alive the sense of a common inter-

est and a common sympathy. fending on the subordinate ministry from victory to victory? Assuredly, if such function is not usefal, the fault must be more in the officer than in the office.

4 Further, he has official oversight of all, the olders and deneans, traveling specting their ministerial conduct, direct their studies and labors, reprove their faults, and adjust their differences. As rally into the ministerial corps? How may he impress the apostolic character

sequences which would follow if he porsisted, but no, he still requested that his mame should be erased from the church register. I thought of une expedient which I would use to save him, if possible. Having to be absent from town six or eight days, I desired of him that he would let his name remain antill my return; and that, in the meanting, he would pray over it, and reflect well upon it before he took this step. Having said: thus much, I bade tim fare well, and soon left there. I was away well, and soon left there. I was away ministration of Discipline, especially in Again, he has charge of the adminministration of Discipline, especially in easos of trial or dispute among brethren, may devastate a whole church. How tends its supervision over all such cases which presents at the altar of every church, in times of exigency, the mature entiren, in times of exigency, the matthe experience and skill of sanctified age, to advise and moderate parties, or, if need discord and ruin any it provent:

> PROPOSED PROTESTANT CHURCH AT ROME.—With pleasure we again refer, says the Wesleyan, to the interesting of the erection of a Protestant Church at Ramo. In a letter to the London Times, Dr. Burgess says, he has it in ower to state that a high dignitary of the Church of England will ho responsible for one thousand pounds towards the new Church at Rome; and that there is little doubt but that a ann equal to that sought for the contemplaed Roumin Catholis Italian Church in London will be raised in a short time. These important initiatory steps will admit of the recession; and the untirity of the measures will shortly place the Pope in the position either of permiting the creation of this intended Protestant Charch, or of prohibiting it, and thereby showing to the world the, intalerance of Popery, and by favoratish Protestantism. Should the effort, bowever, succeed, and evangelical Protestantism be tolerated in Rome, many, and signal advantages to truth may be expected to follow. The enemy will be attacked in the citudel

# The Church Suit-Dr. Smith.

Dr. Smith, lays before the public in the Richmond Christian Advocato the correspondence between the Southern and Northern Commissioners in reference to Arbitration. He does this to correct the impression sought so unjustly to be made by the Christian Advocate and Journal, threwing the South iu the fault before the Christian world, of "refusing an anticable adjustment" of the matter in controversy. Dr. Smith

It will be seen from this correspond-ence that we do not refuse an "amicable adjustment;" nay, that we carnesly desire it; but we refuse the terms prod by the Northern agonts, such we of the court in the recommendation made. His honor, Judge Nelson, stated on behalf of the court, at the time he recommended an "amicable adjustment," and as a reason for it, he could assure the Northern agents "that the legal difficulties supposed to be in the way of an amicable adjustment did not exist." George Lane, en behalf of agents, (June 2d,) acknowledged that the "le-

(June 2d.) acknowledged that the "legal difficulties have been removed by the recommendation of the court." Now what "legal difficulties" were approved to be in the way of a friendly settlement? Surely, not that the agents of the Methodist Episcopal Church were not the holders of the property and the legal defendants in the suit; or the parties duly authorized to settle the controversy in a friendly way, if it could be legally dene. They did not rest their defence upon any ground of this sort, as the "bill and answer" and the pleadings will shew. Nothing of this pleadings will shew. Nothing of this kind, therefore, could have been in the mind of the Court in declaring that "no mind of the Court in declaring that "no legal difficulties were in the way of an "amicable," that is, 'riendly "adjustment." What then? Why, nothing that we can conceive of, but the ground taken by the sgents, and stoutly defended by able counsel, that the Seuth had no legal right, and hence no right in capity, to a farthing of the property in question, and that therefore, they, as agents of the church, North, had no characteristic any nor. degal anthority to apprepriate any por tion of the property in their enated the benefit of the church, Sonth.

says the court, in advance of a formal and elaborate decree, and obviously with a view to superate such a decree one such legal difficulties lie in the way we recommend a friendly settlement; further assured the parties that the ld make such an adjustment between them legally binding, by ma-cing it (the settlement) the decree of ion committee should open afresh-le controversy, and having de-le legal issues already argued be court, proceed to dispose of vert woul make decisions on vious; that is, that we should settle this question by the aid of mutual friends, on the basis of strict equity; the legal issues which had been discussng laid entirely ont of the ac-We cheerfully accept the torms which will be looked for by the authors, court, and did so on the spet. will never appear.

flatly refusing the terms made out by the court.

"And again, suppose we mistake
the purpose of the court in its recomendation, and that the question of kmendation, and that the question of legal title is really an open and preliminary question, to be settled in advance of an "amicable adjustment," what motive have we to take this question from the courts of the courty to be settled by a committee of lawyers? Shall we btain gentlemen of experior legal shil-ities and Christian integrity to those it and those composing the Snpre Court of the United States. "Se long as the holders of this prop-

ety shall persist to make our legal title to any portion thereof a preliminary ty of our claim, so long will we adhere, as at present advised, to the position that the legal tribunals of a christian people shall settle this quotion. Bother than the contract of the cont cause, first, we cannot promise more competents tribunals to settle a legal question; and because, secondly, their decision will give more general satis-faction to all the parties represented in this case, and at the same time be more certainly to al. But so soon as the defendants are willing to concede, or entirely waive the question of legal title, we are willing to turn aside from these tribunals, and tottle whatever issues may arise touching the strice equity of by any other tribunal, constituted by mon supposed to be "good and true," and whose decisions shall be

REV. Z. HARMON The mission of mercy n REV. Z. Haamon.—The mission of mercy an which this Christian gentleman is engaged deserves the highest commendation; ney, more the most mealous co-operation on the most representation on the first the community. By his instrumentality the Marine Hospital and Parish Prima, hitherton neglected, are now bleased every Sabhath with preaching, and the House of Refings with catechetical instruction. For his late labous in Mobile, see his his latter in another column. Many people have books they could spare—good books which they have read or naver will read. I Let them he seek to Mr. H. fur a most secretiful appropriation. Any sent to or left at any sected appropriation. Any sout to or left at an

CALIFORNIA CAMP MEETINGS,-A OOTrespondent of the Northern Christian Advocate gives the following account of a Methodist Camp Meeting lately held

near San Jose: " Our camp meeting closed on Wedsesday of this week, having commenced on the preceding Friday ovening. The ground is ten miles westward from this city, at the base of the mountain range ding the valley in that direction. An oak grove afforded lts friendly shade, while not far distant a mountain atream of the purest water bubbled along its rocky bed, affording an abundant supply for man and beast. About fifteen tents, well crowded, were on the ground. Not a few lodged in and nuder warons, and the wide appreading

GENERALLY.—Our friends frequently write ns that they have money en hand to the amount of five dellars and inanswer, yes. To the credit of the Post number of conversions in proportion to the numbers in attendance. Brethren came from Santa Cruz, from Stockton, the result."

#### Methodist Press.

The editor of Christian Advocate and Journal, in reply to n charge of the New York Recorder, that " Methodism, for the purpose of Church extension and increasing its number of adherents, recoives irreligious persons into the Communion of the Church," says:

"We have a right to demand, at the hand of our opponents, that they examine our system throughout, and make their deductions from isolated taken together, and not from isolated we me miles away. Hark! what notes the pertions, or sections torn from their Licent! The distant deep toned inductive the provide for the reception of persons to the pe their deductions from its different parts. experienced the witness of sins forgiven. This the system professes to do for the encouragement of awakened persons, and the increased facilities which these privileges will afford them in the great work of seeking the salvation of their souls; not as the writer in question prosumes, to add to our numerical strength. Vliether this plan is right or wrong; we do not now inquire-the end contemplated is all that we here insist upon. At the same time we maintain that, ne-cording to the Methodist Discipline, no person can be received into full com

The Western Christian Advocate thus notices the new German Church in Cincinnati':

"Our German brethren of Cincinnati have partly finished a new brick church in place of the old wooden structure on Everett street. Its dimensions are forty three by seventy feet, and when com pleted will cost about \$4000."

When shall we in New Orleans bo able to make such a pleasing announcement? Surely the M. E. Church. there were unly three or four of our company who for whom the Church, North, are doing onising feer; others prayed about the age who prayed not aloud, prayed secretty. Some, under a delightfol same of their acceptance with God, their Henventy Father, became happy in His so much. In this city we might have, and onght to have, German Churches equal to those in Cincinnet. The edi-love. Oh! it was a selemn hour when grim-visaged to be contributed from Americans.

o be contributed from Americans.

and a helf feet in length.

Ship Island is some ten miles in length, present principal growth is live oak and pine, the former quite small, generally standing in small clumps here and there over the island. It is the residence of one lone man and his wife, a Mr. John Liddle and lady. For years past, until recently, he was there alone, the beamit of the island, had oollected a large stock of eattle around him and huilt good, comfortable houses. But, finding it "not good far men to be alone," he lighted his quiet, see girt home with the smiles of one of Eve's fair daughters. Mr. Liddle is a man of noble nature, kind, generous and hospitable. May be live long, and be happy with his clever wife and growing family.

I was curious te know of him how it was he had

that one of these lucky days be might stumble upon some of them, was the moving motive of his settlement there. When he first came he found an old improvement oear the centre of the island, and about it the bones of dead men; fragments of bomb-shells, which are there to be seen to this day, bomb-shells, which are there to he seen to this day, with a variety of other rubhish, that equally indicated others had preceded him to that spot.

Some years after his settlement on the island and after he had mede many fruitless attempts to

its last visit. Indeed, it was altogether ture and further determination whether we should a new face, and really a handsome one. This is the beginning of a new volume, and there has been n full redemption of premises in the enlargement of the appropriate arrangements made for the trin, was in the prosecution of his appearance of the compess. The Toy chartered, and appropriate arrangements made for the trin, was in the prosecution of his antered has increased. points of the compass. The Toy chartered, and appropriate arrangements made for the trip, we went on board on Thursday evening last, bag and beggage; here came the wardrobes, in the abape of manks, with double supplies—one for land and the other for sea. (By the way, I heard haly) in timated that some of our fair had on board, under lock and key, the Bloomer costume, as a bathing dress. Fretty good, thought I; vertainly not an interest the could be found. That he, Sima, after a certain battle in which he had participated while in the British service, and was wounded, had been placed. in-Port Royal Hospital, on the Island of Januaics, for treatment, and there met the old picate above mentioned, who was quite an old man, morose, si-ient, and very deeply efficient; often in want, but never complaining. In pity to the sufferer, he not unfrequently did him acts of kindness; norsed him,

unirequently did him acts in kindness; horsed him, when otherwise ha must have hean neglected, and thus was enabled to selten, by his sympathies, the oruel, relentless hand of affliction, destined very soon to terminate his earthly career.

The Spanish pirate's heart was touched to tendermass by these kind alternating, and now that he saw there was no possible loops for his recovery, and that confession could not learn him, he determined to do one generous act for Sinss before he died—called Sins to his side, told him that ha, the Spaniard, had been a pirate on the high seas all his sending for money he could have commanded it. Said he, "I am unable now to rendar you any pecuniary compensation for your kindnesses to me, but I can give you information that may be profitable

there was, just under the surface of the mand, the top of an old curbing, resembling that of a well; down in this cirblog, twenty feet, was a triangular divided between the members of our party, but w out a breeze afficient to counteract the this; and divided between the members of our party, but we when how and then the shiggish courses did had been discovered in our rendezvous, and principally by means of home-shells, thrown from a "head-wind," and it was not until twelve or four counter had empsed that the breeze changed a other and myself. Now that our money we so much safer than our persons, we escaped in a frail craft to a neighboring islated, from thence my comcraft to a neighboring island, front thence my com-

company overcame their entitiesty end we returned

For the N. O. Christian Advocate Thoughts for the Home Circle. BY LIZZIE NEWTON.

Many complain of woman's character, of her lack of solidity, and the triling nature of her acquirements. eknowledge there is ground for it; she does not occupy the exalted position which she should do. But let husbands, fathers, and brethers show their appreciation of a different course; let them raise the standard, and women will come up to it. When they disapprove of the current reading of the day, we will throw it aside; when Godey and Graham fall into disrepute with the terner sex, they will no longer be found in our parlors and by our firesides; but ship, as soon as it is known and proson our male friends read them, and even our pastors occasionally "look which were many, are all forgiven thee." over" them with interest, can you hope Peter fell, but he was restored, others for their banishment? Man makes wo-man what she is. Then, if he desires to see her what she should be, let him evince it by his conduct.

I have known a father to subscribe for some of the popular papers "devoted to literature," saying (as an oxouse, I presume) that he never read it himself, but it would plesse his daughters. And yet that man would complain that his ohlld had "no taste for reading auything but love stories." Who nourished that taste-who provided aliment for it? Who, but one who should have oheeked

very few can converse." Alas! this is likewise too true; but why is it so? Simply because she has not been expected to do otherwise. In female society, gouerally, man seeks, not instruction or improvement, but amuse-ment; and this he finds. Let him look for the former, and woman will make herself capable of accompanying him in the higher ranges of thought, and will rise and journey by his side. If man desires in woman a companion, if he seeks a being to think as well as feel with him, let him use efforts to make her so, and when he does this there will no longer be room to ery "tinsel, gloss, and glitter !" Louisiana, August 1851.

AUDURN, ALA. - By a letter from the pastor, Rov. C. D. Olivor, we are pleased to learn of a gracious revival in this intoresting charge.

Discovery of the Original Manuscript of the Acts of the Apostles.—A Greek sevant, M. Simunidas, pretends to have discovered, in the different convents in his country, the archives of which he has heen colleating, the place where the original of the Acts of the Apostles is hid. It ls, according to his account, in the small island of Antignaus, aituated at the entrance of the Sea of Marmora. M. Simonidas has demanded from the Porte, through the Sardinian Minister, an authorization to make a rasearch in that spot, in the presence of the learned men of Constantioople; he particulerly wishes to have some geologists with him, in order to be the better able to prove that the earth has not been moved for ages in the spot which has not been moved for ages in the spot which has the lead to fresh schisms in the Church, has besought the Porte to reliase the authorization asked for. It is, however, thought that it will be granted, and that the search will commence immediately. (Galiginani's Messenger.

Prison and Hospital Thoughts.

Hear Bro. McTycire.—This place is most delightfully situated on an elevated hank, which gives us n very extensive view of the bay that is spread out before the visitors. The boarding house is kept by Mr. Freeman, who takes great pains towards the comfort of his boarders. The time is not far distant, when this and several other most desirable watering places ou this bay and the akes will be resorted to, in preference to long jaunts to the more bustling and dusty cities North, for a summer retreat. The neat cottages and the well-nrranged private houses, with a few flower, gardens, give it the appearance of a little country village; and, what speaks still more for this place is a commodious chapel, in which we expect to have the privilege of worshipping God on the holy Sabhath.

On my way to this place I called on

Dr. Hamilton, who is pastor of the Methodist Church in Mobile. He received me kindly, and as soon as I made ceived me kindly, and as soon as I made known to him, my views and wishes, he proffered to go with me to the United States Marino and City Hospitals and the County Jail. Being prepared with a lot of good readable matter for the inmates of said houses, we started off for the Hospital. This house is large and commodious, well suited for the comfort of the weather-benten and tempest tossed mariner, when far from home and among strangers. We found Captain Walker-much the gontleman, and when k was made known to him that it was in contemplation to institute a Library and invite Divine Worship for the good of the afflicted inmates, he halled the enterprise with all his heart and prom-

ised to give it his unremitted attention. Our next call was at the City Hospital, which is kept in good order. It is well constructed, and has at this time. about fifty on the sick list. They have a few books for the use of the isolated and-afflicted-stranger, but the supply falls far short of the daily demands of the convalescent and those who are very desirous to have something to read and instruct them in such things as will have a direct tendency to relieve them from those tedious days and months that hang so heavily on their minds while out off from all the domestic and religious employments which many of them onjoyed whon the sun of prosparity should on their own or their father's ottage. After giving the steward and others every assurance that a suitable collection of books and religious instruction would be supplied, and after dealing out the books we had with us, ve continued our visit to the county ail. Here we'also found the convicts without a library-or-a chaplain.

In the County Prison, of Mobile, there are young and middle aged men who, at one time, stood high in society and shared much of the confidence of the commercial community-but in an ovil hour, under the influence of a well timed temptation by the great enemy of moral good, they fell, and great is their full. But shall they be given up by their follow man? No. We think there are a thousand voices responding. Wa will not give them or any others in like situation up; the press with her teu thousand admonitions all agree with the good and generous in saying, they munt not be left within their iron bound cells to mourn over sin and pine away in sol-

We have the Bible and some well written essays which will, when handed to them, bid them look up and believe that there is a merciful God who delights to pardon, and a good and gencrous community who will forgive, and again receive them into their fellow eans they may be restored. Let u uso the means; this is the prayer of

August 21,"1851;5

#### For the N. O. Christian Advocate. Tribute.

At a meeting of the Senior Class of Randolph Macon College, Va., held on the entertalument given to the Commis-the 18th day of August, 1851, Mr. R. M. sioners and distinguished foreigners by Mallory was called to the chair, and S. the Lord Mayor and Corporation of Lander appointed Secretary. Mr. H. S. #### London Correspondence. LETTER VII

Since I last wrote to you, there has not much of moment transpired in the British or European world. The Eoelesiastical Titles Bill has received the royal sanction. The question of free admission into Parliament has been practically settled for the present, by the determination of the Honse of Commons not to almit Mr. Alderman Salmons, as not liaving taken the noeessary oaths. The House of Com-mons has adopted an address to the Queen, praying for a respite till May 1, of the Crystal Palace, which has been replied to on the part of the Queen, by a promise to direct the nocesssary inquiries to be made, in order to determine how far it is practicable to comply with the wishes of her "falthful Commons."

The revalations contained in Mr

Gladstone's two letters to the Earl of Aberdeen, on the subject of Neapolitan despotism and State prisons, have made a most profound sensation in this country. Although they have searcely been published a fortnight, three editions, I believe, are sold off, or all but sold ished and faithful son of the Pepe-his kingdem is entirely under ecclesiastical influence and control, and certainly a moro remarkable and instructive stance of the practical operation and development of Popich principles he never been exhibited than is, in this ago of illumination and liberty, afforded by the case of Naples-20,000 State prisoners in butrid jails-the most intelligent and liberal patriots of the country, being chained together, two and two, night and day, without a moment's sep aration for any purpose—a whole oppe-sition majority imprisoned or oxiled by arbitrary will in a day—all processes of law despised or forsakeu—all Intelligence of crime or punishment withhelda constitution abrogated at a strekesuch are some of the facts brought out in those lotters, written by a high con-servative and semi-papist like Mr. Glad stone, the momber for Oxford University. And in the letters nething is said but what Mr. Gladstone had learnt by personal investigation; nor are the enermities and oppressions of unhappy Sicily taken at all into account. Of the craven cowardice of King Bomba and his army, the Romau campaign gave ample evidence. But Mr. Gladstone's lotters prove Naples to be as tyrannical and cruel as it is craven. Woll is it called by the Spectator the "felon-power" of Europe; and Britain may be thankful now that is the only Kingdem or State of any pretensions to civilization in the world which has sent uothing to the Great Exhibition, and uot only doue this, hut refused passports te any of its subjects who might wish to visit the Exhibition

Bad, however, as Naples is, recent disclosures published in the Times have proved that the prison cruelties of Rome tre searcely inferior, though free republioun France professes to be the guar-dian-of-the-city. In the "cternal city" the desire, the passion for freedom, grows deeper, stronger, and more universal, and will undoubtedly some day accomplish its own satisfaction.

In Frauce, the Chamber has fixed the

10th August for the day of its prorogation until the 10th of November. A committee has been ohosen to act in the interim as a guardian of the Constitution, and as a watch and check upou the Executive. Few names of great distinction are upon it; the mutual jealousy of parties having availed to ex-

olude the most noted leaders of cach, Political interest in France, however,

has been absorbed in the excitement oceasioned by the return-fete given to the Lerd Mayor and city authorities of London. Those functionaries, together with the Exhibition Commissioners, have been invited to Paris, in return for London. The Paris fetes, however, England was admirably represented in Paris by the accomplished Earl Gran ville, who, the son of a late able and veteran Embassador from Britain to France, himself partly educated in France, and married to a French lady, and at the same time a British Minister of State, of an eminently British mould of inlad, delivered in admirable Free ch, an clegant tribute to the French people, a tribute, too, as just as it was olegant. The London visitors have been taken to see all the notabilities of Paris and its onvirons, and every where have been received with enthusiastic applause. The French seem determined to make the very most of a comparatively recent friendship. The President, a few days ago, did his part in this series of fetes, by gracefully and magnificently enter-taining the island guests at his delight

ful palace of St. Cloud. Since my last several events of peca-liar interest have transpired in the Methodist world. The Convectional Comniltees, preparatory to the Conference, meot at Newcastle on Tyine. These committees are, (with one exception, the Book Committee,) composed of an equal number of laymen and ministers, and have the charge of Connectional funds, and all general interests, apart from the mero theology and disolplinary notice of the pastorate. On the Saturday fellowing the date of my last, the Catachamen Committee met. This, committee is under the chairmanship of the Rev. S. Jackson, the Heuse Governer of the Richmond Theological Institution. The next Monday the Day School Committoe met for nine or ten hours. The principal subject of conversation and inquiry was the Normal Institution, nor nearly completed at Wostminster, the final cost of which will he about £86,000 We have received a similar tribute to will be able to accommodate one hun-

da medel village school, the whole these schools to be prepared for the increase schools to be properted for the struction of 2200.sekelars.

The next day, (Tuesday) at the Mis-

onary Committee of Review, Doctors unting and Alder, formally announced The next department of Review, onary Committee of Review, onary Committee of Review, onary Committee of Review, on the 16th October. Brethren, friends mid minister the Missionary Society. Both sired with honer. Dr. Richey, of Canlifed with honer. Dr. Richey, of Canlifed with honer. Dr. Alder is held in stion in which Dr. Alder retires not about by frem labor, but only from one dutely frem labor, but only from one dutely frem labor. Dr. Buntiag department of lubor. He has now been a resident first-two years, and resident ministor fifty-two years, and the present time superintendent in the present time superintendent of the alegain grown ministers who accorded to the alegain grown forerence," came in by regular turned conference,

erence with great and yet easy des-afterly General Intelligence.

Dr. Beaumont-a man of temper and lencies rather than of principleslall his life—long epposed to the t, undoubtedly possessed of talents dan effective, though far from chaste, cuce was declared, for the presincapable of liolding the office of butchered remains of our America, fallow citizens beratter of Cuba, and anxious to obtain the perintendent, in consequeuee of what as judged to be his unfaithful connince at agitation in his Circuit during the space at agitation in his Circuit during the past-year. For a similar reason, the st Conference had pronounced a for all consure upon him, and he had then edged himself to do differently and citer.

Mr. Daniel Walton, also, incurred the consure of the Conference for having published an iujudicious and illumed panaphlet, ventilating dangerous ovelties as to discipline and injurically and unfairly reflecting upon his other and bound to pursue.

Beratice of Cuba, and anxious to obtain the butchered remains of our American fallow citigens from Havass, with the view of giving them public interment, was held Thursday venaing at King's Pavillan. J. L. Cermian, Enq. presided.

Vice Presidents.—Latayette—D. Austin, Furst Municipality—A. J. Girot; Second Municipality—J. Hewing; Third Municipality—W. H. Wilder. Win. M. Smyth, John H. Al uente and Durant DaPoate, were nominated as Secretaries.

The Chairmon explained to the assembly the nature of the cull which brought them togeth r, on where Go. Wheat, being loudly called for, addressed the meeting in one of the most unionated in behalf at Cuban liberty. A series of resolutions were then read, indicative of the course which all true-hearted American citizens were called on and bound to pursue.

Delte publishes the subjoined important dispatches. The second paragraph refers, doubtless, to es. The second paragraph refers, doubtless, to calla for explanation, and urders given about the time the Pumpero sailed:

WASSINGTON, Tuesdey, August 2:

The United States steam Irigata Sarunao sails to-day from Norfolk, undar orders from the Government here, to demand an explanation from the Guban abtherities with regard to the racent massacte of American citizens, us well as of the cirounstances of firing into the Falcon.

The Government has called for an explanation from the United States effects at New Orleans, of their conduct in permitting the Pampero to leave Naw Orleans loaded with men, which thay must have known were interided to invade Guba. Special orders have now been leaved to stop all armed expeditions that may be fitted out against Cuba.

Dispetches have been received from Mr. Owens, the Amarican Consul at Havana, which state that the prisoners shot-on-tha-18th-had a trial befors their execution.

American Art Union.—The Amarican Att A very able committee has been apinted to take into consideration and pert upou the memorials, in reference several proposed, alterations in the ctails of our coonomy, which have been rwarded to Conference from Circuits

from private individuals. Pardon the poverty and haste of this ter. The pressure of business has egun to tell upon the frame of an in-aid. X. Y.

A. D. 540, Anthemjus, an architect, arranged several caldrons of water, each covered with the wide bottom of a leathern tube, which rose to a narrow top with pipas extended to the rafters of the adjoining building. A fire was kindled beneath the caldrons, and the house was shaken by the efforts of the steam ascending the tubes. This is the first notice of the power of steem recorded. In 1543, June 17, Blasco De Garoy tried a steamboat of 209 tons with tolerable success at Barcelona, Spain. It consisted of a caldron of boiling water and a moveable wheel on each side of the ship. It was laid aside as impracticable. A present, however, was made to Garoy.

Is 1778 Thomas Paine lirst proposed this application in America. In 1781 Marquia Jouffroy constructed one on the
